

City of Santa Fe Springs

Investment Policy

June 25, 2020

1. Policy

The intent of the Investment Policy of City of Santa Fe Springs is to define the parameters within which funds are to be managed. In methods, procedures and practices, the policy formalizes the framework for the City's investment activities that must be exercised to ensure effective and judicious fiscal and investment management of the City's funds. The guidelines are intended to be broad enough to allow the investment officer to function properly within the parameters of responsibility and authority, yet specific enough to adequately safeguard the investment assets.

The City will invest its funds in such a manner as to comply with applicable state laws (California Government Code Section 53600, et seq. and 53630, et seq.), ensure prudent money management, provide for daily cash flow needs, and meet the City's investment objectives.

2. Scope

The Investment Policy applies to all funds and investment activities of the City except for the investment of bond proceeds, which are governed by the appropriate bond documents, and any pension or other post-employment benefit funds held in a trust that has a separate investment policy.

Except for funds in certain restricted and special funds, the City commingles its funds to maximize investment earnings and to increase efficiencies with regard to investment pricing, safekeeping and administration.

3. Prudence

The standard of prudence to be used by those authorized to invest on behalf of the City will be the "prudent investor" standard and will be applied in the context of managing an overall portfolio. The "prudent investor" standard states that:

"When investing, reinvesting, purchasing, acquiring, exchanging, selling, or managing public funds, a trustee shall act with care, skill, prudence, and diligence under the circumstances then prevailing, including, but not limited to, the general economic conditions and the anticipated needs of the agency, that a prudent person acting in a like capacity and familiarity with those matters would use in the conduct of funds of a like character and with like aims, to safeguard the principal and maintain the liquidity needs of the agency."

4. Objectives

The primary objectives, in priority order, of the investment activities of the City are:

1. **Safety** — Safety of principal is the foremost objective of the investment program. Investments will be undertaken in a manner that seeks to ensure preservation of capital in the portfolio.
2. **Liquidity** — The investment portfolio will remain sufficiently liquid to enable the City to meet its cash flow requirements.
3. **Return on Investment** — The investment portfolio will be designed with the objective of attaining a market rate of return throughout budgetary and economic cycles, taking into consideration with the investment risk constraints of safety and liquidity needs.

5. Delegation of Authority

The City Council's management responsibility for the investment program is hereby delegated for a one-year period to the City Treasurer. Subject to review, the City Council may renew the delegation of authority pursuant to this section each year. The City Treasurer, and the Treasurer's designees, will monitor and review all investments for consistency with this Investment Policy. The City Treasurer may delegate day-to-day investment decision making and execution authority to an investment advisor. Eligible investment advisors must be registered with the Securities and Exchange Commission (SEC) under the Investment Advisors Act of 1940. The advisor will follow the Policy and such other written instructions as are provided.

6. Ethics and Conflict of Interest

Officers and employees involved in the investment process will refrain from personal business activities that could conflict with proper execution of the investment program, or which could impair their ability to make impartial decisions. Employees and investment officials will disclose to the City Manager any material financial interests in financial institutions that conduct business within their jurisdiction, and they will further disclose any large personal financial/investment positions that could be related to the performance of the City's portfolio.

7. Authorized Financial Dealers and Institutions

The City Treasurer will maintain a list of financial dealers and institutions qualified and authorized to transact business with the City.

The purchase by the City of any investment other than those purchased directly from the issuer, will be purchased either from an institution licensed by the State as a broker-dealer, as defined in Section 25004 of the Corporations Code, who is a member of Financial Industry Regulatory Authority (FINRA), or a member of a Federally regulated securities exchange, a National or State Chartered Bank a Federal or State Association (as defined by Section 5102 of the Financial Code), or a brokerage firm designated as a Primary Government Dealer by the Federal Reserve Bank.

The City Treasurer will investigate all institutions that wish to do business with the City, in order to determine if they are adequately capitalized, make markets in securities appropriate to the City's needs, and agree to abide by the conditions set forth in the City's Investment Policy and any other guidelines that may be provided. This

will be done annually by having the financial institutions submit in writing that they have read and will abide by the City's Investment Policy and submit its most recent audited Financial Statement within 120 days of the institution's fiscal year end.

If the City has an investment advisor, the investment advisor may use its own list of authorized broker/dealers to conduct transactions on behalf of the City.

Purchase and sale of securities will be made on the basis of competitive bids and offers with a minimum of three quotes being obtained, whenever possible.

8. Authorized and Suitable Investment

The City will limit investments in any one issuer, except U.S. Treasuries, Federal Agencies, supranationals, and pooled funds (i.e., money market funds, local government investment pools, and LAIF), to no more than 5% regardless of security type.

Where this section specifies a percentage limitation for a particular security type, that percentage is applicable only at the date of purchase. Credit criteria listed in this section refers to the credit rating category (inclusive of modifiers) at the time the security is purchased.
