Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and

CARDE PACIFIC CORP (Continued) **1000185642**

corrective action activities required under RCRA.

Site Name: BOBCAT OF CERRITOS INC
Violation Date: 04-20-2017
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Description: Failure to complete and electronically submit a business plan when storing/handling a hazardous material at or above reportable quantities.
Violation Notes: Returned to compliance on 09/20/2017. OBSERVATION: A business plan has not been received by the CUPA. CORRECTIVE ACTION: Submit the business plan electronically in the California Environmental Reporting System (CERS) and implement immediately.
Violation Division: Los Angeles County Fire Department
Violation Program: HMRRP
Violation Source: CERS

Site ID: 99430
Site Name: BOBCAT OF CERRITOS INC
Violation Date: 06-23-2015
Citation: 22 CCR 12 66262.34(d) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(d)
Violation Description: Failure to dispose of hazardous waste within 180 days (or 270 if waste is transported over 200 miles) for the generator who generates less than 1000 kilogram per month, but more than 100 kilograms per month.
Violation Notes: Returned to compliance on 06/26/2015. OBSERVATION: Observed waste oily absorbent accumulating for greater than 180 days. Facilities who generate less than 1000 kg of hazardous waste per month and do not exceed 6000 kg of waste stored on site at any time may store waste on site up to 180 days. CORRECTIVE ACTION: Immediately contact a licensed hazardous waste hauler to dispose of this waste under manifest and submit a copy of the manifest to the CUPA by 7/23/15.
Violation Division: Los Angeles County Fire Department
Violation Program: HW
Violation Source: CERS

Violation Date: 06-23-2015
Citation: HSC 6.95 25508(d) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(d)
Violation Description: Failure to complete and/or electronically submit a business plan when

BOBCAT OF CERRITOS INC (Continued) **S113162452**

storing/handling a hazardous material at or above reportable quantities.

Violation Notes: Returned to compliance on 12/10/2015. OBSERVATION: A business plan has not been received by the CUPA. The facility was previously sent a notice/request from the CUPA for the submittal of a business plan by 4/1/15. Observed one 200-gallon used oil tank, two 118 cu. ft. acetylene cylinders, three 121 cu. ft. acetylene cylinders and two oxygen cylinders (volume not known, operator to determine). CORRECTIVE ACTION: Submit the business plan electronically in the California Environmental Reporting System (CERS) and implement immediately.

Violation Date: 06-23-2015
Citation: 40 CFR 1 265.173 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.173
Violation Description: Failure to properly close hazardous waste containers when not in active use.
Violation Notes: Returned to compliance on 06/23/2015. OBSERVATION: Observed two 55-gallon drums of waste oily absorbent without any lid. All hazardous waste containers shall be closed at all times except when adding or removing waste. CORRECTIVE ACTION: Immediately close these containers and ensure all hazardous waste containers are closed when not adding or removing waste. Operator closed the drums at the time of inspection.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Violations:
Site ID: 47910
Site Name: Melcast Litho
Violation Date: 04-20-2017
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Description: Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.
Violation Notes: Returned to compliance on 04/20/2017. OBSERVATION: Observed one 55-gallon used oil container with no hazardous waste label and one 55-gallon used oil container with a blank hazardous waste label. All hazardous waste containers shall be marked with the following information: 1) the words G Hazardous WasteG ; 2) name and address of generator; 3) hazardous properties; 4) physical state; 5) composition (contents); 6) accumulation start date. CORRECTIVE ACTION: Immediately label these containers and ensure that all hazardous waste containers are marked with all the required information. Operator completed new labels for the containers at the time of inspection.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Primary Waste Type:	Inert/Influent or Solid Wastes that do not contain soluble pollutants or organic wastes and have little adverse impact on water quality. Such wastes could cause turbidity and siltation. Uncontaminated soils, rubble and concrete are examples of this category.
Primary Waste:	STORMS
Waste Type2:	Not reported
Waste2:	Stormwater Runoff
Primary Waste Type:	Inert/Influent or Solid Wastes that do not contain soluble pollutants or organic wastes and have little adverse impact on water quality. Such wastes could cause turbidity and siltation. Uncontaminated soils, rubble and concrete are examples of this category.
Secondary Waste:	Not reported
Secondary Waste Type:	Not reported
Design Flow:	0
Baseline Flow:	0
Reclamation:	No reclamation requirements associated with this facility.
POTW:	The POTW Does not have an approved pretreatment program. Some POTWs may have local pretreatment programs that have not been approved by the regional board and/or EPA.
Treat To Water:	Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity:	Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Environmental Interest/Information System:

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

File Location:	Regional Board
Potential Media Affected:	Other Groundwater (uses other than drinking water), Soil, Soil Vapor
Potential Contaminants of Concern:	Not reported
Site History:	The Alondra Industrial Park (AIP) site was occupied in the early 1970s by several industries involved in metal recycling, sheet metal fabrication, manufacturing of aluminum products, and precious metal recycling. Currently, only precious metal recycling activities are conducted at the AIP site. Site investigations started in the early 1990's. Site soil matrix, soil vapor and groundwater have been impacted with volatile organic compounds (VOCs). In 1997, approximately 870 tons of VOCs-impacted soil was excavated and disposed to an off-site permitted facility. A soil vapor extraction (SVE) system, including four SVE wells operated from 2003 to 2016. To address VOCs in saturated soil and groundwater, a dual-phase extraction (DPE) system operated from 2010 to 2014. The DPE system included ten groundwater extraction wells and seven additional SVE wells. Extraction of impacted groundwater created drawdown of the water table to expose impacted soil to soil vapor extraction. Groundwater was treated and discharged under permit with the Los Angeles County Sanitation District. A sub-slab depressurizarion system (SSD) operated at the site from 2010 to 2016 to mitigate the effects of soil vapor intrusion into indoor air at the site's buildings, and an off-site commercial building. The SSD system was shutdown in 2016 to allow VOCs concentrations to reach steady state equilibrium. Soil vapor samples were collected during four sampling events following shutdown, at approximately 9, 18, 26 and 34 weeks, approximately. The VOCs concentrations detected during the four sampling events were below their respective "risk-based shutdown goals" (RBSG); therefore, the SSD system was allowed to be shutdown temporarily in August 2016. However, in 2018, VOCs concentrations in soil vapor rebounded back above the RBSG. In March 2019, the SSD system was turned back on. Indoor air samples will be collected from the on-site buildings. Additional indoor air investigations will be conducted prior to permanently discontinuing the SSD system, and to protect the health of current site workers. To further treat VOCs in groundwater, enrollment under Waste Discharge Requirments (WDR) Order

HERAEUS PRECIOUS METALS NORTH AMERICA LLC (Continued) **S107147543**

No. R4-2014-0187 was granted on November 19, 2014 to conduct injection of sodium lactate and bioaugmentation organisms. Injection activites were conducted in January 2015 and February 2016, under Monitoring and Reporting Program No. CI-10066. On April 28, 2017, coverage under WDR Order No. R4-2014-0187 was terminated because injection activities were completed in February 2016 and no additional injection activities were planned. However, continuous site monitoring is ongoing. Based on the results of groundwater monitoring activities, concentrations of PCE and TCE have been decreasing. Daughter products such as cis-1,2-dichloroethene and vinyl chloride have been detected, suggesting that reductive dechlorination is ongoing. For more information, please contact Luis Changkuon at (213) 576-6667 (please leave a message) or luis.changkuon@waterboards.ca.gov Para Informacion en Espanol, por favor contactar a Luis Changkuon al (213) 576-6667 (por favor dejar un mensaje) or luis.changkuon@waterboards.ca.gov

Evaluation:
Eval General Type: Compliance Evaluation Inspection
Eval Date: 08-20-2013
Violations Found: Yes
Eval Type: Industrial Storm Water Compliance Evaluation
Eval Notes: Performed a compliance inspection on August 20, 2013, and found the

HERAEUS PRECIOUS METALS NORTH AMERICA LLC (Continued) **S107147543**

	facility fairly clean and organized except for metal drums and rusted metals exposed to precipitation without BMPs.
Eval Division:	Water Boards
Eval Program:	INDSTW
Eval Source:	SMARTS
Eval General Type:	Compliance Evaluation Inspection
Eval Date:	11-27-2001
Violations Found:	No
Eval Type:	Industrial Storm Water Compliance Evaluation
Eval Notes:	Facility is in the process of amending their SWPPP. At the time of inspection a certification page, flow vectors on the site map and the current stormwater prevention team was missing.

Environmental Interest/Information System:
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Completed Info:
Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Preliminary Endangerment Assessment Report
Completed Date: 07/08/1998
Comments: DTSC recommends delineating the lateral and vertical extent of VOC, petroleum hydrocarbons, PAHs and metals contamination at the site.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Preliminary Endangerment Assessment Report
Completed Date: 07/16/2007
Comments: The review of the 1998 PEA indicated that additional soil and soil vapor sampling is still necessary.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Preliminary Endangerment Assessment Workplan
Completed Date: 12/11/2007
Comments: Workplan describes soil gas and soil sampling to address data gaps.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Fieldwork
Completed Date: 12/17/2007
Comments: Soil gas, soil sampling work.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Preliminary Endangerment Assessment Report
Completed Date: 02/24/2010
Comments: Based on soil and soil gas data, there is no further action needed at the site.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Fieldwork
Completed Date: 09/09/2009
Comments: Additional soil gas sampling has been completed.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: No Further Action Letter
Completed Date: 02/24/2010
Comments: DTSC issued a No Further Action letter based on results from the PEA sampling activities and risk assessment.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Standard Voluntary Agreement
Completed Date: 05/14/2007
Comments: DTSC and Diesel ReCon Company executed a Voluntary Cleanup Agreement

SERTA MATTRESS (Continued) **1000379496**

for additional sampling activities.

Completed Info:
Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: RCRA Facility Assessment Report
Completed Date: 03/25/2010
Comments: The facility obtained a Hazardous Waste Facility Permit for the sole purpose of storing hazardous waste for longer than 90 days. The facility held the permit for 5 years, and then requested to be removed from the permitted status; the facility is currently operating under generator status. The facility clean closed the hazardous waste storage area in accordance with a DTSC approved closure plan. The DTSC performed a PR of readily available agency and facility records, and a VSI to evaluate past and potential releases of hazardous constituents from the SWMUs and AOCs identified. No evidence of any release of hazardous materials considered a threat to human health or the environment as a result of recent or past on-site activities. Based on a review of files associated with this facility, and the VSI, no further action is recommended.

Treat To Water:	Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity:	Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Violations:

Site ID:	393763
Site Name:	GENERAL GRINDING & MFG CO LLC
Violation Date:	05-25-2018
Citation:	HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)
Violation Description:	Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount

ALCAN RUBBER & CHEMICAL CO. INC. (Continued) **S103976686**

	greater than one kilogram for more than 90 days.
Violation Notes:	Returned to compliance on 06/21/2018. OBSERVATION: 25 x 55 gallon drums & 10 x 5 gallon pails of metal sludge waste was observed accumulating on site. There were no labels showing accumulation time. Manifest shows pick up gaps longer than 180 days. CORRECTIVE ACTION: Dispose of hazardous waste and submit a copy of the manifest/receipt to the CUPA.
Violation Division:	Los Angeles County Fire Department
Violation Program:	HW
Violation Source:	CERS
Site ID:	393763
Site Name:	GENERAL GRINDING & MFG CO LLC
Violation Date:	05-25-2018
Citation:	HSC 6.5 Multiple - California Health and Safety Code, Chapter 6.5, Section(s) Multiple
Violation Description:	Hazardous Waste Generator Program - Release/Leaks/Spills - General
Violation Notes:	Returned to compliance on 06/21/2018. OBSERVATION: Appropriate controls and practices are not in place to prevent spills from grinding machines. Observed saturated oily rags on the floor at the perimeter of several grinding machines. Several old grinding machines spew out oil when in use. CORRECTIVE ACTION: Submit photos/documentation to the CUPA demonstrating that the tank or secondary containment system meets all requirements identified above.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 12/30/2020

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 12/30/2020

Federal CERCLIS list

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 04/03/2019

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA’s Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

RCRA-VSQG: RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

State- and tribal - equivalent CERCLIS

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing
A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

HAZNET: Facility and Manifest Data
Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing

Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

WDR: Waste Discharge Requirements Listing

In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data
Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991

EDR’s GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

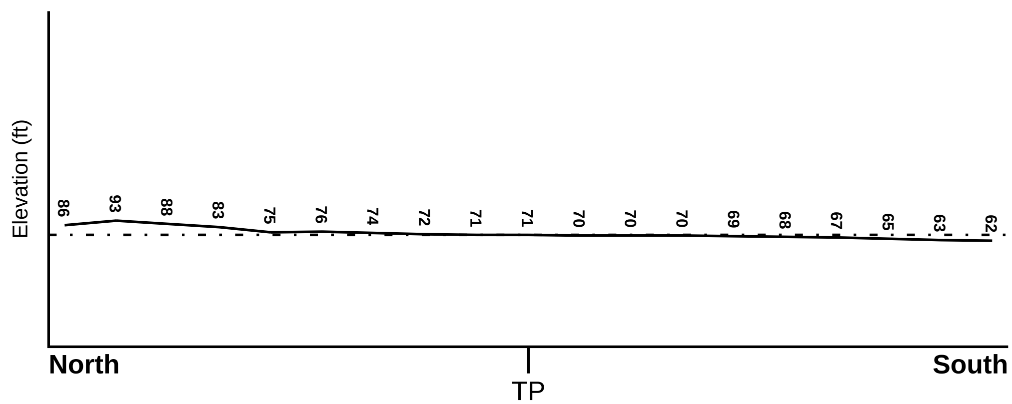
TOPOGRAPHIC INFORMATION

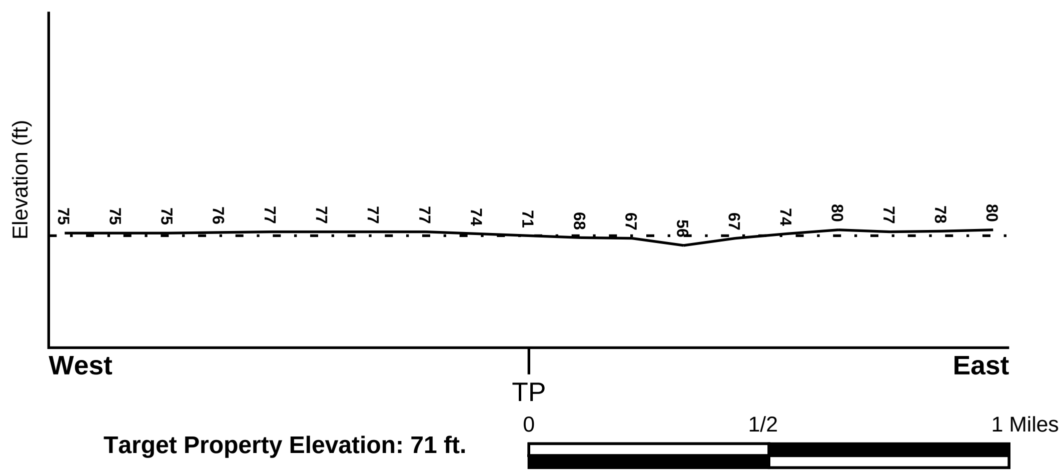
Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General ESE

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES





Target Property Elevation: 71 ft.

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Flood Plain Panel at Target Property	FEMA Source Type
06037C1843F	FEMA FIRM Flood data

Additional Panels in search area:	FEMA Source Type

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
WHITTIER	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Location Relative to TP:	1/2 - 1 Mile North
Site Name:	BROWN PACIFIC WIRE
Site EPA ID Number:	CAD044052801
Groundwater Flow Direction:	VARIABLE IN THE NEAR-SURFACE SEMI-PERCHED AQUIFER AND NE IN THE ARTESIA AQUIFER AT A SITE LOCATED 1/8 MILE TO THE NORTHWEST.
Measured Depth to Water:	73 feet in the Artesia aquifer at a site located approximately 1/8-mile to the northwest.
Hydraulic Connection:	The site is underlain by the Bellflower aquiclude at a depth of approximately 20 to 40 feet above mean sea level.
Sole Source Aquifer:	No information about a sole source aquifer is available
Data Quality:	Information is inferred in the CERCLIS investigation report(s)

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

Not Reported		

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

Era:	Cenozoic
System:	Quaternary
Series:	Quaternary

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

Soil Component Name:	URBAN LAND
Soil Surface Texture:	variable
Hydrologic Group:	Not reported
Soil Drainage Class:	Not reported

Hydric Status: Soil does not meet the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel:	Not Reported
Depth to Bedrock Min:	> 10 inches
Depth to Bedrock Max:	> 10 inches

Soil Layer Information							
	Boundary			Classification			
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil	Permeability Rate (in/hr)	Soil Reaction (pH)
1	0 inches	6 inches	variable	Not reported	Not reported	Max: 0.00 Min: 0.00	Max: 0.00 Min: 0.00

OTHER SOIL TYPES IN AREA

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

Soil Surface Textures: loam
clay
silt loam
loamy sand
sandy loam
fine sand
clay loam
gravelly - sandy loam
coarse sand
gravelly - sand
sand

Surficial Soil Types: loam
clay
silt loam
loamy sand
sandy loam
fine sand
clay loam
gravelly - sandy loam
coarse sand
gravelly - sand
sand

Shallow Soil Types: fine sandy loam
gravelly - loam
sand
silty clay

Deeper Soil Types: stratified
clay loam
silty clay loam
gravelly - sandy loam
coarse sand
sand
weathered bedrock
very fine sandy loam

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory

Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

OTHER STATE DATABASE INFORMATION

Groundwater Ambient Monitoring & Assessment Program
State Water Resources Control Board
Telephone: 916-341-5577
The GAMA Program is Californias comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Heath Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

Water Well Database
Source: Department of Water Resources
Telephone: 916-651-9648

California Drinking Water Quality Database
Source: Department of Public Health
Telephone: 916-324-2319
The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

California Oil and Gas Well Locations
Source: Dept of Conservation, Geologic Energy Management Division

STREET AND ADDRESS INFORMATION

APPENDIX D: QUALIFICATIONS

PARTNER

Brooke Hasty
Staff Scientist

Education

B.S., in Environmental Science with a minor in Biology, California State University, Long Beach

Highlights

5+ Years of Environmental Industry knowledge and experience in:
Phase I Environmental Site Assessments
Transaction Screen Assessments
Environmental Desktop Reports

Training

24 Hour AHERA Building Inspector Certificate

Experience Summary

Ms. Hasty currently holds the role of a Staff Scientist and her responsibilities include thorough site assessment and technical report writing in line with the American Society of Testing and Materials (ASTM) standard and US Environmental Protection Agency's All Appropriate Inquiry (AAI) as well as customized client formats. Ms. Hasty prepares Phase I Environmental Site Assessment on various property types, including multifamily and commercial properties.

Ms. Hasty has a background in Environmental Science, with course work that focused on biological and geological sciences. She also has further coursework in environmental field and laboratory work, biology, and environmental law. Ms. Hasty has over one year of experience in conducting scientific data collection and report writing. In her role as Staff Scientist, she uses her knowledge and skills to create accurate and detailed reports.

Project Experience

Ms. Hasty has one year of experience performing due diligence assessments for a variety of property types, as detailed above. For each assessment she reviews the condition of the building structure and systems and develops a thorough report.

Multi-Family Housing Complex, Los Angeles, California. Ms. Hasty performed a Transaction Screen for a 25-unit multi-family housing complex on a 0.232-acre lot.

Adams Town Homes, Glendale, California. Ms. Hasty performed a Phase I Environmental Assessment for a 58-unit multi-family housing complex on a single-acre lot.

Former Coco's Restaurant, Camarillo, California. Ms. Hasty performed a Phase I Environmental Assessment for a 5,643 square-foot former restaurant building on a 0.90-acre lot.

Commercial Retail Center, Los Angeles, California. Ms. Hasty performed a Phase I Environmental Assessment for a 17,131 square-foot commercial retail center with multiple retail stores and a former dry cleaner.

PARTNER

Ryan Miller
Project Scientist

Education

Bachelors of Science in Design (B.S.D) Housing and Urban Development, Arizona State University

Registrations

AHERA Building Inspector

Highlights

Over 13 years in the environmental consulting and urban planning industries
Over 2 years conducting Freddie Mac and/or Fannie Mae environmental assessments, asbestos sampling, lead-based paint sampling, and radon sampling
Phase I Environmental Site Assessments
Transaction Screen Assessments
Environmental Desktop Reports
Peer Reviews

Experience Summary

Mr. Miller has more than five years project experience in the environmental consulting and urban planning industries conducting and reviewing Phase I Environmental Site Assessments (ESAs), Environmental Transaction Screens (ETSs), Database Reviews (DRs), Peer Reviews (PRs), and Historical Records Reviews (HRRs). Mr. Miller currently has the role of Project Scientist and has significant experience in due diligence assessments for a variety of property types and the needs and requirements of varied number of reporting standards, including ASTM standards, EPA's All Appropriate Inquiry (AAI), and customized client formats.

Mr. Miller has performed Phase I Environmental Site Assessments and other related environmental assessments for a number of different commercial, residential, and industrial properties ranging in scope and complexity. Specifically, Mr. Miller has performed environmental assessments on multi-family developments, assisted living facilities, medical facilities, commercial office buildings, gasoline stations, shopping centers, airports, manufacturing facilities, warehouses, and industrial parks. Mr. Miller has performed numerous assessments involving issues such as soil and groundwater contamination; asbestos identification and sampling; underground storage tank (UST) identification and research; mold assessment; radon measurement; and lead-based paint (LBP) identification and sampling.

In addition to the environmental consulting industry, Mr. Miller has eight years of experience as an urban planner which included reviews of various plans, ESAs, and other relevant documents to ensure all environmental requirements were met in development projects.

Project Experience

North I-25 Corporate Center, Albuquerque, New Mexico. Mr. Miller performed a Phase I Environmental Site Assessment on a 60-acre industrial site which was formerly utilized as a municipal land fill, and then developed into a 500,000 square foot semiconductor manufacturing plant in the 1980s. Significant environmental issues associated with this site included remediation associated with landfill waste, tetrachloroethene (PCE) contaminated groundwater beneath the property which had migrated from an off-site source, and the use and storage of hazardous substances associated with the former manufacturing plant operations which included multiple underground storage tanks (USTs).

Shultz Steel Company, Los Angeles, California. Mr. Miller performed a Phase I Environmental Site Assessment on a 24-acre industrial metal forging and finishing site. This facility consisted of seven industrial buildings totaling approximately 532,000 square feet. Significant environmental issues associated with this site included the bulk storage and handling of petroleum products and other hazardous substances; multiple subsurface investigations analyzing soil, groundwater, and soil gas related to metal dust and general manufacturing activities; two former underground clarifiers; an oil pipeline located beneath the property; and eight former USTs with multiple releases impacting soil and groundwater.

Robert Humphrey Machine Shop, Tucson, Arizona. Mr. Miller performed a Phase I Environmental Site Assessment on an industrial facility that included a machine shop, hydraulic equipment repair shop, and a former gasoline/automobile repair facility developed in the 1950s. Significant environmental issues associated with this facility included: the historical use of solvents and other hazardous substances, historical seepage pits, vehicle maintenance operations and below-grade hydraulic lifts, painting operations, and former waste oil and gasoline USTs with associated soil contamination.

Red Cliffs Mall, Saint George, Utah. Mr. Miller performed a Phase I Environmental Site Assessment on a 390,000 square foot shopping mall constructed in 1990.

Lovelace Respiratory Research Institute, Albuquerque, New Mexico. Mr. Miller performed a Phase I Environmental Site Assessment on an 118,000 square foot medical research facility. This facility's research laboratories ranged in various levels of biocontainment precautions (Biosafety Levels) that were set in place to isolate dangerous biological agents. On-site operations consisted of chemical/nuclear terrorism studies, environmental studies and public health, basis mechanisms of disease, pharmaceuticals (therapeutic and vaccines), respiratory health risks, aerosol technology and behavior health.

Lantana Apartment Homes, Las Vegas, Nevada. Mr. Miller performed a Freddie Mac Phase I Environmental Site Assessment on a 23-acre, 516 unit apartment complex which included radon and asbestos sampling.

Chrisman Development Portfolio, Southern Arizona. Mr. Miller performed three Phase I Environmental Site Assessments on three apartment complexes which included asbestos and lead-based paint sampling.

Arcadia Palms Apartments, Phoenix, Arizona. Mr. Miller performed a Phase I Environmental Site Assessment on an 112,500 square foot apartment complex which included radon and asbestos sampling. This site suffered from extensive water damage with significant mold growth. Additionally, groundwater beneath this property had been impacted by a regional groundwater contamination.

rmiller@partneresi.com

Gavin S. Jones, EP
Principal

Education

Bachelor of Science, Environmental Science, Emphasis in Regulation and Economics
University of California, Riverside

Registrations

Registered Environmental Assessor - California
OSHA 40-Hour Hazwoper
AHERA Certified Asbestos Building Inspector

Training

Technical Writing Course - 1995

Highlights

More than 22 years of experience in the environmental and engineering consulting field.
Equity/Acquisition Property Condition Assessments and Phase I ESAs.
Agency Lender Acquisition Property Condition Assessments and Phase I ESAs.
Soil and groundwater contamination investigations and remediation.
Regulatory compliance projects.
Ordnance Removal Engineering Studies.

Experience Summary

Mr. Jones currently serves as a National Client Manager for Partner Engineering & Science, Inc. providing solutions to clients' physical condition and environmental due diligence and engineering needs. He is responsible for ensuring consistency and quality and on-time report delivery of due diligence and engineering services provided by Partner. Current day to day responsibilities include project oversight, staff supervision, problem solving, report review, and client management.

Mr. Jones has served as an environmental scientist, project manager, or senior author for projects associated with over 7,000 real estate transactions. Mr. Jones is familiar with the due diligence requirements of a varied number of reporting standards, including ASTM, EPA's All Appropriate Inquiry (AAI), Fannie Mae DUS, HUD, and Freddie Mac. He also has experience with fulfilling numerous customized client scopes of work. Mr. Jones' due diligence resume includes experience at all levels including advising traditional and agency lenders, real estate investors, and other client types through the following product types: Phase I Environmental Site Assessments, Environmental Transaction Screens, Phase II Subsurface Investigations, Remedial Cost Estimates, Remediation Design, Property Condition Assessments, Probable Maximum Loss Assessments, asbestos, lead-based paint, lead-in water, radon, mold surveys, geophysical surveys, regulatory compliance projects, Engineering Evaluation/Cost Analysis projects, and Preliminary Endangerment Assessments. His specialty is performing engineering and environmental due diligence for lenders, real estate investors, attorneys, and government entities.

Additionally, over the course of his career, as a staff scientist, project manager, senior project manager and client manager, Mr. Jones has significant relevant project experience relating to investigation and cleanup of soil, soil vapor, and groundwater contamination. The investigations and cleanup projects have occurred at current and former gas stations and dry cleaning facilities, agricultural properties, industrial and manufacturing facilities, and military installations. Investigation and cleanup projects have been as the result of releases from underground storage tanks, dry cleaning equipment, and from spills and/or dumping activities. Media that has been investigated and remediated has included dry cleaning chemicals and wastes, gasoline, diesel, and other fuel types, and PCA and TCE plumes. In addition, Mr. Jones was often the point of contact for regulatory agencies, and produced work plans, bid documents, contracts, specifications, and the documents that detailed the investigation, long-term groundwater monitoring, and/or soil and groundwater cleanup activities.

Project Experience

Acquisition Assessments, LAX Marriott. Mr. Jones led a team of specialty consultants who evaluated the physical condition of the LAX Marriott hotel. A generalist specializing in management of equity PCAs worked with a team of specialists under Mr. Jones' direction, including the following scopes and disciplines: Mechanical, Engineering, and Plumbing / Fire Life Safety (MEP/FLS) assessments, elevator assessment, roof assessment, accessibility survey, and curtain wall evaluation. Additionally, the team performed a Phase I Environmental Site Assessment (ESA), Phase II ESA, site characterization due to contaminants identified from historic manufacturing uses, a seismic risk assessment, and an ALTA survey. Mr. Jones' team worked with several attorneys and the client's acquisitions team to provide a detailed account of problematic issues and associated costs for their consideration in order to help determine whether the acquisition should occur.

Acquisition Property Condition Assessments, Tustin Center I & II, Santa Ana, CA; 235 Pine Street, San Francisco, CA; Park 80 West, Saddle Brook, NJ; United Plaza, Philadelphia, PA; California Plaza, Walnut Creek, CA; Stadium Gateway. Mr. Jones led a team of specialty consultants who evaluated the physical condition of the above mid to high-rise office building properties. A generalist specializing in management of equity PCAs worked with a team of specialists under Mr. Jones' direction, including but not limited to the following scopes and disciplines: Mechanical, Engineering, and Plumbing / Fire Life Safety (MEP/FLS) assessments, elevator assessments, roof assessments, curtain wall evaluations, structural engineering evaluations, microbiological influenced corrosion (MIC) testing, and water intrusion assessment and testing. Mr. Jones' team worked with the client's acquisitions team to provide a detailed account of problematic issues and associated costs for their consideration in order to help determine whether the acquisitions should occur.

Acquisition Property Condition Assessments (PCAs) and Phase I Environmental Assessments (ESAs) for Medical Office Buildings. Mr. Jones led a team of specialty consultants who evaluated the physical and environmental condition of hundreds of medical office building properties across the United States. The due diligence work was associated with both portfolios of medical office buildings as well as individual properties. A generalist specializing in management of equity PCAs worked with a team of specialists under Mr. Jones' direction, including but not limited to the following scopes and disciplines: Mechanical, Engineering, and Plumbing / Fire Life Safety (MEP/FLS) assessments, elevator assessments, roof assessments, curtain wall evaluations, and structural engineering evaluations. Phase I ESAs and in many cases Seismic Risk Assessments were also performed. Mr. Jones' team worked with the client's acquisitions team and their attorneys to provide a detailed account of problematic issues and associated costs for their consideration in order to help determine whether the acquisitions should occur.

Fannie Mae and Freddie Mac ESAs and PCAs. Mr. Jones' team has performed hundreds of Phase I Environmental Site Assessments and Property Condition Assessments for Fannie Mae and Freddie Mac agency lenders. The multi-family developments evaluated by Mr. Jones and his team have been located all across the United States.

PEAs, Beaumont and Coachella, CA School Districts. Mr. Jones' team has performed several Preliminary Endangerment Assessments on agricultural properties to determine whether the sites were impacted with agricultural chemicals and to determine if the properties were suitable locations for public schools to be developed. The analysis included developing a protocol for pesticide and herbicide testing, performing the sampling in accordance with said protocol, and an evaluation of the sampling results.

EBS' at U.S. Air Force Bases. Mr. Jones has been part of a team that performed numerous Environmental Baseline Surveys (EBS') at United States Air Force Bases across the country. The EBS document was a comprehensive survey or assessment that was essentially a very detailed account of the environmental issues and status at the Air Force Base and on properties that adjoined the Air Force Base. The document contained information including but not limited to: aboveground and underground storage tanks, oil water separators, hazardous materials use and hazardous waste storage locations, chemical inventories, buildings with known or suspected PCBs, asbestos, and/or lead based paint, contamination sites, and sites with radioactive materials or wastes.

EE/CA, Fort Ord, Monterey Bay, CA. Mr. Jones was the Deputy Task Order Manager for an Engineering Evaluation/Cost Analysis study at the former Fort Ord, California. The study identified and documented both newly discovered and known ordnance sites at the former Fort Ord. The types of ordnance at each site were determined as well as the expected depths of penetration upon impact. The costs associated with removing the ordnance was also determined and recommendations were made as to what depths below ground surface the ordnance removals should occur at each site.

Subsurface Investigation, Ogden, UT. Mr. Jones performed a large scale investigation to determine if any soil or groundwater contamination was present at numerous locations where fuel was stored in underground and aboveground storage tanks at the U.S. Army Defense Depot Ogden. When contaminants were identified, the sites were then characterized to determine extent of impact to soil and groundwater.

Environmental Compliance Audit, Atchison, KS. Mr. Jones performed an Environmental Compliance Audit (ECA) of numerous environmental resource management protocols at the Atchison Facility for the Federal Defense Logistics Agency in Atchison, Kansas.

RE: PRA of September 27, 2021, Reference # H042206-092721.

Dear Assessor Chloe Adelmann,

The Los Angeles County Fire Department, Health Hazardous Materials Division, being the custodian or keeper of records, certify that a thorough search for the records you requested has been carried out.

Re: 13711 Freeway Dr
Santa Fe Springs CA 90670

The search revealed that your noted address did not match our database.

It should be understood that this does not mean that the records you requested do not exist. It is possible that such records may be misfiled; exist under another spelling, another name, or may have been destroyed based on this Department's Record Retention Policy. However, with the information furnished to our office, and to the best of our knowledge, no records were located.

For businesses in Burbank, Culver City, Downey, City of LA, La Habra, Monrovia, Pasadena, Santa Monica, Torrance & Underground Storage Tanks in Los Angeles County jurisdiction [click here.]

Situs Address: **13711 FREEWAY Drive**
Santa Fe Springs, CA 90670

TG: C4 737 **Dist No.:** 18

Sample Location: **NEW**

Date of Inspection: **11/4/2008** 12:00 pm to 1:00 pm Duration: Hr Inspection Type: General Task Type: General Inspection

Sample Location: **NEW** Task ID: 1134997 Inspection ID: 218067

Inspector(s): **Georgia Blaszcak** **Contact(s):** Al Mubarak Manager

Additional Comments:

Inspection Summary

Comments: Facility is a warehouse and distribution center for Halloween costumes and props. Owners also operate the "Halloween Store" across the 5 freeway from this location.vThere is no IW from this location. This site was formally the location of the permitted company, Frgis Coil. There is a clarifier on the south side of the building, but, it is within locked area and notvaccessible to inspect. Contact claims the owners are the only ones with a key. Referred access problem to Raul Diaz, City of SFS since this could be a violation of fire code. "FITCO" does not need a permit.

ZIP 90670

4. TYPE OF INDUSTRY: Industrial Refrigeration Equipment Manufacturing

5. EPA CATEGORY (IF APPLICABLE): N/A

6. WASTEWATER PRODUCING OPERATIONS:
Parts Washing

7. ESTIMATED WASTEWATER FLOW RATE (Gallons per day):
400

8. TYPE OF PRETREATMENT PROVIDED:
3 stage 750 gallon interceptor

9. INTERIM DESIGNATED SAMPLE LOCATION:
Final stage of interceptor

10. CHIEF EXECUTIVE OFFICER:
Name: [illegible] Position: CEO

As a representative of the Industrial User, I affirm that the information furnished is true and accurate to the best of my knowledge:
Name: THOMAS R FLOPPY Position: QA SUPERVISOR Phone: 562)921-9210
Signature: [signature] Date: 10-24-00

IN CONSIDERATION OF THE GRANTING OF THIS TEMPORARY PERMIT, THE DISCHARGER AGREES:

1. To apply by 11-24-2000 for an Industrial Wastewater Discharge Permit according to the guidelines presented in the "Information and Instructions for Obtaining and Industrial Wastewater Discharge Permit."
2. To cooperate at all times with Sanitation Districts' representatives in the inspection, sampling and study of the company's industrial wastewater facilities and discharges.
3. To immediately notify the Sanitation Districts at (562) 699-7411, ext. 2907, during normal business hours, and at (562) 437-6520 or 437-1881 after 4:00 pm or on weekends in the event of any accident, negligence, or other occurrence that causes the discharge of material whose nature or quality could constitute a hazard to the public health, environment, Districts' personnel, or the sewerage system.
4. To comply with effluent limits and other requirements listed on the back of this form, with appropriate EPA pretreatment standards, and, if unable to meet these limits or requirements, to stop all wastewater discharge to the public sewers.
5. To maintain all pretreatment and monitoring equipment necessary to assure compliance with effluent limits and reporting requirements.
6. To abide and accept all the provisions contained in the Sanitation Districts' *Wastewater Ordinance*.

NOTES: -Failure to comply with any of the conditions of this permit will result in the initiation of enforcement actions against your company and possible termination of sewer service.

-This temporary permit is not to be used to obtain building construction permits from the local agency, and will expire upon approval of the discharger's Industrial Wastewater Discharge Permit.

-This temporary permit does not address local agency discharge requirements, if any, nor does it provide for the allocation of capacity in local collection systems.

RAINWATER DIVERSION SYSTEM MAINTENANCE RECORD

Company Name: YORK REFRIGERATION SYSTEMS - FRIGID COIL Telephone: (562) 421-4310
Discharge Address: 13711 FREEWAY DR., SANTA FE SPRINGS, CA 90670
Mailing Address: SAME Zip Code:
Contact Person: TOM FERRY Industrial Wastewater Discharge Permit No: 4345

I DESCRIPTION (check the appropriate boxes)

1. **How is the rainwater diversion system activated?**
   - [x] Automatically (by a rainwater switch or weight device)
   - [ ] Manually (by an operator)
   - [ ] Rainwater is *not* discharged to the sewer (*ignore all other sections and return form to the Districts*)

2. **When rainfall is detected, how is rainwater prevented from reaching the sewer?**
   - [x] A pump shuts down causing rainwater to overflow to the storm drain
   - [ ] A valve closes causing rainwater to overflow to the storm drain
   - [ ] A pump is turned on which pumps rainwater to the storm drain
   - [ ] A valve opens a connection to the storm drain
   - [ ] A pump is turned on which pumps rainwater to an impoundment structure
   - [ ] A valve is activated which diverts rainwater to an impoundment structure.
   - [ ] There is no diversion device. Contaminated rainwater which accumulates in certain areas is manually pumped to the sewer once it stops raining (Please complete Section II-2 only and ignore Sections III-IV.
   - [ ] Other (explain)

II INFORMATION

1. **Location of rainwater diversion device (valve, pump, etc.):** SOUTH/WEST CORNER OF YARD
2. **Area exposed to the rainwater that drains to the sewer:** 64,325 Sq. Ft.

III CHECK LIST (check the appropriate boxes)

1. **Is the detector dish (rainwater collector) located in a representative area exposed to rain fall?**
   - [x] Yes - [ ] No
2. **Is the detector free of obstruction (i.e. leaves, rocks, etc.)?**
   - [x] Yes - [ ] No
2. **Can the rain switch be tested from a height lower than six feet above ground level (with a "Y-type" or with a remote fill-and-drain type system?**
   - [x] Yes - [ ] No
4. **Is there a convenient water supply available for testing the detector?**
   - [x] Yes - [ ] No
5. **Is flow to the sewer discontinued when test water is poured into the detector?**
   - [x] Yes - [ ] No

IV MAINTENANCE

If the answer to any of the above questions is "*no*" then corrective actions must be taken by the company to ensure that the rainwater system functions properly. In the space below, list the items which needed servicing or replacement and the date that repairs were completed.

REPAIRS PERFORMED: **DATE:**

This form must be returned completed, to the Sanitation Districts' Industrial Waste Section by January 6, 2004

For help in completing this form, contact Mr. Jaime Badia of the Industrial Waste Section at (562) 699-7411, extension 2917

Notice of Results of Sanitation Districts' Industrial Waste Monitoring

Attached please find the results of recent Sanitation Districts' wastewater sampling at your company's discharge sewer corresponding to the permit shown on the analysis sheet.

This sampling was made pursuant to Section 414 of the Sanitation Districts' *Wastewater Ordinance* as part of a random verification monitoring program conducted at significant dischargers of industrial wastes. The District' sample results are being provided to you to make you aware of any changes at your facility which may result in higher than anticipated industrial waste discharges to the sewerage system. It is your responsibility to investigate any differences in the wastewater sample results provided by the Districts and the results of your self-monitoring. For companies that file long form surcharge statements, these Districts-obtained sample results should be combined with your wastewater self-monitoring results on the annual wastewater treatment surcharge statement.

As stated in the Districts' *Connection Fee Ordinance*, after December 15, 1981 a 25 percent increase in wastewater discharge (quantity and/or quality) above your company's previous wastewater discharges during the 1976-77 through 1981-82 fiscal years may require that your company purchase additional sewer discharge rights. For wastewater capacity increases that occur during the 2004-05 fiscal year, this connection fee charge ranges from $1,178 to $1,705 for wastewater capacity increases equivalent to that of a typical single-family home (260 gallons per day).

These Districts-obtained sample results will be used, along with your wastewater self-monitoring results, in determining your capacity usage of the sewerage system and the validity of data submitted in your annual surcharge statement. Transmittal of these data to you at this time does not relieve your company of the responsibility to obtain all of the self-monitoring samples required in your Industrial Wastewater Discharge Permit.

If you have any questions about this program for furnishing industrial wastewater discharge information, please call Wendy Borden-Haug at extension 2920.

Very truly yours,

James F. Stahl

Raul Diaz
City of Santa Fe Springs Fire Dept
11300 Greenstone Ave.
Santa Fe Springs, CA 90670

Dear Mr. Diaz:

Temporary Industrial Wastewater Discharge Permit No. 015723

York International - Frigid Coil
13711 Freeway Drive
Santa Fe Springs, CA 90670

Effective immediately, Temporary Industrial Wastewater Discharge Permit No. 015723 is void for the following reason:

Vacant.

As such, the attached unnecessary permit application package is being returned for your disposition.

Very truly yours,

Stephen R. Maguin

Suzanne S. Wienke

Sanitation Districts' Industrial Waste Discharge Permit Number 1/ 4345

Industrial Waste Contact Person: William D. Cole, Jr.

Title: Manufacturing Coordinator

Person in Charge of Local Operations: William D. Cole, Jr.

Title: Manufacturing Coordinator

Owner of Company: Robert N. Pokelwaldt, President

II. CATEGORY DETERMINATION

A. Unit Operations

Please check any of the following unit operations which are performed at your facility:

1. /__/ Electroplating
2. /__/ Electroless Plating
3. /__/ Anodizing

Note: 1/ One Baseline Monitoring Report (BMR) must be completed for every industrial waste discharge point to the sewer from your facility. To obtain additional copies of this BMR form you may copy it or call Eddie Esfandi at (213) 699-7411, extension 278.

4. /__/ Coating (phosphatizing, chromating and coloring)

5. /__/ Chemical etching and milling

6. /__/ Printed circuit board manufacturing

7. / X / None of the above

B. Companies Exempt from EPA Electroplating and Metal Finishing Regulations

If you checked item number 7 in II A above, your facility is not covered by the EPA regulations for either the electroplating or metal finishing category. Your claim to such an exemption will be verified through on-site Sanitation Districts' inspections of your facility.

If you believe that your facility is not covered by the above regulations, please indicate which EPA industrial regulatory cateogry should be applied to your facility, if any:

____

Please state the Federal Standard Industrial Classification Number(s) (SIC) used for your facility: 4345 __________ __________

As your checking of item number 7 in II A above denotes you are exempt, you do not need to fully complete this Baseline Monitoring Report (BMR). Please go on to Section VIII of this form; check the exempt box and sign the accompanying statement. Please then proceed to Section X of this form, complete the certification statement and return this form to the Sanitation Districts.

C. Companies Not Exempt

If you did not check item number 7 in II A above, please continue. Please check the appropriate item(s) below:

Type of facility in the electroplating and metal finishing industry. This facility is a(n):

1. /__/ Independent Printed Circuit Board Manufacturer [Manufacturers printed circuit boards primarily for sale to other companies]

2. /__/ Job Shop [Owns less than 50% (area basis) of the materials undergoing metal finishing]

3. /__/ Captive Shop [Owns over 50% (area basis) of the materials undergoing metal finishing]

4. /__/ Integrated Facility [Combines regulated electroplating and metal finishing waste streams with significant amounts (over 10%) of process waste streams not covered by the electroplating or metal finishing regulations]

5. /__/ Nonintegrated Facility (Significant wastewater discharges only from operations covered by the electroplating or metal finishing regulations)

D. Companies Subject Only to the Electroplating Regulations

If you checked only items 1 and/or 2 in II C above (Independent Printed Circuit Board Manufacturer or Job Shop), your facility is not subject to the EPA's Metal Finishing Category regulations (40 CFR 433). However, your facility is subject to the EPA categorical regulations for the Electroplating Category (40 CFR 413). Please indicate whether or not you have previously submitted a BMR to the Sanitation Districts as required by the EPA Electroplating Category Regulations.

Yes	No	If Yes, please give date of submittal
/__/	/__/	________________

If your facility is covered by the Electroplating Category regulations and your company has not as yet submitted a BMR, you must fully complete this BMR and return it to the Sanitation Districts as soon as possible.

III. TOTAL TOXIC ORGANIC INFORMATION

If you checked item(s) 1 and/or 2 in II C above (Printed Circuit Board Manufacturer and/or Job Shop), your facility is subject to the revised Electroplating regulations for control of Total Toxic Organics (TTO). If you checked item(s) 3, 4 or 5 in II C above (Captive Shop, Intergrated Facility or Nonintegrated Facility), your facility is subject to the Metal Finishing Regulations for control of TTO. Please see Appendix A for a list of toxic organic chemical compounds included in TTO. Please check the appropriate box(es) below:

/__/ No toxic organic compounds as listed in Appendix A are used or stored at this facility.

/__/ A solvent management plan, as required by the EPA regulations, will be submitted for Districts' approval.

/__/ Monitoring for TTO will be performed and information on TTO compounds in the company wastewater will be submitted to the Sanitation Districts.

Please list all organic chemical compounds regularly used or stored at your facility: ____

____

____

____

If your company is subject to only the Electroplating (and not the Metal Finishing) regulations and has previously submitted a BMR to the Sanitation Districts with the information hereafter requested in this form, and no significant changes in this information are necessary, the following portion of this BMR need not be completed. Please go to Section VIII of this BMR, check the appropriate box and sign the accompanying statement. Then go to Section X, complete the certification statement and return this form to the Sanitation Districts.

IV. ENVIRONMENTAL CONTROL PERMITS

Please complete the following portions of this report if you checked item(s) 3, 4 or 5 in II C above (facilities covered by the Metal Finishing Category regulations), or if your company has not as yet filed your required BMR under the Electroplating Category regulations.

Please indicate other environmental control permits held by or for your facility (DO NOT include permits regulating air quality control)

____

____

____

____

Does your facility have an air pollution control device which produces a discharge to the sewer? Yes /___/ No /___/

VII. CONCENTRATION OF POLLUTANTS IN WASTEWATER

A. Sampling and Analysis Information

The daily maximum and average concentrations must be furnished for all regulated pollutants in all wastewater streams described in Section VI above. The wastewater must be sampled and analyzed and other information furnished as described in Appendix B. Copies of the wastewater analysis results must be attached to this BMR when it is submitted to the Sanitation Districts.

The method of wastewater sample collection used was:

/__/ Flow-proportioned composite sample

/__/ Time-proportioned composite sample

/__/ Grab sample--for which pollutants? ________ ________ ________

VIII. STATEMENT OF COMPLIANCE

This statement is to be made by a qualified environmental professional or (for the exempt category) by a responsible company official.

I hereby certify that the EPA categorical pretreatment standards which apply to this company are being met on a consistent basis.

Yes /__/ No /__/ Exempt / X /

Additional pretreatment or operational and maintenance measures which are recommended to bring the company into compliance with the EPA categorical regulations are as follows:

(1)__________

(2)__________

(3)__________

(4)__________

(5)__________

Date: 1/6/84 Print Name: William D. Cole, Jr.

Sign Name: William D. Cole Jr.

Qualification as an Environmental Professional: __________

Company Name: FRIGID COIL/FRICK, INC.

Company Address: 13711 Freeway Dr., Santa Fe Springs, CA 90670

IX. COMPLIANCE SCHEDULE

If your company is presently in compliance with the EPA categorical pretreatment standards, or your company is exempt, disregard this item and continue on to itme number X.

If presently not in compliance with the EPA categorical pretreatment standards, please complete the following compliance schedule:

Increment of Progress	Commencement Date	Completion Date
A. Engineering investigation		
Consultant selection, if needed		
Review of present condition		
Treatment process selection		
Conceptual design		
Final design		
B. Permitting process		
City/County Engineer		

Increment of Progress	Commencement Date	Completion Date
C. Construction		
Equipment selection		
Installation		
D. Start up and trouble shooting		
E. Date of final completion and compliance		

No progress increment shall exceed nine months and no completion date shall be later than the compliance date for the EPA pretreatment standards. Subdivide any increment if it exceeds nine months. The Districts may be able to review your conceptual design before the preparation of detail plans if the pretreatment is reasonably complex. However, the engineering investigations leading to the conceptual design need to be as complete as possible, and the Districts cannot provide design assistance. The inability of the Districts to review the designs in a timely manner does not excuse noncompliance with the EPA regulations.

X. CERTIFICATION

I certify, under the penalty of perjury, that I have personally examined, and am familiar with, all of the information in this Baseline Monitoring Report, including all attachments. Based upon my inquiry of those persons immediately responsible for obtaining the information contained in this Report, I believe that the information is true, accurate and complete.

RECEIVED
JAN 03
FRIGID COIL

Gentlemen:

Status Report on Compliance with the EPA's Electroplating and Metal Finishing Regulations (40 CFR Parts 413 and 433)

EPA regulations requiring pretreatment of wastewater by companies in the Electroplating and Metal Finishing Categories (E & MF) were published in the Federal Register on July 15, 1983. These U.S. Environmental Protection Agency (EPA) regulations provide more stringent requirements than the previously published Electroplating regulations of September 7, 1979. The Sanitation Districts are required by other EPA regulations to enforce the E & MF regulations at affected companies.

Although the Districts' industrial waste permit files indicate that your company is subject to these E & MF regulations, some industrial companies may be exempt. These regulations cover industrial plants which perform one or more of the following six operations:

1. Electroplating
2. Electroless plating
3. Anodizing
4. Coating (phosphatizing, chromating and coloring)
5. Chemical etching or milling
6. Printed circuit board manufacturing

If your company performs any of the above operations, it is covered by the E & MF regulations. Conversely, the E & MF regulations do not apply unless one of the above unit operations is performed at your company. A summary of the pretreatment requirements for companies covered by the E & MF regulations is enclosed for your information. Compliance deadline dates are provided in this summary for various segments of the E & MF industry. The enclosed Table I is a list of all unit operations covered by the 40 CFR 433 regulations.

If any of the operations 1 through 6 above is performed in your facility, please complete the enclosed Baseline Monitoring Report (BMR). If none of the operations 1 through 6 above are performed in your facility, please comlete only the portions of this BMR which define your company as exempt from the E & MF regulations. A BMR for every industrial waste discharge point to the sewer from your facility must be submitted to the Sanitation Districts as soon as possible, but not later than February 25, 1984.

If this report is not received by the Districts within the allotted time period, your company may be subject to enforcement actions. Districts' Industrial Waste Inspectors will follow-up on companies not submitting a report or submitting an inadequately completed report.

Thank you for your cooperation. If you require additional BMR forms or any assistance or information, please call Eddie Esfandi of the Sanitation Districts' Industrial Waste Section at extension 278.

Very truly yours,

Walter E. Garrison

Attention: Ruben Garcia

Subject: Industrial Wastewater Discharge Permit No. 4345
Frigid Coil Division
Sundstrand Heat Transfer Inc.
13711 Freeway Drive
Santa Fe Springs, California 90670

Dear Mr. Garcia:

* Enclosed are four (4) approved sets of plans, and copies of the approved Industrial Wastewater Discharge Permit for the subject company. Please review these for compliance with your requirements, and retain the copies you require for your files. A copy of this letter is forwarded to the applicant to notify him of the Sanitation Districts' permit requirements, which are in force from the current date. If any additional permit requirements are issued to the applicant by your agency, copies should be forwarded to the Sanitation Districts for our records. The approved plans consist of:

Plant Layout Sheet

Approval of the plans and permit is contingent upon continuing compliance with applicable Sanitation Districts' Ordinance requirements, upon any corrections shown in red on the drawings, and upon the items indicated on the attached requirement list.

If you have any questions concerning these requirements, please call the Sanitation Districts' Industrial Waste Section at extension 263.

Very truly yours,

John D. Parkhurst

INDUSTRIAL WASTEWATER DISCHARGE PERMIT

REQUIREMENTS LIST

COMPANY NAME Frigid Coil

INDUSTRIAL WASTEWATER DISCHARGE PERMIT NO. 4345

DATE OF PERMIT ISSUANCE July 7, 1976

The above named company is required to comply with all indicated items on this list as a condition of the permit approval. Satisfactory evidence of compliance with these conditions should be supplied to the Sanitation Districts where requested. Satisfactory evidence will consist of a minimum of written notification signed by a responsible company official, and in some cases may involve the submission of additional drawings and data.

1. The permittee is required to continue the regular clarifier maintenance and cleaning at intervals frequent enough to prevent a build-up of grit, oil, or grease which may enter the sewer.--------------- [X]

2. The permittee is advised that discharge of highly flammable wastes to the sewerage system is prohibited.------------------------------------ [X]

3. Waste haulers reports must be obtained and kept on file for a period of at least 180 days for any liquid wastes leaving the plant other than in the sewer system. These reports must be made available to representatives of the Sanitation Districts upon request.-- [X]

4. The applicant's Surcharge Statement for fiscal years 1972-73, 1973-74, & 1974-75 were delinquent August 15, 1973, August 15, 1974, and September 15, 1975 respectively and should be filed as soon as possible. Necessary forms and instructions for filing surcharge statements will be mailed under separate cover.---------------------------- [X]

APPLICATION NO. 23

EXISTING INDUSTRY
PERMIT FOR INDUSTRIAL WASTEWATER DISCHARGE
SANITATION DISTRICTS OF LOS ANGELES COUNTY

PERMIT NO. 4245

~~Los Angeles, Calif.~~

John D. Parkhurst, Chief Engineer and General Manager

SANTA FE SPRINGS, Date: 8 /15 /75
MO. DAY YR.

Application is hereby made by: FRIGID COIL DIVISION OF SUNDSTRAND HEAT TRANSFER INC.
(FIRM NAME)

Mailing Address: 13711 Freeway Drive (STREET) Santa Fe Springs (CITY) California (STATE) 90670 (ZIP)

RESIDING TENANT of the property located at:
(OWNER, TENANT, ETC.)

13711 Freeway Drive Santa Fe Springs, CA (Zip) 90670
(ADDRESS OF PROPERTY PRODUCING WASTEWATER DISCHARGE)

Assessor's Map Book No.: 752 Page No.: 17 to 21 Parcel No.: Lot 15 of tract 23559
(LEGAL ADDRESS OF PROPERTY PRODUCING WASTEWATER DISCHARGE)

East side of building, outside center -- water clarifier
(LOCATION OF POINT OF WASTEWATER DISCHARGE TO SEWERAGE SYSTEM)

for a Permit for Industrial Wastewater Discharge to the sewerage system.

Type of Industry: manufacturing (GENERAL DESCRIPTION) 3595 (FEDERAL SIC NO.)

Number of Employees (Full Time): 66 (Part Time): NONE

Raw Materials Used: Steel, copper and aluminum
(GENERAL DESCRIPTION — ADD ADDITIONAL SHEETS AS NEEDED)

Products Produced: Refrigeration and air conditioning evaporators and condensors.
(GENERAL DESCRIPTION — ADD ADDITIONAL SHEETS AS NEEDED)

Wastewater Producing Operations: Test tanks using city water for air testing and degreasing operation using biodegradable soap for removing cutting oil, waste water is pumped to oil separator.
(FULL DESCRIPTION — ADD ADDITIONAL SHEETS AS NEEDED)

Time of Discharge: 7:30 AM to 4:00 PM 5 Days per Week: M T W Th F Sa Su
(CIRCLE DAYS)

Wastewater Flow Rate: Peak 50 G.P.M. (Gallons Per Day) 400

Constituents of Wastewater Discharge: SEE ATTACHED ANALYSES.

(GENERAL DESCRIPTION — ATTACH CHEMICAL ANALYSES RESULTS TO THIS APPLICATION)

Person in company responsible for industrial wastewater discharge:

J. S. BROOKS (NAME) PRODUCTION SUPERINTENDENT (POSITION) 964-4432 (TELEPHONE NUMBER)

I affirm that all information furnished is true and correct and that the applicant will comply with the conditions stated on the back of this permit form.

Date: August 15th, 19 75

Signature for Applicant: J. S. Brooks (COMPANY ADMINISTRATIVE OFFICIAL) PRODUCTION SUPERINTENDENT (POSITION)

INDUSTRIAL WASTE STATEMENT

A. TYPE OF INDUSTRY: Manufacture of refrigeration and air-conditioning components, such as evaporators and condensors.

B. NUMBER OF EMPLOYEES: 85 ; WORK SHIFTS PER DAY: One (1); NUMBER OF DAYS PER WEEK: 5.

C. RAW MATERIALS BROUGHT AND USED ON PREMISES: copper, mild steel and aluminum are main materials used.

D. HAZARDOUS MATERIALS STORED ON PREMISES: acetylene, oxygen, propane, degreasing fluid and paint products, of which none are disposed of by way of sewer.

E. WASTE PRODUCING OPERATIONS: Coil test tank and coil cleaning area which uses an amount of alkaline liquid which is non-phosphorus and is biodegradable and used to clean Mobil Met-27 cutting oil and kerosene from aluminum material; the waste from this operation is then pumped to a clarifier.

F. CONSTITUENTS OF WASTE WATER DISCHARGE: See attached analysis.

G. AVERAGE AND PEAK RATE OF WASTE WATER DISCHARGE: Peak - 50 G.P.M., Average - 400 Gals. per day.

H. TOTAL DAILY WASTE WATER DISCHARGE: 1700 Gals. per day.

I. PROPOSED METHOD OF TREATMENT AND DISPOSAL: Industrial waste is pumped into three stage clarifier before entering sewer, oil accumulation in clarifier is pumped out and disposed of by Randy's Pumping Service of El Monte, Calif.

J. TEMPERATURE OF WASTE OF POINT OF DISCHARGE TO BUILDING SEWER SYSTEM: Approximately 65°F.

SAMPLE Industrial Wastewater Discharge, 8 Hour Composite Sample

INVESTIGATION

Chemical Analysis for Sanitation District of Los Angeles County Requirements, SIC #3585

RESULTS

On August 8, 1975 an automatic sampler was installed at the clarifier sump outlet located at the industrial wastewater discharge area. Samples were obtained at ½ hour intervals and then composited in proportion to flow.

PHASE I ENVIRONMENTAL SITE ASSESSMENT QUESTIONNAIRE

The following questionnaire is required by the ASTM Standard E 1527-13, which adheres to the All Appropriate Inquiries (AAI) Rule (United States Environmental Protection Agency) (40 CFR 312).

As defined by ASTM, the User of the report is the *"party seeking to use Practice E 1527 to complete an environmental site assessment of the property. A user may include, without limitation, a potential purchaser of property, a potential tenant of property, an owner of property, a lender, or a property manager. The user has specific obligations for completing a successful application of this practice."*

PROPERTY ADDRESS:	13711 Freeway Drive
PROPERTY CITY, STATE ZIP:	Santa Fe Springs, CA 90670

1. Environmental liens that are filed or recorded against the property (40 CFR 312.25)

Did a search of recorded land title records (or judicial records) identify any environmental liens filed or recorded against the property under federal, tribal, state or local law?

☐ YES ☑ NO

2. Activity and use limitations (AULs) that are in place on the property or that have been filed or records against the property (40 CFR 312.26(a)(1)(v) and (vi))

Did a search of recorded land title records (or judicial records) identify any AULs, such as engineering controls, land use restrictions or institutional controls that are in place at the property and/or have been filed or recorded against the property under federal, tribal, state or local law?

☐ YES ☑ NO

3. Specialized knowledge or experience of the person seeking to qualify for the LLP (40 CFR 312.28)

Do you have any specialized knowledge or experience related to the property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the property or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business?

☐ YES ☑ NO

4. **Relationship of the purchase price to the fair market value of the property if it were not contaminated (40 CFR 312.29)**
Does the purchase price being paid for this property reasonably reflect the fair market value of the property? If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the property?
☑ YES ☐ NO

5. **Commonly known or reasonably ascertainable information about the Property (40 CFR 312.30)**
Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases?
☐ YES ☑ NO

a. Do you know the past uses of the property?
☑ YES ☐ NO
Warehouse for a trucking company

b. Do you know of specific chemicals that are present or once were present at the property?
☐ YES ☑ NO

c. Do you know of spills or other chemical releases that have taken place at the property?
☐ YES ☑ NO

d. Do you know of any environmental cleanups that have taken place at the property?
☐ YES ☑ NO

e. Do you have any prior knowledge that the property was developed as a gas station, dry cleaner, manufacturing/industrial facility in the past?
☐ YES ☑ NO

f. Are you aware of historical use of hazardous materials or petroleum products used or present on the property?
☐ YES ☑ NO

PARTNER

g. Do you know if the property is currently or was formerly equipped with underground storage tanks (USTs) or septic tanks?

☐ YES ☑ NO

---

h. Do you know of any past, threatened or pending lawsuits or administrative proceedings concerning a release or threatened release of any hazardous substance or petroleum products involving the property by any owner or occupant of the property?

☐ YES ☑ NO

---

6. **The degree of obviousness of the presence or likely presence of contamination at the** property**, and the ability to detect the contamination by appropriate investigation (40 CFR 312.31)**

Based on your knowledge and experience related to the property are there any obvious indicators that point to the presence or likely presence of releases at the property?

☐ YES ☑ NO

PRELIMINARY REPORT

*In response to the application for a policy of title insurance referenced herein, **Chicago Title Company** hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a policy or policies of title insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an exception herein or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations or Conditions of said policy forms.*

The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said policy or policies are set forth in Attachment One. The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. Limitations on Covered Risks applicable to the CLTA and ALTA Homeowner's Policies of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Attachment One. Copies of the policy forms should be read. They are available from the office which issued this report.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

The policy(s) of title insurance to be issued hereunder will be policy(s) of Chicago Title Insurance Company, a Florida corporation.

Please read the exceptions shown or referred to herein and the exceptions and exclusions set forth in Attachment One of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects and encumbrances affecting title to the land.

Recording Date:	December 11, 2017
Recording No:	2017-1429425 Official Records

A Notice

Entitled:	Notice of Federal Tax Lien Refile
Recording Date:	September 12, 2019
Recording No:	2019-941751 Official Records

14. A deed of trust to secure an indebtedness in the amount shown below,

Amount:	$8,200,000.00
Dated:	July 9, 2021
Trustor/Grantor	13711 Freeway Drive, LLC, a California limited liability company
Trustee:	Commonwealth Land Title Company
Beneficiary:	Pacific Premier Bank
Recording Date:	July 15, 2021
Recording No:	2021-1097455, of Official Records

15. An assignment of all the moneys due, or to become due as rental, as additional security for the obligations secured by deed of trust shown as item no. 14

Assigned to:	Pacific Premier Bank
Recording Date:	July 15, 2021
Recording No:	2021-1097456, of Official Records

16. Any easements not disclosed by the public records as to matters affecting title to real property, whether or not said easements are visible and apparent.

17. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other matters which a correct survey would disclose and which are not shown by the public records.

EXCEPTIONS
(Continued)

18. Matters which may be disclosed by an inspection and/or by a correct ALTA/NSPS Land Title Survey of said Land that is satisfactory to the Company, and/or by inquiry of the parties in possession thereof.

19. Any rights of the parties in possession of a portion of, or all of, said Land, which rights are not disclosed by the public records.

    The Company will require, for review, a full and complete copy of any unrecorded agreement, contract, license and/or lease, together with all supplements, assignments and amendments thereto, before issuing any policy of title insurance without excepting this item from coverage.

    The Company reserves the right to except additional items and/or make additional requirements after reviewing said documents.

PLEASE REFER TO THE "INFORMATIONAL NOTES" AND "REQUIREMENTS" SECTIONS WHICH FOLLOW FOR INFORMATION NECESSARY TO COMPLETE THIS TRANSACTION.

END OF EXCEPTIONS

REQUIREMENTS SECTION

1. Unrecorded matters which may be disclosed by an Owner's Affidavit or Declaration. A form of the Owner's Affidavit/Declaration is attached to this Preliminary Report/Commitment. This Affidavit/Declaration is to be completed by the record owner of the land and submitted for review prior to the closing of this transaction. Your prompt attention to this requirement will help avoid delays in the closing of this transaction. Thank you.

   The Company reserves the right to add additional items or make further requirements after review of the requested Affidavit/Declaration.

2. The Company will require the following documents for review prior to the issuance of any title insurance predicated upon a conveyance or encumbrance from the entity named below:

   Limited Liability Company: 13711 Freeway Drive, LLC, a California limited liability company

   a) A copy of its operating agreement, if any, and all amendments, supplements and/or modifications thereto, certified by the appropriate manager or member.

   b) If a domestic Limited Liability Company, a copy of its Articles of Organization and all amendments thereto with the appropriate filing stamps.

   c) If the Limited Liability Company is member-managed, a full and complete current list of members certified by the appropriate manager or member.

   d) A current dated certificate of good standing from the proper governmental authority of the state in which the entity is currently domiciled.

   e) If less than all members, or managers, as appropriate, will be executing the closing documents, furnish evidence of the authority of those signing.

   f) If Limited Liability Company is a Single Member Entity, a Statement of Information for the Single Member will be required.

   g) Each member and manager of the LLC without an Operating Agreement must execute in the presence of a notary public the Certificate of California LLC (Without an Operating Agreement) Status and Authority form.

END OF REQUIREMENTS

INFORMATIONAL NOTES SECTION

1. Note: Property taxes, including any personal property taxes and any assessments collected with taxes, are paid. For proration purposes the amounts were:

Tax Identification No.:	8069-015-058
Fiscal Year:	2020-2021
1st Installment:	$70,772.36
2nd Installment:	$70,772.35
Homeowners Exemption:	$0.00
Code Area:	06721

2. None of the items shown in this report will cause the Company to decline to attach ALTA Endorsement Form 9 to an Extended Coverage Loan Policy, when issued.

3. The Company is not aware of any matters which would cause it to decline to attach CLTA Endorsement Form 116 indicating that there is located on said Land Commercial properties, known as 13711 Freeway Drive, located within the city of Santa Fe Springs, California, , to an Extended Coverage Loan Policy.

4. Note: The policy of title insurance will include an arbitration provision. The Company or the insured may demand arbitration. Arbitrable matters may include, but are not limited to, any controversy or claim between the Company and the insured arising out of or relating to this policy, any service of the Company in connection with its issuance or the breach of a policy provision or other obligation. Please ask your escrow or title officer for a sample copy of the policy to be issued if you wish to review the arbitration provisions and any other provisions pertaining to your Title Insurance coverage.

5. Notice: Please be aware that due to the conflict between federal and state laws concerning the cultivation, distribution, manufacture or sale of marijuana, the Company is not able to close or insure any transaction involving Land that is associated with these activities.

6. Pursuant to Government Code Section 27388.1, as amended and effective as of 1-1-2018, a Documentary Transfer Tax (DTT) Affidavit may be required to be completed and submitted with each document when DTT is being paid or when an exemption is being claimed from paying the tax. If a governmental agency is a party to the document, the form will not be required. DTT Affidavits may be available at a Tax Assessor-County Clerk-Recorder.

END OF INFORMATIONAL NOTES

Jordan Curiel (LA/Comm)/b1c

Wire Fraud Alert

This Notice is not intended to provide legal or professional advice. If you have any questions, please consult with a lawyer.

All parties to a real estate transaction are targets for wire fraud and many have lost hundreds of thousands of dollars because they simply relied on the wire instructions received via email, without further verification. **If funds are to be wired in conjunction with this real estate transaction, we strongly recommend verbal verification of wire instructions through a known, trusted phone number prior to sending funds.**

In addition, the following non-exclusive self-protection strategies are recommended to minimize exposure to possible wire fraud.

- **NEVER RELY** on emails purporting to change wire instructions. Parties to a transaction rarely change wire instructions in the course of a transaction.
- **ALWAYS VERIFY** wire instructions, specifically the ABA routing number and account number, by calling the party who sent the instructions to you. DO NOT use the phone number provided in the email containing the instructions, use phone numbers you have called before or can otherwise verify. **Obtain the phone number of relevant parties to the transaction as soon as an escrow account is opened**. DO NOT send an email to verify as the email address may be incorrect or the email may be intercepted by the fraudster.
- **USE COMPLEX EMAIL PASSWORDS** that employ a combination of mixed case, numbers, and symbols. Make your passwords greater than eight (8) characters. Also, change your password often and do NOT reuse the same password for other online accounts.
- **USE MULTI-FACTOR AUTHENTICATION** for email accounts. Your email provider or IT staff may have specific instructions on how to implement this feature.

For more information on wire-fraud scams or to report an incident, please refer to the following links:

Notice of Available Discounts

Pursuant to Section 2355.3 in Title 10 of the California Code of Regulations Fidelity National Financial, Inc. and its subsidiaries ("FNF") must deliver a notice of each discount available under our current rate filing along with the delivery of escrow instructions, a preliminary report or commitment. Please be aware that the provision of this notice does not constitute a waiver of the consumer's right to be charged the filed rate. As such, your transaction may not qualify for the below discounts.

You are encouraged to discuss the applicability of one or more of the below discounts with a Company representative. These discounts are generally described below; consult the rate manual for a full description of the terms, conditions and requirements for such discount. These discounts only apply to transactions involving services rendered by the FNF Family of Companies. This notice only applies to transactions involving property improved with a one-to-four family residential dwelling.

Not all discounts are offered by every FNF Company. The discount will only be applicable to the FNF Company as indicated by the named discount.

Available Discounts

DISASTER LOANS (CTIC, CLTIC, FNTIC)

The charge for a Lender's Policy (Standard or Extended coverage) covering the financing or refinancing by an owner of record, within twenty-four (24) months of the date of a declaration of a disaster area by the government of the United States or the State of California on any land located in said area, which was partially or totally destroyed in the disaster, will be fifty percent (50%) of the appropriate title insurance rate.

CHURCHES OR CHARITABLE NON-PROFIT ORGANIZATIONS (CTIC, FNTIC)

On properties used as a church or for charitable purposes within the scope of the normal activities of such entities, provided said charge is normally the church's obligation the charge for an owner's policy shall be fifty percent (50%) to seventy percent (70%) of the appropriate title insurance rate, depending on the type of coverage selected. The charge for a lender's policy shall be forty (40%) to fifty percent (50%) of the appropriate title insurance rate, depending on the type of coverage selected.

FIDELITY NATIONAL FINANCIAL, INC.
PRIVACY NOTICE

Effective August 1, 2021

Fidelity National Financial, Inc. and its majority-owned subsidiary companies (collectively, “FNF,” “our,” or “we”) respect and are committed to protecting your privacy. This Privacy Notice explains how we collect, use, and protect personal information, when and to whom we disclose such information, and the choices you have about the use and disclosure of that information.

A limited number of FNF subsidiaries have their own privacy notices. If a subsidiary has its own privacy notice, the privacy notice will be available on the subsidiary’s website and this Privacy Notice does not apply.

Collection of Personal Information
FNF may collect the following categories of Personal Information:
- contact information (*e.g.*, name, address, phone number, email address);
- demographic information (*e.g.*, date of birth, gender, marital status);
- identity information (*e.g.* Social Security Number, driver’s license, passport, or other government ID number);
- financial account information (*e.g.* loan or bank account information); and
- other personal information necessary to provide products or services to you.

We may collect Personal Information about you from:
- information we receive from you or your agent;
- information about your transactions with FNF, our affiliates, or others; and
- information we receive from consumer reporting agencies and/or governmental entities, either directly from these entities or through others.

Collection of Browsing Information
FNF automatically collects the following types of Browsing Information when you access an FNF website, online service, or application (each an “FNF Website”) from your Internet browser, computer, and/or device:
- Internet Protocol (IP) address and operating system;
- browser version, language, and type;
- domain name system requests; and
- browsing history on the FNF Website, such as date and time of your visit to the FNF Website and visits to the pages within the FNF Website.

Like most websites, our servers automatically log each visitor to the FNF Website and may collect the Browsing Information described above. We use Browsing Information for system administration, troubleshooting, fraud investigation, and to improve our websites. Browsing Information generally does not reveal anything personal about you, though if you have created a user account for an FNF Website and are logged into that account, the FNF Website may be able to link certain browsing activity to your user account.

Other Online Specifics
Cookies. When you visit an FNF Website, a “cookie” may be sent to your computer. A cookie is a small piece of data that is sent to your Internet browser from a web server and stored on your computer’s hard drive. Information gathered using cookies helps us improve your user experience. For example, a cookie can help the website load properly or can customize the display page based on your browser type and user preferences. You can choose whether or not to accept cookies by changing your Internet browser settings. Be aware that doing so may impair or limit some functionality of the FNF Website.

Web Beacons. We use web beacons to determine when and how many times a page has been viewed. This information is used to improve our websites.

Do Not Track. Currently our FNF Websites do not respond to “Do Not Track” features enabled through your browser.

Links to Other Sites. FNF Websites may contain links to unaffiliated third-party websites. FNF is not responsible for the privacy practices or content of those websites. We recommend that you read the privacy policy of every website you visit.

Use of Personal Information
FNF uses Personal Information for three main purposes:
- To provide products and services to you or in connection with a transaction involving you.
- To improve our products and services.
- To communicate with you about our, our affiliates’, and others’ products and services, jointly or independently.

When Information Is Disclosed
We may disclose your Personal Information and Browsing Information in the following circumstances:
- to enable us to detect or prevent criminal activity, fraud, material misrepresentation, or nondisclosure;
- to nonaffiliated service providers who provide or perform services or functions on our behalf and who agree to use the information only to provide such services or functions;

- to nonaffiliated third party service providers with whom we perform joint marketing, pursuant to an agreement with them to jointly market financial products or services to you;
- to law enforcement or authorities in connection with an investigation, or in response to a subpoena or court order; or
- in the good-faith belief that such disclosure is necessary to comply with legal process or applicable laws, or to protect the rights, property, or safety of FNF, its customers, or the public.

The law does not require your prior authorization and does not allow you to restrict the disclosures described above. Additionally, we may disclose your information to third parties for whom you have given us authorization or consent to make such disclosure. We do not otherwise share your Personal Information or Browsing Information with nonaffiliated third parties, except as required or permitted by law. We may share your Personal Information with affiliates (other companies owned by FNF) to directly market to you. Please see "Choices with Your Information" to learn how to restrict that sharing.

We reserve the right to transfer your Personal Information, Browsing Information, and any other information, in connection with the sale or other disposition of all or part of the FNF business and/or assets, or in the event of bankruptcy, reorganization, insolvency, receivership, or an assignment for the benefit of creditors. By submitting Personal Information and/or Browsing Information to FNF, you expressly agree and consent to the use and/or transfer of the foregoing information in connection with any of the above described proceedings.

Security of Your Information
We maintain physical, electronic, and procedural safeguards to protect your Personal Information.

Choices With Your Information
If you do not want FNF to share your information among our affiliates to directly market to you, you may send an "opt out" request as directed at the end of this Privacy Notice. We do not share your Personal Information with nonaffiliates for their use to direct market to you without your consent.

Whether you submit Personal Information or Browsing Information to FNF is entirely up to you. If you decide not to submit Personal Information or Browsing Information, FNF may not be able to provide certain services or products to you.

For California Residents: We will not share your Personal Information or Browsing Information with nonaffiliated third parties, except as permitted by California law. For additional information about your California privacy rights, please visit the "California Privacy" link on our website (https://fnf.com/pages/californiaprivacy.aspx) or call (888) 413-1748.

For Nevada Residents: You may be placed on our internal Do Not Call List by calling (888) 714-2710 or by contacting us via the information set forth at the end of this Privacy Notice. Nevada law requires that we also provide you with the following contact information: Bureau of Consumer Protection, Office of the Nevada Attorney General, 555 E. Washington St., Suite 3900, Las Vegas, NV 89101; Phone number: (702) 486-3132; email: BCPINFO@ag.state.nv.us.
For Oregon Residents: We will not share your Personal Information or Browsing Information with nonaffiliated third parties for marketing purposes, except after you have been informed by us of such sharing and had an opportunity to indicate that you do not want a disclosure made for marketing purposes.

For Vermont Residents: We will not disclose information about your creditworthiness to our affiliates and will not disclose your personal information, financial information, credit report, or health information to nonaffiliated third parties to market to you, other than as permitted by Vermont law, unless you authorize us to make those disclosures.

Information From Children
The FNF Websites are not intended or designed to attract persons under the age of eighteen (18).We do not collect Personal Information from any person that we know to be under the age of thirteen (13) without permission from a parent or guardian.

International Users
FNF's headquarters is located within the United States. If you reside outside the United States and choose to provide Personal Information or Browsing Information to us, please note that we may transfer that information outside of your country of residence. By providing FNF with your Personal Information and/or Browsing Information, you consent to our collection, transfer, and use of such information in accordance with this Privacy Notice.

FNF Website Services for Mortgage Loans
Certain FNF companies provide services to mortgage loan servicers, including hosting websites that collect customer information on behalf of mortgage loan servicers (the "Service Websites"). The Service Websites may contain links to both this Privacy Notice and the mortgage loan servicer or lender's privacy notice. The sections of this Privacy Notice titled When Information is Disclosed, Choices with Your Information, and Accessing and Correcting Information do not apply to the Service Websites. The mortgage loan servicer or lender's privacy notice governs use, disclosure, and access to your Personal Information. FNF does not share Personal Information collected through the Service Websites, except as required or authorized by contract with the mortgage loan servicer or lender, or as required by law or in the good-faith belief that such disclosure is necessary: to comply with a legal process or applicable law, to enforce this Privacy Notice, or to protect the rights, property, or safety of FNF or the public.

Your Consent To This Privacy Notice; Notice Changes

By submitting Personal Information and/or Browsing Information to FNF, you consent to the collection and use of the information in accordance with this Privacy Notice. We may change this Privacy Notice at any time. The Privacy Notice's effective date will show the last date changes were made. If you provide information to us following any change of the Privacy Notice, that signifies your assent to and acceptance of the changes to the Privacy Notice.

Accessing and Correcting Information; Contact Us

If you have questions, would like to correct your Personal Information, or want to opt-out of information sharing for affiliate marketing, visit FNF's Opt Out Page or contact us by phone at (888) 714-2710 or by mail to:

ATTACHMENT ONE (Revised 05-06-16)

CALIFORNIA LAND TITLE ASSOCIATION
STANDARD COVERAGE POLICY – 1990

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance or governmental regulation (including but not limited to building or zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien, or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
   (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.
3. Defects, liens, encumbrances, adverse claims or other matters:
   (a) whether or not recorded in the public records at Date of Policy, but created, suffered, assumed or agreed to by the insured claimant;
   (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;
   (c) resulting in no loss or damage to the insured claimant;
   (d) attaching or created subsequent to Date of Policy; or
   (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the insured mortgage or for the estate or interest insured by this policy.
4. Unenforceability of the lien of the insured mortgage because of the inability or failure of the insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with the applicable doing business laws of the state in which the land is situated.
5. Invalidity or unenforceability of the lien of the insured mortgage, or claim thereof, which arises out of the transaction evidenced by the insured mortgage and is based upon usury or any consumer credit protection or truth in lending law.
6. Any claim, which arises out of the transaction vesting in the insured the estate of interest insured by this policy or the transaction creating the interest of the insured lender, by reason of the operation of federal bankruptcy, state insolvency or similar creditors' rights laws.

EXCEPTIONS FROM COVERAGE - SCHEDULE B, PART I

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records.
   Proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the public records.
2. Any facts, rights, interests, or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.
3. Easements, liens or encumbrances, or claims thereof, not shown by the public records.
4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the public records.
6. Any lien or right to a lien for services, labor or material not shown by the public records.

CLTA HOMEOWNER'S POLICY OF TITLE INSURANCE (12-02-13)
ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE

EXCLUSIONS

In addition to the Exceptions in Schedule B, You are not insured against loss, costs, attorneys' fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of those portions of any law or government regulation concerning:
   a. building;
   b. zoning;
   c. land use;
   d. improvements on the Land;
   e. land division; and
   f. environmental protection.

   This Exclusion does not limit the coverage described in Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23 or 27.
2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not limit the coverage described in Covered Risk 14 or 15.
3. The right to take the Land by condemning it. This Exclusion does not limit the coverage described in Covered Risk 17.
4. Risks:
   a. that are created, allowed, or agreed to by You, whether or not they are recorded in the Public Records;
   b. that are Known to You at the Policy Date, but not to Us, unless they are recorded in the Public Records at the Policy Date;

c. that result in no loss to You; or
d. that first occur after the Policy Date - this does not limit the coverage described in Covered Risk 7, 8.e., 25, 26, 27 or 28.

5. Failure to pay value for Your Title.
6. Lack of a right:
   a. to any land outside the area specifically described and referred to in paragraph 3 of Schedule A; and
   b. in streets, alleys, or waterways that touch the Land.

   This Exclusion does not limit the coverage described in Covered Risk 11 or 21.
7. The transfer of the Title to You is invalid as a preferential transfer or as a fraudulent transfer or conveyance under federal bankruptcy, state insolvency, or similar creditors' rights laws.
8. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
9. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:

- For Covered Risk 16, 18, 19, and 21 Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

	Your Deductible Amount	**Our Maximum Dollar Limit of Liability**
Covered Risk 16:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$ 10,000.00
Covered Risk 18:	1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 19:	1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 21:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$ 5,000.00

2006 ALTA LOAN POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
      (i) the occupancy, use, or enjoyment of the Land;
      (ii) the character, dimensions, or location of any improvement erected on the Land;
      (iii) the subdivision of land; or
      (iv) environmental protection;

      or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.

   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 13 or 14); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law.
6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
   (a) a fraudulent conveyance or fraudulent transfer, or
   (b) a preferential transfer for any reason not stated in Covered Risk 13(b) of this policy.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the Insured Mortgage in the Public Records. This Exclusion does not modify or limit the coverage provided under Covered Risk 11(b).

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

{Except as provided in Schedule B - Part II,{ t{or T}his policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees or expenses, that arise by reason of:

{PART I

{The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material not shown by the Public Records.}

PART II

In addition to the matters set forth in Part I of this Schedule, the Title is subject to the following matters, and the Company insures against loss or damage sustained in the event that they are not subordinate to the lien of the Insured Mortgage:}

2006 ALTA OWNER'S POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
   (a) a fraudulent conveyance or fraudulent transfer; or
   (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees or expenses, that arise by reason of:

{The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

6. Any lien or right to a lien for services, labor or material not shown by the Public Records. }
7. {Variable exceptions such as taxes, easements, CC&R's, etc. shown here.}

ALTA EXPANDED COVERAGE RESIDENTIAL LOAN POLICY – ASSESSMENTS PRIORITY (04-02-15)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 16, 17, 18, 19, 20, 21, 22, 23, 24, 27 or 28); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury, or any consumer credit protection or truth-in-lending law. This Exclusion does not modify or limit the coverage provided in Covered Risk 26.
6. Any claim of invalidity, unenforceability or lack of priority of the lien of the Insured Mortgage as to Advances or modifications made after the Insured has Knowledge that the vestee shown in Schedule A is no longer the owner of the estate or interest covered by this policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching subsequent to Date of Policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11(b) or 25.
8. The failure of the residential structure, or any portion of it, to have been constructed before, on or after Date of Policy in accordance with applicable building codes. This Exclusion does not modify or limit the coverage provided in Covered Risk 5 or 6.
9. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
   (a) a fraudulent conveyance or fraudulent transfer, or
   (b) a preferential transfer for any reason not stated in Covered Risk 27(b) of this policy.
10. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
11. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

OWNER'S DECLARATION

Escrow No.: 00161459-994-LT2-JC
Property Address: 13711 Freeway Drive
Santa Fe Springs, CA

The undersigned hereby declares as follows:

1. (Fill in the applicable paragraph and strike the other)

   a. Declarant ("Owner") is the owner or lessee, as the case may be, of certain premises located at 13711 Freeway Drive, Santa Fe Springs, CA, further described as follows: See Preliminary Report/Commitment No. for full legal description (the "Land").

   b. Declarant is the ______________________________ of ___________________________________ ("Owner"), which is the owner or lessee, as the case may be, of certain premises located at 13711 Freeway Drive, Santa Fe Springs, CA, further described as follows: See Preliminary Report/Commitment No. for full legal description (the "Land").

2. (Fill in the applicable paragraph and strike the other)

   a. During the period of six months immediately preceding the date of this declaration no work has been done, no surveys or architectural or engineering plans have been prepared, and no materials have been furnished in connection with the erection, equipment, repair, protection or removal of any building or other structure on the Land or in connection with the improvement of the Land in any manner whatsoever.

   b. During the period of six months immediately preceding the date of this declaration certain work has been done and materials furnished in connection with _________________________ upon the Land in the approximate total sum of $__________, but no work whatever remains to be done and no materials remain to be furnished to complete the construction in full compliance with the plans and specifications, nor are there any unpaid bills incurred for labor and materials used in making such improvements or repairs upon the Land, or for the services of architects, surveyors or engineers, except as follows: ____. Owner, by the undersigned Declarant, agrees to and does hereby indemnify and hold harmless Chicago Title Company against any and all claims arising therefrom.

3. Owner has not previously conveyed the Land; is not a debtor in bankruptcy (and if a partnership, the general partner thereof is not a debtor in bankruptcy); and has not received notice of any pending court action affecting the title to the Land.

4. Except as shown in the above-referenced Preliminary Report/Commitment, there are no unpaid or unsatisfied mortgages, deeds of trust, Uniform Commercial Code financing statements, regular assessments, special assessments, periodic assessments or any assessment from any source, claims of lien, special assessments, or taxes that constitute a lien against the Land or that affect the Land but have not been recorded in the public records. There are no violations of the covenants, conditions and restrictions as shown in the above-referenced Preliminary Report/Commitment.

5. The Land is currently in use as _____________________; _______________________ occupy/occupies the Land; and the following are all of the leases or other occupancy rights affecting the Land:

   ____

6. There are no other persons or entities that assert an ownership interest in the Land, nor are there unrecorded easements, claims of easement, or boundary disputes that affect the Land.

7. There are no outstanding options to purchase or rights of first refusal affecting the Land.

8. Between the most recent Effective Date of the above-referenced Preliminary Report/Commitment and the date of recording of the Insured Instrument(s), Owner has not taken or allowed, and will not take or allow, any action or inaction to encumber or otherwise affect title to the Land.

This declaration is made with the intention that Chicago Title Company (the "Company") and its policy issuing agents will rely upon it in issuing their title insurance policies and endorsements. Owner, by the undersigned Declarant, agrees to indemnify the Company against loss or damage (including attorneys fees, expenses, and costs) incurred by the Company as a result of any untrue statement made herein.

I declare under penalty of perjury that the foregoing is true and correct and that this declaration was executed on ______ at __________________________________.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Federal CERCLIS list

SEMS: SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

A review of the SEMS list, as provided by EDR, and dated 07/29/2021 has revealed that there are 2 SEMS sites within approximately 0.5 miles of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
ORANGE COUNTY CHEMIC	13744 EXCELSIOR DRIV	N 1/8 - 1/4 (0.226 mi.)	T85	594
LA COUNTY NITROUS OX Site ID: 0909538 EPA Id: CAN000909538	13556 PUMICE STREET	NNW 1/4 - 1/2 (0.438 mi.)	140	1074

EXECUTIVE SUMMARY

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 07/29/2021 has revealed that there are 4 SEMS-ARCHIVE sites within approximately 0.5 miles of the target property.

Federal RCRA CORRACTS facilities list

CORRACTS: CORRACTS is a list of handlers with RCRA Corrective Action Activity. This report shows which nationally-defined corrective action core events have occurred for every handler that has had corrective action activity.

A review of the CORRACTS list, as provided by EDR, and dated 03/22/2021 has revealed that there are 2 CORRACTS sites within approximately 1 mile of the target property.

EXECUTIVE SUMMARY

EPA ID:: CAD076240407

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

A review of the RCRA-TSDF list, as provided by EDR, and dated 03/22/2021 has revealed that there is 1 RCRA-TSDF site within approximately 0.5 miles of the target property.

Federal RCRA generators list

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 03/22/2021 has revealed that there is 1 RCRA-LQG site within approximately 0.25 miles of the target property.

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 03/22/2021 has revealed that there are 18 RCRA-SQG sites within approximately 0.25 miles of the target property.

State- and tribal - equivalent CERCLIS

CA ENVIROSTOR: The Department of Toxic Substances Control’s (DTSC’s) Site Mitigation and Brownfields Reuse Program’s (SMBRP’s) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the CA ENVIROSTOR list, as provided by EDR, and dated 04/23/2021 has revealed that there are 24 CA ENVIROSTOR sites within approximately 1 mile of the target property.

State and tribal landfill and/or solid waste disposal site lists

CA SWF/LF: The Solid Waste Facilities/Landfill Sites records typically contain an inventory of solid waste disposal facilities or landfills in a particular state. The data come from the Integrated Waste Management Board's Solid Waste Information System (SWIS) database.

A review of the CA SWF/LF list, as provided by EDR, has revealed that there is 1 CA SWF/LF site within approximately 0.5 miles of the target property.

CA CPS-SLIC: Cleanup Program Sites (CPS; also known as Site Cleanups [SC] and formerly known as Spills, Leaks, Investigations, and Cleanups [SLIC] sites) included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

A review of the CA CPS-SLIC list, as provided by EDR, has revealed that there are 8 CA CPS-SLIC sites within approximately 0.5 miles of the target property.

State and tribal registered storage tank lists

CA UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the State Water Resources Control Board's Hazardous Substance Storage Container Database.

A review of the CA UST list, as provided by EDR, has revealed that there is 1 CA UST site within approximately 0.25 miles of the target property.

EXECUTIVE SUMMARY

Local Lists of Registered Storage Tanks

CA SWEEPS UST: Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990's. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list.

A review of the CA SWEEPS UST list, as provided by EDR, and dated 06/01/1994 has revealed that there are 11 CA SWEEPS UST sites within approximately 0.25 miles of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 03/22/2021 has revealed that there are 28 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

EXECUTIVE SUMMARY

CA Cortese: The sites for the list are designated by the State Water Resource Control Board (LUST), the Integrated Waste Board (SWF/LS), and the Department of Toxic Substances Control (Cal-Sites).

A review of the CA Cortese list, as provided by EDR, and dated 06/17/2021 has revealed that there are 24 CA Cortese sites within approximately 0.5 miles of the target property.

CA LOS ANGELES CO LF METHANE: This data was created on April 30, 2012 to represent known disposal sites in Los Angeles County that may produce and emanate methane gas. The shapefile contains disposal sites within Los Angeles County that once accepted degradable refuse material. Information used to create this data was extracted from a landfill survey performed by County Engineers (Major Waste System Map, 1973) as well as historical records from CalRecycle, Regional Water Quality Control Board, and Los Angeles County Department of Public Health

A review of the CA LOS ANGELES CO LF METHANE list, as provided by EDR, and dated 02/04/2021 has revealed that there is 1 CA LOS ANGELES CO LF METHANE site within approximately 0.5 miles of the target property.

Environmental Interest/Information System:
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

LOS ANGELES CO. HMS:

Name:	FRIGID COIL
Address:	13711 E FREEWAY DR
City,State,Zip:	SANTA FE SPRINGS, CA 90670
Region:	LA
Permit Category:	I
Facility Id:	004024-I04170
Facility Type:	01
Facility Status:	Closed
Area:	1H
Permit Number:	000004345
Permit Status:	Closed

FRIGID COIL (Continued) **1000596591**

WDS:

Name:	YORK INTERNATIONAL
Address:	13711 Freeway Dr
City:	SANTA FE SPRINGS
Facility ID:	4 19I009967
Facility Type:	Other - Does not fall into the category of Municipal/Domestic, Industrial, Agricultural or Solid Waste (Class I, II or III)
Facility Status:	Active - Any facility with a continuous or seasonal discharge that is under Waste Discharge Requirements.
NPDES Number:	CAS000001 The 1st 2 characters designate the state. The remaining 7 are assigned by the Regional Board
Subregion:	4
Facility Telephone:	5629214310
Facility Contact:	Tom Ferry
Agency Name:	YORK INTERNATIONAL
Agency Address:	Not reported
Agency City,St,Zip:	0
Agency Contact:	Not reported
Agency Telephone:	Not reported
Agency Type:	Private
SIC Code:	3585
SIC Code 2:	Not reported
Primary Waste Type:	Inert/Influent or Solid Wastes that do not contain soluble pollutants or organic wastes and have little adverse impact on water quality. Such wastes could cause turbidity and siltation. Uncontaminated soils, rubble and concrete are examples of this category.
Primary Waste:	STORMS
Waste Type2:	Not reported
Waste2:	Stormwater Runoff
Primary Waste Type:	Inert/Influent or Solid Wastes that do not contain soluble pollutants or organic wastes and have little adverse impact on water quality. Such wastes could cause turbidity and siltation. Uncontaminated soils, rubble and concrete are examples of this category.
Secondary Waste:	Not reported
Secondary Waste Type:	Not reported
Design Flow:	0
Baseline Flow:	0
Reclamation:	No reclamation requirements associated with this facility.
POTW:	The POTW Does not have an approved pretreatment program. Some POTWs may have local pretreatment programs that have not been approved by the regional board and/or EPA.
Treat To Water:	Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity:	Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.
