City of Santa Fe Springs

Planning Commission Meeting

AGENDA

MEETING OF THE SANTA FE SPRINGS PLANNING COMMISSION

August 14, 2023
6:00 p.m.

Joseph Flores, Commissioner
Gabriel Jimenez, Commissioner
John Mora, Commissioner
David Ayala, Vice Chairperson
Francis Carbajal, Chairperson

Council Chambers
11710 Telegraph Road
Santa Fe Springs, CA 90670

You may attend the Planning Commission meeting telephonically or electronically using the following means:
Electronically using Zoom: Go to Zoom.us and click on "Join A Meeting" or use the following link: https://zoom.us/j/558333944?pwd=b0FqbkV2aDZneVRnQ3BjYU12SmJlQT09
Zoom Meeting ID: 558 333 944 Password: 554545
Telephonically: Dial: 888-475-4499 Meeting ID: 558 333 944

Public Comment: The public is encouraged to address the Commission on any matter listed on the agenda or on any other matter within its jurisdiction. If you wish to address the Commission, please complete the card that is provided at the rear entrance to the Council Chambers and hand the card to the Secretary or a member of staff. The Commission will hear public comment on items listed on the agenda during discussion of the matter and prior to a vote. The Commission will hear public comment on matters not listed on the agenda during the Oral Communications period. All written comments received by 12:00 p.m. the day of the Planning Commission meeting will be distributed to the Planning Commissioners and made a part of the official record of the meeting. Written comments will not be read the meeting, only the name of the person submitting the comment will be announced.

Pursuant to provisions of the Brown Act, no action may be taken on a matter unless it is listed on the agenda or unless certain emergency or special circumstances exist. The Commission may direct staff to investigate and/or schedule certain matters for consideration at a future Commission meeting.

Americans with Disabilities Act: In compliance with the ADA, if you need special assistance to participate in a City meeting or other services offered by this City, please contact the Planning Department. Notification of at least 48 hours prior to the meeting or time when services are needed will assist the City staff in assuring that reasonable arrangements can be made to provide accessibility to the meeting or service.

Please Note: Staff reports are available for inspection in the Planning & Development Department, City Hall, 11710 E. Telegraph Road, during regular business hours 7:30 a.m. – 5:30 p.m., Monday – Friday (closed every other Friday) Telephone (562) 868-0511.

1. CALL TO ORDER

2. PLEDGE OF ALLEGIANCE

3. ROLL CALL
Commissioners Ayala, Carbajal, Flores, Jimenez, and Mora

4. EX PARTE COMMUNICATIONS
This section is intended to allow all officials the opportunity to reveal any disclosure regarding site visits or ex parte communications about public hearings.

5. CONSENT ITEM
Consent Agenda items are considered routine matters, which may be enacted, by one motion and roll call vote. Any item may be removed from the Consent Agenda and considered separately by the Planning Commission.

A. CONSENT ITEM
Conditional Use Permit Case No. 453-8
A compliance review to allow the continued operation and maintenance of a drive-in theater and swap meet operation at 13963 Alondra Boulevard, in the M-2-FOZ, Heavy Manufacturing – Freeway Overlay, Zone.
(Newport Diversified, Inc. for Santa Fe Springs Swap Meet)

B. CONSENT ITEM
Conditional Use Permit (CUP) Case No. 787-4
A request for a time extension of Conditional Use Permit (CUP) Case No. 787 to allow the establishment, operation, and maintenance of a mini-warehouse facility on property located at 11212 Norwalk Boulevard (8025-001-014), in the M-2, Heavy Manufacturing, Zone. (InSite Property Group)

C. CONSENT ITEM
Development Plan Approval Case No. 930-3
A request for a time extension of Development Plan Approval (DPA) Case No. 930 to allow the construction of a new ±78,800 sq. ft. concrete tilt-up industrial building located at 12451 Telegraph Road (APN: 8005-015-047), within the M-2, Heavy Manufacturing, Zone. (Bridgeland Resources, LLC)

6. PUBLIC HEARING
Categorically Exempt - CEQA Guidelines Sections 15301, Class 1
Alcohol Sales Conditional Use Permit (CUP) Case No. 85
Request for approval of Alcohol Sales Conditional Use Permit Case No. 85 to allow the operation and maintenance of an alcoholic beverage use involving the warehousing and distribution of alcoholic beverages at Bay Cities Packaging, located at 9206 Santa Fe Springs Road, within the Heavy Manufacturing (M-2) Zone.
(Bay Cities Packaging & Design)

7. PUBLIC HEARING

Categorically Exempt - CEQA Guidelines Section 15301, Class 1
Conditional Use Permit Case No. 552-5

A request for a ten-year permit extension to allow the ongoing operation and maintenance of an existing 60'-0" ft. high wireless telecommunications facility (mono-pole) and related unmanned equipment room at 8923 Pioneer Boulevard, within the M-2, Heavy Manufacturing, Zone. (Network Conex on behalf of Crown Castle)

8. PUBLIC HEARING

Categorically Exempt - CEQA Guidelines Section 15301, Class 1
Conditional Use Permit Case No. 728-1

A request for a ten-year extension to allow the ongoing operation and maintenance of an unmanned wireless telecommunications facility and related equipment on, and at the base of, an existing 126'-5" – high Southern California Edison transmission tower located at 11047 Davenrich Street, within the A-1, Light Agricultural, Zone.
(T-Mobile West, LLC)

9. PUBLIC HEARING

Categorically Exempt – CEQA Guidelines Section 15301, Class 1
Amendment to Conditional Use Permit Case No. 749

A request for approval to modify the hours of operation for a food processing use, involving vinegar at 13117 Molette Street, within the M-2, Heavy Manufacturing, Zone (Otafuku Foods, Inc.)

10. PUBLIC HEARING

CEQA – Addendum to the City's Certified Environmental Impact Report (EIR) for the General Plan and Targeted Zoning Ordinance Update (SCH# 2021050193)
Tentative Parcel Map (TPM) No. 84116
Development Plan Approval (DPA) Case No. 1000
Development Plan Approval (DPA) Case No. 1001

TPM No. 84116: A request for approval to subdivide an existing parcel (APN: 8009-023-027) into two parcels: Parcel 1 of ±3.33 acres and Parcel 2 of ±3.99 acres.

DPA Case No. 1000: A request for approval to allow the construction of a new ±69,650 sq. ft. concrete tilt-up industrial building and related improvements on the subject site (Parcel 1).

DPA Case No. 1001: A request for approval to allow the construction of a new ±75,050 sq. ft. concrete tilt-up industrial building and related improvements on the subject site (Parcel 2).

The subject site is located at 10845 Norwalk Boulevard (APN: 8009-023-27), within the M-2, Heavy Manufacturing, Zone. (Orbis Real Estate Partners)

11. PUBLIC COMMENT

This is the time when comments may be made by members of the public on matters within the jurisdiction of the Planning Commission, not on the agenda. The time limit for each speaker is three (3) minutes unless otherwise specified by the Chairperson.

12. STAFF ANNOUNCEMENTS

13. COMMISSIONER ANNOUNCEMENTS/AB1234 COMMISSION CONFERENCE REPORTING

14. ADJOURNMENT

I, Teresa Cavallo, Planning Commission Secretary for the City of Santa Fe Springs, hereby certify under penalty of perjury under the laws of the State of California, that the foregoing agenda was posted at the following locations: City's website at www.santafesprings.org; City Hall, 11710 Telegraph Road; City Library, 11700 Telegraph Road, and the Town Center Plaza (Kiosk), 11740 Telegraph Road, not less than 72 hours prior to the meeting.

Teresa Cavallo
Planning Secretary

Date

CONSENT ITEM

Conditional Use Permit Case No. 453-8

A compliance review to allow the continued operation and maintenance of a drive-in theater and swap meet operation at 13963 Alondra Boulevard, in the M-2-FOZ, Heavy Manufacturing – Freeway Overlay, Zone. (Newport Diversified, Inc. for Santa Fe Springs Swap Meet)

RECOMMENDATIONS

- Find the continued operation and maintenance of a drive-in theater and swap meet operation, if conducted in strict compliance with the conditions of approval, will be harmonious with adjoining properties and surrounding uses in the area and will be in conformance with the overall purposes and objectives of the Zoning Ordinance and consistent with the goals, policies, and programs of the City's General Plan; and
- Require that Conditional Use Permit Case No. 453-8, be subject to a compliance review in ten (10) years, on or before, August 14, 2033, to ensure the use is still operating in strict compliance with the conditions of approval as contained within this staff report.

LOCATION/BACKGROUND

A drive-in theater and swap meet was established on the subject site prior to the City becoming incorporated in 1957 and has continued in operation since then. The existing Conditional Use Permit (CUP 453), however, only dates back to November 1988.

In November of 1988, the City Council passed and adopted Ordinance No. 739, amending the City's Zoning Ordinance to allow drive-in theaters and swap meets conducted in connection with a drive-in theater operation, as a conditional use activity within the M-2, Heavy Manufacturing, Zone. Prior to Ordinance No. 739, drive-in theaters and swap meets were listed as a conditional use activity only in the C-4, Community Commercial, Zone.

Prior to the passage of Ordinance No. 739, the swap meet use was allowed to operate under Zone Variance Case No. 39. It should be noted that State Law, enacted in 1974, prohibited cities from granting a Variance for uses not otherwise permitted in a particular zone and thus, the Variance no longer complied with State Law. Therefore, pursuant to the requirements of Ordinance No. 739, and to ensure ongoing enjoyment of their operations, the owner of the drive-in theater and swap meet had requested and was granted approval of CUP No. 453 in February of 1989.

ZONING REQUIREMENTS

In February of 2003, the City Council passed and adopted Ordinance No. 931, adding Part 15 (Freeway Overlay Zone) to the City's Zoning Ordinance. Part 15 established design and development standards for the Freeway Overlay Zone (FOZ), including but not limited to identifying "drive-in theaters and swap meets conducted in connection with a drive in theater operation" as a conditionally permitted use.

While the original CUP for the subject drive-in theater and swap meet operation was approved in accordance with Section 155.243 (J)(8), it should be noted that the CUP is now required as per Section 155.377 (E)(4) of the City's Zoning Ordinance following the adoption of Ordinance No. 931.

City of Santa Fe Springs – Zoning Ordinance Section 155.377 - (E) CONDITIONAL USES
The following uses shall be permitted in the FOZ only after a valid Conditional Use Permit has first been issued: (E) Conditionally Permitted Uses: (4) Drive-in theaters and swap meets conducted in connection with a drive-in theater operation.

As stated previously, the Santa Fe Springs Swap Meet, managed by Newport Diversified Inc., was initially granted a Conditional Use Permit in February 1989. There have been several compliance reviews conducted since 1989. In fact, this is the eighth compliance review since the original CUP approval.

STAFF CONSIDERATIONS:

As a standard practice for all CUP compliance reviews, an inspection of the subject property was performed by City staff to ensure continued compliance with the conditions of approval before bringing the matter back to the Planning Commission. Staff conducted a walk-through inspection on July 18, 2023, and found the drive-in theater and swap meet use was operating in full compliance with the existing conditions of approval.

Staff finds that if the subject use continues to operate in strict compliance with the required conditions of approval, it will continue to be harmonious with adjoining properties and surrounding uses in the area and, therefore, will not be detrimental to persons or property in the immediate vicinity and will not adversely affect the city in general. Staff is therefore recommending that CUP 453 be subject to a compliance review in ten (10) years, on or before, August 14, 2033, to ensure the subject drive-in theater and swap meet use is still operating in strict compliance with the conditions of approval as contained within the staff report.

CONDITIONS OF APPROVAL:

FIRE DEPARTMENT—FIRE PREVENTION DIVISION:

1. That there shall be no selling or trading of flammable liquids, including but not limited to, gasoline, kerosene, acetone, thinners, and solvents, ammunition and blasting agents, liquid petroleum gases or other combustible gases, any type of fireworks, acids, or caustic or oxidizing agents **(Ongoing)**

PLANNING AND DEVELOPMENT DEPARTMENT:

2. That the City Manager shall have the authority to approve additional days of operation up to and including seven days a week. Additionally, the City Manager shall the authority to approve additional hours of operation up to and including 11 pm. **(Ongoing)**

3. That the swap meet and drive-in theater use shall continue to be maintained in a neat and orderly manner at all times**. (Ongoing)**

4. That all licensing requirements of the City of Santa Fe Springs be complied with. **(Ongoing)**

5. That there shall be no selling or trading of guns, drug paraphernalia, pornographic other similar adult materials and items which may constitute patent, trademark or copyright infringement. **(Ongoing)**

6. That the applicant shall continue to provide adequate off-street parking for all customers and shall discourage street parking by appropriate signs, charging the same price for walk-in customers as for drive-in, etc. **(Ongoing)**

7. That in the event the owners intend to sell, lease, or sublease the swap meet operations, the City shall be notified in writing not less than sixty (60) days prior to the signing of the agreement to sell, lease, or sublease **(Ongoing)**

8. That the applicant shall comply with all other requirements of the City's Zoning Ordinance, Building Code, Property Maintenance Ordinance, Federal State, or local Fire Codes and all other applicable regulations. **(Ongoing)**

9. That the applicant, Newport Diversified, Inc. agrees to defend, indemnify, and hold harmless the City of Santa Fe Springs, its agents, officers, and employees from any claim, action or proceeding against the City or its agents, officers, or employees to attach, set aside, void or annual an approval of the City or any of its councils, commissions, committee or boards concerning CUP Case No. 453, when action is brought within the

time period provided for in the City's Zoning Ordinance, Section 155.865. Should the City, its agents, officers, or employees receive notice of any such claim, action, proceeding, the City shall promptly notify the owner/developer of such claim, action, or proceeding, and shall cooperate fully in the defense thereof. **(Ongoing)**

10. That Conditional Use Permit Case No. 453 shall be subject to a compliance review in ~~five (5)~~ **ten (10) years**, on or before ~~August 13, 2023~~ **August 14, 2033.** Approximately three (3) months before ~~August 13, 2023~~, **August 14, 2033** the applicant shall request, in writing, an extension of the privileges granted herein, provided that the use has been continuously maintained in strict compliance with these conditions of approval. **(Revised)**

11. That the swap meet operations shall remain substantially in accordance with the two-vendor layout plans (interior and exterior areas) provided by the owner and on file with the case**. (Ongoing)**

12. That the applicant understands and agrees that the drive-in theater use shall continue to operate in conjunction with swap meet use. **(Ongoing)**

13. It is hereby declared to be the intent that if any provisions of this Permit is violated or hold to be valid or if any law, statue, or ordinance is violated, this Permit shall be void and the privileges granted hereunder shall lapse. **(Ongoing)**

Compliance Review Request Letter

Newport Diversified, Inc.
13963 Alondra Boulevard, Santa Fe Springs, CA 90670
(626) 485 – 8865

July 17, 2023

Mr. Wayne Morrell
Director of Planning and Development
City of Santa Fe Springs
11710 Telegraph Rd.
Santa Fe Springs, CA 90670

Dear Wayne,

Per conditions in our CUP Case # 453-8, and any others we may have, we would like to request compliance review consideration.

Since our existent CUP renewal, we have not made any material changes in our operations.
In cooperation with Claudia Jimenez, Assistant Planner, the permit processing fee has been paid.
Our last Drive - in movies were screened on 12/27/21 and 1/3/22. We plan on doing another two at the end of this year and beginning of next year, showing the Disney movie "Cars."
We continue to strictly comply with our Conditional Use Permits, and as this will be our 8th Compliance Review, we have a pretty good understanding of what is required. We have not changed or modified any of our use of the facility since our last review. We are not asking for any additional modifications; we have been operating continuously since 1965 and believe the CUP's are pretty finely tuned.
Additionally, we appreciate your intent to modify our review cycle to ten years from the current five.

Thank you, and we are looking forward to the scheduled walk-through this Thursday!

Rick Landis
Director Business Development

CONSENT ITEM

Conditional Use Permit (CUP) Case No. 787-4

A request for a time extension of Conditional Use Permit (CUP) Case No. 787 to allow the establishment, operation, and maintenance of a mini-warehouse facility on property located at 11212 Norwalk Boulevard (8025-001-014), in the M-2, Heavy Manufacturing, Zone. (InSite Property Group)

RECOMMENDATIONS:

- Find and determine that granting a one (1) year time extension of Conditional Use Permit Case No. 787 will not be detrimental to persons or properties in the surrounding area or to the City in general, and will be in conformance with the overall purpose and objective of the Zoning Ordinance and consistent with the goals, polies, and programs of the City's General Plan; and
- Approve a one (1) year time extension of Conditional Use Permit Case No. 787, subject to compliance review in one (1) year, on or before, August 14, 2024, to ensure that the use is operating in strict compliance with the conditions of approval as contained within this staff report.

BACKGROUND

In accordance with Section 155.637(A) of the City's Zoning Ordinance, a mini-warehouse facility shall be permitted in the M-1 and M-2 Zones only after a valid Conditional Use Permit and development plan approval have been granted.

City of Santa Fe Springs – Zoning Ordinance Section 155.637(A)
(A) Mini-warehouses shall be permitted in the M-1 and M-2 Zones only after a valid conditional use permit and development plan approval have been granted. Notwithstanding, no conditional use permit shall be granted for a mini-warehouse facility along the Telegraph Road Corridor.

On May 14, 2018, the Planning Commission approved Development Plan Approval (DPA) Case No. 936 and Conditional Use Permit (CUP) Case No. 787. The DPA allows for the construction of a new ±128,896 sq. ft. mini-warehouse along with a new ±1,200 sq. ft. office building at 11212 Norwalk Blvd. The CUP allows the establishment, operation, and maintenance of a mini-warehouse facility at 11212 Norwalk Blvd. Due to various challenges related to two known oil and gas wells and having to find a new buyer for the site, the applicant has been granted a total of three (3) time extensions since the original approval on May 14, 2018. The last time extension was granted was on September 12, 2022. It should be noted that the original applicant was JFS

Management LLC but they decided not to buy the property. The current property owner and applicant is InSite Property Group.

Oil Well Activities

On August 8, 2019, the City Council approved Ordinance No. 1104, which amended the procedures regarding the abandonment of oil wells. The ordinance now allows the Director of Planning, in consultation with the Fire Chief, to conditionally authorize issuance of a building and/or grading permit for property that contains an active or abandoned well, even if the Geologic Energy Management Division (CalGEM), has determined that such well was not abandoned to its current standards.

According to the CalGEM Construction Site Well Review Report, there are two known oil and gas wells, Well No. 1 (Gilbert Petroleum Corporation: API No. 03715451) and Well No. 42 (Industrial Oil Syndicate No. 4: API No. 03715767), on the subject property. The report indicated that both wells are not abandoned to current CalGEM requirements and CalGEM recommend these wells to be abandoned or re-abandoned in compliance with current CalGEM requirements prior to development on the property.

Considering CalGEM's recommendations, the owner is requesting not to abandon or re-abandon the wells to current CalGEM requirements because the subject wells are not leaking or otherwise not located on the subject site. The one well located on the subject property (Well No. 1) is located in a proposed parking lot and landscape area and thus will not be covered by the proposed building. Additionally, abandonment rigs will have continuous access to the on-site well in the event said well leaks in the future.

In order for the development to move forward and be in compliance with Ordinance No. 1104, the City and the owner entered into an Agreement on June 7, 2022, to set forth the owner's obligations and to indemnify and release the City from any and all liability associated with all oil and gas wells on the Property.

It should be noted that, prior to the Agreement, the owner submitted various technical reports to the City relating to mitigation of potential public health and safety concerns regarding the two known oil wells, including the following technical reports:

- Geophysical Survey Prepared by Terra-Petra dated December 11, 2017
- CalGEM Construction Site Well Review (CSWR) Report ID: 1012233 dated March 25, 2021
- CalGEM CSWR Report ID: 1012384 dated December 17, 2021
- Witten Engineering report dated June 11, 2018
- Preliminary Grading Plan for 11212 Norwalk Boulevard dated July 31, 2019, as updated in 2021

- Signal Geoscience Report of the Search for Industrial Oil Syndicate #4, Well Number 4-2, API 03715767dated August 31, 2020
- Witten Engineering report dated July 12, 2021
- Roux Associates, Inc. leak test report covering the Gilbert Petroleum Corporation (CPC) 1 dated January 21, 2022.

Pursuant to the documents listed above, the owner had informed the City that Well No.42 is not located within the subject property. Therefore, the City had its oil and gas expert, Evans & Walker, review the documents mentioned above and other documents provided by the owner. Evans & Walker determined that the Owner has expended great effort to locate Well No. 42, and concurs that Well No. 42 is not located on the Property.

Details of the challenges to date

Construction of the mini-warehouse facility project is now well underway, and InSite Property Group continues to work with the City to secure all necessary permits and/or extensions. However, due to the unprecedented wet weather that California received earlier this year, construction timelines have been impacted and InSite Property Group now estimates that the project completion date will be towards the end of 2023 or early 2024. The property owner is therefore seeking a one (1) year time extension to keep the CUP valid and allow the property owner to finish construction of the proposed mini-warehouse facility.

REQUIREMENT FOR TIME EXTENSION

Section 155.721 of the City's Zoning Regulations specifies that a conditional use permit which has not been utilized within 12 months, shall become null and void (see Code Section below).

City of Santa Fe Springs – Zoning Ordinance Section 155.721 – Expiration
Unless otherwise specified in the action granting a conditional use permit, said approval which has not been utilized within a period of 12 consecutive months from the effective date shall be null and void. Also the abandonment or nonuse of a conditional use permit for a period of 12 consecutive months shall terminate said conditional use permit and any privileges granted thereunder shall become null and void. However, an extension of time may be granted by Commission or Council action.

An extension of time, however, may be granted by Commission or Council action. It should be noted that the property owner is only requesting a time extension for CUP 787. On May 14, 2018, the City Council approved DPA Case No. 936 and TPM No. 82031. DPA 936 allowed the construction of a new 128,896 sq. ft. mini-warehouse facility along with a new 1,200 sq. ft. office building. TPM 82031 allowed the

consolidation of seven (7) lots into a single parcel measuring 67,260 sq. ft. The other related entitlements, DPA 936 and TPM 82031, were utilized within their allotted timeframe; therefore, the applicant is not required to obtain a time-extension for the DPA or TPM entitlements.

STAFF CONSIDERATIONS

As mentioned previously, construction of the mini-warehouse facility is well underway. Staff is therefore confident that the subject development will be fully constructed within the next year and the applicant will utilize their CUP entitlement to operate and maintain a mini-warehouse on the subject site. Therefore, staff recommends that the Planning Commission grant a one (1) year extension until August 14, 2024, subject to the conditions of approval listed within this staff report. If for some reason the applicant requires additional time at the end of one (1) year, they will need to submit a subsequent time extension request along with an updated justification statement.

CONDITIONS OF APPROVAL

NOTE: Changes to existing conditions are provided as a strike-through or bold.

WASTE MANAGEMENT:
(Contact: Teresa Cavallo 562-868-0511 x7309)

1. The applicant shall comply with Section 50.51 of the Municipal Code which prohibits any business or residents from contracting any solid waste disposal company that does not hold a current permit from the City.

PLANNING AND DEVELOPMENT DEPARTMENT:
(Contact: Rudy Lopez 562.868-0511 x7519)

2. That Conditional Use Permit Case No. 787 allows for a mini-warehouse use within a 128,896 square feet concrete tilt-up building located at 11212 Norwalk Boulevard. Approval of Conditional Use Permit case No. 787 is contingent upon approval of Development Plan Approval Case No. 936 and Tentative Parcel Map Case No. 82031.

3. That the property owner shall ensure the operator of the mini-warehouse facility complies with City of Santa Fe Springs Municipal Section 155.637.

4. That no parking of vehicles shall be allowed in front of the loading door along the south elevation.

5. That all loading and unloading activities shall occur within the designated loading area only.

6. That no portion of the required on-site parking area shall be used for outdoor storage of any type or for special activities.

7. That the exterior exit doors shall remain closed when not being used for ingress/egress purposes. Additionally, the applicant shall inform all staff members and clients not to loiter or make loud noises outside of the building.

8. That the applicant shall maintain the area in a clean and orderly manner at all times.

9. That there shall be no on-site kitchen facilities or preparation of food and drinks without prior approval from the Director of Planning or his/her designee.

10. That the applicant shall notify, in writing, of any change in ownership within 30 days. The conditions of approval shall be binding to any successors.

11. That prior to occupancy of the tenant space, the applicant shall obtain a valid business license (AKA Business Operation Tax Certification), and submit a Statement of Intended Use. Both forms, and other required accompanying forms, may be obtained at City Hall by contacting Cecilia Martinez at (562) 868-0511, Extension 7527, or through the City's website (www.santafesprings.org).

12. The Conditional Use Permit Case No. ~~787~~ **787-4** shall be subject to a compliance review on or before ~~March 11, 2021~~ **August 14, 2024**. Approximately three (3) months before ~~March 11, 2021~~ **August 14, 2024**, the applicant shall request, in writing, an extension of the privileges granted herein, provided that the use has been continuously maintained in strict compliance with these conditions of approval.

13. That the applicant, ~~Johnson Development Associates Inc.,~~ **InSite Property Group**, agree to defend, indemnify and hold harmless the City of Santa Fe Springs, its agents, officers and employees from any claim, action or proceeding against the City or its agents, officer or employees to attack, set aside, void or annul an approval of the City or any of its councils, commissions, committees or boards arising from or in any way related to the subject Conditional Use Permit, or any action or operations conducted pursuant thereto. Should the City, its agents, officers or employees receive notice of any such claim, action or proceeding, and shall cooperate fully in the defense thereof.

14. That if there is evidence that conditions of approval have not been fulfilled or the use has or have resulted in a substantial adverse effect on the health, and/or general welfare of users of adjacent or proximate property, or have a substantial adverse impact on public facilities or service, the Director of Planning may refer the use permit to the Planning Commission for review. If upon such review, the

Commission finds that any of the results above have occurred, the Commission may modify or revoke the use permit.

15. That it is hereby declared to be the intent that if any provision of this Approval is violated or held to be invalid, or if any law, statute or ordinance is violated, this Approval shall be void and privileges granted hereunder shall lapse.

Re: Request for Extension

Dear Santa Fe Springs Planning Commission,

At the September 12, 2022 Planning Commission Meeting, we were granted a one-year time extension of Development Plan Approval Case No. 936-3 ("DPA 936"), Conditional Use Permit Case No. 787-3 ("CUP 787") and Tentative Parcel Map No. 82031 ("TPM 82031") with regard to the development of a mini-warehouse facility with an office building at 11212 Norwalk Boulevard (the "Property").

We have maintained in strict compliance with the Conditions of Approval per the CUP Extension Letter dated September 15, 2022 and are now seeking a twelve (12) month extension of DPA 936, CUP 787 and TPM 82031. As an update on TPM 82031, the parcel map has been finalized and approved and has been submitted to the City of Santa Fe Springs ("City") for recording. Construction at the Property is well underway, and we continue to work with the City on issuance of any necessary permits and extensions. Unfortunately, due to the heavy rain that California received this season, our schedule is delayed and we are now targeting completion by the end of 2023 or early 2024.

Please accept this as our formal request for a twelve (12) month extension on DPA 936, CUP 787 and TPM 82031 and if our request is granted, confirmation that we will be on the next Planning Commission Agenda on September 11, 2023.

We appreciate your consideration of our request and look forward to your favorable response. Please feel free to reach out with any questions. Thank you.

Sincerely,

Charles Brown
Manager
11212 Norwalk Blvd LLC

CONSENT ITEM

Development Plan Approval Case No. 930-3

A request for a time extension of Development Plan Approval (DPA) Case No. 930 to allow the construction of a new ±78,800 sq. ft. concrete tilt-up industrial building located at 12451 Telegraph Road (APN: 8005-015-047), within the M-2, Heavy Manufacturing, Zone. (Bridgeland Resources, LLC)

RECOMMENDATIONS

1. Find and determine that granting a one (1) year time extension of Development Plan Approval No. 930 will not be detrimental to persons or properties in the surrounding area or to the City in general, and will be in conformance with the overall purpose and objective of the Zoning Ordinance and consistent with the goals, policies, and programs of the City's General Plan; and
2. Approve a one (1) year time extension for Development Plan Approval Case No. 930 (until September 10, 2024), subject to the conditions of approval for Development Plan Approval No. 930.

BACKGROUND

Ownership History

BreitBurn Energy Company LP purchased the properties (Parcels 1-5 of Parcel Map 78232) from Texaco California Inc. in 2002. In 2006, BreitBurn Energy Company LP sold the properties to BreitBurn Operating LP. However, in 2016, BreitBurn Energy Partners LP, the parent company of BreitBurn Operating LP, declared bankruptcy. In 2018, after emerging from bankruptcy, BreitBurn Energy Partners LP changed to Maverick Natural Resources, LLC. During this transition, BreitBurn Operating LP, which controlled the mentioned properties, continued to be owned by Maverick Natural Resources, LLC.

BreitBurn Operating LP sold Parcel 4 to Omega OU2 LLC in May 2021. Subsequently, in June 2021, BreitBurn Operating LP transferred its remaining assets (Parcels 1-3 and 5) to the newly formed WG Holdings SPV, LLC.

Initially, WG Holdings SPV, LLC operated under contract by an affiliate of E&B Natural Resources. However, in March 2022, WG Holdings SPV, LLC terminated its contract with E&B's affiliate and commenced operating the assets on its own. Around the same time, WG Holdings SPV, LLC agreed to sell Parcels 1-3 to CA Ventures.

Parcels 2 and 3 were sold by WG Holdings SPV, LLC to Centris Telegraph Point, LLC, an affiliate of CA Ventures, in June 2022. Following that, WG Holdings SPV, LLC renamed itself Bridgeland Resources, LLC in September 2022. Centris Telegraph Point, LLC held the contract for Parcel 1 until roughly April 2023. However, due to concerns regarding lending and increased rates, Centris Telegraph Point, LLC had to terminate the purchase deal for Parcel 1. Despite this, Centris Telegraph Point LLC remains interested in acquiring Parcel 1.

Entitlement and Remediation History

On September 10, 2018, the Planning Commission granted approval for an industrial project involving Development Plan Approval (DPA) Case Nos. 930-933. The approval authorized the original applicant, BreitBurn Operating LP, to construct four (4) new concrete tilt-up industrial buildings, ranging between ±58,500 sq. ft. and ±121,100 sq. ft., at the subject property. At the same meeting, the Planning Commission concurrently approved Tentative Parcel Map No. 78232 to allow the reconfiguration of an approximately 44.67-acre site into five (5) parcels. The intent was to create independent parcels for each of the four proposed buildings, while retaining one parcel for oil extraction operations.

Pursuant to Section 155.745 of the City's Zoning Ordinance, a Development Plan Approval shall become null and void if the permit is not utilized within 12 consecutive months. Recognizing the unique challenges faced by the subject property in terms of suitability for development, it was recommended that the original entitlements remain valid for an initial two (2) years from the approval date of September 10, 2018. The Planning Commission agree with staff's recommendation and granted an initial approval of two years.

The previous owner, Maverick Natural Resources, became responsible for the well abandonment and re-abandonment of at least 30 oil wells. Additionally, the rerouting of flow lines and modernization of electrical equipment were necessary to begin development. As part of their ongoing efforts to develop the four (4) properties, the property owner recorded the Final Parcel Map with the Los Angeles County Recorder's Office in September 2019.

In March 2020, approximately six (6) months before the permits became null and void, Maverick Natural Resources requested an extension of the DPA duration for all four cases. At their April 13, 2020 meeting, the Planning Commission approved a one (1) year time extension for all four DPA cases. Unfortunately, the approval coincided with the onset of the worldwide Covid-19 pandemic. The financial hardships and operational changes brought upon by the pandemic made it difficult for the applicant to make very much progress. In an unrelated event, Parcel 4 was sold to Omega OU2, LLC for the establishment of a water-pumping and treatment facility. The necessary Zone Text Amendment (Ord. 1122) to allow this type of use within the M-2, Heavy Manufacturing, Zone was

granted in May 2022. Due to the extensive oversight from the United States Environmental Protection Agency (USEPA) and the California Department of Toxic Substances Control (DTSC), Omega does not anticipate submitting their construction drawings for Plan Check until 2025. Since the State and Federal Government oversee the treatment activities, it was determined that discretionary action from the local level is not required. Therefore, DPA Case No. 933 does not require a time extension.

In June 2021, the owner initiated efforts to plug and abandon the oil wells on the property. Following the completion of well plugging and abandonment in early 2023, a report was submitted on February 28, 2023. The city found the report to be complete for the purposes of compliance with Santa Fe Springs Code Section 117.130 (b)(1) and (2).

DESCRIPTION OF REQUEST

As previously mentioned, Bridgeland is requesting a one (1) year extension for Development Plan Approval (DPA) Case No. 930 to allow the construction of a new ±78,800 sq. ft. concrete tilt-up industrial building.

Although the entitlement has been extended twice, staff believes there is value in allowing Bridgeland the opportunity to drastically enhance the subject property through the previously approved entitlements. It should be noted that the property has never been developed and the site has remained an oil extraction operation for over 100 years. Considering the extensive remediation work that has been completed thus far and the high demand for industrial real estate, it is a matter of when rather than if the entitlements will be utilized.

Understanding the importance of keeping the entitlement valid for an additional year, Bridgeland will remain ready to enter into plan check and utilize DPA Case No. 930, in the event that a buyer is not secured prior to September 10, 2024. Although Bridgeland is determined to utilize DPA Case No. 930 within the one (1) year extension period, the Planning Commission will have an opportunity to reevaluate the DPA should the need arise.

ZONING REQUIREMENTS

In accordance with Section 155.745 of the City's Zoning Ordinance (see Code Section below), a Development Plan Approval, which has not been utilized within 12 months, shall become null and void. The Zoning Ordinance, however, provides that an extension of time may be granted by Commission or Council action.

City of Santa Fe Springs – Zoning Ordinance
Section 155.745 – Expiration

Unless otherwise specified in the action granting development plan approval, said approval, which has not been utilized within a period of 12 consecutive months from the effective date shall become null and void. In addition, the abandonment or nonuse of a development plate approval for a period of 12 consecutive months shall terminate said development plan approval and any privileges granted thereunder shall become null and void. However, an extension of time may be granted by Commission or Council action.

STAFF CONSIDERATIONS

The applicant, Bridgeland Resources, LLC, is finalizing the Environmental Covenant and Oil Well Indemnity that addresses all environmental conditions of the property, including but not limited to, the oil well abandonment process. To ensure that Bridgeland has the opportunity to find a new buyer and redevelop Parcel 1, staff is recommending that the Planning Commission grant a one (1) year time extension, until September 10, 2024. If in one (1) year the applicant requires additional timing, they may submit a subsequent time extension request with an updated justification statement.

GENERAL NOTES

1. ALL DIMENSIONS ARE TO FACE OF CONCRETE WALL, FACE OF CONCRETE CURB OR GRID LINES UNLESS NOTED OTHERWISE.
2. ENTIRE PROJECT SHALL BE PERMANENTLY MAINTAINED WITH A SMART AUTOMATIC IRRIGATION SYSTEM.
3. SEE CIVIL DRAWINGS FOR ADDITIONAL INFORMATION REGARDING SITE DRAINAGE, TOPOGRAPHY AND UTILITIES.
4. FOR PAVING SECTIONS, CONCRETE CURBS, SWALES AND GUTTERS SEE CIVIL DRAWINGS.
5. PAINT CURBS AND PROVIDE POSTED SIGNAGE TO INDICATE FIRE LANES PER FIRE DEPARTMENT (FIELD INSPECTOR) REQUIREMENTS. CONTRACTOR TO COORDINATE FINAL LOCATIONS IN FIELD WITH THE FIRE INSPECTOR. ROLL PRIMER PAINT COAT.
6. ALL STANDARD PARKING STALLS SHALL BE STRIPED PER CITY STANDARDS. CONTRACTOR SHALL CONFIRM FINAL STRIPING CONFIGURATION I.E. DOUBLE STRIPED, SINGLE STRIPED, STRIPING THICKNESS ETC...
7. WHEN DIRECTLY IN FRONT OF STALLS IN OVERHANG AREA, PLANT TREES AND LOCATE LIGHT STANDARDS CENTERED BETWEEN STALLS.
8. PROVIDE ROOT BARRIER IN LANDSCAPE AREAS WHERE LESS THAN 5' IN WIDTH UNLESS NOTED OTHERWISE ON LANDSCAPE DRAWINGS OR PER CITY STANDARDS.
9. PROVIDE RECESSED KNOX BOX KEY ACCESS AT THE PRIMARY BUILDING ENTRANCES AND AT ALL SITE GATES TO BE INSTALLED PER FIRE DEPARTMENT RECOMMENDATIONS (THE NUMBER OF KNOX BOXES REQUIRED).
10. WALK SURFACES WITH A SLOPE OF LESS THAN 5% GRADIENT SHALL HAVE A MEDIUM BROOM FINISH. ACCESSIBLE WALK CROSS SLOPES SHALL NOT EXCEED $\frac{1}{4}$" PER 12". CONCRETE SIDEWALKS TO BE A MIN. OF 4" THICK WITH TOOLED JOINTS AT 6' O.C. EXPANSION JOINTS SHALL BE MAX 12' O.C. EACH WAY. EXPANSION JOINTS TO HAVE COMPRESSIVE EXPANSION FILLER MATERIAL OF $\frac{1}{2}$" .
11. ANY ABRUPT LEVEL CHANGES SHALL BE LESS THAN OR EQUAL TO $\frac{1}{4}$" ALONG ANY ACCESSIBLE ROUTE OF TRAVEL. WHEN CHANGES DO OCCUR, THEY SHALL BE BEVELED WITH A SLOPE OF LESS THAN OR EQUAL TO 1:2. LEVEL CHANGES OF $\frac{1}{2}$" MAX MAY BE VERTICAL IF LEVEL CHANGES ARE GREATER THAN $\frac{1}{2}$" THEY MUST COMPLY WITH THE REQUIREMENTS CURB RAMPS.
12. CONTRACTOR SHALL BE RESPONSIBLE FOR REVIEWING THE SOIL'S REPORT AND FOLLOW IT'S RECOMMENDATION FOR EXCAVATIONS.
13. ALL UNDERGROUND PIPING SUBJECT TO CORROSIVITY SHALL BE WRAPPED WITH PROTECTIVE COATINGS PER GEOTECH RECOMMENDATION.
14. PROPERTY LINE ARE REFERENCE ONLY. REFER TO CIVIL DRAWINGS FOR HORIZONTAL CONTROL.
15. PROVIDE POSITIVE DRAINAGE AWAY FROM THE BUILDING SEE CIVIL DRAWINGS.
16. REFER TO CIVIL DRAWINGS FOR FINISH GRADE ELEVATIONS.
17. PRIOR TO FINAL CITY INSPECTION, THE LANDSCAPE ARCHITECT SHALL SUBMIT A CERTIFICATE OF COMPLETION TO PUBLIC WORKS AND PLANNING DEPARTMENT.
18. LANDSCAPE AREAS SHALL BE DELINEATED WITH A MIN. 6" CONCRETE CURB.

GENERAL NOTES

1. REFER TO CIVIL DRAWINGS FOR SLAB ON GRADE FINISH FLOOR ELEVATION ANY DIRECTION OF SLOPE IF ANY.
2. SLOPE POUR STRIP 3" TO EXTERIOR AT ALL MAN DOORS AND DOCK DOORS. SEE STRUCTURAL DRAWINGS FOR POUR STRIP LOCATIONS.
3. ALL DIMENSIONS ARE TO FACE OF CONCRETE PANEL WALL, GRID LINE OR FACE OF STUD UNLESS NOTED OTHERWISE.
4. REFER TO CIVIL DRAWINGS FOR POINT CONNECTION TO OFF-SITE UTILITIES AND CONTRACTOR TO VERIFY ACTUAL UTILITY LOCATIONS.
5. CONTRACTOR TO PROTECT AND KEEP FLOOR SLAB CLEAN. ALL EQUIPMENT TO BE DIAPERED INCLUDING CARS AND TRUCKS TO PREVENT OIL SPILLS.
6. CONCRETE SLAB TO HAVE STEEL FLOAT TROWEL BURNISHED FINISH.
7. ALL FLOOR SLAB NAIL OR BRACE FRAME HOLES SHALL BE FILLED WITH APPROVED 2 PART EPOXY COMPOUND TO MATCH CONCRETE COLOR.
8. PROVIDE MM-EP-90 AT CONTROL/EXPANSION JOINTS AT THE SPEEDBAY ONLY.
9. REFER TO SHEET A5.01 FOR DOOR SCHEDULE AND NOTES.
10. HIGHLY FLAMMABLE AND COMBUSTIBLE MATERIAL SHALL NOT BE USED OR STORED IN THIS BUILDING.

FLOOR SLAB REQUIREMENTS

REFER TO STRUCTURAL DRAWINGS FOR ADDITIONAL INFORMATION.

1. CONTRACTOR TO BUILD FOR CLASS V FLOOR PER A.C.I. 302-1R-89
2. SLAB SAW CUT TO BE DONE WITH A "SOFT CUT" G-2000 OR LARGER MACHINE IMMEDIATELY AFTER FINISHING TROWELING. CLEAN OUT SAW CUT JOINTS AT THE END OF THE PROJECT.
3. CONCRETE SLAB TO HAVE STEEL FLOAT HARD TROWEL BURNISHED FINISH.
4. ALL EQUIPMENT AND MOVING VEHICLES SHALL BE DIAPERED.
5. NO CRANES, CONCRETE TRUCKS OR ANYTHING HEAVIER SHALL BE PLACED ON THE SLAB.
6. NO FLY ASH ALLOWED IN CONCRETE.
7. CONCRETE SLAB SHALL BE NATURALLY HYDRATED. CHEMICAL CURE CAN ONLY BE CONSIDERED WITH OWNER'S WRITTEN APPROVAL.
8. ASHFORD CONCRETE SEALER OR EQUAL TO BE APPLIED AT THE END OF THE JOB IN ACCORDINANCE WITH MANUFACTURE'S RECOMMENDATION.
9. NO PERMANENT GREASE PEN PANEL MARKS ON FLOOR SLAB AND NO RED CAULK MARKS. ALL CONSTRUCTION MARKS SHALL BE REMOVED BEFORE SEALING.
10. PROVIDE 10' POUR STRIP AT THE DOCK DOORS AND 4' MAX ELSEWHERE.
11. ALL FLOOR SLAB NAIL OR BRACE FRAMES HOLES SHALL BE FILLED WITH APPROVED 2 PART EPOXY COMPOUND TO MATCH CONCRETE COLOR. PEGA BOND LV 2000, BURKE EPOXY INJECTION RESIN OR EQUAL.
12. PROVIDE FIRE EXTINGUISHER PER LOCAL FIRE MARSHALL REQUIREMENT.
13. PROVIDE MINIMUM 95% FLOOR COMPACTION AND 90% TRENCH COMPACTION.
14. SLAB SHALL ACHIEVE OVERALL AVERAGE FF=50 AND FL=35, LOCAL AVERAGE MINIMUM OF FF=35 AND FL=25.
15. REFER TO METHANE MITIGATION DRAWING FOR METHANE BARRIER AND VENTING SYSTEM.

PAINT NOTES

1. INTERIOR CONCRETE WALL: SINGLE COAT OF ACRYLIC PAINT ON INTERIOR WALLS. SHERWIN WILLIAMS, "SNOWBOUND" SW 7004 - FLAT SHEEN.
2. ALL STRUCTURAL STEEL MEMBER INCLUDING COLUMNS, LEDGERS, JOISTS, GIRDERS SHALL RECEIVE LIGHT GRAY SHOP PRIMER. ANY FIELD WELDS SHALL BE TOUCHED UP TO MATCH SHOP PRIMER
3. STRUCTURAL COLUMNS SHALL, SHALL RECEIVE A COAT OF OSHA YELLOW SAFETY WARNING COLOR, PAINT UP TO 12' ABOVE FINISH FLOOR.
4. ARCHITECTURAL COATINGS REQUIRE USE OF HVLP SPRAYING EQUIPMENT OR MINIMUM TRANSFER RATE OF AT LEAST 50% OR MANUAL APPLICATION TECHNIQUE.
5. PAINT SHALL BE OF "SUPER COMPLIANT" LOW VOC PER SCAQMD RULE 1113.

KEYNOTES

1. CONCRETE TILT UP PANEL PER STRUCTURAL DRAWINGS
2. STRUCTURAL STEEL BUILDING COLUMN PER STRUCTURAL DRAWINGS
3. STOREFRONT SYSTEM - DETAIL 12/A6.02 AND SEE ELEVATION FOR SPECIFICATION
4. CONCRETE RAMP WITH 42" H CONC. TILT UP GUARD WALL
5. 9'X10' X 24 GA OVER HEAD ROLL UP DOOR, COUNTER BALANCED WITH 24" X 6" VISION PANEL. STANDARD GRADE WITH WHITE FACTORY FINISH - SHEET A5.01
6. 12'X14' X 24 GA OVER HEAD ROLL UP DOOR, COUNTER BALANCED WITH 24" X 6"VISION PANEL STANDARD GRADE WITH WHITE FACTORY FINISH - SHEET A5.01

GENERAL NOTES

1. VERIFY THAT ALL AREAS HAVE A POSITIVE ¼" PER FOOT MIN DRAINAGE PRIOR TO INSTALLATION UNLESS NOTED BY THE STRUCTURAL DRAWINGS
2. COORDINATE WITH STRUCTURAL DRAWINGS FOR ROOF ELEVATIONS.
3. CONTRACTOR SHALL VERIFY ALL MECHANICAL UNIT LOCATIONS, CURBS AND HOOK UPS WITH SUBCONTRACTORS, MECHANICAL / STRUCTURAL ENGINEERS AND ARCHITECT PRIOR TO INSTALLATION.
4. BEFORE SETTING AND ANCHORING OF ANY ROOF MOUNTED EQUIPMENT, CONTRACTOR TO CHECK IF SUCH EQUIPMENT ARE VISIBLE FROM PUBLIC WAY. ALERT THE ARCHITECT IF VISIBLE.
5. PROVIDE INVERTED CAP SHEET CRICKETS ALONG UPPER SLOPE OF ALL SKYLIGHTS, MECHANICAL EQUIPMENT UNITS AND OTHER OPENINGS TO FACILITATE POSITIVE DRAINAGE.
6. WHEN REQUIRED BY LOCAL JURISDICTION AND PRIOR TO TRUSS INSTALLATION, TRUSS MANUFACTURE TO SUBMIT PLANS TO BUILDING DEPARTMENT FOR APPROVAL.
7. CONTRACTOR SHALL INSURE PRIOR JOB-SITE STORAGE OF MATERIALS TO MINIMIZE EXPOSURE TO MOISTURE DURING THE CONSTRUCTION CYCLE.
8. CONTRACTOR TO VERIFY ALL ROOF DEPRESSIONS PER STRUCTURAL DRAWINGS.
9. REFER TO PLUMBING DRAWINGS FOR ROOF DRAIN AND SIZING.
10. ALL ROOF FASTENERS SHALL MEET ALL LOCAL CODE AND REGULATIONS AND REQUIREMENTS. PRIOR REQUIREMENTS ARE IN PROJECT JURISDICTION AND ALSO FACTORY MUTUAL WIND UPLIFT PRESSURE REQUIREMENTS.
11. WHEN APPLICABLE, FUSEABLE LINKS FOR SMOKE VENTS SHALL BE ONE TEMPERATURE RANGE HIGHER THAN THE ESFR SPRINKLER SYSTEM.
12. WHEN APPLICABLE, SMOKE VENTS SHALL BE REQUIRED IF AREAS FOR "POTENTIAL OFFICES" WILL BE USED FOR HIGH PILE COMBUSTIBLE STORAGE.
13. ROOF DRAINS, OVERFLOW DRAINS AND RAINWATER PIPING WITHIN THE INTERIOR OF THE BUILDING SHALL BE TESTED IN ACCORDANCE WITH THE PROVISIONS OF THE PLUMBING CODE FOR TESTING DRAIN, WASTE, AND VENT SYSTEMS.
14. ROOF DRAINS, OVERFLOW DRAINS AND PIPING WITHIN THE BUILDING SHALL UTILIZE APPROVED DRAINAGE FITTINGS.
15. MANUFACTURE ROOF DRAINS AND OVERFLOWS SHALL BE IAPMO LISTED.
16. REFER TO 5/A9.20 FOR MINIMUM CLEARANCE REQUIREMENT.
17. AT THE END OF CONSTRUCTION, CLEAR ALL CONSTRUCTION DEBRIS ON ROOF AND AROUND ROOF DRAINS AND SCUPPERS

GENERAL NOTES

1. ALL PAINT COLOR CHANGES TO OCCUR AT INSIDE CORNERS UNLESS NOTED OTHERWISE.
2. ALL PAINT FINISHES ARE TO BE FLAT UNLESS NOTED OTHERWISE.
3. STOREFRONT CONSTRUCTION: GLASS, METAL ATTACHMENTS AND LINTELS SHALL BE DESIGNED TO RESIST WIND EXPOSURE "C" WINDS. CONTRACTOR SHALL SUBMIT SHOP DRAWINGS PRIOR TO INSTALLATION.
4. TOP AND BACK SIDE OF PARAPETS TO HAVE SMOOTH SAKCED FINISH AND BE PAINTED WITH ELASTOMERIC PAINT.
5. FOR SPANDREL GLAZING, ALLOW SPACE BEHIND SPANDREL TO BREATH BY PROVIDING A MINIMUM 2" DIAMETER HOLE ON THE CORNER. DO NOT CORE DRILL, USE PVC PIPE DURING CASTING OF CONCRETE PANEL. REMOVE PVC AND SACK SMOOTH AND DAMAGES.
6. USE ADHESIVE BACK WOOD STRIPS FOR ALL REVEAL FORMS.
7. FIRST COAT OF PAINT TO BE ROLLED-ON AND THE SECOND COAT TO BE SPRAYED ON. PROVIDE THIRD LAYER REQUIRED TO ACHIEVE FULL COLOR SATURATION AS REQUIRED.
8. WATER BLAST EXTERIOR FACE OF BUILDING WALLS PRIOR TO PAINT.
9. ALL CONCRETE PANEL JOINTS SHALL BE CLEARED OF DEBRIS BY PRESSURING WASHING THE CAVITY. GRIND ANY SHARP EDGES PRIOR TO APPLY PANEL CAULK JOINT.
10. ALL EXTERIOR DOORS AND LOUVERS SHALL BE FABRICATED AND WEATHER STRIPPED TO WITHSTAND WIND EXPOSURE "C"
11. CONTRACTOR TO PROVIDE MOCK UP PAINT AND FINISHES FOR OWNER AND ARCHITECT'S APPROVAL PRIOR TO COMMENCING THE WORK.

KEYNOTES

1. CONCRETE TILT UP WALL, SEE PAINT AND FINISH LEGEND BELOW. WATERPROOF ALL WALLS WHERE GRADE IS HIGHER AND EXPOSED TO THE WEATHER ONE SIDE. WATER PROOFING TO BE PROTECTED WITH PROTECTION BOARD AND A MINIMUM OF 6" OF GRAVEL. PROVIDE TRENCH DRAIN AT BOTTOM AND DAYLIGHT TO CURB OR TAKE TO STORM DRAIN.
2. CONCRETE TILT PANEL JOINT - DETAIL 2/A6.02 AND NOTE 10 IN GENERAL NOTES

Re: 1-Year time extension request of Development Plan Approval No. 930 for 12451 Telegraph Road (Parcel 1/Building 1)

Dear Commissioners:

Our office represents BRIDGELAND RESOURCES, LLC ("**Owner**"), the owner of the real property located at 12451 Telegraph Road in Santa Fe Springs, CA (APN: 8005-015-047) ("**Property**"). On September 10, 2018, the Planning Commission adopted Resolution No. 82-2018 approving Development Plan Approval Nos. 930-933 ("**DPA Nos. 930-933**") and Tentative Parcel Map No. 78232 authorizing the subdivision and development on the Property and adjacent parcels. We attach Resolution No. 82-2018 as **Exhibit A.** Development Plan Approval No. 930 ("**DPA No. 930**") authorized the construction of an approximately 78,417 square foot concrete tilt-up building (referred to as "Building 1") on the Property (referred to as "Parcel 1").

The deadline to exercise DPA Nos. 930-993 was extended by resolutions of the Planning Commission adopted on April 14, 2020 and June 14, 2021. *See* the enclosed letter from Wayne Morrell dated June 17, 2021, attached as **Exhibit B**. DPA No. 930 is currently set to expire on September 10, 2023. *See* Staff Report, dated June 14, 2021 re*:* Consent Item: DPA No. 930, 931, 932, and 933, p. 3. Pursuant to Zoning Ordinance Section 155.745, **this letter requests a one-year extension of DPA No. 930 to September 10, 2024**.[1]

Basis for Extension

"An extension of time may be granted by Commission or Counsel action." *See* Resolution No. 82-2018, Condition #86; Zoning Ordinance § 155.745. While not required by Resolution No. 82-2018 or the Zoning Ordinance, good cause exists to grant the extension.

[1] Because Owner no longer owns the parcels entitled by DPA Nos. 931, 932, and 933, this request does not include those parcels/entitlements.

T: 310.746.4400 F: 310.746.4499
10345 W. Olympic Blvd, Los Angeles, CA 90064 | elkinskalt.com

Since June 2021, Owner has diligently worked to plug and abandon the oil wells on the Property in order to prepare the Property for development. After completing the plugging and abandoning of the wells in early 2023, Owner submitted a report prepared by a certified petroleum engineer, which the City deemed complete for the purposes of Santa Fe Springs Code of Ordinances Section 117.130(b)(1) and (2) on February 28, 2023.

Although Owner had entered into an agreement with an industrial developer to sell the Property for development, the agreement was terminated in part due to the length of time taken for the wells to be fully plugged and abandoned. Because Owner is not an industrial developer, however, Owner prefers not to develop the Property itself. Accordingly, Owner continues to seek a partner or buyer in order to develop the Property, but Owner has faced difficulties obtaining an alternative partner or buyer due to, among other things, the uncertainty in the construction loan market caused by changing interest rates, making it difficult for developers to obtain construction loans.

Experts widely anticipate that the construction loan market will begin to normalize over the next year as interest rates stabilize. And Centris Telegraph Point LLC is in the process of developing "sister" buildings on the adjacent parcels (Parcels 2 and 3), which Owner believes will continue to ensure value exists in developing the Property as well. In the meantime, however, Owner requires a one-year extension to DPA No. 930 in order to weather the uncertainty in the construction loan market and secure a partner or buyer to develop the Property.

We note that both the City Zoning Ordinance and Resolution No. 82-2018 indicate that DPA 930 will become "null and void" if it "has not been utilized" within the stated deadline. *See* Resolution No. 82-2018, Condition #86; Zoning Ordinance § 155.745. Historically, the City has not considered entitlements to expire as long as the applicant enters plan check and continues to work toward obtaining a building permit. In this case, Owner anticipates entering plan check to actively pursue its building permit prior to the extension of DPA No. 930. Nonetheless, Owner makes this request out of an abundance of caution.

With the foregoing in mind, we respectfully request that the Planning Commission grant a one-year extension of DPA No. 930 resulting in a new expiration date of September 10, 2024.

Please contact our office with questions or comments.

Very truly yours,

ERNEST GUADIANA
Elkins Kalt Weintraub Reuben Gartside LLP

CITY OF SANTA FE SPRINGS
RESOLUTION NO. 82-2018

A RESOLUTION OF THE PLANNING COMMISSION OF THE CITY OF SANTA FE SPRINGS REGARDING TENTATIVE PARCEL MAP NO. 78232 & DEVELOPMENT PLAN APPROVAL CASE NO. 930 & DEVELOPMENT PLAN APPROVAL CASE NO. 931 & DEVELOPMENT PLAN APPROVAL CASE NO. 932 & DEVELOPMENT PLAN APPROVAL CASE NO. 933

WHEREAS, a request was filed for Tentative Parcel Map No. 78232 to allow an approximately 44.67-acre site to be subdivided into five (5) parcels measuring 186,493 sq. ft. (Parcel 1), 153,827 sq. ft. (Parcel 2), 298,474 sq. ft. (Parcel 3), 140,791 sq. ft. (Parcel 4), and 1,166,135 sq. ft. (Parcel 5) in the M-2, Heavy Manufacturing, Zone and Telegraph Road Corridor; and

WHEREAS, a request was filed for Development Plan Approval Case No. 930 to allow the construction of a 78,417 sq. ft. concrete tilt-up building (Building 1) on property located within the M-2, Heavy Manufacturing, Zone and Telegraph Road Corridor; and

WHEREAS, a request was filed for Development Plan Approval Case No. 931 to allow the construction of a 58,463 sq. ft. concrete tilt-up building (Building 2) on property located within the M-2, Heavy Manufacturing, Zone and Telegraph Road Corridor; and

WHEREAS, a request was filed for Development Plan Approval Case No. 932 to allow the construction of a 121,124 sq. ft. concrete tilt-up building (Building 3) on property located within the M-2, Heavy Manufacturing, Zone and Telegraph Road Corridor; and

WHEREAS, a request was filed for Development Plan Approval Case No. 933 to allow the construction of a 60,117 sq. ft. concrete tilt-up building (Building 4) on property located within the M-2, Heavy Manufacturing, Zone and Telegraph Road Corridor; and

WHEREAS, the subject property is located at the northwest corner of Telegraph Road and Santa Fe Springs Road, with Accessor's Parcel Numbers of 8005-015-011, 8005-015-013, 8005-015-023, 8005-015-024, 8005-015-025, 8005-015-026, and 8005-015-027, as shown in the latest rolls of the Los Angeles County Office of the Assessor; and

WHEREAS, the property owner is Breitburn Operating L.P., 7087 Wilshire Boulevard, 46ths Floor, Los Angeles, CA 90017; and

WHEREAS, the proposed Tentative Parcel Map No. 78232 and Development Plan Approval Case Numbers 930 – 933 are considered a project as defined by the California Environmental Quality Act (CEQA), Article 20, Section 15378(a); and

WHEREAS, based on the information received from the applicant and staff's assessment, it was found and determined that the proposed project will not have a significant adverse effect on the environmental following mitigation, therefore, the City caused to be prepared and proposed to adopt an Initial Study/Mitigated Negative Declaration (IS/MND) for the proposed project; and

WHEREAS, the City of Santa Fe Springs Planning and Development Department on June 27, 2018 published a legal notice in the *Whitter Daily News*, a local paper of general circulation, indicating the date and time of the public hearing, and also mailed said public hearing notice on June 27, 2018 to each property owner within a 500 foot radius of the project site in accordance with state law; and

WHEREAS, the City of Santa Fe Springs Planning Commission has considered the application, the written and oral staff report, the General Plan and zoning of the subject property, the testimony, written comments, or other materials presented at the Planning Commission Meeting on July 9, 2018 concerning Tentative Parcel Map No. 78232 and Development Plan Approval Case Nos. 930 - 933.

NOW, THEREFORE, be it RESOLVED that the PLANNING COMMISSION of the CITY OF SANTA FE SPRINGS does hereby RESOLVE, DETERMINE and ORDER AS FOLLOWS:

SECTION I. ENVIRONMENTAL FINDINGS AND DETERMINATION

The proposed development is considered a project under the California Environmental Quality Act (CEQA) and as a result, the project is subject to the City's environmental review process. The environmental analysis provided in the Initial Study indicated that the proposed project will not result in any significant adverse immitigable impacts to the environment, therefore, the City required the preparation and adoption of a Mitigated Negative Declaration (MND) for the proposed Project. The MND reflects the independent judgment of the City of Santa Fe Springs, and the environmental consultant, Blodgett/Baylosis Environmental Planning.

The Initial Study determined that the proposed project is not expected to have any significant adverse environmental impacts. The following findings can be made regarding the Mandatory Findings of Significance set forth in Section 15065 of the CEQA Guidelines based on the results of this Initial Study:

- The proposed project *will not* have the potential to degrade the quality of the environment.
- The proposed project *will not* have the potential to achieve short-term goals to the disadvantage of long-term environmental goals.
- The proposed project *will not* have impacts that are individually limited, but cumulatively considerable, when considering planned or proposed development in the immediate vicinity.
- The proposed project *will not* have environmental effects that will adversely affect humans, either directly or indirectly.

In addition, pursuant to Section 21081(a) of the Public Resources Code, findings must be adopted by the decision-maker coincidental to the approval of a Mitigated Negative Declaration, which relates to the Mitigation Monitoring Program. These findings shall be incorporated as part of the decision-maker's findings of fact, in response to AB-3180 and in compliance with the requirements of the Public Resources Code. In accordance with the requirements of Section 21081(a) and 21081.6 of the Public Resources Code, the City of Santa Fe Springs can make the following additional findings:

- A mitigation reporting or monitoring program will be required; and,
- An accountable enforcement agency or monitoring agency shall be identified for the mitigation measures adopted as part of the decision-maker's final determination.

A number of mitigation measures have been recommended as a means to reduce or eliminate potential adverse environmental impacts to insignificant levels. AB-3180 requires that a monitoring and reporting program be adopted for the recommended mitigation measures.

SECTION II. TENTATIVE PARCEL MAP FINDINGS

Pursuant to Section 154.07 of the Municipal Code, a tentative map shall not be approved unless the Planning Commission finds that the proposed subdivision, together with the provisions for its design and improvements, is consistent with the general plan as required by Section 66473.5 of the Subdivision Map Act. Additionally, the Planning Commission shall deny a tentative map if it makes any of the findings set forth in Sections 66474 and 66474.6 of the Subdivision Map Act.

A) *Section 66473.5 and Sections 66474(a) and (b) of the Subdivision Map Act require tentative maps to be consistent with the general plan and specific plans. The proposed Tentative Parcel Map, subject to the attached conditions, is in accordance with the Subdivision Map Act in that:*

Approval of the proposed Parcel Map would promote a number of specific General Plan Goals and Policies as described in the table below:

General Plan Consistency Analysis

General Plan Element	*Policy*	**Project Consistency**
	Goal 5: Provide an environment to stimulate local employment, community spirit, property values, community stability, the tax base, and the viability of local business.	The map will facilitate the development of four Class A buildings, which are expected to provide more jobs and generate a higher property tax than currently collected for the oil field.

Land Use	**Goal 9:** Provide for growth and diversification of industry and industrial related activities within the Santa Fe Springs industrial area.	The consolidation of several small parcels into five (5) parcels will provide industrial and commercial use that provide a more viable development opportunity of the subject site.
	Policy 9.1: Consideration of providing an adequate tax base from property tax or sales tax income.	The project will construct four Class A buildings, which are expected to generate higher property taxes than currently collected for the oil field.
	Policy 9.4: Encourage the grouping of adjoining small or odd shaped parcels in order to create more viable development.	The consolidation of several small parcels, some of which are landlocked and unable to be developed, and subdivision into five (5) viable parcels will provide for industrial and commercial uses that provide a more viable development opportunity of the subject site.
	Goal 11: Support and encourage the viability of the industrial and commercial areas of Santa Fe Springs.	The consolidation and subdivision of the existing lots enables the site to be developed into an industrial business park.

The proposed parcel map, subject to the attached conditions, is compatible with the goals and objectives of the various elements of the City of Santa Fe Springs General Plan, and therefore, is in compliance with Government Code Sections 66473.5, and 66474(a) and (b).

B) *Sections 66474(c) and (d) of the Subdivision Map Act require the site to be physically suitable for the type of development and proposed density of development.*

In addition to the proposed parcel map, the applicant is concurrently seeking approval to allow for the construction of four Class A industrial buildings on parcels 1, 2, 3, and 4. Parcel 5 will continue to be utilized for oil extraction operations. The existing zoning permits warehouse uses and oil and gas drilling for properties within the M-2, Heavy Manufacturing, zone. All public streets and utility services necessary and sufficient for the full use, occupancy, and operation of the future industrial business park, including water, storm drain(s), sanitary sewer, gas, electric, cable and telephone facilities, are readably available.

C) *Sections 66474(e) and (f) of the Subdivision Map Act require that the design of the subdivision or the proposed improvements are not likely to cause substantial environmental damage or substantially and avoidably injure fish or wildlife or their habitat or is likely to cause serious public health concerns.*

The project site is not located in a sensitive environment, but rather in a fully urbanized area surrounded by various land uses. None of the parcels, pre and

post subdivision, contain any riparian habitats, wetland habitats, and are not utilized for movement of any known native wildlife species of migratory fish or wildlife species; consequently, the design of the subdivision is unlikely to cause substantial environmental damage or substantially and avoidably injure fish or wildlife or their habitat. Additionally, as required by the California Environmental Quality Act (CEQA), an Initial Study (IS)/Mitigated Negative Declaration (MND) was prepared for the proposed apartment project. According to the IS/MND, the project is not expected to have any impacts on biological resources or cause serious public health problems.

D) *Section 66474(g) of the Subdivision Map Act requires that the design of the subdivision or the type of improvements will not conflict with easements, acquired by the public at large, for access through or use of, property within the proposed subdivision.*

New easements for utility or roadways, if necessary, will be provided prior to final map approval. Two right-turn lanes are anticipated to be recorded on the final map.

E) *In accordance with Government Code Section 66474.6, it has been determined that the discharge of waste from the proposed subdivision, subject to the attached conditions, into the existing sewer system will not result in a violation of the requirements prescribed by the Regional Water Quality Control Board in that the developer is required to comply with the IS/MND Mitigation Monitoring and Reporting Program, submit an erosion control plan and comply with the NPDES Best Management Practices during the grading and construction phases of the project.*

The project will meet all state and local ordinances and requirements including the California Regional Water Quality Control Board.

F) *That the proposed subdivision shall be in accordance with Government Code Section 66473.1, entitled "Design of Subdivisions to provide for Future Passive or Natural Heating and Cooling Opportunities."*

Future Passive or Natural Heating and Cooling Opportunities will be incorporated with the proposed developments. To the extent feasible, staff will review the proposed developments to ensure that energy-saving devices or materials, including, but not limited to, insulation, double-pane windows, and high efficiency central heating and cooling systems will be incorporated.

SECTION III. DEVELOPMENT PLAN APPROVAL FINDINGS

Pursuant to Section 155.739 of the City of Santa Fe Springs Zoning Regulations, the Planning Commission shall consider the following findings in their review and

determination of the subject Development Plan Approval. Based on the available information, the City of Santa Fe Springs Planning Commission hereby make the following findings:

(A) *That the proposed development is in conformance with the overall objectives of this chapter.*

The proposed project is located within the M-2, Heavy Manufacturing, Zone. Pursuant to Section 155.240 of the Zoning Regulations, "The purpose of the M-2 Zone is to preserve the lands of the city appropriate for heavy industrial uses, to protect these lands from intrusion by dwellings and inharmonious commercial uses, to promote uniform and orderly industrial development, to create and protect property values, to foster an efficient, wholesome and aesthetically pleasant industrial district, to attract and encourage the location of desirable industrial plants, to provide an industrial environment which will be conducive to good employee relations and pride on the part of all citizens of the community and to provide proper safeguards and appropriate transition for surrounding land uses."

The proposed project is consistent with the purpose of the M-2 Zone in the following manner:

1. The land is appropriate for industrial uses based on its zoning, M-2, Heavy Manufacturing and its General Plan Land Use designation of Industrial.
2. The proposed project is and industrial business park, therefore the land is being maintained for industrial uses.
3. The project involves the construction of a new and attractive industrial business park on a site that is currently utilized for oil extraction operations. The assessed value of the property will significantly improve after the project, thus leading to an increase in property values for both the subject property and neighboring properties.
4. The proposed project complies with all development standards set forth in the M-2 Zone.

(B) *That the architectural design of the proposed structures is such that it will enhance the general appearance of the area and be in harmony with the intent of this chapter.*

The subject parcel has been utilized for oil extraction operations for many decades. The proposed project will be a significant improvement to the subject site. The architect used multiple variations in height, setback, materials and color. The result is an attractive project with contemporary buildings that is comparable to other high quality office/industrial projects here in Santa Fe Springs. In addition, the project meets or exceeds all requirements of the City's Zoning Regulations. The project's overall compliance validates that it is in harmony with the overall intent of the City's Zoning Regulations.

(C) *That the proposed structures be considered on the basis of their suitability for their intended purpose and on the appropriate use of materials and on the principles of proportion and harmony of the various elements of the buildings or structures.*

The proposed buildings are well-designed and should be highly suitable for a variety of office, manufacturing or warehouse-type users. The design of the industrial business park provides quality architectural design, as demonstrated by glazing, pop-outs, and variations in height, materials, and color. These architectural design elements break up the mass of the buildings, and present an attractive, distinctive façade to visitors. As designed, the new buildings are suitable for their intended users, and the distinctive design of the buildings represents the architectural principles of proportion and harmony. In addition, the buildings are designed with similar architectural features in order to create harmony and consistency throughout the development.

(D) *That consideration be given to landscaping, fencing and other elements of the proposed development to ensure that the entire development is in harmony with the objectives of this chapter.*

Extensive consideration has been given to numerous elements of the proposed project to achieve harmony with the City's Zoning Regulations. As proposed, the project meets or exceeds all development standards set for in the City's zoning regulations and the project does not require any modification permits and/or zone variances. Landscaping helps to soften building mass and parking areas, loading doors and potential trucking activities are screened by the orientation of buildings, and meandering sidewalks throughout the site frontage provide a safe and attractive pedestrian pathway.

(E) *That it is not the intent of this subchapter to require any particular style or type of architecture other than that necessary to harmonize with the general area.*

As stated previously, the proposed buildings are contemporary in design. The architect used variations in the provide setback, materials and color. The style and architecture of the proposed building is consistent with other high quality buildings in the general area.

(F) *That it is not the intent of this subchapter to interfere with architectural design except to the extent necessary to achieve the overall objectives of this chapter.*

Pursuant to Section 155.736 of the Zoning Regulations "The purpose of the development plan approval is to assure compliance with the provisions of this chapter and to give proper attention to the sitting of new structures or additions or alterations to existing structures, particularly in regard to unsightly and undesirable appearance, which would have an adverse effect on surrounding properties and

the community in general." The Planning Commission finds that the new buildings will be an enhancement to the overall area. The Planning Commission believes that proper attention has been given to the location, size, and design of the proposed buildings.

SECTION IV. PLANNING COMMISSION ACTION

The Planning Commission hereby adopts Resolution No. 82-2018 to approve Tentative Parcel Map No. 78232 to allow an approximately 44.67-acre site to be subdivided into five (5) parcels measuring 186,493 sq. ft. (Parcel 1), 153,827 sq. ft. (Parcel 2), 298,474 sq. ft. (Parcel 3), 140,791 sq. ft. (Parcel 4), and 1,166,135 sq. ft. (Parcel 5); to approve Development Plan Approval Case No. 930 to allow the construction of a 78,417 sq. ft. concrete tilt-up building (Building 1); to approve Development Plan Approval Case No. 931 to allow the construction of a 58,463 sq. ft. concrete tilt-up building (Building 2); to approve Development Plan Approval Case No. 932 to allow the construction of a 121,124 sq. ft. concrete tilt-up building (Building 3); to approve Development Plan Approval Case No. 933 to allow the construction of a 60,117 sq. ft. concrete tilt-up building (Building 4); and to approve and adopt the proposed Initial Study/Mitigated Negative Declaration, and Mitigation Monitoring and Reporting Program (IS/MND/MMRP), subject to conditions attached hereto as Exhibit A and Exhibit B.

ADOPTED and APPROVED this 10th day of September, 2018 BY THE PLANNING COMMISSION OF THE CITY OF SANTA FE SPRINGS.

Ralph Aranda, Chairperson

ATTEST:

Teresa Cavallo, Planning Secretary

Exhibit A
CONDITIONS OF APPROVAL FOR TPM 78232:

ENGINEERING / PUBLIC WORKS DEPARTMENT:
(Contact: Robert Garcia 562-868-0511 x7545)

1. Final parcel map checking of $4,824 plus $285 per parcel shall be paid to the City. Developer shall comply with Los Angeles County's Digital Subdivision Ordinance (DSO) and submit final maps to the City and County in digital format.

2. The applicant shall provide at no cost to the City, one mylar print of the recorded parcel map from the County of Los Angeles Department of Public Works, P.O. Box 1460, Alhambra, CA 91802-1460, Attention: Bill Slenniken (626) 458-5131.

3. A reciprocal access easement Agreement covering each parcel of the subject map shall be prepared, executed and recorded in the Office of the Los Angeles County Recorder. Such Agreement and any CC&R's shall be subject to the approval of the City Attorney.

PLANNING AND DEVELOPMENT DEPARTMENT:
(Contact: Laurel Reimer 562.868-0511 x7354)

4. Provisions shall be made for appropriate television systems and for communication systems, including, but not limited to, telephone and internet services. Appropriate cable television systems, as used, means those franchised or licensed to serve the geographical area in which the subdivision is located.

5. The Final Map to be recorded with the Los Angeles County Recorder shall substantially conform to the Tentative Parcel Map submitted by the applicant and on file with the case.

6. Currently, the County of Los Angeles Department of Public Works is utilizing a computerized system to update and digitize the countywide land use base. If the parcel map is prepared using a computerized drafting system, the applicant or their civil engineer shall submit a map in digital graphic format with the final Mylar map to the County of Los Angeles Department of Public Works for recordation and to the City of Santa Fe Springs Department of Public Works for incorporation into its GIS land use map. The City of Santa Fe Springs GIS Coordinate System shall be used for the digital file.

7. Tentative Parcel Map No. 78232 shall expire 24 months after Planning Commission approval, on September 10, 2020, except as provided under the provisions of California Government Code Section 66452.6. During this time period the final map shall be presented to the City of Santa Fe Springs for approval. The subdivision proposed by Tentative Parcel Map No. 78232 shall not be effective until such time that a final map is recorded.

8. The "Subdivider," Breitburn Operating L.P., agrees to defend, indemnify and hold harmless the City of Santa Fe Springs, its agents, officers and employees from any claim, action or proceeding against the City or its agents, officers or employees to attack, set aside, void or annul an approval of the City or any of its councils, commissions, committees or boards concerning the subdivision when action is brought within the time period provided for in Government Code, Section 66499.37. Should the City, its agents, officers or employees receive notice of any such claim, action or proceeding, the City shall promptly notify subdivider of such claim, action or proceeding and shall cooperate fully in the defense thereof.

9. This approval is not effective until the applicant has completed and signed the signature element appearing at the bottom of the last page of these conditions, and returned the original completed and signed document to the City, confirming the applicant's understanding of these conditions and its willingness to accept and comply with them.

The applicant identified below hereby confirms (1) that it has reviewed and understands each of the foregoing conditions for Tentative Parcel Map 78232, and (2) its willingness to accept and comply with them.

Exhibit B:
CONDITIONS OF APPROVAL FOR DPAs 930-933:

ENGINEERING / PUBLIC WORKS DEPARTMENT:
(Contact: Robert Garcia 562.868-0511 x7545)

STREETS

1. Prior to the issuance of building permits, the applicant and/or developer shall pay a flat fee of $203,715 to reconstruct/resurface the existing street frontage to centerline for Telegraph Road & Santa Fe Springs Road.

2. Prior to the issuance of building permits, the applicant and/or developer shall pay a flat fee of $5,000 for the upgrade and installation of an Emergency Vehicle Preemption System (OPTICOM) at the intersection of Telegraph Road and Santa Fe Springs Road as determined by the City Engineer and Fire Chief.

3. The applicant/or developer shall design and construct a 5-foot wide meandering sidewalk per City standards and dedicate an easement along the Telegraph Road & Santa Fe Springs Road street frontage. The dedicated easement shall be shown on the Parcel Map. Furthermore, said meandering sidewalk shall be shown on both the civil and landscape plans.

4. The applicant and/or developer shall design and construct/modify one (1) existing raised Median Island on Santa Fe Springs Road to accommodate left turns into the northernmost proposed driveway.

5. Prior to the issuance of building permits, the applicant and/or developer shall pay the costs associated with the furnishing and installation of traffic signal modifications; including protected Northbound/Southbound left turn traffic signal phasing at the intersection of Telegraph Road and Santa Fe Springs Road. The cost estimate for the modifications (add left turn phasing) at the Telegraph/Bloomfield signal is $191,000.

6. Full street improvements shall be constructed to the City standards in accordance with plans prepared by the applicant and/or developer and approved by the City Engineer. Street to be improved shall include Telegraph Road & Santa Fe Springs Road for the purpose of installing Right turn pockets. A soils report shall be prepared and submitted as directed by the City Engineer to determine proposed street structural section.

7. Street right-of-way easements shall be dedicated as follows:
    a) Along the north side of Telegraph Road for the construction of a right turn pocket.
    b) Along the west side of Santa Fe Springs Road for the construction of a right turn pocket.

8. All above ground oil wells, pipelines, tanks, and related lines within the public right-of-way shall be removed from the right-of-way unless otherwise approved by the City Engineer.

9. Adequate "on-site" parking shall be provided per City requirements, and all streets abutting the development shall be posted "No Stopping Any Time." The City will install the offsite signs and the applicant and/or developer shall pay $ 3,000.00 to install (15) new signs.

10. The applicant and/or developer shall be responsible for the installation, replacement or modification of street name signs, traffic control signs, striping and pavement markings required in conjunction with the development. The applicant and/or developer shall be responsible for coordination of said work, as well as all associated fees, permits, materials, etc.

11. Proposed driveways shall be located to clear existing fire hydrants, street lights, water meters, etc.

CITY UTILITIES

12. Storm drains, catch basins, connector pipes, retention basin and appurtenances built for this project shall be constructed in accordance with City specifications in Telegraph Road & Santa Fe Springs Road. Storm drain plans shall be approved by the City Engineer.

13. Fire hydrants shall be installed as required by the Fire Department. Existing public fire hydrants adjacent to the site, if any, shall be upgraded if required by the City Engineer. The applicant and/or developer shall pay to the City the entire cost of design, engineering, installation and inspection of Fire hydrants.

14. Sanitary sewers shall be constructed in accordance with City specifications to serve the subject development. The plans for the sanitary sewers shall be approved by the City Engineer. A sewer study (including a sewer flow test) shall be submitted along with the sanitary sewer plans.

15. All buildings shall be connected to the sanitary sewers.

16. The fire sprinkler plans, which show the proposed double-check valve detector assembly location, shall have a stamp approval from the Planning Department and Public Works Department prior to the Fire Department's review for approval. Disinfection, pressure and bacteriological testing on the line between the street and detector assembly shall be performed in the presence of personnel from the City Water Department. The valve on the water main line shall be operated only by the City and only upon the City's approval of the test results.

17. The applicant and/or developer shall obtain a Storm Drain Connection Permit for any connection to the storm drain system.

18. The applicant and/or developer shall have an overall site utility master plan prepared by a Registered Civil Engineer showing the proposed location of all public water mains, reclaimed water mains, sanitary sewers and storm drains. This plan shall be approved by the City Engineer prior to the preparation of any construction plans for the aforementioned improvements.

TRAFFIC

19. All points of access to the proposed development have been reviewed and approved by the City Engineer. Left turns will only be allowed into the proposed development from the most northerly driveway on Santa Fe Springs Road. Left turns out of the proposed development will be allowed from both northerly and southerly driveways on Santa Fe Springs Road.

FEES

20. The applicant and/or developer shall comply with Congestion Management Program (CMP) requirements and provide mitigation of trips generated by the development. The applicant and/or developer will receive credit for the demolition of any buildings that formerly occupied the site. For new developments, if the applicant and/or developer cannot meet the mitigation requirements, the applicant and/or developer shall pay a mitigation fee to be determined by the City Engineer for off-site transportation improvements. This mitigation fee shall be paid prior to issuance of building permits.

21. The applicant and/or developer shall comply with all requirements of the County Sanitation District, make application for and pay the sewer maintenance fee.

22. The applicant and/or developer shall pay the water trunkline connection fee of $3,700 per acre upon application for water service connection or if utilizing any existing water service.

MISCELLANEOUS

23. A grading plan shall be submitted for drainage approval to the City Engineer. The applicant and/or developer shall pay drainage review fees in conjunction with this submittal. A professional civil engineer registered in the State of California shall prepare the grading plan.

24. A hydrology study shall be submitted to the City if requested by the City Engineer. The study shall be prepared by a Professional Civil Engineer.

25. Upon completion of public improvements constructed by developers, the developer's civil engineer shall submit mylar record drawings and an electronic file (AutoCAD Version 2004 or higher) to the office of the City Engineer.

26. The applicant and/or developer shall comply with the National Pollutant Discharge Elimination System (NPDES) program and shall require the general contractor to implement storm water/urban runoff pollution prevention controls and Best Management Practices (BMPs) on all construction sites in accordance with the current MS4 Permit. The applicant and/ or developer will also be required to submit a Certification for the project and will be required to prepare a Storm Water Pollution Prevention Plan (SWPPP) and Low Impact Development Plan (LID).

POLICE SERVICES DEPARTMENT:
(Contact: Lou Collazo 562.868-0511 x3320)

27. The applicant and/or developer shall submit and obtain approval of a proposed lighting (photometric) plan for the property from the City's Department of Police Services. The photometric plan shall be designed to provide adequate lighting (minimum of 1 foot candle power) throughout the subject property. Further, all exterior lighting shall be designed/installed in such a manner that light and glare are not transmitted onto adjoining properties in such concentration/quantity as to create a hardship to adjoining property owners or a public nuisance. The photometric plans shall be submitted to the Director of Police Services prior to building permit issuance.

28. The developer shall provide an emergency phone number and a contact person of the person or persons involved in the supervision of the construction to the Department of Police Services. The name, telephone number, fax number and e-mail address of that person shall be provided to the Director of Police Services no later than 60 days from the date of approval by the Planning Commission. Emergency information shall allow emergency service to reach the developer or their representative any time, 24 hours a day.

29. In order to facilitate the removal of unauthorized vehicles parked on the property, the developer shall post, in plain view and at each entry to the property, a sign not less than 17" wide by 22" long. The sign shall prohibit the public parking of unauthorized vehicles and indicate that unauthorized vehicles will be removed at the owner's expense and also contain the California Vehicle Code that permits this action. The sign shall also contain the telephone number of the local law enforcement agency (Police Services Center (562) 409-1850). The lettering within the sign shall not be less than one inch in height. The developer shall contact the Police Services Center for an inspection no later than 30 days after the project has been completed and prior to the occupancy permit being issued.

30. All work shall be conducted inside at all times including, but not limited to, all loading and unloading of trailers. Items shall not be left out awaiting loading.

31. Off-street parking areas shall not be reduced or encroached upon by outdoor storage and/or for the placement of merchandize.

32. All new businesses fronting on Telegraph Road shall be aware that they are subject strict noise levels pursuant to Section 155.424 (E).

33. The proposed buildings, including any lighting, fences, walls, cabinets, and poles shall be maintained in good repair, free from trash, debris, litter and graffiti and other forms of vandalism. Any damage from any cause shall be repaired within 72 hours of occurrence, weather permitting, to minimize occurrences of dangerous conditions or visual blight. Paint utilized in covering graffiti shall be a color that matches, as closely possible, the color of the existing and/or adjacent surfaces.

34. During the construction phase of the proposed project, the contractor shall provide an identification number (i.e. address number) at each building and/or entry gate to direct emergency vehicles in case of an emergency. The identification numbers may be painted on boards and fastened to the temporary construction fence. The boards may be removed after each building has been identified with their individual permanent number address.

35. It shall be the responsibility of the job-supervisor to maintain the job site in a clean and orderly manner. Dirt and debris that has migrated to the street or neighboring properties shall be immediately cleaned.

36. During construction, out-houses, porta potties, or the like, shall not be visible from the public street and shall be maintained on a regular basis.

DEPARTMENT OF FIRE - RESCUE (FIRE PREVENTION DIVISION):
(Contact: Richard Kallman 562.868-0511 x3710)

37. All buildings over 5,000 sq. ft. shall be protected by an approved automatic sprinkler system per Section 93.11 of the Santa Fe Springs Municipal Code.

38. The applicant and/or developer shall comply with the requirements of Section 117.131 of the Santa Fe Springs Municipal Code, Requirement for a Soil Gas Study, in accordance with Ordinance No. 955, prior to issuance of building permits.

39. When applicable, abandoned oil wells must be exposed and inspected under the oversight of a registered engineer or geologist. The wells must be monitored for methane leaks and the precise location of each abandoned well shall be surveyed. A report of findings along with a description of any recommended remedial actions needed to comply with the Division of Oil, Gas, and Geothermal Resources, signed by a registered engineer or geologist, must be provided to the Fire Department.

40. A methane gas protection system designed in accordance with the standards established by the County of Los Angeles shall be required for all habitable structures. Plans for the proposed methane gas protection system shall be submitted to the Department of Fire-Rescue prior to construction. An alternative to the County of Los Angeles standards may be acceptable if approved by the Department of Fire-Rescue.

41. Interior gates or fences are not permitted across required Fire Department access roadways unless otherwise granted prior approval by the City Fire Department.

42. If on-site fire hydrants are required by the Fire Department, a minimum flow must be in accordance with Appendix B from the current Fire Code flowing from the most remote hydrant. In addition, on-site hydrants must have current testing, inspection and maintenance per California Title 19 and NFPA 25.

43. The standard aisle width for onsite emergency vehicle maneuvering shall be 26 feet with a minimum clear height of 13 feet 6 inches. Internal driveways shall have a turning radius of not less than 52 feet. The final location and design of this 26 feet shall be subject to the approval of the City's Fire Chief as established by the Uniform Fire Code. A request to provide emergency vehicle aisle width less than 26 feet shall be considered upon the installation/provision of mitigation improvements approved by the City's Fire Chief.

44. Prior to submitting plans to the Building Department, a preliminary site plan shall be approved by the Fire Department for required access roadways and on-site fire hydrant locations. The site plan shall be drawn at a scale between 20 to 40 feet per inch. Include on plan all entrance gates that will be installed.

45. Knox boxes are required on all new construction. All entry gates shall also be equipped with Knox boxes or Knox key switches for power-activated gates.

46. Signs and markings required by the Fire Department shall be installed along the required Fire Department access roadways.

47. The applicant and/or developer shall apply for a permit with the Department of Fire-Rescue and comply with the requirements of Section 117.127 of the Santa Fe Springs Municipal Code, Criteria for Abandonment, prior to abandoning or re-abandoning any oil wells on-site.

48. A system for venting of abandoned oil wells over which there will be construction, in accordance with Section 117.130 of the Santa Fe Springs Municipal Code, shall be required. Plans for the venting system shall be submitted to the Department of Fire-Rescue prior to construction.

DEPARTMENT OF FIRE - RESCUE (ENVIRONMENTAL DIVISION):
(Contact: Tom Hall 562.868-0511 x3715)

49. Permits and approvals. The applicant and/or developer shall, at its own expense, secure or cause to be secured any and all permits or other approvals which may be required by the City and any other governmental agency prior to conducting environmental assessment or remediation on the property. Permits shall be secured prior to beginning work related to the permitted activity.

50. The applicant and/or developer shall submit plumbing plans to the Santa Fe Springs Department of Fire-Rescue Environmental Protection Division (EPD) and, if necessary, obtain an Industrial Wastewater Discharge Permit Application for generating, storing, treating or discharging any industrial wastewater to the sanitary sewer.

51. The applicant and/or developer shall provide a sampling plan to the Department of Fire-Rescue for active oil wells that will be abandoned prior to site development.

WASTE MANAGEMENT:
(Contact: Teresa Cavallo 562.868.0511 x7309)

52. The developer shall comply with Section 50.51 of the Municipal Code which prohibits any business or residents from contracting any solid waste disposal company that does not hold a current permit from the City.

53. All projects over $50,000 are subject to the requirements of Ordinance No. 914 to reuse or recycle 75% of the project waste. Contact the Environmental Consultant, Morgan McCarthy at (562) 432-3700 or (805) 815-2492.

54. The developer shall comply with Public Resource Code, Section 42900 et seq. (California Solid Waste Reuse and Recycling Access Act of 1991) as amended, which requires each development project to provide adequate storage area for the collection/storage and removal of recyclable and green waste materials.

PLANNING AND DEVELOPMENT DEPARTMENT:
(Contact: Laurel Reimer 562.868-0511 x7354)

55. Approval of Development Plan Approval Case Numbers 930, 931, 932 and 933 is contingent upon approval of Tentative Parcel Map Case No. 78232.

56. The owner/developer shall comply with the City's "Heritage Artwork in Public Places Program" in conformance with City Ordinance No. 1054.

57. The owner/developer shall be responsible for reviewing and/or providing copies of the required conditions of approval to his/her architect, engineer, contractor, tenants, etc. Additionally, the conditions of approval contained herein shall be made part of the construction drawings for the proposed development. *Construction drawings shall not be accepted for Plan Check without the conditions of approval incorporated into the construction drawings.*

58. The owner/developer shall indicated on the first page of the construction drawings that the subject property is located within the methane zone. Said indication shall be clearly printed with a minimum 12 point font size.

59. The owner/developer shall apply for a Well Review Report (report) through the Department of Conservation, Division of Oil, Gas, and Geothermal Resources (DOGGR). A copy of this report shall be provide to the Planning Department. If historic oil wells are identified on-site, well abandoned to current DOGGR standards may be required before a building permit can be issued.

60. The owner/developer shall apply for an Oilfield Site Plan Review through the Planning Department prior to issuance of a building permit.

61. To prevent the travel of combustible methane gas into any structure, all slab or foundation penetrations, including plumbing, communication and electrical penetrations, must be sealed with an appropriate material. In addition, underground electrical conduits penetrating the slab or foundation of the structure, shall comply with the National Electrical Code (NEC), replete with a seal-off device normally required for classified electrical installations, so as to prevent the travel of combustible methane gas into the structure through conduit runs. *Refer to California Electrical Code, Chapter 5, Sections 500 and 501.*

62. The owner/developer shall submit Mechanical plans that include a roof plan that shows the location of all roof mounted equipment. All roof-mounted mechanical equipment and/or duct work which projects above the roof or roof parapet of the proposed development and is visible from adjacent property or a public street shall be screened by an enclosure which is consistent with the architecture of the building and approved by the Director of Planning or designee.
    a. To illustrate the visibility of equipment and/or duct work, the following shall be submitted along with the Mechanical Plans:
        i. A roof plan showing the location of all roof-mounted equipment;
        ii. Elevations of all existing and proposed mechanical equipment; and
        iii. A line-of-sight drawing or a building cross-section drawing which shows the roof-mounted equipment and its relation to the roof and parapet lines.

    NOTE: line-of sight drawing and/or building cross section must be scaled.

63. The owner/developer shall submit a lighting program that is integrated into the overall site, landscape design and building design. Lighting shall be used to highlight prominent building features such as entries and other focal points. Up-lighting can also be used as a way to enhance the texture of plants and structures, to create a sense of height in a landscape design.

64. The owner/developer agrees and understands that any existing overhead utilities within the development shall be placed underground.

65. All fences, walls, gates and similar improvements for the proposed development shall be subject to the prior approval of the Fire Department and the Department of Planning and Development.

66. All approved outdoor trash enclosures shall be provided for the development subject to the approval of the Director of Planning or designee. The calculation to determine the required storage area shall be determine by the City Building Department.

67. All outdoor trash enclosures shall provide a solid roof cover.

68. All street-facing roof drains shall be provided along the interior walls and not along the exterior of the building.

69. The proposed development shall be constructed of quality material and any material shall be replaced when and if the material becomes deteriorated, warped, discolored or rusted.

70. Approved suite numbers/letters or address numbers shall be placed on the proposed building in such a position as to be plainly visible and legible from the street fronting the property. Said numbers shall contrast with their background. The size recommendation shall be 12" minimum.

71. The owner/developer shall submit a mailbox plan (locations and sizes) for all parcels prior to the issuance of building permits. The plan shall be approved by the Santa Fe Springs Post Office. The owner/developer shall submit to the City a written confirmation from the Santa Fe Springs Post Office that the mailbox locations are approved. The City shall review and approve the location plan to ensure adequate site distance and traffic safety measures are incorporated.

72. The Department of Planning and Development requires that the double-check detector assembly be placed as far back from the property line as practical, screened by shrubs or other materials, and painted forest green. All shrubs shall be planted a minimum distance of two (2) feet surrounding the detector assembly; however, the area in front of the OS and Y valves shall not be screened. The screening shall also only be applicable to the double-check detector assembly and shall not include the fire department connector (FDC). Notwithstanding, the Fire Marshall shall have discretionary authority to require the FDC to be located a minimum distance from the double-check detector assembly. The bottom of the valve shut off wheel shall be located a maximum of two (2) feet above ground.

73. Owner/developer shall submit for approval a detailed landscape and automatic irrigation plan pursuant to the Landscaping Guidelines of the City. Said landscape plan shall indicate the location and type of all plant materials, existing and proposed, and shall include 2 to 3 foot high berms (as measured from the parking lot grade elevation), shrubs designed to fully screen the interior yard and parking areas from public view, and minimum 24" box trees along the street frontage. *Said plans shall be consistent with AB 1881 (Model Water Efficient Landscape Ordinance).*

    NOTE: Staff shall not approve the landscaping and irrigation plan without first reviewing and approving the civil drawings, specifically as it pertains to the landscaping and irrigation plan (i.e., location and size of riprap, bio-swales, areas of infiltration trenches, etc.)

74. The landscaped areas shall be provided with a suitable, fixed, permanent and automatically controlled method for watering and sprinkling of plants. This operating sprinkler system shall consist of an electrical time clock, control valves, and piped water lines terminating in an appropriate number of sprinklers to insure proper watering periods and to provide water for all plants within the landscaped area. Sprinklers used to satisfy the requirements of this section shall be spaced to assure complete coverage of all landscaped areas. *Said plan shall be consistent with AB 1881 (Model Water Efficient Landscape Ordinance).*

75. Upon completion of the landscaping improvements, said landscaped areas shall be maintained in a neat, clean, orderly and healthful condition. This is meant to include proper pruning, mowing of lawns, weeding, removal of litter, fertilizing, and replacement of plants when necessary and the regular watering of all plantings.

76. The electrical plans, which show the location of electrical transformer(s), shall be subject to the approval of the Planning Department. Transformers shall not be located within the front yard setback area. The location of the transformer(s) shall be subject to the prior approval of the Director of Planning or designee. The electrical transformer shall be screened with shrubs consistent with Southern California Edison's Guidelines which requires three foot clearance on sides and back of the equipment, and eight foot clearance in front of the equipment. Additionally, the landscaping irrigation system shall be installed so that they do not spray on equipment. (A copy of the Guideline is available at the Planning Department.)

77. The applicant and/or developer shall not allow commercial vehicles, trucks and/or truck tractors to queue on Telegraph Road or Santa Fe Springs Road, use Telegraph Road or Santa Fe Springs Road as a staging area, or to back-up onto the street from the subject property.

78. All activities shall occur inside the buildings. No portion of the required off-street parking and driveway areas shall be used for outdoor storage of any type or for special-event activities, unless prior written approval is obtained from the Director of Planning, Director of Police Services and the Fire Marshall.

79. All parking stalls shall be legibly marked on the pavement. Additionally, all compact spaces shall be further identified by having the words "Compact" or comparable wording legibly written on the pavement, wheel stop or on a clearly visible sign.

80. The owner/developer shall provide a bulletin board, display case, or kiosk to display transportation information where the greatest number of employees are likely to see it. Information shall include, but is not limited to:
    1. Current maps, routes and schedules for public transit routes serving the site; and
    2. Telephone numbers for referrals on transportation information including numbers for the regional ridesharing agency and local transit operators; and
    3. Ridesharing promotional material supplied by commuter-oriented organizations; and
    4. Bicycle route and facility information, including regional/local bicycle maps and bicycle safety information; and
    5. A listing of facilities available for carpoolers, vanpoolers, bicyclists, transit riders and pedestrians at the site. This is required to both meet the requirements of Section 155.502 (D) of the Zoning Regulations and also a goal identified within the City's General Plan Circulation Element.

81. Preferential parking spaces shall be reserved for potential carpool/vanpool vehicles without displacing handicapped and customer parking needs. Vanpool space(s) shall

be legibly marked on the pavement or identified by a sign and also conveyed to employees through the required transportation information board. The preferential carpool/vanpool parking shall be identified on the site plan at the time of plan check submittal. This is required to both meet the requirements of Section 155.502 (D) of the Zoning Regulations and also a goal identified within the City's General Plan Circulation Element.

82. An area shall be designate for bicycle parking and bicycle racks shall be provided. Bike racks shall be provided to accommodate bicycles at a ratio of 4 bicycles for first 50,000 square feet and 1 bicycle for each additional 50,000 square feet. This is required to both meet the requirements of Section 155.502 (D) of the Zoning Regulations and also a goal identified within the City's General Plan Circulation Element.

83. There shall be a safe and convenient zone in which carpool/vanpool vehicles may deliver or board their passengers. Additionally, there shall be sidewalks or other designated pathways following direct and safe routes from external pedestrian circulation system to each building in the development and safe and convenience access from the external circulation system to bicycle parking facilities on-site. This is required to both meet the requirements of Section 155.502 (D) of the Zoning Regulations and also a goal identified within the City's General Plan Circulation Element.

84. Pursuant to the sign standards of the Zoning Regulations and related sign guidelines of the City of Santa Fe Springs, a comprehensive sign program for the development shall be prepared and submitted to the Director of Planning or designee for approval prior to obtaining a building permit for any signs related to the subject development. All signs throughout the subject site shall be installed in accordance with the approved comprehensive sign program for the subject development.

85. The Department of Planning and Development shall first review and approve all sign proposals for the development. The sign proposal (plan) shall include a site plan, building elevation on which the sign will be located, size, style and color of the proposed sign. All drawings shall be properly dimensioned and drawn to scale on 11" x 17" maximum-size paper. All signs shall be installed in accordance with the sign standards of the Zoning Ordinance and the Sign Guidelines of the City.

86. Prior to issuance of building permits, the owner/developer shall comply with the following conditions to the satisfaction of the City of Santa Fe Springs:
    a. Covenants.
        1. Owner/developer shall provide a written covenant to the Planning Department that, except as owner/developer may have otherwise disclosed to the City, Commission, Planning Commission or their employees, in writing, owner/developer has investigated the environmental condition of the property and does not know, or have reasonable cause to believe, that (a) any crude oil, hazardous substances or hazardous wastes, as defined in state and federal law, have been released, as that term is defined in 42 U.S.C. Section

9601 (22), on, under or about the Property, or that (b) any material has been discharged on, under or about the Property that could affect the quality of ground or surface water on the Property within the meaning of the California Porter-Cologne Water Quality Act, as amended, Water Code Section 13000, et seq

2. Owner/developer shall provide a written covenant to the City that, based on reasonable investigation and inquiry, to the best of owner/developer knowledge, it does not know or have reasonable cause to believe that it is in violation of any notification, remediation or other requirements of any federal, state or local agency having jurisdiction concerning the environmental conditions of the Property.

b. Owner/developer understands and agrees that it is the responsibility of the owner/developer to investigate and remedy, pursuant to applicable federal, state and local law, any and all contamination on or under any land or structure affected by this approval and issuance of related building permits. The City, Commission, Planning Commission or their employees, by this approval and by issuing related building permits, in no way warrants that said land or structures are free from contamination or health hazards.

c. Owner/developer understands and agrees that any representations, actions or approvals by the City, Commission, Planning Commission or their employees do not indicate any representation that regulatory permits, approvals or requirements of any other federal, state or local agency have been obtained or satisfied by the owner/developer and, therefore, the City, Commission, Planning Commission or their employees do not release or waive any obligations the owner/developer may have to obtain all necessary regulatory permits and comply with all other federal, state or other local agency regulatory requirements. Owner/developer, not the City, Commission, Planning Commission or their employees will be responsible for any and all penalties, liabilities, response costs and expenses arising from any failure of the owner/developer to comply with such regulatory requirements.

87. The owner/developer shall require and verify that all contractors and sub-contractors have successfully obtained a Business License with the City of Santa Fe Springs prior to beginning any work associated with the subject project. A late fee and penalty will be accessed to any contractor or sub-contractor that fails to obtain a Business License and a Building Permit final or Certificate of Occupancy will not be issued until all fees and penalties are paid in full. Please contact Cecilia Martinez, Business License Clerk, at (562) 868-0511, extension 7527 for additional information. A business license application can also be downloaded at www.santafesprings.org.

88. The Mitigation Monitoring Program, which was prepared for the proposed project and adopted by the Planning Commission upon completion of the Mitigated Negative Declaration, shall be made part of the conditions of approval for Development Plan Approval Case No. 930, 931, 932 and 933. The Mitigation Monitoring and Reporting Program is listed as an attachment to the staff report.

89. The owner/developer shall implement a dust control program for air quality control. The program shall ensure that a water vehicle for dust control operations is kept readily available at all times during construction. The developer shall provide the City Engineer and Building Official with the name, telephone number and e-mail address of the person directly responsible for dust control and operation of the vehicle.

90. During construction, the following information shall be made available on a sign posted at the main entrance(s) to the site:
    1. Name of the development/project.
    2. Name of the development company.
    3. Address or Address range for the subject site.
    4. 24-hour telephone number where someone can leave a message on a particular complaint (dust, noise, odor, etc.).

91. Prior to occupancy of the property/buildings, the owner/developer and/or his tenant(s), shall obtain a valid business license (AKA Business Operation Tax Certificate), and submit a Statement of Intended Use. Both forms, and other required accompanying forms, may be obtained at City Hall by contacting Cecilia Martinez at (562) 868-0511, extension 7527, or through the City's web site (www.santafesprings.org).

92. The development shall be built substantially in accordance with the plot plan, floor plan, and elevations submitted by the applicant and on file with the case. Any modification shall be subject to the review and approval of the Director of Planning or his/her designee.

93. The final site plan, floor plan and elevations of the proposed development and all other appurtenant improvements, textures and color schemes shall be subject to the final approval of the Director of Planning.

94. The owner/developer understands and agrees that if changes to the original plans (submitted and on file with the subject case) are required during construction, revised plans must be provided to the Planning Department for review and approval prior to the implementation of such changes. Please note that certain changes may also require approvals from other departments.

95. All other requirements of the City's Zoning Regulations, Building Code, Property Maintenance Ordinance, State and City Fire Code and all other applicable County, State and Federal regulations and codes shall be complied with.

96. Unless otherwise specified in the action granting Development Plan Approval, said approval which has not been utilized within a period of 24 consecutive months from the effective date shall become null and void. Also the abandonment or nonuse of a development plan approval and any privileges granted thereunder shall become null and void. However, an extension of time may be granted by Commission or Council action.

97. The applicant and owner/developer agrees to defend, indemnify and hold harmless the City of Santa Fe Springs, its agents, officers and employees from any claim, action or proceeding against the City or its agents, officers or employees to attack, set aside, void or annul an approval of the City or any of its councils, commissions, committees or boards arising from or in any way related to the all entitlements and approvals issued by the City in connection with the Project and from any CEQA challenges relating to the environmental review and determination for the Project, or any actions or operations conducted pursuant thereto. Should the City, its agents, officers or employees receive notice of any such claim, action or proceeding, the City shall promptly notify the applicant of such claim, action or proceeding, and shall cooperate fully in the defense thereof.

98. This approval is not effective until the applicant has completed and signed the signature element appearing at the bottom of the last page of these conditions, and returned the original completed and signed document to the City, confirming the applicant's understanding of these conditions and its willingness to accept and comply with them.

The applicant identified below hereby confirms (1) that it has reviewed and understands each of the foregoing conditions for Development Plan Approval Case Numbers 930-933, and (2) its willingness to accept and comply with them.

Re: Development Plan Approval Case Nos. 930-933

Dear Mr. Foley:

The Planning Commission, at their meeting on June 14, 2021, took action on your request for the following entitlements:

DPA Case Nos. 930, 931, 932, and 933: A request for a time extension of Development Plan Approval (DPA) Case Nos. 930 - 933 to allow the construction of four (4) new concrete tilt-up industrial buildings, ranging from 58,463 sq. ft. to 121,124 sq. ft., located on the northwest corner of Telegraph Road and Santa Fe Springs Road (APNs 8005-015-047, 8005-015-048, 8005-015-049, 8005-015-050), within the M-2, Heavy Manufacturing Zone and Telegraph Road Corridor. (Maverick Natural Resources)

The Planning Commission approved your requested entitlements, subject to the following conditions:

CONDITIONS OF APPROVAL:

Re: **Tentative Parcel Map No. 78232**
Development Plan Approval Case Nos. 930, 931, 932, and 933
Northwest corner of Telegraph Road and Santa Fe Springs Road

Dear Mr. Washburn:

The Planning Commission, at their meeting on September 10, 2018, took action on your request for to allow a 44.67-acre site consisting of seven parcels to be subdivided into five parcels and developed with:

DPA 930: a 78,417 sq. ft. building on a 4.28-acre parcel (Building 1);
DPA 931: a 58,463 sq. ft. building on a 3.53-acre parcel (Building 2);
DPA 932: a 121,124 sq. ft. building on a 6.85-acre parcel (Building 3);
DPA 933: a 60,117 sq. ft. building on a 3.23-acre parcel (Building 4);

The remaining 26.77-acre parcel will be reserved for oil extraction operations. The project site is located at the northwest corner of Telegraph Road and Santa Fe Springs Road (APNs 8005-015-011, 8005-015-013, 8005-015-023, 8005-015-024, 8005-015-025, 8005-015-026, and 8005-015-027), within the M-2, Heavy Manufacturing Zone and Telegraph Road Corridor.
**The Building Official has assigned the following addresses: 12451 Telegraph Road (Building 1), 12551 Telegraph Road (Building 2), 10251 Santa Fe Springs Road (Building 3), and 10051 Santa Fe Springs Road (Building 4).*

The Planning Commission approved your requested entitlement subject to the findings and conditions of approval as provided within the attached Resolution 82-2018 and Exhibits A and B.

CITY OF SANTA FE SPRINGS
RESOLUTION NO. 82-2018

A RESOLUTION OF THE PLANNING COMMISSION OF THE CITY OF SANTA FE SPRINGS REGARDING TENTATIVE PARCEL MAP NO. 78232 & DEVELOPMENT PLAN APPROVAL CASE NO. 930 & DEVELOPMENT PLAN APPROVAL CASE NO. 931 & DEVELOPMENT PLAN APPROVAL CASE NO. 932 & DEVELOPMENT PLAN APPROVAL CASE NO. 933

WHEREAS, a request was filed for Tentative Parcel Map No. 78232 to allow an approximately 44.67-acre site to be subdivided into five (5) parcels measuring 186,493 sq. ft. (Parcel 1), 153,827 sq. ft. (Parcel 2), 298,474 sq. ft. (Parcel 3), 140,791 sq. ft. (Parcel 4), and 1,166,135 sq. ft. (Parcel 5) in the M-2, Heavy Manufacturing, Zone and Telegraph Road Corridor; and

WHEREAS, a request was filed for Development Plan Approval Case No. 930 to allow the construction of a 78,417 sq. ft. concrete tilt-up building (Building 1) on property located within the M-2, Heavy Manufacturing, Zone and Telegraph Road Corridor; and

WHEREAS, a request was filed for Development Plan Approval Case No. 931 to allow the construction of a 58,463 sq. ft. concrete tilt-up building (Building 2) on property located within the M-2, Heavy Manufacturing, Zone and Telegraph Road Corridor; and

WHEREAS, a request was filed for Development Plan Approval Case No. 932 to allow the construction of a 121,124 sq. ft. concrete tilt-up building (Building 3) on property located within the M-2, Heavy Manufacturing, Zone and Telegraph Road Corridor; and

WHEREAS, a request was filed for Development Plan Approval Case No. 933 to allow the construction of a 60,117 sq. ft. concrete tilt-up building (Building 4) on property located within the M-2, Heavy Manufacturing, Zone and Telegraph Road Corridor; and

WHEREAS, the subject property is located at the northwest corner of Telegraph Road and Santa Fe Springs Road, with Accessor's Parcel Numbers of 8005-015-011, 8005-015-013, 8005-015-023, 8005-015-024, 8005-015-025, 8005-015-026, and 8005-015-027, as shown in the latest rolls of the Los Angeles County Office of the Assessor; and

WHEREAS, the property owner is Breitburn Operating L.P., 7087 Wilshire Boulevard, 46ths Floor, Los Angeles, CA 90017; and

WHEREAS, the proposed Tentative Parcel Map No. 78232 and Development Plan Approval Case Numbers 930 – 933 are considered a project as defined by the California Environmental Quality Act (CEQA), Article 20, Section 15378(a); and

WHEREAS, based on the information received from the applicant and staff's assessment, it was found and determined that the proposed project will not have a significant adverse effect on the environmental following mitigation, therefore, the City caused to be prepared and proposed to adopt an Initial Study/Mitigated Negative Declaration (IS/MND) for the proposed project; and

WHEREAS, the City of Santa Fe Springs Planning and Development Department on June 27, 2018 published a legal notice in the *Whitter Daily News,* a local paper of general circulation, indicating the date and time of the public hearing, and also mailed said public hearing notice on June 27, 2018 to each property owner within a 500 foot radius of the project site in accordance with state law; and

WHEREAS, the City of Santa Fe Springs Planning Commission has considered the application, the written and oral staff report, the General Plan and zoning of the subject property, the testimony, written comments, or other materials presented at the Planning Commission Meeting on July 9, 2018 concerning Tentative Parcel Map No. 78232 and Development Plan Approval Case Nos. 930 - 933.

NOW, THEREFORE, be it RESOLVED that the PLANNING COMMISSION of the CITY OF SANTA FE SPRINGS does hereby RESOLVE, DETERMINE and ORDER AS FOLLOWS:

SECTION I. ENVIRONMENTAL FINDINGS AND DETERMINATION

The proposed development is considered a project under the California Environmental Quality Act (CEQA) and as a result, the project is subject to the City's environmental review process. The environmental analysis provided in the Initial Study indicated that the proposed project will not result in any significant adverse immitigable impacts to the environment, therefore, the City required the preparation and adoption of a Mitigated Negative Declaration (MND) for the proposed Project. The MND reflects the independent judgment of the City of Santa Fe Springs, and the environmental consultant, Blodgett/Baylosis Environmental Planning.

The Initial Study determined that the proposed project is not expected to have any significant adverse environmental impacts. The following findings can be made regarding the Mandatory Findings of Significance set forth in Section 15065 of the CEQA Guidelines based on the results of this Initial Study:

- The proposed project *will not* have the potential to degrade the quality of the environment.
- The proposed project *will not* have the potential to achieve short-term goals to the disadvantage of long-term environmental goals.
- The proposed project *will not* have impacts that are individually limited, but cumulatively considerable, when considering planned or proposed development in the immediate vicinity.
- The proposed project *will not* have environmental effects that will adversely affect humans, either directly or indirectly.

In addition, pursuant to Section 21081(a) of the Public Resources Code, findings must be adopted by the decision-maker coincidental to the approval of a Mitigated Negative Declaration, which relates to the Mitigation Monitoring Program. These findings shall be incorporated as part of the decision-maker's findings of fact, in response to AB-3180 and in compliance with the requirements of the Public Resources Code. In accordance with the requirements of Section 21081(a) and 21081.6 of the Public Resources Code, the City of Santa Fe Springs can make the following additional findings:

- A mitigation reporting or monitoring program will be required; and,
- An accountable enforcement agency or monitoring agency shall be identified for the mitigation measures adopted as part of the decision-maker's final determination.

A number of mitigation measures have been recommended as a means to reduce or eliminate potential adverse environmental impacts to insignificant levels. AB-3180 requires that a monitoring and reporting program be adopted for the recommended mitigation measures.

SECTION II. TENTATIVE PARCEL MAP FINDINGS

Pursuant to Section 154.07 of the Municipal Code, a tentative map shall not be approved unless the Planning Commission finds that the proposed subdivision, together with the provisions for its design and improvements, is consistent with the general plan as required by Section 66473.5 of the Subdivision Map Act. Additionally, the Planning Commission shall deny a tentative map if it makes any of the findings set forth in Sections 66474 and 66474.6 of the Subdivision Map Act.

A) *Section 66473.5 and Sections 66474(a) and (b) of the Subdivision Map Act require tentative maps to be consistent with the general plan and specific plans. The proposed Tentative Parcel Map, subject to the attached conditions, is in accordance with the Subdivision Map Act in that:*

Approval of the proposed Parcel Map would promote a number of specific General Plan Goals and Policies as described in the table below:

General Plan Consistency Analysis

General Plan Element	*Policy*	**Project Consistency**
	Goal 5: Provide an environment to stimulate local employment, community spirit, property values, community stability, the tax base, and the viability of local business.	The map will facilitate the development of four Class A buildings, which are expected to provide more jobs and generate a higher property tax than currently collected for the oil field.

Land Use	**Goal 9:** Provide for growth and diversification of industry and industrial related activities within the Santa Fe Springs industrial area.	The consolidation of several small parcels into five (5) parcels will provide industrial and commercial use that provide a more viable development opportunity of the subject site.
	Policy 9.1: Consideration of providing an adequate tax base from property tax or sales tax income.	The project will construct four Class A buildings, which are expected to generate higher property taxes than currently collected for the oil field.
	Policy 9.4: Encourage the grouping of adjoining small or odd shaped parcels in order to create more viable development.	The consolidation of several small parcels, some of which are landlocked and unable to be developed, and subdivision into five (5) viable parcels will provide for industrial and commercial uses that provide a more viable development opportunity of the subject site.
	Goal 11: Support and encourage the viability of the industrial and commercial areas of Santa Fe Springs.	The consolidation and subdivision of the existing lots enables the site to be developed into an industrial business park.

The proposed parcel map, subject to the attached conditions, is compatible with the goals and objectives of the various elements of the City of Santa Fe Springs General Plan, and therefore, is in compliance with Government Code Sections 66473.5, and 66474(a) and (b).

B) *Sections 66474(c) and (d) of the Subdivision Map Act require the site to be physically suitable for the type of development and proposed density of development.*

In addition to the proposed parcel map, the applicant is concurrently seeking approval to allow for the construction of four Class A industrial buildings on parcels 1, 2, 3, and 4. Parcel 5 will continue to be utilized for oil extraction operations. The existing zoning permits warehouse uses and oil and gas drilling for properties within the M-2, Heavy Manufacturing, zone. All public streets and utility services necessary and sufficient for the full use, occupancy, and operation of the future industrial business park, including water, storm drain(s), sanitary sewer, gas, electric, cable and telephone facilities, are readably available.

C) *Sections 66474(e) and (f) of the Subdivision Map Act require that the design of the subdivision or the proposed improvements are not likely to cause substantial environmental damage or substantially and avoidably injure fish or wildlife or their habitat or is likely to cause serious public health concerns.*

The project site is not located in a sensitive environment, but rather in a fully urbanized area surrounded by various land uses. None of the parcels, pre and

post subdivision, contain any riparian habitats, wetland habitats, and are not utilized for movement of any known native wildlife species of migratory fish or wildlife species; consequently, the design of the subdivision is unlikely to cause substantial environmental damage or substantially and avoidably injure fish or wildlife or their habitat. Additionally, as required by the California Environmental Quality Act (CEQA), an Initial Study (IS)/Mitigated Negative Declaration (MND) was prepared for the proposed apartment project. According to the IS/MND, the project is not expected to have any impacts on biological resources or cause serious public health problems.

D) *Section 66474(g) of the Subdivision Map Act requires that the design of the subdivision or the type of improvements will not conflict with easements, acquired by the public at large, for access through or use of, property within the proposed subdivision.*

New easements for utility or roadways, if necessary, will be provided prior to final map approval. Two right-turn lanes are anticipated to be recorded on the final map.

E) *In accordance with Government Code Section 66474.6, it has been determined that the discharge of waste from the proposed subdivision, subject to the attached conditions, into the existing sewer system will not result in a violation of the requirements prescribed by the Regional Water Quality Control Board in that the developer is required to comply with the IS/MND Mitigation Monitoring and Reporting Program, submit an erosion control plan and comply with the NPDES Best Management Practices during the grading and construction phases of the project.*

The project will meet all state and local ordinances and requirements including the California Regional Water Quality Control Board.

F) *That the proposed subdivision shall be in accordance with Government Code Section 66473.1, entitled "Design of Subdivisions to provide for Future Passive or Natural Heating and Cooling Opportunities."*

Future Passive or Natural Heating and Cooling Opportunities will be incorporated with the proposed developments. To the extent feasible, staff will review the proposed developments to ensure that energy-saving devices or materials, including, but not limited to, insulation, double-pane windows, and high efficiency central heating and cooling systems will be incorporated.

SECTION III. DEVELOPMENT PLAN APPROVAL FINDINGS

Pursuant to Section 155.739 of the City of Santa Fe Springs Zoning Regulations, the Planning Commission shall consider the following findings in their review and

determination of the subject Development Plan Approval. Based on the available information, the City of Santa Fe Springs Planning Commission hereby make the following findings:

(A) *That the proposed development is in conformance with the overall objectives of this chapter.*

The proposed project is located within the M-2, Heavy Manufacturing, Zone. Pursuant to Section 155.240 of the Zoning Regulations, "The purpose of the M-2 Zone is to preserve the lands of the city appropriate for heavy industrial uses, to protect these lands from intrusion by dwellings and inharmonious commercial uses, to promote uniform and orderly industrial development, to create and protect property values, to foster an efficient, wholesome and aesthetically pleasant industrial district, to attract and encourage the location of desirable industrial plants, to provide an industrial environment which will be conducive to good employee relations and pride on the part of all citizens of the community and to provide proper safeguards and appropriate transition for surrounding land uses."

The proposed project is consistent with the purpose of the M-2 Zone in the following manner:

1. The land is appropriate for industrial uses based on its zoning, M-2, Heavy Manufacturing and its General Plan Land Use designation of Industrial.
2. The proposed project is and industrial business park, therefore the land is being maintained for industrial uses.
3. The project involves the construction of a new and attractive industrial business park on a site that is currently utilized for oil extraction operations. The assessed value of the property will significantly improve after the project, thus leading to an increase in property values for both the subject property and neighboring properties.
4. The proposed project complies with all development standards set forth in the M-2 Zone.

(B) *That the architectural design of the proposed structures is such that it will enhance the general appearance of the area and be in harmony with the intent of this chapter.*

The subject parcel has been utilized for oil extraction operations for many decades. The proposed project will be a significant improvement to the subject site. The architect used multiple variations in height, setback, materials and color. The result is an attractive project with contemporary buildings that is comparable to other high quality office/industrial projects here in Santa Fe Springs. In addition, the project meets or exceeds all requirements of the City's Zoning Regulations. The project's overall compliance validates that it is in harmony with the overall intent of the City's Zoning Regulations.

(C) *That the proposed structures be considered on the basis of their suitability for their intended purpose and on the appropriate use of materials and on the principles of proportion and harmony of the various elements of the buildings or structures.*

The proposed buildings are well-designed and should be highly suitable for a variety of office, manufacturing or warehouse-type users. The design of the industrial business park provides quality architectural design, as demonstrated by glazing, pop-outs, and variations in height, materials, and color. These architectural design elements break up the mass of the buildings, and present an attractive, distinctive façade to visitors. As designed, the new buildings are suitable for their intended users, and the distinctive design of the buildings represents the architectural principles of proportion and harmony. In addition, the buildings are designed with similar architectural features in order to create harmony and consistency throughout the development.

(D) *That consideration be given to landscaping, fencing and other elements of the proposed development to ensure that the entire development is in harmony with the objectives of this chapter.*

Extensive consideration has been given to numerous elements of the proposed project to achieve harmony with the City's Zoning Regulations. As proposed, the project meets or exceeds all development standards set for in the City's zoning regulations and the project does not require any modification permits and/or zone variances. Landscaping helps to soften building mass and parking areas, loading doors and potential trucking activities are screened by the orientation of buildings, and meandering sidewalks throughout the site frontage provide a safe and attractive pedestrian pathway.

(E) *That it is not the intent of this subchapter to require any particular style or type of architecture other than that necessary to harmonize with the general area.*

As stated previously, the proposed buildings are contemporary in design. The architect used variations in the provide setback, materials and color. The style and architecture of the proposed building is consistent with other high quality buildings in the general area.

(F) *That it is not the intent of this subchapter to interfere with architectural design except to the extent necessary to achieve the overall objectives of this chapter.*

Pursuant to Section 155.736 of the Zoning Regulations "The purpose of the development plan approval is to assure compliance with the provisions of this chapter and to give proper attention to the sitting of new structures or additions or alterations to existing structures, particularly in regard to unsightly and undesirable appearance, which would have an adverse effect on surrounding properties and

the community in general." The Planning Commission finds that the new buildings will be an enhancement to the overall area. The Planning Commission believes that proper attention has been given to the location, size, and design of the proposed buildings.

SECTION IV. PLANNING COMMISSION ACTION

The Planning Commission hereby adopts Resolution No. 82-2018 to approve Tentative Parcel Map No. 78232 to allow an approximately 44.67-acre site to be subdivided into five (5) parcels measuring 186,493 sq. ft. (Parcel 1), 153,827 sq. ft. (Parcel 2), 298,474 sq. ft. (Parcel 3), 140,791 sq. ft. (Parcel 4), and 1,166,135 sq. ft. (Parcel 5); to approve Development Plan Approval Case No. 930 to allow the construction of a 78,417 sq. ft. concrete tilt-up building (Building 1); to approve Development Plan Approval Case No. 931 to allow the construction of a 58,463 sq. ft. concrete tilt-up building (Building 2); to approve Development Plan Approval Case No. 932 to allow the construction of a 121,124 sq. ft. concrete tilt-up building (Building 3); to approve Development Plan Approval Case No. 933 to allow the construction of a 60,117 sq. ft. concrete tilt-up building (Building 4); and to approve and adopt the proposed Initial Study/Mitigated Negative Declaration, and Mitigation Monitoring and Reporting Program (IS/MND/MMRP), subject to conditions attached hereto as Exhibit A and Exhibit B.

ADOPTED and APPROVED this 10th day of September, 2018 BY THE PLANNING COMMISSION OF THE CITY OF SANTA FE SPRINGS.

ENGINEERING / PUBLIC WORKS DEPARTMENT:
(Contact: Robert Garcia 562-868-0511 x7545)

1. Final parcel map checking of $4,824 plus $285 per parcel shall be paid to the City. Developer shall comply with Los Angeles County's Digital Subdivision Ordinance (DSO) and submit final maps to the City and County in digital format.

2. The applicant shall provide at no cost to the City, one mylar print of the recorded parcel map from the County of Los Angeles Department of Public Works, P.O. Box 1460, Alhambra, CA 91802-1460, Attention: Bill Slenniken (626) 458-5131.

3. A reciprocal access easement Agreement covering each parcel of the subject map shall be prepared, executed and recorded in the Office of the Los Angeles County Recorder. Such Agreement and any CC&R's shall be subject to the approval of the City Attorney.

PLANNING AND DEVELOPMENT DEPARTMENT:
(Contact: Laurel Reimer 562.868-0511 x7354)

4. Provisions shall be made for appropriate television systems and for communication systems, including, but not limited to, telephone and internet services. Appropriate cable television systems, as used, means those franchised or licensed to serve the geographical area in which the subdivision is located.

5. The Final Map to be recorded with the Los Angeles County Recorder shall substantially conform to the Tentative Parcel Map submitted by the applicant and on file with the case.

6. Currently, the County of Los Angeles Department of Public Works is utilizing a computerized system to update and digitize the countywide land use base. If the parcel map is prepared using a computerized drafting system, the applicant or their civil engineer shall submit a map in digital graphic format with the final Mylar map to the County of Los Angeles Department of Public Works for recordation and to the City of Santa Fe Springs Department of Public Works for incorporation into its GIS land use map. The City of Santa Fe Springs GIS Coordinate System shall be used for the digital file.

7. Tentative Parcel Map No. 78232 shall expire 24 months after Planning Commission approval, on September 10, 2020, except as provided under the provisions of California Government Code Section 66452.6. During this time period the final map shall be presented to the City of Santa Fe Springs for approval. The subdivision proposed by Tentative Parcel Map No. 78232 shall not be effective until such time that a final map is recorded.

8. The "Subdivider," Breitburn Operating L.P., agrees to defend, indemnify and hold harmless the City of Santa Fe Springs, its agents, officers and employees from any claim, action or proceeding against the City or its agents, officers or employees to attack, set aside, void or annul an approval of the City or any of its councils, commissions, committees or boards concerning the subdivision when action is brought within the time period provided for in Government Code, Section 66499.37. Should the City, its agents, officers or employees receive notice of any such claim, action or proceeding, the City shall promptly notify subdivider of such claim, action or proceeding and shall cooperate fully in the defense thereof.

9. This approval is not effective until the applicant has completed and signed the signature element appearing at the bottom of the last page of these conditions, and returned the original completed and signed document to the City, confirming the applicant's understanding of these conditions and its willingness to accept and comply with them.

The applicant identified below hereby confirms (1) that it has reviewed and understands each of the foregoing conditions for Tentative Parcel Map 78232, and (2) its willingness to accept and comply with them.

Exhibit B:
CONDITIONS OF APPROVAL FOR DPAs 930-933:

ENGINEERING / PUBLIC WORKS DEPARTMENT:
(Contact: Robert Garcia 562.868-0511 x7545)

STREETS

1. Prior to the issuance of building permits, the applicant and/or developer shall pay a flat fee of $203,715 to reconstruct/resurface the existing street frontage to centerline for Telegraph Road & Santa Fe Springs Road.

2. Prior to the issuance of building permits, the applicant and/or developer shall pay a flat fee of $5,000 for the upgrade and installation of an Emergency Vehicle Preemption System (OPTICOM) at the intersection of Telegraph Road and Santa Fe Springs Road as determined by the City Engineer and Fire Chief.

3. The applicant/or developer shall design and construct a 5-foot wide meandering sidewalk per City standards and dedicate an easement along the Telegraph Road & Santa Fe Springs Road street frontage. The dedicated easement shall be shown on the Parcel Map. Furthermore, said meandering sidewalk shall be shown on both the civil and landscape plans.

4. The applicant and/or developer shall design and construct/modify one (1) existing raised Median Island on Santa Fe Springs Road to accommodate left turns into the northernmost proposed driveway.

5. Prior to the issuance of building permits, the applicant and/or developer shall pay the costs associated with the furnishing and installation of traffic signal modifications; including protected Northbound/Southbound left turn traffic signal phasing at the intersection of Telegraph Road and Santa Fe Springs Road. The cost estimate for the modifications (add left turn phasing) at the Telegraph/Bloomfield signal is $191,000.

6. Full street improvements shall be constructed to the City standards in accordance with plans prepared by the applicant and/or developer and approved by the City Engineer. Street to be improved shall include Telegraph Road & Santa Fe Springs Road for the purpose of installing Right turn pockets. A soils report shall be prepared and submitted as directed by the City Engineer to determine proposed street structural section.

7. Street right-of-way easements shall be dedicated as follows:
   a) Along the north side of Telegraph Road for the construction of a right turn pocket.
   b) Along the west side of Santa Fe Springs Road for the construction of a right turn pocket.

8. All above ground oil wells, pipelines, tanks, and related lines within the public right-of-way shall be removed from the right-of-way unless otherwise approved by the City Engineer.

9. Adequate "on-site" parking shall be provided per City requirements, and all streets abutting the development shall be posted "No Stopping Any Time." The City will install the offsite signs and the applicant and/or developer shall pay $ 3,000.00 to install (15) new signs.

10. The applicant and/or developer shall be responsible for the installation, replacement or modification of street name signs, traffic control signs, striping and pavement markings required in conjunction with the development. The applicant and/or developer shall be responsible for coordination of said work, as well as all associated fees, permits, materials, etc.

11. Proposed driveways shall be located to clear existing fire hydrants, street lights, water meters, etc.

CITY UTILITIES

12. Storm drains, catch basins, connector pipes, retention basin and appurtenances built for this project shall be constructed in accordance with City specifications in Telegraph Road & Santa Fe Springs Road. Storm drain plans shall be approved by the City Engineer.

13. Fire hydrants shall be installed as required by the Fire Department. Existing public fire hydrants adjacent to the site, if any, shall be upgraded if required by the City Engineer. The applicant and/or developer shall pay to the City the entire cost of design, engineering, installation and inspection of Fire hydrants.

14. Sanitary sewers shall be constructed in accordance with City specifications to serve the subject development. The plans for the sanitary sewers shall be approved by the City Engineer. A sewer study (including a sewer flow test) shall be submitted along with the sanitary sewer plans.

15. All buildings shall be connected to the sanitary sewers.

16. The fire sprinkler plans, which show the proposed double-check valve detector assembly location, shall have a stamp approval from the Planning Department and Public Works Department prior to the Fire Department's review for approval. Disinfection, pressure and bacteriological testing on the line between the street and detector assembly shall be performed in the presence of personnel from the City Water Department. The valve on the water main line shall be operated only by the City and only upon the City's approval of the test results.

17. The applicant and/or developer shall obtain a Storm Drain Connection Permit for any connection to the storm drain system.

18. The applicant and/or developer shall have an overall site utility master plan prepared by a Registered Civil Engineer showing the proposed location of all public water mains, reclaimed water mains, sanitary sewers and storm drains. This plan shall be approved by the City Engineer prior to the preparation of any construction plans for the aforementioned improvements.

TRAFFIC

19. All points of access to the proposed development have been reviewed and approved by the City Engineer. Left turns will only be allowed into the proposed development from the most northerly driveway on Santa Fe Springs Road. Left turns out of the proposed development will be allowed from both northerly and southerly driveways on Santa Fe Springs Road.

FEES

20. The applicant and/or developer shall comply with Congestion Management Program (CMP) requirements and provide mitigation of trips generated by the development. The applicant and/or developer will receive credit for the demolition of any buildings that formerly occupied the site. For new developments, if the applicant and/or developer cannot meet the mitigation requirements, the applicant and/or developer shall pay a mitigation fee to be determined by the City Engineer for off-site transportation improvements. This mitigation fee shall be paid prior to issuance of building permits.

21. The applicant and/or developer shall comply with all requirements of the County Sanitation District, make application for and pay the sewer maintenance fee.

22. The applicant and/or developer shall pay the water trunkline connection fee of $3,700 per acre upon application for water service connection or if utilizing any existing water service.

MISCELLANEOUS

23. A grading plan shall be submitted for drainage approval to the City Engineer. The applicant and/or developer shall pay drainage review fees in conjunction with this submittal. A professional civil engineer registered in the State of California shall prepare the grading plan.

24. A hydrology study shall be submitted to the City if requested by the City Engineer. The study shall be prepared by a Professional Civil Engineer.

25. Upon completion of public improvements constructed by developers, the developer's civil engineer shall submit mylar record drawings and an electronic file (AutoCAD Version 2004 or higher) to the office of the City Engineer.

26. The applicant and/or developer shall comply with the National Pollutant Discharge Elimination System (NPDES) program and shall require the general contractor to implement storm water/urban runoff pollution prevention controls and Best Management Practices (BMPs) on all construction sites in accordance with the current MS4 Permit. The applicant and/ or developer will also be required to submit a Certification for the project and will be required to prepare a Storm Water Pollution Prevention Plan (SWPPP) and Low Impact Development Plan (LID).

POLICE SERVICES DEPARTMENT:
(Contact: Lou Collazo 562.868-0511 x3320)

27. The applicant and/or developer shall submit and obtain approval of a proposed lighting (photometric) plan for the property from the City's Department of Police Services. The photometric plan shall be designed to provide adequate lighting (minimum of 1 foot candle power) throughout the subject property. Further, all exterior lighting shall be designed/installed in such a manner that light and glare are not transmitted onto adjoining properties in such concentration/quantity as to create a hardship to adjoining property owners or a public nuisance. The photometric plans shall be submitted to the Director of Police Services prior to building permit issuance.

28. The developer shall provide an emergency phone number and a contact person of the person or persons involved in the supervision of the construction to the Department of Police Services. The name, telephone number, fax number and e-mail address of that person shall be provided to the Director of Police Services no later than 60 days from the date of approval by the Planning Commission. Emergency information shall allow emergency service to reach the developer or their representative any time, 24 hours a day.

29. In order to facilitate the removal of unauthorized vehicles parked on the property, the developer shall post, in plain view and at each entry to the property, a sign not less than 17" wide by 22" long. The sign shall prohibit the public parking of unauthorized vehicles and indicate that unauthorized vehicles will be removed at the owner's expense and also contain the California Vehicle Code that permits this action. The sign shall also contain the telephone number of the local law enforcement agency (Police Services Center (562) 409-1850). The lettering within the sign shall not be less than one inch in height. The developer shall contact the Police Services Center for an inspection no later than 30 days after the project has been completed and prior to the occupancy permit being issued.

30. All work shall be conducted inside at all times including, but not limited to, all loading and unloading of trailers. Items shall not be left out awaiting loading.

31. Off-street parking areas shall not be reduced or encroached upon by outdoor storage and/or for the placement of merchandize.

32. All new businesses fronting on Telegraph Road shall be aware that they are subject strict noise levels pursuant to Section 155.424 (E).

33. The proposed buildings, including any lighting, fences, walls, cabinets, and poles shall be maintained in good repair, free from trash, debris, litter and graffiti and other forms of vandalism. Any damage from any cause shall be repaired within 72 hours of occurrence, weather permitting, to minimize occurrences of dangerous conditions or visual blight. Paint utilized in covering graffiti shall be a color that matches, as closely possible, the color of the existing and/or adjacent surfaces.

34. During the construction phase of the proposed project, the contractor shall provide an identification number (i.e. address number) at each building and/or entry gate to direct emergency vehicles in case of an emergency. The identification numbers may be painted on boards and fastened to the temporary construction fence. The boards may be removed after each building has been identified with their individual permanent number address.

35. It shall be the responsibility of the job-supervisor to maintain the job site in a clean and orderly manner. Dirt and debris that has migrated to the street or neighboring properties shall be immediately cleaned.

36. During construction, out-houses, porta potties, or the like, shall not be visible from the public street and shall be maintained on a regular basis.

DEPARTMENT OF FIRE - RESCUE (FIRE PREVENTION DIVISION):
(Contact: Richard Kallman 562.868-0511 x3710)

37. All buildings over 5,000 sq. ft. shall be protected by an approved automatic sprinkler system per Section 93.11 of the Santa Fe Springs Municipal Code.

38. The applicant and/or developer shall comply with the requirements of Section 117.131 of the Santa Fe Springs Municipal Code, Requirement for a Soil Gas Study, in accordance with Ordinance No. 955, prior to issuance of building permits.

39. When applicable, abandoned oil wells must be exposed and inspected under the oversight of a registered engineer or geologist. The wells must be monitored for methane leaks and the precise location of each abandoned well shall be surveyed. A report of findings along with a description of any recommended remedial actions needed to comply with the Division of Oil, Gas, and Geothermal Resources, signed by a registered engineer or geologist, must be provided to the Fire Department.

40. A methane gas protection system designed in accordance with the standards established by the County of Los Angeles shall be required for all habitable structures. Plans for the proposed methane gas protection system shall be submitted to the Department of Fire-Rescue prior to construction. An alternative to the County of Los Angeles standards may be acceptable if approved by the Department of Fire-Rescue.

41. Interior gates or fences are not permitted across required Fire Department access roadways unless otherwise granted prior approval by the City Fire Department.

42. If on-site fire hydrants are required by the Fire Department, a minimum flow must be in accordance with Appendix B from the current Fire Code flowing from the most remote hydrant. In addition, on-site hydrants must have current testing, inspection and maintenance per California Title 19 and NFPA 25.

43. The standard aisle width for onsite emergency vehicle maneuvering shall be 26 feet with a minimum clear height of 13 feet 6 inches. Internal driveways shall have a turning radius of not less than 52 feet. The final location and design of this 26 feet shall be subject to the approval of the City's Fire Chief as established by the Uniform Fire Code. A request to provide emergency vehicle aisle width less than 26 feet shall be considered upon the installation/provision of mitigation improvements approved by the City's Fire Chief.

44. Prior to submitting plans to the Building Department, a preliminary site plan shall be approved by the Fire Department for required access roadways and on-site fire hydrant locations. The site plan shall be drawn at a scale between 20 to 40 feet per inch. Include on plan all entrance gates that will be installed.

45. Knox boxes are required on all new construction. All entry gates shall also be equipped with Knox boxes or Knox key switches for power-activated gates.

46. Signs and markings required by the Fire Department shall be installed along the required Fire Department access roadways.

47. The applicant and/or developer shall apply for a permit with the Department of Fire-Rescue and comply with the requirements of Section 117.127 of the Santa Fe Springs Municipal Code, Criteria for Abandonment, prior to abandoning or re-abandoning any oil wells on-site.

48. A system for venting of abandoned oil wells over which there will be construction, in accordance with Section 117.130 of the Santa Fe Springs Municipal Code, shall be required. Plans for the venting system shall be submitted to the Department of Fire-Rescue prior to construction.

DEPARTMENT OF FIRE - RESCUE (ENVIRONMENTAL DIVISION):
(Contact: Tom Hall 562.868-0511 x3715)

49. Permits and approvals. The applicant and/or developer shall, at its own expense, secure or cause to be secured any and all permits or other approvals which may be required by the City and any other governmental agency prior to conducting environmental assessment or remediation on the property. Permits shall be secured prior to beginning work related to the permitted activity.

50. The applicant and/or developer shall submit plumbing plans to the Santa Fe Springs Department of Fire-Rescue Environmental Protection Division (EPD) and, if necessary, obtain an Industrial Wastewater Discharge Permit Application for generating, storing, treating or discharging any industrial wastewater to the sanitary sewer.

51. The applicant and/or developer shall provide a sampling plan to the Department of Fire-Rescue for active oil wells that will be abandoned prior to site development.

WASTE MANAGEMENT:
(Contact: Teresa Cavallo 562.868.0511 x7309)

52. The developer shall comply with Section 50.51 of the Municipal Code which prohibits any business or residents from contracting any solid waste disposal company that does not hold a current permit from the City.

53. All projects over $50,000 are subject to the requirements of Ordinance No. 914 to reuse or recycle 75% of the project waste. Contact the Environmental Consultant, Morgan McCarthy at (562) 432-3700 or (805) 815-2492.

54. The developer shall comply with Public Resource Code, Section 42900 et seq. (California Solid Waste Reuse and Recycling Access Act of 1991) as amended, which requires each development project to provide adequate storage area for the collection/storage and removal of recyclable and green waste materials.

PLANNING AND DEVELOPMENT DEPARTMENT:
(Contact: Laurel Reimer 562.868-0511 x7354)

55. Approval of Development Plan Approval Case Numbers 930, 931, 932 and 933 is contingent upon approval of Tentative Parcel Map Case No. 78232.

56. The owner/developer shall comply with the City's "Heritage Artwork in Public Places Program" in conformance with City Ordinance No. 1054.

57. The owner/developer shall be responsible for reviewing and/or providing copies of the required conditions of approval to his/her architect, engineer, contractor, tenants, etc. Additionally, the conditions of approval contained herein shall be made part of the construction drawings for the proposed development. *Construction drawings shall not be accepted for Plan Check without the conditions of approval incorporated into the construction drawings.*

58. The owner/developer shall indicated on the first page of the construction drawings that the subject property is located within the methane zone. Said indication shall be clearly printed with a minimum 12 point font size.

59. The owner/developer shall apply for a Well Review Report (report) through the Department of Conservation, Division of Oil, Gas, and Geothermal Resources (DOGGR). A copy of this report shall be provide to the Planning Department. If historic oil wells are identified on-site, well abandoned to current DOGGR standards may be required before a building permit can be issued.

60. The owner/developer shall apply for an Oilfield Site Plan Review through the Planning Department prior to issuance of a building permit.

61. To prevent the travel of combustible methane gas into any structure, all slab or foundation penetrations, including plumbing, communication and electrical penetrations, must be sealed with an appropriate material. In addition, underground electrical conduits penetrating the slab or foundation of the structure, shall comply with the National Electrical Code (NEC), replete with a seal-off device normally required for classified electrical installations, so as to prevent the travel of combustible methane gas into the structure through conduit runs. *Refer to California Electrical Code, Chapter 5, Sections 500 and 501.*

62. The owner/developer shall submit Mechanical plans that include a roof plan that shows the location of all roof mounted equipment. All roof-mounted mechanical equipment and/or duct work which projects above the roof or roof parapet of the proposed development and is visible from adjacent property or a public street shall be screened by an enclosure which is consistent with the architecture of the building and approved by the Director of Planning or designee.
    a. To illustrate the visibility of equipment and/or duct work, the following shall be submitted along with the Mechanical Plans:
        i. A roof plan showing the location of all roof-mounted equipment;
        ii. Elevations of all existing and proposed mechanical equipment; and
        iii. A line-of-sight drawing or a building cross-section drawing which shows the roof-mounted equipment and its relation to the roof and parapet lines.

    NOTE: line-of sight drawing and/or building cross section must be scaled.

63. The owner/developer shall submit a lighting program that is integrated into the overall site, landscape design and building design. Lighting shall be used to highlight prominent building features such as entries and other focal points. Up-lighting can also be used as a way to enhance the texture of plants and structures, to create a sense of height in a landscape design.

64. The owner/developer agrees and understands that any existing overhead utilities within the development shall be placed underground.

65. All fences, walls, gates and similar improvements for the proposed development shall be subject to the prior approval of the Fire Department and the Department of Planning and Development.

66. All approved outdoor trash enclosures shall be provided for the development subject to the approval of the Director of Planning or designee. The calculation to determine the required storage area shall be determine by the City Building Department.

67. All outdoor trash enclosures shall provide a solid roof cover.

68. All street-facing roof drains shall be provided along the interior walls and not along the exterior of the building.

69. The proposed development shall be constructed of quality material and any material shall be replaced when and if the material becomes deteriorated, warped, discolored or rusted.

70. Approved suite numbers/letters or address numbers shall be placed on the proposed building in such a position as to be plainly visible and legible from the street fronting the property. Said numbers shall contrast with their background. The size recommendation shall be 12" minimum.

71. The owner/developer shall submit a mailbox plan (locations and sizes) for all parcels prior to the issuance of building permits. The plan shall be approved by the Santa Fe Springs Post Office. The owner/developer shall submit to the City a written confirmation from the Santa Fe Springs Post Office that the mailbox locations are approved. The City shall review and approve the location plan to ensure adequate site distance and traffic safety measures are incorporated.

72. The Department of Planning and Development requires that the double-check detector assembly be placed as far back from the property line as practical, screened by shrubs or other materials, and painted forest green. All shrubs shall be planted a minimum distance of two (2) feet surrounding the detector assembly; however, the area in front of the OS and Y valves shall not be screened. The screening shall also only be applicable to the double-check detector assembly and shall not include the fire department connector (FDC). Notwithstanding, the Fire Marshall shall have discretionary authority to require the FDC to be located a minimum distance from the double-check detector assembly. The bottom of the valve shut off wheel shall be located a maximum of two (2) feet above ground.

73. Owner/developer shall submit for approval a detailed landscape and automatic irrigation plan pursuant to the Landscaping Guidelines of the City. Said landscape plan shall indicate the location and type of all plant materials, existing and proposed, and shall include 2 to 3 foot high berms (as measured from the parking lot grade elevation), shrubs designed to fully screen the interior yard and parking areas from public view, and minimum 24" box trees along the street frontage. *Said plans shall be consistent with AB 1881 (Model Water Efficient Landscape Ordinance).*

    NOTE: Staff shall not approve the landscaping and irrigation plan without first reviewing and approving the civil drawings, specifically as it pertains to the landscaping and irrigation plan (i.e., location and size of riprap, bio-swales, areas of infiltration trenches, etc.)

74. The landscaped areas shall be provided with a suitable, fixed, permanent and automatically controlled method for watering and sprinkling of plants. This operating sprinkler system shall consist of an electrical time clock, control valves, and piped water lines terminating in an appropriate number of sprinklers to insure proper watering periods and to provide water for all plants within the landscaped area. Sprinklers used to satisfy the requirements of this section shall be spaced to assure complete coverage of all landscaped areas. *Said plan shall be consistent with AB 1881 (Model Water Efficient Landscape Ordinance).*

75. Upon completion of the landscaping improvements, said landscaped areas shall be maintained in a neat, clean, orderly and healthful condition. This is meant to include proper pruning, mowing of lawns, weeding, removal of litter, fertilizing, and replacement of plants when necessary and the regular watering of all plantings.

76. The electrical plans, which show the location of electrical transformer(s), shall be subject to the approval of the Planning Department. Transformers shall not be located within the front yard setback area. The location of the transformer(s) shall be subject to the prior approval of the Director of Planning or designee. The electrical transformer shall be screened with shrubs consistent with Southern California Edison's Guidelines which requires three foot clearance on sides and back of the equipment, and eight foot clearance in front of the equipment. Additionally, the landscaping irrigation system shall be installed so that they do not spray on equipment. (A copy of the Guideline is available at the Planning Department.)

77. The applicant and/or developer shall not allow commercial vehicles, trucks and/or truck tractors to queue on Telegraph Road or Santa Fe Springs Road, use Telegraph Road or Santa Fe Springs Road as a staging area, or to back-up onto the street from the subject property.

78. All activities shall occur inside the buildings. No portion of the required off-street parking and driveway areas shall be used for outdoor storage of any type or for special-event activities, unless prior written approval is obtained from the Director of Planning, Director of Police Services and the Fire Marshall.

79. All parking stalls shall be legibly marked on the pavement. Additionally, all compact spaces shall be further identified by having the words "Compact" or comparable wording legibly written on the pavement, wheel stop or on a clearly visible sign.

80. The owner/developer shall provide a bulletin board, display case, or kiosk to display transportation information where the greatest number of employees are likely to see it. Information shall include, but is not limited to:
    1. Current maps, routes and schedules for public transit routes serving the site; and
    2. Telephone numbers for referrals on transportation information including numbers for the regional ridesharing agency and local transit operators; and
    3. Ridesharing promotional material supplied by commuter-oriented organizations; and
    4. Bicycle route and facility information, including regional/local bicycle maps and bicycle safety information; and
    5. A listing of facilities available for carpoolers, vanpoolers, bicyclists, transit riders and pedestrians at the site. This is required to both meet the requirements of Section 155.502 (D) of the Zoning Regulations and also a goal identified within the City's General Plan Circulation Element.

81. Preferential parking spaces shall be reserved for potential carpool/vanpool vehicles without displacing handicapped and customer parking needs. Vanpool space(s) shall

be legibly marked on the pavement or identified by a sign and also conveyed to employees through the required transportation information board. The preferential carpool/vanpool parking shall be identified on the site plan at the time of plan check submittal. This is required to both meet the requirements of Section 155.502 (D) of the Zoning Regulations and also a goal identified within the City's General Plan Circulation Element.

82. An area shall be designate for bicycle parking and bicycle racks shall be provided. Bike racks shall be provided to accommodate bicycles at a ratio of 4 bicycles for first 50,000 square feet and 1 bicycle for each additional 50,000 square feet. This is required to both meet the requirements of Section 155.502 (D) of the Zoning Regulations and also a goal identified within the City's General Plan Circulation Element.

83. There shall be a safe and convenient zone in which carpool/vanpool vehicles may deliver or board their passengers. Additionally, there shall be sidewalks or other designated pathways following direct and safe routes from external pedestrian circulation system to each building in the development and safe and convenience access from the external circulation system to bicycle parking facilities on-site. This is required to both meet the requirements of Section 155.502 (D) of the Zoning Regulations and also a goal identified within the City's General Plan Circulation Element.

84. Pursuant to the sign standards of the Zoning Regulations and related sign guidelines of the City of Santa Fe Springs, a comprehensive sign program for the development shall be prepared and submitted to the Director of Planning or designee for approval prior to obtaining a building permit for any signs related to the subject development. All signs throughout the subject site shall be installed in accordance with the approved comprehensive sign program for the subject development.

85. The Department of Planning and Development shall first review and approve all sign proposals for the development. The sign proposal (plan) shall include a site plan, building elevation on which the sign will be located, size, style and color of the proposed sign. All drawings shall be properly dimensioned and drawn to scale on 11" x 17" maximum-size paper. All signs shall be installed in accordance with the sign standards of the Zoning Ordinance and the Sign Guidelines of the City.

86. Prior to issuance of building permits, the owner/developer shall comply with the following conditions to the satisfaction of the City of Santa Fe Springs:

    a. Covenants.

        1. Owner/developer shall provide a written covenant to the Planning Department that, except as owner/developer may have otherwise disclosed to the City, Commission, Planning Commission or their employees, in writing, owner/developer has investigated the environmental condition of the property and does not know, or have reasonable cause to believe, that (a) any crude oil, hazardous substances or hazardous wastes, as defined in state and federal law, have been released, as that term is defined in 42 U.S.C. Section

9601 (22), on, under or about the Property, or that (b) any material has been discharged on, under or about the Property that could affect the quality of ground or surface water on the Property within the meaning of the California Porter-Cologne Water Quality Act, as amended, Water Code Section 13000, et seq

2. Owner/developer shall provide a written covenant to the City that, based on reasonable investigation and inquiry, to the best of owner/developer knowledge, it does not know or have reasonable cause to believe that it is in violation of any notification, remediation or other requirements of any federal, state or local agency having jurisdiction concerning the environmental conditions of the Property.

b. Owner/developer understands and agrees that it is the responsibility of the owner/developer to investigate and remedy, pursuant to applicable federal, state and local law, any and all contamination on or under any land or structure affected by this approval and issuance of related building permits. The City, Commission, Planning Commission or their employees, by this approval and by issuing related building permits, in no way warrants that said land or structures are free from contamination or health hazards.

c. Owner/developer understands and agrees that any representations, actions or approvals by the City, Commission, Planning Commission or their employees do not indicate any representation that regulatory permits, approvals or requirements of any other federal, state or local agency have been obtained or satisfied by the owner/developer and, therefore, the City, Commission, Planning Commission or their employees do not release or waive any obligations the owner/developer may have to obtain all necessary regulatory permits and comply with all other federal, state or other local agency regulatory requirements. Owner/developer, not the City, Commission, Planning Commission or their employees will be responsible for any and all penalties, liabilities, response costs and expenses arising from any failure of the owner/developer to comply with such regulatory requirements.

87. The owner/developer shall require and verify that all contractors and sub-contractors have successfully obtained a Business License with the City of Santa Fe Springs prior to beginning any work associated with the subject project. A late fee and penalty will be accessed to any contractor or sub-contractor that fails to obtain a Business License and a Building Permit final or Certificate of Occupancy will not be issued until all fees and penalties are paid in full. Please contact Cecilia Martinez, Business License Clerk, at (562) 868-0511, extension 7527 for additional information. A business license application can also be downloaded at www.santafesprings.org.

88. The Mitigation Monitoring Program, which was prepared for the proposed project and adopted by the Planning Commission upon completion of the Mitigated Negative Declaration, shall be made part of the conditions of approval for Development Plan Approval Case No. 930, 931, 932 and 933. The Mitigation Monitoring and Reporting Program is listed as an attachment to the staff report.

89. The owner/developer shall implement a dust control program for air quality control. The program shall ensure that a water vehicle for dust control operations is kept readily available at all times during construction. The developer shall provide the City Engineer and Building Official with the name, telephone number and e-mail address of the person directly responsible for dust control and operation of the vehicle.

90. During construction, the following information shall be made available on a sign posted at the main entrance(s) to the site:
    1. Name of the development/project.
    2. Name of the development company.
    3. Address or Address range for the subject site.
    4. 24-hour telephone number where someone can leave a message on a particular complaint (dust, noise, odor, etc.).

91. Prior to occupancy of the property/buildings, the owner/developer and/or his tenant(s), shall obtain a valid business license (AKA Business Operation Tax Certificate), and submit a Statement of Intended Use. Both forms, and other required accompanying forms, may be obtained at City Hall by contacting Cecilia Martinez at (562) 868-0511, extension 7527, or through the City's web site (www.santafesprings.org).

92. The development shall be built substantially in accordance with the plot plan, floor plan, and elevations submitted by the applicant and on file with the case. Any modification shall be subject to the review and approval of the Director of Planning or his/her designee.

93. The final site plan, floor plan and elevations of the proposed development and all other appurtenant improvements, textures and color schemes shall be subject to the final approval of the Director of Planning.

94. The owner/developer understands and agrees that if changes to the original plans (submitted and on file with the subject case) are required during construction, revised plans must be provided to the Planning Department for review and approval prior to the implementation of such changes. Please note that certain changes may also require approvals from other departments.

95. All other requirements of the City's Zoning Regulations, Building Code, Property Maintenance Ordinance, State and City Fire Code and all other applicable County, State and Federal regulations and codes shall be complied with.

96. Unless otherwise specified in the action granting Development Plan Approval, said approval which has not been utilized within a period of 24 consecutive months from the effective date shall become null and void. Also the abandonment or nonuse of a development plan approval and any privileges granted thereunder shall become null and void. However, an extension of time may be granted by Commission or Council action.

97. The applicant and owner/developer agrees to defend, indemnify and hold harmless the City of Santa Fe Springs, its agents, officers and employees from any claim, action or proceeding against the City or its agents, officers or employees to attack, set aside, void or annul an approval of the City or any of its councils, commissions, committees or boards arising from or in any way related to the all entitlements and approvals issued by the City in connection with the Project and from any CEQA challenges relating to the environmental review and determination for the Project, or any actions or operations conducted pursuant thereto. Should the City, its agents, officers or employees receive notice of any such claim, action or proceeding, the City shall promptly notify the applicant of such claim, action or proceeding, and shall cooperate fully in the defense thereof.

98. This approval is not effective until the applicant has completed and signed the signature element appearing at the bottom of the last page of these conditions, and returned the original completed and signed document to the City, confirming the applicant's understanding of these conditions and its willingness to accept and comply with them.

The applicant identified below hereby confirms (1) that it has reviewed and understands each of the foregoing conditions for Development Plan Approval Case Numbers 930-933, and (2) its willingness to accept and comply with them.

PUBLIC HEARING

Categorically Exempt - CEQA Guidelines Sections 15301, Class 1

Alcohol Sales Conditional Use Permit (CUP) Case No. 85

Request for approval of Alcohol Sales Conditional Use Permit Case No. 85 to allow the operation and maintenance of an alcoholic beverage use involving the warehousing and distribution of alcoholic beverages at Bay Cities Packaging, located at 9206 Santa Fe Springs Road, within the Heavy Manufacturing (M-2) Zone. (Bay Cities Packaging & Design)

RECOMMENDATIONS

- Open the Public Hearing and receive the staff report and any comments from the public regarding Alcohol Sales Conditional Use Permit (ASCUP) Case No. 85, and thereafter, close the Public Hearing; and
- Find and determine that the proposed project will not be detrimental to persons or properties in the surrounding area or to the City in general, and will be in conformance with the overall purpose and objective of the Zoning Ordinance and consistent with the goals, policies and program of the City's General Plan; and
- Find that the applicant's ASCUP request meets the criteria set forth in §§155.628 and 155.716 of the City's Zoning Ordinance, for the granting of a Conditional Use Permit; and
- Find and determine that pursuant to Section 15301, Class 1 (Existing Facility) of the California Environmental Quality Act (CEQA), the project is Categorically Exempt; and
- Recommend to the City Council the approval of Alcohol Sales Conditional Use Permit Case No. 85, subject to the conditions of approval as contained within Resolution No. 244-2023; and
- Adopt Resolution No. 244-2023, which incorporates the Planning Commission's findings and actions regarding this matter.

GENERAL INFORMATION

A. Applicant: Bay Cities Packaging & Design
9206 Santa Fe Springs Road
Santa Fe Springs, CA 90670

B. Property Owner:	Oltmans Investment Co. P.O. Box 985 Whittier, CA 90601
C. Subject Property:	9206 Santa Fe Springs Road Santa Fe Springs, CA 90670
D. Existing Zone:	Heavy Manufacturing (M-2)
E. General Plan:	Industrial
F. ABC License Type:	Type 18 Distilled Spirits Wholesaler
G. CEQA Status:	Categorically Exempt (Class 1)
H. APN:	8167-001-027

BACKGROUND

The Applicant, Bay Cities Packaging & Design has occupied the 6.46-acre property at 9206 Santa Fe Springs Road since November 1, 2021 under a lease agreement with Oltmans Investment Company. Bay Cities Packaging & Design is a leading designer and manufacturer of corrugated packaging and displays for several retail products which includes cosmetics, tools, electronics, food, and special promotional products. Their display/packaging products can be seen in stores such as Walmart, Kroger, Target, Costco, and others.

In addition to the listed products, Bay Cities Packaging & Design is proposing to package alcoholic beverages at their Santa Fe Springs site. Because the activities will involve on-site storage of alcoholic beverages, the Applicant is required to comply with Ordinance No. 834 pertaining to alcoholic beverage uses.

City Ordinance No. 834, approved by the City Council on March 10, 1994, added Section 155.628 to the City Code requiring all businesses engaged in the sale, storage or manufacturing of any type of alcoholic beverage to apply for and be granted a valid Alcohol Sales Conditional Use Permit (ASCUP).

In accordance with Section 155.628, the Applicant is requesting approval of Alcohol Sales Conditional Use Permit Case No. 85 to allow the operation and maintenance of an alcoholic beverage storage use. Concurrent with this request, the applicant is also in the preliminary review process of adding the subject location to their valid Type 18 Distilled Spirits Wholesaler License from the State Alcohol Beverage Commission ("ABC"). Staff does not foresee that the ABC License addition will be denied to the Applicant. Nevertheless, should ASCUP Case No. 85 be approved and the ABC license addition be denied, the Applicant will have up to one-year to make alternative arrangements to satisfy ABC's requirements and obtain the necessary licenses,

otherwise this Permit will become null and void pursuant to Section 155.811 of the City Code.

STREETS AND HIGHWAYS

The subject site has street access from Santa Fe Springs Road. Santa Fe Springs Road is designated as a Major-Highway on the Circulation Element of the City's General Plan.

ZONING AND LAND USES

Developed in 1986, the property maintains a 151,397 warehouse tilt-up building with office space to the front and a loading dock to the rear. The property as well as the surrounding properties are within the Heavy Manufacturing (M-2) Zone. The properties surrounding the property are also developed with warehouse industrial buildings and office buildings.

ENVIRONMENTAL DOCUMENTS

Considering that the building and property that the Applicant occupies is fully built and will not have any alterations, Staff finds and determines that this proposed Alcohol Sales Conditional Use Permit request before the Planning Commission is a categorically-exempt project pursuant to Section 15301 (Class 1, Existing Facilities) of the California Environmental Quality Act (CEQA); consequently, no other environmental documents are required by law. Additionally, the project site is not listed on the Hazardous Waste and Substance Site List (also known as the Cortese List) and is therefore not subject to the requirements set forth in Government Code Section 65962.5.

LEGAL NOTICE OF PUBLIC HEARING

This matter was set for Public Hearing in accordance with the requirements of Section 65090 and 65091 of the State Planning, Zoning and Development Laws and the requirements of Sections 155.860 through 155.864 of the City's Municipal Code.

Legal notice of the Public Hearing for the proposed Alcohol Sales Conditional Use Permit was sent by first class mail to all property owners whose names and addresses appear on the latest County Assessor's Roll within 500 feet of the exterior boundaries of the subject property on August 3, 2023. The legal notice was also posted in Santa Fe Springs City Hall, the City Library and Town Center on August 3, 2023, as required by the State Zoning and Development Laws and by the City's Zoning Regulations. A Notice was also published in the Whittier Daily Newspaper on August 3, 2023. Staff will report any inquiries received for this matter at the time of the Commission's meeting.

ZONING ORDINANCE REQUIREMENTS

Section 155.628, regarding the warehousing, sale or service of alcoholic beverages, states the following:

"A Conditional Use Permit shall be required for the establishment, continuation or enlargement of any retail, commercial, wholesale, warehousing or manufacturing business engaged in the sale, storage or manufacture of any type of alcoholic beverage meant for on or off-site consumption. In establishing the requirements for such uses, the City Planning Commission and City Council shall consider, among other criteria, the following":

a. **Conformance with parking regulations**. *The subject property was built in 1986 in accordance with the City's Development Standards. Upon completion on-site parking spaces were provided and continue to be maintained in compliance with Chapter 155 Section 155.480.*

b. ***Control of vehicle traffic and circulation***. *Unobstructed on-site vehicular circulation is available on the property. One-driveway is provided on Santa Fe Springs Road for ingress and egress; the driveway is shared by the passenger vehicles and the diesel trucks serving the business.*

c. **Hours and days of operation**. *The applicant has noted that the hours of operation will be conducted Monday through Friday from 8:00 a.m. to 5:00 p.m.*

d. **Security and/or law enforcement plans**. *A security plan will be required as part of the conditions of approval.*

e. **Proximity to sensitive and/or incompatible land uses, such as schools, religious facilities, recreational or other public facilities attended or utilized by minors**. *The subject site is located approximately one and a half miles walking distance to St. Paul High School located at 9635 Greenleaf Avenue, and one and a quarter miles walking distance to Whittier Union District's Adult School located at 9401 Painter Avenue. The facility will not be maintaining an on-site retail element at the location and all alcohol beverages will be secured in a locked areas. Consequently, Staff believes that the proposed alcoholic beverage storage use will not have an impact to sensitive used considering its distance and the described on-site activities.*

f. **Proximity to other alcoholic beverage uses to prevent the incompatible and undesirable concentration of such uses in an area**. *The proposed alcoholic beverage use will not be permitted to have any on-site consumption or on-site retail sales, and the business is not planning on conducting these activities. As a result, staff does not feel that the alcohol beverage warehousing and distribution activities will have a negative impact and/or create or contribute an undesirable concentration of alcoholic beverages sales to the general area.*

g. **Control of noise, including noise mitigation measures**. *All activities will be conducted indoors. Noise control measures or mitigation measures to minimize noise are not foreseen as a requirement at this time. It should be noted that the City Code has in place maximum allowable ambient noise requirements, all land use activities are required to operate under those requirements.*

h. **Control of littering, including litter mitigation measures**. *As part of the Conditions of Approval and pursuant to the City's Property Nuisance Ordinance, the applicant is required to maintain the property free of all trash and debris.*

i. **Property maintenance.** *As part of the conditions of approval, the applicant is required to maintain the property in compliance with the City's Public Nuisance Ordinance. It should be noted that the business contracts with an independent contractor to maintain the grounds on weekly basis.*

j. **Control of public nuisance activities, including, but not limited to, disturbance of the peace, illegal controlled substances activity, public drunkenness, drinking in public, harassment of passersby, gambling, prostitution, sale of stolen goods, public urination, theft, assaults, batteries, acts of vandalism, loitering, curfew violations, sale of alcoholic beverages to a minor, lewd conduct or excessive police incident responses resulting from the use**. *The subject proposed alcohol warehouse and distribution facility is a low-key operation providing packaging services to established businesses. Consequently, Staff does not foresee that the business or its respective activities will generate any of the listed public nuisances. Nevertheless, a compliance review will be conducted within the first year from the approval of this permit, and every five years thereafter. If any of the listed items occur, and if the applicant is unresponsive to address them, staff has the authority to bring this matter back to the Commission with a request to revoke the Permit.*

CALLS FOR SERVICE

Whittier Police calls for service were reviewed for the location. Staff found that the calls for service appear to reflect activities that were not generated as a result of the operation or its on-going activities.

STAFF COMMENTS

Staff finds that the proposed alcohol beverage activities will not have a negative impact to the overall general area and the use is consistent with the warehouse and office activities already present in the general area. Moreover, Staff believes that the business along with the alcohol storage activities will also have minimal impacts to the area if it operates in compliance with the City's Municipal Codes, Conditions of Approval, and with the Regulations imposed by ABC.

Staff is recommending approval of the Alcohol Sales Conditional Use Permit Case No. 85 subject to the conditions of approval set forth herein. Staff is also recommending a compliance review report of this Permit within one year from the approval date by the City Council, and subsequent compliance reviews every five-years thereafter.

CONIDITONS OF APPROVAL

Conditions of Approval are attached to Resolution No. 244-2023 as "Exhibit A".

ALCOHOL SALES CONDITIONAL USE PERMIT CASE NO. 85

Bay Cities
Packaging and Design
9206 Santa Fe Springs Road
Santa Fe Springs, CA 90670

CITY OF SANTA FE SPRINGS
RESOLUTION NO. 244-2023

A RESOLUTION OF THE PLANNING COMMISSION OF THE CITY OF SANTA FE SPRINGS REGARDING ALCOHOL SALES CONDITIONAL USE PERMIT CASE NO. 85

WHEREAS, a request was filed for an Alcohol Sales Conditional Use Permit Case No. 85 to allow the operation and maintenance of an alcoholic beverage use involving the warehousing and distribution of alcoholic beverages at Bay Cities Packaging, located at 9206 Santa Fe Springs Road, within the Heavy Manufacturing (M-2) Zone; and

WHEREAS, the subject property is identified as Accessor's Parcel Number 8167-001-027, as shown in the latest rolls of the Los Angeles County Office of the Assessor; and

WHEREAS, the property owner is Oltmans Investment Company, LLC; and

WHEREAS, the proposed request is categorically-exempt project pursuant to Section 15301 (Class 1, Existing Facilities) of the California Environmental Quality Act (CEQA); consequently, no other environmental documents are required by law; and

WHEREAS, the City of Santa Fe Springs Department of Police Services on August 3, 2023, published a legal notice in the *Whittier Daily News,* a local paper of general circulation, indicating the date and time of the public hearing, and also mailed said public hearing notice on August 3, 2023, to each property owner within a 500 foot radius of the project site in accordance with state law; and

WHEREAS, the City of Santa Fe Springs Planning Commission has considered the application, the written and oral staff report, the General Plan and Zoning of the subject property, the testimony, written comments, or other materials presented at the Planning Commission Meeting on August 14, 2023, concerning Alcohol Sales Conditional Use Permit Case No. 85.

NOW, THEREFORE, be it RESOLVED that the PLANNING COMMISSION of the CITY OF SANTA FE SPRINGS does hereby RESOLVE, DETERMINE and ORDER AS FOLLOWS:

SECTION I. ENVIRONMENTAL FINDINGS AND DETERMINATION

The request of Alcohol Sales Conditional Use Permit Case No. 85 is considered a project under the California Environmental Quality Act (CEQA) and as a result, the project is subject to the City's environmental review process. Staff finds and determines that because the building is now built and the establishment consists of an approved warehouse and distribution business, this proposed Alcohol Sales Conditional Use Permit request before the Planning Commission is a categorically-exempt project pursuant to Section

15301 (Class 1, Existing Facilities) of the California Environmental Quality Act (CEQA); consequently, no other environmental documents are required by law.

SECTION II. COMMISSION CONSIDERATION

Pursuant to Section 155.628 of the Zoning Regulations, the Planning Commission has considered the criteria in approving Alcohol Sales Conditional Use Permit Case No. 85 and finds that the proposal will not be detrimental to persons or property in the immediate vicinity and will not have an adverse effect on the City in general.

SECTION V. PLANNING COMMISSION ACTION

That the Planning Commission hereby adopt Resolution 244-2023 and to recommend approval of Alcohol Sales Conditional Use Permit Case No. 85 to the City Council, subject to the attached conditions hereby attached as Exhibit A, and find and determine that the proposed project is a categorically-exempt project pursuant to Section 15301 (Class 1, Existing Facilities) of the California Environmental Quality Act (CEQA); consequently, no other environmental documents are required by law.

ADOPTED and APPROVED this 14th day of August 2023 BY THE PLANNING COMMISSION OF THE CITY OF SANTA FE SPRINGS.

_____
Francis Carbajal, Chairperson

ATTEST:

_____
Teresa Cavallo, Planning Secretary

EXHIBIT – A

CONDITIONS OF APPROVAL

1. That if the State Alcohol Beverage Commission (ABC) does not grant the applicant's request to add the subject location to an existing Type 18 Distilled Spirits Wholesaler License, the Applicant will be provided one-year to reapply otherwise this Permit will become null and void.

2. That the building, including any lighting, fences, walls, cabinets, and poles shall be maintained in good repair, free from trash, debris, litter and graffiti and other forms of vandalism. Any damage from any cause shall be repaired within 72 hours of occurrence, weather permitting, to minimize occurrences of dangerous conditions or visual blight. Paint utilized in covering graffiti shall be a color that matches, as closely possible, the color of the existing and/or adjacent surfaces.

3. That the applicant shall be responsible for maintaining control of litter, debris, boxes, pallets and trash on the subject property, and shall implement a daily clean-up program to maintain the leased area clean and orderly.

4. That alcoholic beverages shall not be sold to the general public from the subject site.

5. That it shall be unlawful to maintain on the premises any alcoholic beverages other than the alcohol beverages which the licensee is authorized to store and/or distribute under their Type 18 License (Distilled Spirits Wholesaler).

6. That alcoholic beverages shall be shipped to the Applicant's customer by the use of commercial trucks and/or licensed commercial transportation companies and not by passenger-type vehicles or domestic type vehicles.

7. That the required off-street parking areas shall not be encroached on, reduced or used for outdoor storage of trucks, trailers, equipment or any other related material. Overnight parking of trucks and trailers associated with the business are exempt from this condition.

8. That the applicant and/or his employees shall prohibit the public consumption of alcoholic beverages on the subject property at all times.

9. That this permit is contingent upon the approval by the Department of Police Services of a security plan that, within thirty (30) days of the effective date of this approval, shall be submitted by the applicant and shall address the following for the purpose of minimizing risks to the public health, welfare and safety:

    (A) A description of crime prevention barriers in place at the subject premises, including, but not limited to, placement of signage, landscaping, ingress and egress controls, security systems and site plan layouts;

(B) A description of how the permittee plans to educate employees on their responsibilities, actions required of them with respect to enforcement of laws dealing with the sale of alcohol to minors and the conditions of approval set forth herein;

(C) A business policy requiring employees to notify the Police Services Center of any potential violations of the law or this Conditional Use Permit occurring on the subject premises and the procedures for such notifications.

(D) The City's Director of Police Services may, at his discretion, require amendments to the Security Plan to assure the protection of the public's health, welfare and safety.

10. That the applicant shall, at all times, maintain in working order an alarm system and/or service that notifies the Whittier Police Department immediately if a breach occurs.

11. That the owner, corporate officers and managers shall cooperate fully with law enforcement personnel, or their representatives, and shall not obstruct or impede their entrance into the licensed premises while in the course of their official duties.

12. That in the event the owner(s) intend to sell, lease or sublease the subject business operation or transfer the subject Permit to another party or licensee, the Director of Police Services shall be notified in writing of said intention not less than (60) days prior to signing of the agreement to sell or sublease.

13. That Alcohol Sales Conditional Use Permit Case No. 85 shall be subject to a compliance review within one year, from the date of approval by the City Council, to ensure that the alcohol sales activity are still operating in strict compliance with the original conditions of approval. Thereafter, a compliance review shall be conducted every five years if the Applicant continues to maintain the premises in full compliance with these Conditions and all applicable codes, regulations and state laws.

14. That all other applicable requirements of the City Zoning Ordinance, Uniform Building Code, Uniform Fire Code, the determinations of the City and State Fire Marshall, the security plan as submitted under Condition No. 9 and all other applicable regulations shall be strictly complied with.

15. That Alcohol Sales Conditional Use Permit Case No. 85 shall not be valid until approved by the City Council and shall be subject to any other conditions the City Council may deem necessary to impose.

16. That it is hereby declared to be the intent that if any provision of this Permit is violated or held to be invalid, or if any law, statute or ordinance is violated, the Permit shall be subject to the revocation process pursuant to Sections 155.810-155.814 of the Santa Fe Springs Municipal Code.

PUBLIC HEARING

Categorically Exempt - CEQA Guidelines Section 15301, Class 1

Conditional Use Permit Case No. 552-5

A request for a ten-year permit extension to allow the ongoing operation and maintenance of an existing 60'-0" ft. high wireless telecommunications facility (mono-pole) and related unmanned equipment room at 8923 Pioneer Boulevard, within the M-2, Heavy Manufacturing, Zone. (Network Conex on behalf of Crown Castle)

RECOMMENDATIONS

- Open the Public Hearing and receive the written and oral staff report and any comments from the public regarding Conditional Use Permit Case No. 552-5, and thereafter, close the Public Hearing; and
- Find and determine that the proposed project will not be detrimental to persons or properties in the surrounding area or to the City in general, and will be in conformance with the overall purpose and objectives of the Zoning Ordinance and consistent with the goals, policies and programs of the City's General Plan; and
- Find that the applicant's CUP request meets the criteria set forth in §155.716 of the City's Zoning Ordinance and §157.05 of the City's Municipal Code, for the granting of a Conditional Use Permit related to a wireless telecommunications facility; and
- Find and determine that pursuant to Section 15301, Class 1 (Existing Facilities), of the California Environmental Quality Act (CEQA), this project is Categorically Exempt; and
- Approve Conditional Use Permit Case No. 552-5, subject to the conditions of approval as contained within Resolution No. 245-2023 and
- Adopt Resolution No. 245-2023 which incorporates the Planning Commission's findings and actions regarding this matter.

E.	Existing Zone:	M-2 (Heavy Manufacturing) Zone
F.	General Plan:	Industrial
G.	CEQA Status:	Categorically Exempt (Class 1)
H.	Staff Contact:	Claudia Jimenez, Assistant Planner claudiajimenez@santafesprings.org (562) 868-0511 x7356

LOCATION AND BACKGROUND

The subject mono-pole wireless telecommunication facility located at 8923 Pioneer Boulevard (APN: 8177-029-908) was initially constructed and approved in 1998 under Conditional Use Permit (CUP) Case No. 552. Since the original approval length of ten (10) years has lapsed, the subject CUP is being reconsidered, in accordance with the provisions set forth in Ordinance No. 1090. The mono-pole is currently owned and managed by Crown Castle and operated by T-Mobile West LLC.

Network Connex, on behalf of Crown Castle, is seeking approval for a ten (10) year CUP extension to allow the ongoing operation and maintenance of an existing 60'-0" ft. high wireless telecommunications facility (mono-pole).

MUNICIPAL CODE REQUIREMENTS

The procedures set forth in §155.716 of the City's Zoning Ordinance and §157.04 of the City's Municipal Code state that all wireless telecommunications facilities are subject to the granting of a Conditional Use Permit which is reviewed and considered by the City's Planning Commission.

STREETS AND HIGHWAYS

The subject property has frontage on Pioneer Boulevard. Pioneer Boulevard is designated as a "Major Arterial" within the Circulation Element of the City's General Plan.

ZONING & GENERAL PLAN LAND USE DESIGNATION

The subject property is zoned M-2 (Heavy Manufacturing). The property also has a General Plan Land Use designation of Industrial. The zoning, General Plan, and land use of the surrounding properties are as follows:

Surrounding Zoning, General Plan Designation, Land Use			
Direction	**Zoning District**	**General Plan**	**Land Use (Address/Use)**
North	RR, Railroad M-2, Heavy Manufacturing	Railroad Right-of-Way Industrial	Southern Pacific Railroad right-of-way Vacant
South	M-2, Heavy Manufacturing	Industrial	Vacant
East	N/A – I-605 Freeway R-3-PD, Multiple-Family Residential – Planned Development	N/A - Out of City Boundaries (Freeway) Medium Density Residential	San Gabriel River Interstate 605 Pioneer Gardens Apartments 9039 Pioneer Boulevard
West	N/A	N/A - Out of City Boundaries (Rivers and Channels)	San Gabriel River Flood Control Channel

GENERAL PLAN CONSISTENCY ANALYSIS

Approval of the proposed Conditional Use Permit would promote several specific General Plan goals and policies as described in “Table 1” below:

Table 1

General Plan Element	***Policy***	**Project Consistency**
Land Use	**LU-4.8: Experiential Enhancement:** Encourage and support the use of technology to enhance internet connectivity and communications.	The ongoing operation to the facility would provide continued enhanced wireless connectivity for business and residential residents alike.

	LU-6.2: Neighborhood Improvements: Continue to improve residential neighborhoods by integrating green infrastructures and communications technology.	The ongoing operation will continue to serve surrounding residential neighborhoods in addition to industrial and commercial areas in the vicinity.

LEGAL NOTICE OF PUBLIC HEARING

This matter was set for Public Hearing in accordance with the requirements of Sections 65090 and 65096 of the State Planning, Zoning, and Development Laws and the requirements of Sections 155.860 through 155.864 of the City's Municipal Code.

Legal notice of the Public Hearing for the proposed project was sent by first class mail to all property owners whose names and addresses appear on the latest County Assessor's Roll within 500 feet of the exterior boundaries of the subject property on August 3, 2023. The legal notice was also posted in Santa Fe Springs City Hall, the City Library, and the City's Town Center kiosk on August 3, 2023. Said notice was also published in a newspaper of general circulation (Whittier Daily News) on August 3, 2023, as required by the State Zoning and Development Laws and by the City's Zoning Ordinance. As of the date of this report, staff has not received any comments and/or inquiries regarding the proposed project.

ENVIRONMENTAL REVIEW

Staff finds that the subject wireless telecommunications facility project meets the criteria for a Categorical Exemption pursuant to the California Environmental Quality Act (CEQA), Section 15301, Class 1 (Existing Facilities). The proposed project involves the request for a ten-year permit extension to allow the ongoing operation and maintenance of an existing 60'-0" ft. high wireless telecommunications facility (mono-pole) and related unmanned equipment room, no modification to the existing use is being proposed. Therefore, no further environmental documents are required. Lastly, the project site is not listed on the Hazardous Waste and Substance Site List (Cortese List) as set forth in Government Code Section 65962.5. If the commission agrees, staff will file a Notice of Exemption (NOE) with the Los Angeles County Clerk, finding the proposed project is Categorically Exempt pursuant to Sections 15301, Class 1 (Existing Facilities) of the California Environmental Quality Act.

AUTHORITY OF PLANNING COMMISSION

The Planning Commission has the authority, subject to the procedures set forth in the City's Zoning Ordinance, to grant a Conditional Use Permit when it has been found that said approval is consistent with the requirements, intent, and purpose of the City's Zoning Ordinance. The Commission may grant, conditionally grant, or deny a conditional use permit based on the evidence submitted and upon its study and

knowledge of the circumstances involved, or it may require submission of a revised development plan if deemed necessary to preserve the general appearance and welfare of the community.

CRITERIA FOR GRANTING A CONDITIONAL USE PERMIT

The Commission should note that as per Section 155.716 of the City's Zoning Ordinance, before granting a Conditional Use Permit, the Commission shall give consideration to the following:

A) Satisfy itself that the proposed use will not be detrimental to persons or property in the immediate vicinity and will not adversely affect the city in general.

B) Give due consideration to the appearance of any proposed structure and may require revised architectural treatment if deemed necessary to preserve the general appearance and welfare of the community.

For Conditional Use Permits related to a wireless telecommunication facility, as per Section 157.05, the Commission shall also give due consideration to the following:

1. *The proposed wireless telecommunications facility will not be detrimental to persons or property in the immediate vicinity and will not adversely affect the city in general.*

2. *The proposed wireless telecommunications facility has been designed to achieve compatibility with the community to the maximum extent reasonably feasible.*

3. *The location of the wireless telecommunications facility on alternative sites will not increase community compatibility or is not reasonably feasible.*

4. *The proposed wireless telecommunications facility is necessary to close a significant coverage gap, increase network capacity, or maintain service quality and is the least intrusive means of doing so.*

STAFF CONSIDERATIONS

Based on the findings set forth within Resolution -2023 (see attachment 5), staff finds that the applicant's request meets the criteria set forth in §155.716 & §157.05 for the granting of a Conditional Use Permit related to a wireless telecommunication facility. Staff is, therefore, recommending approval of Conditional Use Permit Case No. 552-5, subject to the conditions of approval.

CONDITIONS OF APPROVAL

Conditions of approval for CUP Case No. 552-5 are attached to Resolution No. 245-2023 as Exhibit A.

Resolution No. 245-2023
Exhibit A – Conditions of Approval

CITY OF SANTA FE SPRINGS
RESOLUTION NO. 245-2023
A RESOLUTION OF THE PLANNING COMMISSION OF THE CITY OF SANTA FE SPRINGS REGARDING CONDITIONAL USE PERMIT CASE NO. 552-5

WHEREAS, a request was filed for Conditional Use Permit Case No. 552-5, a request for a ten-year permit extension to allow the ongoing operation and maintenance of an existing 60'-0" ft. high wireless telecommunications facility (mono-pole) and related unmanned equipment room located at 8923 Pioneer Boulevard, within the M-2, Heavy Manufacturing, Zone.

WHEREAS, The subject property is located east of Pioneer Boulevard and the I-605 Freeway, with an Assessor's Parcel Number of 8177-029-908, as shown in the latest rolls of the Los Angeles County Office of the Assessor; and

WHEREAS, the property owner is City of Santa Fe Springs, 11710 Telegraph Road, Santa Fe Springs, CA 90670; and

WHEREAS, the wireless telecommunications facility owner is Crown Castle, Jim Lee, 200 Spectrum, Suite 1700, Irvine, CA 92618; and

WHEREAS, the wireless telecommunications facility carrier is T-Mobile, 4100 Guardian Street. Suite # 101, Simi Valley, CA 93063; and

WHEREAS, based on the information received from the applicant and the provided staff reports, the Planning Commission has found and determined that the proposed project meets the criteria for a Categorical Exemption, pursuant to the California Environmental Quality Act (CEQA), Section 15301-Class 1 (Existing Facilities); and

WHEREAS, the City of Santa Fe Springs Planning and Development Department on August 3, 2023 published a legal notice in the *Whitter Daily News,* a local paper of general circulation, indicating the date and time of the public hearing. Said notice was also sent by first class mail on August 3, 2023 to all property owners whose names and addresses appear on the latest County Assessor's Roll within 500 feet of the exterior boundaries of the subject property and also posted at City Hall, the Town Center Hall kiosk, and City Library on August 3, 2023; and

WHEREAS, the City of Santa Fe Springs Planning Commission has considered the application, the written and oral staff report, the General Plan and zoning of the subject property, the testimony, written comments, or other materials presented at the Planning Commission meeting on August 14, 2023 concerning Conditional Use Permit Case No. 552-5.

NOW, THEREFORE, be it RESOLVED that the PLANNING COMMISSION of the CITY OF SANTA FE SPRINGS does hereby RESOLVE, DETERMINE and ORDER AS FOLLOWS:

SECTION I. ENVIRONMENTAL FINDINGS AND DETERMINATION

Pursuant to Section 15301, Class 1 (Existing Facilities) of the California Environmental Quality Act (CEQA), the Planning Commission hereby finds and determines that the project is categorically exempt, in that the project involves only minor modifications of existing equipment related to an existing wireless telecommunications facility for technology related upgrades and no expansion of the subject facility is proposed. Therefore, it has been determined additional environmental analysis is not necessary to meet the requirements of CEQA.

Lastly, the subject site is not listed on the Hazardous Waste and Substance Site (Cortese List) as set forth in Government Code Section 65962.5 and is not identified on the EPA's database (Environfacts).

SECTION II. CONDITIONAL USE PERMIT FINDINGS

Pursuant to Section 155.716 of the Zoning Ordinance, in studying any application for a Conditional Use Permit, the Commission shall consider the following:

A) Satisfy itself that the proposed use will not be detrimental to persons or property in the immediate vicinity and will not adversely affect the city in general.

The mono-pole wireless telecommunications facility was initially constructed and approved in 1998 under Conditional Use Permit Case (CUP) 552, which allowed the establishment, operation, and maintenance of an approximately 60'-0' ft. high wireless telecommunication facility (mono-pole) and associated equipment shelter. The Conditional Use Permit request is to extend the time period of the existing wireless facility for an additional (10) years.

The existing wireless telecommunications facility is unmanned and does not adversely affect the health, peace, comfort, or welfare of persons working or residing in the surrounding area. In addition, the wireless telecommunications facility does not add to the ambient noise level, generate any obnoxious odors or solid waste, or generate additional vehicular traffic.

If the applicant or facility owner operates in strict compliance with the conditions of approval, the wireless telecommunications facility will be harmonious with adjoining properties and surrounding land uses. Therefore, the Planning Commission finds that the wireless telecommunications facility will not be detrimental to persons or property in the immediate vicinity and will not adversely affect the city in general.

B) Give due consideration to the appearance of any proposed structure and may require revised architectural treatment if deemed necessary to preserve the general appearance and welfare of the community.

The Conditional Use Permit request is to reconsider the existing permit, and specifically, the term of the existing wireless telecommunications facility. By

separation of the I-605 freeway, the wireless telecommunications facility is setback approximately 1,051 feet back from Pioneer Avenue. The equipment associated with the facility is located within an equipment shelter, which completely screens the cabinets from view of the San Gabriel River Trail. The facility's setback, location of the related equipment, and stealth appearance help minimize the visual impact. Therefore, the Planning Commission finds that the continued use of the existing monopole, including the minor changes involved, will continue to maintain the general appearance and welfare of the community.

In addition, pursuant to §157.05 of the City's Code of Ordinances, the Commission shall also take into consideration the following factors:

A) *The proposed wireless telecommunications facility will not be detrimental to persons or property in the immediate vicinity and will not adversely affect the city in general.*

The wireless telecommunications facility has been in operation for nearly 25 years without incident. Aside from periodic visits for maintenance purposes, the monopole operates with almost no noticeable impact on adjacent properties and the community in general. Therefore, if the wireless telecommunications facility continues to operate in strict compliance with the conditions of approval, it will not be detrimental to persons or property in the immediate vicinity and will not adversely affect the city in general.

B) *The proposed wireless telecommunications facility has been designed to achieve compatibility with the community to the maximum extent reasonably feasible.*

The subject wireless telecommunications facility is located between the San Gabriel River and the I-605 freeway on an undeveloped area of land. Properties to the north and south are also considered vacant and the nearest development is on either side of the San Gabriel River or the I-605 freeway. The wireless telecommunications facility location and overall design successfully achieves compatibility with the community to the maximum extent reasonably feasible.

C) *The location of the wireless telecommunications facility on alternative sites will not increase community compatibility or is not reasonably feasible.*

The location of the facility will remain unchanged and no modifications to the site are proposed. Alternative sites were not considered for this request because it would not be feasible to ask the applicant to relocate a wireless telecommunications facility that is existing and has proven to be compatible with the community. The applicant is continuing the operation of an existing wireless telecommunications facility that has proven to be compatible with the community over its 25 years of operation.

D) *The proposed wireless telecommunications facility is necessary to close a significant coverage gap, increase network capacity, or maintain service quality and is the least*

intrusive means of doing so.

The continued operations of the existing wireless telecommunications facility will provide enhanced services, capacity, and data services to the surrounding community. Continuing the use of the existing facility, versus constructing a new facility, is the least intrusive means of providing network coverage and capacity.

SECTION III. PLANNING COMMISSION ACTION

The Planning Commission hereby adopts Resolution No. 245-2023 to determine that the proposed Conditional Use Permit is Categorically Exempt, pursuant to the California Environmental Quality Act (CEQA) Section 15301, Class 1 (Existing Facilities), and to approve Conditional Use Permit Case No. 552-5 to allow the ongoing operation and maintenance of an existing wireless telecommunications facility (60'-0" tall mono-pole) on property located at 8923 Pioneer Boulevard (APN: 8177-029-908), subject to conditions attached hereto as Exhibit A.

ADOPTED and APPROVED this 14th day of August 2023 BY THE PLANNING COMMISSION OF THE CITY OF SANTA FE SPRINGS.

_____
Francis Carbajal, Chairperson

ATTEST:

_____
Teresa Cavallo, Planning Secretary

CONDITIONS OF APPROVAL
Conditional Use Permit Case No. 552-5
8923 Pioneer Boulevard
APN: 8177-031-019

NOTE: Changes to existing conditions are provided as a strike-through or bolded lettering.

ENGINEERING/PUBLIC WORKS DEPARTMENT
(Contact: Alex Flores 562-868-0511 x 7507)

1. That a grading plan shall be submitted showing elevations and drainage pattern of the site. The improvements shall not impede, obstruct, or pond water onsite. The grading plan shall be submitted for drainage approval to the City of Engineer. The owner shall pay drainage review fees in conjunction with this submittal. **(Satisfied)**

POLICE SERVICES DEPARTMENT:
(Contact: Luis Collazo 562.868.0511 x 3335)

2. That the proposed building and its related equipment shall be checked for graffiti and possible damage on a regular basis. Graffiti shall be removed within 72 hours from when it is reported. **(Ongoing)**

3. That the applicant shall provide a contact name and telephone number to the Director of Police Services for a person or service responsible in removing any graffiti. **(Satisfied)**

DEPARTMENT OF FIRE - RESCUE (ENVIRONMENTAL DIVISION)
(Contact: Eric Scott 562.868-0511 x3812)

4. **Permits and approvals. That the applicant shall, at its own expense, secure or cause to be secured any and all permits or other approvals which may be required by the City and any other governmental agency prior to conducting environmental assessment or remediation on the property. Permits shall be secured prior to beginning work related to the permitted activity. (New)**

5. **That That the applicant shall comply with all Federal, State and local requirements and regulations included, but not limited to, the Santa Fe Springs City Municipal Code, California Fire Code, Certified Unified Program Agency (CUPA) programs, the Air Quality Management District's Rules and Regulations and all other applicable codes and regulations. (New)**

PLANNING AND DEVELOPMENT DEPARTMENT:
(Contact: Claudia Jimenez 562-868-0511 x7356)

6. The diameter of the proposed antenna arrays shall not exceed the diameter of existing antenna arrays.**(Ongoing)**

7. The proposed fencing shall be at minimum a 10 foot tall wrought iron fence that will deter graffiti and be more consistent in height with the fencing at the monopole that is located just south of the wireless facility. Final design and height for the fencing

shall be reviewed and approved by the Director of Planning. **(Satisfied)**

8. That the applicant shall obtain approval of a modified lease agreement with the property owner (City of Santa Fe Springs) for any future proposed expansion to the existing telecommunication facility. Said modified agreement shall be obtained prior to the issuance of building permits. **(Revised-Ongoing)**

9. That the applicant shall re-paint entire pole/antennas, to ensure the monopole is provided with a uniform color and ensuring the new and old cannot be differentiated, if needed. **(Revised-Ongoing)**

10. That prior to issuance of building permits, the applicant shall make the following correction to page T01: Under Project information section, the current zone should be M-2, Heavy Manufacturing, zone **(Satisfied)**

11. That all projects over $50,000 are subject to the requirements of ~~Chapter 50~~ Ordinance No. 914 to reuse or recycle 75% of the project waste. For more information, please contact the City's ~~Environmental Consultant~~ Recycling Coordinator, MuniEnvironmental, at (562) 432-3700 or info@MuniEnvironmental.com **(Revised-Ongoing)**

12. That any addition or alteration to the site, structure design, and related improvements, including the installation of additional antennas (receivers, transmitters, grids, whips, dishes, etc.), or the co-location of additional antenna other than by the applicant, shall require ~~an amendment~~ reconsideration to this Conditional Use Permit by the Planning Commission. If said a carrier other than the applicant (co-location) makes improvements, the improvements would require a new CUP. Replacement of like-for-like equipment is exempt from this provision; however, plans and specifications may be required to be submitted to the Building Department of the City. (**Revised- Ongoing)**

13. **Insofar as feasible, the applicant/operator shall cooperate with any subsequent applicants for possible co-location. Said subsequent applicants shall be subject to the regulations in effect at the time of co-location. (New)**

14. **The owner/applicant shall require and verify that all contractors and sub-contractors have successfully obtained a Business License with the City of Santa Fe Springs prior to beginning any work associated with the subject project. A late fee and penalty will be accessed to any contractor or sub-contractor that fails to obtain a Business License and a Building Permit final or Certificate of Occupancy will not be issued until all fees and penalties are paid in full. Please contact the HDL at 909.479-2100 for additional information and application or one can be downloaded at www.hdlcompanies.com. (New)**

15. That no signs, advertisements, logos, messages, banners, clocks, or similar identification improvements, except FCC-required signage, shall be permitted on the antenna structure, wall, fences, equipment cabinet or enclosure. **(Ongoing)**

16. That the telecommunication facility shall be continually operated in accordance with all Federal regulations governing such operations. **(Ongoing)**

17. That if there is evidence that conditions of approval have not been fulfilled or the

use has or have resulted in a substantial adverse effect on the health, and/or general welfare of users of adjacent or proximate property, or have a substantial adverse impact on public facilities or services, the Director of Planning and Development may refer the use permit to the Planning Commission for review. If upon such review, the Commission finds that any of the results above have occurred, the Commission may modify or revoke the use permit. **(Ongoing)**

18. That upon any transfer or lease of the telecommunication facility during the term of Conditional Use Permit (CUP) Case No. 552, the applicant shall prompt provide a copy of the Conditional Use Permit to the transferee or lessee and shall insure that a lessee or other user(s) shall comply with the terms and conditions of this permit. The Department of Planning and Development shall also be notified in writing of any such transfer or lease. **(Ongoing)**

19. That the ~~owner/developer~~ applicant shall be responsible for reviewing and/or providing copies of the required conditions of approval to his/her architect, engineering, contractor, tenant, etc. Additionally, the conditions of approval contained herein, shall be made part of the construction drawings for the proposed development. Construction drawings shall not be accepted for Plan Check without the conditions of approval incorporated into the construction drawings. **(Ongoing-Revised)**

20. That the telecommunications facility shall otherwise be substantially in accordance with the plot plan, floor plan, and elevations submitted by the owner and on file with the case. **(Ongoing)**

21. **The applicant/operator shall be responsible for maintaining the wireless telecommunications facility in good condition and shall agree to the repair and replacement of equipment, stealth and structural components, due to damage caused by outdoor exposure and/or inclement weather. Under this condition, if the faux fronds and/or bark, among others, fade in color or deteriorate due to outdoor exposure, the applicant shall replace such components within 90 days of written notice by the Planning Director and/or his/her designee. (New)**

22. **The antennas, RRHs, junction boxes and all other tower-mounted equipment shall be painted to match the monopole, if needed with any proposed modifications. (New)**

23. **The facility shall comply with the requirements pursuant to Chapter 157 of the Santa Fe Springs Municipal Ordinance. (New)**

24. That all other requirements of the City's Zoning Ordinance , Building Code, Property Maintenance Ordinance, State and City Fire Code and all other applicable County, State and Federal regulations and codes shall be complied with. **(Ongoing)**

25. That the Conditional Use Permit Case No. 552-5, shall be valid for a period of ten (10) years, until on or before ~~February 1, 2019~~ **August 14, 2033.** Approximately, six (6) months before ~~February 1, 2019~~ **August 14, 2033**, the applicant and/or current operator or owner shall request, in writing, an extension of the privileges granted herein, provided that the use has been continuously maintained in strict compliance with these conditions of approval. **(Revised-Ongoing)**

26. **The applicant/operator and/or the property owner shall promptly notify the Director of Planning, in writing, in the event that the use of the telecommunications facility is discontinued or abandoned. The applicant/operator and/or property owner shall promptly remove the facility, repair any damage to the premises caused by such removal, and restore the premises to its pre-telecommunications condition so as to be in conformance with all applicable zoning codes at the applicant/operator and/or owner's expense. All such removal, repair, and restoration shall be completed within (6) months after the use is discontinued or abandoned, and shall be performed in accordance with all applicable health and safety code requirements. (New)**

27. That the applicant, ~~Crown Castle~~, applicant/operator and the property owner agrees to defend, indemnify and hold harmless the City of Santa Fe Springs, its agents, officers and employees from any claim, action or proceeding against the City or its agents, officers, or employees to attack, set aside, void or annul an approval of the City or any of its councils, commissions committee or boards concerning Conditional Use Permit Case No. 552, when action is brought within the time period for in the City's Zoning Ordinance, Section 155.865. Should the City, its agents, officers, or employees receive notice of any such claim, action or proceeding, the City shall promptly notify the owner/developer of such claim, action or proceeding, and shall cooperate fully in defense thereof. **(Revised- Ongoing**)

28. **That the applicant shall indemnify, protect, defend, and hold harmless, the City, and/or any of its officials, officers, employees, agents, departments, agencies, and instrumentalities thereof, from any and all claims, demands, law suits, writs of mandamus, and other actions and proceedings (whether legal, equitable, declaratory, administrative or adjudicatory in nature), and alternative dispute resolutions procedures (including, but not limited to arbitrations, mediations, and other such procedures), (collectively "Actions"), brought against the City, and/or any of its officials, officers, employees, agents, departments, agencies, and instrumentalities thereof, that challenge, attack, or seek to modify, set aside, void, or annul, any action of, or any permit or approval issued by, the City and/or any of its officials, officers, employees, agents, departments, agencies, and instrumentalities thereof (including actions approved by the voters of the City), for or concerning the proposed project whether such Actions are brought under the California Environmental Quality Act, the Planning and Zoning Law, the Subdivisions Map Act, Code of Civil Procedure Section 1085 or 1094.5, or any other state, federal, or local statute, law, ordinance, rule, regulation, or any decision of a court of competent jurisdiction. In addition, the applicant shall reimburse the City, its officials, officers, employees, agents, departments, agencies, for any Court costs and attorney's fees which the City, its agents, officers, or employees may be required by a court to pay as a result of such Action. It is expressly agreed that the City shall have the right to approve, which approval will not be unreasonably withheld conditioned or delayed, the legal counsel providing the City's defense, and that applicant shall reimburse City for any costs and expenses directly and necessarily incurred by the City in the course of the defense. City shall promptly notify the applicant of any such claim, action or proceeding, and shall cooperate fully in the defense thereof. (New)**

29. That is hereby declared to be the intent that if any provision of this approval is

violated or held to be invalid, or if any law, statute, or ordinance is violated, this approval shall be void and the privileges granted hereunder shall lapse. **(Ongoing)**

I understand and hereby agree to comply with the attached Conditional Use Permit (CUP) 552-5.

PUBLIC HEARING

Categorically Exempt - CEQA Guidelines Section 15301, Class 1

Conditional Use Permit Case No. 728-1

A request for a ten-year extension to allow the ongoing operation and maintenance of an unmanned wireless telecommunications facility and related equipment on, and at the base of, an existing 126'-5" – high Southern California Edison transmission tower located at 11047 Davenrich Street, within the A-1, Light Agricultural, Zone. (T-Mobile West, LLC)

RECOMMENDATIONS

- Open the Public Hearing and receive the written and oral staff report and any comments from the public regarding Conditional Use Permit Case No. 728-1, and thereafter, close the Public Hearing; and
- Find and determine that the proposed project will not be detrimental to persons or properties in the surrounding area or to the City in general, and will be in conformance with the overall purpose and objective of the Zoning Ordinance and consistent with the goals, policies and programs of the City's General Plan; and
- Find that the applicant's CUP request meets the criteria set forth in §155.716 of the City's Zoning Ordinance and §157.05 of the City's Municipal Code, for the granting of a Conditional Use Permit related to a wireless telecommunications facility; and
- Find and determine that pursuant to Section 15301, Class 1 (Existing Facilities) of the California Environmental Quality Act (CEQA), the project is Categorically Exempt; and
- Approve Conditional Use Permit Case No. 728-1, subject to the conditions of approval as contained within Resolution No. 246-2023; and
- Adopt Resolution No. 246-2023, which incorporates the Planning Commission's findings and actions regarding this matter.

GENERAL INFORMATION

A. Applicant: Network Connex on behalf of T-Mobile West, LLC
Attn: Lynda McClung
2500 Red Hill Avenue, Suite 240
Santa Ana, CA 92705

B. Facility Owner: Southern California Edison Company
2244 Walnut Grove Avenue
Rosemead, CA 91770

C. Property Owner: Southern California Edison Company
2244 Walnut Grove Avenue
Rosemead, CA 91770

D. Existing Zone: A-1, Light Agricultural

E. General Plan: Open Space

F. CEQA Status: Categorically Exempt, Section 15301, Class 1 (Existing Facilities)

G. Staff Contact: Alejandro De Loera, Assistant Planner
AlejandroDeLoera@santafesprings.org

LOCATION/BACKGROUND

The subject wireless telecommunications facility was first approved in 2007 via a building permit, which permitted six (6) antennas and related equipment on and at the base of an existing Southern California Edison electrical transmission tower. In 2012, pursuant to Section 155.038 (N) of the Zoning Ordinance, the subject facility was required to obtain a Conditional Use Permit (CUP). On March 26, 2012, the Planning Commission approved CUP Case No. 728 which granted a 10-year approval to continue the operation of the subject wireless telecommunications facility on the site.

It should be noted that the Building Official had assigned an address of 11047 Davenrich Street for the Edison Tower and the associated wireless telecommunications facility; however, the address of the Santa Fe Springs Park is 10068 Cedardale Drive.

CONDITIONAL USE PERMIT REQUEST

Network Connex, on behalf of T-Mobile West, LLC, is seeking approval for a 10 year extension of Conditional Use Permit (CUP Case No. 728-1) to allow the ongoing operation and maintenance of the subject wireless telecommunications facility. No modifications to the subject facility are proposed as part of this request.

MUNICIPAL CODE REQUIREMENTS

The procedures set forth in Section 157.04(A) of the City's Municipal Code, state that all wireless telecommunications facilities are subject to the granting of a Conditional Use Permit which are reviewed and considered by the City's Planning Commission

Code Section:	WIRELESS TELECOMMUNICATIONS FACILITY PERMIT REQUIREMENTS.
157.04 (A)	(A) *Wireless telecommunications facility conditional use permit.* All wireless telecommunications facilities are subject to the granting of a conditional use permit. Wireless telecommunications facility conditional use permits are subject to Planning Commission approval unless otherwise provided for in this chapter.

STREETS AND HIGHWAYS

The subject property is located on the west side of Davenrich Street. Davenrich Street is designated as a Local Street, within the Circulation Element of the City's General Plan.

ZONING AND LAND USE

The subject property is zoned A-1 (Light Agricultural). The property also has a General Plan Land Use designation of Industrial. The zoning, General Plan designation and land use of the surrounding properties are as follows:

Surrounding Zoning, General Plan Designation, Land Use			
Direction	**Zoning District**	**General Plan**	**Land Use**
North	A-1 Light Agricultural	Parks and Open Space	Santa Fe Springs Park
South	-	-	I-5 Freeway
East	R-1 Single-Family Residential	Low Density Residential	Single Family Residential
West	-	-	San Gabriel River

GENERAL PLAN CONSISTENCY ANALYSIS

Approval of the proposed Conditional Use Permit would promote several specific General Plan Goals or Policies as described in the table below:

General Plan Consistency		
General Plan Element	***Policy***	**Project Consistency**
Land Use	**LU-4.8: Experiential Enhancement:** Encourage and support the use of technology to enhance internet connectivity and communications.	The continued use of the facility would continue to provide enhanced wireless connectivity for residents in the surrounding area.
	LU-6.2: Neighborhood Improvements: Continue to improve residential neighborhoods by integrating green infrastructures and communications technology.	The facility is directly across from residential land uses. The existing coverage report indicates that the project serves the surrounding residential neighborhoods in the vicinity.

LEGAL NOTICE OF PUBLIC HEARING

This matter was set for Public Hearing in accordance with the requirements of Sections 65090 through 65096 of the State Planning, Zoning, and Development Laws and the requirements of Sections 155.860 through 155.864 of the City's Municipal Code.

Legal notice of the Public Hearing for the proposed project was sent by first class mail to all property owners whose names and addresses appear on the latest County Assessor's Roll within 500 feet of the exterior boundaries of the subject property on August 03, 2023. The legal notice was also posted at City Hall and the City's Town Center kiosk on August 03, 2023. Said notice was also published in a newspaper of general circulation (Whittier Daily News) on August 03, 2023 as required by the State Zoning and Development Laws and by the City's Zoning Ordinance. As of the date of this report, staff has not received any inquiry regarding the proposed project.

ENVIRONMENTAL ASSESSMENT

After staff review and analysis, staff made a preliminary determination that the project meets the criteria for a categorical exemption pursuant to the California Environmental Quality Act (CEQA). The specific exemption is Class 1, Section 15301 (Existing Facilities). Staff intends to file a Notice of Exemption (NOE) with the Los Angeles County Clerk (if the Planning Commission agrees), finding that the proposed project is categorically exempt pursuant to Sections 15301, Class 1 (Existing Facilities) of the California Environmental Quality Act (CEQA). There are no proposed modifications to the existing wireless telecommunication facility, therefore there is no expansion of the existing use.

Lastly, the subject site is not listed on the Hazardous Waste and Substance Site List (Cortese List) as set forth in Government Code Section 65962.5 and is not identified on the EPA's database (Environfacts).

AUTHORITY OF PLANNING COMMISSION

The Planning Commission has the authority, subject to the procedures set forth in the City's Zoning Ordinance, to grant a Conditional Use Permit when it has been found that said approval is consistent with the requirements, intent, and purpose of the City's Zoning Ordinance. The Commission may grant, conditionally grant or deny a conditional use permit based on the evidence submitted and upon its own study and knowledge of the circumstances involved, or it may require submission of a revised development plan if deemed necessary to preserve the general appearance and welfare of the community.

CRITERIA FOR GRANTING A CONDITIONAL USE PERMIT

The Commission should note that in accordance with Section 155.716 of the City's Zoning Ordinance, before granting a Conditional Use Permit, the Commission shall give consideration to the following:

A) That the proposed use will not be detrimental to persons or property in the immediate

vicinity and will not adversely affect the city in general.

B) Give due consideration to the appearance of any proposed structure and may require revised architectural treatment if deemed necessary to preserve the general appearance and welfare of the community.

For Conditional Use Permits related to a wireless telecommunication facility, as per Section 157.05, the Commission shall also give due considerations to the following:

1. *The proposed wireless telecommunications facility will not be detrimental to persons or property in the immediate vicinity and will not adversely affect the city in general.*

2. *The proposed wireless telecommunications facility has been designed to achieve compatibility with the community to the maximum extent reasonably feasible.*

3. *The location of the wireless telecommunications facility on alternative sites will not increase community compatibility or is not reasonably feasible.*

4. *The proposed wireless telecommunications facility is necessary to close a significant gap in coverage, increase network capacity, or maintain service quality, and is the least intrusive means of doing so.*

STAFF CONSIDERATIONS

Based on the findings set forth within Resolution No. 246-2023 (see attachment 7), Staff finds that the applicant's request meets the criteria set forth in §155.716 & §157.05 of the City's Zoning Ordinance and Municipal Code for the granting of a Conditional Use Permit. Staff is, therefore, recommending approval of Conditional Use Permit Case No. 728-1, subject to the conditions of approval.

CONDITIONS OF APPROVAL

Conditions of approval for CUP Case No. 728-1 are attached to Resolution No. 246-2023 as Exhibit A.

Wayne M. Morrell
Director of Planning

PUBLIC HEARING NOTICE

CITY OF SANTA FE SPRINGS
NOTICE OF PUBLIC HEARING
CONDITIONAL USE PERMIT (CUP) CASE NO. 728-1

NOTICE IS HEREBY GIVEN that the Planning Commission of the City of Santa Fe Springs will hold a Public Hearing to consider the following:

CONDITIONAL USE PERMIT CASE NO. 728-1 - A request for a ten-year extension to allow the ongoing operation and maintenance of an unmanned wireless telecommunications facility and related equipment on, and at the base of, an existing 126'-5" high Southern California Edison transmission tower located at 11047 Davenrich Street (APN: 8007-014-800), within the A-1, Light Agriculture, Zone.

APPLICANT: Network Connex on behalf of T-Mobile West, LLC, Attention: Lynda McClung, 250 Red Hill Suite 240, Santa Ana, CA 92705

THE HEARING will be held before the Planning Commission of the City of Santa Fe Springs in the Council Chambers of the City Hall, 11710 Telegraph Road, Santa Fe Springs, on **Monday, August 14, 2023 at 6:00 p.m.**

You may attend the meeting telephonically or electronically using the following means:

Electronically using Zoom
Go to Zoom.us and click on "Join A Meeting" or use the following link:
https://zoom.us/j/558333944?pwd=b0FabkV2aDZneVRnQ3BJYU125mJiQT09

Password: 554545

Telephonically
Dial: 888-475-4499
Meeting ID: 558 333 944

CEQA STATUS: After staff review and analysis, staff intends to file a Notice of Exemption (NOE) with the Los Angeles County Clerk within five (5) days of project approval (if the Planning Commission agrees), specifically Class 1, Section 15301 (Existing Facility) of the California Environmental Quality Act (CEQA). Additionally, the project site is not listed on the Hazardous Waste and Substance Site List (Cortese List) as set forth in Government Code Section 65962.5.

ALL INTERESTED PERSONS are invited to participate in the Public Hearing and express their opinion on the item listed above. Please note that if you challenge the afore-mentioned item in court, you may be limited to raising only those issues raised at the Public Hearing, or in written correspondence to the office of the Commission at, or prior to the Public Hearing.

PUBLIC COMMENTS may be submitted in writing to the Planning Department at City Hall, 11710 Telegraph Road, Santa Fe Springs CA 90670 or, otherwise, e-mail the Planning Secretary Teresa Cavallo at teresacavallo@santafesprings.org . Please submit your written comments by 12:00 p.m. on the day of the Planning Commission meeting.

FURTHER INFORMATION on this item may be obtained from Alejandro De Loera, Planning Consultant, via e-mail at: alejandradeloera@santafesprings.org or otherwise by phone at: (562) 868-0511 ext. 7354.

RADIO FREQUENCY ELECTROMAGNETIC FIELDS EXPOSURE REPORT

Prepared for Metro PCS

Site Name: 605 Five
Site ID: LA0314A
Site Type: Powerline Tower

Located at:

Davenrich St.
Santa Fe Springs, CA 90670
Latitude: 33.9442 / Longitude: -118.0982

Report Date: 2/17/2011

EXECUTIVE SUMMARY

Dtech Communications, LLC ("Dtech") has been retained by Metro PCS to determine whether its wireless communications facility complies with the Federal Communications Commission ("FCC") Radio Frequency ("RF") Safety Guidelines. This report contains an on-site, measurement analysis of the Electromagnetic Fields ("EMF") exposure resulting from the facility. The table below summarizes the result at a glance:

Table 1: EMF Summary

Metro PCS	Summary
Access to antennas locked	Yes
RF Sign(s) @ access point(s)	Info NOTICE
RF Sign(s) @ antennas	NA
Barrier(s) @ sectors	NA
Max cumulative measured EMF Level on Ground	0.7% General Population
FCC Compliant	Yes

BACKGROUND

Dtech uses the FCC's guidelines described in detail in Office of Engineering & Technology, Bulletin No. 65 ("OET-65") "Evaluating Compliance with FCC Guidelines for Human Exposure to Radiofrequency Electromagnetic Radiation". Table 2 below summarizes the current Maximum Permissible Exposure ("MPE") safety limits classified into two groups: General population and Occupational.

Table 2: FCC MPE Limits (from OET-65)

Frequency (Mhz)	General Population/ Uncontrolled MPE (mW/cm^2)	Averaging Time (minutes)	Occupational/ Controlled MPE (mW/cm^2)	Averaging Time (minutes)
30-300	.2	30	1.0	6
300-1500	Frequency (Mhz)/1500 (0.2 – 1.0)	30	Frequency (Mhz)/300 (1.0 – 5.0)	6
1500-100,000	1.0	30	5.0	6

General population/uncontrolled limits apply in situations in which the general public may be exposed or in which persons who are exposed as a consequence of their employment, and may not be fully aware of the potential for exposure or cannot exercise control over their exposure. Therefore, members of the general public always fall under this category when exposure is not employment-related.

Occupational/controlled limits apply in situations in which persons are exposed as a consequence of their employment, and those persons have been made fully aware of the potential for exposure and can exercise control over their exposure. Occupational/controlled limits also apply where exposure is of a transient nature as a result of incidental passage through a location where exposure levels may be above general population/uncontrolled limits, as long as the exposed person has been made fully aware of the potential for exposure and can exercise control over his or her exposure by leaving the area or by some other appropriate means.

It is important to understand that the FCC guidelines specify *exposure* limits not *emission* limits. For a transmitting facility to be out of compliance with the FCC's RF safety guidelines an area or areas where levels exceed the MPE limits must, first of all, be in some way *accessible* to the public or to workers. When accessibility to an area where excessive levels is appropriately restricted, the facility or operation can certify that it complies with the FCC requirements.

SITE DESCRIPTION

The wireless telecommunication facility is located on a power-line tower. The antennas are mounted on a power-line tower and connected to the equipment via coaxial cables. Technical specifications provided below are gathered from physical field surveys where possible, provided drawings and/or other documents provided by our clients, site/building managers and other licensees at this facility. "Generic", "Others", "Unknown" and conservative estimates are used where information are not available.

Table 3: Site technical specifications

Operator	Sector	Antenna Model	Type	Quantity	Frequency (MHz)	Orientation (°T)	Antenna Aperture (ft)	Antenna Gain (dBd)	3G/CDMA Radios	4G/LTE Radios	Total ERP (Watts)
Metro PCS	A	UMWD-03319-XDM	Panel	1	1900	0	4.8	18.6	1	1	3477
Metro PCS	B	UMWD-03319-XDM	Panel	1	1900	60	4.8	18.6	1	1	3477
Metro PCS	C	UMWD-03319-XDM	Panel	1	1900	120	4.8	18.6	1	1	3477
Metro PCS	D	UMWD-03319-XDM	Panel	1	1900	180	4.8	18.6	1	1	3477
Metro PCS	E	UMWD-03319-XDM	Panel	1	1900	240	4.8	18.6	1	1	3477
Metro PCS	F	UMWD-03319-XDM	Panel	1	1900	300	4.8	18.6	1	1	3477

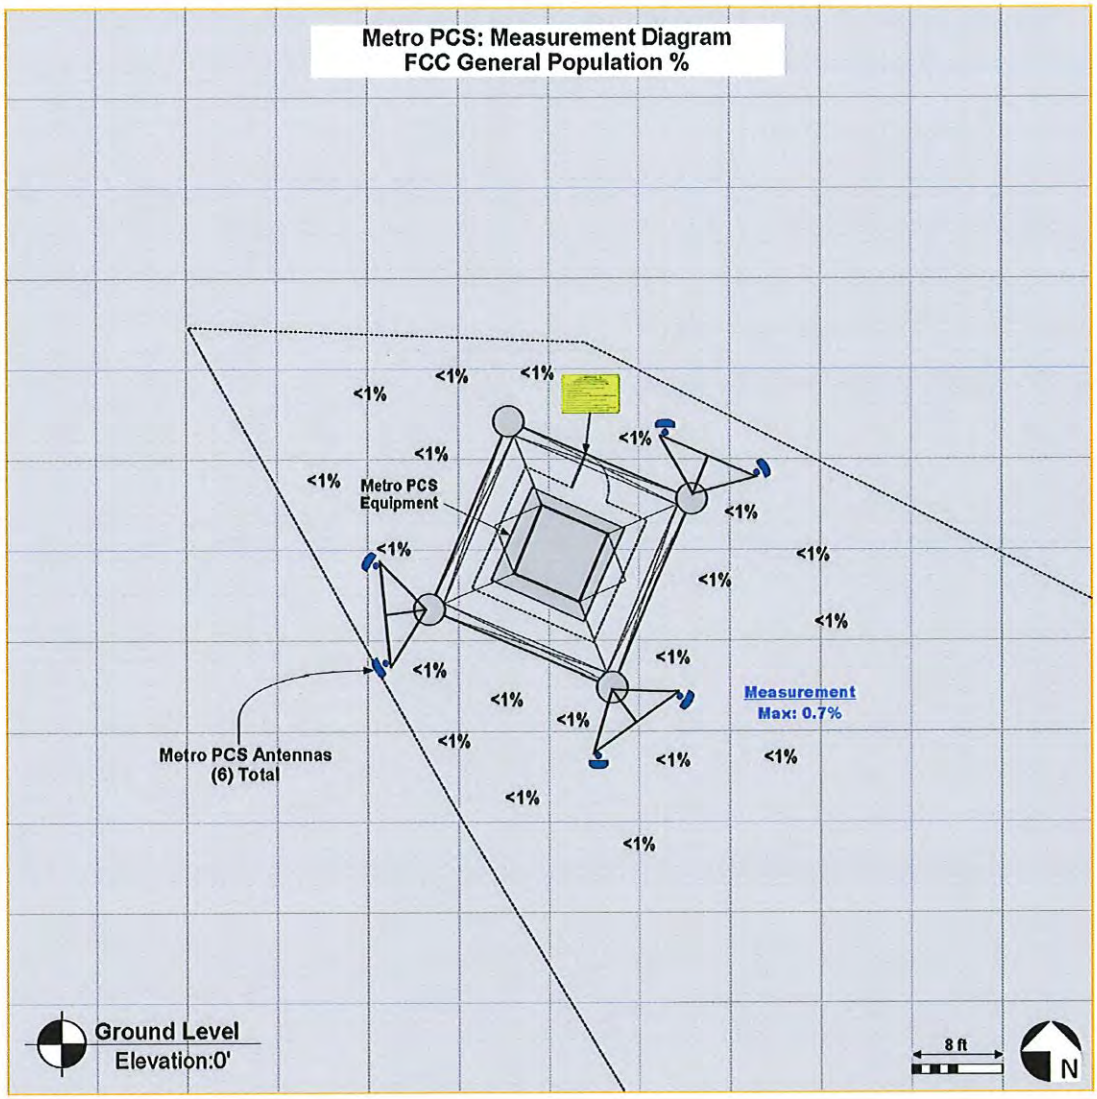
RESULTS

Figure 3: Results- The top (bird's eye) view of the resulting MPE (Maximum Permissible Exposure) map surrounding the facility.



RECOMMENDATION(S)

On-site measurements at Metro PCS's site resulted in exposure levels below the applicable FCC's General Population MPE Limits. There are RF advisory signs already posted at paths to the antennas to establish awareness for exposure. Since the antennas are mounted on a tall tower and therefore not accessible by the general public, compliance actions are not required. It is presumed that Metro PCS employees and contractors are aware of the transmitting antennas and will take appropriate precautions when working near them. However, there may be situations where workers i.e. power-line workers, etc. may find themselves directly in front of the antennas. For the facility to be classified as an Occupational/Controlled environment, the following are recommended as a conservative measure:

1) Individuals entering the site or working near/in front of antennas must receive appropriate RF safety training[1] and be made aware of the potential HotZones (areas exceeding the FCC's MPE Limits). In addition, contact information should be made available in the event work is required within the HotZones.

CONCLUSION

Field measurements were conducted at the subject site on 2/17/2011 9:30 AM by Vannead Horn, Dtech Field Technician. Weather conditions can be best described as sunny, mild breeze.

The Narda W & G Model EMR-300 with TYP-25 Probe was used to conduct the measurements (Serial Nos. AN0045 and E-0007, respectively). The meter and probe were last calibrated on 4/8/2009 by the manufacturer and were under current recommended calibration interval of 24 months. This device is designed to measure frequencies between .3Mhz and 40Ghz, well within the SMR, Cellular, and PCS frequency ranges (most major wireless operators). Therefore, the measured level is a cumulative RF energy resulting from all transmitters within the frequency ranges of the probe. The probe itself is frequency shaped and can automatically weigh each field contribution based on frequency. The output is given in percentage of the FCC's Occupational MPE Limits.

Based on the above results, analysis and recommendation(s), it is the undersigned's professional opinion that Metro PCS's site complies with the FCC's RF Safety Guidelines for general population. The worse-case exposure levels in publicly accessible areas are below the FCC's General Population MPE Limits.

Dtech
COMMUNICATIONS, LLC

CERTIFICATION

This report has been prepared by or under the direction of the following Registered Professional Engineer: Darang Tech, holding California registration number 16000, with renewal date of 06/30/11.

Darang Tech, P.E.

Appendix A: Measurement and/or Computer Simulation Methods

Spatial averaging measurement technique is used. An area between 2 and 6 feet, approximately the size of an average human, is scanned in single passes from top to bottom in multiple planes. When possible, measurements were made at very close proximity to the antennas and inside the main beam where most of the energy is emitted. The maximum levels (max-hold) were recorded.

Dtech uses an industry standard power density prediction computer model[2] to assess the worse-case, cumulative EMF impact of the surrounding areas of the subject site. For purposes of a cumulative study, nearby transmitters are included where possible. In addition, the analysis is performed at 100% duty cycle-all transmitters are active at all times and transmitting at maximum power. The result is a surrounding area map color-coded to percentages of the applicable FCC's MPE Limits. A result higher than 100% exceeds the Limits.

Appendix B: Limitations

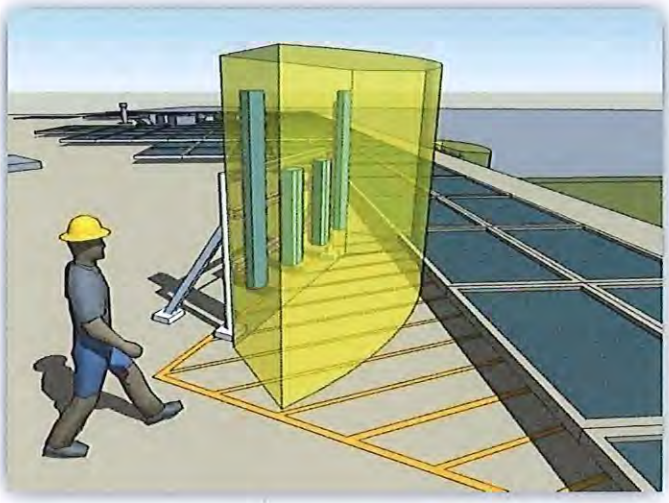
Dtech performed this analysis based on data provided by our clients that Dtech believes to be true and correct. Estimates where noted, are based on common industry practices and our best interpretation of available information. As mobile technologies continuously change, these data and results may also change. Therefore, Dtech disclaims all other warranties either expressed or implied. Any use of this document constitutes an agreement to hold Dtech and its employees harmless and indemnify it for any and all liability, claims, demands, litigation expenses and attorneys fees arising from such use. This is a technical document and may contain minor grammatical and/or spelling errors.

[2] RoofView Version 4.15, Richard Tell Associates, Inc. © 1996-2000.

Appendix C: AntennaView

Dtech Communications offer a unique, online tool (AntennaView) to train, identify and inform individuals of site-specific HotZones – areas that exceed the FCC's Safety Limits. AntennaView is an online, interactive training tool that will educate nontechnical people in about ten minutes. It is a site-specific, RF safety training program that requires the end user to sign an online agreement thereby limiting the liability to the landlord and carriers. Some of the advantages include:

- Virtual walk-through in 3-D with corresponding photographs
- Site-specific, interactive, simple to understand
- Delivers pertinent information i.e. HotZones (areas exceeding FCC safety limits), site owners and contact numbers.
- User online agreement = accountability



We invite you to take a quick tour at www.AntennaView.com and see how easy to understand and informative AntennaView is.

Under Article 47 CFR § 11307(b), the FCC & OSHA mandates wireless operators/facility owners to have an RF survey completed including a safety plan and training to ensure that their tenants, employees and contractors who work in or around RF sites are aware of the potential risks posed by RF radiation. Most cell sites are located on building rooftops where HVAC contractors, window washers, painters, etc. routinely work and generally do not know what antennas even look like. Dtech Communications can help with ongoing FCC/OSHA compliance and provide practical training that is easy to understand by anyone regardless of their technical background.

RESOLUTION NO. 246-2023

EXHIBIT A – CONDITIONS OF APPROVAL

CITY OF SANTA FE SPRINGS
RESOLUTION NO. 246-2023

A RESOLUTION OF THE PLANNING COMMISSION OF THE CITY OF SANTA FE SPRINGS REGARDING CONDITIONAL USE PERMIT CASE NO. 728-1

WHEREAS, a request for a ten-year extension of Conditional Use Permit Case No. 728-1 to allow the ongoing operation and maintenance of an unmanned wireless telecommunications facility and related equipment on, and at the base of, an existing 126'5" high Southern California Edison transmission tower located at 11047 Davenrich Street, within the A-1, Light Agriculture, Zone; and

WHEREAS, the subject site is located on the west side of Davenrich Street, with Assessor's Parcel Number of 8007-014-800, as shown in the latest rolls of the Los Angeles County Office of the Assessor; and

WHEREAS, the property owner is Southern California Edison Company, 2244 Walnut Grove Avenue, Rosemead, CA 91770; and

WHEREAS, the wireless telecommunications facility owner is Southern California Edison Company, 2244 Walnut Grove Avenue, Rosemead, CA 91770; and

WHEREAS, the carrier for the existing telecommunications facility is T-Mobile West, LLC, 1095 Avenue of the Americas, New York, NY 10036; and

WHEREAS, the proposed project, which includes the discretionary review of CUP Case No. 728-1, is considered a project as defined by the California Environmental Quality Act (CEQA), Article 20, Section 15378(a); and

WHEREAS, based on the information received from the applicant and the provided written and oral reports, the Planning Commission found and determined that the proposed project meets the criteria for a Categorical Exemption, pursuant to the California Environmental Quality Act (CEQA), Section 15301-Class 1 (Existing Facilities); and

WHEREAS, the City of Santa Fe Springs Planning and Development Department on August 03, 2023 published a legal notice in the *Whitter Daily News,* a local paper of general circulation, indicating the date and time of the public hearing, and also mailed said public hearing notice on August 03, 2023 to each property owner whose names and addresses appear on the latest County Assessor's Roll within 500 feet of the exterior boundaries of the project site and also posted at City Hall, Town Center Kiosk and the city library, in accordance with state law; and

WHEREAS, on August 14, 2023, the City of Santa Fe Springs Planning Commission conducted a duly noticed public hearing and considered public testimony concerning CUP Case No. 728-1; and

WHEREAS, the City of Santa Fe Springs Planning Commission has considered the application, the written and oral staff report, the General Plan and zoning of the subject site, the testimony, written comments, or other materials presented at the Planning Commission Meeting on August 14, 2023 concerning CUP Case No. 728-1.

NOW, THEREFORE, be it RESOLVED that the PLANNING COMMISSION of the CITY OF SANTA FE SPRINGS does hereby RESOLVE, DETERMINE and ORDER AS FOLLOWS:

SECTION I. ENVIRONMENTAL FINDINGS AND DETERMINATION

The proposed use is considered a project under the California Environmental Quality Act (CEQA); and as a result, the project is subject to the City's environmental review process. The project, however, is categorically exempt pursuant to Section 15301 Class 1: Existing Facilities.

Section 15301, Class 1: Existing Facilities consists of the operation, repair, maintenance, permitting, leasing, licensing, or minor alternation of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of existing or former use. The subject wireless telecommunications facility was first approved and constructed in 2007 and there are no proposed modifications to the existing facility, therefore there is no expansion of the existing use.

In addition, the subject site is not listed on the Hazardous Waste and Substance Site List (Cortese List) as set forth in Government Code Section 65962.5 and is not identified on the EPA's database (Environfacts).

SECTION II. CONDITIONAL USE PERMIT FINDINGS

Pursuant to Section 155.716 of the City of Santa Fe Springs Zoning Ordinance, the Planning Commission shall consider the following findings in their review and determination of the subject Conditional Use Permit (CUP). Based on the available information, the City of Santa Fe Springs Planning Commission hereby make the following findings:

(A) *That the proposed use will not be detrimental to persons or property in the immediate vicinity and will not adversely affect the city in general.*

The subject wireless telecommunications facility was first approved in 2007 via a building permit, which permitted six (6) antennas and related equipment on and at the base of an existing Southern California Edison electrical transmission tower. T-Mobile is currently providing local wireless service through the existing facility. The subject request to extend the time period for Conditional Use Permit Case No. 728-1

will allow the ongoing operation and maintenance of the existing unmanned wireless telecommunications facility.

The subject wireless telecommunications facility is unmanned and does not adversely affect the health, peace, comfort or welfare of persons working or residing in the surrounding area. In addition, the wireless telecommunications facility does not add to the ambient noise level, generate any obnoxious odors or solid waste, nor generate additional vehicular traffic. Lastly, the radio frequency (RF) emissions produced by the wireless telecommunications facility fall within the Federal Communications Commission (FCC) limits. An existing RF study was reviewed to confirm that the facility with the additional carrier and related equipment will remain in compliance with FCC standards.

If the existing carrier (T-Mobile West, LLC) operates in strict compliance with the conditions of approval, the subject wireless telecommunications facility will continue to be harmonious with adjoining properties and surrounding land uses. Therefore, the Planning Commission finds that the wireless telecommunications facility will not be detrimental to persons or property in the immediate vicinity and will not adversely affect the city in general.

(B) *Give due consideration to the appearance of any proposed structure and may require revised architectural treatment if deemed necessary to preserve the general appearance and welfare of the community.*

The Conditional Use Permit request will allow the ongoing operation and maintenance of an existing wireless telecommunications facility that has been in operation for over 15 years. The existing wireless telecommunications facility and lease space have been maintained in accordance with the conditions of approval of CUP Case No. 728, which provides the regulatory control over the operation, and maintenance of the subject facility. Conditions have been included as part of this approval (i.e. Conditions of Approval #1, #3, #6, #8) to ensure continued compliance with safety, maintenance and aesthetic requirements. Therefore, the Planning Commission finds that the continued use of the existing wireless telecommunications facility will maintain the general appearance and welfare of the community.

In addition, pursuant to §157.05 of the City's Code of Ordinances, the Commission shall also take into consideration the following factors:

(A) *The proposed wireless telecommunications facility will not be detrimental to persons or property in the immediate vicinity and will not adversely affect the city in general.*

The existing wireless telecommunications facility does not add to the ambient noise level, generate any obnoxious odors or solid waste, nor generate substantial vehicular traffic. The subject facility is surrounded by a freeway, the San Gabriel River, a park, and single family residences. The radio frequency (RF) emissions produced by the wireless telecommunications facility fall within the Federal Communications Commission (FCC) limits. An existing RF study was reviewed to

confirm that the existing facility would remain in compliance with FCC standards. Therefore, if the subject wireless telecommunications facility continues to operate in strict compliance with the conditions of approval, it will not be detrimental to persons or property in the immediate vicinity.

(B) *The proposed wireless telecommunications facility has been designed to achieve compatibility with the community to the maximum extent reasonably feasible.*

The subject wireless telecommunications facility abuts a freeway, the San Gabriel River, and a park on three sides. By utilizing an existing Southern California Edison transmission tower, the carrier has opted to not add new infrastructure, but rather to continue using existing infrastructure, to minimize the impact on the surrounding area. The wireless telecommunications facility's location and overall design successfully achieves compatibility with the community to the maximum extent reasonably feasible.

(C) *The location of the wireless telecommunications facility on alternative sites will not increase community compatibility or is not reasonably feasible.*

The location of the facility will remain unchanged and thus no modifications are proposed as a part of this project. Alternate sites were not considered for this request because it would not be feasible to ask the applicant to relocate a wireless telecommunications facility that is already existing and has proven to be compatible with the community. The applicant is continuing the operation of an existing wireless telecommunications facility that has proven to be compatible with the community over its 15 years of operation.

(D) *The proposed wireless telecommunications facility is necessary to close a significant gap in coverage, increase network capacity, or maintain service quality, and is the least intrusive means of doing so.*

The continued operations of the existing wireless telecommunications facility will provide enhanced services, capacity, and data services to the surrounding community. Continuing the use of the existing facility, versus constructing a new facility, is the least intrusive means of providing network coverage and capacity.

SECTION III. PLANNING COMMISSION ACTION

The Planning Commission hereby adopts Resolution No. 246-2023 to approve a ten-year extension of Conditional Use Permit Case No. 728-1 to allow the ongoing operation and maintenance of the subject unmanned wireless telecommunications facility and related equipment on, and at the base of, an existing 126'5" high Southern California Edison transmission tower located at 11047 Davenrich Street; and determine that the project is categorically exempt pursuant to the California Environmental Quality Act (CEQA), Section 15301 – Class 1 (Existing Facilities), subject to conditions attached hereto as Exhibit A.

ADOPTED and APPROVED this 14th day of August, 2023 BY THE PLANNING COMMISSION OF THE CITY OF SANTA FE SPRINGS.

_____
Francis Carbajal, Chairperson

ATTEST:

_____
Teresa Cavallo, Planning Secretary

EXHIBIT A
CUP 728-1 CONDITIONS OF APPROVAL

POLICE SERVICES DEPARTMENT:
(Contact: Luis Collazo 562-409-1850 x3335)

1. That the wireless telecommunications facility, including any lighting, fences, walls, cabinets, and poles shall be maintained by Applicant in good repair, free from trash, debris, litter and graffiti and other forms of vandalism. Any damage from any cause shall be repaired within 72 hours of notification, weather permitting, to minimize occurrences of dangerous conditions or visual blight. Paint utilized in covering graffiti shall be a color that matches, as closely possible, the color of the adjacent surfaces.

PLANNING AND DEVELOPMENT DEPARTMENT:
(Contact: Alejandro De Loera 562 868-0511 x7354

2. That any addition or alteration, structural design and related improvements, including the installation of additional antennas (receivers, transmitters, cabinets, grids, microwave dish, whips, dishes, etc.), shall require an amendment of CUP Case No. 728-1 by the Planning Commission. If said improvements were made by a carrier other than the Applicant, (co-location), the improvements would require a new conditional use permit. Replacement of like-for-like equipment is exempt from this provision; however, plans and specifications may be required to be submitted to the Building Division of the City.

3. That no signs, advertisements, logos, messages, banners, or similar identification improvements, except FCC required signage, shall be permitted on the antenna structure, fence, equipment cabinet or enclosure. Notwithstanding, signage prohibiting unauthorized entry, warning of the danger from electrical equipment and/or unauthorized climbing of the tower, and identifying the owner of the wireless facility and/or owner of the tower and a telephone number in case of emergency, shall be exempt.

4. That the wireless telecommunication facility shall be continually operated in accordance with all applicable Federal regulations governing such operations.

5. That if emergency generator(s) are required, the generator(s) shall be located within the SCE's fenced area adjacent to the tower, and only be operated during power outages or other public emergencies, and for testing and maintenance purposes only. The installation of emergency generator(s) shall require prior approval, when feasible, from the Director of Planning and Development, the Department of Fire-Rescue, and the Building Division of the City of Santa Fe Springs.

6. That if there is evidence that the conditions of approval have not been fulfilled or the use resulted in a substantial adverse effect on the general welfare of users of

adjacent or proximate property, or have a substantial adverse impact on public facilities or services, the Director of Planning and Development or designee may refer the use permit to the Planning Commission for review. If upon such review, the Commission finds that any of the results above have occurred, the Commission may modify or revoke the use permit. Notwithstanding, prior to any such action, the Applicant shall be notified in writing, no later than 10 days prior to the date of the hearing, of the date and time that the use permit is scheduled to be heard before the Planning Commission.

7. That the Applicant shall ensure that any FCC licensed telecommunication carrier that is buying, leasing or is considering a transfer of ownership of the approved telecommunication facility, shall submit, within 60 days of such transfer or lease, a letter of notification of intent to the Director of Planning and Development.

8. That in the event that the use of the telecommunication facility is discontinued or abandoned, the Applicant and/or owner shall promptly remove the facility, repair any damage to the premises caused by such removal, and restore the premises to its pre-telecommunication condition so as to be in conformance with all applicable zoning codes, at the Applicant and/or owner's expense. All such removal, repair and restoration shall be completed within six (6) months after the use is discontinued or abandoned, and shall be performed in accordance with all applicable health and safety code requirements.

9. That the wireless telecommunication facility shall otherwise be substantially in accordance with the overall site plan, enlarged Site Plan/Lease Area Plan and Elevations, including Equipment Enclosure Elevations, submitted by the Applicant and on file with the case.

10. That all other requirements of the City's Zoning Regulations, Building Code, Property Maintenance Ordinance, State and City Fire Code and all other applicable County, State and Federal regulations and codes shall be complied with.

11. That CUP Case No. 728-1 shall be subject to a compliance review in 10 years, to ensure that the wireless telecommunication facility is still operating in strict compliance with the original conditions of approval, and all applicable laws. At which time, the Applicant may request an extension of the privileges granted herein.

12. The Applicant agrees to defend, indemnify and hold harmless the City of Santa Fe Springs, its agents, officers and employees from any claim, action or proceeding against the City or its agents, officers or employees to attack, set aside, void or annul an approval of the City or any of its councils, commissions, committees or boards concerning CUP Case No. 728-1, when action is brought within the time period provided for in the City's Zoning Ordinance, Section 155.865. Should the City, its agents, officers or employees receive notice of any such claim, action or proceeding, the City shall promptly notify the Applicant of such claim, action or proceeding, and shall cooperate fully in the defense thereof.

13. It is hereby declared to be the intent that if any provision of this Permit is violated or held to be invalid, or if any law, statute or ordinance is violated, the Permit maybe subject to revocation, after adequate notice and hearing.

PUBLIC HEARING

Categorically Exempt – CEQA Guidelines Section 15301, Class 1

Amendment to Conditional Use Permit Case No. 749

A request for approval to modify the hours of operation for a food processing use, involving vinegar at 13117 Molette Street, within the M-2, Heavy Manufacturing, Zone (Otafuku Foods, Inc.)

RECOMMENDATIONS

- Open the Public Hearing and receive the written and oral staff reports any comments from the public regarding Amendment to Conditional Use Permit Case No. 749, and thereafter, close the Public Hearing; and
- Find the applicants request's request meets the criteria set forth in §155.716 of the Zoning Ordinance, for the granting of a Conditional Use Permit; and
- Find the proposed changes to the subject food processing use, if conducted in strict compliance with the conditions of approval, will be harmonious with adjoining properties and surrounding uses in the area and therefore, will be detrimental to persons or property in the immediate vicinity and will not adversely affect the city in general; and
- Find and determine that the project is Categorically exempt pursuant to Section 15301, Class 1 (Existing Facilities), of the California Environmental Quality Act (CEQA); therefore, the proposed project is determined to be a categorically-exempt project; and no additional environmental analysis is necessary to meet the requirements of the CEQA; and
- Approve Amendment to Conditional Use Permit Case No. 749, subject to the conditions of approval as contained within Resolution No. 247-2023; and
- Adopt Resolution No. 247-2023, which incorporates the Planning Commission's findings and actions regarding this matter.

LOCATION AND BACKGROUND

The subject property is located on the north side of Molette Street, approximately 850 feet east of Shoemaker Avenue, at 13117 Molette Street (APN: 7005-007-049). The property measures approximately 0.91-acre and is currently developed with a 16,400 sq. ft. building that was originally constructed in 1976. The property is zoned M-2, Heavy Manufacturing, and the General Plan designation is Industrial.

On March 10, 2014, the Planning Commission initially approved Conditional Use Permit Case No. 749, a request to establish, operate, and maintain a food processing use involving vinegar. The initial approval was granted for a period of one year, and their first compliance review was conducted in March 2016. It should be noted that the food processing facility use has been operating without complaints or incidents, and is in harmony with the surrounding businesses. Nevertheless, the applicant is requesting to

amend the existing conditions of approval to modify the hours of operation in order to increase their overall production at the Santa Fe Springs facility.

PROJECT DESCRIPTION

Details of Use

The applicant, Otafuku Foods, Inc., has been in the sauce business since 1922. Their company specializes in the marketing, development, and sale of various sauces, types of vinegar, and specialty components to food service, consumers, and industrial businesses. Notable sauces include Okonomi Sauce, Yakisoba Sauce, Tonkatsu Sauce, Takoyaki Sauce, Sushi Sauce, etc. Their parent company, Otafuku Sauce, is based out of Japan. Otafuku Foods, Inc. and the Santa Fe Springs manufacturing facility produce the above-mentioned sauces locally.

Currently, Otafuku Foods, occupies a 16,400 sq. ft. building, with all activities occurring inside the building. Although the use of vinegar requires a Conditional Use Permit (CUP), it should be noted that Otafuku Foods is not manufacturing vinegar. Vinegar is only a small ingredient (approximately 6%) within the various sauces that Otafuku is producing at the Santa Fe Springs facility. In the final product, the vinegar will be in a highly diluted form through a mixture of sauce, water, etc., and the typical fumes and odor normally associated with vinegar should not be present. The applicant is requesting to amend the existing conditions of approval in order to increase the hours of operation due to production growth within the past two years.

Existing Hours of Operation

Monday – Friday:	9:00 am – 6:00 pm
Saturday & Sunday:	Closed

Proposed Hours of Operation

Monday – Saturday:	4:30 am – 8:30 pm
Sunday:	Closed

Proposed Employee Shifts

Monday – Saturday:	
Filling Shift	9:00 am – 5:00 pm
Mixing Shifts:	Shift 1: 4:30 am – 1:00 pm
	Shift 2: 12:00 pm – 8:30 pm

Total Number of Employees and Shifts:

Filing Shift:	23 maximum employees/staff
(2) Mixing Shifts:	5 maximum employee count for each shift.

Parking

The parking study completed as part of the original CUP application material which concludes that the parking demand would not generate a concern at this location. The parking study detailed that the subject property will provide the 33 required parking stalls and therefore, meet the minimum requirements. The City's Zoning Ordinance calculates the required number of parking stalls based on the total building area. Since the applicant is not proposing to increase the building area or expand the existing office area, the proposed increase in hours of operation does not create a higher parking demand.

ZONING CODE REQUIREMENT

Pursuant to the procedures set forth in Section 155.243 (D)(8) of the City's Zoning Ordinance, a Conditional Use Permit is required within the M-2, Heavy Manufacturing, Zone for the establishment of any food or beverage processing use involving vinegar, yeast, and sauerkraut.

Section 155.243 (D)(8)
Section 155.243 Notwithstanding the list of uses set forth in Section 155.243, the following are the uses permitted in the M-2 Zone only after a valid conditional use permit has first been issued: *(D)* Animal or food processing of the following kind: *(8)* Vinegar, yeast, and sauerkraut.

STREETS AND HIGHWAYS

The subject site is located on the north side of Molette Street. Molette Street is classified as a Local Street within the Circulation Element of the City's General Plan.

ZONING AND LAND USE

The subject property is zoned M-2, Heavy Manufacturing. The property has a General Plan Land Use designation of Industrial.

The zoning, General Plan, and land use of the surrounding properties are as follows:

Direction	***Zoning District***	***General Plan***	***Land Use***
North	M-2,Heavy Manufacturing	Industrial	13100 and 13126 Artic Circle –Bumble Bee Seafoods LLC (Food Processing);

South	M-2,Heavy Manufacturing	Industrial	13012 Molette Street – The Custom Companies Inc. (Floor Covering Manufacture/ Warehouse/ Distribution);
East	M-2,Heavy Manufacturing	Industrial	13141 Molette Street – All-Power Manufacturing Co. (Metal Fabrication);
West	M-2,Heavy Manufacturing	Industrial	13055 Molette Street – Day-Lee Foods, Inc. (Food Processing)

ENVIRONMENTAL DOCUMENTS

Upon review of the proposed project, staff finds the project would qualify for a categorical exemption pursuant to Section 15301, Class 1 (Existing Facilities) of the California Environmental Quality Act (CEQA). No additional square footage is proposed and the existing use. With the exception of the hours of operation, the existing food processing facility will remain unchanged. Additional environmental analysis is therefore not necessary to meet the requirements of CEQA. If the Planning Commission agrees, staff will file a Notice of Exemption (NOE) with the Los Angeles County Clerk within 5 days from the date the Planning Commission approves the proposed project.

LEGAL NOTICE OF PUBLIC HEARING

This matter was set for Public Hearing in accordance with the requirements of Sections 65090 and 65091 of the State Planning, Zoning, and Development Laws and the requirements of Sections 155.860 through 155.864 of the City's Municipal Code.

Legal notice of the Public Hearing for the CUP was sent by first class mail to all property owners whose names and addresses appear on the latest County Assessor's Roll within 500 feet of the exterior boundaries of the subject property on August 3, 2023. The legal notice was also posted in Santa Fe Springs City Hall, the City Library and the City's Town Center on August 3, 2023, and published in a newspaper of general circulation (Whittier Daily News) on August 3, 2023, as required by the State Zoning and Development Laws and by the City's Zoning Ordinance.

As of the date of this report, staff has not received any comments and/or inquiries regarding the subject CUP Amendment.

AUTHORITY OF PLANNING COMMISSION

The Planning Commission has the authority, subject to the procedures set forth in the City's Zoning Ordinance, to grant a Conditional Use Permit when it has been found that said approval is consistent with the requirements, intent, and purpose of the City's Zoning Ordinance. The Commission may grant, conditionally grant or deny a conditional use permit based on the evidence submitted and upon its own study and knowledge of the circumstances involved, or it may require submission of a revised

development plan if deemed necessary to preserve the general appearance and welfare of the community.

CRITERIA FOR GRANTING A CONDITIONAL USE PERMIT

The Planning Commission should note that in accordance with Section 155.716 of the City's Zoning Ordinance, before granting a Conditional Use Permit, the Commission shall give consideration to the following:

A) Satisfy itself that the proposed use will not be detrimental to persons or property in the immediate vicinity and will not adversely affect the city in general.

B) Give due consideration to the appearance of any proposed structure and may require revised architectural treatment if deemed necessary to preserve the general appearance and welfare of the community.

STAFF REMARKS

Based on the findings set forth in the attached Resolution (247-2023), Staff finds that the applicant's request meets the criteria set forth in §155.716 of the City's Zoning Ordinance for granting a Conditional Use Permit. Staff is, therefore, recommending approval of the proposed Amendment to Conditional Use Permit Case No. 749, subject to the conditions of approval.

CONDITIONS OF APPROVAL

Conditions of approval for ACUP Case No. 749 are attached to Resolution No. 247-2023 as Exhibit A.

Subject: Conditional Use Permit (CUP) Case No. 749-1
Otafuku Foods, Inc.
13117 Molette St. Santa Fe Springs, Ca 90670

This letter is to request a review of compliance of the above subject permit. We currently have the same manufacturing operations of sauces and dressings for foods service. Only changes that we have been an increase of production since all of the restaurants are open. We have increased the operational hours of operations from 1 shift (9 am- 5 pm) to 2 shifts Monday through Saturday's. 1st Shift 4:30 am- 1:00 PM & 2nd shift 12:00 pm – 8:30 pm. Office Hours still 9 am- 5 pm. Employee count now is 28. 1st shift operation/office we have total 23, and 2nd shift there is only 5 employees. There's has been no other changes to the CUP permit agreement.

Resolution No. 247-2023
Exhibit A: Conditions of Approval

CITY OF SANTA FE SPRINGS
RESOLUTION NO. 247-2023
A RESOLUTION OF THE PLANNING COMMISSION OF THE CITY OF SANTA FE SPRINGS REGARDING AMENDMENT TO CONDITIONAL USE PERMIT CASE NO. 749

WHEREAS, – a request for approval to modify the hours of operation for a food processing use, involving vinegar at 13117 Molette Street, within the M-2, Heavy Manufacturing; and;

WHEREAS, The subject property is located on the north side of Molette Street, approximately 850 feet east of Shoemaker Avenue, with an Assessor's Parcel Number of 7005-007-049, as shown in the latest rolls of the Los Angeles County Office of the Assessor; and

WHEREAS, the applicant for the proposed Amendment to Conditional Use Permit Case No. 749 is Otafuku Foods, Inc., 13117 Molette Street, Santa Fe Springs, CA 90670; and

WHEREAS, the property owner is Otafuku Foods, Inc. c/o Minoru Takeuchi, 13117 Molette Street, Santa Fe Springs, CA 90670; and

WHEREAS, the proposed change, which includes the discretionary review of the subject Amendment to Conditional Use Permit Case No. 749, is considered a project as defined by the California Environmental Quality Act (CEQA), Article 20, Section 15378 (a); and

WHEREAS, based on the information received from the applicant and the provided written and oral staff reports, the Planning Commission has found and determined that the proposed project meets the criteria for a Categorical Exemption, pursuant to the California Environmental Quality Act (CEQA), Section 15301-Class 1; and

WHEREAS, the City of Santa Fe Springs Planning and Development Department on August 3, 2023 published a legal notice in the *Whitter Daily News,* a local paper of general circulation, indicating the date and time of the public hearing. Said notice was also sent by first class mail on August 3, 2023 to all property owners whose names and addresses appear on the latest County Assessor's Roll within 500 feet of the exterior boundaries of the subject property and also posted at the City's Town Center kiosk on August 3, 2023; and

WHEREAS, on August 14, 2023, the City of Santa Fe Springs Planning Commission conducted a duly noticed public hearing and considered public testimony concerning Amendment to Conditional Use Permit Case No. 749; and

WHEREAS, the City of Santa Fe Springs Planning Commission has considered the application, the written and oral staff report, the General Plan and zoning of the Subject site, the testimony, written comments, or other materials presented at the

Planning Commission Meeting on August 14, 2023 concerning Amendment to Conditional Use Permit Case No. 749.

NOW, THEREFORE, be it RESOLVED that the PLANNING COMMISSION of the CITY OF SANTA FE SPRINGS does hereby RESOLVE, DETERMINE and ORDER AS FOLLOWS:

SECTION I. ENVIRONMENTAL FINDINGS AND DETERMINATION

The proposed use is considered a project under the California Environmental Quality Act (CEQA); and as a result, the project is subject to the City's environmental review process. The project, however, is categorically exempt pursuant to Section 15301 Class 1: Existing Facilities.

Section 15301, Class 1: Existing Facilities consists of the operation, repair, maintenance, permitting, leasing, licensing, or minor alternation of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of existing or former use. The proposed amendment is to an existing food processing use that will continue to occupy the existing building. The proposed change simply address the current hours of operation. The applicant is not proposing to alter the interior or exterior of the existing building or any other change to the existing operations. Additionally, the project will not result in any significant noise, air quality or water quality impacts.

Lastly, the subject site is not listed on the Hazardous Waste and Substance Site List (Cortese List) as set forth in Government Code Section 65962.5 and is not identified on the EPA's database (Environfacts)

SECTION II. CONDITIONAL USE PERMIT FINDINGS

Pursuant to Section 155.716 of the City of Santa Fe Springs Zoning Ordinance, the Planning Commission shall consider the following findings in their review and determination of the subject Conditional Use Permit (CUP). Based on the available information, the City of Santa Fe Springs Planning Commission hereby make the following findings:

(A) *That the subject food processing use and proposed change will not be detrimental to persons or property in the immediate vicinity, and will not adversely, affect the city in general.*

The subject use is located within the M-2, Heavy Manufacturing, Zone and has a General Plan land use designation of Industrial. A food processing use, involving vinegar is consistent with the current zoning and land use designation. Consistency with the City's General Plan is analyzed in Table 1 below.

Table 1: General Plan Consistency Analysis

General Plan Element	*Policy*	Project Consistency
Land Use	**Policy LU-2.1** - Diverse Industrial Activities. Strengthen the diversity of industrial uses, emphasizing manufacturing, biotechnology, technology, commercial innovation, research and development, and clean industries	The food processing use, involving vinegar is surrounded by a variety of food processing industrial facilities, which provide employment opportunities for the community.
Economic Use	**Policy ED-2.1 –** Business Retention/ Expansion Outreach. Prepare a business/retention expansion outreach program to address short-term and long term disruptive influences in the local and regional economy, and address general business – accommodation issues as they arise	The food processing use, involving vinegar, change their hours of operation due to an increase in production. By accommodating to the change of hours, it has allowed the food processing company to retain its use in the City of Santa Fe Springs as production growth increases.

The primary concern is to ensure that the typical fumes and odor normally associated with full strength vinegar will not be present. It should be noted that vinegar is an ingredient that is only used in small quantities (6%) within various sauces that Otafuku produces at the Santa Fe Springs facility. In the final product, the vinegar will be in a highly diluted form through a mixture of sauce, water, etc. The applicant does not intend to change their existing process and/or the recipes involving vinegar.

Nevertheless, the applicant is requesting to amend the existing conditions of approval to change the hours of operation, in order to increase their overall production at the Santa Fe Springs facility. Staff finds that the change in hours of operation will not be detrimental for the following reasons:

- A parking study was completed as part of the application materials. Upon review of the study, staff determined the site may accommodate the parking demand associated with the proposed changes to the existing hours of operation.
- There is sufficient parking to accommodate the increased hours of operation. A total of 33 parking stalls are currently being provided throughout the site. Since the applicant is not proposing to increase the building area or expand the existing office area, the proposed increase in hours of operation does not create a higher parking demand. As such, the

food processing operation will continue to meet the City's parking requirements according to the overall square footage used by the Otafuku foods processing operations.

Therefore, if the use continues to be conducted in strict compliance with the conditions of approval as well as the City's Zoning Ordinance, staff finds that the proposed change to the hours of operation for the existing food processing use, involving vinegar will be harmonious with adjoining properties and surrounding uses in the area and, therefore, will not be detrimental to persons or property in the immediate vicinity

(B) *Give due consideration to the appearance of any proposed structure and may require revised architectural treatment if deemed necessary to preserve the general appearance and welfare of the community.*

The entire food processing operations is inside the building. As a result, all processing equipment used in their operations are located inside the building. This not only helps control potential fumes or odors but also ensures that there isn't any unsightly outdoor equipment or processing on-site. As mentioned previously, there are no exterior modifications to the existing building or parking area proposed. The Commission therefore finds that the food operations use will continue to preserve the general appearance and welfare of the community.

SECTION III. PLANNING COMMISSION ACTION

The Planning Commission hereby adopts Resolution No. 247-2023 to determine that the proposed Amendment to Conditional Use Permit Case No. 749 is Categorically Exempt pursuant to the California Environmental Quality Act (CEQA) Section 15301, Class 1 (Existing Facilities), and to approve Amendment to Conditional Use Permit Case No. 749 to modify the hours of operation of an existing food processing use, involving vinegar on property located at 13117 Molette Street, subject to conditions attached hereto as Exhibit A.

ADOPTED and APPROVED this 14th day of August 2023 BY THE PLANNING COMMISSION OF THE CITY OF SANTA FE SPRINGS.

Teresa Cavallo, Planning Secretary

DRAFT CONDITIONS OF APPROVAL
Conditional Use Permit Case No. 749
Otafuku Foods, Inc.

POLICE SERVICES DEPARTMENT:
(Contact: Louis Collazo 562.409.1850 x 3335)

1. That the applicant shall provide a 10'-0" high fence to secure and screen the outdoor storage within 30 days of Planning Commission Approval. **(Satisfied)**.

2. That the applicant shall not increase the approved storage area at any time, and shall maintain the rear parking area free of all debris, equipment, and miscellaneous items which could impede vehicle travel. **(Ongoing)**

3. That should the applicant vacate the property, the fence improvements shall be fully removed and the parking spaces shall be repainted and returned to their original use. **(Ongoing)**

ENGINEERING / PUBLIC WORKS DEPARTMENT:
(Contact: Alex Flores 562.868.0511 x7507)

STREETS

4. That the applicant shall pay a flat fee of $10,620 to reconstruct/resurface the existing street frontage to centerline for Molette Street. **(NEW)**

5. That adequate "on-site" parking shall be provided per City requirements, and all streets abutting the development shall be posted "No Stopping Any Time." The City will install the offsite signs and the owner shall pay the actual cost of sign installation. **(Satisfied)**

6. The owner and/or developer shall pay for the removal, construction of one driveway per City Standard R-6.4A and inspection. **(Satisfied)**

MISCELLANEOUS

7. That a grading plan shall be submitted showing elevations and drainage pattern of the site. The improvements shall not impede, obstruct or pond water onsite. The grading plan shall be submitted for drainage approval to the City Engineer. A professional civil engineer registered in the State of California shall prepare the grading plan. The owner shall pay drainage review fees in conjunction with this submittal. **(Satisfied)**

DEPARTMENT OF FIRE-RESCUE – ENVIRONMENTAL DIVISION:
(Contact: Eric Scott 562.868-0511 x3812)

8. That the owner/developer shall comply with all Federal, State and local requirements and regulations included, but not limited to, the Santa Fe Springs City Municipal Code, California Fire Code, Certified Unified Program Agency (CUPA) programs, the Air Quality Management District's Rules and Regulations and all other applicable codes and regulations. **(Ongoing)**

9. That the owner/operator shall submit plumbing plans to the Fire Department Environmental Protection Division (EPD) and, if necessary, obtain an Industrial Wastewater Discharge Permit Application for generating, storing, treating or discharging any industrial wastewater to the sanitary sewer. **(Ongoing)**

DEPARTMENT OF FIRE – RESCUE (FIRE PREVENTION DIVISION)
Contact: Kevin Yang: 562.868.0511 x 3811

10. That interior gates or fences are not permitted across required access roadways unless otherwise granted prior approval by the Santa Fe Springs Department of Fire-Rescue. **(NEW)**

11. That a "Knox Box Rapid Entry System" shall be provided. The Knox Box shall be installed in an accessible location approved by the Fire Code Official. Electric powered gates shall be provided with Knox key switches for access by emergency personnel. Where manual operated gates are permitted, they shall be provided with a Knox box or Knox padlock. **(NEW)**

WASTE MANAGEMENT:
(Contact: Maribel Garcia 562.868.0511 x7569)

12. That the applicant shall comply with Section 50.51 of the Municipal Code which prohibits any business or residents from contracting any solid waste disposal company that does not hold a current permit from the City. **(Ongoing)**

PLANNING AND DEVELOPMENT DEPARTMENT:
(Contact: Claudia L. Jimenez 562.868-0511 x7356)

13. This approval allows the applicant, Otafuku Foods, Inc., to establish, operate and maintain a vinegar processing facility at 13117 Molette Street (APN: 7005-007-049). **(Ongoing)**

14. That the proposed vinegar processing use shall otherwise be substantially in accordance with the plans submitted by the applicant and on file with the case. **(Ongoing)**

15. That subject vinegar processing use shall be limited to the following hours of operation: Monday through ~~Friday~~ **Saturday** from ~~9:00am and 6:00pm~~ **4:30**

am - 8:30 pm ~~Saturday~~ and Sunday – Closed. **Any modification to the hours of operation shall be subject to review and approval of the Director of Planning or his/her designee. (Revised – Ongoing)**

16. That all activities shall occur inside the building(s). No portion of the required off-street parking and driveway areas shall be used for outdoor storage of any type or for special-event activities, unless prior written approval is obtained from the Director of Planning and Development, Director of Police Services and the Fire Marshall. **(Ongoing)**

17. That all vehicles associated with the businesses on the subject property shall be parked on the subject site at all times. Off-site parking is not permitted and would result in the restriction or revocation of privileges granted under this Permit. In addition, any vehicles associated with the property shall not obstruct or impede any traffic. **(Ongoing)**

18. That the proposed vinegar processing use shall comply with Section 155.420 of the City's Zoning Ordinance regarding the generation of objectionable odors. If there is a violation of this aforementioned Section, the property owner/applicant shall take whatever measures necessary to eliminate the objectionable odors from the operation in a timely manner.**(Ongoing)**

19. That all other requirements of the City's Zoning Ordinance, Building Code, Property Maintenance Ordinance, State and City Fire Code and all other applicable County, State and Federal regulations and codes shall be complied with. **(Ongoing)**

20. That CUP Case No. 749 shall be subject to a compliance review after one (1) year, on or before ~~March 10, 2015~~ **August 14, 2024**. Approximately three (3) months before ~~March 10, 2015~~, **August 14, 2024** the applicant shall request, in writing, an extension of the privileges granted herein, provided that the use has been continuously maintained in strict compliance with the conditions of approval as stated within the staff report. **(Revised –Ongoing)**

21. That the applicant, Otafuku Foods, Inc., agrees to defend, indemnify and hold harmless the City of Santa Fe Springs, its agents, officers and employees from any claim, action or proceeding against the City or its agents, officers or employees to attack, set aside, void or annul an approval of the City or any of its councils, commissions, committees or boards arising from or in any way related to the subject CUP, or any actions or operations conducted pursuant thereto. Should the City, its agents, officers or employees receive notice of any such claim, action or proceeding, the City shall promptly notify the owner/developer of such claim, action or proceeding, and shall cooperate fully in the defense thereof. **(Ongoing)**

22. That if there is evidence that any of the conditions of approval have not been fulfilled or the use has or have resulted in a substantial adverse effect on the health, and/or general welfare of users of adjacent or proximate property, or have a substantial adverse impact on public facilities or services, the Director of Planning and Development may refer the use permit to the Planning Commission for review. If upon such review, the Commission finds that any of the results above have occurred, the Commission may modify or revoke the use permit. **(Ongoing)**

23. That it is hereby declare to be the intent that if any provision of this Approval is violated or held to be invalid, or if any law, statute or ordinance is violated, this Approval shall be void and the privileges granted hereunder shall lapse. **(Ongoing)**

I have read, understand and accept, and will comply with the above listed Conditions of Approval. I further state that I am the owner, or the authorized agent of the owner, of property involved in Conditional Use Permit No. 749.

PUBLIC HEARING

CEQA – Addendum to the City's Certified Environmental Impact Report (EIR) for the General Plan and Targeted Zoning Ordinance Update (SCH# 2021050193)
Tentative Parcel Map (TPM) No. 84116
Development Plan Approval (DPA) Case No. 1000
Development Plan Approval (DPA) Case No. 1001

TPM No. 84116: A request for approval to subdivide an existing parcel (APN: 8009-023-027) into two parcels: Parcel 1 of ±3.33 acres and Parcel 2 of ±3.99 acres.

DPA Case No. 1000: A request for approval to allow the construction of a new ±69,650 sq. ft. concrete tilt-up industrial building and related improvements on the subject site (Parcel 1).

DPA Case No. 1001: A request for approval to allow the construction of a new ±75,050 sq. ft. concrete tilt-up industrial building and related improvements on the subject site (Parcel 2).

The subject site is located at 10845 Norwalk Boulevard (APN: 8009-023-27), within the M-2, Heavy Manufacturing, Zone. (Orbis Real Estate Partners)

RECOMMENDATIONS:

- Open the Public Hearing and receive the written and oral staff report and any comments from the public regarding TPM No. 84116, DPA Case No. 1000, DPA Case No. 1001 and related Environmental Documents, and thereafter, close the Public Hearing; and
- Find and determine that the proposed project will not be detrimental to persons or properties in the surrounding area or to the City in general, and will be in conformance with the overall purpose and objective of the Zoning Ordinance and consistent with the goals, policies and program of the City's General Plan; and
- Find that TPM No. 84116 meets the standards set forth in Sections 66474 and 66474.6 of the Subdivision Map Act for the granting of a tentative or final map; and
- Find that DPA Case No. 1000 & 1001 meet the criteria set forth in §155.739 of the City's Zoning Ordinance, for the granting of a Development Plan Approval; and

RECOMMENDATIONS (Cont.):

- Find that the proposed Addendum to the City's Certified Environmental Impact Report (EIR) for the General Plan and Targeted Zoning Ordinance Update (SCH# 2021050193) meet all the criteria set forth in Section 15164 of the California Environmental Quality Act Guidelines; and
- Approve and adopt the proposed Addendum to the City's Certified Environmental Impact Report (EIR) for the General Plan and Targeted Zoning Ordinance Update (SCH# 2021050193), which indicated that the modified project, with the mitigations presented, will not introduce any new significant impacts or significantly intensify any pre-identified impacts on the environment; and
- Approve TPM No. 84116, DPA Case No. 1000 & 1001, subject to the conditions of approval as contained within Resolution No. 248-2023; and
- Adopt Resolution No. 248-2023, which incorporates the Planning Commission's findings and actions regarding this matter.

GENERAL INFORMATION

B.	Property Owner:	Florence SFS, LLC 10845 Norwalk Boulevard Santa Fe Springs, CA 90670
C.	Subject Site	10845 Norwalk Boulevard APN: 8009-023-027
D.	Existing Zone:	M-2 Heavy Manufacturing, Zone
E.	General Plan:	Business Park
F.	CEQA Recommendation:	Addendum to the Certified Final Program EIR for the Santa Fe Springs General Plan and Targeted Zoning Code Update (SCH# 2021050193)
G.	Staff Contact:	Jimmy Wong, Associate Planner JimmyWong@santafesprings.org

LOCATION / BACKGROUND

The subject site is comprised of one existing parcel (APN: 8009-023-027), measuring approximately 6.44 acres, and is located at the southwest corner of Florence Avenue and Norwalk Boulevard. The subject site has a General Plan land use designation of Business Park and a zoning designation of M-2, Heavy Manufacturing. It should be noted that the subject site is part of the Targeted Zoning Ordinance Updated. The current proposal involves a zone change for the subject site, from its current designation of M-2, Heavy Manufacturing Zone, to ML, Limited Manufacturing Zone.

The subject site is currently occupied by Tech Steel International, Performance Automotive and Silverio Party Supply. The applicant, Orbis Real Estate Partners, recently purchased the property and is proposing to demolish all existing buildings and construct two concrete tilt-up industrial buildings on the subject site. It should be noted that the proposed project will involve vacating Koontz Avenue and thereafter subdivide the parcel, including the area occupied by Koontz Avenue, into two separate parcels.

In accordance with the City's Zoning Ordinance, a Tentative Parcel Map & Development Plan Approval are required to ensure compliance with the Subdivision Map Act and City's Zoning Ordinance.

PROJECT DESCRIPTION

The proposed project requires approval of the following entitlement:

- *Tentative Parcel Map (TPM) No. 84116:* A request for approval to vacate Koontz Avenue and subdivide the subject parcel into two parcels, measuring 3.33 acres (Parcel 1) and 3.99 acres (Parcel 2); and

- *Development Plan Approval (DPA) Case No.1000:* A request for approval to allow the construction of a new ±69,650 sq. ft. concrete tilt-up industrial building on the subject site (Parcel 1); and

- *Development Plan Approval (DPA) Case No.1001:* A request for approval to allow the construction of a new ±75,050 sq. ft. concrete tilt-up industrial building on the subject site (Parcel 2).

It should be noted that, as a condition of the approval, the approval of the proposed Tentative Parcel Map No. 84116 is contingent upon the applicant securing a street vacation permit from the City's Public Works Department. The process for obtaining a street vacation permit involves the submittal of a Plat Map & Legal Description to the City's Public Works Department and approval from the City Council.

ZONING AND LAND USE

The subject site is zoned M-2, Heavy Manufacturing. The property has a General Plan Land Use designation of Business Park. It should be noted that, as part of the Targeted Zoning Code Update project, the City is in the process of updating the zoning designation of the subject property from its current M-2 (Heavy Manufacturing) zone to an M-L (Limited Manufacturing) zone to be consistent with the General Plan land use designation that was adopted in February of 2022.

The zoning, General Plan and land use of the surrounding properties are as follows:

Surrounding Zoning, General Plan Designation, Land Use			
Direction	**Zoning District**	**General Plan**	**Land Use (Address/Business Name)**
North	M-2 (Heavy Manufacturing), Zone	Light Industrial	Industrial (10747 Norwalk Blvd. / Black Stallion)
South	M-2 (Heavy Manufacturing), Zone C-4 (Community Commercial), Zone Buffer- Parking	Medium Density Residential Commercial	Mobile Home Park (12147 Lakeland Rd./ Lakeland Villa
East	M-2 (Heavy Manufacturing), Zone	Commercial	Industrial / Commercial (10810 – 10858 Norwalk Blvd.)
West	M-2 (Heavy Manufacturing), Zone	Business Park	Industrial (12078 Florence Ave. / 1-800EverythingRim.com)

SUBDIVISION MAP ACT

Under Section 66451.5 of the Subdivision Map Act, a public hearing is required before the local planning commission or the legislative body for any Tentative Parcel Map application. The purpose of the public hearing is to provide an opportunity for the public, neighboring property owners, and other stakeholders to express their views, concerns, or objections regarding the proposed subdivision.

TENTATIVE PARCEL MAP NO. 84116

The proposed Tentative Parcel Map will subdivide the subject parcel into two parcels, measuring 3.33 acres (Parcel 1) and 3.99 acres (Parcel 2). As mentioned previously, approval the proposed Tentative Parcel Map (TPM No. 84116) is contingent upon the applicant securing a street vacation permit from the City's Public Works Department.

Details of TPM as shown in the attached plans:

Existing:
Parcel "without street vacate" – Approx. 6.44 acres

Including proposed Street Vacation:
Parcel "with Koontz Ave vacated" – Approx. 7.32 acres

Proposed Parcel Map:
Parcel 1 – Approx. 3.33 acres
Parcel 2 – Approx. 3.99 acres

ZONING REQUIREMENTS

The procedures set forth in Section 155.736 of the City's Zoning Ordinance states that a DPA is required to ensure compliance with the Zoning Ordinance and to give proper attention to the siting of new structures or additions or alterations to existing structures (see below).

Code Section:	Development Plan Approval
155.736	Section 155.736 The purpose of the development plan approval is to assure compliance with the provisions of this chapter and to give proper attention to the siting of new structures or additions or alterations to existing structures, particularly in regard to unsightly and undesirable appearance, which would have an adverse effect on surrounding properties and the community in general.

DEVELOPMENT PLAN APPROVAL CASE NO. 1000 (PARCEL 1)

Site Plan

As previously mentioned, the applicant is proposing to construct two (2) new concrete tilt-up industrial building. Development Plan Approval Case No. 1000 will consist of a new ±69,650 sq. ft. concrete tilt-up single-tenant industrial building on Parcel 1 of the proposed subdivision. The proposed building will be setback a minimum of 40 feet from the property line along Florence Avenue and a minimum of 95 feet from the property line along Norwalk Boulevard. The

development will provide a 26-foot driveway entrance along Norwalk Blvd. and a 32-foot driveway entrance along Florence Ave. for ingress and egress. Parking and landscaping will be distributed throughout the development. The proposed development will also provide an outdoor seating area with patio and tables along the east elevation.

Floor Plan

The floor plan indicates that the proposed industrial building will measure ±69,650 sq. ft., with potential 4,000 sq. ft. designated as the first-floor office area, 4,000 sq. ft. as the office mezzanine, and the remaining ±61,650 sq. ft. designated for warehouse/manufacturing area.

Elevations

As illustrated in the elevations, the proposed industrial building will have a contemporary architectural design. The design firm, HPA Architecture, considered both arterial frontages along Florence Ave. and Norwalk Blvd. and have incorporated a majority of the architectural treatment and features along the facades facing both arterials. A few key design elements include window glazing, recess and pop-out, massing variation, decorative form liner, use of wood panels and colors variation.

Floor Area Ratio

The City's recently adopted 2040 General Plan identifies a maximum floor area ratio (FAR) of 1.5 within the business park land use area. With a total site area of 145,981 sq. ft., the maximum buildable area under the 1.5 FAR limitation for the subject property is 218,971.5 sq. ft. As proposed, the ±69,650 sq. ft. (0.48 FAR) industrial building is well within the limitations of the FAR requirement.

Landscape Requirement

For the maximum value, the majority of the landscaping will be provided along the front setback areas that adjoin both streets (Florence Ave. and Norwalk Blvd.). The project's landscaping calculation consist of the following:

Area	Calculation	Required (sq. ft.)	Provided (sq. ft.)
Frontage	549 linear ft. x 25 sq. ft.	13,725	16,715
Parking	6% of 105 parking stalls	956	6,472

The project, therefore, exceeds the minimum landscape requirement set forth in the City's Zoning Ordinance.

Parking Requirements

A total of 110 parking stalls will be provided for the new industrial building: 57 standard stalls, 23 compact stalls, 25 electric vehicle stalls, and 5 vanpool stalls.

The project's parking calculation will consist of the following:

Use	Calculation	Required	Provided
Industrial	First 40,000 sq. ft./500	80 stalls	110
	Remaining 29,668 sq. ft./750	40 stalls	
	TOTAL	**120 STALLS**	

Considering that the proposed development has a building size of less than 100,000 sq. ft., there is no requirement for additional parking designated for trucks and trailers. However, based on the provided parking plan, the proposed development does not currently meet the minimum parking requirements outlined in the City's Zoning Ordinance. In order to fulfill the City's minimum parking requirement, the applicant intends to establish a shared parking agreement with parcel 2, located to the south. The agreement will allocate 10 surplus parking stalls from parcel 2 for the proposed development on Parcel 1, thereby ensuring compliance with the minimum parking requirements as set forth by the City's Zoning Ordinance. It should be noted that as a Condition of Approval, the owner/developer will be required to execute the parking agreement prior to building final.

Loading/ Roll Up Doors

According to the plans, the proposed building will have a total of eight (8) loading doors, including one (1) grade-level door and seven (7) dock-high doors, along the west elevation. All loading doors are strategically placed so that they will not be directly visible from Florence Ave. and Norwalk Blvd. Additionally, the applicant will provide a 14-foot high decorative block wall to provide additional screening for on-site truck activities.

Per the City's Zoning Ordinance, all off-street truck loading areas, zones, ramps, doors, or docks shall be designed to provide and maintain a minimum unobstructed area of 120 feet to allow for proper truck maneuvering on-site. As proposed, the project will provide the required unobstructed truck maneuvering area in all necessary locations.

Trash Enclosures

According to the site plan, a single approximately 600 sq. ft. trash enclosure will be located along the west elevation. The proposed trash enclosure is strategically placed behind the proposed 14-foot high screen wall and thus, will not be visible or accessible to the public.

DEVELOPMENT PLAN APPROVAL CASE NO. 1001 (Parcel 2)

Site Plan

Development Plan Approval Case No. 1001 will consist of a new ±75,050 sq. ft.

concrete tilt-up single-tenant industrial building on Parcel 2 of the proposed subdivision. The proposed building will be setback a minimum of 95 feet from the property line along Norwalk Blvd. Additionally, the proposed building will setback a minimum 39 feet from the southerly property line, which provide the required buffer between the proposed industrial development and the existing mobile home park. The development will provide a 32-foot driveway and a 26-foot driveway entrance along Norwalk Blvd. for ingress and egress. Parking and landscaping will be distributed throughout the development. Similar to the proposed building on Parcel 1, the proposed building on Parcel 2 will provide an outdoor seating area with patio and tables along the east elevation

Floor Plan

The floor plan indicates that the proposed industrial building will measure ±75,050 sq. ft., with potential 5,000 sq. ft. designated as the first-floor office area, 5,000 sq. ft. as the office mezzanine, and the remaining 65,050 sq. ft. designated for warehouse/manufacturing area.

Elevations

As illustrated in the elevations, the proposed industrial building will have a contemporary architectural design. The design firm, HPA Architecture, considered arterial frontage along Norwalk Blvd. and have incorporated a majority of the architectural treatment and features along the facades facing both arterials. A few key design elements include window glazing, recess and pop-out, massing variation, decorative form liner, use of wood panels and colors variation. These design choices align with the overall aesthetic of the proposed building for Development Plan Approval Case No. 1000.

Floor Area Ratio

The City's recently adopted 2040 General Plan identifies a maximum floor area ratio (FAR) of 1.5 within the business park land use area. With a total site area of 173,167 sq. ft., the maximum buildable area under the 1.5 FAR limitation for the subject property is 259,750.5 sq. ft. As proposed, the ±75,050 sq. ft. (0.43 FAR) industrial building is well within the limitations of the FAR requirement.

Landscape Requirement

For the maximum value, the majority of the landscaping will be provided along the front setback areas that adjoin Norwalk Blvd. The project's landscaping calculation consist of the following:

Area	Calculation	Required (sq. ft.)	Provided (sq. ft.)
Frontage	276 linear ft. x 25 sq. ft.	4,400	10,241
Parking	6% of 105 parking stalls	1,071	7,000

The project, therefore, exceeds the minimum landscape requirement set forth in the City's Zoning Ordinance.

Parking Requirements

A total of 126 parking stalls will be provided for the new industrial building: 74 standard stalls, 22 compact stalls, 25 electric vehicle stalls, and 5 vanpool stalls. The project's parking calculation will consist of the following:

Use	Calculation	Required	Provided
Industrial	First 20,000 sq. ft./500	40 stalls	126
	Remaining 55,050 sq. ft./750	73 stalls	
	TOTAL	**113 STALLS**	

Since the proposed development is less than 100,000 sq. ft. in building size, additional parking designated for trucks and trailers is not required. The proposed project, therefore, exceeds the minimum parking requirements set forth by the City's Zoning Ordinance. As mentioned previously, the applicant intends to establish a shared parking agreement with parcel 1, located to the north. Under this arrangement, 10 out of the 13 surplus parking stalls on Parcel 2 will be allocated for the proposed development on Parcel 1, thereby ensuring that both developments will comply with the minimum parking requirements as set forth by the City's Zoning Ordinance.

Loading/ Roll Up Doors

According to the plans, the proposed building will have a total of nine (9) loading doors, including one (1) grade-level door and eight (8) dock-high doors, along the west elevation. All loading doors are strategically placed so that they will not be directly visible from Florence Ave. and Norwalk Blvd. Additionally, the applicant will provide a 14-foot high decorative block wall to provide additional screening for on-site truck activities.

Per the City's Zoning Ordinance, all off-street truck loading areas, zones, ramps, doors, or docks shall be designed to provide and maintain a minimum unobstructed area of 120 feet to allow for proper truck maneuvering on-site. As proposed, the project will provide the required unobstructed truck maneuvering area in all necessary locations.

Trash Enclosures

According to the site plan, a single approximately 600 sq. ft. trash enclosure will be located along the north property line. The proposed trash enclosure is strategically placed behind the proposed 14-foot high screen wall and thus, will not be visible or accessible to the public.

STREETS AND HIGHWAYS

The subject property is located on the southwest corner of Norwalk Boulevard and Florence Avenue. Both Norwalk Boulevard and Florence Avenue are designated as Major Arterial within the Circulation Element of the City's General Plan. Both Norwalk Boulevard and Florence Avenue are designated as non-weight restricted street.

LEGAL NOTICE OF PUBLIC HEARING

This matter was set for Public Hearing in accordance with the requirements of Sections 65090 and 65091 of the State Planning, Zoning and Development Laws and the requirements of Sections 155.860 through 155.864 of the City's Municipal Code.

Legal notice of the Public Hearing for the proposed project was sent by first class mail to all property owners whose names and addresses appear on the latest County Assessor's Roll within 500 feet of the exterior boundaries of the subject property on August 3, 2023. The legal notice was also posted in Santa Fe Springs City Hall, the City's Town Center Kiosk, the City's Library, and published in a newspaper of general circulation (Whittier Daily News) on August 3, 2023, as required by the State Zoning and Development Laws and by the City's Zoning Ordinance.

ENVIRONMENTAL DOCUMENTS

California Environmental Quality Act (CEQA)

The proposed development is considered a project under the California Environmental Quality Act (CEQA); and as a result, the project is subject to CEQA review.

The project site constitutes a portion of the 'Koontz Site,' which was designated as Key Opportunity Site 1 within the City's Certified Environmental Impact Report (EIR) for the General Plan and Targeted Zoning Ordinance Update. The 'Koontz Site' underwent an initial assessment for a potential commercial/business park development, with a projected area of 110,500 square feet. The applicant is now proposing to construct an approximately 140,155 square foot business park development instead of the previously envisioned commercial/business park development.

The applicant believes that the proposed project satisfies the criteria outlined in CEQA Guidelines Section 15164 for the preparation of an Addendum to a Certified Environmental Impact Report (EIR). The applicant has therefore submitted an Addendum to the City's Certified EIR for the General Plan and Targeted Zoning Ordinance Update, along with accompanying technical analyses. These materials serve to establish that the proposed industrial development will not result in environmental impacts substantially greater than or

different from impacts previously identified and addressed within the City's Certified EIR for the General Plan and Targeted Zoning Ordinance Update.

CEQA Authority for Addendum

In accordance with CEQA Guidelines Section 15164, an Addendum to a Certified EIR may be prepared when only minor technical changes or additions are necessary, and none of the conditions described in Section 15162, which call for the preparation of a subsequent or supplemental EIR, have arisen.

CEQA Guideline Section:	Requirement for a subsequent EIR
15162	1. Substantial changes are proposed in the project which will require major revisions of the previous EIR or negative declaration due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects; 2. Substantial changes occur with respect to the circumstances under which the project is undertaken, which will require major revisions of the previous EIR or negative declaration due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects; or 3. New information of substantial importance, which was not known and could not have been known with the exercise of reasonable diligence at the time the previous EIR was certified as complete or the negative declaration was adopted, shows any of the following: • The project will have one or more significant effects not discussed in the previous EIR or negative declaration; • Significant effects previously examined will be substantially more severe than shown in the previous EIR; • Mitigation measures or alternatives previously found not to be feasible would in fact be feasible, and would substantially reduce one or more significant effects of the project, but the project

	proponents decline to adopt the mitigation measure or alternative; or • Mitigation measures or alternatives which are considerably different from those analyzed in the previous EIR would substantially reduce one or more significant effects on the environment, but the project proponents decline to adopt the mitigation measure or alternative.

After consulting with our environmental consultant and the city attorney's office, it has been determined that the proposed industrial development does not necessitate any changes/additions to the City's Certified EIR for the General Plan and Targeted Zoning Ordinance Update and does not meet any of the conditions outlined in Section 15162 that would require the preparation of a Subsequent EIR. Therefore, it is determined that an Addendum to the City's Certified EIR for the General Plan and Targeted Zoning Ordinance Update is the appropriate CEQA document for the proposed project.

Addendum

A comprehensive evaluation of the submitted Addendum and its supporting documents confirms that the proposed industrial development will not introduce any new significant impacts or substantially amplify any previously identified significant impacts. The mitigation measures detailed in the City's Certified EIR for the General Plan and Targeted Zoning Ordinance Update will remain in effect, ensuring compliance with approved environmental document. Attachment A of the Addendum, however, provides a comprehensive overview of all the mitigation measures presented in the City's Certified EIR for the General Plan and Targeted Zoning Ordinance Update along with the project specific measures. These applicable mitigation measures for the Project will be diligently implemented.

It should be noted that pursuant to 15164(c) of the CEQA guideline, there is no public review or posting requirement for an addendum. However, as mentioned previously, a public hearing notice for the proposed project, which includes the CEQA determination, was sent by first class mail to all property owners whose names and addresses appear on the latest County Assessor's Roll within 500 feet of the exterior boundaries of the subject property and was also posted in Santa Fe Springs City Hall, the City's Town Center Kiosk, the City's Library, and published in a newspaper of general circulation (Whittier Daily News) on August 3, 2023.

Lastly, the project site is not included on a Cortese list and is not identified on the EPA's database (Environfacts).

Upon approval of the proposed project, staff shall file a Notice of Determination in compliance with current State guidelines with the State Clearinghouse, pursuant to section 21152(a) of the Public Resources Code and the State CEQA Guidelines.

Oil Well

According to well-construction and abandonment records from the California Department of Conservation – Geologic Energy Management Division (CalGEM) two oil wells were identified on the subject site. According to CalGEM records, the easterly well (Well No. 5) was originally drilled in 1945 and abandoned in 1974. The northerly well (Well No. 119) was originally drilled in 1945 and abandoned in 2001. As part of the conditions of approval, the applicant must comply with the requirements of Section 117.131 of the Santa Fe Springs Municipal Code, and all applicable requirements for a soil gas study or methane mitigation system prior to issuance of building permits.

Traffic

As part of the CEQA analysis, the applicant hired Urban Crossroad to prepare a vehicle miles traveled (VMT) analysis. The results of the analysis is shown in the table below.

		AM Peak Hour			PM Peak Hour			
Land Use	Quantity Units[1]	In	Out	Total	In	Out	Total	Daily
Currently Adopted: Shopping Center	110.500 TSF							
Passenger Cars:		119	73	191	169	180	349	4,476
Total Truck Trips:		0	0	0	0	0	0	0
Total Trips[2]		119	73	191	169	180	349	4,476
Proposed: General Light Industrial	146.563 TSF							
Passenger Cars:		95	12	107	13	81	94	678
Total Truck Trips:		1	0	1	0	0	0	36
Total Trips[2]		96	12	108	13	81	94	714
Net Change:								
Passenger Cars:		-24	-61	-84	-156	-99	-255	-3,798
Total Truck Trips:		1	0	1	0	0	0	36
Total Trips[2]		**-23**	**-61**	**-83**	**-156**	**-99**	**-255**	**-3,762**

While the proposed project demonstrates a notable reduction in VMT by 3,762 trips, compared to the evaluation of a 110,500 square foot commercial/business park development analyzed within the City's Certified EIR for the General Plan and Targeted Zoning Ordinance Update, it is important to note that as a condition of approval, the applicant/developer is required to provide a traffic study. This study must be prepared by a Professional Engineer registered in the state of California. Additionally, the data for the Traffic Study must be collected outside of

the school summer break to ensure higher accuracy, and shall be within (6) months of the submittal date. The Traffic Study Report must present both the existing traffic conditions in the area and the projected traffic after the development of the property. Any improvements or mitigation measures, which may include but are not limited to the installation and/or modification of traffic signals, protected left turn phasing, additional left turn lanes, deceleration lanes, the lengthening of left turn lanes, or other median modifications, as determined by the City Traffic Engineer, will be based on the findings of the provided Traffic Study.

California Reuse and Revitalization Act (CLRRA)

In October 2022, the applicant voluntarily engaged in an agreement with the California Department of Toxic Substances Control (DTSC) to address and rectify minor environmental contamination on the site. This agreement was established under the provisions of the California Reuse and Revitalization Act (CLRRA).

Substantial environmental investigation efforts have already been undertaken by the applicant at the project site, with plans for further investigations in progress. Notably, the applicant is presently engaged in the removal of specific buried pipes situated in the northern section of the Site, along with addressing any potential soil contamination associated with these pipes. DTSC has reviewed and sanctioned the applicant's proposed approach for this task.

Furthermore, the applicant anticipates additional investigation efforts to be carried out at other areas of the project site. In cases where contaminated soil removal is deemed necessary, the procedures will adhere to a meticulously prepared Soil Management Plan (SMP), which will be subject to DTSC's approval as well as the Santa Fe Springs Department of Fire-Rescue Environmental Protection Division (EPD) prior to the commencement of grading activities. This SMP will encompass the proper characterization, excavation, and off-site disposal of soil at a qualified facility. These soil-related activities will be closely synchronized with any demolition and redevelopment work at the Site, with rigorous oversight and endorsement from DTSC.

CRITERIA FOR GRANTING A TENTATIVE PARCEL MAP

The Commission should note that in accordance with the State's Subdivision Map Act, before granting a Tentative Parcel Map, the Commission shall give consideration to the following:

(A) *Section 66473.5 and Sections 66474(a) and (b) of the Subdivision Map Act require tentative maps to be consistent with the general plan and*

specific plans. The proposed Tentative Parcel Map, subject to the attached conditions, is in accordance with the Subdivision Map Act in that.

(B) *Sections 66474(c) and (d) of the Subdivision Map Act require the site to be physically suitable for the type of development and proposed density of development.*

(C) *Sections 66474(e) and (f) of the Subdivision Map Act require that the design of the subdivision or the proposed improvements are not likely to cause substantial environmental damage or substantially and avoidably injure fish or wildlife or their habitat or is likely to cause serious public health concerns.*

(D) *Section 66474(g) of the Subdivision Map Act requires that the design of the subdivision or the type of improvements will not conflict with easements, acquired by the public at large, for access through or use of, property within the proposed subdivision.*

(E) *In accordance with Government Code Section 66474.6, it has been determined that the discharge of waste from the proposed subdivision, subject to the attached conditions, into the existing sewer system will not result in a violation of the requirements prescribed by the Regional Water Quality Control Board in that the developer is required to comply with the IS/MND Mitigation Monitoring and Reporting Program, submit an erosion control plan and comply with the NPDES Best Management Practices during the grading and construction phases of the project.*

(F) *That the proposed subdivision shall be in accordance with Government Code Section 66473.1, entitled "Design of Subdivisions to provide for Future Passive or Natural Heating and Cooling Opportunities."*

CRITERIA FOR GRANTING A DEVELOPMENT PLAN APPROVAL

The Commission should note that in accordance with Section 155.739 of the City's Zoning Ordinance, before granting a Development Plan Approval, the Commission shall give consideration to the following:

(A) That the proposed development is in conformance with the overall objectives of this chapter.

(B) That the architectural design of the proposed structures is such that it will enhance the general appearance of the area and be in harmony with the intent of this chapter.

(C) That the proposed structures be considered on the basis of their suitability for their intended purpose and on the appropriate use of materials and on the principles of proportion and harmony of the various elements of the buildings or structures.

(D) That consideration be given to landscaping, fencing and other elements of the proposed development to ensure that the entire development is in harmony with the objectives of this chapter.

(E) That it is not the intent of this subchapter to require any particular style or type of architecture other than that necessary to harmonize with the general area.

(F) That it is not the intent of this subchapter to interfere with architectural design except to the extent necessary to achieve the overall objectives of this chapter.

(G) As a means of encouraging residential development projects to incorporate units affordable to extremely low income households and consistent with the city's housing element, the city will waive Planning Department entitlement fees for projects with a minimum of 10% extremely low income units. For purposes of this section, extremely low income households are households whose income does not exceed the extremely low-income limits applicable to Los Angeles County, as published and periodically updated by the state's Department of Housing and Community Development pursuant Cal. Health and Safety Code § 50106.

AUTHORITY OF PLANNING COMMISSION

Tentative Parcel Map

The Planning Commission, after receiving and hearing the results of investigations and reports on the design and improvements of any proposed division of real property for which a tentative map is filed, shall have the authority to impose requirements and conditions upon such division of land and to approve, conditionally approve or disapprove such map and division of land.

Development Plan Approval

The Planning Commission has the authority, subject to the procedures set forth in the City's Zoning Ordinance, to grant a Development Plan Approval when it has been found that said approval is consistent with the requirements, intent and purpose of the City's Zoning Ordinance. The Commission may grant, conditionally grant or deny approval of a proposed development plan based on the evidence submitted and upon its own study and knowledge of the

circumstances involved, or it may require submission of a revised development plan.

STAFF REMARKS

Based on the findings set forth in the attached Resolution No. 248-2023, staff finds that the applicants request meets the criteria set forth in the State's Subdivision Map Act, for the granting of a Tentative Parcel Map (TPM No. 84116). Staff also finds that the applicant's requests meet the criteria set forth in §155.739 of the City's Zoning Ordinance, for the granting of Development Plan Approval Case Nos. 1000 & 1001. Staff is, therefore, recommending approval of TPM No. 84116 and DPA Case Nos. 1000 & 1001, subject to the conditions of approval (Exhibit A).

CONDITIONS OF APPROVAL

Conditions of approval for TPM No. 84116, DPA Case No. 1000 & DPA Case No. 1001 are attached to Resolution No. 248-2023 as Exhibit A.

CITY OF SANTA FE SPRINGS
NOTICE OF PUBLIC HEARING
TENTATIVE PARCEL MAP NO. 84116
DEVELOPMENT PLAN APPROVAL (DPA) CASE NOs. 1000 & 1001

NOTICE IS HEREBY GIVEN that the Planning Commission of the City of Santa Fe Springs will hold a Public Hearing to consider the following:

TENTATIVE PARCEL MAP NO. 84116: A request for approval to subdivide an existing parcel (APN: 8009-023-027) into two parcels: Parcel 1 of ±3.33 acres and Parcel 2 of ±3.99 acres.

DEVELOPMENT PLAN APPROVAL CASE NO. 1000: A request for approval to allow the construction of a new ±69,650 sq. ft. concrete tilt-up industrial building and related improvements on the subject site.

DEVELOPMENT PLAN APPROVAL CASE NO. 1001: A request for approval to allow the construction of a new ±75,050 sq. ft. concrete tilt-up industrial building and related improvements on the subject site.

PROJECT LOCATION/ZONE: 10845 Norwalk Blvd. (APN: 8009-023-027), within the M-2 Heavy Manufacturing Zone.

THE HEARING will be held before the Planning Commission of the City of Santa Fe Springs in the Council Chambers of the City Hall, 11710 Telegraph Road, Santa Fe Springs, on **Monday, August 14, 2023 at 6:00 p.m.**

LEGAL DESCRIPTION

THE LAND REFERRED TO HEREIN BELOW IS SITUATED IN THE CITY OF SANTA FE SPRINGS, IN THE COUNTY OF LOS ANGELES, STATE OF CALIFORNIA, AND IS DESCRIBED AS FOLLOWS:

THE NORTHEAST QUARTER OF THE SOUTHEAST QUARTER OF THE SOUTHWEST QUARTER OF SECTION 6, TOWNSHIP 3 SOUTH, RANGE 11 WEST, IN THE RANCHO SANTA GERTRUDES, IN THE CITY OF SANTA FE SPRINGS, COUNTY OF LOS ANGELES, STATE OF CALIFORNIA, AS SHOWN ON MAP RECORDED IN BOOK 1, PAGE 502 OF MISCELLANEOUS RECORDS, IN THE OFFICE OF THE COUNTY RECORDER OF SAID COUNTY.

EXCEPT THEREFROM THE NORTH 25 FEET THEREOF, AS INCLUDED IN FLORENCE AVENUE, (FORMERLY LITTLE LAKE ROAD).

ALSO EXCEPT THEREFROM THE EAST 30 FEET RESERVED FOR ROADS, RAILROADS, DITCHES AND WATER COURSES, IN DEED FROM SANTA GERTRUDES LAND ASSOCIATION, A CORPORATION, RECORDED MARCH 19, 1878 IN BOOK 60, PAGE 406 OF DEEDS.

ALSO EXCEPT THEREFROM THAT PORTION DESCRIBED AS FOLLOWS:

BEGINNING AT THE NORTHWEST CORNER OF THE NORTHEAST QUARTER OF THE SOUTHEAST QUARTER OF THE SOUTHWEST QUARTER OF SAID SECTION 6; THENCE EASTERLY ALONG THE NORTHERLY LINE OF SAID QUARTER, QUARTER, QUARTER SECTION A DISTANCE OF 150 FEET; THENCE SOUTHERLY PARALLEL WITH THE WESTERLY LIE OF SAID QUARTER, QUARTER, QUARTER SECTION A DISTANCE OF 396 FEET; THENCE WESTERLY PARALLEL WITH SAID NORTHERLY LINE TO SAID WESTERLY LINE; THENCE NORTHERLY ALONG SAID WESTERLY LINE TO THE POINT OF BEGINNING.

ALSO EXCEPT ALL RIGHTS AND INTEREST RESERVED OR EXCEPTED IN THE DEED TO THE NORTH 200 FEET OF THE EAST 200 FEET OF THE NORTHEAST QUARTER OF THE SOUTHEAST QUARTER OF THE SOUTHWEST QUARTER OF SECTION 6, TOWNSHIP 3 SOUTH, RANGE 11 WEST, IN THE RANCHO SANTA GERTRUDES, IN THE CITY OF SANTA FE SPRINGS, COUNTY OF LOS ANGELES, STATE OF CALIFORNIA, AS SHOWN ON MAP RECORDED IN BOOK 1, PAGE 502 OF MISCELLANEOUS RECORDS, IN THE OFFICE OF THE COUNTY RECORDER OF SAID COUNTY, FROM GEORGE ALBERT KOONTZ AND WIFE, TO GENERAL PETROLEUM CORPORATION, REGISTERED JANUARY 13, 1923 AS INSTRUMENT NO. 33109, ON CERTIFICATE NO. BA-19258 OF TORRENS, WHICH DEED RESERVED ALL OIL AND GAS, ETC. AND RECITED "THIS CONVEYANCE IS INTENDED ONLY TO CONVEY THE SURFACE RIGHTS OF SAID PROPERTY".

ALSO EXCEPT ALL OIL, GAS AND OTHER HYDROCARBON SUBSTANCES CONTAINED IN SAID LAND. GRANTORS OR THEIR SUCCESSORS, SHALL HAVE ALL RIGHTS INCIDENTAL OR NECESSARY TO THE CONVENIENT EXTRACTION OF ALL OIL, GAS OR OTHER HYDROCARBON SUBSTANCES, AS RESERVED IN THE DEED ABOVE MENTIONED. BY AN INSTRUMENT DATED JANUARY 9, 1964 AND RECORDED JANUARY 27, 1964 AS INSTRUMENT NO. 5023 OF OFFICIAL RECORDS ALL RIGHTS AS EXCEPTED OR RESERVED BY GEORG ALBERT KOONTZ AND BESSIE KOONTZ, HIS WIRE, IN THE LAST ABOVE MENTIONED DEED, TO ENTER UPON THE SURFACE AND THAT PORTION OF THE SUBSURFACE LYING ABOVE A DEPTH OF 300 FEET BELOW THE PRESENT SURFACE OF SAID LAND, WERE RELINQUISHED AND RELEASED.

ALSO EXCEPT ALL RIGHTS AND INTEREST RESERVED OR EXCEPTED FROM THAT PORTION OF THE NORTHEAST QUARTER OF THE SOUTHEAST QUARTER OF THE SOUTHWEST QUARTER OF SECTION 6, TOWNSHIP 3 SOUTH, RANGE 11 WEST, IN RANCHO SANTA GERTRUDES, IN THE COUNTY OF LOS ANGELES, STATE OF CALIFORNIA, AS PER MAP RECORDED IN BOOK 1, PAGE 502 OF MISCELLANEOUS RECORDS, DESCRIBED AS FOLLOWS:

BEGINNING AT THE SOUTHEAST CORNER OF THE NORTHEAST QUARTER OF THE SOUTHEAST QUARTER OF THE SOUTHWEST QUARTER OF SAID SECTION; THENCE WEST ALONG THE SOUTH LINE OF SAID NORTHEAST QUARTER OF THE SOUTHEAST QUARTER OF THE SOUTHWEST QUARTER 20 RODS; THENCE NORTH 12 RODS; THENCE EAST 20 RODS; THENCE SOUTH 12 RODS TO THE POINT OF BEGINNING.

ALSO EXCEPT PORTION IN THE COUNTY ROADS, IN DEED FROM A. L. LEWIS, ET AL., RECORDED IN BOOK 2455, PAGE 72 OF OFFICIAL RECORDS, WHICH DEED RESERVED ALL OIL AND GAS, ETC. AND RECITED "THIS CONVEYANCE IS INTENDED TO CONVEY THE SURFACE RIGHTS OF SAID PROPERTY".

ALSO EXCEPT ALL OIL, GAS AND OTHER HYDROCARBON SUBSTANCES CONTAINED IN THE EAST 80 FEET OF THE WEST 110 FEET OF THAT PARCEL OF LAND DESCRIBED AS COMMENCING AT THE INTERSECTION OF THE NORTH LINE OF THE SOUTHEAST QUARTER OF THE SOUTHEAST QUARTER OF THE SOUTHWEST QUARTER OF SECTION 6, TOWNSHIP 3 SOUTH, RANGE 11 WEST, WITH THE WEST LINE OF NORWALK ROAD; THENCE WEST ALONG SAID NORTH LINE 20 RODS; THENCE NORTH AT RIGHT ANGLES WITH THE SAID NORTH LINE 12 RODS; THENCE EAST PARALLEL WITH THE SAID NORTH LINE 20 RODS; THENCE SOUTH, ALONG THE WEST LINE OF NORWALK ROAD, 12 RODS TO THE POINT OF BEGINNING. GRANTORS OR THEIR SUCCESSORS, SHALL HAVE ALL RIGHTS INCIDENTAL OR NECESSARY TO THE CONVENIENT EXTRACTION OF ALL OIL, GAS OR OTHER HYDROCARBON SUBSTANCES, AS RESERVED IN THE DEED ABOVE MENTIONED.

ALSO EXCEPT ALL OIL, GAS AND OTHER HYDROCARBON SUBSTANCES CONTAINED IN THE WEST 30 FEET OF THE WEST 110 FEET OF THAT PARCEL OF LAND DESCRIBED AS COMMENCING AT THE INTERSECTION OF THE NORTH LINE OF THE SOUTHEAST QUARTER OF THE SOUTHEAST QUARTER OF THE SOUTHWEST QUARTER OF SECTION 6, TOWNSHIP 3 SOUTH, RANGE 11 WEST, WITH THE WEST LINE OF NORWALK ROAD; THENCE WEST ALONG SAID NORTH LINE 20 RODS; THENCE NORTH AT RIGHT ANGLES WITH THE SAID NORTH LINE, 12 RODS; THENCE EAST PARALLEL WITH THE SAID NORTH LIE, 20 RODS; THENCE SOUTH, ALONG THE WEST LINE OF NORWALK ROAD, 12 RODS TO THE POINT OF BEGINNING, AS RESERVED BY GEORGE A. KOONTZ AND WIFE, IN DEED RECORDED IN BOOK 22744, PAGE 53 OF OFFICIAL RECORDS.

ALSO EXCEPT ALL RIGHTS AND INTERESTS IN THE WEST 30 FEET OF THE WEST 110 FEET OF THAT PARCEL OF LAND DESCRIBED AS COMMENCING AT THE INTERSECTION OF THE NORTH LINE OF THE SOUTHEAST QUARTER OF THE SOUTHEAST QUARTER OF THE SOUTHWEST QUARTER OF SECTION 6, TOWNSHIP 3 SOUTH, RANGE 11 WEST, WITH THE WEST LINE OF NORWALK ROAD; THENCE WEST ALONG SAID NORTH LINE, 12 RODS; THENCE NORTH AT RIGHT ANGLES WITH THE SAID NORTH LIE, 12 RODS; THENCE EAST PARALLEL WITH THE SAID NORTH LINE, 20 RODS; THENCE SOUTH ALONG THE WEST LINE OF NORWALK ROAD, 12 RODS TO THE POINT OF BEGINNING, RESERVED OR EXCEPTED IN THE DEED BY GENERAL PETROLEUM CORPORATION OF CALIFORNIA TO A. SPERRY, RECORDED IN BOOK 22741, PAGE 59 OF OFFICIAL RECORDS, WHICH DEED EXCEPTED ALL OIL AND GAS AND RECITED "THIS CONVEYANCE IS INTENDED ONLY TO CONVEY THE SURFACE RIGHTS OF SAID PROPERTY".

NOTES

1. THIS PLOT WAS PREPARED FROM INFORMATION FURNISHED IN A PRELIMINARY TITLE REPORT, PREPARED BY FIDELITY NATIONAL TITLE INSURANCE COMPANY, DATED MARCH 25, 2022, NUMBER 30041883-005-SM1-TC1. NO LIABILITY IS ASSUMED FOR MATTERS OF RECORD NOT STATED IN SAID PRELIMINARY TITLE REPORT THAT MAY AFFECT THE TITLE LINES, OR EXCEPTIONS, OR EASEMENTS OF THE PROPERTY.

2. ALL DISTANCES AND ELEVATIONS SHOWN HEREON ARE IN FEET AND DECIMALS THEREOF.

3. UTILITY INFORMATION HEREON IS PROGRESS AT THIS TIME. A REQUEST WAS MADE TO THE RESPECTIVE AGENCIES FOR INFORMATION REGARDING THE LOCATION OF THEIR FACILITIES ON THIS SITE. AS OF 6-27-22, THEY HAD NOT RESPONDED WITH THIS INFORMATION. UNTIL WE RECEIVE THIS INFORMATION AND ARE ABLE TO DELINEATE THESE FACILITIES, ALL PARTIES SHOULD CONSIDER THIS SURVEY AS PRELIMINARY WITH REGARDS TO THE LOCATION OF UTILITY FACILITIES. UPON RECEIPT OF THIS INFORMATION KIER & WRIGHT WILL UPDATE THIS SURVEY AND REISSUE IT.

4. THE SUBJECT PROPERTY IS SHOWN ON THE FEDERAL EMERGENCY MANAGEMENT AGENCY (FEMA) FLOOD INSURANCE RATE MAP (FIRM) FOR LOS ANGELES COUNTY, CALIFORNIA, MAP NUMBER 06037C1837F FOR COMMUNITY NUMBER 060158 (CITY OF SANTA FE SPRINGS), WITH AN EFFECTIVE DATE OF SEPTEMBER 26, 2008, AS BEING LOCATED IN FLOOD ZONE "X (UNSHADED)". ACCORDING TO FEMA THE DEFINITION OF ZONE "X (UNSHADED)" IS "AREAS DETERMINED TO BE OUTSIDE THE 0.2% ANNUAL CHANCE FLOODPLAIN.

   FEMA BASE FLOOD ELEVATIONS ARE BASED ON NAVD88 DATUM.

5. BENCHMARK:
   THE BENCHMARK USED FOR THIS SURVEY IS EY7262, DESCRIBED AS "L&BN IN W CB 2FT S/O BCR @ SW COR FLORENCE AVE & NORWALK BL", COUNTY OF LOS ANGELES.
   ELEVATION = 135.924 FEET (NAVD88 DATUM)

6. BASIS OF BEARINGS:
   THE BEARING OF NORTH 83° 20' 45" WEST TAKEN ON THE CALCULATED BEARING BETWEEN CORS STATIONS LORS AND VDCY OF AS SHOWN ON THOSE CERTAIN NGS DATA SHEETS, OFFICIAL RECORDS OF LOS ANGELES COUNTY WAS TAKEN AS THE BASIS FOR ALL BEARINGS SHOWN HEREON.

7. CORNER RECORD NOTE:
   THE DEVELOPER AND/OR CONTRACTOR SHALL BE RESPONSIBLE FOR THE PREPARATION AND FILING OF PRE-CONSTRUCTION AND POST-CONSTRUCTION CORNER RECORDS FOR ANY MONUMENTS OR PROPERTY CORNERS SHOWN HEREON THAT MAY BE DESTROYED DURING IMPROVEMENTS TO THE SUBJECT PROPERTY AS DEFINED IN SECTION 8771(B) OF THE PROFESSIONAL LAND SURVEYORS ACT.

8. THE AERIAL MAPPING WAS PREPARED USING COMPUTER ASSISTED, PHOTOGRAMMETRIC METHODS BY COOPER AERIAL SURVEYS CO., IN PHOENIX ARIZONA. IN AREAS OF DENSE VEGETATION, ACCURACY OF CONTOURS MAY DEVIATE FROM ACCEPTED ACCURACY STANDARDS. DATE OF PHOTOGRAPHY 6/14/22, ORIGINAL COMPILED MAP SCALE 1"=40', CONTOUR INTERVAL 1 FOOT. THE GRID IS BASED ON PHOTOGRAMMETRIC METHODS COMPILED ON DIGITAL STEREO WORKSTATIONS USING AERIAL PHOTOGRAPHY. CONTROL SURVEY PERFORMED BY KIER & WRIGHT, LIVERMORE, CA.

LANDSCAPE REQUIREMENT

Where an ML Zone adjoins a dedicated street, a minimum area equivalent to 25 square feet for each lineal foot of primary frontage on said street shall be suitably landscaped and maintained. In addition, all parking areas shall have landscaping installed equivalent to 6% of the total parking area.	Frontage Landscape: Building 1- 549' x 25 sf/ linear foot=13,725 sf Building 2- ' 276 'x 25 sf/ linerl foot=4,400 sf Parking area Landscape: Building 1 - 6% of 105 parking stalls=956 sf Building 2 - 6% of 117 parking stalls=1,071 sf

LANDSCAPE PROVIDED

In s.f.	23,187	17,241 s.f.

OVERALL SITE PLAN

scale: 1" = 20'-0"

SCALE: 1" = 20'-0"

SITE PLAN KEYNOTES

1. HEAVY BROOM FINISH CONCRETE PAVEMENT
2. PAVING PER CIVIL
3. CONCRETE WALKWAY, MEDIUM BROOM FINISH
4. 14'H CONCRETE SCREEN WALL
5. 5'-6"X5'-6"X4" THICK CONCRETE EXTERIOR LANDING PAD TYP. AT ALL EXTERIOR MAN DOORS TO LANDSCAPED AREAS. FINISH TO BE MEDIUM BROOM FINISH. PROVIDE WALK TO PUBLIC WAY OR DRIVE WAY AS REQ. BY CITY INSPECTOR.
6. TRANSFORMERS PER ELECTRICAL DRAWINGS AND SERVICE PROVIDER.
7. 8'-0" HIGH METAL SLIDING GATES W/ KNOX-BOX PER FIRE DEPARTMENT STANDARDS PER DRIVEWAY. CONTRACTOR TO DESIGN & DETAIL GATES. DRAWINGS AND CALCULATIONS PRIOR TO FABRICATION. PROVIDE CONDUIT FOR FUTURE.
8. CONCRETE RAMP.
9. BIKE RACK.
10. FIRE HYDRANT W/ CONC. FILLED STEEL GUARD POST
11. EXTERIOR CONCRETE STAIR.
12. 12'W X 14'H' OVERHEAD DOOR @ DRIVE THRU.
13. ALL LANDSCAPE AREAS INDICATED BY SHADING
14. CONC. FILLED GUARD POST "6 DIA. U.N.O. 42" H,
15. 8'H WROUGHT IRON FENCE
16. PRE-CAST CONC. WHEEL STOP.
17. TRUNCATED DOME.
18. SMOKE POLE
19. MONUMENT SIGN
20. ACCESSIBLE ENTRY SIGN.
21. ACCESSIBLE PARKING STALL SIGN
22. TRASH ENCLOSURE PER CITY STANDARD
23. DECORATIVE DRIVEWAY APRONS

SITE PLAN GENERAL NOTES

1. ALL LIGHTING SHALL CONFORM WITH MUNICIPAL STANDARDS.
2. SEE CIVIL AND STRUCTURAL FOR SITE CONCRETE.
3. ALL DIMENSIONS ARE TO THE FACE OF CONCRETE WALL, FACE OF CONCRETE CURB OR GRID LINE U.N.O.
4. REFER TO CIVIL PLANS FOR ALL CONCRETE CURBS, GUTTERS AND SWALES. DETAILS ON SHEET AD.1 ARE MINIMUM STANDARDS.
5. THE ENTIRE PROJECT SHALL BE PERMANENTLY MAINTAINED WITH AN AUTOMATIC IRRIGATION SYSTEM.
6. REFER TO CIVIL DWGS FOR POINT OF CONNECTIONS TO OFF-SITE UTILITIES. CONTRACTOR SHALL VERIFY ACTUAL UTILITY LOCATIONS.
7. PROVIDE POSITIVE DRAINAGE AWAY FROM BLDG. REFER TO CIVIL DRAWINGS.
8. CONTRACTOR TO REFER TO CIVIL DRAWINGS FOR ALL HORIZONTAL CONTROL DIMENSIONS. SITE PLANS ARE FOR GUIDANCE AND STARTING LAYOUT POINTS.
9. REFER TO CIVIL DRAWINGS FOR FINISH GRADE ELEVATIONS.
10. CONCRETE SIDEWALKS TO BE A MINIMUM OF 4" THICK W/ TOOLED JOINTS AT 6' O.C. EXPANSION/CONSTRUCTION JOINTS SHALL BE A MAXIMUM 12' EA. WAY. EXPANSION JOINTS TO HAVE COMPRESSIVE EXPANSION FILLER MATERIAL OF 1/4". FINISH TO BE A MEDIUM BROOM FINISH U.N.O.
11. ALL SIGNAGE SHALL CONFORM WITH THE MUNICIPAL STANDARD.
12. PAINT CURBS AND PROVIDE SIGNS TO INFORM OF FIRE LANES AS REQUIRED BY FIRE DEPARTMENT.
13. CONSTRUCTION DOCUMENTS PERTAINING TO THE LANDSCAPE AND IRRIGATION OF THE ENTIRE PROJECT SITE SHALL BE SUBMITTED TO THE BUILDING DEPARTMENT AND APPROVED BY PUBLIC FACILITIES DEVELOPMENT PRIOR TO ISSUANCE OF BUILDING PERMITS.
14. PRIOR TO FINAL CITY INSPECTION, THE LANDSCAPE ARCHITECT SHALL SUBMIT A CERTIFICATE OF COMPLETION TO PUBLIC FACILITIES DEVELOPMENT.
15. SITE PLAN SHALL MEET ALL ENGINEERING AND NPDES REQUIREMENT.
16. ALL LANDSCAPE AND IRRIGATION DESIGNS SHALL MEET CURRENT CITY STANDARDS AS LISTED IN GUIDELINES OR AS OBTAINED FROM PUBLIC FACILITIES DEVELOPMENT.
17. WALLS SHALL BE TREATED WITH A GRAFFITI-PROOF COATING ON SURFACES THAT ARE NOT INTENDED TO BE PAINTED (E.G. SPLIT-FACE BLOCK WALL, DECORATIVE TILE, COLORED PANELING MATERIAL, ETC.).
18. ALL VERTICAL MOUNTING POLES OF CHAIN LINK FENCING SHALL BE CAPPED.
19. LANDSCAPED AREAS SHALL BE DELINEATED WITH A MINIMUM SIX INCHES (6") HIGH CURB
20. THE WASTE STORAGE AREA SHALL BE GRADED SO THAT STORAGE CONTAINERS REMAIN AT REST WITHOUT AUXILIARY RESTRAINING DEVICES
21. INDICATE ON THE PLANS THE AREA DESIGNATED FOR RECYCLABLE MATERIALS (MIN. 50% OF THE WASTE STORAGE AREA)

SITE PLAN LEGEND

KEYNOTES - FLOOR PLAN

1. CONCRETE TILT-UP PANEL.
2. STRUCTURAL STEEL COLUMN.
3. TYPICAL STOREFRONT SYSTEM WITH GLAZING. SEE OFFICE BLOW-UP AND ELEVATIONS FOR SIZE, COLOR AND LOCATIONS.
4. CONCRETE RAMP W/ 42"HIGH CONC TILT-UP GUARD WALL AND WALL ON BOTH SIDE OF RAMP.
5. 9'-0" X 10' TRUCK DOOR, SECTIONAL O'H., STANDARD GRADE.
6. EXTERIOR CONCRETE STAIR
7. 5'-6"X5'-6"X4" THICK CONCRETE EXTERIOR LANDING PAD TYPICAL AT ALL EXTERIOR MAN DOORS TO LANDSCAPED AREA. FINISH TO BE MEDIUM BROOM FINISH. SLOPE TO BE 1/4" - 12" MAX. PROVIDE WALK TO HARD SURFACE PER CITY REQUIREMENTS.
8. LOUVERED OPENING FOR VENTILATION.
9. DOCK DOOR BUMPER
10. 12' X 14' DRIVE THRU. SECTIONAL OH., STANDARD GRADE.
11. 3'X7' HOLLOW METAL EXTERIOR MAN DOOR.
12. CANOPY PROJECTION LINE ABOVE
13. ROOF HATCH ACCESS LADDER
14. CONC. FILLED GUARD POST. 6" DIA. U.N.O., 42"H
15. INTERIOR ROOF DRAIN WITH OVERFLOW SCUPPERS
16. Z GUARD FOR ALL OVERHEAD DOORS
17. BIKE RACK.

GENERAL NOTES-FLOOR PLAN

A. THIS BUILDING IS DESIGNED FOR HIGH PILE STORAGE WITH FIRE ACCESS MAN DOORS AT 100' MAXIMUM O.C. A SEPARATE PERMIT WILL BE REQUIRED FOR ANY RACKING/CONVEYER SYSTEMS.

B. FIRE HOSE LOCATIONS SHALL BE APPROVED PER FIRE DEPARTMENT.

C. THE BUILDING FLOOR SLAB IS SLOPED, SEE "C" DRAWINGS FOR FINISH SURFACE ELEVATIONS.

D. NOT USED

E. WAREHOUSE INTERIOR CONCRETE WALLS ARE PAINTED WHITE. COLUMNS ARE TO RECEIVE PRIMER ONLY. ALL GYP. BD. WALLS IN WAREHOUSE TO RECEIVE1 COAT OF WHITE TO COVER.

F. SLOPE POUR STRIP 1/2" TO EXTERIOR AT ALL MANDOOR EXITS.

G. ALL DIMENSIONS ARE TO THE FACE OF CONCRETE PANEL WALL, GIRDLINE, OR FACE OF STUD U.N.O.

H. SEE CIVIL DRAWINGS FOR POINT OF CONNECTIONS TO OFF-SITE UTILITIES. CONTRACTOR TO VERIFY ACTUAL UTILITY LOCATIONS. PLUMBING/ELECTRICAL COORDINATION.

I. FOR DOOR TYPES AND SIZES, SEE DETAIL SHEET AD.4. NOTE: ALL DOORS PER DOOR SCHEDULE ARE FINISH OPENINGS.

J. CONTRACTOR TO PROTECT AND KEEP THE FLOOR SLAB CLEAN. ALL EQUIPMENT TO BE DIAPERED INCLUDING CARS AND TRUCKS.

K. ALL EXIT MAN DOORS IN WAREHOUSE TO HAVE ILLUMINATED EXIT SIGN.

L. HIGHLY FLAMMABLE AND COMBUSTIBLE MATERIAL SHALL NOT BE USED OR STORED IN THIS BUILDING.

M. EACH EXTERIOR EXIT DOOR SHALL BE IDENTIFIED BY A TACTILE EXIT SIGN WITH THE WORDS "EXIT". THE MOUNTING HEIGHT FOR SUCH SIGNAGE SHALL BE 60" FROM FINISH FLOOR LEVEL TO THE CENTER OF THE SIGN.

N. NON-ACCESSIBLE DOOR. PROVIDE WARNING SIGN LOCATED IN THE INTERIOR SIDE PER CBC 11.33B.1.1.1

O. ALL ROOF MOUNTED MATERIALS SHALL BE FULLY SCREENED FROM PUBLIC VIEW, SEE A/A4.1 OFFICE SECTION.

FLOOR SLAB AND POUR STRIPS REQ.

THESE NOTES ARE VERY MIN. REQUIREMENT.

1. FLOOR COMPACTION - 95%
2. TRENCH COMPACTION - 90%
3. BUILDING FLOOR SLAB SLOPED
4. CONTRACTOR TO BUILD FOR CLASS V FLOOR PER A.C.I. 302-1R-96
5. NOT USED
6. CONCRETE SLAB TO HAVE STEEL FLOAT HARD TROWEL BURNISHED FINISH.
7. FOR SLAB CURING, COORDINATE WITH THE OWNER.
8. ALL EQUIPMENT & MOVING VEHICLES SHALL BE DIAPERED.
9. NO CRANES, CONCRETE TRUCKS, OR ANYTHING HEAVIER WILL BE PLACED ON THE SLAB.
10. SLAB TO BE FF50 FL35 MEASURED WITHIN 24 HOURS.
11. NO FLY ASH IN THE CONCRETE
12. WHERE [▨] INDICATED, PROVIDE VAPOR BARRIER, CONCRETE SLAB OVER 2" SAND OVER 10MIL VISQUEEN, OVER 2" SAND, OVER COMPACT SOIL. ENGINEER OR MANUFACTURER'S RECOMMENDATION.
    CONCRETE SLAB IN FUTURE OFFICE AREAS, WHERE SAND OVER VISQUEEN ARE REQUIRED, SHALL BE NATURALLY HYDRATED WITHOUT USE OF BURLENE, CURING COMPOUND, OR RELEASE AGENTS.
    CONTROL/CONSTRUCTION JOINTS SHALL NOT BE FILLED WITH MM-80 JOINT FILLER IN FUTURE OFFICE AREAS.
13. SEAL CONCRETE SLAB W/ "LAPIDOLITH" SEALER

KEYNOTES - ELEVATIONS

1. CONCRETE TILT-UP PANEL(PAINTED). FINISH GRADE VARIES. SEE "C" DRAWINGS. WATERPROOF ALL WALLS WHERE GRADE IS HIGHER AND EXPOSED TO THE WEATHER ONE SIDE. WATERPROOFING TO BE PROTECTED WITH PROTECTION BOARD AND A MIN. OF 6" OF GRAVEL. PROVIDE TRENCH DRAIN AT BOTTOM AND DAYLIGHT TO CURB OR TAKE TO STORM DRAIN. NOT REQUIRED AT DOCK HIGH CONDITION OR AT RAMP WALLS.
2. PANEL JOINT.
3. PANEL REVEAL. ALL REVEALS TO HAVE A MAX. OF 3/8" CHAMFER. REVEAL COLOR TO MATCH ADJACENT BUILDING FIELD COLOR, U.N.O.
4. 12'X14' OVERHEAD DOOR @ DRIVE THRU. PROVIDE COMPLETE WEATHER-STRIPPING PROTECTION ALL AROUND. PAINT COLOR TO MATCH FIELD COLOR.
5. 9'X10' OVERHEAD DOOR @ DOCK HIGH. PROVIDE COMPLETE WEATHER-STRIPPING PROTECTION ALL AROUND. PAINT COLOR TO MATCH FIELD COLOR.
6. CONCRETE STAIR, LANDING AND GUARDRAIL W/ METAL PIPE HANDRAIL. PROVIDE NON SKID NOSING TO MEET ADA REQUIREMENTS. PROVIDE CONTRASTING COLORED 3" WIDE WARNING STRIPE INTEGRAL TO CONCRETE AT TOP LANDING AND BOTTOM TREAD PER ADA REQUIREMENTS.
7. METAL LOUVER. PAINT COLOR TO MATCH FIELD COLOR.
8. HOLLOW METAL DOORS. PROVIDE COMPLETE WEATHER STRIPING ALL AROUND DOOR. PROVIDE FOR RAIN DIVERTER ABOVE DOOR.
9. ROOF LINE BEYOND.
10. DOCK BUMPER
11. ALUMINUM STOREFRONT FRAMING WITH TEMPERED GLAZING AT ALL DOORS, SIDELITES ADJACENT TO DOORS AND GLAZING
12. EXTERIOR DOWNSPOUT WITH OVERFLOW SCUPPERS
13. EXTERIOR CANOPY
14. INTERIOR ROOF DRAIN WITH OVERFLOW SCUPPERS

GENERAL NOTES - ELEVATIONS

A. ALL PAINT COLOR CHANGES TO OCCUR AT INSIDE CORNERS UNLESS NOTED OTHERWISE.
B. ALL PAINT FINISHES ARE TO BE FLAT UNLESS NOTED OTHERWISE.
C. T.O.P. EL.= TOP OF PARAPET ELEVATION.
D. F.F. = FINISH FLOOR ELEVATION.
E. STOREFRONT CONSTRUCTION: GLASS, METAL ATTACHMENTS AND LINTELS. CONTRACTOR SHALL SUBMIT SHOP DRAWINGS PRIOR TO INSTALLATION.
F. CONTRACTOR SHALL FULLY PAINT ONE CONCRETE PANEL W/ SELECTED COLORS. ARCHITECT AND OWNER SHALL APPROVE PRIOR TO PAINTING REMAINDER OF BUILDING.
G. BACK SIDE OF PARAPETS TO HAVE SMOOTH FINISH AND BE PAINTED WITH ELASTOMERIC PAINT.
H. FOR SPANDREL GLAZING, ALLOW SPACE BEHIND SPANDREL TO BREATH.
J. USE ADHESIVE BACK WOOD STRIPS FOR ALL REVEAL FORMS.
K. THE FIRST COAT OF PAINT TO BE ROLLED-ON AND THE SECOND COAT TO BE SPRAYED-ON.
P. EXTEIRIOR WALL SHALL BE PROVIDED WITH A GRAFFITI-RESISTANT COATING OR PAINT, TO A HEIGHT OF 12' FOR BUILDING OR STRUCTURE SURFACES THAT ARE NOT INTENDED TO BE PAINTED (E.G. SPLIT-FACE BLOCK, DECORATIVE TILE, ETC.).

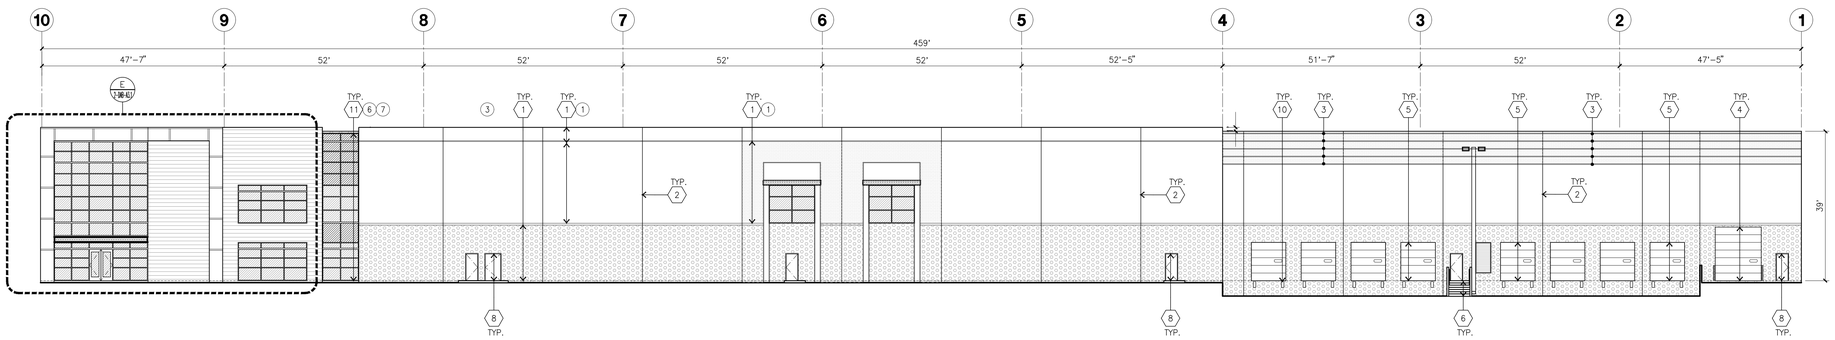
Title: OVERALL FLOOR PLAN

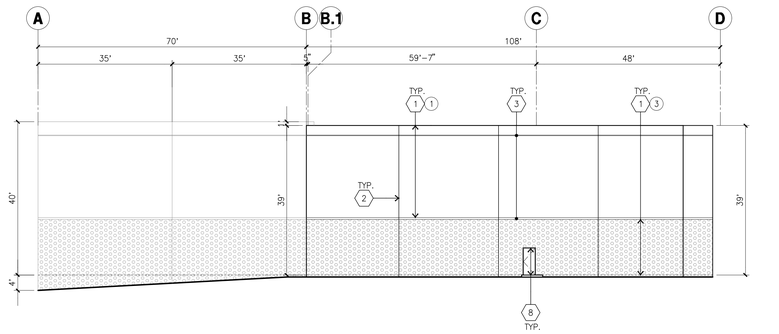
Project Number:	22206
Drawn by:	SLM
Date:	04/20/2023
Revision:	3RD DAB SUBMITTAL

Sheet:

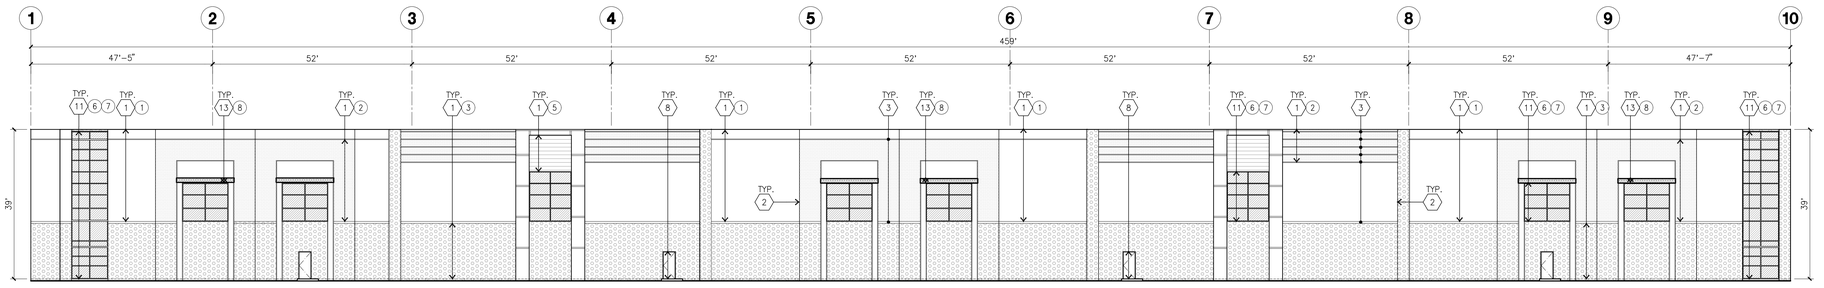
2-DAB-A2.1



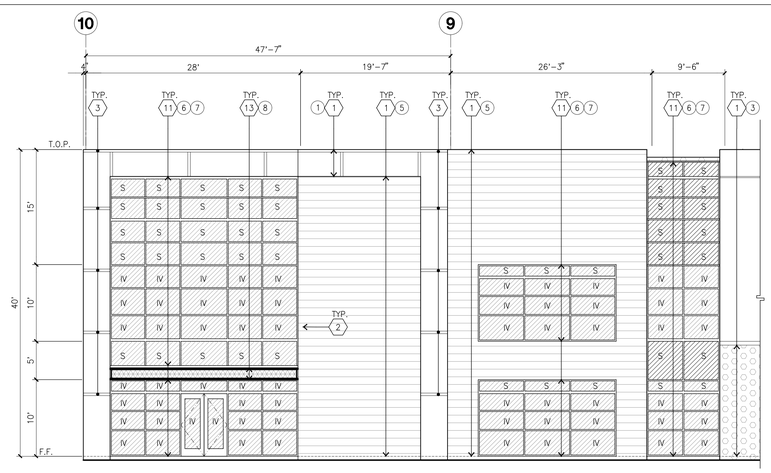
NORTH ELEVATION A
scale: 1/16" = 1'-0"



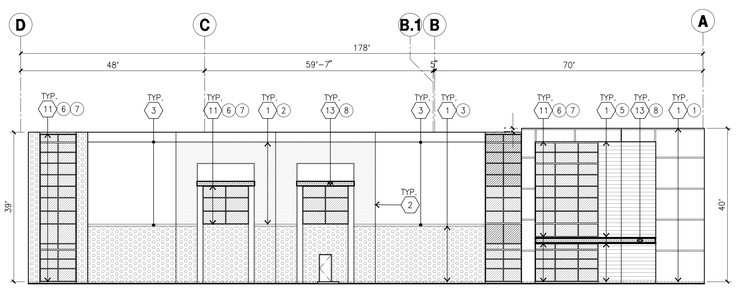
WEST ELEVATION B
scale: 1/16" = 1'-0"



SOUTH ELEVATION C
scale: 1/16" = 1'-0"



ENLARGED NORTH ELEVATION E
scale: 1/8" = 1'-0"



EAST ELEVATION D
scale: 1/16" = 1'-0"

KEYNOTES - ELEVATIONS

1. CONCRETE TILT-UP PANEL(PAINTED). FINISH GRADE VARIES. SEE "C" DRAWINGS. WATERPROOF ALL WALLS WHERE GRADE IS HIGHER AND EXPOSED TO THE WEATHER ONE SIDE. WATERPROOFING TO BE PROTECTED WITH PROTECTION BOARD AND A MIN. OF 6" OF GRAVEL. PROVIDE TRENCH DRAIN AT BOTTOM AND DAYLIGHT TO CURB OR TAKE TO STORM DRAIN. NOT REQUIRED AT DOCK HIGH CONDITION OR AT RAMP WALLS.
2. PANEL JOINT.
3. PANEL REVEAL. ALL REVEALS TO HAVE A MAX. OF 3/8" CHAMFER. REVEAL COLOR TO MATCH ADJACENT BUILDING FIELD COLOR. U.N.O.
4. 12'X14' OVERHEAD DOOR @ DRIVE THRU. PROVIDE COMPLETE WEATHER-STRIPPING PROTECTION ALL AROUND. PAINT COLOR TO MATCH FIELD COLOR.
5. 9'X10' OVERHEAD DOOR @ DOCK HIGH. PROVIDE COMPLETE WEATHER-STRIPPING PROTECTION ALL AROUND. PAINT COLOR TO MATCH FIELD COLOR.
6. CONCRETE STAIR, LANDING AND GUARDRAIL W/ METAL PIPE HANDRAIL. PROVIDE NON SKID NOSING TO MEET ADA REQUIREMENTS. PROVIDE CONTRASTING COLORED 3" WIDE WARNING STRIPE INTEGRAL TO CONCRETE AT TOP LANDING AND BOTTOM TREAD PER ADA REQUIREMENTS.
7. METAL LOUVER. PAINT COLOR TO MATCH FIELD COLOR.
8. HOLLOW METAL DOORS. PROVIDE COMPLETE WEATHER STRIPING ALL AROUND DOOR. PROVIDE FOR RAIN DIVERTER ABOVE DOOR.
9. ROOF LINE BEYOND.
10. DOCK BUMPER
11. ALUMINUM STOREFRONT FRAMING WITH TEMPERED GLAZING AT ALL DOORS, SIDELITES ADJACENT TO DOORS AND GLAZING
12. EXTERIOR DOWNSPOUT WITH OVERFLOW SCUPPERS
13. EXTERIOR CANOPY
14. INTERIOR ROOF DRAIN WITH OVERFLOW SCUPPERS

GENERAL NOTES - ELEVATIONS

A. ALL PAINT COLOR CHANGES TO OCCUR AT INSIDE CORNERS UNLESS NOTED OTHERWISE.
B. ALL PAINT FINISHES ARE TO BE FLAT UNLESS NOTED OTHERWISE.
C. T.O.P. EL.= TOP OF PARAPET ELEVATION.
D. F.F. = FINISH FLOOR ELEVATION.
E. STOREFRONT CONSTRUCTION: GLASS, METAL ATTACHMENTS AND LINTELS. CONTRACTOR SHALL SUBMIT SHOP DRAWINGS PRIOR TO INSTALLATION.
F. CONTRACTOR SHALL FULLY PAINT ONE CONCRETE PANEL W/ SELECTED COLORS. ARCHITECT AND OWNER SHALL APPROVE PRIOR TO PAINTING REMAINDER OF BUILDING.
G. BACK SIDE OF PARAPETS TO HAVE SMOOTH FINISH AND BE PAINTED WITH ELASTOMERIC PAINT.
H. FOR SPANDREL GLAZING, ALLOW SPACE BEHIND SPANDREL TO BREATH.
J. USE ADHESIVE BACK WOOD STRIPS FOR ALL REVEAL FORMS.
K. THE FIRST COAT OF PAINT TO BE ROLLED-ON AND THE SECOND COAT TO BE SPRAYED-ON
P. EXTERIOR WALL SHALL BE PROVIDED WITH A GRAFFITI-RESISTANT COATING OR PAINT, TO A HEIGHT OF 12' FOR BUILDING OR STRUCTURE SURFACES THAT ARE NOT INTENDED TO BE PAINTED (E.G. SPILT-FACE BLOCK, DECORATIVE TILE, ETC.).

COLOR SCHED. - ELEVATIONS

Attachment #6: Resolution No. 248-2023

CITY OF SANTA FE SPRINGS
RESOLUTION NO. 248- 2023

A RESOLUTION OF THE PLANNING COMMISSION OF THE CITY OF SANTA FE SPRINGS REGARDING TENTATIVE PARCEL MAP NO. 84116 AND DEVELOPMENT PLAN APPROVAL CASE NOS. 1000 & 1001

WHEREAS, a request was filed for Tentative Parcel Map (TPM) No. 84116 to subdivide an existing parcel (APN: 8009-023-027) into two parcels: Parcel 1 of ±3.33 acres and Parcel 2 of ±3.99 acres; and

WHEREAS, a request was concurrently filed for Development Plan Approval (DPA) Case No. 1000 to allow the construction of a new ±69,650 sq. ft. concrete tilt-up industrial building and related improvements on Parcel 1; and

WHEREAS, a request was concurrently filed for Development Plan Approval (DPA) Case Nos. 1001 to allow the construction of a new ±75,050 sq. ft. concrete tilt-up industrial building and related improvements on Parcel 2; and

WHEREAS, the subject property is located on the southwest corner of Florence Avenue and Norwalk Boulevard, with Accessor's Parcel Number of 8009-023-027, as shown in the latest rolls of the Los Angeles County Office of the Assessor; and

WHEREAS, the property owner and project applicant is Florence SFS, LLC, 10845 Norwalk Boulevard, Santa Fe Springs, CA 90670; and

WHEREAS, the project applicant is Orbis Real Estate Partners, 280 Newport Center Drive #240, Newport Beach, CA 92660; and

WHEREAS, the proposed project, which includes the discretionary review of Tentative Parcel Map No. 84116, and Development Plan Approval Case Nos. 1000-1001, are considered a project as defined by the California Environmental Quality Act (CEQA), Article 20, Section 15378(a); and

WHEREAS, the City's environmental consultant, in conjunction with the city attorney's office, has confirmed that the proposed industrial project does not meet any of the conditions outlined in Section 15162 of the California Environmental Quality Act Guidelines which would require the preparation of a Subsequent EIR; Therefore, an Addendum to the City's Certified EIR for the General Plan Update and Targeted Zoning Code Update is deemed appropriate for the proposed project; and

WHEREAS, following a comprehensive review of the information provided by the applicant, along with the written and oral staff reports, the Planning Commission has ascertained and confirmed that the proposed project meets all the criteria outlined in

Section 15164 of the California Environmental Quality Act Guidelines for authorizing an Addendum to a certified EIR; and

WHEREAS, the City of Santa Fe Springs Planning and Development Department on August 3, 2023 posted a legal notice at the City of Santa Fe Springs City Hall, the town center hall kiosk, and city library, indicating the date and time of the public hearing; and

WHEREAS, the City of Santa Fe Springs Planning and Development Department on August 3, 2023 also published a legal notice in the *Whitter Daily News,* a local paper of general circulation, indicating the date and time of the public hearing, and also mailed said public hearing notice on August 3, 2023 to each property owner whose names and addresses appear on the latest County Assessor's Roll within a 500 feet of the exterior boundaries of the project site in accordance with state law; and

WHEREAS, on August 14, 2023, the City of Santa Fe Springs Planning Commission conducted a duly noticed public hearing and has considered the application, the written and oral staff report, the General Plan and zoning of the subject property, the public testimony, written comments, or other materials presented, concerning Tentative Parcel Map No. 84116, Development Plan Approval Case Nos. 1000-1001, and Addendum to the City's certified Environmental Impact Report (EIR) for the 2040 General Plan and Targeted Zoning Ordinance Update.

NOW, THEREFORE, be it RESOLVED that the PLANNING COMMISSION of the CITY OF SANTA FE SPRINGS does hereby RESOLVE, DETERMINE and ORDER AS FOLLOWS:

SECTION I. ENVIRONMENTAL FINDINGS AND DETERMINATION

The proposed development is considered a project under the California Environmental Quality Act (CEQA); and as a result, the project is subject to CEQA review. The project site constitutes a portion of the 'Koontz Site,' which was designated as Key Opportunity Site 1 within the City's Certified Environmental Impact Report (EIR) for the General Plan and Targeted Zoning Ordinance Update. The 'Koontz Site' underwent an initial assessment for potential commercial/business park development, with a projected area of 110,500 square feet. The applicant is now proposing to construct an approximately 140,155 square foot business park development instead of the previously envisioned commercial/business park development. An Addendum to the City's Certified EIR for the General Plan and Targeted Zoning Ordinance Update, along with accompanying technical analyses were prepared. These materials serve to establish that the proposed industrial development will not result in environmental impacts substantially greater than or different from impacts identified and addressed in the City's Certified Environmental Impact Report (EIR) for the General Plan and Targeted Zoning Ordinance Update.

In accordance with CEQA Guidelines Section 15164, an Addendum to a Certified EIR may be prepared when only minor technical changes or additions are necessary, and none of the conditions described in Section 15162, which call for the preparation of a subsequent or supplemental EIR, have arisen.

Pursuant to the CEQA Guideline Section 15162, if the proposed development satisfy any of the following conditions a Subsequent EIR will be required.

(A) *Substantial changes are proposed in the project which will require major revisions of the previous EIR or negative declaration due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects*

The Project site encompasses a portion of the 'Koontz Site,' which is designated as a Key Opportunity Site1 and was subjected to detailed evaluation as part of the City's Certified EIR for the General Plan and Targeted Zoning Ordinance Update. The certified EIR presents the subsequent summary description of the present uses within the Koontz Site, along with the projected future developments:

> [The Koontz Site] is located between Lakeland Road, Norwalk Boulevard, Fulton Wells Avenue, and Florence Avenue. A conceptual design for this site evaluated the replacement of existing industrial properties with up to 156 residential units and 110,500 square feet of commercial or business park development within multiple one- to three-story buildings. Residential development will consist of tuck-under residential building types at three stories in height. Commercial development will consist of a neighborhood shopping center with retail, commercial services, and restaurants located at the property on the southwest corner of Florence Avenue and Norwalk Boulevard. The conceptual design includes a shopping center with multiple retail pads and an anchor store with a height of 25 feet assuming a C-1 zone (C-4 zone would allow up to 75 feet). The commercial use could also be a business park development depending on market conditions (General Plan Update EIR, p. 3-26).

As indicated by the provided addendum and supporting documents, the impacts resulting from the proposed development, as analyzed under the certified EIR, is likely to be reduced. Given that the project site was initially assessed for retail/residential uses, which inherently entail more significant impacts compared to the proposed business park development. Therefore, the proposed Project does not required major revisions to the certified EIR, and no new significant environmental effect or substantial increase in the severity of previously identified significant effects would occur with implementation of the proposed Project.

(B) *Substantial changes occur with respect to the circumstances under which the project is undertaken, which will require major revisions of the previous EIR or negative declaration due to the involvement of new significant environmental*

effects or a substantial increase in the severity of previously identified significant effects.

As previously mentioned, the provided addendum and supporting documents reveal that the impacts from the proposed development, as analyzed under the certified EIR, is likely to be reduced. Notably, the project site was originally evaluated for retail/residential uses, which inherently carry more impacts compared to the proposed business park development. Therefore, no significant changes have occurred with respect to the circumstances under which the proposed project would be undertaken.

(C) New information of substantial importance, which was not known and could not have been known with the exercise of reasonable diligence at the time the previous EIR was certified as complete or the negative declaration was adopted, shows any of the following:

- *The project will have one or more significant effects not discussed in the previous EIR or negative declaration;*
- *Significant effects previously examined will be substantially more severe than shown in the previous EIR;*
- *Mitigation measures or alternatives previously found not to be feasible would in fact be feasible, and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measure or alternative; or*
- *Mitigation measures or alternatives which are considerably different from those analyzed in the previous EIR would substantially reduce one or more significant effects on the environment, but the project proponents decline to adopt the mitigation measure or alternative.*

As detailed within the provided Addendum, and the supporting documents, the proposed Project would not have one or more significant effects not already discussed in the certified EIR, or that the significant effects previously examined would be substantially more severe than shown in the certified EIR.

The Planning Commission has therefore determined that the proposed business park development does not necessitate any changes/additions to the City's Certified EIR for the General Plan and Targeted Zoning Ordinance Update and does not meet any of the conditions outlined in Section 15162 that would require the preparation of a Subsequent EIR. Therefore, it is determined that an Addendum to the City's Certified EIR for the General Plan and Targeted Zoning Ordinance Update is the appropriate CEQA document for the proposed project.

Additionally, based on information provide within the submitted Addendum and its supporting documents, the Planning Commission confirms that the proposed industrial development will not introduce any new significant impacts or substantially amplify any previously identified significant impacts. The mitigation measures detailed in the City's Certified EIR for the General Plan and Targeted Zoning Ordinance Update will remain in effect, ensuring compliance with approved environmental protocols. Attachment A of the Addendum to the City's Certified EIR for the General Plan and Targeted Zoning Ordinance Update (Exhibit B) provides a comprehensive overview of all the mitigation measures presented in the City's Certified EIR for the General Plan and Targeted Zoning Ordinance Update along with the project specific measures. These applicable mitigation measures for the Project will be diligently implemented.

Lastly, the project site is not included on a Cortese list and is not identified on the EPA's database (Environfacts).

SECTION II. TENTATIVE PARCEL MAP FINDINGS

Pursuant to the State's Subdivision Map Act, the Planning Commission has made the following findings:

(A) *Section 66473.5 and Sections 66474(a) and (b) of the Subdivision Map Act require tentative maps to be consistent with the general plan and specific plans. The proposed Tentative Parcel Map, subject to the attached conditions, is in accordance with the Subdivision Map Act in that:*

Approval of the proposed Parcel Map would promote a number of specific General Plan Goal and Policies as described in "Table 1" on the following page:

Table 1
General Plan Consistency Analysis

General Plan Element	***Policy***	**Project Consistency**
Land Use	**Policy LU-1.5: Land Use Transitions:** Apply appropriate screening, buffers, transitional uses, and other controls to transition from industrial and commercial uses to any adjacent residential uses and thus reduce potential noise and air pollution impacts.	The proposed industrial building will be set back approximately 39 feet from the southerly property lines, whereby an existing mobile home park is located. Moreover, all loading operations will be confined to the interior of the development. Additionally, the proposed landscape plan includes the planting of trees along the southerly property line, providing a landscape buffer and screen between the industrial facility and the neighboring

		residential area.
	Policy LU-11.4: Visual Character: Encourage development that enhances the visual character, quality, and uniqueness of residential neighborhoods and commercial and industrial districts.	The proposed project will create two new contemporary industrial buildings with high quality architectural design.
	Policy LU-11.6: Industrial Design: Insist upon distinctive architecture, landscaping, and shade trees along street frontages and on private property that defines the character of industrial and commercial districts.	The project features a high-quality architectural design comprising two (2) new industrial buildings, complemented by an abundance of landscaping. Notably, the landscaping plan includes an extensive coverage along both street frontages and the southerly property line. This strategic landscaping approach is intended to establish a buffer zone between the industrial facility and the adjacent residential area.

The proposed parcel map, subject to the attached conditions of approval, is compatible with the goals and objectives of the City of Santa Fe Spring's General Plan, and therefore, is in compliance with Government Code Sections 66473.5, and 66474(a) and (b).

(B) *Sections 66474(c) and (d) of the Subdivision Map Act require the site to be physically suitable for the type of development and proposed density of development.*

In addition to the proposed parcel map, the applicant is concurrently seeking approval of Development Plan Approval Case Nos. 1000 and 1001, to allow for the construction of a new ±69,650 sq. ft. concrete tilt-up industrial building (Parcel 1) and a new ±75,050 sq. ft. concrete tilt-up industrial building (Parcel 2), located at the southwest corner of Florence Avenue and Norwalk Boulevard. As proposed, the new development will meet or exceed all requirements of the City's Zoning Ordinance and as a result will not require any variances. Therefore, the subject site is physically suitable for the proposed development.

(C) *Sections 66474(e) and (f) of the Subdivision Map Act require that the design of the subdivision or the proposed improvements are not likely to cause substantial*

environmental damage or substantially and avoidably injure fish or wildlife or their habitat or is likely to cause serious public health concerns.

The proposed development is considered a project under the California Environmental Quality Act (CEQA); and as a result, the project is subject to CEQA review. The project site constitutes a portion of the 'Koontz Site,' which was identified as Key Opportunity Site 1 within the City's Certified Environmental Impact Report (EIR) for the General Plan and Targeted Zoning Ordinance Update. The biological resources have been extensive reviewed as part of the City's Certified EIR for the General Plan and Targeted Zoning Ordinance Update.

(D) *Section 66474(g) of the Subdivision Map Act requires that the design of the subdivision or the type of improvements will not conflict with easements, acquired by the public at large, for access through or use of, property within the proposed subdivision.*

In addition to the proposed tentative parcel map, the project is required to obtain Development Plan Approval for the two proposed buildings. As part of the DPA process, the design of the subdivision and proposed improvements are carefully reviewed or otherwise coordinated to avoid any conflicts with easements acquired by the public at large, granting access through or use of the property within the proposed subdivision. All proposed improvements will therefore be situated outside any existing onsite easements. If necessary, new easements for utility or roadways will be provided before final map approval.

(E) *In accordance with Government Code Section 66474.6, it has been determined that the discharge of waste from the proposed subdivision, subject to the attached conditions, into the existing sewer system will not result in a violation of the requirements prescribed by the Regional Water Quality Control Board in that the developer is required to comply with the IS/MND Mitigation Monitoring and Reporting Program, submit an erosion control plan and comply with the NPDES Best Management Practices during the grading and construction phases of the project.*

As a required condition of approval, the project is required to meet all federal, state, and local ordinances and requirements including, but not limited to, the California Regional Water Quality Control Board.

(F) *That the proposed subdivision shall be in accordance with Government Code Section 66473.1, entitled "Design of Subdivisions to provide for Future Passive or Natural Heating and Cooling Opportunities."*

Future passive or natural heating and cooling opportunities will be incorporated with the proposed development. To the extent feasible, staff will review the proposed development to ensure that energy-saving devices or materials,

including, but not limited to, insulation, double-pane windows, and high efficiency central heating and cooling systems will be incorporated.

SECTION III. DEVELOPMENT PLAN APPROVAL FINDINGS

Pursuant to Section 155.739 of the City of Santa Fe Springs Zoning Ordinance, the Planning Commission has made the following findings:

(A) *That the proposed development is in conformance with the overall objectives of this chapter (Chapter 155: Zoning).*

The proposed project is located within the ML, Limited Manufacturing, Zone. Pursuant to Section 155.180 of the Zoning Ordinance, "The purpose of the ML Zone is to provide an environment suitable for the establishment of administrative offices of business and industrial concerns, scientific research offices and laboratories, restricted manufacturing and appurtenant uses compatible to the development of an industrial park, and to provide for special needs housing in the form of emergency shelters. The restrictions and conditions applied to this zone shall be those designed to develop a park-like atmosphere which will be conducive to the erection of industrial buildings pleasing in appearance and which will harmonize with other surrounding land uses."

The proposed project is consistent with the purpose of the ML Zone in the following manner:

1. The land is appropriate for a business park development based on its underlying ML (Limited Manufacturing) zone and its General Plan Land Use designation of Business Park.

2. The proposed project will result in two (2) concrete tilt-up buildings which are developed in accordance with the development standards for the ML zone; Additionally, the project provides a 39 foot setback from the southerly property line as a safeguard to protect existing nearby residential uses.

3. The project involves the construction of two (2) new attractive industrial buildings on a site that is currently developed with older industrial buildings, metal canopies, and a repurposed gas station building. The assessed value of the property will significantly improve after the project, thus leading to an increase in property values for the subject property and potentially, the neighboring properties.

4. The new industrial buildings offer new construction with modern amenities (i.e. drought tolerant landscaping, electric vehicle charging, energy efficient, etc.), including outdoor patio and seating, that will help to attract local industrial businesses to either locate or otherwise remain in Santa Fe Springs.

(B) *That the architectural design of the proposed structures is such that it will enhance the general appearance of the area and be in harmony with the intent of this chapter.*

The applicant is proposing to construct two (2) new industrial buildings on the subject site: 1) a new ±69,650 sq. ft. concrete tilt-up industrial building; and 2) a new ±75,050 sq. ft. concrete tilt-up industrial building. Both industrial buildings have been designed with variation in the provided setback, height, color, and materials used. The result is an attractive project that is comparable to other high quality industrial projects that have been recently approved in the City of Santa Fe Springs.

(C) *That the proposed structures be considered on the basis of their suitability for their intended purpose and on the appropriate use of materials and on the principles of proportion and harmony of the various elements of the buildings or structures.*

The proposed buildings are thoughtfully designed and are expected to be highly suitable for their intended user, office, warehouse and limited manufacturing purposes. The design of the two (2) new industrial buildings showcases quality architectural elements, evident through glazing, pop-outs, and variations in height, materials, and color. These architectural design features effectively break up the mass of both buildings, creating an attractive and distinctive façade that will appeal to visitors. The project has therefore been carefully design to meet the needs of a wide range of industrial users, while the unique building design embodies essential architectural principles of proportion and harmony.

(D) *That consideration be given to landscaping, fencing and other elements of the proposed development to ensure that the entire development is in harmony with the objectives of this chapter.*

Extensive consideration has been given to numerous elements of the proposed project to achieve harmony with the City's Zoning Ordinance. The majority of the landscaping will be provided along Norwalk Boulevard and Florence Avenue for maximum aesthetic value. The loading areas for both buildings have also been strategically placed so that they will not be directly visible from the public right-of-way. Lastly, the proposed trash enclosures are strategically placed where they are not visible or easily accessible by the public, and where they have least impact on adjacent properties.

(E) *That it is not the intent of this subchapter to require any particular style or type of architecture other than that necessary to harmonize with the general area.*

As stated previously, the proposed buildings are contemporary in design. The architect used glazing, pop-outs, height variations, materials, and color. The style and architecture of the proposed buildings are consistent with other high-quality

buildings that were recently approved or otherwise constructed throughout the City.

(F) *That it is not the intent of this subchapter to interfere with architectural design except to the extent necessary to achieve the overall objectives of this chapter.*

Pursuant to Section 155.736 of the Zoning Ordinance "The purpose of the development plan approval is to assure compliance with the provisions of this chapter and to give proper attention to the siting of new structures or additions or alterations to existing structures, particularly in regard to unsightly and undesirable appearance, which would have an adverse effect on surrounding properties and the community in general." The Planning Commission has reviewed the DPA application and materials provided for the project and finds that proper attention has been given to the location, size, and overall design of the proposed buildings and related improvements.

(G) *As a means of encouraging residential development projects to incorporate units affordable to extremely low income households and consistent with the city's housing element, the city will waive Planning Department entitlement fees for projects with a minimum of 10% extremely low income units. For purposes of this section, extremely low income households are households whose income does not exceed the extremely low-income limits applicable to Los Angeles County, as published and periodically updated by the state's Department of Housing and Community Development pursuant Cal. Health and Safety Code § 50106.*

The Planning Commission finds that the proposed project is not a residential development; therefore, the requirements pertaining to low income units do not apply.

SECTION IV. PLANNING COMMISSION ACTION

The Planning Commission hereby adopts Resolution No. 248-2023 to approve Tentative Parcel Map No. 84116 to subdivide an existing parcel (APN: 8009-023-027) into two parcels: Parcel 1 of ±3.33 acres and Parcel 2 of ±3.99 acres; Development Plan Approval Case No. 1000 to allow the construction of a new ±69,650 sq. ft. concrete tilt-up industrial building and related improvements on Parcel 1; Development Plan Approval Case No. 1001 to allow the construction of a new ±75,050 sq. ft. concrete tilt-up industrial building and related improvements on Parcel 2; and adopt the proposed Addendum to the City's Certified Environmental Impact Report (EIR) for the General Plan and Targeted Zoning Ordinance Update (SCH# 2021050193), which indicated that the proposed modified project, with the mitigations presented, will not introduce any new significant impacts or significantly intensify any pre-identified impacts on the environment for the subject property located at 10845 Norwalk Boulevard, subject to conditions attached hereto as Exhibit A.

ADOPTED and APPROVED this 14th day of August, 2023 BY THE PLANNING COMMISSION OF THE CITY OF SANTA FE SPRINGS.

Attachment #6
Exhibit A – Conditions of Approval

CONDITIONS OF APPROVAL
TENTATIVE PARCEL MAP CASE NO. 84116
DEVELOPMENT PLAN APPROVAL CASE NO. 1000 & 1001
(10845 Norwalk Boulevard, Santa Fe Springs, CA 90670)

ENGINEERING / PUBLIC WORKS DEPARTMENT:
(Contact: Alex Flores 562-868-0511 x7507)

STREETS

1. That the applicant shall pay a flat fee of $130,932 to reconstruct/resurface the existing street frontage to centerline for Florence Avenue and Norwalk Boulevard.

2. That the vacated street of Koontz Avenue, area shall be held under a non-exclusive blanket easement for the various existing utilities within the subject area as long as these utilities continue to exist, except for the street lighting system. Therefore, ground surface use shall be allowed but no building or structure shall be erected in a way to impede the use of said easement by the various utilities.

3. That this easement or portion thereof can be discontinued if the existing utilities are discontinued, or arrangement for utility relocation to a satisfactory location is approved by the utility owners. In the case of a discontinued utility, the applicant shall abandon, dispose, or salvage said utility as directed by the Utility Owner.

4. That the existing street lighting system within the vacated area shall be removed at Owner's Cost with materials being returned to designated City facility. That the applicant shall pay to the City a total of $105,000, the entire cost of design, engineering, installation or removal, and inspection of seven (7) Street Lights. Two (2) street lights and one (1) Type 15 TS pole will be installed on Florence Ave. The City will design and cause construction of said street light(s).

5. That the existing sewer main or portion thereof, consisting of an 8" sewer pipe and manholes within the property boundaries shall be converted to private use for ownership and maintenance by owner/developer.

6. That the owner/developer shall pay $2,252 for the street vacation to the City. Any other costs associated with the street vacation (public hearing) shall also be covered by the owner/developer.

7. That the applicant shall design and construct a 5-foot wide meandering sidewalk and dedicate easements along the Florence Avenue and Norwalk Boulevard street frontages. If applicable, the dedicated easements shall be shown on the Parcel/Tract Map. Furthermore, said meandering sidewalk shall be shown on both the civil and landscape plans.

8. Full street improvements shall be constructed to the City standards in accordance with plans prepared by the applicant and/or developer and approved by the City Engineer. Street improvements shall include Koontz Avenue street opening, Florence Ave & Norwalk Blvd sidewalks, curb & gutter and any unused or new driveways. Applicant to design plans to convert public access way to current Building Code compliant entryway.

9. All oil wells, pipelines, tanks, and related above ground facilities within the public right-of-way shall be removed from the right-of-way unless otherwise approved by the City Engineer.

10. That adequate "on-site" parking shall be provided per City requirements, and all streets abutting the development shall be posted "No Stopping Any Time." The City will install the offsite signs and the applicant shall pay $2,500.00 to install (10) new signs. Any existing NSAT signs already installed within property frontage, to be replaced with new.

11. Proposed driveways shall be located to clear existing fire hydrants, street lights, water meters, etc.

12. The applicant and/or developer shall pay for the design, installation, and inspection of undergrounding any existing or new overhead utility services (does not include mainlines or transmission lines in or around the development) into the property along Florence Avenue, Norwalk Blvd, and vacated Koontz Avenue.

CITY UTILITIES

13. Storm drains, catch basins, connector pipes, retention basin and appurtenances built for this project shall be constructed in accordance with City specifications for Florence Avenue. Storm drain plans shall be approved by the City Engineer.

14. Public hydrants and onsite private fire hydrants shall be installed as required by the Fire Department. Existing public fire hydrants adjacent to the site, if any, shall be upgraded as directed by the City Water Utility Manager. That the applicant shall pay to the City the entire cost of design, engineering, installation and inspection of Fire hydrants if applicable**.**

15. That sanitary sewers shall be constructed in accordance with LA County specifications to serve the subject development. The plans for the sanitary sewers shall be approved by LA County Public Works Land Development Division and LA County Sanitation District. In addition, a sewer flow test and proposed demand analysis shall be submitted along with the sanitary sewer plans to the City of Santa Fe Springs Public Works Department. All requirements for LA County will need to be completed separately.

16. All buildings shall be connected to the sanitary sewers.

17. That the fire sprinkler plans, which show the proposed double-check valve detector assembly location, shall have a stamp approval from the Planning Department and Public Works Department prior to the Fire Department's review for approval. Disinfection, pressure and bacteriological testing on the line between the street and detector assembly shall be performed in the presence of personnel from the City Water Department. The valve on the water main line shall be operated only by the City and only upon the City's approval of the test results.

18. That the applicant shall pay Storm Drain Connection Permit Fee for any connection to the storm drain system.

19. That the landscape irrigation system shall be connected to reclaimed water, if available, on Florence Avenue. Separate meter(s) shall be installed to accommodate connection or future connection of irrigation systems to the reclaimed water line. The applicant shall coordinate with Central Basin Municipal Water District for all design and specification requirements.

20. The applicant shall have an overall site utility master plan prepared by a Registered Civil Engineer showing proposed location of all public water mains, reclaimed water mains, sanitary sewers and storm drains. This plan shall be approved by the City Engineer prior to the preparation of any construction plans for the aforementioned improvements.

TRAFFIC

21. That all points of access to the proposed development shall be reviewed and approved by the City Engineer. Signs shall be installed to prohibit left turns out of Norwalk Blvd's northern-most driveway, and additional driveways may be prohibited as designated by the City Engineer.

22. That a Signage and Striping Plan shall be coordinated, submitted by a registered Traffic Engineer and approved by the City Traffic Engineer for the installation, replacement, removal or modification of street name signs, traffic control signs, striping and pavement markings required in conjunction with the development on Florence Ave and Norwalk Blvd. Signage and Striping will be installed by the developer per the approved plan.

23. The applicant shall submit a traffic study prepared by a current California Registered, Professional Engineer. Data for the Traffic Study must have been acquired within (6) months of the submittal date. The Traffic Study Report shall show the present traffic in the area and projected traffic after the development of the property. Specifically, the following intersections should be studies:

- Florence at Norwalk
- Florence at Bloomfield
- Florence at Pioneer
- Telegraph at Norwalk
- Telegraph at Bloomfield

Any improvements or mitigation measures may include, but is not limited to the installation and/or modification of traffic signals. This may include the addition of protected left turn phasing, the installation of additional left turn lanes, deceleration lanes, the lengthening of left turn lanes, or other median modifications, as specified by the City Traffic Engineer, that are warranted based on submitted Traffic study. The applicant and/or developer shall have improvement plans prepared per City standards that will be reviewed by the City. The applicant will cause construction of said improvements. The applicant and/or developer will pay associated plan check & inspection fees.

PARCEL MAPS

24. Final parcel map checking of $4,970 plus $295 per parcel shall be paid to the City. Developer shall comply with Los Angeles County's Digital Subdivision Ordinance (DSO) and submit final maps to the City and County in digital format.

25. The applicant shall provide at no cost to the City, one mylar print of the recorded parcel map from the County of Los Angeles Department of Public Works, P.O. Box 1460, Alhambra, CA 91802-1460, Attention: Bill Slenniken (626) 458-5131.

26. A reciprocal access easement Agreement covering each parcel of the subject map shall be prepared, executed and recorded in the Office of the Los Angeles County Recorder. Such Agreement and any CC&R's shall be subject to the approval of the City Attorney.

FEES

27. That the applicant shall comply with Congestion Management Program (CMP) requirements and provide mitigation of trips generated by the development. The applicant and/or developer will receive credit for the demolition of any buildings that formerly occupied the site. For new developments, if the applicant and/or developer cannot meet the mitigation requirements, the applicant and/or developer shall pay $15,204.73 for off-site transportation improvements.

28. That the applicant shall comply with all requirements of the County Sanitation District, make application for and pay the sewer maintenance fee.

29. That the applicant shall pay the water trunkline connection fee of $27,380 upon application for water service connection or if utilizing any existing water service.

MISCELLANEOUS

30. That a grading plan shall be submitted for drainage approval to the City Engineer. The applicant shall pay drainage review fees in conjunction with this submittal. A professional civil engineer registered in the State of California shall prepare the grading plan.

31. That a hydrology study shall be submitted to the City and reviewed by the City Engineer for approval. The study shall be prepared by a Professional Civil Engineer.

32. That upon completion of public improvements constructed by developers, the developer's civil engineer shall submit mylar record drawings and an electronic file (AutoCAD Version 2019 or higher) to the office of the City Engineer.

33. That the applicant shall comply with the National Pollutant Discharge Elimination System (NPDES) program and shall require the general contractor to implement storm water/urban runoff pollution prevention controls and Best Management Practices (BMPs) on all construction sites in accordance with the current MS4 Permit. The applicant will also be required to submit a Certification for the project and will be required to prepare a Storm Water Pollution Prevention Plan (SWPPP).

DEPARTMENT OF FIRE - RESCUE (FIRE PREVENTION DIVISION)
(Contact: Kevin Yang 562.868-0511 x3811)

34. Prior to issuance of Certificate of Occupancy or Building Final, the applicant shall install a fire sprinkler system based on the information provided. Fire sprinkler plans shall be submitted and approved by the Santa Fe Springs Department of Fire-Rescue prior to installation.

35. Prior to issuance of Certificate of Occupancy or Building Final, the applicant shall install a monitored manual/automatic fire alarm system in accordance with California Fire Code Section 907. Plans shall be submitted and approved by the Santa Fe Springs Department of Fire-Rescue prior to installation.

36. Prior to issuance of Building Permit, plans for an emergency responder radio coverage system in accordance with California Fire Code Section 510 shall be submitted to the Santa Fe Springs Department of Fire-Rescue for review and approval.

37. Prior to issuance of Building Permit, a written fire safety plan for construction in accordance with California Fire Code Section 3303.1.1 shall be submitted to the Santa Fe Springs Department of Fire-Rescue for review and approval.

38. Prior to issuance of Building Permit, the applicant shall provide the Santa Fe Springs Department of Fire-Rescue with a site plan for fire lanes and signage.

39. That the standard aisle width for onsite emergency vehicle maneuvering shall be 26 feet with a minimum clear height of 13 feet 6 inches. Internal driveways shall have a turning radius of not less than 52 feet. The final location and design of this 26 feet shall be subject to the approval of the City's Fire Chief as established by the California Fire Code. A request to provide emergency vehicle aisle width less than 26 feet shall be considered upon the installation/provision of mitigation improvements approved by the City's Fire Chief.

40. That interior gates or fences are not permitted across required access roadways unless otherwise granted prior approval by the Santa Fe Springs Department of Fire-Rescue.

41. The required water system, including fire hydrants, shall be installed, made serviceable, and be accepted by the Santa Fe Springs Department of Fire-Rescue prior to beginning construction. They shall be maintained accessible.

42. Existing fire hydrants on public streets are allowed to be considered available. Existing fire hydrants on adjacent properties shall not be considered available unless fire lanes extend between properties and easements are established to prevent obstruction of such lanes.

43. Prior to issuance of a Certificate of Occupancy or Building Final, a "Knox Box Rapid Entry System" shall be provided. The Knox Box shall be installed in an accessible location approved by the Fire Code Official. Electric powered gates shall be provided with Knox key switches for access by emergency personnel. Where manual operated gates are permitted, they shall be provided with a Knox box or Knox padlock.

44. That the applicant shall comply with the requirements of Section 117.131 of the Santa Fe Springs Municipal Code, Requirement for a Soil Gas Study or Methane Mitigation System, prior to issuance of building permits.

45. When applicable, abandoned oil wells must be exposed and inspected under the oversight of a registered engineer, registered geologist or other Fire-Rescue approved technical expert. The wells must be monitored for methane leaks and the precise location of each abandoned well shall be surveyed. A report of findings, along with a description of any recommended remedial actions (if necessary), signed by a registered engineer, registered geologist or Fire-Rescue approved technical expert, must be provided to the Santa Fe Springs Department of Fire-Rescue.

46. That a methane gas protection system designed in accordance with the standards established by the County of Los Angeles shall be required for all habitable structures. Plans for the proposed methane gas protection system shall be submitted to the Santa Fe Springs Department of Fire-Rescue prior to construction. An alternative to the County of Los Angeles standards may be acceptable if approved by the Santa Fe Springs Department of Fire-Rescue.

47. That all inactive oil wells located beneath or within 10 feet of the proposed building footprint are abandoned to current California Geological Energy Management Division (CALGEM) standards.

48. That all abandoned oil wells located beneath or within 10 feet of the proposed building footprint shall be equipped with a concrete vent cone. The installation of the vent cone and associated vent piping shall be approved by the Santa Fe Springs Department of Fire-Rescue prior to installation.

DEPARTMENT OF FIRE - RESCUE (ENVIRONMENTAL DIVISION)
(Contact: Eric Scott 562.868-0511 x3812)

49. That prior to issuance of building permits, the applicant shall comply with the applicable conditions below and **obtain notification in writing** from the Santa Fe Springs Department of Fire-Rescue Environmental Protection Division (EPD) that all applicable conditions have been met:
    a. At a minimum, the applicant must conduct an All Appropriate Inquiries (AAI) Investigation (formerly called a Phase I Environmental Site Assessment) in accordance with ASTM Standard E1527-05. The applicant shall provide the EPD with a copy of the AAI investigation report for review and approval. If the AAI investigation identifies a release, or potential release at the site, the applicant must comply with part b.
    b. An environmental site assessment may be required based on the information presented in the AAI investigation report. The environmental site assessment report must be reviewed and approved by the EPD in writing. Should the report indicate that contaminate levels exceed recognized regulatory screening levels, remedial action will be required. A remedial action work plan must be approved by the authorized oversight agency before implementation. Once remedial action is complete, a final remedial action report must be submitted and approved by the oversight agency.
    c. Soil Management Plan & Report. A Soils Management Plan (SMP) which addresses site monitoring and a contingency plan for addressing previously unidentified contamination discovered during site development activities may be required. If required, the SMP shall be submitted to the EPD for review and approval before grading activities begin. Once grading is complete, a SMP report must be submitted to the EPD for final written approval. Building plans will not be approved until the SMP report has been approved by the EPD in writing.

50. Permits and approvals. That the applicant shall, at its own expense, secure or cause to be secured any and all permits or other approvals which may be required by the City and any other governmental agency prior to conducting environmental assessment or remediation on the property. Permits shall be secured prior to beginning work related to the permitted activity.

51. That all abandoned pipelines, tanks and related facilities shall be removed unless approved by the City Engineer and Fire Chief. Appropriate permits for such work shall be secured before abandonment work begins.

52. That the applicant shall comply with all Federal, State and local requirements and regulations included, but not limited to, the Santa Fe Springs City Municipal Code, California Fire Code, Certified Unified Program Agency (CUPA) programs, the Air Quality Management District's Rules and Regulations and all other applicable codes and regulations.

POLICE SERVICES DEPARTMENT:
(Contact: Luis Collazo 562.409-1850 x3335)

53. The applicant shall submit and obtain approval of a proposed lighting (photometric) plan for the property from the City's Department of Police Services. The photometric plan shall be designed to provide adequate lighting (minimum of 1 foot candle power) throughout the subject property. Further, all exterior lighting shall be designed/installed in such a manner that light and glare are not transmitted onto adjoining properties in such concentration/quantity as to create a hardship to adjoining property owners or a public nuisance. The photometric plans shall be submitted to the designated contact person from the Department of Police Services in conjunction with the submittal of the Parking Electrical Plans. PDF formatted plans are acceptable and shall be emailed to luiscollazo@santafesprings.org.

54. The applicant shall provide an emergency phone number and a contact person of the person or persons involved in the supervision of the construction to the Department of Police Services. The name, telephone number, fax number and e-mail address of that person shall be provided to the Department of Police Services (Attn: Lou Collazo) no later than 60 days from the date of approval by the Planning Commission. Emergency information shall allow emergency service to reach the applicant or their representative any time, 24 hours a day. Information will be submitted to the emergency dispatch operators serving Police and Fire agencies.

55. In order to facilitate the removal of unauthorized vehicles parked on the property (after construction of the building is completed), the applicant shall post, in plain view and at each entry to the property, a sign not less than 17" wide by 22" long. The sign shall prohibit the public parking of unauthorized vehicles and indicate that unauthorized vehicles will be removed at the owner's expense and also contain the California Vehicle Section Code 22658 that permits this action. The sign shall also contain the telephone number of the local law enforcement agency (Whittier Police Department (562) 567-9240). The lettering within the sign shall not be less than one inch in height. The applicant shall contact the Police Services Center for an inspection no later than 30 days after the project has been completed and prior to the occupancy permit being issued.

56. All tenants occupying the proposed industrial buildings are to be notified that all respective work shall be conducted inside at all times including, but not limited to, all loading and unloading of trucks and trailers. Items and/or merchandise shall not be left outside of the building awaiting loading.

57. Vehicles are not to block traffic at any time. The Applicant and/or his site manager shall be responsible for making sure this condition is complied with at all times.

58. The proposed buildings, including any lighting, fences, walls, cabinets, and poles shall be maintained in good repair, free from trash, debris, litter and graffiti and other forms of vandalism. Graffiti shall be removed or painted over with a matching paint color within 72-hours of occurrence. Any damage from any such cause shall be repaired within 5-days of occurrence, weather permitting, to minimize dangerous conditions and/or visual blight.

59. It shall be the responsibility of the job-supervisor to maintain the job site in a clean and orderly manner. Dirt, dust, and debris that has migrated to the street or neighboring properties shall be immediately cleaned. Porta-potties, or equal, shall not be visible from the public street and maintained on a regular basis.

60. All construction debris shall be placed in trash/recycle bins at the end of every work day and shall not be left out visible from public view.

61. The property owner and/or lease agent shall notify any potential tenants and/or customers that they are mandated to comply with the ambient noise requirements as required by Santa Fe Springs Zoning Code Section 155.424 and other Performance Standards set forth in Section 155.415 though 155.433 of the City's Zoning Ordinance.

62. The property owner and/or lease agent shall notify any potential tenants that the parking areas and their respective aisles and/or Fire Lanes shall not be reduced or encroached upon with outdoor storage. Moreover, pursuant to Section 95.03(12) outdoor storage is prohibited at all times unless an entitlement has been granted by the Planning Commission.

63. All parking stalls and/or designated parking areas shall be continuously available to all employees and customers during their business hours. Parking Stalls shall not be sectioned off for reserved or preferred parking, excluding ADA and van pool stalls.

64. Trucks and/or trailers owned by the Applicant and/or contracted shall not back-up from the street, stage, park or queue on the street at anytime or block traffic. The Applicant and/or his site manager shall be responsible for making sure that this condition is complied with at all times.

65. The Applicant and/or his tenant be aware that SFSMC §72.16 prohibits the parking of semi-trailers or trailers on any street or alley unless such vehicle is, at all times while parked, attached to a truck or vehicle capable of moving such semi-trailer or trailer upon public streets and highways.

66. The on-site paving shall be maintained free of pot-holes or other similar damage and the Applicant shall make repairs within 72-hours of identifying any pavement deficiencies.

67. Parking markings (parking striping, directional arrows, etc.) shall be maintained at all times and re-painted when they become faded.

68. Proposed trees planted along the landscaping planters which parallel adjacent properties are to be of a species that does not overgrow onto the neighboring properties or shall be pruned to prevent overgrowth onto the adjacent properties.

69. That the property owner maintain the landscaping in a healthful condition and free of weeds while the buildings remain vacant after construction.

WASTE MANAGEMENT:
(Contact: Maribel Garcia 562.409-7569)

70. The applicant shall comply with Section 50.51 of the Municipal Code which prohibits any business or residents from contracting any solid waste disposal company that does not hold a current permit from the City.

71. All projects are subject to the requirements of Chapter 50 to reuse or recycle 75% of the project waste. For more information, please contact the City's Environmental Consultant, MuniEnvironmental at (562) 432-3700.

72. The applicant shall comply with Public Resource Code, Section 42900 et seq. (California Solid Waste Reuse and Recycling Access Act of 1991) as amended, which requires each development project to provide adequate storage area for the collection/storage and removal of recyclable and green waste materials.

PLANNING AND DEVELOPMENT DEPARTMENT:
(Contact: Jimmy Wong 562.868-0511 x7451)

Tentative Parcel Map

73. The approval of Tentative Parcel Map Case No. 84116 is contingent upon the approval of a street vacation permit for Koontz Avenue.

74. That the final map to be recorded with the Los Angeles County Recorder shall substantially conform to the Tentative Parcel Map submitted by the applicant and on file with the case.

75. Applicant understands and agrees that Tentative Parcel Map No. 84116 shall expire 24 months after Planning Commission approval, on August 14, 2025, except as provided under the provisions of California Government Code Section 66452.6. During this time period the final map shall be presented to the City of Santa Fe Springs for approval. The subdivision proposed by Tentative Parcel Map No. 84116 shall not be effective until such time that a final map is recorded.

76. The "Subdivider," agrees to defend, indemnify and hold harmless the City of Santa Fe Springs, its agents, officers and employees from any claim, action or proceeding against the City or its agents, officers or employees to attack, set aside, void or annul an approval of the City or any of its councils, commissions, committees or boards concerning the subdivision when action is brought within the time period provided for in Government Code, Section 66499.37. Should the City, its agents, officers or employees receive notice of any such claim, action or proceeding the City shall promptly notify Subdivider of such claim, action or proceeding and shall cooperate fully in the defense thereof.

Development Plan Approval

77. The subject property is located within the "Methane Zone". As a result the applicant shall therefore indicate the subject property is located within the Methane Zone on the first page of the building construction plans as well as the MEPs that are submitted to the County. Said indication shall be clearly printed with a minimum front size of 20 point.

78. To prevent the travel of combustible methane gas into any structure, all slab or foundation penetrations, including plumbing, communication, and electrical penetrations, must be sealed with an appropriate material per the recommendation of the methane study.

79. Secure fencing around the construction site with locking gates and appropriate lighting shall be installed during construction to prevent trespassing and theft.

80. Sufficient number of approved outdoor trash enclosures shall be provided for the development, subject to the approval of the Director of Planning or designee *(Calculations are subject to change)*. All outdoor trash enclosures shall provide a solid roof cover. (Please see L.A. County Department Public Works handout).

81. The approval of Development Plan Approval Case No. 1000 & 1001 is contingent upon the approval of Tentative Parcel Map Case No. 84116.

82. During construction, the following information shall be made available on a sign posted at the main entrance(s) to the site:
    1. Name of the development/project.
    2. Name of the development company.

3. Address or Address range for the subject site.
4. 24-hour telephone number where someone can leave a message on a particular complaint (dust, noise, odor, etc.)

83. The applicant shall implement a dust control program for air quality control. The program shall ensure that a water vehicle for dust control operations is kept readily available at all times during construction. The developer shall provide the City Engineer and Building Official with the name, telephone number and e-mail address of the person directly responsible for dust control and operation of the vehicle.

84. The applicant shall be responsible for the implementation of mitigation measures applicable to this project, as outlined in the Addendum to General Plan EIR Attachment A. Prior to the issuance of the Certificate of Occupancy, Planning Department staff will verify that all items required prior to occupancy have been completed. Mitigations that require on-going monitoring shall be reported to the City every six (6) months.

85. Upon discovery of any tribal cultural resources (TCR), all construction activities in the immediate vicinity of the discovery shall cease (i.e., not less than the surrounding 50 feet) and shall not resume until the discovered TCR has been fully assessed by a qualified Native American Monitor archaeologist. The a qualified Native American Monitor archaeologist will recover and retain all discovered TCRs in the form and/or manner the Tribe deems appropriate, in the Tribe's sole discretion, and for any purpose the Tribe deems appropriate, including for educational, cultural and/or historic purposes.

86. The Department of Planning and Development requires that the double-check detector assembly be placed as far back as practical, screened by shrubs or other materials, and painted forest green. All shrubs shall be planted a minimum distance of two (2) feet surrounding the detector assembly; however, the area in front of the OS and Y valves shall not be screened. The screening shall also only be applicable to the double-check detector assembly and shall not include the fire department connector (FDC). Notwithstanding, the Fire Marshall shall have discretionary authority to require the FDC to be located a minimum distance from the double-check detector assembly. There shall also be a maximum distance of two (2) feet between the lowest part of the ground and the bottom of the valve shut off wheel.

87. That all Reduced Pressure Backflow preventer shall be installed in a backflow prevention cage on a concrete pad. The backflow preventer shall be painted "hunter green or forest green." Please see All-Spec Enclosure Inc., stainless steel tubular backflow preventer. The enclosure shall be lockable, weather resistant and vandal proof. The location shall be near the water meter in the landscape area. Note: See Public Works Backflow Prevention Enclosure standard W-20.

88. Applicant shall comply with the City's "Heritage Artwork in Public Places Program" in conformance with City Ordinance No. 1054.

89. Applicant understands and agrees that all exterior mechanical equipment shall be screened from view on all sides. Additionally, all roof-mounted mechanical equipment and/or duct work which projects above the roof or roof parapet of the proposed development and is visible from adjacent property or a public street shall be screened by an enclosure which is consistent with the architecture of the building in terms of materials and color and also approved by the Director of Planning or designee. If full screening of roof mounted equipment is not designed specifically into the building, the applicant shall submit mechanical plans that includes a roof plan showing the location of all roof mounted equipment and any proposed screening prior to submitting plans to the Building Division for plan check.

    a. To illustrate the visibility of equipment and/or duct work, the following shall be submitted along with the Mechanical Plans:

        I. A roof plan showing the location of all roof-mounted equipment;
        II. Elevations of all existing and proposed mechanical equipment; and
        III. A building cross-section drawing which shows the roof-mounted equipment and its relation to the roof and parapet lines

90. The applicant shall submit for approval a detailed landscape and automatic irrigation plan pursuant to the Landscaping Guidelines of the City. Said landscape plan shall indicate the location and type of all plant materials, existing and proposed, shrubs designed to fully screen the interior yard and parking areas from public view, and minimum 24" box trees along the street frontage. *Said plans shall be consistent with AB 1881 (Model Water Efficient Landscape Ordinance).*

    NOTE: Staff shall not approve the landscaping and irrigation plan without first reviewing and approving the civil drawings, specifically as it pertains to the landscaping and irrigation plan (i.e., location and size of riprap, bio-swales, areas of infiltration trenches, etc.)

91. The landscaped areas shall be provided with a suitable, fixed, permanent and automatically controlled method for watering and sprinkling of plants. This operating sprinkler system shall consist of an electrical time clock, control valves, and piped water lines terminating in an appropriate number of sprinklers to insure proper watering periods and to provide water for all plants within the landscaped area. Sprinklers used to satisfy the requirements of this section shall be spaced to assure complete coverage of all landscaped areas. *Said plan shall be consistent with AB 1881 (Model Water Efficient Landscape Ordinance).*

92. Upon completion of the new landscaping and landscape upgrade, the required landscaped areas shall be maintained in a neat, clean, orderly and healthful condition. This is meant to include proper pruning, mowing of lawns, weeding, removal of litter, fertilizing, and replacement of plants when necessary and the regular watering of all plantings.

93. The applicant shall submit a lighting program that is integrated into the overall site, landscape design and building design. Lighting shall be used to highlight prominent building features such as entries and other focal points. Up-lighting should also be used as a way to enhance the texture of plants and structures, to create a sense of height in a landscape design.

94. That prior to the issuance of the Certificate of Occupancy, the applicant shall provide certification from the Landscape Architect of record that the plant installation on the Site are in accordance with the approval planting and irrigation plan.

95. The electrical plans, which show the location of electrical transformer(s), shall be subject to the approval of the Planning Department. Transformers shall not be located within the front yard setback area. The location of the transformer(s) shall be subject to the prior approval of the Director of Planning and Development or designee. The electrical transformer shall be screened with shrubs consistent with Southern California Edison's Guidelines which requires three (3) foot clearance on sides and back of the equipment, and eight (8) foot clearance in front of the equipment. Additionally, the landscaping irrigation system shall be installed so that they do not spray on equipment. A copy of the SCE Guidelines are available at the Planning Department.

96. All fences, walls, gates and similar improvements for the proposed development shall be subject to the prior approval of the Department of Fire-Rescue and the Department of Planning and Development.

97. The Department of Planning and Development shall first review and approve all sign proposals for the development. The sign proposal (plan) shall include a site plan, building elevation on which the sign will be located, size, style and color of the proposed sign. All drawings shall be properly dimensioned and drawn to scale on 11" x 17" maximum-size paper. All signs shall be installed in accordance with the sign standards of the Zoning Ordinance and the Sign Guidelines of the City.

98. The proposed building shall be constructed of quality material and any material shall be replaced when and if the material becomes deteriorated, warped, discolored or rusted.

99. Approved unit numbers/letters or address numbers shall be placed on the proposed building in such a position as to be plainly visible and legible from the street fronting the property. Said numbers shall contrast with their background. The size recommendation shall be 12'' minimum.

100. Prior to issuance of building permits, the applicant shall comply with the following conditions to the satisfaction of the City of Santa Fe Springs:

A. Covenants.

1. Applicant shall provide a written covenant to the Planning Department that, except as owner/developer may have otherwise disclosed to the City, Commission, Planning Commission or their employees, in writing, owner/developer has investigated the environmental condition of the property and does not know, or have reasonable cause to believe, that (a) any crude oil, hazardous substances or hazardous wastes, as defined in state and federal law, have been released, as that term is defined in 42 U.S.C. Section 9601 (22), on, under or about the Property, or that (b) any material has been discharged on, under or about the Property that could affect the quality of ground or surface water on the Property within the meaning of the California Porter-Cologne Water Quality Act, as amended, Water Code Section 13000, et seq

2. Applicant shall provide a written covenant to the City that, based on reasonable investigation and inquiry, to the best of applicant's knowledge, it does not know or have reasonable cause to believe that it is in violation of any notification, remediation or other requirements of any federal, state or local agency having jurisdiction concerning the environmental conditions of the Property.

B. Applicant understands and agrees that it is the responsibility of the applicant to investigate and remedy, pursuant to applicable federal, state and local law, any and all contamination on or under any land or structure affected by this approval and issuance of related building permits. The City, Commission, Planning Commission or their employees, by this approval and by issuing related building permits, in no way warrants that said land or structures are free from contamination or health hazards.

C. Applicant understands and agrees that any representations, actions or approvals by the City, Commission, Planning Commission or their employees do not indicate any representation that regulatory permits, approvals or requirements of any other federal, state or local agency have been obtained or satisfied by the applicant and, therefore, the City,

Commission, Planning Commission or their employees do not release or waive any obligations the applicant may have to obtain all necessary regulatory permits and comply with all other federal, state or other local agency regulatory requirements. Applicant, not the City, Commission, Planning Commission or their employees will be responsible for any and all penalties, liabilities, response costs and expenses arising from any failure of the applicant to comply with such regulatory requirements.

101. Prior to occupancy of the property/building, the applicant, and/or his tenant(s), shall obtain a valid business license (AKA Business Operation Tax Certificate), and submit a Statement of Intended Use. Both forms, and other required accompanying forms, may be obtained at City Hall by contacting the Finance Department at (562) 868-0511, extension 7520, or through the City's web site (www.santafesprings.org).

102. The applicant shall require and verify that all contractors and sub-contractors have successfully obtained a Business License with the City of Santa Fe Springs prior to beginning any work associated with the subject project. A business license application may be completed online at https://santafesprings.hdlgov.com. A late fee and penalty will be assessed to any contractor or sub-contractor that fails to obtain a Business License and a Building Permit final or Certificate of Occupancy will not be issued until all fees and penalties are paid in full. For answers to questions or inquiries surrounding the business license process, please call (562) 264-5219 to speak to a customer service representative.

103. Applicant shall be responsible for reviewing and/or providing copies of the required conditions of approval to his/her architect, engineer, contractor, tenants, etc. Additionally, the conditions of approval contained herein, shall be made part of the construction drawings for the proposed development. *Construction drawings shall not be accepted for Plan Check without the conditions of approval incorporated into the construction drawings.*

104. The development shall otherwise be substantially in accordance with the plot plan, floor plan, and elevations submitted by the owner and on file with the case. Any modification(s) shall be subject to the review and approval of the Director of Planning or his/her designee.

105. The final plot plan, floor plan and elevations of the proposed development and all other appurtenant improvements, textures and color schemes shall be subject to the final approval of the Director of Planning.

106. All other requirements of the City's Zoning Ordinance, Building Code, Property Maintenance Ordinance, State and City Fire Code and all other applicable County, State and Federal regulations and codes shall be complied with.

107. The applicant shall indemnify, protect, defend, and hold harmless, the City, and/or any of its officials, officers, employees, agents, departments, agencies, and instrumentalities thereof, from any and all claims, demands, law suits, writs of mandamus, and other actions and proceedings (whether legal, equitable, declaratory, administrative or adjudicatory in nature), and alternative dispute resolutions procedures (including, but not limited to arbitrations, mediations, and other such procedures), (collectively "Actions"), brought against the City, and/or any of its officials, officers, employees, agents, departments, agencies, and instrumentalities thereof, that challenge, attack, or seek to modify, set aside, void, or annul, the any action of, or any permit or approval issued by, the City and/or any of its officials, officers, employees, agents, departments, agencies, and instrumentalities thereof (including actions approved by the voters of the City), for or concerning the project, whether such Actions are brought under the California Environmental Quality Act, the Planning and Zoning Law, the Subdivisions Map Act, Code of Civil Procedure Section 1085 or 1094.5, or any other state, federal, or local statute, law, ordinance, rule, regulation, or any decision of a court of competent jurisdiction. In addition, the applicant shall reimburse the City, its officials, officers, employees, agents, departments, agencies, for any Court costs and attorney's fees which the City, its agents, officers, or employees may be required by a court to pay as a result of such action. It is expressly agreed that the City shall have the right to approve, which approval will not be unreasonably withheld, the legal counsel providing the City's defense, and that applicant shall reimburse City for any costs and expenses directly and necessarily incurred by the City in the course of the defense. City shall promptly notify the applicant of any such claim, action or proceeding, and shall cooperate fully in the defense thereof.

108. That the applicant understands and agrees that this approval is subject to modification or revocation as set forth in the Santa Fe Springs Municipal Code. Grounds for modification or revocation include, but are not limited to, Applicant's failure to comply with any condition of approval contained herein.

109. That the applicant understands and agrees that if any term or condition of this approval is determined in whole or in part to be invalid or unenforceable, such determination shall not affect the validity or enforceability of any other term or condition contained herein.

110. Applicant understands if changes to the original plans (submitted and on file with the subject case) are required during construction, revised plans must be provided to the planning department for review and approval prior to the implementation of such changes. Please note that certain changes may also require approvals from other departments.

111. The applicant shall be responsible for ensuring that information contained in

construction drawings and/or landscape & irrigation plans are consistent among architectural, structural, electrical, mechanical, plumbing, fire, utility and public improvement plans as well as other civil drawings. This responsibility may be transferred by the applicant to the project architect. While the City aims to correct inconsistencies, it is the ultimate responsibility of the applicant/project architect to remedy, up to and including completion of construction revisions prior to receiving final occupancy approvals.

112. Applicant shall clarify on the construction drawings that all roof drains (facing the street), shall be provided along the interior walls and not along the exterior of the building.

113. The subject property shall not be subleased in part or whole without obtaining the require building permit and approval from the planning department.

114. That all parking areas shall be striped in accordance with the proposed site plan, as submitted by the applicant and on file with this case. A minimum of 233 of combined parking stalls shall be provided within the newly created parcel 1 and parcel 2. All parking stalls shall be continually maintained on-site at all times.

115. All parking stalls shall be legibly marked on the pavement. Additionally, all compact spaces shall be further identified by having the words “Compact” or comparable wording legibly written on the pavement, wheel stop or on a clearly visible sign.

116. No portion of the required off-street parking and driveway areas shall be used for outdoor storage of any type or for special-event activities, unless prior written approval is obtained from the Director of Planning, Director of Police Services, and Fire Marshall.

117. The applicant and property owners acknowledge and agree that it is necessary to have a written and executed parking agreement between the two newly subdivided parcels identified within TPM 84116, or otherwise consolidate the two parcels into one prior to Building Final.

118. Not less than 10% of employee parking area shall be located as close as is practical to the employee entrance(s), and shall be reserved for use by potential carpool/vanpool vehicles, without displacing handicapped and customer parking needs. This preferential carpool/vanpool parking area shall be identified on the site plan upon application for building permit, to the satisfaction of city. A statement that preferential carpool/vanpool spaces for employees are available and a description of the method for obtaining such spaces must be included on the required transportation information board. Spaces will be signed/striped as demand warrants; provided that at all times at least one space for projects of 50,000 square feet to 100,000 square feet and two spaces for projects over

100,000 square feet will be signed/striped for carpool/vanpool vehicles.

119. Preferential parking spaces reserved for vanpools must be accessible to vanpool vehicles. When located within a parking structure, a minimum vertical interior clearance of seven feet two inches shall be provided for those spaces and access ways to be used by such vehicles. Adequate turning radii and parking space dimensions shall also be included in vanpool parking areas.

120. Bicycle racks or other secure bicycle parking shall be provided to accommodate four bicycles per the first 50,000 square feet of nonresidential development and one bicycle per each additional 50,000 square feet of nonresidential development. Calculations which result in a fraction of 0.5 or higher shall be rounded up to the nearest whole number. A bicycle parking facility may also be a fully enclosed space or locker accessible only to the owner or operator of the bicycle, which protects the bike from inclement weather. Specific facilities and location (e.g., provision of racks, lockers, or locked room) shall be to the satisfaction of the city.

120. There shall be a safe and convenient zone in which carpool/vanpool vehicles may deliver or board their passengers. Additionally, there shall be sidewalks or other designated pathways following direct and safe routes from external pedestrian circulation system to each building in the development and safe and convenience access from the external circulation system to bicycle parking facilities on-site. This is required to both meet the requirements of Section 155.502 (D) of the Zoning Ordinance and also a goal identified within the City's General Plan Circulation Element.

121. Prior to or otherwise concurrent with the issuance of Building Permits, the applicant shall obtain an Office Trailer Permit for the use of mobile office trailers during the construction process.

122. Secure fencing around the construction site with locking gates and appropriate lighting shall be installed during construction to prevent trespassing and theft.

123. All new utilities serving the project, within the boundaries of the property, shall be underground.

124. Any on-site traffic calming devices and location shall be reviewed and approved by the City prior to installation, including, but not limited to, speed bumps.

125. Unless otherwise specified in the action granting a Development Plan Approval, said approval which has not been utilized within a period of 12 consecutive months from the effective date shall become null and void. Also, the abandonment or nonuse of a Development Plan Approval for a period of 12 consecutive months shall terminate said Development Plan Approval and any privileges granted thereunder shall become null and void. However, an extension of time may be granted by Commission or Council action.

126. In the event that human remains are discovered during grading or excavation, all excavation and grading activities shall be stopped and the Santa Fe Springs Department of Police Services will be contacted (the Department will then contact the County Coroner). Title 14; Chapter 3; Article 5; Section 15064.5 of CEQA and California Health and Safety Code Section 7050.5(b) will apply in terms of the identification of significant archaeological resources and their salvage.

127. The project Applicant will be required to obtain the services of a qualified Native American Monitor during construction-related ground disturbance activities. Ground disturbance is defined by the Tribal Representatives from the Gabrieleño-Tongva Nation as activities that include, but are not limited to, pavement removal, pot- holing or auguring, boring, grading, excavation, and trenching, within the project area. The monitor(s) must be approved by the tribal representatives and will be present on-site during the construction phases that involve any ground-disturbing activities.

Attachment #6
B – Addendum to the City's Certified EIR for the General Plan and Targeted Zoning Ordinance Update

May 31, 2023

City of Santa Fe Springs
Planning Department
11710 E. Telegraph Road
Santa Fe Springs, CA 90670

Subject: Addendum to the Santa Fe Springs General Plan and Targeted Zoning Code Update Environmental Impact Report (SCH# 2021050193) (General Plan Update EIR) Comparing the impacts of the Florence & Norwalk Industrial Project (Project) impacts vs. Koontz Site commercial/business park impacts.

Applied Planning, Inc. is pleased to present this Addendum and supporting technical analyses substantiating that the proposed Florence & Norwalk Industrial Project (Project) would not result in environmental impacts substantially greater than or different from impacts identified and addressed in *Santa Fe Springs General Plan and Targeted Zoning Code Update Environmental Impact Report* (SCH# 2021050193) (General Plan Update EIR).

As presented at *CEQA Guidelines* Section 15164, an Addendum to a Certified EIR may be prepared if only minor technical changes or additions are necessary and none of the conditions described in Section 15162, calling for the preparation of a subsequent or supplemental EIR, have occurred. Further, Public Resources Code Section 21166 prohibits preparation of a subsequent or supplemental EIR for a Certified EIR unless substantial project changes are proposed requiring major revisions to the Certified EIR; a substantial change in circumstances has occurred requiring major revisions to the Certified EIR; or new information becomes available requiring major revisions to the Certified EIR. As supported by the information provided here, none of these conditions apply to the Project. This Addendum to the Certified EIR fulfills CEQA documentation requirements for the Project; no further environmental analysis is required.

1.0 OVERVIEW

The proposed Florence & Norwalk Industrial Project (Project) comprises approximately 146,563 square feet of light industrial warehouse uses configured as two buildings within an approximately 7.26-acre Project site. The Project site is located at the southwest corner of Florence Avenue and Norwalk Boulevard in the northwest portion of the City of Santa Fe Springs. Please refer to Figure 1.1-1, *Project Location* and Figure 1.1-2, *Project Development Concept*.

Figure 1.1-2
Site Plan Concept

The Project site comprises a portion of the "Koontz Site," a Key Opportunity Site[1] that was specifically evaluated as part of the General Plan Update EIR. The General Plan Update EIR provides the following summary description of existing uses within, and anticipated development of, the Koontz Site:

> [The Koontz Site] is located between Lakeland Road, Norwalk Boulevard, Fulton Wells Avenue, and Florence Avenue. A conceptual design for this site evaluated the replacement of existing industrial properties with up to 156 residential units and 110,500 square feet of commercial or business park development within multiple one- to three-story buildings. Residential development will consist of tuck-under residential building types at three stories in height. Commercial development will consist of a neighborhood shopping center with retail, commercial services, and restaurants located at the property on the southwest corner of Florence Avenue and Norwalk Boulevard. The conceptual design includes a shopping center with multiple retail pads and an anchor store with a height of 25 feet assuming a C-1 zone (C-4 zone would allow up to 75 feet). The commercial use could also be a business park development depending on market conditions (General Plan Update EIR, p. 3-26).

The approximately 146,563 square feet of light industrial warehouse uses proposed by the Project would be constructed in place of the 110,500 square feet of commercial/business park development anticipated for development within the Koontz Site. The analysis provided here compares impacts of the Project with impacts of the anticipated development of the Koontz Site commercial/business park uses as presented in the General Plan Update EIR.

It is noted here, that although the Project uses at 146,563 square feet represents a relative increase in building area when compared to the Koontz Site commercial/business park uses at 110,500 square feet, the relative intensity of impacts resulting from development of the site under the Project would likely be reduced, especially given that the site was

[1] The Koontz Site is one of four Key Opportunity Sites that were the subject of focused analyses in the General Plan Update EIR.

also analyzed for retail uses which have significant more trip generation. In this respect, trip generation (traffic) is a proxy that broadly correlates with relative impacts of conventional urban infill development proposals, such as the Project. More specifically, development-related trip generation is the predominant source of transportation, vehicle miles traveled (VMT), air quality, and greenhouse gas (GHG) impacts resulting from conventional urban infill projects.

As substantiated in this analysis, trip generation under the Project would be reduced when compared to trip generation of the Koontz Site commercial/business park uses. As a consequence, transportation, vehicle miles traveled (VMT), air quality, and greenhouse gas (GHG) impacts would be reduced under the Project, and other impacts would not be substantially different than or greater than those resulting from development of the Koontz Site commercial/business park uses. Further discussion in these regards is presented herein at Section 3.0, *Environmental Issues - Comparative Summaries.*

2.0 SUPPORTING TECHNICAL ANALYSES

Technical analyses supporting the discussions presented here include:

- *Florence and Norwalk Air Quality & Greenhouse Gas Assessment* (Urban Crossroads, Inc.) July 14, 2022 (Project AQIA/GHGA);

- *Florence and Norwalk Noise and Vibration Impact Analysis* (Urban Crossroads, Inc.) July 18, 2022 (Project Noise Analysis); and

- *Florence and Norwalk Vehicle Miles Traveled (VMT) Screening Evaluation* (Urban Crossroads, Inc.) June 21, 2022 (Project VMT Assessment).

- *Phase I Environmental Site Assessment for 10801-10859 Norwalk Boulevard, 10819-10858 Koontz Avenue, and 12120 E. Florence Avenue, Santa Fe Springs, CA 90670* (Langan Engineering & Environmental Services, Inc.) April 7, 2022.

- *Phase II Environmental Site Investigation, 10801-10859 Norwalk Blvd, 10819-10858 Koontz Ave and 12120 Florence Ave, Santa Fe Springs, CA 90670* (Langan Engineering & Environmental Services, Inc.) April 8, 2022.

All Project technical analyses are appended to this Addendum.

3.0 ENVIRONMENTAL ISSUES - COMPARATIVE SUMMARIES

The following discussions summarize and compare potential "Non-Operational" Impacts" and "Operational Impacts" resulting from the Project (the Project Scenario) with impacts that would result from buildout of the City as discussed in the General Plan Update EIR (the General Plan Update Scenario). The focus here is comparative impacts that would result from development of the Project uses vs. impacts that would result from development of the Koontz Site commercial/business park uses as reflected in the General Plan Update EIR. Addendum Attachment A presents a summary of all mitigation presented in the Certified EIR and the applicability of those measures to the Project.

3.1 "Non-Operational" Impacts

Non-operational impacts broadly encompass impacts that derive primarily from the location or context of a given project, rather than that project's design, occupancy, or operational features. CEQA considerations that can be typically characterized as non-operational topics include:

- Agriculture and Forestry Resources;
- Biological Resources;
- Historic and Cultural and Tribal Cultural Resources;
- Geology and Soils;
- Land Use and Planning;
- Mineral Resources;
- Wildfire.

The Project and General Plan Update development scenarios would affect the same site, and both scenarios are qualitatively comparable, representing permitted or conditionally urban development of similar intensity in varying configurations.

For non-operational environmental considerations, the General Plan Update EIR determined that buildout of the City, including buildout of the City's Key Opportunity

Sites, would have no impact, or impacts would be less-than-significant. For non-operational environmental considerations, site and context of the Project scenario is not substantially different than conditions evaluated under the General Plan Update EIR. Analysis of the Project's effects would therefore yield little or no differentiation in non-operational environmental impacts when compared to impacts identified in the General Plan Update EIR. On this basis, under the topics listed below, the Project and General Plan Update scenarios would result in comparable environmental impacts. Under the listed topics, the Project scenario and the General Plan Update Scenario would have no discernible environmental impact, or impacts would be less-than-significant.

- Agriculture and Forestry Resources;
- Biological Resources;
- Historic and Cultural and Tribal Cultural Resources;
- Geology and Soils;
- Land Use and Planning;
- Mineral Resources;
- Wildfire.

3.2 Operational Impacts

In contrast to the non-operational impacts evaluated above, "operational impacts" are dependent on a given project's design, occupancy, and/or operational features. CEQA considerations that can be typically characterized as "operational" topics include:

- Aesthetics;
- Air Quality;
- Energy;
- Greenhouse Gas Emissions;
- Hazards and Hazardous Materials;
- Hydrology and Water Quality;
- Noise;
- Population and Housing;
- Public Services;
- Recreation;

- Transportation; and
- Utilities and Service Systems.

Design, occupancies, and operational aspects of the Project scenario and the General Plan Update scenario vary to some degree, and could result in varying operational environmental impacts. For each of the CEQA "operational topics" listed above, the following discussions summarize potential differences in impacts that would result from the Project scenario, and the General Plan Update Scenario.

3.2.1 Aesthetics

An analysis of potential aesthetic impacts is provided at General Plan Update EIR Section 4.1, *Aesthetics*. The General Plan Update EIR concluded that buildout of the City, including development of the City's Key Opportunity Sites, would have no impacts or less-than-significant impacts related to aesthetics/light and glare. The Project would implement allowed contemporary industrial park uses that would conform to City design and development standards, and does not propose or require uses or activities that would substantially alter any of the conclusions of the General Plan Update EIR.

When compared to the General Plan Update EIR analyses, no new or substantially increased aesthetic/light and glare impacts would occur under the Project. No further analysis is required for the Project.

3.2.2 Air Quality

Potential air quality impacts are addressed at General Plan Update EIR Section 4.3, *Air Quality*. The General Plan Update EIR determined that buildout of the City including development of the City's Key Opportunity Sites, would result in significant and unavoidable impacts concerning conflict with applicable Air Quality Management Plan (AQMP); cumulatively considerable increases to non-attainment conditions; exposure of sensitive receptors to substantial pollutant concentrations; and substantial adverse cumulative air quality impacts generally (General Plan Update EIR, pp. 2-11 – 2-15).[2]

[2] The City of Santa Fe Springs has previously adopted Findings of Fact and Statement of Overriding Considerations addressing these significant impacts. See: *General Plan and Targeted Zoning Code Update*

As substantiated in the Project AQIA/GHGA (Attachment B), the Project uses would result in a net reduction in air pollutant emissions when compared to emissions that would be generated by commercial/business park development of the Koontz Site as envisioned under the General Plan Update EIR. The Project AQIA/GHGA discussions substantiate further that the Project uses would not result in exceedance of applicable South Coast Air Quality Management District (SCAQMD) criteria pollutant emissions significance thresholds. A summary comparison of air pollutant emissions that would be generated by the Project and air pollutant emissions that would be generated by the development of the Koontz Site as envisioned under the General Plan Update EIR is presented at Table 3.2-1.

Table 3.2-1
Comparative Air Pollutant Emissions
Project Uses vs. Koontz Site Commercial/Business Park Uses

Source	Emissions (lbs/day)					
	VOC	NO_X	CO	SO_X	PM_{10}	$PM_{2.5}$
Summer						
Project	11.79	4.12	56.18	0.07	2.24	0.49
Koontz Site Commercial/Business Park Uses	23.44	15.42	169.95	0.34	11.72	2.29
Net Emissions (Proposed – Current)	-11.65	-11.30	-113.77	-0.27	-9.48	-1.80
SCAQMD Regional Threshold	55	55	550	150	150	55
Threshold Exceeded?	NO	NO	NO	NO	NO	NO
Winter						
Project	9.70	4.31	40.94	0.07	2.22	0.47
Koontz Site Commercial/Business Park Uses	22.36	16.88	153.15	0.33	11.71	2.28
Net Emissions (Project – Current)	-12.66	-12.57	-112.21	-0.26	-9.49	-1.81
SCAQMD Regional Threshold	55	55	550	150	150	55
Threshold Exceeded?	NO	NO	NO	NO	NO	NO

Source: *Florence and Norwalk Air Quality & Greenhouse Gas Assessment* (Urban Crossroads, Inc.) July 14, 2022.

Findings of Fact and Statement of Overriding Considerations, City of Santa Fe Springs, January 24, 2022. See: https://www.reimaginesantafesprings.org/files/managed/Document/174/FindingsofFactandSOC.pdf

When compared to the air pollutant emissions that would be generated by the Koontz Site uses reflected in the General Plan Update EIR analyses, no new or substantially increased air quality impacts would occur under the Project. Moreover, air quality impacts would be diminished under the Project. None of the significant air quality impacts noted in the General Plan Update EIR would occur under the Project. No further analysis is required for the Project.

3.2.3 Energy

Potential energy impacts are addressed at General Plan Update EIR Section 4.6, *Energy*. The General Plan Update EIR analyses concluded that buildout of the City, including development of the City's Key Opportunity Sites, would result in less-than-significant energy impacts (General Plan Update EIR pp. 4.6-14 – 4.6-20).

The Project proposes development comparable in design and intensity to development of the Koontz Site uses as evaluated in the General Plan Update EIR. The Project does not propose or require uses or operations that would substantially increase energy consumption when compared to the Koontz Site uses as evaluated in the General Plan Update EIR. Further, the Project would reduce GHG emissions when compared to GHG emissions generated by the Koontz Site uses. This comparative reduction in GHG emission is a byproduct of comparative reductions in energy consumption that would result from the Project. Please refer to related discussions presented below at Section 3.2.4, *Greenhouse Gases*. The Project would likely reduce energy impacts when compared to energy impacts of the Koontz Site uses as evaluated in the General Plan Update EIR.

When compared to the General Plan Update EIR analyses, no new or substantially increased energy impacts would occur under the Project. Moreover, in comparison to the Koontz Site uses, energy impacts would likely be diminished under the Project. No further analysis is required for the Project.

3.2.4 Greenhouse Gases

Potential greenhouse gas impacts are addressed at General Plan Update EIR Section 4.8, *Greenhouse Gases*. The General Plan Update EIR determined that buildout of the City, including development of the City's Key Opportunity Sites, would result in GHG

emissions that would directly or indirectly have a significant impact on the environment; and GHG emissions that would conflict with an plan, policy, or regulation adopted for the purpose of reducing the emissions of greenhouse gases. The General Plan Update EIR concluded that these are significant and unavoidable impacts (General Plan Update EIR, pp. 2-15 – 2-19).[3]

As substantiated in the Project AQIA/GHGA (Attachment B), the Project uses would result in a net reduction in GHG emissions when compared to emissions that would be generated by commercial/business park development of the Koontz Site as envisioned under the General Plan Update EIR. The Project AQIA/GHGA discussions substantiate further that the Project uses would not result in exceedance of applicable SCAQMD GHG emissions significance thresholds. A summary comparison of GHG pollutant emissions that would be generated by the Project and GHG emissions that would be generated by the development of the Koontz Site as envisioned under the General Plan Update EIR is presented at Table 3.2-2.

Table 3.2-2
Comparative GHG Emissions
Project Uses vs. Koontz Site Commercial/ Business Park Uses

Development Scenario	Total $MTCO_2e/yr$
Project	1,517.03
Koontz Site Commercial/Business Park Uses	4,998.45
(Project – Current)	-3,481.42

Source: *Florence and Norwalk Air Quality & Greenhouse Gas Assessment* (Urban Crossroads, Inc.) July 14, 2022.

When compared to the GHG emissions that would be generated by the Koontz Site uses reflected in the General Plan Update EIR analyses, no new or substantially increased air quality impacts would occur under the Project. Moreover, air quality impacts would be diminished under the Project. None of the significant air quality impacts noted in the General Plan Update EIR would occur under the Project. No further analysis is required for the Project.

[3] The City of Santa Fe Springs has previously adopted Findings of Fact and Statement of Overriding Considerations addressing these significant impacts. See: *General Plan and Targeted Zoning Code Update Findings of Fact and Statement of Overriding Considerations,* City of Santa Fe Springs, January 24, 2022. See: https://www.reimaginesantafesprings.org/files/managed/Document/174/FindingsofFactandSOC.pdf

3.2.5 Hazards and Hazardous Materials

Potential hazards and hazardous materials impacts are addressed at General Plan Update EIR Section 4.9, *Hazards and Hazardous Materials*. The General Plan Update EIR concluded that buildout of the City, including development of the City's Key Opportunity Sites, would result in less-than-significant impacts related to hazards or hazardous materials (General Plan Update EIR, pp. 4.9-28 – 4.9-38). The General Plan Update EIR notes however, that due to previous industrial development of the Key Opportunity Sites, there may be the potential for these sites to be affected by existing hazardous conditions. Accordingly, the General Plan Update EIR recognizes that environmental site assessments may be required to determine "if sampling and laboratory testing of onsite soils and/or groundwater is necessary" (General Plan Update EIR, p. 4.9-29)

The Project proposes development comparable in design and intensity to development of the Koontz Site uses as evaluated in the General Plan Update EIR. The Project does not propose uses or occupancies that would be considered inherently hazardous, or that would generate or require substantial use of hazardous materials.

The Koontz Site was previously occupied by industrial uses and the site may be affected by hazardous conditions associated with the site's previous industrial occupancies. Accordingly, and consistent with the General Plan Update EIR requirements noted above, a Phase I Environmental Site Assessment (ESA) and Phase II Environmental Site Investigation (ESI) have been prepared for the Project site. Findings and conclusions of the Project site Phase I ESA and Phase II ESI are summarized below, and the Phase I ESA and Phase II ESI are presented in their entirety at Addendum Attachments E1 and E2.

3.2.5.1 Phase I Environmental Site Assessment

The Project site Phase I ESA (Phase I ESA) was completed in April 2022. The objective of the Phase I ESA was to identify the presence or likely presence, use, or release of hazardous substances or petroleum products that could adversely affect development on

the subject property. The Phase I ESA concluded that the Project site is affected or potentially affected by the following Recognized Environmental Conditions (RECs)[4]:

- **On-site abandoned oil pipelines.** Historic records indicate the presence of abandoned oil lines in the northwest portion of the Project site. These is no record of the removal or assessment of these oil lines. The potential presence of the abandoned oil lines at the northwest portion of the Project site and lack of documentation documenting the status of the oil lines constitutes a REC (Phase I ESA, p. 2).

- **Chlorinated solvent plume up-gradient from the Project site.** A solvent plume which contains trichloroethylene (TCE), tetrachloroethylene (PCE), and other chlorinated solvents was delineated in the northwest portion of the Project site. The known presence of a chlorinated solvent plume beneath Project site is considered a REC (Phase I ESA, p. 3). It appears this chlorinated solvent plume is from off-site sources and not from an onsite source.

- **Current and Historical Operations at the Project site**. The database listings for the Site document a history of industrial operations that involved the use, storage, and disposal of hazardous substances and petroleum products. Given the long history of industrial activity in the area, undocumented releases are likely to have occurred, and have the potential to impact development and occupancy of the Project site. Therefore, the current and historical industrial activity at the Project site, as indicated in the regulatory listings, is considered a REC (Phase I ESA, p. 3).

- **Staining observed during Project site reconnaissance.** During Project site reconnaissance, abundant oil-like staining was observed throughout. Additionally, open containers of waste oil were observed throughout the property.

[4] American Society for Testing and Materials (ASTM) standard 1527-21 states that RECs comprise "(1) the presence of *hazardous substances* or *petroleum products* in, on, or at the *subject property* due to a *release* to the *environment;* (2) the likely presence of *hazardous substances* or *petroleum products* in, on, or at the *subject property* due to a *release* or likely *release* to the *environment;* or (3) the presence of *hazardous substances* or *petroleum products* in, on, or at the *subject property* under conditions that pose a *material threat* of a future *release* to the *environment*."

> The concrete pavement was observed cracked and weathered in multiple areas of the Project site. The proximity of staining on/near cracked concrete could lead to potential impacts to the soil and groundwater, and is therefore considered a REC (Phase I ESA, p. 3).

The Phase I ESA also identifies one Controlled REC[5], and four Business Environmental Risks (BERs)[6] affecting the Project site:

CREC

- **Former LUST at northeast corner of Project site.** The Phase I ESA identified a petroleum release originating from an underground storage tank (LUST) that was previously located at the northeast corner of the Project site.[7] Total petroleum hydrocarbons (TPH) concentrations from this petroleum release were measured as part of the Phase I ESA. Certain of the measured TPH concentrations exceeded regulatory screening levels. TPH concentrations exceeding regulatory screening levels are considered a CREC (Phase I ESA, p. 3) because no additional remediation is required.

BERs

- **Historic agricultural use at the Site.** Review of site aerial photographs indicates the Project site was used for agricultural purposes from the mid 1890's to the 1950's. As a result of these past activities, the Project site soils may contain residual

---

[5] Per ASTM standard 1527-21, a Controlled REC (CREC) is defined as follows:
"A recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls)."

[6] Per ASTM standard 1527-21, a Business Environmental Risk (BER) is defined as follows: "A risk that can have a material environmental or environmental-driven impact on business associated with the current or planned use of a parcel of commercial real estate."

[7] The LUST was removed in 1998, and the facility received a closure letter from the Santa Fe Fire Department (Phase I ESA, p. 3).

pesticides, herbicides, and heavy metals such as lead and arsenic or other chemicals result. This potential soils contamination comprises a BER (Phase I ESA, p. 3).

- **Possible Lead Based Paint (LBP) and Asbestos Containing Material (ACM) at the Site:** Review of site aerial photographs indicates existing vacant buildings within the Project site were constructed in the 1960's and 1970's. Due to the age of these buildings, there is a possible presence of lead-based paint (LBP) and asbestos containing material (ACM) throughout the Project site. Potential presence LBP and ACM at the Project site comprises a BER.

- **Two abandoned oil production wells located at the Project site**: California Geologic Energy Management Division's (CalGEM) online mapping indicates two abandoned oil production wells. One abandoned oil production well is located at the southeastern portion of the Project site, and the other well is located at the northwestern portion of the Project site. Both wells are listed as plugged and abandoned. However, residual hydrocarbon could remain in the soil from previous oil and gas production activities, making this a BER. Additionally, the wells were abandoned in 1974 and 2000 respectively under the standards in place at that time, and may be required to be re-abandoned according to current well abandonment standards.

- **Santa Fe Springs Methane Zone Designation**: The City of Santa Fe Springs Methane Zone Map indicates that the Project site is within 500 feet of an oil/natural gas well, and therefore within a Methane Zone. Methane Zones represent areas of potential methane accumulation under buildings. Per City of Santa Fe Springs Municipal Code § 117.131 *Requirement for a Soils Gas Study or Methane Mitigation System***,** any property within a Methane Zone is subject to a soil gas investigation when there is a change in ownership or when new construction is planned. The location of the Project site within a methane zone is identified as a BER.

3.2.5.2 Phase II Environmental Site Investigation

Refining findings of the Phase I ESA, a Phase II Environmental Site Investigation (Phase II ESI) was completed in April 2022. The Phase II ESI further evaluates the Recognized

Environmental Conditions (RECs) and Business Environmental Risks (BERs) identified in the prior Phase I ESA, discussed above at Section 3.2.5.1.

The Phase II ESI concluded that within the project site, certain measured levels of chlorinated solvents, petroleum hydrocarbon compounds, and metals exceeded applicable screening levels. Soil samples exceeded screening levels for petroleum compounds in one soil boring located in the northeast corner of the Project Site. Soil vapor samples throughout the Project site exceeded applicable screening levels for hydrocarbon compounds and chlorinated solvents including 1-DCA, benzene, chloroform, and ethylbenzene, PCE, TCE and vinyl chloride. The measured concentrations of these constituents of concern in soil vapor are highest in the northwest corner of the Project site and chlorinated solvents in appear to increase with depth (Phase II ESI, p. 12). These chlorinated solvents appear to have originated from offsite sources, and are more significant offsite and upgradient from this site.

Additionally, groundwater samples exceeded screening levels for hydrocarbon compounds, chlorinated solvents, and metals. Chlorinated solvents and hydrocarbon compounds exceedances were measured in groundwater samples with concentrations generally decreasing towards the southeast. The chlorinated solvents appear to have migrated onto the site from upgradient sources. Metal exceedances were observed only in monitoring wells located in the western side of the Project site (Phase II ESI, p. 12).

Summary and Recommendations

Based on findings of the Phase I ESA and Phase II ESI, the Project site is considered to be affected by known or probable RECs and BERs, primarily from offsite sources. The Applicant, in consultation with the City and the California Department of Toxic Substances (DTSC) is developing a Removal Action Plan Workplan (RAW) that would address the identified RECs and BERs.

The implemented RAW as approved by the City and DTSC and would ensure that the Project site is, at a minimum, remediated to Industrial Occupancy Standards, thereby precluding potentially adverse effects associated with development and occupancy of the Project site. In so doing, the implemented RAW would address existing potentially

hazardous conditions at the site in compliance with all applicable law and be protective of the downgradient community. This is consistent with and supports General Plan Policies including:

- **Policy S-3.7: Contamination Remediation.** Consult with the U.S. Environmental Protection Agency and responsible State agencies on the ongoing remediation and cleanup of contaminated properties and groundwater, with aim to recondition sites for productive land uses.

- **Policy LU-3.7: Contaminated Land Remediation.** Encourage the proper cleanup and remediation of lands that are contaminated, prioritizing cleanup near and within disadvantaged communities.

Project Conditions of Approval

To ensure timely and effective hazards remediation at the Project site, it is recommended that the City impose the following or similar Conditions of Approval:

HAZ-1 *In consultation with the City and DTSC, the Applicant shall prepare a Removal Action Workplan addressing RECs and BERs identified in the Project site Phase I ESA and Phase II ESI. The RAW shall be reviewed and approved by the City and DTSC prior to the issuance of the first Project development permit.*

HAZ-2 *Prior to the issuance of the first Project Certificate of Occupancy (CO), the City and DTSC shall verify successful implementation of the approved RAW.*

Implementation of Conditions of Approval HAZ-1, HAZ-2 ensure Project conformance with General Plan recommendations and policies addressing cleanup and remediation of pre-existing hazardous conditions. Implementation of Conditions of Approval HAZ-1, HAZ-2 would also ensure that the potential for the Project to result in or exacerbate hazardous conditions is maintained at levels that would be less-than-significant.

When compared to hazards and hazardous materials impacts that would result from the Koontz Site uses reflected in the General Plan Update EIR analyses, no new or

substantially increased hazards and hazardous materials impacts would result from the Project. No further analysis is required for the Project.

3.2.6 Hydrology and Water Quality

Potential hydrology and water quality impacts are addressed at General Plan Update EIR Section 4.10, *Hydrology and Water Quality.* The General Plan Update EIR determined that buildout of the City, including development of the City's Key Opportunity Sites, could result in potentially significant impacts related to water supply and water supply management. Mitigation Measure UTL-1 included in the General Plan Update EIR would reduce this impact to levels that would be less-than-significant. All other potential hydrology and water quality impacts resulting from buildout of the City would be less-than-significant (General Plan Update EIR pp. 4.10-14 – 4.10-22).

The Project proposes development comparable in design and intensity to development of the Koontz Site uses evaluated in the General Plan Update EIR. Further, the Project would be required to implement and maintain stormwater management systems and facilities pursuant to an approved Water Quality Management Plan (WQMP). The implemented WQMP would effectively minimize or negate impacts on a long-term basis. The Project does not propose uses or occupancies that would result in a substantially increased or different hydrology and water quality impacts than those evaluated in the General Plan Update EIR. The Project would be required to implement General Plan Update EIR Mitigation Measure UTL-1, ensuring that potential Project impacts related to groundwater recharge and basin groundwater management would be maintained at levels that would be less-than-significant. Mitigation Measure UTL-1 is presented at Attachment A, *Mitigation Summary*.

When compared to hydrology and water quality impacts that would result from the Koontz Site uses reflected in the General Plan Update EIR analyses, no new or substantially increased hydrology and water quality impacts would result from the Project. No further analysis is required for the Project.

3.2.7 Noise and Vibration

Potential noise and vibration impacts are addressed at General Plan Update EIR Section 4.13, *Noise*. The General Plan Update EIR concluded that buildout of the City, including development of the City's Key Opportunity Sites would result in less-than-significant noise and vibration impacts (General Plan Update EIR, pp. 4.13-27 – 4.13-54). The Project proposes development comparable in design and intensity to development of the Koontz Site uses evaluated in the General Plan Update EIR and on this basis the Project would result in less-than-significant noise and vibration impacts similar to those identified in the General Plan EIR. The above conclusions regarding the Project noise and vibration impacts are further substantiated in the Project Noise Analysis (Attachment C). Project Noise Analysis conclusions regarding Project noise and Project vibration impact significance are summarized at Tables 3.2-3, 3.2-4, 3.2-5. The modeled receptors locations noted in the Tables are illustrated at Figure 3.2-1.

Table 3.2-3
Project Operational-Source Noise Impacts

Receiver Location	Project Operational Noise Levels (dBA Leq)		Noise Level Standards (dBA Leq)		Noise Level Standards Exceeded?	
	Daytime	Nighttime	Daytime	Nighttime	Daytime	Nighttime
R1	39.6	39.6	55.0	45.0	No	No
R2	35.2	35.0	55.0	45.0	No	No
R3	38.4	38.3	55.0	45.0	No	No
R4	38.5	38.3	55.0	45.0	No	No

Source: *Florence and Norwalk Noise and Vibration Impact Analysis* (Urban Crossroads, Inc.) July 18, 2022
Notes: Project incremental noise contributions under all circumstances would be less than 1.0 dBA, and would be imperceptible.

Table 3.2-4
Project Construction-Source Noise Impacts

Receiver Location	Construction Noise Levels (dBA L_{eq})		
	Highest Construction Noise Levels	Threshold	Threshold Exceeded?
R1	61.4	80	No
R2	55.1	80	No
R3	42.3	80	No
R4	42.6	80	No

Source: *Florence and Norwalk Noise and Vibration Impact Analysis* (Urban Crossroads, Inc.) July 18, 2022
Notes: Project incremental noise contributions under all circumstances would be less than 1.0 dBA, and would be imperceptible.

Table 3.2-5
Project Construction-Source Vibration Impacts

Receiver	Typical Construction Vibration Levels PPV (in/sec)					Thresholds PPV (in/sec)	Thresholds Exceeded?
	Small bulldozer	Jackhammer	Loaded Trucks	Large bulldozer	Highest Vibration Level		
R1	0.002	0.020	0.044	0.052	0.052	0.3	No
R2	0.000	0.003	0.007	0.008	0.008	0.3	No
R3	0.000	0.001	0.002	0.002	0.002	0.3	No
R4	0.000	0.000	0.001	0.001	0.001	0.3	No

Source: *Florence and Norwalk Noise and Vibration Impact Analysis* (Urban Crossroads, Inc.) July 18, 2022
Notes: The Project does not propose or require uses or facilities that would be substantial sources of long-term vibration.

When compared to noise and vibration impacts that would result from the Koontz Site uses reflected in the General Plan Update EIR analyses, no new or substantially increased noise and vibration impacts would result from the Project. No further analysis is required for the Project.

Figure 3.2-1
Noise Receptor Locations

3.2.8 Population and Housing

Potential population and housing impacts are addressed at General Plan Update EIR Section 4.14, *Population and Housing*. The General Plan Update EIR concluded that buildout of the City, including development of the City's Key Opportunity Sites would result in less-than-significant impacts related to population and housing (General Plan Update EIR, pp. 4.14-4 – 4.14-8).

When compared to the Koontz Site uses, the Project light industrial/warehouse uses are comparable in intensity and character and would therefore not result in substantially different or substantially increased population and housing impacts. The Project would therefore not substantially alter any of the conclusions of the General Plan Update EIR regarding population and housing impacts. No further analysis is required for the Project.

3.2.9 Public Services

Potential public services impacts are addressed at General Plan Update EIR Section 4.15, *Public Services*. The General Plan Update EIR concluded that buildout of the City, including development of the City's Key Opportunity Sites, would result in less-than-significant public services impacts (General Plan Update EIR, pp. 4.15-23 – 4.15-31).

When compared to the Koontz Site uses, the Project light industrial/warehouse uses are comparable in intensity and character and would therefore not result in substantially different or substantially increased public services impacts. The Project would therefore not substantially alter any of the conclusions of the General Plan Update EIR regarding public services impacts. No further analysis is required for the Project.

3.2.10 Recreation

Potential recreation impacts are addressed at General Plan Update EIR Section 4.16, *Recreation*. The General Plan Update EIR concluded that buildout of the City, including development of the City's Key Opportunity Sites, would result in less-than-significant recreation impacts (General Plan Update EIR, pp. 4.16-8 – 4.16-10).

When compared to the Koontz Site uses, the Project light industrial/warehouse uses are comparable in intensity and character and would therefore not result in substantially different or substantially increased recreation impacts. The Project would therefore not substantially alter any of the conclusions of the General Plan Update EIR regarding recreation impacts. No further analysis is required for the Project.

3.2.11 Transportation

Potential transportation impacts are addressed at General Plan Update EIR Section 4.17, *Transportation*. The General Plan Update EIR concluded that buildout of the City, including development of the City's Key Opportunity Sites, would result in significant and unavoidable vehicle miles traveled (VMT) impacts (General Plan Update EIR, pp. 4.17-29 – 4.17-50).[8]

As substantiated in the Project VMT Assessment (Attachment D), the Project uses would result in a net reduction in trip generation when compared to trips that would be generated by the Koontz Site uses. The Project would therefore presumptively result in less-than-significant VMT impacts, and no further VMT analysis is required. For ease of reference, trip generation of the Project uses and the Koontz Site uses is presented at Table 3.2-6.

Table 3.2-6
Comparative Trip Generation
Project Uses vs. Koontz Site Commercial/Business Park Uses

Land Use	Quantity	AM Peak Hour			PM Peak Hour			Daily
		In	Out	Total	In	Out	Total	
Koontz Site Commercial/ Business Park Uses	110,500 Square Feet							
Passenger Cars:		119	73	191	169	180	349	4,476
Total Truck Trips:		0	0	0	0	0	0	0
Total Trips		119	73	191	169	180	349	4,476
Project Uses	146,563 Square Feet							

[8] The City of Santa Fe Springs has previously adopted Findings of Fact and Statement of Overriding Considerations addressing these significant impacts. See: *General Plan and Targeted Zoning Code Update Findings of Fact and Statement of Overriding Considerations,* City of Santa Fe Springs, January 24, 2022. See: https://www.reimaginesantafesprings.org/files/managed/Document/174/FindingsofFactandSOC.pdf

Table 3.2-6
Comparative Trip Generation
Project Uses vs. Koontz Site Commercial/Business Park Uses

Source: *Florence and Norwalk Vehicle Miles Traveled (VMT) Screening Evaluation* (Urban Crossroads, Inc.) June 21, 2022.

The General Plan Update EIR concluded further that other transportation impacts resulting from buildout of the City, including buildout of the City's Key Opportunity Sites, would be less-than-significant (General Plan Update EIR, pp. 4.17-27 – 4.17-29).

When compared to the Koontz Site uses, the Project light industrial/warehouse uses are comparable in intensity and character and would therefore not result in substantially different or substantially transportation impacts. The Project would therefore not substantially alter any of the conclusions of the General Plan Update EIR regarding transportation impacts. No further analysis is required for the Project.

3.2.12 Utilities and Service Systems

Potential utilities and service systems impacts are addressed at General Plan Update EIR Section 4.19, *Utilities and Service Systems*. The General Plan Update EIR concluded that buildout of the City, including development of the City's Key Opportunity Sites, would result in potentially significant water supply and water supply management impacts. Mitigation Measure UTL-1 included in the General Plan Update EIR would reduce this impact to levels that would be less-than-significant. All other potential utilities and service systems impacts resulting from buildout of the City would be less-than-significant (General Plan Update EIR, pp. 4.19-16 – 4.19-28).

The Project proposes development comparable in design and intensity to development of the Koontz Site uses evaluated in the General Plan Update EIR. The Project does not propose uses or occupancies that would result in a substantially increased or different utilities and service systems impacts than those evaluated in the General Plan Update EIR. The Project would be required to implement General Plan Update EIR Mitigation Measure UTL-1, ensuring that potential Project impacts related to water supply and water supply management would be maintained at levels that would be less-than-significant. Mitigation Measure UTL-1 is presented at Attachment A, *Mitigation Summary*.

When compared to utilities and service systems impacts that would result from the Koontz Site uses reflected in the General Plan Update EIR analyses, no new or substantially increased utilities and service systems impacts would result from the Project. No further analysis is required for the Project.

4.0 SUMMARY AND CONCLUSION

The approximately 146,563 square feet of light industrial warehouse uses proposed by the Project would be constructed in place of the 110,500 square feet of commercial/business park development anticipated for development within the Koontz Site. The analysis provided herein compares impacts of the Project with impacts of the anticipated development of the Koontz Site commercial/business park uses as presented in the General Plan Update EIR.

The preceding discussions and attached supporting technical analyses substantiate that the Project would not result in environmental impacts substantially greater than or different from impacts identified and addressed in the General Plan Update EIR. Moreover, under the environmental topics of air quality, greenhouse gas emissions, and transportation (VMT), the Project would result in demonstrably reduced impacts when compared to impacts resulting from development of the Koontz Site commercial/business park uses evaluated in the General Plan Update EIR. On the basis of the information presented here, no further environmental analysis is required for the Project.

Attachment A
Mitigation Summary

Topic	General Plan Update EIR Findings/ Mitigation Measures	Project-Specific Measures
Aesthetics	The General Plan Update EIR did not identify any significant aesthetics impacts, as such no mitigation is presented.	No mitigation required.
Agricultural and Forestry Resources	The General Plan Update EIR did not identify any significant impacts related to agricultural and forestry resources, as such no mitigation is presented.	No mitigation required.
Air Quality	The General Plan Update EIR determined that buildout of the City including development of the City's Key Opportunity Sites, would result in significant and unavoidable impacts concerning conflict with applicable Air Quality Management Plan (AQMP); cumulatively considerable increases to non-attainment conditions; exposure of sensitive receptors to substantial pollutant concentrations; and substantial adverse cumulative air quality impacts generally. The EIR included the following mitigation:	As substantiated in the Project AQIA/GHGA, the Project uses would result in a net reduction in air pollutant emissions when compared to emissions that would be generated by commercial/business park development of the Koontz Site as envisioned under the General Plan Update EIR. The Project AQIA/GHGA discussions substantiate further that the Project uses would not result in exceedance of applicable South Coast Air Quality Management District (SCAQMD) criteria pollutant emissions significance thresholds. Air quality impacts would be diminished under the Project; None of the significant air quality impacts noted in the General Plan Update EIR would occur under the Project. No Project-specific mitigation required.

Attachment A
Mitigation Summary

Topic	General Plan Update EIR Findings/ Mitigation Measures	Project-Specific Measures
	AQ-2A: Require a Project-level Air Quality Assessment for Conditional Uses and New Discretionary Development Projects Applicants shall submit a quantitative project-level criteria air pollutant and toxic air contaminant emissions analysis for conditional use and new discretionary development projects. The project-level assessment shall address both construction and operational emissions. The estimated criteria air pollutant and toxic air contaminant emissions shall be compared against the thresholds of significance maintained by the South Coast Air Quality Management District (SCAQMD) and, if emissions are shown to be above SCAQMD thresholds, the City shall require the implementation of mitigations to reduce emissions. The project-level assessment, and identification of necessary mitigation, shall be prepared prior to discretionary project approval. Mitigation measures to reduce emissions could include, but are not limited to: ●*Selection of specific construction equipment (e.g., specialized pieces of equipment with smaller engines*	The Project has complied with this measure. The AQIA is presented as Attachment B to this document.

Attachment A
Mitigation Summary

Topic	General Plan Update EIR Findings/ Mitigation Measures	Project-Specific Measures
	or equipment that will be more efficient and reduce engine runtime); *●Requiring equipment to use alternative fuel sources (e.g., electric-powered and liquefied or compressed natural gas), meet cleaner emission standards (e.g., U.S. EPA Tier IV Final emissions standards for equipment greater than 50-horsepower), and/or utilizing added exhaust devices (e.g., Level 3 Diesel Particulate Filter);* *●Minimizing the idling time of diesel-powered construction equipment to two minutes; and* *●Application of Low-VOC paints to interior and/or exterior surfaces (e.g., paints that meet SCAQMD Rule 1113 "Low-VOC" or "Super-Compliant" requirements).*	
	AQ-2B: Prohibit the Installation of Natural Gas Hearths in New Residential Development *The City shall prohibit the installation of new natural gas hearths/fireplaces in new residential development. Natural gas hearths/fireplaces may be incorporated into remodels / redevelopment if the existing structure(s) proposed for remodel / redevelopment featured natural gas hearths/fireplaces; however, the number of natural*	Not applicable; The Project does not propose residential development.

Attachment A
Mitigation Summary

Topic	General Plan Update EIR Findings/ Mitigation Measures	Project-Specific Measures
	gas hearths/fireplaces provided by the new structure(s) may not exceed that present prior to the remodel / redevelopment and must meet the most recent U.S. EPA, CARB, and/or SCAQMD emissions standards in effect at the time of building permit issuance.	
	AQ-2C: Residential Electric Vehicle and Bicycle Parking Requirements *The following Residential and Non-Residential Voluntary Measures from the CalGreen Code (Appendix A4) shall apply and be required for new residential (or residential mixed-use) development projects located in the City:* ●*New one and two-family dwellings and townhomes shall include electric vehicle infrastructure consistent with Section A4.106.8.1 of the CalGreen Code.* ●*New multi-family dwellings with 17 or more units shall provide electric vehicle charging spaces capable of supporting electric vehicle supply equipment pursuant to Section A4.106.8.2.* ●*New multi-family dwelling units shall provide bicycle parking pursuant to Section A4.106.9.2.*	Not applicable; The Project does not propose residential development.

Attachment A
Mitigation Summary

Topic	General Plan Update EIR Findings/ Mitigation Measures	Project-Specific Measures
	AQ-2D: Non-Residential Electric Vehicle and Bicycle Parking Requirements *The following Non-Residential Voluntary Measures from the CalGreen Code (Appendix A5) shall apply and be required for new non-residential (or mixed-use) development projects located in the City:* ●*New non-residential development with more than 10 tenants-occupants shall provide changing/shower facilities for tenant-occupants in accordance with Table A5.106.4.3 of the CalGreen code.* ●*New non-residential development shall provide designated parking for any combination of lowemitting, fuel-efficient, and carpool/vanpool vehicles pursuant to the Tier 1 requirements of Table A5.106.5.1.1 of the CalGreen code. Such parking spaces shall be marked pursuant to Section A5.106.5.1.3 of the CalGreen code.* ●*New non-residential development shall provide electric vehicle charging spaces capable of supporting electric vehicle supply equipment pursuant to the Tier 1 requirements of Section A5.106.5.3.1 of the CalGreen code. Such spaces*	Applicable; This measure shall be implemented by the Project.

Attachment A
Mitigation Summary

Topic	General Plan Update EIR Findings/ Mitigation Measures	Project-Specific Measures
	shall be marked pursuant to Section A5.106.5.3.3 of the CalGreen code.	
	AQ-2E: Transportation Demand Management *The City shall require all new residential and nonresidential development that meets the following criteria incorporate measures to meet vehicle trip generation rates that are twenty percent lower than the standard rates as established in the most recent edition of the Institute of Transportation Engineers (ITE) trip generation manual:* ●*New multi-unit development of ten units or more;* ●*New non-residential development of ten thousand square feet or more;* ●*Additions to non-residential buildings that are ten thousand square feet or more in size or that expand existing gross floor area by ten percent or more; and* ●*Establishment of a new use, change of use, or change in operational characteristics in a building that is ten thousand square feet or more in size or that results in an average daily trip increase of more than ten percent of the current use, based on the most recent Institute of Traffic Engineers (ITE) trip generation rates.*	Applicable; Prior to executing a lease for the proposed building, the applicant shall provide a copy of the lease to City Planning staff to assure that the end user of the facility is contractually required to implement mitigation measure AQ-2E. Upon execution, the applicant shall submit a report detailing consistency with the required 20 percent reduction.

Attachment A
Mitigation Summary

Topic	General Plan Update EIR Findings/ Mitigation Measures	Project-Specific Measures
Biological Resources	The General Plan Update EIR did not identify any significant biological resources impacts, as such no mitigation is presented.	No mitigation required.
Cultural/ Tribal Resources	The General Plan Update EIR did not identify any significant cultural/tribal resources impacts, as such no mitigation is presented.	No mitigation required.
Energy	The General Plan Update EIR did not identify any significant energy impacts, as such no mitigation is presented.	No mitigation required.
Geology and Soils	The General Plan Update EIR did not identify any significant geology and soils impacts, as such no mitigation is presented.	No mitigation required.
Greenhouse Gases	The General Plan Update EIR determined that buildout of the City, including development of the City's Key Opportunity Sites, would result in GHG emissions that would directly or indirectly have a significant impact on the environment; and GHG emissions that would conflict with an plan, policy, or regulation adopted for the purpose of reducing the emissions of greenhouse gases. The EIR included the following mitigation:	As substantiated in the Project AQIA/GHGA, the Project uses would result in a net reduction in GHG emissions when compared to emissions that would be generated by commercial/business park development of the Koontz Site as envisioned under the General Plan Update EIR. The Project AQIA/GHGA discussions substantiate further that the Project uses would not result in exceedance of applicable SCAQMD GHG emissions significance thresholds. No Project-specific mitigation is required.

Attachment A
Mitigation Summary

Topic	General Plan Update EIR Findings/ Mitigation Measures	Project-Specific Measures
	GHG-1A: Within two years of the adoption of the GPTZCU, the City shall consider and evaluate the feasibility of adopting an ordinance that amends the City's Municipal Code to require all new residential and/or non-residential development subject to Title 24, Part 6 of the California Building Code to achieve Zero Net Energy (ZNE) standards. If the City finds ZNE technology, programs, and/or other strategies are feasible and cost-effective, the City shall adopt a ZNE ordinance as expeditiously as possible given City resources. As defined by the California Energy Commission (CEC), ZNE standards require the value of the net energy produced by project renewable energy resources equals the value of the energy consumed annually by the project, using the CEC's Time Dependent Valuation (CEC, 2015).	Not applicable; This measure is directed towards City Staff.
	GHG-1B: Consider the Preparation and Adoption of a Climate Action Plan. To implement General Plan Policy OSC-4.3, the City of Santa Fe Springs shall consider preparing and adopting a Climate Action Plan (CAP) within two years of adoption of the GPTZCU that:	Not applicable; This measure is directed towards City Staff.

Attachment A
Mitigation Summary

Topic	General Plan Update EIR Findings/ Mitigation Measures	Project-Specific Measures
	1) Establishes a community-wide greenhouse gas emissions inventory for a single, historic calendar year (e.g., the current year for which the CAP is being prepared). *2) Quantifies greenhouse gas emissions, both existing and proposed over a specified time period. The time period forecasted shall be no less than the Year 2040. Additional, forecasted years (e.g., 2030, 2035, etc.) may be included.* *3) Identifies annual, community-wide greenhouse gas emission reduction targets (i.e., in MTCO2e) and/or efficiency targets (i.e., in MTCO2e per service population and/or capita) that align the City's emissions with legislatively adopted statewide greenhouse gas reduction targets (e.g., AB 32 and SB 32) for a specified calendar year. For a calendar year beyond that which has a legislatively adopted greenhouse gas reduction target, the greenhouse gas emissions reduction goal for 2050 outlined in EO S-3-05 shall be used as a future benchmark. The identified annual, community-wide greenhouse gas emissions target for the City may be an interpolated value based on legislatively adopted*	

Attachment A
Mitigation Summary

Topic	General Plan Update EIR Findings/ Mitigation Measures	Project-Specific Measures
	state-wide greenhouse gas reduction targets and those issued by Executive Order. *4) Specifies measures or a group of measures, including performance standards, that substantial evidence demonstrates, if implemented on a project-by-project basis, would collectively achieve the specified annual, community-wide greenhouse gas emission reduction targets and/or efficiency targets.* *5) Establishes a mechanism to monitor the plan's progress toward achieving its community-wide greenhouse gas emission reduction targets and/or efficiency targets, and requires amendment if the CAP is not achieving specified levels.* *6) Be adopted in a public process following environmental review*	
	GHG-1C: Require a Project-level Greenhouse Gas Emissions Assessment for New Discretionary Development Projects. *Applicants shall submit a project-level greenhouse gas (GHG) emissions analysis for discretionary development projects. The GHG emissions analysis shall evaluate the project's consistency with adopted state-wide GHG emissions reduction goals, such as Senate Bill 32, EO S-3-05, or interpolated GHG*	The Project has complied with this measure. The GHGA is presented as Attachment B to this document.

Attachment A
Mitigation Summary

Topic	General Plan Update EIR Findings/ Mitigation Measures	Project-Specific Measures
	emission reduction goal for 2040 that is based on state-wide GHG emissions reduction goals (e.g., an interpolated SCAQMD efficiency metric of 2.6 MTCO2e/yr/SP). If the project's GHG emissions are found to be inconsistent with statewide GHG emission reduction goals, mitigation shall be identified and implemented to reduce emissions. The project-level GHG emissions analysis shall fully address the project's GHG emissions impacts using the checklist questions contained in the CEQA Guidelines Appendix G, Item VIII, Greenhouse Gas Emissions. Mitigation measures to reduce emissions could include, but are not limited to: ●*Increasing the energy efficiency of the proposed building(s) (e.g., identifying building practices that go beyond CalGreen Code standards, identifying specific energy efficient appliances, etc.);* ●*Incorporating on-site renewable energy generation into project-design;* ●*Reducing the quantity of parking provided by the proposed development; and* ●*Reducing indoor and outdoor potable water consumption.*	

Attachment A
Mitigation Summary

Topic	General Plan Update EIR Findings/ Mitigation Measures	Project-Specific Measures
Hazards/ Hazardous Materials	The General Plan Update EIR did not identify any significant hazards and hazardous materials impacts, as such no mitigation is presented.	*HAZ-1 In consultation with the City and the responsible environmental agency(ies), the Applicant shall prepare a Remediation Plan (Plan) addressing RECs and BERs identified in the Project site Phase I ESA and Phase II ESI. The Plan shall be reviewed and approved by the City and responsible environmental agency(ies) prior to the issuance of the first Project development permit.* *HAZ-2 Prior to the issuance of the first Project Certificate of Occupancy (CO), the City and responsible environmental agency(ies) shall verify successful implementation of the approved Plan.*
Hydrology/ Water Quality	The General Plan Update EIR determined that buildout of the City, including development of the City's Key Opportunity Sites, could result in potentially significant impacts related to water supply and water supply management. Mitigation Measure UTL-1 included in the General Plan Update EIR would reduce this impact to levels that would be less-than-significant.	The Project would be required to implement General Plan Update EIR Mitigation Measure UTL-1, ensuring that potential Project impacts related to groundwater recharge and basin groundwater management would be maintained at levels that would be less-than-significant. *UTL-1 Water Demand Management: New developments under the GPTZCU that will be served by local water utility providers will not be*

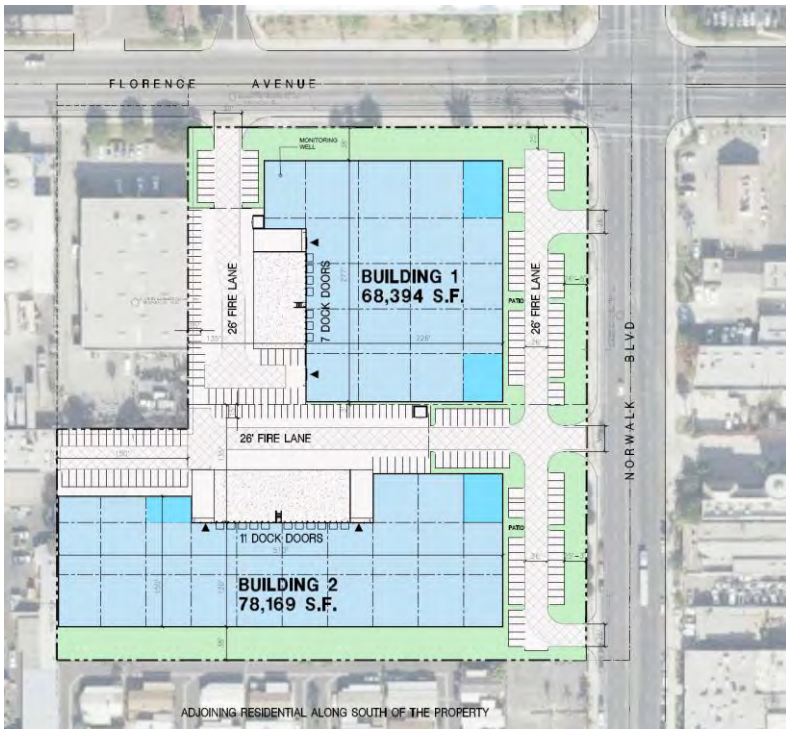
FLORENCE AND NORWALK AIR QUALITY & GREENHOUSE GAS ASSESSMENT

Mr. Ross Geller,

Urban Crossroads, Inc. is pleased to provide the following Air Quality & Greenhouse Gas Evaluation for the proposed Florence and Norwalk development (referred to as **Proposed Project**). The proposed Project is located at the southwest corner of Florence Avenue and Norwalk Boulevard in the City of Santa Fe Springs. It is our understanding that the Project is to consist of two warehouse buildings totaling 146,563 square feet (see Exhibit 1).

EXHIBIT 1: PRELIMINARY SITE PLAN



BACKGROUND

In May 2022, the California Air Pollution Control Officers Association (CAPCOA) in conjunction with other California air districts, including SCAQMD, released the latest version of the CalEEMod Version 2022.1. The purpose of this model is to calculate criteria pollutant (VOCs, NO_X, CO, SO_X, PM_{10}, and $PM_{2.5}$) and GHG emissions from direct and indirect sources; and quantify applicable air quality and GHG reductions achieved from mitigation measures (1). Accordingly, the latest version of CalEEMod has been used for this Project to determine air quality and greenhouse gas emissions. Output from the model runs for operational activities are provided in Attachments A.

AIR QUALITY IMPACT ANALYSIS

PROJECT AIR QUALITY IMPACTS

Project operations would generate emissions of VOCs, NO_X, CO, SO_X, PM_{10}, and $PM_{2.5}$. Operational emissions are expected from the following primary sources: area source emissions, energy source emissions, mobile source emissions, and on-site equipment emissions.

The Project related operational air quality emissions derive primarily from vehicle trips generated by the Project, including employee trips to and from the site and truck trips associated with the proposed uses. Trip characteristics available from the Florence and Norwalk Vehicle Miles Traveled (VMT) Screening Evaluation were utilized in this analysis. The Florence and Norwalk Vehicle Miles Traveled (VMT) Screening Evaluation used ITE land use code 110 (General Light Industrial[1]) to derive site specific trip generation estimates of 146,563 square feet for the proposed Project. A light industrial facility is a free-standing facility devoted to a single use that has an emphasis on activities other than manufacturing.

To determine emissions from trucks for the proposed industrial uses, the analysis incorporated the SCAQMD recommended truck trip length of 14.2 miles for 2-axle and 3-axle (LHDT1, LHDT2, and MHDT) trucks and 39.9 miles for 4+-axle (HHDT) trucks and weighting the average trip lengths using traffic trip percentages taken from the Florence and Norwalk Vehicle Miles Traveled (VMT) Screening Evaluation. The trip length function for trucks in CalEEMod has been revised to 29.91 miles, with an assumption of 100% primary trips for the proposed industrial land uses[2].

The estimated operation-source emissions from the proposed Project are summarized on Table 1. Detailed operation model outputs are presented in Attachment A. As shown on Table 1, operational-

[1] It should be noted that CalEEMod does not allow a user to select the general light industry land use subtype for a project with a lot size greater than 50,000 square feet. The user will need to select a different land use type more appropriate for a project with a lot size greater than 50,000 square feet such as general heavy industry, industrial park, or manufacturing. As such, this Project was modeled using the general heavy industrial land use subtype and the mobile activity analyzed consistent with the Florence and Norwalk Vehicle Miles Traveled (VMT) Screening Evaluation.

[2] The average trip length for medium-heavy (14.2-miles) and heavy-heavy trucks (39.9-miles) were based on the SCAQMD documents for the implementation of the Warehouse Actions and Investments to Reduce Emissions (WAIRE) adopted in 2021 (11). The 29.91-mile trip length was derived by weighting the average trip lengths using traffic trip percentages taken from the Florence and Norwalk Vehicle Miles Traveled (VMT) Screening Evaluation.

source emissions would not exceed the applicable SCAQMD regional thresholds for emissions of any criteria pollutant.

Additionally, it is common for industrial buildings to require the operation of exterior cargo handling equipment in the building's truck court areas. For this particular Project, on-site modeled operational equipment includes up to two (2) 175 horsepower (hp), natural gas-powered cargo handling equipment – port tractors operating at 4 hours a day[3] for 365 days of the year.

TABLE 1: TOTAL PROPOSED PROJECT OPERATIONAL EMISSIONS

Source	Emissions (lbs/day)					
	VOC	NO_X	CO	SO_X	PM_{10}	$PM_{2.5}$
Summer						
Mobile Source	2.51	3.64	27.00	0.07	2.19	0.44

Threshold Exceeded?	NO	NO	NO	NO	NO	NO

[3] Based on Table II-3, Port and Rail Cargo Handling Equipment Demographics by Type, from CARB's Technology Assessment: Mobile Cargo Handling Equipment document, a single piece of equipment could operate up to 2 hours per day (Total Average Annual Activity divided by Total Number Pieces of Equipment). As such, the analysis conservatively assumes that the Cargo Handling Equipment - Port Tractor would operate up to 4 hours per day.

CURRENTLY APPROVED USES AIR QUALITY IMPACTS

The Project site was approved in the Santa Fe Springs General Plan as 110,500 square feet of commercial or business park development as part of the Koontz Site. The approved commercial development consists of a neighborhood shopping center with retail, commercial services, and restaurants. The estimated operation-source emissions from the currently approved uses are summarized on Table 2. Detailed operation model outputs are presented in Attachment B.

To determine emissions from vehicles associated with the currently approved land uses, the analysis employed the same default trip lengths that were utilized to evaluate Project-source emissions. Default vehicle trip lengths for primary trips were populated using data from the local Metropolitan Planning Organization (Southern California Association of Governments). MPO truncates trip data at its demonstrative borders.

TABLE 2: CURRENTLY APPROVED USES OPERATIONAL EMISSIONS

Source	Emissions (lbs/day)

PROJECT NET NEW OPERATIONAL EMISSIONS, COMPARISON WITH THRESHOLDS

As shown in Table 3, Project operational-source emissions would be reduced when compared to emissions generated by the currently approved land uses. Additionally, Project operational-source emissions would not exceed applicable SCAQMD thresholds. Project-source emissions impacts would therefore be less-than-significant.

TABLE 3: PROJECT NET NEW REGIONAL OPERATIONAL EMISSIONS

Source	Emissions (lbs/day)

GHG EMISSIONS IMPACT ANALYSIS

PROJECT GHG EMISSIONS IMPACTS

Estimated Project annual GHG emissions are summarized on Table 4.Project-source GHG emission include emissions of Carbon Dioxide (CO_2), Methane (CH_4), Nitrous Oxide (N_20), and Refrigerants (R). As shown on Table 4, the proposed Project would generate a total of approximately 1,517.03 $MTCO_2e/yr$.

TABLE 4: PROPOSED PROJECT GREENHOUSE GAS EMISSIONS

Source	Emission (MT/yr)				
	CO_2	CH_4	N_20	R	Total $MTCO_2e/yr$
Mobile	822.00	0.04	0.05	1.41	839.00
Area	2.97	0.00	0.00	0.00	2.98
Energy	222.00	0.02	0.00	0.00	224.00
Water	47.90	1.11	0.03	0.00	83.50
Waste	16.20	1.62	0.00	0.00	56.70
Refrigerants	0.00	0.00	0.00	24.70	24.70
On-site Equipment	0.00	0.00	0.00	0.00	286.15
Total $MTCO_2e/yr$ (All Sources)	1,517.03				

CURRENTLY APPROVED USES GHG EMISSIONS IMPACTS

The estimated GHG emissions from the currently approved land uses are summarized on Table 5. Detailed GHG modeling outputs are presented in Attachment B.

TABLE 5: CURRENTLY APPROVED BUILDING GHG EMISSIONS

Source	Emission (MT/yr)				
	CO_2	CH_4	N_20	R	Total $MTCO_2e/yr$
Mobile	4,653.00	0.27	0.21	8.71	4,732.00
Area	2.24	< 0.005	< 0.005	0.00	2.25
Energy	207.00	0.02	< 0.005	0.00	208.00
Water	11.40	0.27	0.01	0.00	20.00
Waste	10.40	1.03	0.00	0.00	36.20
Refrigerants	0.00	0.00	0.00	< 0.005	< 0.005
Total $MTCO_2e/yr$ (All Sources)	4,988.45				

PROJECT NET NEW GHG EMISSIONS – COMPARISON WITH THRESHOLDS

Table 6 shows the proposed Project's net new GHG emissions. As indicated at Table 6, the Project would result in a net reduction of approximately 3,481.42 $MTCO_2e$/yr when compared to GHG emissions generated by uses currently approved for the site.

TABLE 6: PROPOSED PROJECT NET NEW GHG EMISSIONS

Emission Source	Total $MTCO_2e$/yr
Proposed Project	1,517.03
Currently Approved	4,998.45
Net Emissions (Proposed – Currently Approved)	-3,481.42

The City of Santa Fe Springs has not adopted its own numeric threshold of significance for determining impacts with respect to GHG emissions. The City has determined that the SCAQMD's draft threshold of 3,000 $MTCO_2e$/yr is more conservative and appropriate for industrial and warehouse land use development projects. The 3,000 $MTCO_2e$/yr threshold is based on the SCAQMD staff's proposed GHG screening threshold for stationary source emissions for non-industrial projects, as described in the SCAQMD's Interim CEQA GHG Significance Threshold for Stationary Sources, Rules and Plans ("SCAQMD Interim GHG Threshold"). The SCAQMD Interim GHG Threshold identifies a screening threshold to determine whether additional analysis is required. This threshold is also consistent with the SCAQMD's draft interim threshold Tier 3.

As shown on Table 6, the Project will result in a decrease of approximately 3,481.42 $MTCO_2e$/yr when compared to GHG emissions generated by uses currently approved for the site. Moreover, Project GHG emissions would not exceed the 3,000 $MTCO_2e$/yr screening threshold Project-source GHG emissions impacts would therefore be less-than-significant.

Respectfully submitted,

URBAN CROSSROADS, INC.

Haseeb Qureshi

Other Asphalt Surfaces	0.00	0.00

5.13. Operational Waste Generation

5.13.1. Unmitigated

Land Use	Waste (ton/year)	Cogeneration (kWh/year)
General Heavy Industry	182	0.00
User Defined Industrial	0.00	0.00
Parking Lot	0.00	0.00
Other Asphalt Surfaces	0.00	0.00

5.14. Operational Refrigeration and Air Conditioning Equipment

5.14.1. Unmitigated

Land Use Type	Equipment Type	Refrigerant	GWP	Quantity (kg)	Operations Leak Rate	Service Leak Rate	Times Serviced
General Heavy Industry	Other commercial A/C and heat pumps	User Defined	150	7.50	7.50	7.50	25.0

5.15. Operational Off-Road Equipment

5.15.1. Unmitigated

Equipment Type	Fuel Type	Engine Tier	Number per Day	Hours Per Day	Horsepower	Load Factor

5.16. Stationary Sources

5.16.1. Emergency Generators and Fire Pumps

Equipment Type	Fuel Type	Number per Day	Hours per Day	Hours per Year	Horsepower	Load Factor

5.16.2. Process Boilers

Equipment Type	Fuel Type	Number	Boiler Rating (MMBtu/hr)	Daily Heat Input (MMBtu/day)	Annual Heat Input (MMBtu/yr)

5.17. User Defined

Equipment Type	Fuel Type
—	—

5.18. Vegetation

5.18.1. Land Use Change

5.18.1.1. Unmitigated

Vegetation Land Use Type	Vegetation Soil Type	Initial Acres	Final Acres

5.18.1. Biomass Cover Type

5.18.1.1. Unmitigated

Biomass Cover Type	Initial Acres	Final Acres

5.18.2. Sequestration

5.18.2.1. Unmitigated

Tree Type	Number	Electricity Saved (kWh/year)	Natural Gas Saved (btu/year)

8. User Changes to Default Data

Screen	Justification
Land Use	Total Project area is 7.33 acres
Operations: Vehicle Data	Trip characteristics based on information provided in the VMT analysis
Operations: Fleet Mix	Passenger Car Mix estimated based on the CalEEMod default fleet mix and the ratio of the vehicle classes (LDA, LDT1, LDT2, MDV, & MCY). Truck Mix based on information in the VMT analysis
Operations: Energy Use	Project anticipated to not use natural gas
Operations: Refrigerants	Per 17 CCR 95371, new refrigeration equipment containing >50 lbs of refrigerant in new facilities is prohibited from utilizing refrigerants with a GWP of 150 or greater as of 1 Jan 2022.

EXECUTIVE SUMMARY

Urban Crossroads, Inc. has prepared this noise study to determine the potential noise impacts and the necessary noise mitigation measures, if any, for the proposed Florence and Norwalk development ("Project"). The proposed Project is to consist of two warehouse buildings totaling 146,563 square feet. This study has been prepared to satisfy applicable City of Santa Fe Springs standards and thresholds of significance based on guidance provided by Appendix G of the California Environmental Quality Act (CEQA) Guidelines. (1)

The results of this Florence and Norwalk Noise and Vibration Impact Analysis are summarized below based on the significance criteria in Section 4 of this report. Table ES-1 shows the findings of significance for each potential noise and/or vibration impact under CEQA before and after any required mitigation measures.

TABLE ES-1: SUMMARY OF CEQA SIGNIFICANCE FINDINGS

Analysis	Report Section	Significance Findings	
		Unmitigated	Mitigated

1 INTRODUCTION

This noise analysis has been completed to determine the noise impacts associated with the development of the proposed Florence and Norwalk ("Project"). This noise study briefly describes the proposed Project, provides information regarding noise fundamentals, sets out the local regulatory setting, presents the study methods and procedures for noise analysis, and evaluates the future exterior noise environment. In addition, this study includes an analysis of the potential Project-related long-term stationary-source operational noise and short-term construction noise and vibration impacts.

1.1 SITE LOCATION

The proposed project is located at the southwest corner of Florence Avenue and Norwalk Boulevard the City of Santa Fe Springs as shown on Exhibit 1-A.

1.2 PROJECT DESCRIPTION

The proposed Project is to consist of two warehouse buildings totaling 146,563 square feet as shown on Exhibit 1-B. The on-site Project-related noise sources are expected to include: loading dock activity, roof-top air conditioning units, trash enclosure activity, parking lot vehicle movements, and truck movements. This noise analysis is intended to describe noise level impacts associated with the expected typical operational activities at the Project site.

2 FUNDAMENTALS

Noise is simply defined as "unwanted sound." Sound becomes unwanted when it interferes with normal activities, when it causes actual physical harm or when it has adverse effects on health. Noise is measured on a logarithmic scale of sound pressure level known as a decibel (dB). A-weighted decibels (dBA) approximate the subjective response of the human ear to broad frequency noise source by discriminating against very low and very high frequencies of the audible spectrum. They are adjusted to reflect only those frequencies which are audible to the human ear. Exhibit 2-A presents a summary of the typical noise levels and their subjective loudness and effects that are described in more detail below.

EXHIBIT 2-A: TYPICAL NOISE LEVELS

COMMON OUTDOOR ACTIVITIES	COMMON INDOOR ACTIVITIES	A - WEIGHTED SOUND LEVEL dBA	SUBJECTIVE LOUDNESS	EFFECTS OF NOISE
THRESHOLD OF PAIN		140	INTOLERABLE OR DEAFENING	HEARING LOSS
NEAR JET ENGINE		130		
		120		
JET FLY-OVER AT 300m (1000 ft)	ROCK BAND	110		
LOUD AUTO HORN		100	VERY NOISY	
GAS LAWN MOWER AT 1m (3 ft)		90		
DIESEL TRUCK AT 15m (50 ft), at 80 km/hr (50 mph)	FOOD BLENDER AT 1m (3 ft)	80		SPEECH INTERFERENCE
NOISY URBAN AREA, DAYTIME	VACUUM CLEANER AT 3m (10 ft)	70	LOUD	
HEAVY TRAFFIC AT 90m (300 ft)	NORMAL SPEECH AT 1m (3 ft)	60		
QUIET URBAN DAYTIME	LARGE BUSINESS OFFICE	50	MODERATE	SLEEP DISTURBANCE
QUIET URBAN NIGHTTIME	THEATER, LARGE CONFERENCE ROOM (BACKGROUND)	40		
QUIET SUBURBAN NIGHTTIME	LIBRARY	30	FAINT	NO EFFECT
QUIET RURAL NIGHTTIME	BEDROOM AT NIGHT, CONCERT HALL (BACKGROUND)	20		
	BROADCAST/RECORDING STUDIO	10	VERY FAINT	
LOWEST THRESHOLD OF HUMAN HEARING	LOWEST THRESHOLD OF HUMAN HEARING	0

2.1 RANGE OF NOISE

Since the range of intensities that the human ear can detect is so large, the scale frequently used to measure intensity is a scale based on multiples of 10, the logarithmic scale. The scale for measuring intensity is the decibel scale. Each interval of 10 decibels indicates a sound energy ten times greater than before, which is perceived by the human ear as being roughly twice as loud. (2) The most common sounds vary between 40 dBA (very quiet) to 100 dBA (very loud). Normal conversation at three feet is roughly at 60 dBA, while loud jet engine noises equate to 110 dBA

at approximately 1,000 feet, which can cause serious discomfort. (3) Another important aspect of noise is the duration of the sound and the way it is described and distributed in time.

2.2 NOISE DESCRIPTORS

Environmental noise descriptors are generally based on averages, rather than instantaneous, noise levels. The most used metric is the equivalent level (L_{eq}). Equivalent sound levels are not measured directly but are calculated from sound pressure levels typically measured in A-weighted decibels (dBA). The equivalent sound level (L_{eq}) represents a steady state sound level containing the same total energy as a time varying signal over a given sample period and is commonly used to describe the "average" noise levels within the environment.

Peak hour or average noise levels, while useful, do not completely describe a given noise environment. Noise levels lower than peak hour may be disturbing if they occur during times when quiet is most desirable, namely evening and nighttime (sleeping) hours. To account for this, the Community Noise Equivalent Level (CNEL), representing a composite 24-hour noise level is utilized. The CNEL is the weighted average of the intensity of a sound, with corrections for time of day, and averaged over 24 hours. The time-of-day corrections require the addition of 5 decibels to dBA L_{eq} sound levels in the evening from 7:00 p.m. to 10:00 p.m., and the addition of 10 decibels to dBA L_{eq} sound levels at night between 10:00 p.m. and 7:00 a.m. These additions are made to account for the noise sensitive time periods during the evening and night hours when noise can become more intrusive. CNEL does not represent the actual sound level heard at any time, but rather represents the total sound exposure. The City of Santa Fe Springs relies on the 24-hour CNEL level to assess land use compatibility with transportation related noise sources.

2.3 SOUND PROPAGATION

When sound propagates over a distance, it changes in level and frequency content. The way noise reduces with distance depends on the following factors.

2.3.1 GEOMETRIC SPREADING

Sound from a localized source (i.e., a stationary point source) propagates uniformly outward in a spherical pattern. The sound level attenuates (or decreases) at a rate of 6 dB for each doubling of distance from a point source. Highways consist of several localized noise sources on a defined path and hence can be treated as a line source, which approximates the effect of several point sources. Noise from a line source propagates outward in a cylindrical pattern, often referred to as cylindrical spreading. Sound levels attenuate at a rate of 3 dB for each doubling of distance from a line source. (2)

2.3.2 GROUND ABSORPTION

The propagation path of noise from a highway to a receiver is usually very close to the ground. Noise attenuation from ground absorption and reflective wave canceling adds to the attenuation associated with geometric spreading. Traditionally, the excess attenuation has also been

expressed in terms of attenuation per doubling of distance. This approximation is usually sufficiently accurate for distances of less than 200 ft. For acoustically hard sites (i.e., sites with a reflective surface between the source and the receiver, such as a parking lot or body of water), no excess ground attenuation is assumed. For acoustically absorptive or soft sites (i.e., those sites with an absorptive ground surface between the source and the receiver such as soft dirt, grass, or scattered bushes and trees), an excess ground attenuation value of 1.5 dB per doubling of distance is normally assumed. When added to the cylindrical spreading, the excess ground attenuation results in an overall drop-off rate of 4.5 dB per doubling of distance from a line source. (4)

2.3.3 ATMOSPHERIC EFFECTS

Receivers located downwind from a source can be exposed to increased noise levels relative to calm conditions, whereas locations upwind can have lowered noise levels. Sound levels can be increased at large distances (e.g., more than 500 feet) due to atmospheric temperature inversion (i.e., increasing temperature with elevation). Other factors such as air temperature, humidity, and turbulence can also have significant effects. (2)

2.3.4 SHIELDING

A large object or barrier in the path between a noise source and a receiver can substantially attenuate noise levels at the receiver. The amount of attenuation provided by shielding depends on the size of the object and the frequency content of the noise source. Shielding by trees and other such vegetation typically only has an "out of sight, out of mind" effect. That is, the perception of noise impact tends to decrease when vegetation blocks the line-of-sight to nearby residents. However, for vegetation to provide a substantial, or even noticeable, noise reduction, the vegetation area must be at least 15 feet in height, 100 feet wide and dense enough to completely obstruct the line-of-sight between the source and the receiver. This size of vegetation may provide up to 5 dBA of noise reduction. The Federal Highway Administration (FHWA) does not consider the planting of vegetation to be a noise abatement measure. (5)

2.4 NOISE CONTROL

Noise control is the process of obtaining an acceptable noise environment for an observation point or receiver by controlling the noise source, transmission path, receiver, or all three. This concept is known as the source-path-receiver concept. In general, noise control measures can be applied to these three elements.

2.5 NOISE BARRIER ATTENUATION

Effective noise barriers can reduce noise levels by 10 to 15 dBA, cutting the loudness of traffic noise in half. A noise barrier is most effective when placed close to the noise source or receiver. Noise barriers, however, do have limitations. For a noise barrier to work, it must block the line-of-sight path of sound from the noise source.

2.6 LAND USE COMPATIBILITY WITH NOISE

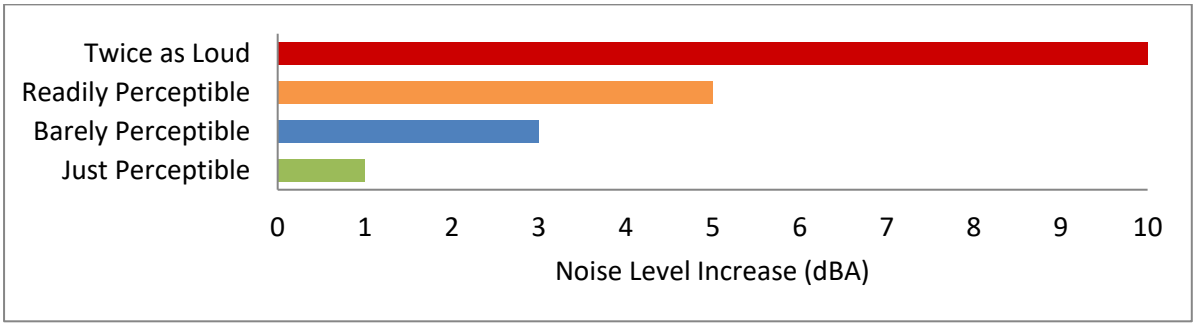
Some land uses are more tolerant of noise than others. For example, schools, hospitals, churches, and residences are more sensitive to noise intrusion than are commercial or industrial developments and related activities. As ambient noise levels affect the perceived amenity or livability of a development, so too can the mismanagement of noise impacts impair the economic health and growth potential of a community by reducing the area's desirability as a place to live, shop and work. For this reason, land use compatibility with the noise environment is an important consideration in the planning and design process. The FHWA encourages State and Local government to regulate land development in such a way that noise-sensitive land uses are either prohibited from being located adjacent to a highway, or that the developments are planned, designed, and constructed in such a way that noise impacts are minimized. (6)

2.7 COMMUNITY RESPONSE TO NOISE

Approximately sixteen percent of the population has a very low tolerance for noise and will object to any noise not of their making. Consequently, even in the quietest environment, some complaints may occur. Twenty to thirty percent of the population will not complain even in very severe noise environments. (7 pp. 8-6) Thus, a variety of reactions can be expected from people exposed to any given noise environment.

Surveys have shown that community response to noise varies from no reaction to vigorous action for newly introduced noises averaging from 10 dB below existing to 25 dB above existing. (8) According to research originally published in the Noise Effects Handbook (7), the percentage of high annoyance ranges from approximately 0 percent at 45 dB or less, 10 percent are highly annoyed around 60 dB, and increases rapidly to approximately 70 percent being highly annoyed at approximately 85 dB or greater. Despite this variability in behavior on an individual level, the population can be expected to exhibit the following responses to changes in noise levels as shown on Exhibit 2-B. A change of 3 dBA is considered barely perceptible, and changes of 5 dBA are considered readily perceptible. (4)

EXHIBIT 2-B: NOISE LEVEL INCREASE PERCEPTION



2.8 VIBRATION

Per the Federal Transit Administration (FTA) *Transit Noise Impact and Vibration Impact Assessment Manual* (8) , vibration is the periodic oscillation of a medium or object. The rumbling sound caused by the vibration of room surfaces is called structure-borne noise. Sources of ground-borne vibrations include natural phenomena (e.g., earthquakes, volcanic eruptions, sea waves, landslides) or human-made causes (e.g., explosions, machinery, traffic, trains, construction equipment). Vibration sources may be continuous, such as factory machinery, or transient, such as explosions. As is the case with airborne sound, ground-borne vibrations may be described by amplitude and frequency.

There are several different methods that are used to quantify vibration. The peak particle velocity (PPV) is defined as the maximum instantaneous peak of the vibration signal. The PPV is most frequently used to describe vibration impacts to buildings but is not always suitable for evaluating human response (annoyance) because it takes some time for the human body to respond to vibration signals. Instead, the human body responds to average vibration amplitude often described as the root mean square (RMS). The RMS amplitude is defined as the average of the squared amplitude of the signal and is most frequently used to describe the effect of vibration on the human body. Decibel notation (VdB) is commonly used to measure RMS. Decibel notation (VdB) serves to reduce the range of numbers used to describe human response to vibration. Typically, ground-borne vibration generated by man-made activities attenuates rapidly with distance from the source of the vibration. Sensitive receivers for vibration include structures (especially older masonry structures), people (especially residents, the elderly, and sick), and vibration-sensitive equipment and/or activities.

The background vibration-velocity level in residential areas is generally 50 VdB. Ground-borne vibration is normally perceptible to humans at approximately 65 VdB. For most people, a vibration-velocity level of 75 VdB is the approximate dividing line between barely perceptible and distinctly perceptible levels. Typical outdoor sources of perceptible ground-borne vibration are construction equipment, steel-wheeled trains, and traffic on rough roads. If a roadway is smooth, the ground-borne vibration is rarely perceptible. The range of interest is from approximately 50 VdB, which is the typical background vibration-velocity level, to 100 VdB, which is the general threshold where minor damage can occur in fragile buildings. Exhibit 2-C illustrates common vibration sources and the human and structural response to ground-borne vibration.

EXHIBIT 2-C: TYPICAL LEVELS OF GROUND-BORNE VIBRATION

3 REGULATORY SETTING

The federal government, the State of California, various county governments, and most municipalities in the state have established standards and ordinances to control noise. In most areas, automobile and truck traffic is the major source of environmental noise. Traffic activity generally produces an average sound level that remains constant with time. Air and rail traffic, and commercial and industrial activities are also major sources of noise in some areas. Federal, state, and local agencies regulate different aspects of environmental noise. Federal and state agencies generally set noise standards for mobile sources such as aircraft and motor vehicles, while regulation of stationary sources is left to local agencies.

3.1 STATE OF CALIFORNIA NOISE REQUIREMENTS

The State of California regulates freeway noise, sets standards for sound transmission, provides occupational noise control criteria, identifies noise standards, and provides guidance for local land use compatibility. State law requires that each county and city adopt a General Plan that includes a Noise Element which is to be prepared per guidelines adopted by the Governor's Office of Planning and Research (OPR). (9) The purpose of the Noise Element is to *limit the exposure of the community to excessive noise levels*. In addition, the California Environmental Quality Act (CEQA) requires that all known environmental effects of a project be analyzed, including environmental noise impacts.

3.2 CITY OF SANTA FE SPRINGS GENERAL PLAN NOISE ELEMENT

The City of Santa Fe Springs *General Plan Noise Element* establishes a *comprehensive program for including noise control in the planning process*. (14) The *Noise Element* provides land use compatibility guidelines and transportation noise standards for future development and the future noise contour boundaries for major roadways in the City of Santa Fe Springs. The noise criteria identified in the City of Santa Fe Springs Noise Element (Table 1) are guidelines to evaluate the land use compatibility of transportation-related noise. The compatibility criteria provide the City with a planning tool to gauge the compatibility of land uses relative to existing and future exterior noise levels.

The *Noise/Land Use Compatibility Matrix* indicates that industrial land uses, such as the Project site, are considered *normally acceptable* with exterior noise levels below 70 dBA CNEL, and *conditionally acceptable* with noise levels below 75 dBA CNEL. Noise-sensitive residential land uses are considered *normally acceptable* with exterior noise levels below 60 dBA CNEL, and *conditionally acceptable* with noise levels below 65 dBA CNEL. For *conditionally acceptable* land uses, *new development should be undertaken only after detailed analysis of noise reduction requirements is made and needed noise insulation features included in the design. Convention construction, but with closed windows and fresh air supply systems or air conditions, will normally suffice.* (14)

3.3 OPERATIONAL NOISE STANDARDS

To analyze noise impacts originating from a designated fixed location or private property such as the Florence and Norwalk Project, stationary-source (operational) noise such as the expected loading dock activity, roof-top air conditioning units, trash enclosure activity, parking lot vehicle movements, and truck movements are typically evaluated against standards established under a jurisdiction's Municipal Code. The City of Santa Fe Springs Municipal Code base exterior noise level standards are shown on Table 3-1.

TABLE 3-1: OPERATIONAL NOISE LEVEL STANDARDS

Jurisdiction	Receiving Land Use	Exterior Noise Level Standard (dBA L_{eq})[2]	
		Daytime	Nighttime
City of Santa Fe Springs[1]	Any school, church, or hospital	45	45
	A-1, R-1 or R-3 Zone	50	45
	C-1 or C-4 Zone	60	55
	ML, PF or BP Zone	60	60
	M-1 or M-2 Zone	70	70

[1] Source: City of Santa Fe Springs, Section 155.424 (Appendix 3.1).
L_{eq} represents a steady state sound level containing the same total energy as a time varying signal over a given sample period.
"Daytime" = 7:00 a.m. - 10:00 p.m.; "Nighttime" = 10:00 p.m. - 7:00 a.m.

The City of Santa Fe Springs Municipal Code, Section 155.424, establishes exterior noise level limits by receiving land uses. For noise-sensitive residential properties, the Municipal Code identifies operational noise level limits for the daytime (7:00 a.m. to 10:00 p.m.) hours of 50 dBA L_{50} and 45 dBA L_{50} during the nighttime (10:00 p.m. to 7:00 a.m.) hours. (1) In addition, Section 155.424[B] indicates that if the existing ambient noise levels already exceed any of the exterior noise level limit categories, then the standard can be adjusted to reflect the ambient conditions. Appendix 3.1 includes the City of Santa Fe Springs Municipal Code noise standards.

3.4 CONSTRUCTION NOISE STANDARDS

The City of Santa Fe Springs has set restrictions to control noise impacts associated with construction. Section 155.425[B] of the Municipal Code states that *it shall be unlawful for any person within a residential zone, or within a radius of 500 feet therefrom, to operate equipment or perform any outside construction or repair work on buildings, structures, or projects or to operate any pile driver, power shovel, pneumatic hammer, derrick, power hoist, or any other construction type device between the hours of 7:00 p.m. of one day and 7:00 a.m. of the next day.* (13) While the City establishes limits to the hours during which construction activity may take place, it does not identify specific noise level limits for construction noise levels at potentially affected receiver locations for CEQA analysis purposes. Therefore, a numerical construction threshold based on Federal Transit Administration (FTA) *Transit Noise and Vibration Impact Assessment Manual* is used for analysis of daytime construction impacts, as discussed below.

According to the FTA, local noise ordinances are typically not very useful in evaluating construction noise. They usually relate to nuisance and hours of allowed activity, and sometimes specify limits in terms of maximum levels, but are generally not practical for assessing the impact of a construction project. Project construction noise criteria should account for the existing noise environment, the absolute noise levels during construction activities, the duration of the construction, and the adjacent land use. Due to the lack of standardized construction noise thresholds, the FTA provides guidelines that can be considered reasonable criteria for construction noise assessment. The FTA considers a daytime exterior construction noise level of 80 dBA L_{eq} as a reasonable threshold for noise sensitive residential land use. (8 p. 179)

3.5 VIBRATION STANDARDS

Construction activity can result in varying degrees of ground-borne vibration, depending on the equipment and methods used, distance to the affected structures and soil type. Construction vibration is generally associated with pile driving and rock blasting. Other construction equipment such as air compressors, light trucks, hydraulic loaders, etc., generates little or no ground vibration. (8) To analyze vibration impacts originating from the operation and construction of Florence and Norwalk, vibration-generating activities are appropriately evaluated against standards established under a City's Municipal Code, if such standards exist. However, the City of Santa Fe Springs does not identify specific vibration level limits. Therefore, for analysis purposes, the Caltrans *Transportation and Construction Vibration Guidance Manual*, (13 p. 38) Table 19, vibration damage are used in this noise study to assess potential temporary construction-related impacts at adjacent building locations. The nearest noise sensitive buildings adjacent to the Project site can best be described as "older residential structures" with a maximum acceptable continuous vibration threshold of 0.3 PPV (in/sec).

This page intentionally left blank

4 SIGNIFICANCE CRITERIA

The following significance criteria are based on currently adopted guidance provided by Appendix G of the California Environmental Quality Act (CEQA) Guidelines. (1) For the purposes of this report, impacts would be potentially significant if the Project results in or causes:

A. Generation of a substantial temporary or permanent increase in ambient noise levels in the vicinity of the project in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies?

B. Generation of excessive ground-borne vibration or ground-borne noise levels?

C. For a project located within the vicinity of a private airstrip or an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project expose people residing or working in the project area to excessive noise levels?

4.1 NOISE LEVEL INCREASES (THRESHOLD A)

Noise level increases resulting from the Project are evaluated based on the Appendix G CEQA Guidelines. Under CEQA, consideration must be given to the magnitude of the increase, the existing baseline ambient noise levels, and the location of receivers to determine if a noise increase represents a significant adverse environmental impact. This approach recognizes *that there is no single noise increase that renders the noise impact significant.* (15) This is primarily because of the wide variation in individual thresholds of annoyance and differing individual experiences with noise. Thus, an important way of determining a person's subjective reaction to a new noise is the comparison of it to the existing environment to which one has adapted—the so-called *ambient* environment. In general, the more a new noise exceeds the previously existing ambient noise level, the less acceptable the new noise will typically be judged.

The Federal Interagency Committee on Noise (FICON) (16) developed guidance to be used for the assessment of project-generated increases in noise levels that consider the ambient noise level. The FICON recommendations are based on studies that relate aircraft noise levels to the percentage of persons highly annoyed by aircraft noise. Although the FICON recommendations were specifically developed to assess aircraft noise impacts, these recommendations are often used in environmental noise impact assessments involving the use of cumulative noise exposure metrics, such as the average-daily noise level (CNEL) and equivalent continuous noise level (L_{eq}).

As previously stated, the approach used in this noise study recognizes *that there is no single noise increase that renders the noise impact significant*, based on a 2008 California Court of Appeal ruling on Gray v. County of Madera. (15) For example, if the ambient noise environment is quiet (<60 dBA) and the new noise source greatly increases the noise levels, an impact may occur if the noise criteria may be exceeded. Therefore, for this analysis, a *readily perceptible* 5 dBA or greater project-related noise level increase is considered a significant impact when the without project noise levels are below 60 dBA. Per the FICON, in areas where the without project noise levels range from 60 to 65 dBA, a 3 dBA *barely perceptible* noise level increase appears to be appropriate for most people. When the without project noise levels already exceed 65 dBA, any increase in community noise louder than 1.5 dBA or greater is considered a significant impact if

the noise criteria for a given land use is exceeded, since it likely contributes to an existing noise exposure exceedance. The FICON guidance provides an established source of criteria to assess the impacts of substantial temporary or permanent increase in baseline ambient noise levels. Based on the FICON criteria, the amount to which a given noise level increase is considered acceptable is reduced when the without Project (baseline) noise levels are already shown to exceed certain land-use specific exterior noise level criteria. The specific levels are based on typical responses to noise level increases of 5 dBA or *readily perceptible*, 3 dBA or *barely perceptible*, and 1.5 dBA depending on the underlying without Project noise levels for noise-sensitive uses. These levels of increases and their perceived acceptance are consistent with guidance provided by both the Federal Highway Administration (4 p. 9) and Caltrans (17 p. 2_48).

4.2 VIBRATION (THRESHOLD B)

As described in Section 3.5, the vibration impacts originating from the construction of the Florence and Norwalk, vibration-generating activities are appropriately evaluated using the Caltrans vibration damage thresholds to assess potential temporary construction-related impacts at adjacent building locations. The nearest noise sensitive buildings adjacent to the Project site can best be described as "older residential structures" with a maximum acceptable continuous vibration threshold of 0.3 PPV (in/sec).

4.3 CEQA GUIDELINES NOT FURTHER ANALYZED (THRESHOLD C)

CEQA Noise Threshold C applies when there are nearby public and private airports and/or air strips and focuses on land use compatibility of the Project to nearby airports and airstrips. The Project site is not located within two miles of an airport or airstrip. The closest airport is the Long Beach Airport (LGB) located roughly 8.5 miles southwest of the Project site. As such, the Project site would not be exposed to excessive noise levels from airport operations, and therefore, impacts are considered *less than significant,* and no further noise analysis is conducted in relation to Appendix G to the CEQA Guidelines, Noise Threshold C.

4.4 SIGNIFICANCE CRITERIA SUMMARY

Noise impacts shall be considered significant if any of the following occur as a direct result of the proposed Project. Table 4-1 shows the significance criteria summary matrix that includes the allowable criteria used to identify potentially significant incremental noise level increases.

TABLE 4-1: SIGNIFICANCE CRITERIA SUMMARY

Analysis	Receiving Land Use	Condition(s)	Significance Criteria	
			Daytime	Nighttime
Operational	Noise-Sensitive	Exterior Noise Level Standards[1]	50 dBA L_{eq}	45 dBA L_{eq}
		If ambient is < 60 dBA Leq[2]	≥ 5 dBA L_{eq} Project increase	
		If ambient is 60 - 65 dBA Leq[2]	≥ 3 dBA L_{eq} Project increase	
		If ambient is > 65 dBA Leq[2]	≥ 1.5 dBA L_{eq} Project increase	
Construction		Unlawful between the hours of 7:00 p.m. to 7:00 a.m.[3]		
		Noise Level Threshold[4]	80 dBA L_{eq}	
		Vibration Level Threshold[5]	0.03 PPV (in/sec)

5 EXISTING NOISE LEVEL MEASUREMENTS

To assess the existing noise level environment, 24-hour noise level measurements were taken at two locations in the Project study area. The receiver locations were selected to describe and document the existing noise environment within the Project study area. Exhibit 5-A provides the boundaries of the Project study area and the noise level measurement locations. To fully describe the existing noise conditions, noise level measurements were collected by Urban Crossroads, Inc. on Wednesday, June 22, 2022. Appendix 5.1 includes study area photos.

5.1 MEASUREMENT PROCEDURE AND CRITERIA

To describe the existing noise environment, the hourly noise levels were measured during typical weekday conditions over a 24-hour period. By collecting individual hourly noise level measurements, it is possible to describe the equivalent daytime and nighttime hourly noise levels. The long-term noise readings were recorded using Piccolo Type 2 integrating sound level meter and dataloggers. The Piccolo sound level meters were calibrated using a Larson-Davis calibrator, Model CAL 150. All noise meters were programmed in "slow" mode to record noise levels in "A" weighted form. The sound level meters and microphones were equipped with a windscreen during all measurements. All noise level measurement equipment satisfies the American National Standards Institute (ANSI) standard specifications for sound level meters ANSI S1.4-2014/IEC 61672-1:2013. (18)

5.2 NOISE MEASUREMENT LOCATIONS

The long-term noise level measurements were positioned as close to the nearest sensitive receiver locations as possible to assess the existing ambient hourly noise levels surrounding the Project site. Both Caltrans and the FTA recognize that it is not reasonable to collect noise level measurements that can fully represent every part of a private yard, patio, deck, or balcony normally used for human activity when estimating impacts for new development projects. This is demonstrated in the Caltrans general site location guidelines which indicate that, *sites must be free of noise contamination by sources other than sources of interest. Avoid sites located near sources such as barking dogs, lawnmowers, pool pumps, and air conditioners unless it is the express intent of the analyst to measure these sources*. (2) Further, FTA guidance states, t*hat it is not necessary nor recommended that existing noise exposure be determined by measuring at every noise-sensitive location in the project area. Rather, the recommended approach is to characterize the noise environment for clusters of sites based on measurements or estimates at representative locations in the community*. (8)

Based on recommendations of Caltrans and the FTA, it is not necessary to collect measurements at each individual building or residence, because each receiver measurement represents a group of buildings that share acoustical equivalence. (8) In other words, the area represented by the receiver shares similar shielding, terrain, and geometric relationship to the reference noise source. Receivers represent a location of noise sensitive areas and are used to estimate the future noise level impacts. Collecting reference ambient noise level measurements at the nearby sensitive receiver locations allows for a comparison of the before and after Project noise levels

and is necessary to assess potential noise impacts due to the Project's contribution to the ambient noise levels.

5.3 NOISE MEASUREMENT RESULTS

The noise measurements presented below focus on the average or equivalent sound levels (L_{eq}). The equivalent sound level (L_{eq}) represents a steady state sound level containing the same total energy as a time varying signal over a given sample period. Table 5-1 identifies the hourly daytime (7:00 a.m. to 10:00 p.m.) and nighttime (10:00 p.m. to 7:00 a.m.) noise levels at each noise level measurement location.

TABLE 5-1: 24-HOUR AMBIENT NOISE LEVEL MEASUREMENTS

Location[1]	Description	Energy Average Noise Level (dBA L_{eq})[2]	
		Daytime	Nighttime
L1	Located west of the Project site near the Costa Azul Senior Apartments.	60.2	53.2
L2	Located southwest of the Project site near the Little Lake Village grass area.	57.8	47.7

[1] See Exhibit 5-A for the noise level measurement locations.
[2] Energy (logarithmic) average levels. The long-term 24-hour measurement worksheets are included in Appendix 5.2. "Daytime" = 7:00 a.m. to 10:00 p.m.; "Nighttime" = 10:00 p.m. to 7:00 a.m.

Table 5-1 provides the (energy average) noise levels used to describe the daytime and nighttime ambient conditions. These daytime and nighttime energy average noise levels represent the average of all hourly noise levels observed during these time periods expressed as a single number. Appendix 5.2 provides summary worksheets of the noise levels for each hour as well as the minimum, maximum, L_1, L_2, L_5, L_8, L_{25}, L_{50}, L_{90}, L_{95}, and L_{99} percentile noise levels observed during the daytime and nighttime periods.

EXHIBIT 5-A: NOISE MEASUREMENT LOCATIONS

This page intentionally left blank

6 RECEIVER LOCATIONS

To assess the potential for long-term operational and short-term construction noise impacts, the following sensitive receiver locations, as shown on Exhibit 6-A, were identified as representative locations for analysis. Sensitive receivers are generally defined as locations where people reside or where the presence of unwanted sound could otherwise adversely affect the use of the land. Noise-sensitive land uses are generally considered to include schools, hospitals, single-family dwellings, mobile home parks, churches, libraries, and recreation areas. Moderately noise-sensitive land uses typically include multi-family dwellings, hotels, motels, dormitories, out-patient clinics, cemeteries, golf courses, country clubs, athletic/tennis clubs, and equestrian clubs. Land uses that are considered relatively insensitive to noise include business, commercial, and professional developments. Land uses that are typically not affected by noise include: industrial, manufacturing, utilities, agriculture, undeveloped land, parking lots, warehousing, liquid and solid waste facilities, salvage yards, and transit terminals.

To describe the potential off-site Project noise levels, four receiver locations in the vicinity of the Project site were identified. All distances are measured from the Project site boundary to the outdoor living areas (e.g., private backyards) or at the building façade, whichever is closer to the Project site. The selection of receiver locations is based on FHWA guidelines and is consistent with additional guidance provided by Caltrans and the FTA, as previously described in Section 5.2. Other sensitive land uses in the Project study area that are located at greater distances than those identified in this noise study will experience lower noise levels than those presented in this report due to the additional attenuation from distance and the shielding of intervening structures. Distance is measured in a straight line from the project boundary to each receiver location.

R1: Location R1 represents existing noise sensitive Lakeland Villas Mobile Home Park at 12147 Lakeland Road, approximately 36 feet south of the Project site. Since there are no private outdoor living areas (backyards) facing the Project site, receiver R1 is placed at the building façade the nearest mobile home behind the existing 8-foot-high wall. A 24-hour noise measurement was taken near this location, L2, to describe the existing ambient noise environment.

R2: Location R2 represents the existing noise sensitive Little Lake Village residential community at 10902 Fulton Wells Avenue, approximately 123 feet southwest of the Project site. Location R2 is placed at the community grass area. A 24-hour noise measurement was taken near this location, L2, to describe the existing ambient noise environment.

R3: Location R3 represents the existing noise sensitive Little Lake Village residential community at 10902 Fulton Wells Avenue, approximately 281 feet west of the Project site. Since there are no private outdoor living areas (backyards) facing the Project site, receiver R2 is placed at the building facade. A 24-hour noise measurement was taken near this location, L1, to describe the existing ambient noise environment.

R4: Location R4 represents the existing noise sensitive Costa Azul Senior Apartment Community at 10829 Fulton Wells Avenue, approximately 486 feet west of the Project site. Since there are no private outdoor living areas (backyards) facing the Project site,

receiver R4 is placed at the building façade. A 24-hour noise measurement was taken near this location, L1, to describe the existing ambient noise environment.

EXHIBIT 6-A: RECEIVER LOCATIONS

7 OPERATIONAL NOISE ANALYSIS

This section analyzes the potential stationary-source operational noise impacts at the nearby receiver locations, identified in Section 6, resulting from the operation of the proposed Florence and Norwalk Project. Exhibit 7-A identifies the noise source locations used to assess the operational noise levels.

7.1 OPERATIONAL NOISE SOURCES

This operational noise analysis is intended to describe noise level impacts associated with the expected typical of daytime and nighttime activities at the Project site. To present the potential worst-case noise conditions, this analysis assumes the Project would be operational 24 hours per day, seven days per week. Consistent with similar warehouse and industrial uses, the Project business operations would primarily be conducted within the enclosed buildings, except for traffic movement, parking, as well as loading and unloading of trucks at designated loading bays. The on-site Project-related noise sources are expected to include: loading dock activity, roof-top air conditioning units, trash enclosure activity, parking lot vehicle movements, and truck movements.

7.2 REFERENCE NOISE LEVELS

To estimate the Project operational noise impacts, reference noise level measurements were collected from similar types of activities to represent the noise levels expected with the development of the proposed Project. This section provides a detailed description of the reference noise level measurements shown on Table 7-1 used to estimate the Project operational noise impacts. It is important to note that the following projected noise levels assume the worst-case noise environment with the loading dock activity, roof-top air conditioning units, trash enclosure activity, parking lot vehicle movements, and truck movements all operating at the same time. These sources of noise activity will likely vary throughout the day.

7.2.1 MEASUREMENT PROCEDURES

The reference noise level measurements presented in this section were collected using a Larson Davis LxT Type 1 precisions sound level meter (serial number 01146). The LxT sound level meter was calibrated using a Larson-Davis calibrator, Model CAL 200, was programmed in "slow" mode to record noise levels in "A" weighted form and was located at approximately five feet above the ground elevation for each measurement. The sound level meters and microphones were equipped with a windscreen during all measurements. All noise level measurement equipment satisfies the American National Standards Institute (ANSI) standard specifications for sound level meters ANSI S1.4-2014/IEC 61672-1:2013. (18)

EXHIBIT 7-A: OPERATIONAL NOISE SOURCE LOCATIONS

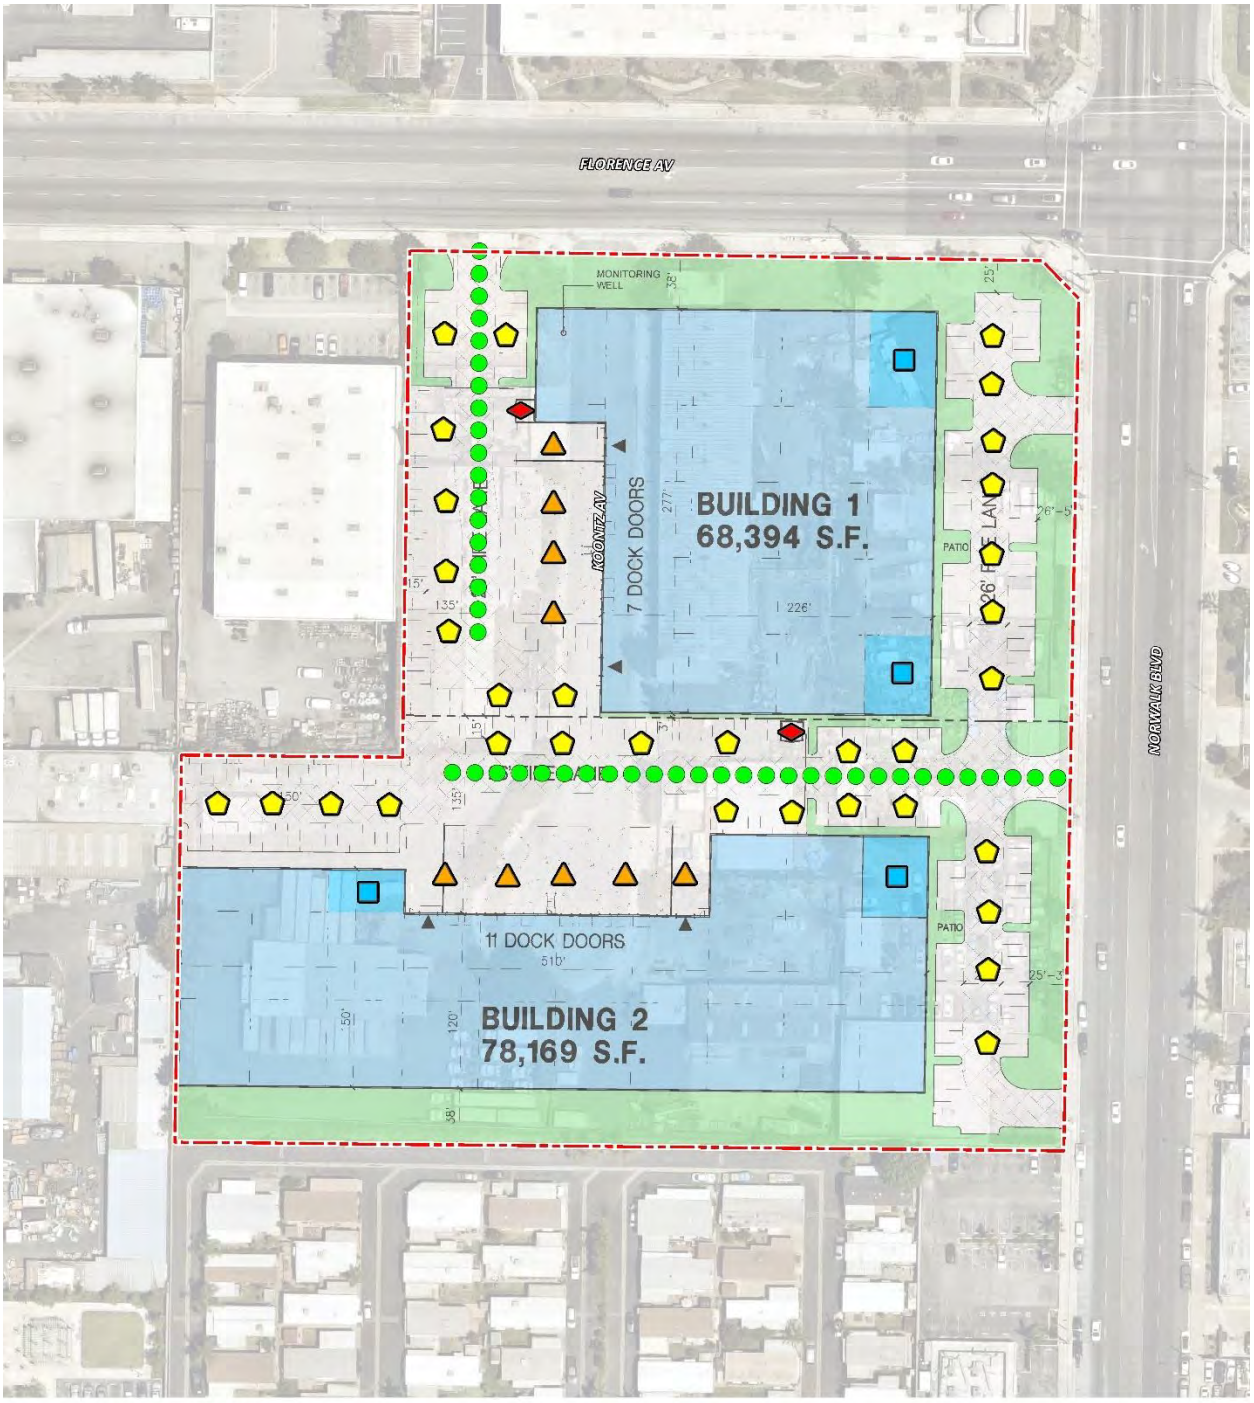

TABLE 7-1: REFERENCE NOISE LEVEL MEASUREMENTS

Noise Source[1]	Noise Source Height (Feet)	Min./ Hour[2]		Reference Noise Level (dBA L_{eq}) @ 50 Feet	Sound Power Level (dBA)[3]
		Day	Night		
Loading Dock Activity	8'	60	60	62.8	103.4
Roof-Top Air Conditioning Units	5'	39	28	57.2	88.9
Trash Enclosure Activity	5'	10	10	57.3	89.0
Parking Lot Vehicle Movements	5'	60	60	56.1	87.8
Truck Movements	8'	60	60	59.8	93.2

[1] As measured by Urban Crossroads, Inc.
[2] Anticipated duration (minutes within the hour) of noise activity during typical hourly conditions expected at the Project site. "Daytime" = 7:00 a.m. - 10:00 p.m.; "Nighttime" = 10:00 p.m. - 7:00 a.m.
[3] Sound power level represents the total amount of acoustical energy (noise level) produced by a sound source independent of distance or surroundings. Sound power levels calculated using the CadnaA noise model at the reference distance to the noise source.

7.2.2 LOADING DOCK ACTIVITY

The reference loading dock activities are intended to describe the typical operational noise source levels associated with the Project. This includes truck idling, deliveries, backup alarms, unloading/loading, docking including a combination of tractor trailer semi-trucks, two-axle delivery trucks, and background forklift operations. At a uniform reference distance of 50 feet, Urban Crossroads collected a reference noise level of 62.8 dBA L_{eq}. The loading dock activity noise level measurement was taken over a fifteen-minute period and represents multiple noise sources taken from the center of activity. The reference noise level measurement includes employees unloading a docked truck container included the squeaking of the truck's shocks when weight was removed from the truck, employees playing music over a radio, as well as a forklift horn and backup alarm. In addition, during the noise level measurement a truck entered the loading dock area and proceeded to reverse and dock in a nearby loading bay, adding truck engine, idling, air brakes noise, in addition to on-going idling of an already docked truck.

7.2.3 ROOF-TOP AIR CONDITIONING UNITS

The noise level measurements describe a single mechanical roof-top air conditioning unit. The reference noise level represents a Lennox SCA120 series 10-ton model packaged air conditioning unit. At the uniform reference distance of 50 feet, the reference noise levels are 57.2 dBA L_{eq}. Based on the typical operating conditions observed over a four-day measurement period, the roof-top air conditioning units are estimated to operate for and average 39 minutes per hour during the daytime hours, and 28 minutes per hour during the nighttime hours. These operating conditions reflect peak summer cooling requirements with measured temperatures approaching 96 degrees Fahrenheit (°F) with average daytime temperatures of 82°F. For this noise analysis, the air conditioning units are expected to be located on the roof of the Project buildings.

7.2.5 TRASH ENCLOSURE ACTIVITY

To describe the noise levels associated with a trash enclosure activity, Urban Crossroads collected a reference noise level measurement at an existing trash enclosure containing two dumpster bins. The trash enclosure noise levels describe metal gates opening and closing, metal scraping against concrete floor sounds, dumpster movement on metal wheels, and trash dropping into the metal dumpster. The reference noise levels describe trash enclosure noise activities when trash is dropped into an empty metal dumpster, as would occur at the Project Site. The measured reference noise level at the uniform 50-foot reference distance is 57.3 dBA L_{eq} for the trash enclosure activity. The reference noise level describes the expected noise source activities associated with the trash enclosures for the Project's proposed building. Typical trash enclosure activities are estimated to occur for 10 minutes per hour.

7.2.6 PARKING LOT VEHICLE MOVEMENTS

To describe the on-site parking lot activity, a long-term 29-hour reference noise level measurement was collected in the center of activity within the staff parking lot of a warehouse distribution center. At 50 feet from the center of activity, the parking lot produced a reference noise level of 56.1 dBA L_{eq}. Parking activities are expected to take place during the full hour (60 minutes) throughout the daytime and evening hours. The parking lot noise levels are mainly due cars pulling in and out of parking spaces in combination with car doors opening and closing.

7.2.6 TRUCK MOVEMENTS

The truck movements reference noise level measurement was collected over a period of 1 hour and 28 minutes and represents multiple heavy trucks entering and exiting the outdoor loading dock area producing a reference noise level of 59.8 dBA L_{eq} at 50 feet. The noise sources included at this measurement location account for trucks entering and existing the Project driveways and maneuvering in and out of the outdoor loading dock activity area.

7.3 CADNAA NOISE PREDICTION MODEL

To fully describe the exterior operational noise levels from the Project, Urban Crossroads, Inc. developed a noise prediction model using the CadnaA (Computer Aided Noise Abatement) computer program. CadnaA can analyze multiple types of noise sources using the spatially accurate Project site plan, georeferenced Nearmap aerial imagery, topography, buildings, and barriers in its calculations to predict outdoor noise levels.

Using the ISO 9613-2 protocol, CadnaA will calculate the distance from each noise source to the noise receiver locations, using the ground absorption, distance, and barrier/building attenuation inputs to provide a summary of noise level at each receiver and the partial noise level contributions by noise source. Consistent with the ISO 9613-2 protocol, the CadnaA noise prediction model relies on the reference sound power level (L_w) to describe individual noise sources. While sound pressure levels (e.g., L_{eq}) quantify in decibels the intensity of given sound sources at a reference distance, sound power levels (L_w) are connected to the sound source and are independent of distance. Sound pressure levels vary substantially with distance from the source and diminish because of intervening obstacles and barriers, air absorption, wind, and

other factors. Sound power is the acoustical energy emitted by the sound source and is an absolute value that is not affected by the environment.

The operational noise level calculations provided in this noise study account for the distance attenuation provided due to geometric spreading, when sound from a localized stationary source (i.e., a point source) propagates uniformly outward in a spherical pattern. A default ground attenuation factor of 0.5 was used in the CadnaA noise analysis to account for mixed ground representing a combination of hard and soft surfaces. Appendix 7.1 includes the detailed noise model inputs used to estimate the Project operational noise levels presented in this section.

7.4 PROJECT OPERATIONAL NOISE LEVELS

Using the reference noise levels to represent the proposed Project operations that include loading dock activity, roof-top air conditioning units, trash enclosure activity, parking lot vehicle movements, and truck movements, Urban Crossroads, Inc. calculated the operational source noise levels that are expected to be generated at the Project site and the Project-related noise level increases that would be experienced at each of the sensitive receiver locations. Table 7-2 shows the Project operational noise levels during the daytime hours of 7:00 a.m. to 10:00 p.m. The daytime hourly noise levels at the off-site receiver locations are expected to range from 35.2 to 39.6 dBA L_{eq}.

TABLE 7-2: DAYTIME PROJECT OPERATIONAL NOISE LEVELS

Noise Source[1]	Operational Noise Levels by Receiver Location (dBA Leq)			
	R1	R2	R3	R4
Loading Dock Activity	39.2	34.1	37.7	37.5
Roof-Top Air Conditioning Units	26.4	26.2	25.2	28.8
Trash Enclosure Activity	6.8	3.5	10.0	6.8
Parking Lot Vehicle Movements	25.6	24.8	26.8	27.0
Truck Movements	19.6	16.5	22.7	23.6
Total (All Noise Sources)	**39.6**	**35.2**	**38.4**	**38.5**

[1] See Exhibit 7-A for the noise source locations. CadnaA noise model calculations are included in Appendix 7.1.

Table 7-3 shows the Project operational noise levels during the nighttime hours of 10:00 p.m. to 7:00 a.m. The nighttime hourly noise levels at the off-site receiver locations are expected to range from 35.0 to 39.6 dBA L_{eq}. The differences between the daytime and nighttime noise levels are largely related to the estimated duration of noise activity as outlined in Table 7-1 and Appendix 7.1.

TABLE 7-3: NIGHTTIME PROJECT OPERATIONAL NOISE LEVELS

Noise Source[1]	Operational Noise Levels by Receiver Location (dBA Leq)			
	R1	R2	R3	R4
Loading Dock Activity	39.2	34.1	37.7	37.5
Roof-Top Air Conditioning Units	24.0	23.8	22.8	26.4
Trash Enclosure Activity	5.8	2.5	9.0	5.8
Parking Lot Vehicle Movements	25.6	24.8	26.8	27.0
Truck Movements	19.6	16.5	22.7	23.6
Total (All Noise Sources)	**39.6**	**35.0**	**38.3**	**38.3**

[1] See Exhibit 7-A for the noise source locations. CadnaA noise model calculations are included in Appendix 7.1.

7.5 PROJECT OPERATIONAL NOISE LEVEL COMPLIANCE

To demonstrate compliance with local noise regulations, the Project-only operational noise levels are evaluated against exterior noise level thresholds based on the City of Santa Fe Springs exterior noise level standards at nearby noise-sensitive receiver locations. Table 7-4 shows the operational noise levels associated with the Project will satisfy the City of Santa Fe Springs exterior noise level standards.

TABLE 7-4: OPERATIONAL NOISE LEVEL COMPLIANCE

Receiver Location[1]	Project Operational Noise Levels (dBA Leq)[2]		Noise Level Standards (dBA Leq)[3]		Noise Level Standards Exceeded?[4]	
	Daytime	Nighttime	Daytime	Nighttime	Daytime	Nighttime
R1	39.6	39.6	55.0	45.0	No	No
R2	35.2	35.0	55.0	45.0	No	No
R3	38.4	38.3	55.0	45.0	No	No
R4	38.5	38.3	55.0	45.0	No	No

[1] See Exhibit 6-A for the receiver locations.
[2] Proposed Project operational noise levels as shown on Tables 7-2 and 7-3.
[3] City of Santa Fe Springs Municipal Code, Section 155.424.
"Daytime" = 7:00 a.m. - 10:00 p.m.; "Nighttime" = 10:00 p.m. - 7:00 a.m.

7.6 PROJECT OPERATIONAL NOISE LEVEL INCREASES

To describe the Project operational noise level increases, the Project operational noise levels are combined with the existing ambient noise levels measurements for the nearby receiver locations potentially impacted by Project operational noise sources. Since the units used to measure noise, decibels (dB), are logarithmic units, the Project-operational and existing ambient noise levels cannot be combined using standard arithmetic equations. (2) Instead, they must be logarithmically added using the following base equation:

$$SPL_{Total} = 10\log_{10}[10^{SPL1/10} + 10^{SPL2/10} + \ldots 10^{SPLn/10}]$$

Where "SPL1," "SPL2," etc. are equal to the sound pressure levels being combined, or in this case, the Project-operational and existing ambient noise levels. The difference between the combined Project and ambient noise levels describes the Project noise level increases to the existing ambient noise environment. As indicated on Tables 7-5, the Project will generate a daytime operational noise level increases ranging from 0.0 to 0.1 dBA L_{eq} at the nearest receiver locations. Table 9-6 shows that the Project will generate a nighttime operational noise level increases ranging from 0.1 to 0.6 dBA L_{eq} at the nearest receiver locations. Project-related operational noise level increases will satisfy the operational noise level increase significance criteria presented on Table 4-1. Therefore, the incremental Project operational noise level increase is considered *less than significant* at all receiver locations.

8 CONSTRUCTION ANALYSIS

This section analyzes potential impacts resulting from the short-term construction activities associated with the development of the Project. Exhibit 8-A shows the construction activity boundaries in relation to the nearest sensitive receiver locations previously described in Section 6. Section 155.425[B] of the Municipal Code states that *it shall be unlawful for any person within a residential zone, or within a radius of 500 feet therefrom, to operate equipment or perform any outside construction or repair work on buildings, structures, or projects or to operate any pile driver, power shovel, pneumatic hammer, derrick, power hoist, or any other construction type device between the hours of 7:00 p.m. of one day and 7:00 a.m. of the next day.* (13)

In addition, since neither the City of Santa Fe Springs General Plan or Municipal Code establish numeric maximum acceptable construction source noise levels at potentially affected receivers for CEQA analysis purposes. Therefore, a numerical construction threshold based on Federal Transit Administration (FTA) Transit Noise and Vibration Impact Assessment Manual is used for analysis of daytime construction impacts. The FTA considers a daytime exterior construction noise level of 80 dBA L_{eq} as a reasonable threshold for noise sensitive residential land use. (8 p. 179).

8.1 CONSTRUCTION NOISE LEVELS

The FTA *Transit Noise and Vibration Impact Assessment Manual* recognizes that construction projects are accomplished in several different stages and outlines the procedures for assessing noise impacts during construction. Each stage has a specific equipment mix, depending on the work to be completed during that stage. As a result of the equipment mix, each stage has its own noise characteristics; some stages have higher continuous noise levels than others, and some have higher impact noise levels than others. The Project construction activities are expected to occur in the following stages:

- Demolition
- Site Preparation
- Grading
- Building Construction
- Paving
- Architectural Coating

8.2 CONSTRUCTION REFERENCE NOISE LEVELS

To describe construction noise activities, this construction noise analysis was prepared using reference construction equipment noise levels from the Federal Highway Administration (FHWA) published the Roadway Construction Noise Model (RCNM), which includes a national database of construction equipment reference noise emission levels. (19) The RCNM equipment database, provides a comprehensive list of the noise generating characteristics for specific types of construction equipment. In addition, the database provides an acoustical usage factor to estimate the fraction of time each piece of construction equipment is operating at full power (i.e., its loudest condition) during a construction operation.

EXHIBIT 8-A: CONSTRUCTION NOISE SOURCE LOCATIONS

8.3 CONSTRUCTION NOISE ANALYSIS

Using the reference construction equipment noise levels and the CadnaA noise prediction model, calculations of the Project construction noise level impacts at the nearby sensitive receiver locations were completed. Consistent with FTA guidance for general construction noise assessment, Table 8-1 presents the combined noise levels for the loudest construction equipment, assuming they operate at the same time. As shown on Table 8-2, the construction noise levels are expected to range from 36.3 to 61.4 dBA L_{eq} at the nearby receiver locations. Appendix 8.1 includes the detailed CadnaA construction noise model inputs.

TABLE 8-1: CONSTRUCTION REFERENCE NOISE LEVELS

Construction Stage	Reference Construction Activity	Reference Noise Level @ 50 Feet (dBA L_{eq})[1]	Combined Noise Level (dBA L_{eq})[2]	Combined Sound Power Level (PWL)[3]
Demolition	Demolition Equipment	82	83	115
	Backhoes	74		
	Hauling Trucks	72		
Site Preparation	Crawler Tractors	78	80	112
	Hauling Trucks	72		
	Rubber Tired Dozers	75		
Grading	Graders	81	83	115
	Excavators	77		
	Compactors	76		
Building Construction	Cranes	73	81	113
	Tractors	80		
	Welders	70		
Paving	Pavers	74	83	115
	Paving Equipment	82		
	Rollers	73		
Architectural Coating	Cranes	73	77	109
	Air Compressors	74		
	Generator Sets	70		

[1] FHWA Roadway Construction Noise Model (RCNM).
[2] Represents the combined noise level for all equipment assuming they operate at the same time consistent with FTA Transit Noise and Vibration Impact Assessment guidance.
[3] Sound power level represents the total amount of acoustical energy (noise level) produced by a sound source independent of distance or surroundings. Sound power levels calibrated using the CadnaA noise model at the reference distance to the noise source.

TABLE 8-2: CONSTRUCTION EQUIPMENT NOISE LEVEL SUMMARY

Receiver Location[1]	Construction Noise Levels (dBA L_{eq})						
	Demolition	Site Preparation	Grading	Building Construction	Paving	Architectural Coating	Highest Levels[2]
R1	61.4	58.4	61.4	59.4	61.4	55.4	61.4
R2	55.1	52.1	55.1	53.1	55.1	49.1	55.1
R3	42.3	39.3	42.3	40.3	42.3	36.3	42.3
R4	42.6	39.6	42.6	40.6	42.6	36.6	42.6

[1] Noise receiver locations are shown on Exhibit 8-A.
[2] Construction noise level calculations based on distance from the construction activity, which is measured from the Project site boundary to the nearest receiver locations. CadnaA construction noise model inputs are included in Appendix 8.1.

8.4 CONSTRUCTION NOISE LEVEL COMPLIANCE

To evaluate whether the Project will generate potentially significant short-term noise levels at nearest receiver locations, a construction-related daytime noise level threshold of 80 dBA L_{eq} is used as a reasonable threshold to assess the daytime construction noise level impacts. The construction noise analysis shows that the nearest receiver locations will satisfy the reasonable daytime 80 dBA L_{eq} significance threshold during Project construction activities as shown on Table 8-3. Therefore, the noise impacts due to Project construction noise are considered *less than significant* at all receiver locations.

TABLE 8-3: CONSTRUCTION NOISE LEVEL COMPLIANCE

Receiver Location[1]	Construction Noise Levels (dBA L_{eq})		
	Highest Construction Noise Levels[2]	Threshold[3]	Threshold Exceeded?[4]
R1	61.4	80	No
R2	55.1	80	No
R3	42.3	80	No
R4	42.6	80	No

[1] Noise receiver locations are shown on Exhibit 8-A.
[2] Highest construction noise level calculations based on distance from the construction noise source activity to the nearest receiver locations as shown on Table 8-2.
[3] Construction noise level thresholds as shown on Table 4-1.
[4] Do the estimated Project construction noise levels exceed the construction noise level threshold?

8.5 CONSTRUCTION VIBRATION ANALYSIS

Construction activity can result in varying degrees of ground vibration, depending on the equipment and methods employed. Operation of construction equipment causes ground vibrations that spread through the ground and diminish in strength with distance. Ground vibration levels associated with various types of construction equipment are summarized on Table 8-4. Based on the representative vibration levels presented for various construction equipment types, it is possible to estimate the potential for human response (annoyance) and

building damage using the following vibration assessment methods defined by the FTA. To describe the vibration impacts the FTA provides the following equation: $PPV_{equip} = PPV_{ref} \times (25/D)^{1.5}$

TABLE 8-4: VIBRATION SOURCE LEVELS FOR CONSTRUCTION EQUIPMENT

Equipment	PPV (in/sec) at 25 feet
Small bulldozer	0.003
Jackhammer	0.035
Loaded Trucks	0.076
Large bulldozer	0.089

Federal Transit Administration, Transit Noise and Vibration Impact Assessment Manual

Table 8-5 presents the expected Project related vibration levels at the nearby receiver locations. At distances ranging from 36 to 486 feet from Project construction activities, construction vibration velocity levels are estimated to range from 0.001 to 0.052 in/sec PPV. Based on maximum acceptable continuous vibration threshold of 0.3 PPV (in/sec), the typical Project construction vibration levels will fall below the building damage thresholds at all the noise sensitive receiver locations. Therefore, the Project-related vibration impacts are considered *less than significant* during typical construction activities at the Project site. Moreover, the vibration levels reported at the sensitive receiver locations are unlikely to be sustained during the entire construction period but will occur rather only during the times that heavy construction equipment is operating adjacent to the Project site perimeter.

TABLE 8-5: PROJECT CONSTRUCTION VIBRATION LEVELS

Receiver[1]	Distance to Const. Activity (Feet)[2]	Typical Construction Vibration Levels PPV (in/sec)[3]					Thresholds PPV (in/sec)[4]	Thresholds Exceeded?[5]
		Small bulldozer	Jackhammer	Loaded Trucks	Large bulldozer	Highest Vibration Level		
R1	36'	0.002	0.020	0.044	0.052	0.052	0.3	No
R2	123'	0.000	0.003	0.007	0.008	0.008	0.3	No
R3	281'	0.000	0.001	0.002	0.002	0.002	0.3	No
R4	486'	0.000	0.000	0.001	0.001	0.001	0.3	No

[1] Receiver locations are shown on Exhibit 8-A.
[2] Distance from receiver location to Project construction boundary (Project site boundary).
[3] Based on the Vibration Source Levels of Construction Equipment (Table 8-4).
[4] Caltrans Transportation and Construction Vibration Guidance Manual, April 2020, Table 19, p. 38.
[5] Does the peak vibration exceed the acceptable vibration thresholds?
"PPV" = Peak Particle Velocity

Moreover, the impacts at the site of the nearest sensitive receiver locations are unlikely to be sustained during the entire construction period but will occur rather only during the times that heavy construction equipment is operating adjacent to the Project site perimeter.

APPENDIX 3.1:

CITY OF SANTA FE SPRINGS MUNICIPAL CODE

This page intentionally left blank

§ 155.421 DECLARATION OF POLICY PERTAINING TO NOISE.

It is hereby declared to be the policy of the city to prohibit unnecessary, excessive, and annoying noises from all sources subject to its police power. At certain levels noises are detrimental to the health and welfare of the citizenry and in the public interest shall be systematically proscribed.

('64 Code, § 52.30) (Am. Ord. 712, passed 6-11-87)

§ 155.422 EXEMPTIONS FROM NOISE CONTROL PROVISIONS.

The following activities shall be exempt from noise control provisions of this subchapter:

(A) Activities conducted on public parks, public playgrounds and public or private school grounds including but not limited to school athletics and school entertainment events.

(B) Occasional outdoor gatherings, public dancing shows and sporting and entertainment events provided said events are conducted pursuant to any required permit or City Council authorization.

(C) Any mechanical device, apparatus or equipment when used, related to or connected with emergency work.

(D) Any activity to the extent regulation thereof has been preempted by state or federal law.

('64 Code, § 52.31) (Am. Ord. 712, passed 6-11-87)

§ 155.423 NOISE LEVEL MEASUREMENT PROCEDURES.

Any noise level measurement made pursuant to the provisions of this subchapter shall be measured with a sound level meter in accordance with the following:

(A) Measurements shall be made in decibels (dB) using the A-weighted scale with slow response, following the manufacturer's instructions, except the fast response shall be used for impulsive sounds.

(B) Outdoor noise shall be measured at the lot line and/or at any point with the land parcel receiving the noise, where possible, the microphone shall be positioned at least 10 feet from the nearest reflective surface. For the purpose of this measurement the boundaries of any lease agreement, or operating unit or group of contiguous fee properties operated as a unit, shall be considered as the lot line.

(C) Measurements shall be made with the microphone at a height not less than five feet above the ground or floor level for outdoor measurements and for measurements within a building or on a balcony or deck, respectively.

(D) Measurements within a building for determining the noise level from exterior noises shall be made with the microphone five feet from the window (closed) and/or wall of the structure.

(E) The ambient noise level shall be measured while the alleged intruding noise source is inoperative. If for any reason the alleged intruding noise source cannot be turned off, the ambient noise level shall be estimated, if possible, by performing a measurement in the same general area of the alleged intruding noise source but a sufficient distance such that the noise from the alleged intruding noise source is at least 10 dB below the ambient noise level in order that only the actual ambient noise level be measured. If a difference of 10 dB as specified in the preceding sentence cannot be obtained within the same general area, but the alleged intruding noise source is five to 10 dB below the ambient, then the level of the ambient noise level itself may be reasonably determined by subtracting a one decibel correction to account for the contribution of the alleged intruding noise source.

('64 Code, § 52.32) (Am. Ord. 712, passed 6-11-87)

§ 155.424 PERMITTED NOISE LEVELS.

(A) The noise level caused by any device, instrument, vehicle, machinery, operation, use or activity shall not exceed the levels set forth in the table set out in division (E) of this section except as further provided in this chapter.

(B) In the event the ambient noise level exceeds a permitted noise level set forth in division (E) of this section, the permissible noise level for the corresponding duration and receiving area shall be the ambient level.

(C) Noise of impulsive character (hammering, and the like) or that contains a pure tone (such as a whine, screech, or hum), shall only be permitted at levels five dB(A) less than the permitted levels determined under this section.

(D) At a lot line separating properties with different permitted noise levels, the applicable permitted outdoor noise level shall be the arithmetic mean of the permitted outdoor noise levels set forth in division (E) of this section for the receiving areas on opposite sides of said lot line.

(E) Noise level table.

Sound levels at or above each decibel level given in the table shall not occur for a duration longer than that given in the corresponding column heading .										

('64 Code, § 52.34) (Am. Ord. 712, passed 6-11-87) Penalty, see §10.97

§ 155.425 SPECIAL NOISE SOURCES.

The following additional provisions shall apply to certain special noise sources:

(A) *Radios, television sets, and similar devices.* It shall be unlawful for any person within the city to use or operate any radio receiving set, musical instrument, phonograph, television set, or other similar device for the producing or reproducing of sound in any manner or to use bells, whistles, or any device conveying speech content or music as may be generated by sound amplifying equipment so as to create any noise which would cause the noise level to exceed the ambient noise level a maximum of five dB(A) at the boundary of any property within a residential zone or at the boundary of any private residential open space, or within the common outdoor area of any multiple residential development.

(B) *Construction of buildings and projects.* It shall be unlawful for any person within a residential zone, or within a radius of 500 feet therefrom, to operate equipment or perform any outside construction or repair work on buildings, structures, or projects or to operate any pile driver, power shovel, pneumatic hammer, derrick, power hoist, or any other construction type device between the hours of 7:00 p.m. of one day and 7:00 a.m. of the next day.

(C) *Maintenance.* It shall be unlawful for any person, including city and utility crews, to perform maintenance of real property, other than emergency work, between 7:00 p.m. on one day and 7:00 a.m. of the following day, if such maintenance activity produces noise above the ambient level at any lot line of property within a residential zone.

('64 Code, § 52.35) (Am. Ord. 712, passed 6-11-87) Penalty, see §10.97

§ 155.426 PROPOSED DEVELOPMENT PROJECT.

If at any time the Director of Planning and Development has reason to believe that a new development project, addition, modification, or any other changes thereto may not conform with the permitted noise level standards of this chapter, the Director of Planning and Development may require as a "condition of approval" an acoustical analysis (noise study) as part of the building permit process or other approval procedures.

('64 Code, § 52.37) (Am. Ord. 712, passed 6-11-87)

§ 155.427 WAIVERS FROM NOISE REQUIREMENTS.

(A) Waivers from the noise control requirements of this chapter may be authorized by a conditional use permit granted in

accordance with the provisions of §§ 155.710 through 155.724 for a period not to exceed two years subject to reasonable terms, conditions, and requirements. A waiver may be granted only if the Planning Commission makes the findings that:

(1) Additional time is necessary for the applicant to alter or modify his activity, operation or noise source to comply with this chapter; or

(2) The activity, operation or noise source cannot feasibly be carried on in a manner that would comply with the provisions of this chapter and no other reasonable alternative is available to the applicant.

(B) In granting a waiver, the Planning Commission may prescribe any conditions or requirements it deems necessary to minimize adverse effects upon the community or the surrounding neighborhood.

(C) In granting waivers, the Planning Commission shall consider the magnitude of adverse effect caused by the offensive noise, the uses of property within the area affected by the noise, operations carried on under existing regulations and codes, the time factors related to study, design, financing and construction of remedial work, the economic factors related to age and useful life of the equipment, the general public interest, health and welfare, the feasibility of plans submitted for corrections, and the effect on the community if the waiver is denied.

('64 Code, § 52.38) (Am. Ord. 712, passed 6-11-87)

§ 155.428 VIBRATIONS.

Every use shall be so operated that the ground vibration generated by said use is not harmful or injurious to the use or development of surrounding properties. No vibration shall be permitted which is perceptible without instruments at any use alone the property line on which said use is located. For the purpose of this determination, the boundary of any lease agreement or operating unit or properties operating as a unit shall be considered the same as the property line.

('64 Code, § 52.40) (Am. Ord. 712, passed 6-11-87) Penalty, see §10.97

FLORENCE AND NORWALK VEHICLE MILES TRAVELED (VMT) SCREENING EVALUATION

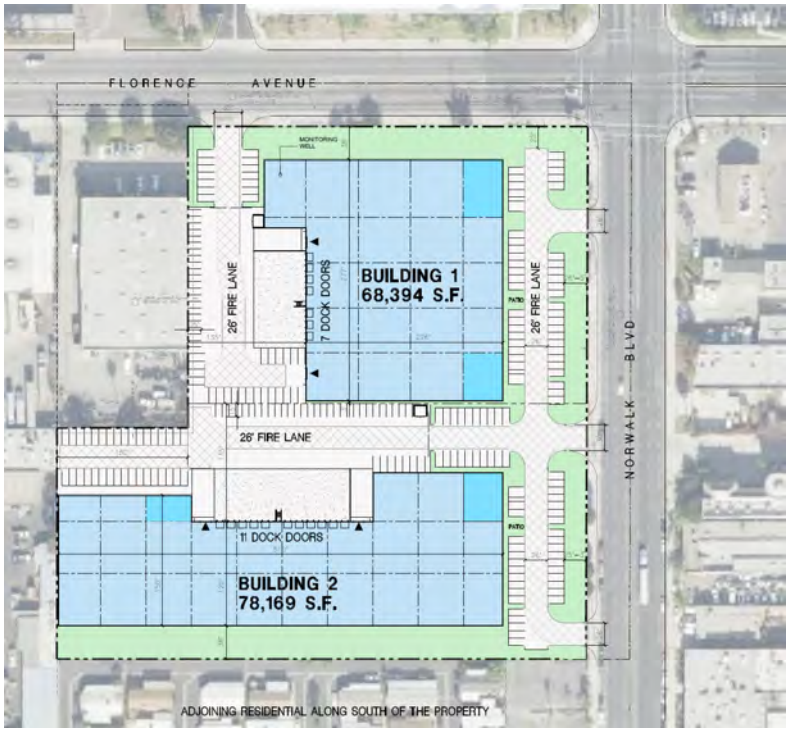
Mr. Ross Gellar,

Urban Crossroads, Inc. is pleased to provide the following Vehicle Miles Traveled (VMT) Screening Evaluation for the Florence and Norwalk development (**Project**), which is located at the southwest corner of Florence Avenue and Norwalk Boulevard in the City of Santa Fe Springs.

PROJECT OVERVIEW

It is our understanding that the project is to consist of two warehouse buildings totaling 146,563 square feet. Preliminary site plan as shown below in Exhibit 1.

EXHIBIT 1: PRELIMINARY SITE PLAN



BACKGROUND

Changes to California Environmental Quality Act (CEQA) Guidelines were adopted in December 2018, which requires all lead agencies to adopt VMT as a replacement for automobile delay-based level of service (LOS) as the new measure for identifying transportation impacts for land use projects. This statewide mandate went into effect July 1, 2020. To aid in this transition, the Governor's Office of Planning and Research (OPR) released a Technical Advisory on Evaluating Transportation Impacts in CEQA (December of 2018) (**Technical Advisory**) (1). Based on OPR's Technical Advisory, the County of Los Angeles has prepared their Transportation Impact Analysis Guidelines (**County Guidelines**) (2). Based on consultation with the City of Santa Fe Springs, VMT analysis guidelines and thresholds are not yet available. As such, this analysis has utilized the County Guidelines for the review of screening criteria, which is consistent with the OPR's Technical Advisory.

VMT SCREENING

Consistent with County Guidelines, projects that meet certain screening criteria based on their location and project type may be presumed to result in a less than significant transportation impact. Consistent with the screening criteria identified with the County Guidelines, the following screening criteria may be applicable to the Project:

- Non-Retail Project Trip Generation Screening
- Proximity to Transit Based Screening

A land use project need only to meet one of the above screening thresholds to result in a less than significant impact.

NON-RETAIL PROJECT TRIP GENERATION SCREENING

The County Guidelines identify that small projects anticipated to generate low traffic volumes (i.e., fewer than 110 daily net new trips) are presumed to have a less than significant impact absent substantial evidence to the contrary.

Currently Approved Project

The Project site was approved in the Santa Fe Springs General Plan as 110,500 square feet of commercial or business park development as part of the Koontz Site. The approved commercial development consists of a neighborhood shopping center with retail, commercial services, and restaurants. Trips generated by the Project's approved land uses have been estimated based on trip generation rates collected by the Institute of Transportation Engineers (ITE) Trip Generation Manual, 11th Edition, 2021 (3). Table 1 provides a trip generation summary of the currently approved uses.

TABLE 1: CURRENTLY APPROVED TRIP GENERATION SUMMARY

Land Use[1]	ITE Code	Units[2]	AM Peak Hour In	AM Peak Hour Out	AM Peak Hour Total	PM Peak Hour In	PM Peak Hour Out	PM Peak Hour Total	Daily
Shopping Center	821	TSF	1.073	0.657	1.730	2.543	2.647	5.190	67.520

[1] TSF = Thousand Square Feet

Proposed Project

Trip generation rates for the proposed use is shown on Table 2. The trip generation rates used for this analysis is based upon information collected by the ITE Trip Generation Manual. For purposes of the trip generation assessment, the following ITE land use code and vehicle mixes have been utilized for the proposed Project (see Table 2):

- ITE land use code 110 (General Light Industrial) has been used to derive site specific trip generation estimates of 146,563 square feet for the proposed Project. A light industrial facility is a free-standing facility devoted to a single use that has an emphasis on activities other than manufacturing. Typically, there is minimum office space. The vehicle mix has been obtained from the ITE's latest Trip Generation Manual (11th Edition, 2021). The truck percentages were further broken down by axle type per the following SCAQMD recommended truck mix: 2-Axle = 16.7%; 3-Axle = 20.7%; 4+-Axle = 62.6%.

TABLE 2: PROPOSED PROJECT TRIP GENERATION RATES

Land Use[1]	Units[2]	ITE LU Code	AM Peak Hour In	AM Peak Hour Out	AM Peak Hour Total	PM Peak Hour In	PM Peak Hour Out	PM Peak Hour Total	Daily
Actual Vehicle Trip Generation Rates									
General Light Industrial[3]	TSF	110	0.651	0.089	0.740	0.091	0.559	0.650	4.870
Passenger Cars			0.645	0.085	0.730	0.086	0.554	0.640	4.620
2-Axle Trucks			0.001	0.001	0.002	0.001	0.001	0.002	0.042
3-Axle Trucks			0.001	0.001	0.002	0.001	0.001	0.002	0.052
4+-Axle Trucks			0.004	0.002	0.006	0.003	0.003	0.006	0.157

[1] Trip Generation & Vehicle Mix Source: Institute of Transportation Engineers (ITE), Trip Generation Manual, Eleventh Edition (2021).
[2] TSF = thousand square feet
[3] Truck Mix: South Coast Air Quality Management District's (SCAQMD) recommended truck mix, by axle type.
Normalized % - Without Cold Storage: 16.7% 2-Axle trucks, 20.7% 3-Axle trucks, 62.6% 4-Axle trucks.

As shown in Table 3, the proposed Project is anticipated to generate a total of 714 daily vehicle trips.

TABLE 3: PROPOSED PROJECT TRIP GENERATION SUMMARY

Land Use	Quantity Units[1]	AM Peak Hour In	AM Peak Hour Out	AM Peak Hour Total	PM Peak Hour In	PM Peak Hour Out	PM Peak Hour Total	Daily
Actual Vehicles:								
General Light Industrial	146.563 TSF							
Passenger Cars:		95	12	107	13	81	94	678
2-axle Trucks:		0	0	0	0	0	0	6
3-axle Trucks:		0	0	0	0	0	0	8
4+-axle Trucks:		1	0	1	0	0	0	22
Total Truck Trips (Actual Vehicles):		1	0	1	0	0	0	36
Total Trips (Actual Vehicles)[2]		96	12	108	13	81	94	714

[1] TSF = thousand square feet

[2] Total Trips = Passenger Cars + Truck Trips.

Trip Generation Comparison

Table 4 shows the trip generation comparison between the existing and proposed use. The resulting net new trips are identified on Table 4. As shown, the Project is anticipated to generate 3,762 fewer daily vehicle trips.

TABLE 4: TRIP GENERATION COMPARISON

Land Use	Quantity Units[1]	AM Peak Hour In	AM Peak Hour Out	AM Peak Hour Total	PM Peak Hour In	PM Peak Hour Out	PM Peak Hour Total	Daily
Currently Adopted: Shopping Center	110.500 TSF							
Passenger Cars:		119	73	191	169	180	349	4,476
Total Truck Trips:		0	0	0	0	0	0	0
Total Trips[2]		119	73	191	169	180	349	4,476
Proposed: General Light Industrial	146.563 TSF							
Passenger Cars:		95	12	107	13	81	94	678
Total Truck Trips:		1	0	1	0	0	0	36
Total Trips[2]		96	12	108	13	81	94	714
Net Change:								
Passenger Cars:		-24	-61	-84	-156	-99	-255	-3,798
Total Truck Trips:		1	0	1	0	0	0	36
Total Trips[2]		**-23**	**-61**	**-83**	**-156**	**-99**	**-255**	**-3,762**

[1] TSF = thousand square feet

[2] Total Trips = Passenger Cars + Truck Trips.

The proposed Project is anticipated to generate a net reduction of 3,762 daily vehicle trips, which does not exceed the 110 daily vehicle trip threshold.

Non-Retail Project Trip Generation screening criteria is met.

PROXIMITY TO TRANSIT BASED SCREENING

Consistent with guidance identified in the County Guidelines, projects located within a Transit Priority Area (TPA) (i.e., within ½ mile of an existing "major transit stop"[1] or an existing stop along a "high-quality transit corridor"[2]) may be presumed to have a less than significant impact absent substantial evidence to the contrary. However, the presumption may not be appropriate if a project:

- Has a Floor Area Ratio (FAR) of less than 0.75;
- Includes more parking for use by residents, customers, or employees of the project than required by the jurisdiction (if the jurisdiction requires the project to supply parking);
- Is inconsistent with the applicable Sustainable Communities Strategy (as determined by the lead agency, with input from the Metropolitan Planning Organization); or
- Replaces affordable residential units with a smaller number of moderate- or high-income residential units.

Based on the TPA map in Attachment A, the Project site is not located within ½ mile of an existing major transit stop, or along a high-quality transit corridor.

Proximity to Transit Based screening criteria is not met.

CONCLUSION

Based on our review of applicable VMT screening thresholds, the Project meets the Non-Retail Project Trip Generation Screening and would therefore be presumed to result in a less than significant VMT impact; no additional VMT analysis is required.

If you have any questions, please contact me directly at aso@urbanxroads.com.

Respectfully submitted,

URBAN CROSSROADS, INC.

Alexander So
Senior Associate

EXECUTIVE SUMMARY

Langan Engineering & Environmental Services, Inc. (Langan) has prepared this Phase I Environmental Site Assessment (Phase I ESA) on behalf of Florence SFS, LLC (the User) for the approximately 6.5-acre property located at 10801-10859 Norwalk Boulevard, 10819-10858 Koontz Avenue, and 12120 Florence Avenue, Santa Fe Springs, California 90670 (the Site). The Subject Property is identified as Los Angeles County Parcel Numbers 8009-023-027. This Phase I ESA was completed using the guidelines of ASTM International (ASTM) Standard E1527-13 and the United States Environmental Protection Agency (USEPA) All Appropriate Inquiry (AAI) Rule (Figure 1).

The Subject Property is comprised of a single parcel of land which is divided into nine (9) leased subdivisions each having its own individual address, size, occupants, developments, and use as described below.

Site Address	Size (square-feet, sf)	Current Development	Current Use/Occupant
10801 Norwalk Boulevard	21,000	2,500-sf single story wood construction commercial building	Silverio's Party Rentals - rents and sells party supplies
10825 Norwalk Boulevard	11,000	580-sf cinder block building; 250-sf portable office building	West Coast Enterprises - truck storage pending sale
10845 Norwalk Boulevard	22,500	2,900-sf wood construction office building	Quality Lift Equipment - forklift rental, sale, and repair
10859 Norwalk Boulevard	60,000	9,000-sf concrete tilt-up building	Mako Equipment - scissor lift rental company
10819 Koontz Avenue	20,700	7,000-sf corrugated metal sided building	La Habra Welding - welding and steel fabrication
10845 Koontz Avenue	60,000	4,600-sf concrete loading dock with attached 800-sf wood construction office; 1,000-sf corrugated metal sided maintenance building	MJB Freight - transport company
10858 Koontz Avenue	33,500	5,200-sf corrugated metal sided building; 350-sf wood building with corrugated metal roof	LenPar Rolling - steel rolling and fabrication; Roufs Machine - machine and hydraulic repair
10850 Koontz Avenue	10,000	No structures	Paramount Roll & Forming - storage

12120 East Florence Avenue	68,000-sf divided into an eastern and western section by Koontz Avenue	15,600-sf corrugated metal sided building	Paramount Roll & Forming - steel rolling

The Subject Property is bound to the north by Florence Avenue followed by commercial and industrial businesses; to the east by Norwalk Boulevard followed by commercial and industrial businesses; to the southeast by a vacant commercial building; to the southwest by Lakeland Villa Mobile Home Park; and to the west by Angus Shoe Polish, a shoe polish manufacturing and sales company, and Western Allied Corporation, an HVAC contractor, followed by an established residential area, a community park, and a cemetery.

The objective of this Phase I ESA was to attempt to identify the presence or likely presence, use, or release of hazardous substances or petroleum products on the Subject Property, as defined in ASTM E1527-13 as Recognized Environmental Conditions (RECs).

This Phase I ESA identified four RECs, one CREC, four BERs, and one De Minimis Condition associated with the Site.

The following RECs were identified:

- **On-site abandoned oil pipelines:** According to the 2019 Phase I ESA, abandoned oil lines were reported to be present by the owner of Paramount Roll & Form at the northwest portion of the Site. No record of removal or assessment of the abandoned oil lines was identified during the course of this Phase I ESA. The potential presence of the abandoned oil lines at the northwest portion of the Site and lack of documentation documenting the status of the oil lines constitutes a REC.
- **Chlorinated solvent plume up-gradient from the Site:** The upgradient property to the north was identified with a release of chlorinated solvents to groundwater associated with the occupants Continental Heat Treating and Former ExxonMobil Jalk Fee. Both properties are listed as active cleanup program sites under the Cleanup Program Sites – Spills, Leaks, Investigations, and Cleanups (CPS-SLIC) database. The regional groundwater-bearing zone in the vicinity of the area consists of the Exposition aquifer, which is encountered at approximately 100 feet below ground surface (bgs) and ranges in thickness from 75 feet to 100 feet. According to a Semi-Annual Groundwater Monitoring Report conducted by Fero Engineering in 2022, depth to groundwater was measured in several wells throughout the property between 110 to 115 feet below ground surface (bgs) with groundwater flow towards the south-southwest. The solvent plume which contains trichloroethylene (TCE), tetrachloroethylene (PCE), and other chlorinated solvents was delineated to extend to the northwest portion of the Site. The extent of the solvent plume at the Site is currently monitored through three nested monitoring wells identified as MW-8s, MW-8m, and MW-8d which are located on the

northwest portion of the Site, west adjacent to Koontz Avenue. The known presence of a chlorinated solvent plume beneath Site is considered a REC. Figure 2a shows the TCE and PCE plumes in relation to the Site.

- **Current and Historical Operations at the Subject Property:** The Site has had a long history of automotive and industrial use as early as 1947 based on aerial photographs. The database listings for the Site document a history of industrial operations that involved the use, storage, and disposal of hazardous substances and petroleum products. Given the long history of industrial activity in the area, undocumented releases are likely to have occurred, and have the potential to impact the Site. Therefore, the current and historical industrial activity at the Site, as indicated in the regulatory listings, is considered a REC.
- **Staining observed during Site reconnaissance:** During Site reconnaissance, abundant oil-like staining was observed throughout the Site on concrete outside and inside many of the current warehouses. Metal shavings were observed on the floors of the Rouf's Machine Shop and the Paramount Rolling & Forming warehouse. Additionally, open containers of waste oil were observed throughout the property. The concrete pavement was observed cracked and weathered in multiple areas on Site. The proximity of staining on/near cracked concrete could lead to potential impacts to the soil and groundwater, and is therefore considered a REC.

The following CREC was identified:

- **Former LUST at northeast corner of Site:** A petroleum release from a leaking underground storage tank (LUST) was identified at northeast corner of the Site in association with the occupant Silverio's Party Supply. The UST was removed in 1998. Although the facility received a closure letter from the Santa Fe Fire Department, AdvancedGeo measured residual petroleum impacts to the soil between 20 and 30 feet bgs. Concentrations of total TPH were detected up to 9,090 mg/Kg in soil samples collected at a depth of 20 feet below ground surface (bgs) near the location of the former UST. The reported concentrations of residual petroleum hydrocarbons that exceed current regulatory screening levels in onsite soil associated with the closed LUST case are considered a CREC.

The following BERs were identified:

- **Historic agricultural use at the Site:** Based on a review of aerial photographs, the Site was used for agricultural purposes from the mid 1890's to the 1950's. Site soils may contain residual pesticides, herbicides, and heavy metals such as lead and arsenic or other chemicals resulting from the agricultural use of the Site making this a BER.
- **Possible Lead Based Paint and Asbestos Containing Material at the Site:** Based on aerial photographs, the current buildings at the Site were constructed in the 1960's and 1970's. Due to the age of the buildings, there is a possible presence of lead based paint and asbestos containing material throughout the Site is therefore considered a BER.

- **Two abandoned oil production wells located at the Site**: According to California Geologic Energy Management Division's (CalGEM) online mapping application data, two abandoned oil production wells are located on Site. One abandoned oil production well is located at the southeastern portion of the Site (API 0403715483), and the other well is located at the northwestern portion of the Site (API 0403715492) shown on Figure 2. Both wells are listed as plugged and abandoned by Pyramid Oil Company and by Hathaway Company in 1974 and 2000, respectively. However, residual hydrocarbon could remain in the soil from previous oil and gas production activities, making this a BER. Additionally, the wells were abandoned in 1974 and 2000 respectively, under the standards in place at that time, and may be required to be re-abandoned according to current well abandonment standards.
- **Santa Fe Springs Methane Zone**: The City of Santa Fe Springs Methane Zone Map indicates that the Subject Property is within 500 feet of an oil/natural gas well. This indicates that the Subject Property is located within a Methane Zone. Methane Zones represent areas of potential methane accumulation under buildings. The City of Santa Fe Springs Ordinance No. 955, amended Section 117.131 of the City Code, indicates that any property within a Methane Zone is subject to a soil gas investigation when there is a change in ownership or when new construction is planned. The location of the Site within a methane zone is identified as a BER.

The following De Minimis condition was identified:

- **Poor housekeeping conditions**: The De Minimis condition is associated with poor housekeeping conditions such as improperly storing and improperly labeling hazardous waste containers on Site.

There were no HRECs associated with the Site.

1.0 INTRODUCTION

Langan Engineering & Environmental Services, Inc. (Langan) has prepared this Phase I Environmental Site Assessment (Phase I ESA) on behalf of Florence SFS, LLC (the User) for the approximately 6.5-acre property located at 10801-10859 Norwalk Boulevard, 10819-10858 Koontz Avenue, and 12120 Florence Avenue, Santa Fe Springs, California 90670 (the Subject Property). The Subject Property is identified as Los Angeles County Parcel Number 8009-023-027. The Subject Property is a single parcel comprised of nine leased subdivisions each having its own individual address, size, occupants, developments, and use as described in Section 2.1.

This Phase I ESA was completed using the guidelines of ASTM International (ASTM) Standard E1527-13 and the United States Environmental Protection Agency (USEPA) All Appropriate Inquiry (AAI) Rule. The purpose of this Phase I ESA is to attempt to identify Recognized Environmental Conditions (RECs) in connection with the Subject Property using the methodology recommended by ASTM and the AAI Rule. Specifically, the ASTM methodology is referred to as "*Standard Practice for Environmental Site Assessments; Phase I Environmental Site Assessment Process, Designation E1527-13.*" The USEPA's AAI Rule was designed to establish federal standards and practices for conducting all appropriate inquiries. The AAI Rule, which incorporates the ASTM E1527-13 standard, is used to establish the innocent landowner defense under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) and to provide additional liability protection for contiguous property owners and bona fide prospective purchasers.

For the purpose of this ESA report, a REC is defined as follows:

> "*The presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment. De minimis conditions are not recognized environmental conditions.*"

A Historical REC (HREC) is defined as follows:

> *"A past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls)."*

A Controlled REC (CREC) is defined as follows:

> *"A recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by*

regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls)."

A Business Environmental Risk (BER) is defined as follows:

"A risk that can have a material environmental or environmental-driven impact on business associated with the current or planned use of a parcel of commercial real estate."

A de minimis conditions is defined as follows:

"A condition that general does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies."

1.1 Scope of Services

In general, the scope of this Phase I ESA consisted of reviewing readily available information and environmental data relating to the Subject Property; conducting interviews with individuals knowledgeable about the Subject Property; reviewing readily available maps and records maintained by federal, state, and local regulatory agencies; and conducting a site reconnaissance. The specific scope of this assessment included the following:

- A site reconnaissance conducted in a systematic manner to visually characterize on-site conditions and evaluate the Subject Property's location with respect to adjacent property uses and natural surface features. In addition, the reconnaissance included visual observation of the adjacent roads and properties to identify potential environmental conditions. The site reconnaissance was conducted by Langan Staff Geologist, Casey Slatten and Langan Project Geologist, Julian Grochocki on February 28, 2022. Photographs taken during the reconnaissance are provided in Appendix A.
- A review of responses to the Owner/Operator and User/Client Questionnaires. Copies of any completed questionnaires are included in Appendix B.
- A review and interpretation of historical documents, including topographic maps, aerial photographs, city directories, Sanborn ® Fire Insurance Maps, and an Environmental Lien Search provided by Environmental Data Resources, P.C. (EDR); and local property records to identify prior activities on and in the vicinity of the Subject Property. Copies of the reviewed historical documents are included in Appendix C.
- A review of previous environmental reports and other pertinent documents associated with the Site. Copies of previous environmental reports are included in Appendix D.
- A review of responses from federal, state and local agencies to requests made under the Freedom of Information Act (FOIA) and California Public Records Act (CPRA). Copies of the responses are included in Appendix D.

- A review of readily available environmental databases maintained by the USEPA, state, and local agencies as provided by Environmental Data Resources, Inc. (EDR) and described within the Regulatory Review Section of this report. The EDR report is provided in Appendix E.

1.2 Limitations of the Assessment, Significant Assumptions, and Deviations

This Phase I ESA was conducted by Langan and is limited to the services agreed to with the User and no other services beyond those explicitly stated should be inferred or are implied.

Langan has performed a Phase I ESA of the Subject Property utilizing a standard of good commercial and customary practice that is consistent with the ASTM E1527-13 and the 40 Code of Federal Regulations (CFR) Part 312 Standards and Practices for AAI. Significant deviations were not made to the above referenced standards.

The findings and recommendations presented in this report are professional opinions based solely upon Langan's visual observations of the Subject Property and the immediate vicinity, and upon Langan's interpretations of the readily available historical information, conversations with persons knowledgeable about the Subject Property, and other readily available information, as referenced in the report. These recommendations are intended exclusively for the purpose stated herein, at the Subject Property indicated, and for the project indicated.

This report is intended for the sole use of Florence SFS, LLC. The scope of services performed during this investigation may not be appropriate for other users, and any use or re-use of this document, or the findings, conclusions, or recommendations presented herein is not authorized.

This study was not intended to be a definitive investigation of possible contamination at the Subject Property. The purpose and scope of this investigation was to determine if there is reason to suspect the possibility of contamination at the Subject Property. This report is intended to be used in its entirety. No excerpts may be taken to be representative of the findings of this assessment.

Opinions and recommendations presented in this report apply to Subject Property conditions and features as they existed at the time of Langan's site reconnaissance, and those reasonably foreseeable. They cannot necessarily apply to conditions and features of which Langan is unaware and has not had the opportunity to evaluate.

Langan cannot act as insurers and cannot "certify" that a site is free of environmental contamination, and no expressed or implied representation or warranty is included or intended in our reports, except that our services were performed, within the limits prescribed by our client, with the customary thoroughness and competence of our profession.

2.0 SUBJECT PROPERTY DESCRIPTION

2.1 Subject Property Use

The Subject Property is a single parcel comprised of nine leased subdivisions each with its own individual address, size, occupants, developments, and use as described below. A Subject Property Plan is included as Figure 2 and identifies each of the addresses.

Site Address	Size (square-feet, sf)	Current Developments	Current Use/Occupant
10801 Norwalk Boulevard	21,000	2,500-sf single story wood construction commercial building	Silverio's Party Rentals - rents and sells party supplies
10825 Norwalk Boulevard	11,000	580-sf cinder block building; 250-sf portable office building	West Coast Enterprises - truck storage pending sale
10845 Norwalk Boulevard	22,500	2,900-sf wood construction office building	Quality Lift Equipment - forklift rental, sale, and repair
10859 Norwalk Boulevard	60,000	9,000-sf concrete tilt-up building	Mako Equipment - scissor lift rental company
10819 Koontz Avenue	20,700	7,000-sf corrugated metal sided building	La Habra Welding - welding and steel fabrication
10845 Koontz Avenue	60,000	4,600-sf concrete loading dock with attached 800-sf wood construction office; 1,000-sf corrugated metal sided maintenance building	MJB Freight - transport company
10858 Koontz Avenue	33,500	5,200-sf corrugated metal sided building; 350-sf wood building with corrugated metal roof	LenPar Rolling - steel rolling and fabrication; Roufs Machine - machine and hydraulic repair
10850 Koontz Avenue	10,000	No structures	Paramount Roll & Forming - storage
12120 East Florence Avenue	68,000-sf divided into an eastern and western section by Koontz Avenue	15,600-sf corrugated metal sided building	Paramount Roll & Forming - steel rolling

Current improvements and utility providers are described in the table below:

Subject Property Improvements	
Size of the Parcel	Approximately 6.5 acres.
Buildings/Spaces/Structures	The Subject Property contains one commercial building, three office buildings, and seven industrial buildings. Koontz Avenue runs through the Subject Property, intersecting with Florence Avenue at the north and ending in a cul-de-sac at the south.
Unimproved Areas	A rectangular area in the northern section of the Site, west of Koontz Avenue, is unimproved and reportedly used for outdoor equipment storage by Paramount Roll & Forming.
Surface Water	None.
Potable Water Source	Potable water is provided by the Santa Fe Springs Water Utility Authority.
Sanitary and Storm Sewer Utilities	A storm drain was identified at the western property boundary. Sanitary service is provided by the City of Santa Fe Springs.
Electrical Utilities	Electrical utilities are provided by Southern California Edison.
Natural Gas Utilities	Natural gas is provided by the Southern California Gas Company.
Construction Date	Based on historical review, the buildings appear to be constructed in the 1960's and 1970's.
General Construction	The Subject Property contains four wood construction buildings, one cinder block building, one concrete tilt-up building, four corrugated metal buildings, and one building of unknown construction.
Cooling and Ventilation System	Cooling and ventilation are provided by roof-mounted HVAC units on the office building. The industrial buildings are cooled using fans.
Heating System Type	Heat is provided by roof-mounted HVAC units on the office building. No heating system was observed in the industrial buildings.

Subject Property Improvements	
Emergency Power	Generators were observed inside of on the warehouse buildings.

2.2 Surrounding Land Use

Based on a review of Los Angeles County records and visual observations of the surrounding area during the site reconnaissance, the Subject Property is located in an area of primarily commercial and industrial use, with some residential properties.

Adjoining property usage is summarized in the following table:

Direction	Address and Parcel ID	Occupant/Land Use
North	Florence Avenue	
	12075 Florence Ave. Parcel 8009-025-046	Occupant: Master Cutting & Engineering Land Use: Sign Shop
	10747 Norwalk Blvd. Parcel 8009-025-071	Occupant: Revco Industries, Inc. Land Use: Industrial
South	12147 Lakeland Rd. Parcel 8009-023-024	Occupant: Lakeland Villa Mobile Home Park Land Use: Residential
	10915 Norwalk Blvd. Parcel 8009-023-037	Occupant: The Holiday Gentlemens Club Land Use: Commercial
East	Norwalk Boulevard	
	10810 Norwalk Blvd. Parcel 8009-022-001	Occupant: Hungryboy Burgers Land Use: Commercial
	10820 Norwalk Blvd. Parcel 8009-022-061	Occupant: Moon Equipment Company Land Use: Commercial/Industrial
	10826 Norwalk Blvd. Parcel 8009-022-060	Occupant: Valve & Steel Supply Land Use: Commercial/Industrial
	10840 Norwalk Blvd. Parcel 8009-022-039	Occupant: CMC Rebar; Oil Well Service Company Land Use: Commercial/Industrial
	10850 Norwalk Blvd. Parcel 8009-022-062	Occupant: Moon Equipment Company Land Use: Commercial/Industrial

	10858 Norwalk Blvd. Parcel 8009-022-005	Occupant: Valve & Steel Supply Land Use: Commercial/Industrial
West	12078 Florence Ave. Parcel 8009-023-041	Occupant: 1-800EveryRim.com Land Use: Commercial/Industrial
	12046 Florence Ave. Parcel 8009-023-040	Occupant: Western Allied Corporation Land Use: Commercial/Industrial
	12060 Florence Ave. Parcel 8009-023-016	Occupant: Angelus Shoe Polish Land Use: Commercial/Industrial

2.3 Physical Setting

2.3.1 Topography

The Subject Property appears on the 2018 USGS Whittier 7.5-minute series topographic quadrangle map. According to the USGS quadrangle map, the elevation of the Subject Property is about 132 feet above mean sea level. The surrounding topography is relatively flat and slopes gently downward to the southwest.

2.3.2 Geology

According to the USGS Mineral Resources Online Spatial Data interactive map and the California Department of Conservation Geologic Map of California, bedrock at the Subject Property consists of quaternary marine and non-marine alluvium, lake, playa, and terrace deposits of the Cenozoic era. According to the U.S. Department of Agriculture (USDA) Soil Conservation Service (SCS) data summarized in the EDR database report, soil in the area around the Subject Property is described as Urban Land.

According to previous subsurface investigations performed at the Subject Property by AdvancedGeo in 2020 for a Phase II ESA, soils encountered at the Subject Property are composed of: silt and clayey silt (near surface to 10-ft below ground surface (bgs)), fine sand and silt/clayey silt (15 to 20-ft bgs), and fine to medium sand (25 to 24-ft bgs).

2.3.3 Hydrogeology

Groundwater flow is typically topographically influenced, as shallow groundwater tends to originate in areas of topographic highs and flow towards areas of topographic lows, such as rivers, stream valleys, ponds, and wetlands. A broader, interconnected hydrogeologic network often governs groundwater flow at depth or in the bedrock aquifer. Groundwater depth and flow direction are also subject to hydrogeologic and anthropogenic variables such as precipitation, evaporation, extent of vegetation cover, and coverage by impervious surfaces. Other factors influencing groundwater include depth to bedrock, the presence of artificial fill, and variability in local geology and groundwater sources or sinks.

The regional groundwater-bearing zone in the vicinity of the area consists of the Exposition aquifer, which is encountered at approximately 100 feet below ground surface (bgs) and ranges in thickness from 75 feet to 100 feet. According to the Department of Water Resources (DWR) Well Completion Report Map Application, three groundwater monitoring wells were installed in 2019 BC2 Environmental along the northwestern sidewalk of Koontz Avenue. According to California Water Boards Groundwater Information System (GAMA), there are three additional groundwater monitoring well locations at the southern end of Koontz Avenue. One of the well locations is a nested well containing three monitoring wells.

The well completion report data on the DWR Well Completion Report Map Application shows groundwater encountered at a depth of approximately 111-ft bgs at the Site. Based on the EDR Lightbox application, groundwater flows to the south-southwest.

According to the Federal Emergency Management Agency (FEMA) Flood Insurance Rate Map No. 06037C1837F (effective date September 25, 2008), the Subject Property located in Flood Zone X and is not within a flood hazard area.

3.0 RECORDS REVIEW

3.1 User and Operator Provided Information

3.1.1 Previous Environmental Reports

The following environmental reports and documents were available for review and are included in Appendix B of this report.

- September 2019 Phase I ESA, prepared by AdvancedGeo
- February 2020 Phase II ESA, prepared by AdvancedGeo
- February 2022 Second Semi-Annual Groundwater Well Monitoring Report for Continental Heat Treating, prepared by Fero Engineering

Relevant information based on our review of the above-listed reports is summarized below. Historical site features discussed below are shown on Figure 2.

Operational History

The Subject Property was historically used for agricultural purposes from approximately 1928 through 1963. The Subject Property was then utilized as part of the Santa Fe Springs Oil Field and contained two oil-producing wells. The first well was installed in 1922 (at what is currently 10850 Koontz Avenue); the second well was installed in 1945 (just north of what is currently 10819 Koontz Avenue). The wells were abandoned in 1974 and 2000 respectively, under the standards in place at that time, and may be required to be re-abandoned according to current well abandonment standards. The location of the abandoned wells is presented on Figure 2.

According to Los Angeles County Assessor Maps, the Subject Property was developed for industrial use starting in 1964. According to the previous reports and the City Directory Abstract (Appendix C), former leasers include steel rolling services, welding fabricators, automobile services, a carpet business, a gas station, repair services, and hydraulic repair services. Limited quantities of hazardous materials were reported to have been used at the businesses. Underground storage tanks used to store gasoline and diesel fuel were previously located at 10801 Norwalk Boulevard (currently Silverio's Party Store) and 10845 Koontz Avenue (currently occupied by MBJ Freight).

Environmental Investigations

September 2019 Phase I ESA, prepared by AdvancedGeo (2019 AdvancedGeo Phase I ESA)

According to the 2019 AdvancedGeo Phase I ESA, the following RECs were identified in association with the Site:

- Groundwater beneath the Site has been impacted by chlorinated solvents based on data from two sets of nested groundwater monitoring wells located west of Koontz Avenue onSite as shown on Figure 2. The set of wells located at the northwest portion of the Site were reported to be owned by Continental Heat Treating and are identified as MW-8s, MW-8m, and MW-8d. The set of wells located at the southwest portion of the Site were identified on the California Water Board GAMA Groundwater Information System database with well ID's 102229, 102228, 102230, 102227, and 102226. These wells appear to have been installed to assess chlorinated solvent impacts are associated with a release originating from Continental Heat Treating located approximately 623 feet north and up-gradient from the Site.
- The neighboring property identified as the City of Santa Fe Springs Little Lake Housing Development site to the westhas been impacted with volatile organic compounds in soil, groundwater and soil-vapor.
- Abandoned oil lines were reportedly present at 12120 East Florence Avenue by owner of Paramount Roll & Form, Ken Moscript. No record of any removal or assessment of the oil lines was available for review as stated in the above Phase I.
- Extensive oil staining was observed by Advanced Geo on weathered asphalt at 10845 Norwalk Boulevard (Quality Lift) throughout most of that site. Advanced Geo also observed significant oil stained asphalt at 10858 Koontz Avenue (Rouf's Machine) in the vicinity of a 250-gallon tote storing used hydraulic fluid located on the northwestern portion of the site. Forklift batteries were observed being improperly stored outside on the Quality Lift property. Most of the forklift batteries were stored outdoors in uncovered areas of the property without proper containment. Batteries contain a variety of metals, including lead and can easily leak through the weathered concrete if not handled properly.

- AdvancedGeo observed two in-ground clarifiers on Site. Potential structural issues associated with concrete clarifiers and unknown chemical discharges create the potential for subsurface soil impacts.
- Metal shavings and fine metal dust from long term industrial use were observed by AdvancedGeo in the outside space of the property.

The following BERs were identified in association with the Site:

- Two abandoned oil and gas production wells located on the Site were plugged and abandoned in 1974 and 2000 under regulatory abandonment standards of the time. There is a potential for re-abandonment under current regulatory standards.
- Based on construction of the buildings on Site in the 1960's and 1970's, lead based paint and asbestos containing material may be present in the buildings.

The following HRECs were identified in association with the Site:

- The removal of USTs from 10801 Norwalk Blvd, and 10845 Koontz Ave. The Santa Fe Springs Fire Department issued a closure letter for the 10801 Norwalk Blvd property, however samples collected at the time contained total petroleum hydrocarbons (TPH) and volatile organic compounds (VOCS). Samples collected from the 10845 Koontz Ave property did not contain detectable TPH or VOCs.

One De Minimis condition was identified at the Site. The De Minimis condition is associated with poor housekeeping conditions such as improperly storing yard materials and improperly labeling hazardous waste containers on Site.

No CREC's were identified associated with the Site in AdvancedGeo's Phase I ESA.

<u>February 2020 Phase II ESA, prepared by AdvancedGeo (2020 AdvancedGeo Phase II ESA</u>)

Following AdvancedGeo's Phase I ESA completed in September 2019, AdvancedGeo conducted a subsurface investigation based on the RECs that were found on Site. AdvancedGeo installed and sampled 17 vapor probes at 5 and 10 feet below ground surface (bgs). The vapor samples were analyzed for VOCs using EPA method 8260B. Analytical results from the initial soil vapor investigation included reported concentrations of PCE ranging from 0.05 µg/L to 0.33 µg/L in nine of the 34 samples collected from five areas at the Site. The five areas included the former oil well location at Paramount Roll, waste storage area at Paramount Roll, Lenpar Yard, West Coast Enterprises maintenance shed area, and Mako Equipment aboveground storage tank (AST) and sump area. PCE concentrations in 7 of the samples exceeded the commercial/industrial screening level of 0.067 ug/L on Site. Based on the results of the initial soil vapor investigation, additional soil vapor probes were installed at step out locations to further assess the 5 and 10 foot intervals and deeper probes were installed at 20 to 30 feet to assess the vertical extent of impacts. PCE concentrations increased

with depth at the former oil well location on the Paramount Roll property. Concentrations ranged from 0.29 ug/L at 10 feet to 2.00 ug/L at 30 feet bgs. Similar trends of PCE concentrations increasing with depth were identified at the Lenpar yard at the southern portion of the Site. Concentrations of PCE ranged from 0.14 µg/L at 5 feet, 0.18 µg/L at 10 feet, 0.97µg/L at 20 feet and 1.61 µg/L at 30 feet. At the Mako Euipment area on the southeast portion of the Site, PCE increased from 0.06 µg/L at 5 feet, to 0.20 µg/L at 10 feet, and then dropped down to 0.02 µg/L at 20 feet.
In addition to PCE, other VOCs including TCE and 1,1-DCE were detected in soil vapor samples. TCE was detected at the former oil well location on the Paramount Property at 20 and 30 feet at concentrations of 0.02 µg/L and 0.05 µg/L, respectively. TCE concentrations increased with depth at the Lenpar Yard area and was detected at 0.37 µg/L at 20 feet and 1.11 µg/L at 30 feet. Additionally, 1,1-DCE was detected at the Lenpar Yard area at a concentration of 1.20 µg/L at 30 feet. The Mako Equipment area also exhibited increasing TCE concentrations with increasing depth. TCE was detected at 0.01 µg/L at 20 feet and rose to 0.76 µg/L at 30 feet.

AdvancedGeo also drilled and sampled twenty one soil borings ranging from 2 to 20 feet. Soil samples were analyzed for TPH, VOCs, and CAM metals by EPA method 8015m and 6010/7471, respectively. An additional 3 borings were advanced in the location of the former oil well location by the Paramount Rolling property. Soil and vapor samples were collected at 5, 10, 20, and 30 feet bgs. Additionally, 4 borings were advanced to 40 feet in the location of the former UST by the Silvero's Party Store property. Samples were collected at 5 foot intervals.

TPH was detected in low concentrations in 9 shallow soil samples on Site. Concentrations of TPH were detected at 9,090 mg/Kg in 20 feet soil samples near the former UST at Silverio's Party Store. Concentrations of toluene, ethylbenzene and xylenes were also detected in four samples located in the parking lot of the Silverado Party Store. Toluene was detected at concentrations ranging from 1.6 mg/kg to 40,800 mg/kg; ethylbenzene was detected at concentrations ranging from 4.3 mg/kg to 64,700 mg/kg; and xylene was detected at concentrations ranging from 4.0 mg/kg to 816,000 mg/kg. Other VOCs of concern included isopropylbenzene and 1,2,4-trimethylbenzene which were detected at concentrations up to 2.2 mg/kg and 772,000 mg/kg, respectively. Although several CAM metal concentrations were detected in samples analyzed, the detections were below applicable screening or background levels. The report suggests that soils were not completely remediated to current regulatory standards when the UST was removed in 1998.

AdvancedGeo determined that the Phase I and II investigations did not identify a specific source of PCE in the soil vapor, but do suggest that a chlorinated solvent plume is present.

February 2022 Second Semi-Annual Groundwater Well Monitoring Report for Continental Heat Treating, prepared by Fero Engineering (2022 Fero Monitoring Report)

Fero Engineering completed a second semi-annual groundwater monitoring event in 2021 for Continental Heat Treating (CHT) on November 19, 2021 and provided the coinciding report on February 1, 2022. The report states that a release of halogenated VOCs) at the former Jalk Fee Property upgradient from the site has resulted in Tetrachloroethylene (PCE) and Toluene and Trichloroethylene (TCE) impacts to groundwater on CHT property. Ten on site monitoring wells and three off site monitoring wells located on the Subject property were monitored during the sampling event. Water samples were collected using a low-flow method and analyzed for VOCs using EPA Method 8260B.

The location of the Subject Property within the contaminated groundwater plume originating up-gradient from the Jalk Fee Property and Continental Heat Treating property is considered a REC. Figure 2a shows the TCE and PCE impacts in relation to the Site.

3.1.2 User and Operator Questionnaires

Per ASTM E1527-13, a questionnaire was provided to the User to inquire about specialized information related to the Subject Property. The questionnaire will be included in Appendix B once returned to Langan.

3.2 Historical Use Information

Langan reviewed the documents in the table below for the Subject Property and surrounding area. Copies of this information are provided in Appendix C.

Reference	Dates
Historical Aerial Photographs	1928, 1938, 1947, 1953, 1963, 1972, 1977, 1983, 1989, 1994, 2002, 2005, 2009, 2012, and 2016
Google Earth Imagery	1985, 1994, 2003, 2004, 2005, 2006, 2007, 2009, 2010, 2013, 2015, 2016, 2018, 2020, and 2021

City of Santa Fe Springs Zoning and Methane Map	Searched March 14, 2022

The following is a summary of records for the Subject Property, adjoining properties, and surrounding properties.

3.2.1 Subject Property

Based on a review of the above documents, Subject Property use and other pertinent information is summarized below.

- Mid-1890s to early 1950s: Topographic maps from 1896 (earliest map available) to the early 1920s indicate that the Subject Property was undeveloped. Aerial photographs from 1928 (earliest photograph available) to 1953 indicate the Subject Property was used as agricultural land with approximately three farmhouse-like structures developed on the northeast corner of the Site. As a result of the historical agricultural activity, Site soil may contain elevated concentrations of pesticides, herbicides or other agricultural chemicals. The potential presence of these chemicals is considered a BER as it may result in mitigation costs.

- Late 1950s to the 1960s: According to the Los Angeles County Assessor Portal, the Subject Property was developed with it first building for industrial use in 1964. An aerial photograph from 1963 shows a rectangular structure already present in the northeast section of the Subject Property, where the farmhouse structures had previously been located. The aerial also shows the northwest corner of the Subject Property had been paved and utilized as a parking lot for the west-adjoining property.

- Early 1970s to the present: According to aerial and topographic maps from 1972, the existing structure in the northwest corner of the property had been demolished and replaced with seven new structures throughout the Subject Property. Koontz Avenue had also been paved and developed between the western and eastern portions of the Subject Property. The developments represent current conditions, except for subdivisions 10850 Koontz Avenue and 10859 Norwalk Boulevard which remained undeveloped. By 1977, a new structure had been built in the southwest corner of 10859 Norwalk Boulevard. By 2002, an additional smaller structure had been added to the western section of 10859 Norwalk Boulevard.

3.2.2 Adjoining and Surrounding Properties

The adjoining and surrounding properties were sparsely developed in the late 1890s through the late 1910s, as shown on topographic maps. By 1928, aerial photographs show development at the western adjoining property as well as a group of 12 above ground storage tanks (ASTs). The northeast adjoining property shows development

along Florence Avenue followed by oil and gas infrastructure. Surrounding and adjoining land to the north, south, and east appear to be agricultural fields, followed by oil and gas infrastructure to the north. By the late 1930s, oil derricks which had been prominent to the north, appear to have been removed. By the early 1950s, several towers had been erected to the north and plots of land to north, east, and had been developed. Residential and commercial/industrial developments continued through the 2010s to the present day conditions. From the late 1940s to the late 1970, a large tank farm with circular ASTs of varying sizes were built on the surrounding land approximately 1,000 to the east of the Subject Property. Demolishment of the reservoirs began in the early 2000s and continued throughout the 2010s. B 2022, via Google Earth, this area had been replaced with two large warehouses.

3.3 Regulatory Review

Langan reviewed an EDR environmental database search report for the Subject Property and surrounding area. The EDR database report is a listing of properties identified on select federal and state environmental databases within the approximate search radii specified by ASTM Standard E1527-13. This information is reported to Langan by EDR, and to EDR by government sources; therefore, neither Langan nor EDR can verify the completeness and accuracy of the database information. Langan reviewed each environmental database on a record-by-record basis to determine if the Subject Property or certain surrounding facilities identified in the report are suspected to represent a potential impact to the Subject Property. Descriptions of the regulatory databases are provided in the EDR report, which is included in Appendix D. The following is a summary of records for the Subject Property, adjoining properties, and surrounding properties with potential environmental concerns.

3.3.1 Subject Property

The Subject Property was identified in multiple databases, as summarized below:

Brothers Auto/ Martinez, Pedro Shell Service (10801 Norwalk Blvd)

- Facility Index System (FINDS), Cortese, HIST Cortese, and Los Angeles Co. Hazardous Material System (HMS) databases – The facility is listed in FINDS under ID 110065108403. The facility is also listed as a (LUST) cleanup site from 1998 to 1999 with a global ID of T0603701574 in the Cortese, Hist Cortese, and the Los Angeles Co. HMS databases.
- Recovered Government Archive (RGA) LUST, Statewide Environmental Evaluation and Planning System (SWEEPS) (UST), California Facility Inventory Database (CA FID) UST, and HIST UST – This facility is listed in the LUST database from a gasoline leak that was reported from June 12, 1998 to March 29, 1999. The facility is listed as a gas station under Pyramid Oil Company in the HIST UST database. The facility is listed as having four gas tanks and one waste

oil tank.

- California Environmental Reporting System (CERS) – The facility is listed as a chemical storage facility under the name Silverio's Party Rentals. A violation was issued on December 10, 2018 for failing to adequately issue a business plan when handling/storing a hazardous material above reportable quantities. The violation escalated to a class II violation based on non-compliance. The facility returned to compliance on March 27, 2019. The facility is also listed as a LUST clean-up site under the name Brother's Auto as previously discussed above.
- EDR Historic Auto – The facility is listed as a historic auto facility in the EDR database under various ownership including Judkins Shell Service, Allen Roger Shell Service, Martinez Pedro Shell Service, Brothers Autoworks, and Arriga Ricardo from 1969 to 2003.

Mako Equipment (10859 Norwalk Blvd)

- Hazardous Waste Tracking System (HWTS) HWTS, Hazardous Waste Manifest Data (HAZNET), CERS, and CERS Hazardous (HAZ) WASTE, and Haulers Databases – The facility is listed in the HWTS and HAZNET databases as Industrial Machinery and Equipment Merchant Wholesalers. The facility is listed under EPA ID CAC002981660 for the storage, bulking, and transfer of hydrocarbon solvents, waste oil, and mixed oil. The facility is listed in the CERS database as a chemical storage facility. The facility received three violations on October 03, 2016 for failing to adequately establish and implement a business plan when storing/handling hazardous material at or above reportable quantities, failure to obtain an Identification Number prior to treating, storing, disposing of, transporting or offering for transportation any hazardous waste, and failure to properly label hazardous waste accumulation containers and portable tanks. The facility returned to compliance on February 06, 2017; April 26, 2017; and March 06, 2017, respectively.
- FINDS and Enforcement and Compliance History Online (ECHO) – This FINDS and ECHO database lists the facility under EPA ID CAC002981660 for hazardous waste activities as previously discussed above.

Rupe's Hydraulics (10859 S Norwalk Blvd)

- HWTS and HAZNET – The facility is listed in the HWTS and HAZNET database under a generator EPA ID CAL000091941. The facility description is listed as fluid power valve and hose fitting manufacturing. The waste is identified as an aqueous solution with total organic residues less than 10 percent, other organic solids, and liquids with halogenated organic compounds greater than or equal to 1,000 milligrams per liter. The waste is listed as either being recycled, transported to a transfer station, or disposed of at a landfill.

1X RALPH HOROWITZ (10859 S Norwalk Blvd)

- HWTS and HAZNET – The facility is listed in the HWTS and HAZNET databases under a generator EPA ID of CAC000586696. The waste code is listed as unspecified oil containing waste. The facility was listed from April 25, 1991 to October 25, 2000.

GRAYLIFT SERVICES (10859 S Norwalk Blvd)

- HWTS – The facility is listed under the HWTS database with an EPA ID CAC002558198. However, the hazardous waste code was not reported. The facility is listed from October 30, 2002 to August 19, 2003.

ROLLS INDUSTRIAL SCAFFOLD (10859 Norwalk Blvd)

- HWTS – The facility is listed under the HWTS database with an EPA ID CAL000111362. However, the hazardous waste code was not reported. The facility is listed from July 13, 1993 to April 15, 1994.

Petrolane Gas Service (10845 Norwalk Blvd)

- Los Angeles Co. HMS, HWTS, and HAZNET – This facility is listed in the HWTS, HAZNET, and Los Angeles Co. HMS databases under EPA ID CAC000974952 from 1993 to 2000 for storing aqueous solutions with 10% or more organic residues. No violations were reported.

Quality Lift & Equipment, Inc. (10845 Norwalk Blvd)

- CERS, CERS HAZ WASTE, HWTS, California Hazardous Material Incident Reporting System (CHMIRS), FINDS, and ECHO, Resource Conservation and Recovery Act (RCRA) Non Generator (NONGEN) databases – This facility is listed in the HWTS database as Industrial Truck, Tractor, Trailer, and Stacker Machinery Manufacturing with an EPA ID CAL000430317. The facility is listed as a hazardous waste storage facility under the CERS database a shows violations on June 20, 2014 for failure to inspect hazardous waste storage weekly, failure to properly label hazardous waste containers, and failure to properly close containers when not in use. The facility returned to compliance on August 25, 2014. Additional violations were issued on June 12, 2017 for failure of properly labelling waste containers and failure to electronically update business plan within 30 days of handling a previously undisclosed hazardous materials at or above reportable quantities. The facility returned to compliance on October 25, 2017. The facility is listed on the CHMIRS database documenting a release of 5 gallons of propane on June 3, 1996 due to an operating error of forgetting to put the cap back on a container. The facility is listed in the FINDS and ECHO databases under EPA ID CAL000430317 as stated above, however the hazardous waste code is not listed. The facility was listed in the RCRA Non

Gen/NLR database August 29, 2017.

PRIESTLEY RACING/PRIESLEY RACING ENGINES (10845 Koontz Avenue)

- HWTS – The Subject Property was listed as a hazardous waste generator from 1992 to 1995 under the EPA ID CAL000081138 and from 1993 to 1994 under the EPA ID CAL000055666. The type of hazardous waste was not listed. No violations were listed.

ROY MILLER FREIGHT LINES INC (10845 Koontz Avenue)

- HWTS and HAZNET – The Subject Property was listed as a hazardous waste generator from 1989 to 1997 under the EPA ID CAL000015324. The waste is listed as oil/water separation sludge. The facility is listed as a recycling 0.02 tons of waste in 1989 and 1.42 tons of waste in 1994. No violations were listed.

Roy Miller Freight Lines, Inc. (10845 S Koontz Ave)

- HWTS, HAZNET, and Los Angeles CO HMS – The facility is listed under HWTS and HAZNET databases under EPA ID CAL000015324. The waste is identified as oil/water separation sludge and the waste is listed as recycled. The facility is listed as closed in the Los Angeles CO HMS database.

MJB FREIGHT SYSTEMS SFS. (10845 S Koontz Ave)

- National Pollutant Discharge Elimination System (NPDES), California Integrated Water Quality System (CIWQS), and CERS – The facility is listed as active in the NPDES and CIWQS databases on July 23, 2021. The Project type is listed as "Industrial – Trucking, Except Local". The facility is listed under the CERS database as a chemical storage facility and a industrial storm water facility. The facility recieved a violation of failure to properly manage used oil and/or fuel filters in accordance with the requirements on October 16, 2017 and returned to compliance on November 06, 2017. The facility recieved a additional violation on March 26, 2021 for failure to complete and electronically submit a business plan when storing/handling a hazardous material at or above reportable quantities. The business has not yet returned to compliance.

Roufs Machine Company, Inc./Lenpar Rolling Inc./Paramount Roll & Forming Inc. (10858 Koontz Ave.)

- CERS, CERS HAZWASTE, FINDS, ECHO, and (RCRA) NONGEN) – Roufs Machine Company is listed in the CERS HAZWASTE and CERS database as a chemical storage facility with a EPA ID of CAL000298256. On July 10, 2017 the facility recieved violations for failing to obtain an ID number prior to storing hazardous waste and failing to adequately establish and implement a business plan when storing/handling hazardous material at or above reportable quantities. The facility returned to compliance on August 10, 2017 and March 13, 2018,

respectively. The facility is listed in HWTS, FINDS, and ECHO databases as Machine Tool (Metal Forming Types) Manufacturing, but no hazardous waste codes are available. On September 05, 2018, the facility was listed as a verified non-generator in the RCRA NONGEN database.

Lenpar Rolling Inc. (10858 Koontz Ave.)

- CERS and FINDS Database – Lenpar Rolling, Inc. is listed in the CERS database as a chemical storage facility. However, no hazardous waste codes are listed. The facility recieved a violation on March 8, 2021 for Failure to complete and electronically submit a business plan when storing/handling a hazardous material at or above reportable quantities. The facility returned to compliance on March 9, 2021. The FINDS database listing is related to the CERS listing discussed above.

Paramount Roll & Forming Inc. (10858 Koontz Ave.)

- HWTS – Paramount Roll & Forming Inc is listed in the HWTS database under EPA ID CAL000030300 from March 16, 1990 to October 16, 2002. No hazardous waste codes are listed for the facility. No violations were reported.

La Habra Welding (10819 S Koontz Ave)

- HWTS, FINDS, ECHO, CERS, and Resource Conservation and Recovery Act (RCRA) Non Generator (Non Gen) / No Longer Regulated (NLR) databases – The facility is listed in the HWTS database since October 16, 2014 under EPA ID CAL000401307. The environmental interest type is listed as "other hazardous waste activities". No hazardous waste codes were reported. The facility is listed in the CERS database as a chemical storage facility. Compliance evaluation inspections from the fire department occurred at this facility on January 07, 2015, January 18, 2018, January 28, 2021 and no violations were found. The facility was verified as "not a generator" under the RCRA Non Gen/NLR database on October 16, 2014. The FINDS and ECHO database listings are related to the CERS and RCRA databases discussed above.

Paramount Roll & Forming Inc. (12120 Florence Ave.)

- HWTS, HAZNET– Paramount Roll & Forming Inc was listed in the HWTS database under EPA ID CAL000030300 from March 16, 1990 to October 16, 2002. No hazardous waste codes are listed for the facility. This facility was listed again in the HWTS database on October 13, 2003 under EPA ID CAL000275364. The HAZNET database lists the waste code as other organic solids. The disposal method for this waste is listed as storage, bulking, and/or transfer off Site.
- NPDES, Waste Discharge System (WDS), CIWQS, and CERS – The facility has ben listed under the NPDES database since October 14, 2003 as Miscellaneous Structural Metal Work. The facility is listed as industrial and active under the WDS database. The facility is listed as a minor threat to water quality with a

complexity of category C (Facilities having no waste treatment systems, or passive waste treatment and disposal systems). The facility is listed under the CIWQS database as active since October 14, 2003. The facility has received 1 enforcement action within 5 years. The facility is listed in the CERS database as an industrial facility. The facility received a violation on March 14, 2011 for not submitting a benchmark letter response; on October 10, 2016 and November 13, 2020 for submitting a late surface water report; and on December 22, 2008 for deficient best management practices Implementation.

- FINDS, ECHO – The ECHO and FINDS databases are related to the CERS and NPDES listings discussed above.
- RCRA Non Gen/NLR – The facility is listed in the RCRA Non Gen/NLR databases under the description of Motor and Generator Manufacturing since October 14, 2003.

Superior Oil Tool (12180 Florence Ave. E)

- RGA LUST, LUST, Cortese, HIST Cortese, CERS, and FINDS – The facility is listed as a LUST cleanup site. A diesel leak was discovered August 16, 1990 and stopped the same day. Remediation began on April 21, 1992 and completed on April 7, 1994. The Cortese, HIST Cortese, CERS, and FINDS listings are related to the LUST cleanup.

Langan Conclusions - Regulatory Database Review at the Subject Property

Information from these databases indicate the use, storage, and generation of petroleum products and hazardous substances associated with industrial activity at the Subject Property from 1969 to 2022. Based on the Site being listed under EDR historic auto facilities and potential undocumented releases of petroleum and hazardous substances associated with industrial activity and bulk storage at the Subject Property, this is considered a REC.

3.3.2 Adjoining Properties

Below are summaries of regulatory database listings for adjoining properties. There are no listings for the southern adjoining properties.

Northern-adjoining (inferred hydraulically up-gradient) – 10727 Norwalk Blvd – Superior Oil Tool Company

This site was listed in the HIST UST database. The business is listed as a machine shop on the database. One – 2,000 gallon unleaded gas tank was identified during stock inventory. No additional information was listed under this address. The company is also listed at 12180 Florence Ave located on the Subject Property.

Western-adjoining (inferred hydraulically down-gradient) – 12078 Florence Ave. – Every Rim, LLC.

This site was identified in the CERS HAZWASTE, CERS, and RCRA Non Gen/NLR databases. The facility is listed as a chemical storage facility in the CERS database. It received two violations on May 11, 2015 for failure to prepare and implement a Spill Prevention Control and Countermeasure (SPCC) Plan, and failure to establish and implement a Hazardous Materials Business Plan when storing hazardous materials at or above the thresholds quantities of 55 gallons/500 lbs/200 cubic feet. The company returned to compliance on July 1, 2016 and June 11, 2015, respectively. The company was issued an additional violation on January 7, 2021 for failure to complete and electronically submit a site map with all required content. The facility returned to compliance again on February 22, 2021. The facility is listed in the RCRA Non Gen/NLR database as a verified non generator on November 04, 2016.

Western-adjoining (inferred hydraulically down-gradient) – 12046 Florence Ave. – Western Allied Corp.

This site was listed under the name Western Allied Corp. in the CERS, CER HAZWASTE, SWEEPS UST, RCRA-Large Quantity Generator (LQG), Hist UST, FINDS, ECHO, Los Angeles CO. HMS, and LA Co. Site Mitigation databases. The site is listed in the CERS database as a chemical storage facility. The facility received a violation on May 12, 2021 when a 55 gallon used oil drum was observed without proper hazardous waste labeling during inspection. The violation was corrected at the time of inspection. The facility received three violations on May 18, 2018 for failure to establish and electronically submit an adequate training program in safety procedures in the event of a release or threatened release of a hazardous material, failure to manage empty containers greater than 5 gallons in capacity that previously held a hazardous material/waste in accordance with 22 CCR 11 66261.7, and failure to properly manage reusable soiled textile materials prior to being sent for laundering. The facility returned to compliance on June 18, 2018. The facility received two additional violations on May 27, 2015 for failure to complete and/or electronically submit a business plan when storing/handling a hazardous material at or above reportable quantities and for general maintenance/operation of empty containers. The facility returned to compliance on July 8, 2015. The site is listed in the SWEEPS UST database as active since June 30, 1989. The site was listed as a RCRA-LQG and transporter on October 19, 1980. The Site was listed in the HIST UST database as containing one 9,900 gallon unleaded fuel tank installed in 1975.The FINDS and ECHO listings are related to the RCRA and CERS databases discussed above. The LA Co Site Mitigation database listed the facility as abated on December 11, 1989. No other information is listed about the site.

Eastern-adjoining (inferred hydraulically cross/up-gradient) – 10810 S Norwalk Blvd – Roybal Abedon H / Gasoline Service Stations

This site was identified in the Historical Auto database from 1971 to 1983. No additional information was provided in the database.

Eastern-adjoining (inferred hydraulically cross/up-gradient) – 10820 Norwalk Blvd – Moon, Inc.

This facility is listed under the SWEEPS UST, CA FID UST, CERS, and CERS HAZ WASTE databases. The SWEEPS UST database lists the site as containing one - 8,000 gallon petroleum underground storage tank. The CA FID UST database lists the tank as being inactive with a regulated ID of CAC000306. The facility is listed as "Mooneyes" in the CERS HAZWASTE and CERS databases. The CERS database lists the site as a chemical storage facility. The facility received a violation on October 24, 2016 for failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities. The facility returned to compliance on October 27, 2016. The facility received an additional violation on October 23, 2019 for failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days. The facility returned to compliance on October 31, 2019.

Eastern-adjoining (inferred hydraulically cross/up-gradient) – 10840 S Norwalk Blvd – Charles L Godbey/ Gerdau Reinforcing Steel

The facility is listed under the AST, LUST, CERS, Hist Cortese, Cortese, Los Angeles Co. HMS, and RCRA Non Gen NLR databases. The facility is listed in the AST database under EPA ID CAL000333829. No hazardous waste codes were listed. The facility is listed in the Geotracker database as a LUST cleanup site. According to the LUST database, the site was reported on April 16, 1996 and closed on the same day. The facility is listed in the CERS database as a leaking underground storage tank cleanup site. The Hist Cortese, Cortese, and Los Angeles Co. HMS listings are related to the LUST and CERS listings detailed above. The facility was first listed in the RCRA Non Gen/ NLR database on June 19, 2008 as a verified non generator.

Eastern-adjoining (inferred hydraulically cross/up-gradient) – 10840 Norwalk Blvd – Commercial Metals Company/Oil Well Service Co.

The facility is listed under the CERS HAZ WASTE, CERS, HWTS, HAZNET, NPDES, and CIWQS databases. The HWTS and HAZNET databases lists the facility under EPA ID CAL000333829 under the description "Rolled Steel Shape Manufacturing". The hazardous waste on site is listed as other organic solids. The waste was either disposed of at a landfill, incinerated, or stored on site. The facility listed under the name "Oil Well Service Co" has been active in the NPDES and CIWQS databases since July 19, 2021. The facility listed under "Commercial Metals Company" was terminated in the NPDES database on December 03, 2020. The CERS database lists 5 violations for the facility under the name "Oil Well Service Co.". The violations were: failure to prepare and implement a SPCC Plan, failure to ensure that all employees are thoroughly familiar with proper waste handling and emergency procedures, failure to annually review and electronically certify that the business plan is complete and accurate on or before the annual due date, failure to properly label hazardous waste accumulation containers and

portable tanks, and failure to properly manage used oil and/or fuel filters in accordance with the requirements. The violations occurred on September 23, 2015 and August 27, 2018. The facility returned to compliance for all violations.

Eastern-adjoining (inferred hydraulically cross) – 10850 Norwalk Blvd – Roybal R.B. PAINT AND BODY CENTER

CERS HAZ WASTE, CERS, and Emissions Inventory (EMI) databases. The facility appears in the CERS database as a chemical storage facility. This facility received 6 violations between August 26, 2014 and May 20, 2021. The violations were related to failing to properly handle, manage, label, and recycle used oil and fuel filters; failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days of accumulating 100 kilograms; failure to complete and electronically submit initially, annually, or triennially, a business plan when handling hazardous materials at or above the reportable threshold quantities; Failure to properly label hazardous waste accumulation containers; and failure to keep a copy of each properly signed manifest for at least three years from the date the waste was accepted by the initial transporter. According to the CERS database, the facility has not completely returned to compliance. According to the EMI database, the facility emitted 0.087 tons of Total Organic Hydrocarbon Gases and 0.085 tons of Reactive Organic Gases per year in 2013. No current emission data was found in the listing.

Langan Conclusions - Regulatory Database Review at Adjoining Properties

The database listings for adjoining properties document a history of industrial operations that involved the use, storage, and disposal of hazardous substances and petroleum products. Reported releases have been closed by the governing regulatory agencies; however, details of remediation were not available for review. Given the long history of industrial activity at adjoining properties, undocumented releases are likely to have occurred, and have the potential to impact the Subject Property. Therefore, the current and historical industrial activity at adjoining properties, as indicated in the regulatory listings, is considered a REC.

3.3.3 Surrounding Properties of Potential Concern

Database listings at several surrounding properties indicate commercial and industrial use including the following: metal plating and manufacturing, production and storage of oil products, and automotive repair companies. The listings identified at surrounding properties described below are of environmental concern.

Fulton Wells Ave/Florence Ave. – 'City of Santa Fe Springs Little Lake Village Housing Redevelopment' – about 320 feet to the west (inferred hydraulically cross-gradient)

This facility is listed in the CPS-SLIC and CERS databases. The facility status is listed as "open – verification monitoring "on the CPS-SLIC and CERS databases as of May 22, 2009. The database list Benzene, Tetrachloroethylene (PCE), Toluene, Trichloroethylene

(TCE), and Xylene as potential contaminants of concern on site with a potential impact to soil and groundwater. The source is listed as a former natural gas processing plant located in southwest portion of the property. The property is included in a study area called "Mini-Regional Study Area of Santa Fe Springs". The study area is bound to the west by Fulton Wells Road, to the east by Koontz Ave, to the north by Florence Ave, and 1,240 feet to the south of Florence Ave towards Lakeland Road. The gas plantwas demolished around 1960 when the area was commercially redeveloped.

Soil borings advanced in 1988 found elevated presence of hydrocarbons in the soil. Soil impacted with total petroleum hydrocarbons (TPH) was removed from the former location of the natural gas processing plant to depths between 10 and 30 feet.

Soil vapor surveys in 2007 found benzene, ethylbenzene, toluene, and xylenes (BTEX) at concentrations above guidance screening levels in the soil vapor and soil matrix. Groundwater sampling conducted in 2007 found PCE and TCE above screening levels in the groundwater, but was not detected in the overlying soil above the capillary fringe. BTEX was generally not found in groundwater and was not found above guidance screening levels. PCE and TCE were found in the northern most well, suggesting contamination originated up-gradient and off site.

In 2002, The City of Santa Fe Springs granted soil closure with no further action based on a Human Health Risk Assessment (HHRA). In 2013, the Regional Board granted no further requirements (NFR) for TPH, BTEX, extractable organics, organochlorine pesticides, and polychlorinated biphenyls (PCBs) in the groundwater.

12222 Florence Ave. – 'Transit Mixed Concrete Company', 'United Riggers and Erectors, Inc.', and "Franklin Reinforcing Steel' – about 480 feet to the east (inferred hydraulically cross/up-gradient)

This facility is listed in the CA FID UST, HIST UST, SWEEPS UST, RCRA-SQG, LUST, CORTESE, HIST CORTESE, CERS, HWTS, HAZNET, FINDS, ECHO, and LOS ANGELES CO. HMS databases. The facility is listed in the HIST UST database under the name "Transit Mixed Concrete Company". The database reported one 10,000 gallon diesel tank and one 2,000 gallon diesel tank on site. This facility is also listed as a LUST cleanup site in the LUST, Cortese, HIST Cortese, and CERS databases. The release was listed as diesel with a potential impact to the groundwater. The leak was reported May 05, 1992 and was closed on July 23, 1996.

The facility under the name "United Riggers and Erectors, Inc." is listed in the CA FID UST database under ID CAC000296. "United Riggers and Erectors, Inc" is also listed in the HIST UST and SWEEPS UST where two diesel USTs are reported on site. This facility is listed in the HWTS and HAZNET databases under EPA ID CAC002317713. The HAZNET database lists the facility as a recycler of waste oil and mixed oil.

The facility under the name "Franklin Reinforcing Steel" is listed as an RCRA-SQG of spent halogenated solvents used in degreasing including TCE and PCE. The facility is also listed as having a 2,000 gallon diesel tank and a 10,000 gallon unleaded fuel tank from the HIST UST database. The site is listed as closed on the Los Angeles Co. HMS database. The FINDS and ECHO listings refer to the RCRA-SQG database discussed above.

Based on the long history of industrial activity and documented releases at this facility, undocumented releases are likely to have occurred, and have the potential to impact the Subject Property. This is considered a REC.

10643 South Norwalk Blvd. – 'Continental Heat Treating.' – about 610 feet to the north (inferred hydraulically up-gradient)

This facility is listed in the Superfund Enterprise Management System (SEMS)-Archive, Cleanup Program Site (CPS)-Spills, Leaks, Investigations, and Cleanups (SLIC), CERS, LA CO. SITE MITIGATION, AST, HIST UST, SWEEPS UST, CERS TANKS, CERS HAZ WASTE, RCRA-LQG, RCRA NONGEN / NLR, EMI, WDS, CIWQS, NPDES, LOS ANGELES CO. HMS, FINDS, ECHO, and ENVIROSTOR databases. The facility is listed in the SEMS Archive under the EPA ID CAD095631719. The database lists the most recent EPA site reassessment from 2013 to 2014. It was determined that the facility is not on the National Priority List (NPL).

The CPS-SLIC database lists the facility as open remediation as of May 28, 2020. The potential contaminants of concern at this facility are listed as tetrachloroethylene (PCE), trichloroethylene (TCE), and other chlorinated hydrocarbons. The potential media affected is listed as indoor air, groundwater, soil, and soil vapor. The database lists the occupant as "Continental Heat Treating" from 1969 to present as a metal parts processor. Chlorinated solvent impacts have been documented on the facility as a result of the metal processing. PCE was documented in the underlying soil at maximum concentrations of 7,516 micrograms per kilogram (ug/Kg) and TCE at 4,759 ug/Kg. Chlorinated solvents were also documented impacting the soil vapor and groundwater at the site. The facility is also listed in the CERS database as a cleanup program site. The LA County Site Mitigation Database lists an ablation date of June 12, 1997 at the site.

The facility was listed under the AST database under EPA ID CAD053885296. The facility was documented as containing 6,000 gallon underground storage tank of unleaded fuel established in 1973. The CERS TANK database also lists the facility as containing above ground petroleum storage.

The RCRA-LQG database shows the facility under EPA ID CAD053858296. A 2009 biennial report on the RCRA-LQG database shows the facility generated 0.275 tons of metal bearing sludge waste (liquids with chromium (VI) > 500 milligrams/ liter), 0.229 tons of other inorganic sludge (Liquids with pH < 2), and 5.298 tons of other inorganic

sludge (alkaline solution without metals (pH > 12.5)). The wastes were sent to US Ecology in Beatty, Nevada. The waste is listed as being corrosive. The facility is actively listed in the SWEEPS UST database from June 30, 1989 to present. The CERS HAZWASTE database also lists the facility as being a RCRA large quantity hazardous waste generator.

The facility is listed in the EMI database from 1987 to 2001. In 1987 the facility is listed as emitting 21 tons of total organic hydrocarbon gases and 3 tons of oxides of nitrogen (NOX) that year. In 2001, the facility is listed as emitting 3 tons of total organic hydrocarbon gases, 2 tons of reactive organic gasses, and 1 ton of NOX that year. The WDS database lists the facility having a continuous or seasonal water discharge on site. The primary waste is listed as storm water runoff that does not contain soluble pollutants or organic wastes and have little impact on water quality. The facility is listed as not containing a waste water treatment system. The CIWQS lists the database as active under industrial stormwater discharge. The NPDES also lists the facility as active since March 16, 1992.

The facility is listed in the Envirostor database under metal finishing/ metal plating with halogenated compounds as potential contaminants of concern. The Los Angeles Co HMS database lists the facility as closed. No additional information was provided. The facility is listed on the RCRA Non Gen/NLR database as a valid non generator on March 12, 1990.

Based on the location of the Subject Property within the contaminated groundwater plume, the Continental Heat Treating site is considered a REC.

<u>12335 Florence Ave – 'Graphic Dies Inc. – about 1,070 feet northeast (inferred hydraulically up-gradient)</u>

This facility is listed in the RCRA-LQG, FINDS, ECHO, EMI, LOS ANGELES CO. HMS, CERS HAZ WASTE, CERS, HWTS, and HAZNET databases. The HWTS and RCRA-LQG database lists the facility under EPA ID CAD982505919. A 2019 biennial report on the RCRA-LQG database shows the facility generated 0.6 tons of metal scale (inorganic solid waste) and 8.25 tons of spent acid (Liquids with pH < 2 with metals) in 2019. The metal scale was hauled to US Ecology in Beatty, Nevada and the spent acid was hauled to Phibro Tech Inc. in Santa Fe Springs, California. The waste is listed as ignitable, corrosive, and reactive. The HAZNET database also lists the facility containing liquid with a pH less than or equal to 2 with metals and other inorganic solid waste on site. The waste was shown either recycled, incinerated, or hauled off site. The facility is listed in the EMI database since 1990 and shows emissions of total organic hydrocarbon gasses at 1 tons per year. The Los Angeles Co. HMS database lists the site as closed. The FINDS and ECHO listings are related to the RCRA-LQG, HWTS, HAZNET, and CERS listings discussed above.

10607 Norwalk Boulevard – 'Mobil – Jalk Fee Oil Production Facility' - about 1,250 feet north (inferred hydraulically up-gradient)

This facility is listed in the Response, Envirostor, CPS-SLIC, LA CO. Site Mitigation, CERS, and SEMS Archive databases. The facility is listed in the SEMS Archive under EPA ID CA0000024554 since October 13, 1993. The additional databases listed above show the facility as an active remediation site for Dichloroethane (DCA), Dichloroethene (DCE), Tetrachloroethylene (PCE), Trichloroethylene (TCE), and Vinyl chloride. The CPS-SLIC database lists the site as an oil extraction and production facility from the 1920s to the 1990s. All oil field facilities were removed in the late 1990s.

Based on the location of the Subject Property within the contaminated groundwater plume, the Continental Heat Treating site is considered a REC.

3.3.4 Orphan Listings

According to EDR, an orphan listing is a property that cannot be mapped due to poor or inadequate address information. Five orphan listings were identified in the EDR report. The locations of five of the listings could not be determined. The first listing was identified as 'Walker Properties' and was listed in the CA Bond Exp. Plan database. The other properties were identified as "City of Santa Fe Springs", "Mcgranaham Commerce CTR II", "UNOCAL - ALEXANDER FEE", "MOBIL – OFRP" and were listed in the CA CPS-SLIC database. Based on the lack of information of the orphan listings, this listing is considered a data gap.

3.3.5 Water Wells, Injection Wells, and Oil and Gas Wells and Facilities

Based on a review of the Geocheck section of the EDR Regulatory Database Report (Appendix D) and the CalGEM online mapping application, there are two oil and gas wells located on the subject property. An oil and gas well with the API # 0403715492 located at the northwest portion of the property and an oil and gas well with API # 0403715483 southeast portion of the property are listed as being plugged. According to the California Department of Water Resources (DWR) map, there are three groundwater monitoring wells installed by BC2 Environmental Drilling at the northwest portion of the Site. The permits for these wells were issued on March 14, 2019. According to California Water Boards Groundwater Information System (GAMA), there are three additional groundwater monitoring well locations at the southern end of Koontz Avenue. One of the well locations is a nested well containing three monitoring wells.

According to CalGEM online mapping application, the Subject Property is located within the Santa Fe Springs Oil/Gas Field and 79 oil and gas wells are located within a quarter mile of the Subject Property. Of the 79 oil and gas wells, approximately 76 are plugged and 3 are listed as idle. Waterflood wells are defined as a type of injection well where water is injected into the formation to displace residual oil that is then captured by nearby production wells). The closest active well is located approximately 1,670 feet

northwest of the Subject Property and is a waterflood well.

4.0 SITE RECONNAISSANCE

A site reconnaissance was conducted that focused on the Subject Property and included a limited visual inspection of the adjacent and surrounding properties from public rights-of-way. The assessment of the adjacent and surrounding properties was limited to identifying, if possible, any visual indications of past or current use that may involve the use, storage, disposal, or generation of hazardous substances or petroleum products; noting the general type of current use; the general topography of the surrounding area; and providing a general description of adjoining or adjacent structures. The adjacent properties were observed from an on-site vantage point and public rights-of-way. Select photographs taken during the reconnaissance are presented in Appendix A.

The site reconnaissance was performed by Langan Staff Engineer, Ms. Casey Slatten and Langan Project Geologist Julian Grochocki on February 28, 2022. Ms. Slatten and Mr. Grochocki were not accompanied during the site reconnaissance. No significant limitations were encountered during the site reconnaissance. The weather at the time of the site reconnaissance was clear and sunny, and approximately 70 degrees Fahrenheit. Additional observations are summarized in the table below:

General Subject Property Setting Information	
Current use(s) of the Subject Property	The Subject Property contains one commercial building, three office buildings, and seven industrial buildings. Koontz Avenue runs through the Subject Property, intersecting with Florence Avenue at the north and ending in a cul-de-sac at the south.
Past use(s) of the Subject Property	Based on historical records review, the Subject Property was historically used for industrial and commercial purposes.
Current use(s) of adjoining properties	Adjoining properties observed during the reconnaissance generally consisted of commercial, industrial, and residential use.
Past use(s) of adjoining properties	Visible indications of past uses were not observed at adjoining properties.
Current or past uses in the surrounding area	Surrounding property use observed during the reconnaissance generally consisted of commercial and industrial use.

General Subject Property Setting Information	
Geologic, hydrogeologic, hydrologic, and topographic conditions	The topography is relatively flat. Refer to Section 2.3.
General description of structures	The Subject Property contains one commercial building, three office buildings, and seven industrial buildings.
Roads	Koontz Avenue runs through the property. The property is adjoined by Florence Avenue to the north and Norwalk Blvd to the east.
Potable water supply	The City of Santa Fe Springs provides potable water to the Subject Property.
Sewage disposal system (including septic systems and drain fields)	The sanitary sewer system is serviced by the City of Santa Fe Springs. No wastewater treatment systems were observed at the property.

Feature	Observed?		Description
	Yes	No	
Interior Observations			
Hazardous substances and petroleum products in connection with identified uses	X		Various hazardous substances and petroleum products were observed throughout the buildings on the property including: • Metal Cleaner and Conditioner • Controlled Motion Solution – AW ISO 46 • Chevron GST Oil – ISO 68 • Paint • Coolant/Antifreeze • Waste Oil
Storage tanks	X		Langan observed tanks of compressed argon, nitrogen, helium, and oxygen tanks in various buildings on the property. Langan also observed an open top storage take holding waste oil.
Strong, pungent, or noxious odors		X	Langan did not identify any odors at the Subject Property.
Pools of liquid, standing surface water, sumps containing liquids.		X	Langan did not observe pools of liquid or standing water in the interior buildings of the property.

Feature	Observed?		Description
	Yes	No	
Drums or other containers, including unidentified substance containers	X		Langan observed various labelled and unlabeled 55 gallon drums and containers containing oil, metal conditioner, paint, and coolant.
Stains or corrosion	X		Langan observed staining on the concrete in the Paramount Roll & Forming warehouse.
Exterior Observations			
Pits, ponds, or lagoons	X		Langan observed a sump full of water with an oil sheen at R.B. Paint and Body Center (10859 Norwalk Boulevard).
Stained soil or pavement	X		Staining was observed on the concrete pavement and soil throughout the property. The concrete appeared deteriorated and weathered.
Stressed vegetation		X	Langan observed stressed vegetation near an emergency propane shut off area in the Paramount Roll & Forming yard.
Wastewater		X	Generation of wastewater from on-site activities was not observed. A stormwater drain was observed at the western boundary of the property.
Hazardous substances and petroleum products in connection with identified uses	X		Langan observed diesel, coolant, and various types of oil (transmission oil, hydraulic oil, machine oil, and waste oil) throughout the property.
Storage tanks	X		Various labelled and unlabeled 55-gallon drums containing oil were found throughout the property. An AST for coolant and a large water holding tank was observed at the Paramount Roll & Forming Yard..
Wells	X		Langan observed 6 groundwater monitoring wells and 2 plugged oil and gas wells on Site. Three groundwater wells were found in the northwest portion of the Site and three were found in the southwest portion of the Site along the sidewalk.
Septic Systems		X	Langan did not observe a septic system at the Subject Property.

Feature	Observed?		Description
	Yes	No	
Electrical or hydraulic equipment that may contain PCBs (including electrical transformers)	X		Langan observed pole mounted transformers at the western boundary of the property.
Solid waste	X		Langan observed drained and used oil filters stored in a 55 gallon drum, empty drums, tires, scrap metal, and car parts throughout the property.
Other Equipment	X		Langan observed air compressors and a metal rolling press machine on the property.

Based on the poor housekeeping practices and observed surface staining, the current Subject Property activities are considered a REC.

5.0 INTERVIEWS

5.1 Subject Property Representative

Langan was not formally escorted on the property, and did not interview anyone on Site. However, according to the 2019 Phase I ESA, abandoned oil lines were reported to be present by the owner of Paramount Roll & Form at the northwest portion of the Site. No record of removal or assessment of the abandoned oil lines was identified during the course of this Phase I ESA. The potential presence of the abandoned oil lines at the northwest portion of the Site and lack of documentation documenting the status of the oil lines constitutes a REC.

5.2 State and/or Local Government Officials

Federal, state, and local officials were not interviewed as part of this Phase I ESA; however, the agencies were contacted via email correspondence and/or online requests to obtain available records of environmental concerns, violations, and/or permits pertaining to the Subject Property. Langan sent FOIA requests to the following federal, state, and local agencies. Copies of the FOIA submissions and responses received can be referenced in Appendix E.

- USEPA – Database search
- CA DTSC – Database search and email request
- Los Angeles County – Email records request
- City of Santa Fe Springs – Online records request
- South Coast Air Quality Management District (SCAQMD) – Online records request
- Los Angeles Regional Water Quality Control Board (RWQCB) – Email records request

USEPA

Langan performed a search of the USEPA MyProperty and MyEnvironment databases on March 13, 2022. The database listings are consistent with information contained in the regulatory database report provided by EDR, and discussed in Section 3.3.1.

CA DTSC

Langan submitted Right-to-Know requests to the California DTSC via electronic mail on February 25, 2022. On March 1, 2022, Mr. Roya Nejad, Records Management Assisstant Coordinator, responded that no records were located, however Mr. Nejad stated records may be available online through the CA DTSC HWTS. On March 15, 2022, the database was searched and the Subject Property was identified under the addresses 10845 and 10859 Norwalk Boulevard. A copy of the response is included in Appendix E.

10845 Norwalk Boulevard was associated with three separate names, as summarized below.

- 'Petrolane' was entered into the CA DTSC HWTS in August 1993 and was listed as inactive in June 1996. No manifests were identified.
- 'Petrolane, Inc.' was entered into the CA DTSC HWTS in September 1993 and was listed as inactive in October 2000. One manifest was identified in 1993. Waste generated at the facility was not identified.
- 'Quality Lift & Equipment Inc' was entered into the CA DTSC HWTS in August 2017 and was listed as inactive in June 2020. No manifests were identified.

10859 Norwalk Boulevard was associated with five separate names, as summarized below.

- '1X Ralph Horowitz' was entered into the CA DTSC HWTS in April 1991 and was listed as inactive in October 2000. No manifests were identified.
- 'Rolls Industrial Scaffold' was entered into the CA DTSC HWTS in July 1993 and was listed as inactive in April 1994. No manifests were identified.
- 'Mako Equipment' (ID #CAL000371300) was entered into the CA DTSC HWTS in February 2012 and was listed as inactive in June 2017. No manifests were identified.
- 'Mako Equipment' (ID #CAC002949199) was entered into the CA DTSC HWTS in February 2018 and was listed as inactive in May 2018. Two manifests were identified in 2018. Waste generated at the facility was not identified.
- 'Mako Equipment LLC' was entered into the CA DTSC HWTS in March 2019 and was listed as inactive in June 2019. Two manifests were identified in 2019. Waste generated at the facility was not identified.

CA DTSC GeoTracker and EnviroStor databases were searched on March 13, 2022. The Subject Property was identified on GeoTracker under the address 10801 Norwalk Boulevard and is discussed in Section 3.3.1. Adjoining and surrounding properties identified are discussed in Sections 3.3.2 and 3.3.3.

Los Angeles County

Langan submitted Right-to-Know requests to Los Angeles County via electronic mail on February 25, 2022.

Department of Health Services

On March 1, 2022, the Los Angeles County Department of health Services responded that no records were located and a public records request should be filed with the Los Angeles County Department of Public Health. A copy of the response is included in Appendix E.

Los Angeles County Health Hazardous Materials Division

On March 3, 2022, the Site Administrator for Los Angeles County Fire Department Health Hazardous Materials Division responded that no records were located. A copy of the response is included in Appendix E.

Department of Water and Power

On March 3, 2022, the California Public Records Act Clearinghouse for the Los Angeles County Department of Water and Power responded requesting an extension to gather any relevant records. Should pending records alter the conclusions provided within this report, Langan will issue the modified conclusions as an addendum. A copy of the response is included in Appendix E.

Department of Public Health

On March 8, 2022, Ms. Shakia Tilman with the Los Angeles County Public Health Investigation responded that no records were located and a public records request should be filed with the Los Angeles County Health Hazardous Materials Division. A copy of the response is included in Appendix E.

City of Santa Fe Springs

On February 28, 2022. Mr. Daniel Otair with the City of Santa Fe Springs responded via MySFS that pertinent records would be on file with the city fire department and could be reviewed in-person. An in-person file-review was scheduled on March 9, 2022. The database listings are consistent with information contained in the regulatory database report provided by EDR, and discussed in Section 3.3.1. A copy of the response is included in Appendix E.

On March 9, 2022, Mr. Fernando Munoz, Deputy City Clerk with the City of Santa Fe Springs responded with records of building permits for the Subject Property under the addresses 10819, 10845, and 10858 Koontz Avenue; 10801, 10825, 10845, and 10859 Norwalk Boulevard; and 12120 Florence Avenue. A copy of the response is included in Appendix E.

SCAQMD

On March 3, 2022, Ms. Lisa Ramos and Ms. Michelle Card with the SCAQMD Public Records Department responded via email with links to pertinent records for the Subject Property under

the addressed 10845 Koontz Avenue, 10801 Norwalk Boulevard, and 10845 Norwalk Boulevard, and 12120 Florence Avenue. Records included facility equipment list reports, machine operation applications, and permits to operate. No notices of violations were filed for the addresses at the Subject Property. A copy of the response is included in Appendix E.

RWQCB

On March 3, 2022, Ms. Andrea Schmid, Staff Services Analyst for the Los Angeles RWQCB responded via with instructions for accessing pertinent records through the Stormwater Multiple Application and Report Tracking System (SMARTS) database and scheduling an in-person file review. An in-person file review was not scheduled. On March 15, 2022, the database was searched and the Subject Property was identified under the addresses 10845 Koontz Avenue and 12120 Florence Avenue. A copy of the response is included in Appendix E.

6.0 NON-SCOPE CONSIDERATIONS

6.1 Radon

Radon is a colorless, odorless radioactive gas that results from the natural breakdown of uranium minerals in soil, rock, and water, which subsequently enters the atmosphere. Radon can concentrate in buildings, entering through cracks and other penetrations of a building foundation. Some areas are more likely to have elevated concentrations of radon than others, reflecting subsurface lithologic conditions.

According to Federal Area Radon Information provided by EDR, Los Angeles County is a Radon Zone 2, which indicates an average indoor radon concentration greater than 2 picocuries per liter (pCi/L) but less than 4 pCi/L. According to California radon data provided by EDR, of the 63 radon tests performed in Los Angeles County, the average detected concentration for first floor living areas was 0.711 pCi/L and the average detected concentration for basements was 0.933 pCi/L. The USEPA recommends indoor air radon levels below 4 pCi/L for residential buildings. The USEPA has not specified a radon action level for commercial buildings. Based on this information, there is low potential for radon to be present at the Subject Property.

6.2 Asbestos-Containing Material, Lead-Based Paint, and PCBs

A formal survey to identify asbestos-containing material (ACM), lead-based paint (LBP), and/or PCB-containing material was not conducted as part of this Phase I ESA. Based on the age of the buildings, ACM, LBP, and PCB-containing materials may be present within building materials at the Subject Property.

6.3 Methane

The City of Santa Fe Springs Methane Zone Map indicates that the Subject Property is within 500 feet of an oil/natural gas well. This indicates that the Subject Property is located within a Methane Zone. Methane Zones represent areas of potential methane accumulation under buildings. The City of Santa Fe Springs Ordinance No. 955, amended Section 117.131 of the

City Code, indicates that any property within a Methane Zone is subject to a soil gas investigation when there is a change in ownership or when new construction is planned.

7.0 EVALUATION

7.1 Findings and Opinions

This Phase I ESA identified four RECs, one CREC, four BERs, and one De Minimis condition associated with the Subject Property as discussed in detail below.

The first REC includes abandoned oil lines that were reported to be present by the owner of Paramount Roll & Form at the northwest portion of the Site. No record of removal or assessment of the abandoned oil lines was identified during the course of this Phase I ESA. The potential presence of the abandoned oil lines at the northwest portion of the Site and lack of documentation documenting the status of the oil lines constitutes a REC.

The second REC is associated with the proximity of a chlorinated solvent plume originating up-gradient to the Site. The upgradient property to the north was identified with a release of chlorinated solvents to groundwater associated with the occupants Continental Heat Treating and Former ExxonMobil Jalk Fee. Both properties are listed as active cleanup program sites under the CPS-SLIC database. According to a Semi-Annual Groundwater Monitoring Report conducted by Fero Engineering in 2022, the solvent plume which contains Trichloroethylene (TCE), Tetrachloroethylene (PCE), and other chlorinated solvents extends to the northwest portion of the Site. The extent of the solvent plume at the Site is currently monitored through three nested monitoring wells located on the northwest portion of the Site, west adjacent to Koontz Avenue. The known presence of a chlorinated solvent plume beneath Site is considered a REC. Figure 2a shows the TCE and PCE plumes in relation to the Site.

The third REC is associated with historic auto and historic industrial activities at the Site. The Site has had a long history of automotive and industrial use as early as 1947 based on aerial photographs. The database listings for the Site documents a history of industrial operations that involved the use, storage, and disposal of hazardous substances and petroleum products. Given the long history of industrial activity at the Site, undocumented releases are likely to have occurred, and have the potential to impact the Site. Therefore, the current and historical industrial activity at the Site, as indicated in the regulatory listings, is considered a REC.

The fourth REC is associated with abundant oil-like staining and poor housekeeping observed throughout the Site. During Site reconnaissance, abundant oil-like staining was observed throughout the Site on concrete outside and inside many of the current warehouses. Metal shavings were observed on the floors of the Rouf's Machine Shop and the Paramount Rolling & Forming warehouse. Additionally, open containers of waste oil were observed throughout the property. The concrete pavement was observed cracked and weathered in multiple areas on Site. The proximity of staining on/near cracked concrete and poor housekeeping practices could

lead to potential impacts to the soil and groundwater, and is therefore considered a REC.

The CREC is associated with a former LUST removed from the Silverio's Party Supply property located at the northeast corner of the Site. The UST was removed in 1998.Although the facility received a closure letter from the Santa Fe Fire Department, AdvancedGeo found residual petroleum impacts to the soil between 20 and 30 feet bgs. Concentrations of TPH were detected at 9,090 mg/Kg in soil samples collected at a depth of 20 feet below ground surface (bgs) near the location of the former UST. The Concentrations of residual petroleum hydrocarbons above applicable regulatory screening levels remaining in onsite soil from the closed LUST case are considered a CREC.

The first BER is associated with historic agricultural use at the Site. Based on a review of aerial photographs, the Site was used for agricultural purposes from the mid 1890's to the 1950's. Site soils may contain residual pesticides, herbicides, and heavy metals such as lead and arsenic or other chemicals resulting from the agricultural use of the Site making this a BER.

The second BER is associated with possible LBP and asbestos containing material within the buildings on Site. Based on aerial photographs, the buildings on Site were constructed in the 1960's and 1970's. Due to the age of the buildings, the possible presence of lead based paint and asbestos containing material on Site is considered a BER.

The third BER is associated with two abandoned oil production wells located at the Site. According to CalGem Well finder, one abandoned oil production well is located at the northwestern portion of the Site (API 0403715492), and the other oil production well is located at the southeastern portion of the Site (API 0403715483) shown on Figure 2. Both wells are listed as plugged and abandoned. However, residual hydrocarbon could remain in the soil, making this a BER.

The fourth BER is associated with the Site being situated within a methane zone. The City of Santa Fe Springs Methane Zone Map indicates that the Subject Property is within 500 feet of an oil/natural gas well. This indicates that the Subject Property is located within a Methane Zone. Methane Zones represent areas of potential methane accumulation under buildings. The City of Santa Fe Springs Ordinance No. 955, amended Section 117.131 of the City Code, indicates that any property within a Methane Zone is subject to a soil gas investigation when there is a change in ownership or when new construction is planned. The location of the Site within a methane zone is identified as a BER.

One De Minimis condition was identified at the Site. The De Minimis condition is associated with poor housekeeping conditions such as improperly storing and improperly labeling hazardous waste containers on Site.

There were no HRECs associated with the Site.

Based on the findings of this Phase I ESA, Langan recommends a Phase II Environmental Site Investigation (ESI) to evaluate the nature and extent of known and potential contamination related to the RECs. Langan also recommends that a limited hazardous building materials

survey be performed at the Subject Property to identify the potential presence of additional ACM and LBP and PCB-containing building materials.

7.2 Data Gaps

In order to address data gaps, additional sources of information may be consulted. According to AAI, Section 312.20 (g), "to the extent there are data gaps (as defined in section 312.10) in the information developed...that affect the ability of persons (including the environmental professional) conducting the all appropriate inquiries to identify conditions indicative of releases or threatened releases…such persons should identify such data gaps, identify the sources of information consulted to address such data gaps, and comment upon the significance of such data gaps." According to ASTM E 1527-13, Section 8.3.2.3, "historical research is complete when either: (1) the objectives in 8.3.1 through 8.3.2.2 are achieved; or (2) data failure is encountered. Data failure occurs when all the standard historical sources that are reasonably ascertainable and likely to be useful have been reviewed and yet the objectives have not been met…If data failure is encountered, the report shall document the failure and, if any of the standard historical sources were excluded, give the reasons for the exclusion." The five unmapped orphan properties are considered a data gap.

8.0 CONCLUSIONS

The objective of this Phase I ESA was to identify the presence or likely presence, use, or release on the Subject Property of hazardous substances or petroleum products as defined in ASTM E1527-13 as RECs.

This Phase I ESA identified four RECs, one CREC, four BERs, and one De Minimis Condition associated with the Site.

The following RECs were identified:

- **On-site abandoned oil pipelines:** According to the 2019 Phase I ESA, abandoned oil lines were reported to be present by the owner of Paramount Roll & Form at the northwest portion of the Site. No record of removal or assessment of the abandoned oil lines was identified during the course of this Phase I ESA. The potential presence of the abandoned oil lines at the northwest portion of the Site and lack of documentation documenting the status of the oil lines constitutes a REC.
- **Chlorinated solvent plume up-gradient from the Site:** The upgradient property to the north was identified with a release of chlorinated solvents to groundwater associated with the occupants Continental Heat Treating and Former ExxonMobil Jalk Fee. Both properties are listed as active cleanup program sites under the Cleanup Program Sites – Spills, Leaks, Investigations, and Cleanups (CPS-SLIC) database. The regional groundwater-bearing zone in the vicinity of the area consists of the Exposition aquifer, which is encountered at approximately 100 feet below ground surface (bgs) and ranges in thickness from 75 feet to 100 feet. According to a Semi-Annual Groundwater Monitoring Report conducted by Fero Engineering in 2022, depth to groundwater was measured in several wells throughout the property between 110 to 115 feet below ground surface (bgs) with groundwater flow towards the south-southwest. The solvent plume which contains trichloroethylene (TCE), tetrachloroethylene (PCE), and other chlorinated solvents was delineated to extend to the northwest portion of the Site. The extent of the solvent plume at the Site is currently monitored through three nested monitoring wells identified as MW-8s, MW-8m, and MW-8d which are located on the northwest portion of the Site, west adjacent to Koontz Avenue. The known presence of a chlorinated solvent plume beneath Site is considered a REC. Figure 2a shows the TCE and PCE plumes in relation to the Site.
- **Current and Historical Operations at the Subject Property:** The Site has had a long history of automotive and industrial use as early as 1947 based on aerial photographs. The database listings for the Site document a history of industrial operations that involved the use, storage, and disposal of hazardous substances and petroleum products. Given the long history of industrial activity in the area, undocumented releases are likely to have occurred, and have the potential to impact the Site. Therefore, the current and historical industrial activity at the Site, as indicated in the regulatory listings, is considered a REC.

- **Staining observed during Site reconnaissance:** During Site reconnaissance, abundant oil-like staining was observed throughout the Site on concrete outside and inside many of the current warehouses. Metal shavings were observed on the floors of the Rouf's Machine Shop and the Paramount Rolling & Forming warehouse. Additionally, open containers of waste oil were observed throughout the property. The concrete pavement was observed cracked and weathered in multiple areas on Site. The proximity of staining on/near cracked concrete could lead to potential impacts to the soil and groundwater, and is therefore considered a REC.

The following CREC was identified:

- **Former LUST at northeast corner of Site:** A petroleum release from a leaking underground storage tank (LUST) was identified at northeast corner of the Site in association with the occupant Silverio's Party Supply. The UST was removed in 1998. Although the facility received a closure letter from the Santa Fe Fire Department, AdvancedGeo measured residual petroleum impacts to the soil between 20 and 30 feet bgs. Concentrations of total TPH were detected up to 9,090 mg/Kg in soil samples collected at a depth of 20 feet below ground surface (bgs) near the location of the former UST. The reported concentrations of residual petroleum hydrocarbons that exceed current regulatory screening levels in onsite soil associated with the closed LUST case are considered a CREC.

The following BERs were identified:

- **Historic agricultural use at the Site:** Based on a review of aerial photographs, the Site was used for agricultural purposes from the mid 1890's to the 1950's. Site soils may contain residual pesticides, herbicides, and heavy metals such as lead and arsenic or other chemicals resulting from the agricultural use of the Site making this a BER.
- **Possible Lead Based Paint and Asbestos Containing Material at the Site:** Based on aerial photographs, the current buildings at the Site were constructed in the 1960's and 1970's. Due to the age of the buildings, there is a possible presence of lead based paint and asbestos containing material throughout the Site is therefore considered a BER.
- **Two abandoned oil production wells located at the Site**: According to California Geologic Energy Management Division's (CalGEM) online mapping application data, two abandoned oil production wells are located on Site. One abandoned oil production well is located at the southeastern portion of the Site (API 0403715483), and the other well is located at the northwestern portion of the Site (API 0403715492) shown on Figure 2. Both wells are listed as plugged and abandoned by Pyramid Oil Company and by Hathaway Company in 1974 and 2000, respectively. However, residual hydrocarbon could remain in the soil from previous oil and gas production activities, making this a BER. Additionally, the wells were abandoned in 1974 and 2000 respectively, under the standards in place at that time, and may be required to be re-abandoned according to current well abandonment standards.

- **Santa Fe Springs Methane Zone**: The City of Santa Fe Springs Methane Zone Map indicates that the Subject Property is within 500 feet of an oil/natural gas well. This indicates that the Subject Property is located within a Methane Zone. Methane Zones represent areas of potential methane accumulation under buildings. The City of Santa Fe Springs Ordinance No. 955, amended Section 117.131 of the City Code, indicates that any property within a Methane Zone is subject to a soil gas investigation when there is a change in ownership or when new construction is planned. The location of the Site within a methane zone is identified as a BER.

The following De Minimis condition was identified:

- **Poor housekeeping conditions**: The De Minimis condition is associated with poor housekeeping conditions such as improperly storing and improperly labeling hazardous waste containers on Site.

There were no HRECs associated with the Site.

10.0 ENVIRONMENTAL PROFESSIONAL DECLARATION

Langan declares that, to the best of its professional knowledge and belief, that the personnel who performed this Phase I ESA meet the definition of Environmental Professional as defined in Subsection 312.10 of 40 Code of Federal Regulations (CFR) 312 and that they have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the Site. These professionals have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

This Phase I ESA was prepared by Staff Engineer – Nilma Edward and Staff Geologist – Rachel Owen, and reviewed by Project Geologist – Julian Grochockiand and Associate – Luis Navarro. Resumes outlying their qualifications are provided in Appendix F.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1920 through 2014. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

Contact: Casey Slatten

EDR Topographic Map Library has been searched by EDR and maps covering the target property location as provided by Langan Engineering were identified for the years listed below. EDR's Historical Topo Map Report is designed to assist professionals in evaluating potential liability on a target property resulting from past activities. EDRs Historical Topo Map Report includes a search of a collection of public and private color historical topographic maps, dating back to the late 1800s.

Search Results:

P.O.# NA
Project: 721033501

Coordinates:

Latitude:	33.934418 33° 56' 4" North
Longitude:	-118.073612 -118° 4' 25" West
UTM Zone:	Zone 11 North
UTM X Meters:	400775.93
UTM Y Meters:	3755403.41
Elevation:	132.28' above sea level

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Langan Engineering were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Phase I Environmental Site Assessment
HATHAWAY PROPERTIES, INC.
10801–10859 Norwalk Boulevard, 10819-10858 Koontz Avenue, 12120 Florence Avenue, Santa Fe Springs, California

EXECUTIVE SUMMARY

Advanced GeoEnvironmental, Inc. conducted this Phase I Environmental Site Assessment for the property located at 10801 - 10859 Norwalk Boulevard, 10819 - 10858 Koontz Avenue, and 12120 Florence Avenue, Santa Fe Springs, Los Angeles County, California (subject property or property). This Phase I is in conformance with the scope and limitations of ASTM Standard Practice E1527-13, the Environmental Protection Agency Standards, and Practices for All Appropriate Inquiries 'AAI' (40 CFR Part 312).

PROPERTY USE

The subject property is comprised of a single 6.44-acre parcel, which has been divided into nine (9) leased subdivisions of various sizes, each having its own individual address. These subdivided areas are currently occupied by a party supply store, a forklift rental company, a scissor lift rental company, a used truck sale company, two steel rolling companies, a machine repair company, a transport company, and a welding fabrication company (Figure 2 and Figure 3).

Based upon a review of historical documents, the subject property was used for agricultural purposes from at least 1928 and extending through at least 1972. Chemicals associated with agricultural activities may have been used on crops during that time period. However, based upon the length of time the subject site has been void of any agricultural use (50+ years), and expected grading of the soils on the site prior to development, it is highly unlikely detectable levels of residual agricultural chemicals are still present on the subject site.

The subject property is located within the boundaries of the Santa Fe Springs Oil Field. Oil wells were installed on the property in 1922 (at what would become 10850 Koontz Avenue) and 1945 (immediately north of 10819 Koontz Avenue). Both wells produced oil. The well at 10850 Koontz Avenue was abandoned in 1974 under the well abandonment standards in place at that time. The well north of 10819 Koontz Avenue was abandoned in the year 2000 under the standards of the time. There is the potential that these wells will be required to be re-abandoned to current State of California well abandonment standards.

Beginning in the late 1960's or early 1970's, the subject property was developed for industrial use. Former property uses included transportation, steel manufacturing and hydraulic repair companies. A gas station occupied the northeast corner of the site (10801 Norwalk Boulevard) from the 1960's until 1997. Based on historical documents reviewed for this Phase I, gasoline and

diesel fuel were stored in underground storage tanks at 10801 Norwalk Boulevard. The portion of the property at 10845 Koontz Avenue, which is currently occupied by MBJ Freight, also utilized two 10,000-gallon underground tanks storing gasoline and diesel fuel. The tanks were removed in 1996 and were given closure by the Santa Fe Springs Fire Department. Limited quantities of hazardous materials, such as motor oil, antifreeze, and hydraulic fluid, have been utilized at businesses throughout the subject property history.

In summary, a review of the historical documents revealed environmental concerns related to past uses on the subject property including the former gas stations and heavy industrial uses, as well as potential groundwater contamination from off-site sources. Representative historical records are provided within Appendix B.

FINDINGS

Based on the standards set by ASTM Standard Practice E1527-13, a recognized environmental condition (REC) is the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment. Conditions that are determined to be de minimis, which do not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies, are not recognized environmental conditions. Conditions that are considered Business Environmental Risk include the presence of asbestos-containing materials, lead-based paint, mold or moisture conditions, or non-hazardous regulated materials.

The standard further identifies historical RECs and controlled RECs. An historical REC (HREC) is a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls. A controlled REC (CREC) is a REC resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority, with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls.

The following findings are differentiated below as Business Environmental Risks and de minimis conditions unlikely to be subject to government enforcement, HRECs, CRECs and RECs.

BUSINESS ENVIRONMENTAL RISKS

This assessment has revealed no evidence of potential Business Environmental Risks in connection with the subject property, except the following:

- Based upon the age of construction of the buildings at the property (1960's and 1970's), asbestos containing materials and lead based paint may be present in the buildings. AGE recommends full asbestos and lead paint surveys be performed by a licensed consultant prior to any remodeling or demolition.
- Two abandoned oil production wells are located on the subject property. One well is located north of 10819 Koontz Avenue and one is located in the southern portion of 10850 Koontz Avenue (see Figure 3 for well locations). The wells were drilled in 1922 and 1945 and were abandoned in 1974 and 2000 under the oil well abandonment regulatory standards at the time. There is a potential that the wells will be required to be re-abandoned under current standards. Any planned development of the property will need to be coordinated with DOGGR and the local land use agency.

DE MINIMIS CONDITIONS

This assessment revealed no evidence of potential or de minimis conditions in connection with the subject property, except poor housekeeping practices, such as the improper labeling of hazardous materials and the disorderly and improper storage of supplies in the yards, at 10845 Norwalk Boulevard and 10858 Koontz Avenue.

HISTORICAL RECOGNIZED ENVIRONMENTAL CONDITION

This assessment has revealed no evidence of HRECs in connection with the subject property, except for the following:

- UST's were removed in 1998 from 10801 Norwalk Boulevard (Silverio's Party Store). Although soil samples collected at the time of the UST removal contained TPH and VOCs, the Santa Fe Springs Fire Department issued a 'closure' letter in 1999.
- UST's were previously located at 10845 Koontz Ave (currently occupied by MJB Freight). The UST's were removed, and soil samples collected at the time of the UST removals did not contain any detectable concentrations of petroleum hydrocarbons, or volatile organic compounds at detectable concentrations.

CONTROLLED RECOGNIZED ENVIRONMENTAL CONDITION

This assessment has revealed no evidence of CREC's in connection with the subject property.

RECOGNIZED ENVIRONMENTAL CONDITIONS

This assessment has revealed evidence of REC's in connection with the subject property, as follows:

- Chlorinated solvents (tetrachloroethylene (PCE) and trichlorethylene (TCE)) have impacted the groundwater beneath the subject property from a release originating at Continental Heat Treating, located 623 feet north of the site in an up-gradient location. Two sets of groundwater monitoring wells were installed on the subject site as part of their on-going investigation. The PCE and TCE present in the ground water could potentially have a negative impact to both soil and soil-vapor beneath the subject site. The extent of the impact to these mediums on the subject property is unknown at this time.
- A likely vapor intrusion condition from the neighboring property immediately to the west (beyond 10845 Koontz Avenue, MJB Freight) is identified as the City of Santa Fe Springs Little Lake Housing Development site. This site has been impacted with volatile organic compounds in soil, groundwater and soil-vapor. Based upon the close proximity of this site to the subject property, this site poses an environmental concern to the subject property.
- Two in-ground clarifiers were observed, one at the south border of 10819 Koontz Avenue (Paramount Rolling/La Habra Welding), and the other at the northwest border of 10845 Koontz Avenue (MJB Freight). Potential structural issues associated with concrete clarifiers and unknown chemical discharges create the potential of subsurface soil impact.
- Extensive oil staining was observed on deteriorated and porous asphalt at 10845 Norwalk Boulevard (Quality Lift) throughout most of that site. Additionally, significant oil stained asphalt was present at 10858 Koontz Avenue (Rouf's Machine) in the vicinity of a 250-gallon tote storing used hydraulic fluid located on the northwestern portion of the site. In addition, improper storage of forklift batteries were observed on the Quality lift site. Most of the forklift batteries were stored outdoors in uncovered areas of the property without proper containment. Batteries contain a variety of metals, including lead and can easily leak if not handled properly. The porous asphalt surface where many of these batteries are stored at this site provide an easy route for lead to impact the subsurface soils.
- Metal shavings and fine metal dust from long term heavy industrial use, including steel rolling and fabrication, welding, and machine repair at 12120 Florence Avenue (Paramount Rolling), 10819 Koontz Avenue (La Habra Welding), and 10858 Koontz Avenue (LenPar Rolling) present the potential for subsurface metal contamination. Extensive areas with metal dust/shavings were observed in these areas of the property outdoors without containment. The deteriorated and porous asphalt at these locations provides a potential path to subsurface heavy metal contamination.
- Abandoned oil lines were reported to be present at 12120 East Florence Avenue by Ken Moscript, owner of Paramount Roll & Form. No record of any removal or assessment of the oil lines was available for review during the course of this Phase I. Based on the presence of these oil lines and lack of any assessment or records of removal, the oil lines pose an environmental concern to the subject property.

CONCLUSIONS AND OPINION

Advanced GeoEnvironmental, Inc. has performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E1527-13, US-EPA AAI for the property located at 10801 - 10859 Norwalk Boulevard, 10819 - 10858 Koontz Avenue, and 12120 Florence Avenue, Santa Fe Springs, California. It is the opinion of the environmental professionals that the findings and conclusions presented in this report are reasonable and prudent, given the evidence as presented. AGE identified several REC's on the subject property during the course of the Phase I including the following:

- Chemicals related to the release of chlorinated solvent (PCE and TCE) related to the unauthorized release at Continental Heat Treating to the north have impacted the groundwater of the subject property. Soil and soil-vapor have also likely been impacted.
- Vapor encroachment of VOCs from the contamination related to the City of Santa Fe Springs Little Lake Housing project have likely impacted the subject property.
- In-ground clarifiers were identified at 10819 Koontz Avenue and 10845 Koontz Avenue. Clarifiers have the potential to leak and negatively impact the subsurface.
- Hydrocarbon storage on site and numerous areas of heavy staining that were observed throughout the property, in conjunction with the deteriorated and porous asphalt, create the likely possibility of hydrocarbon contamination impacting the subsurface soils.
- Long term industrial use of the site and the widespread presence of metal shavings and metal dust, in conjunction with cracked and porous asphalt create the likely possibility of subsurface metal contamination.
- The improper storage of batteries outdoors, in conjunction with deteriorated and porous asphalt create the likely possibility of subsurface lead contamination.
- Reports of abandoned oil lines underneath 12120 East Florence Avenue create the possibility of hydrocarbon subsurface contamination.

It is AGE's opinion that a subsurface investigation be performed at the site to address the identified REC's. Based on the REC's and environmental concerns identified during this investigation, AGE recommends a Phase II Environmental Assessment to further define the environmental integrity of the subject property.

The following table summarizes our recommended scope of work for the Phase II Environmental Assessment:

Environmental Concern	Number of Borings	Soil Sample Depth (ft)	Analysis	Number of Soil Vapor Points
SWC of Florence Avenue and Koontz Avenue				
Former Oil Well	1	5,10,15	HC, VOCs	1
Paramount Rolling & Forming (La Habra Welding) - 10819 Koontz Avenue				
Machinery inside building	2	2,5,10	HC, VOCs, Metals	
Waste Storage	1	2,5,10	HC, VOCs, Metals	1
Clarifier	1	5,10,15	HC, VOCs	1
MJB Freight - 10845 Koontz Avenue				
Clarifier	1	5,10,15	HC, VOCs	1
Drain	1	2,5	HC, VOCs	
SW Corner				1
Silverio Party Store - 10801 Norwalk Boulevard				
Former USTs	1	10,15,20	HC, VOCs	
Paramount Roll & Forming - 12120 Florence Avenue				
Machinery with 9' deep pits	2	2,5,10,15	HC, VOCs, Metals	
Storage Area (inside building)	1	2,5,10	HC, VOCs, Metals	1
Storage Area (outside)	1	2,5,10	HC, VOCs, Metals	1
Roufs Machine, LenPar Rolling - 10858 Koontz Avenue				
Storage Area - Roufs	1	2,5,10	HC, VOCs, Metals	1
Lenpar - Pit Machine	1	5,10,15,20	HC, VOCs, Metals	1
West Coast Enterprises - 10825 Norwalk Boulevard				
Maintenance Shed	1	2,5	HC, VOCs	4
Quality Lift - 10845 Norwalk Boulevard				
Yard area - staining	4	2,5	HC, VOCs, Metals	1
Mako Equipment - 10859 Norwalk Boulevard				
Sump/shed	1	5,10,15	HC, VOCs	1
Former Oil Well, southeast corner	1	5,10,15	HC, VOCs	1
TOTAL	**21**		**HC – 66 VOCs – 66 Metals - 44**	**17**

Phase I Environmental Site Assessment
HATHAWAY PROPERTIES, INC.
10801 – 10859 Norwalk Boulevard, 12120 Florence Avenue, Santa Fe Springs, California

1.0. INTRODUCTION

Advanced GeoEnvironmental, Inc. (AGE) has been retained by Briggs and Alexander, APLC to perform a Phase I Environmental Site Assessment (Phase I) of the property located at 10801 - 10859 Norwalk Boulevard, 10819 - 10858 Koontz Avenue, and 12120 Florence Avenue, Santa Fe Springs, Los Angeles County, California. Hereafter, referred to as the subject property or property. The Phase I was performed in conformance with the scope and limitations of ASTM Standard Practice E1527-13, the Environmental Protection Agency Standards and Practices for 'All Appropriate Inquiries (AAI)' (40 CFR Part 312). The Phase I is designed to provide the Client (user) with an assessment concerning environmental conditions (limited to those issues identified in the report) as they exist at the subject property.

1.1. PURPOSE

The purpose of the Phase I is to identify and assess environmental characteristics of the subject property that could lead to liability in the event of ownership, that could have a potential impact on property value or that could impact the present or future use of the subject property.

The purpose of ASTM Standard Practice E1527-13 and USEPA AAI is to define good commercial and customary practice for conducting an environmental site assessment of a parcel of commercial real estate with respect to the range of contaminants within the scope of the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) and petroleum products. As such, this practice is intended to permit a user to satisfy one of the requirements to qualify for the innocent landowner, contiguous property owner, or bona fide prospective purchaser limitations on CERCLA liability: that is, the practice that constitutes all appropriate inquiries into the previous ownership and uses of the property consistent with good commercial and customary practice as defined at 42 U.S.C. §9601(35)(B). An evaluation of business environmental risk associated with a parcel of commercial real estate may necessitate investigation beyond that identified in this practice (based on ASTM Practice E1527-13).

The goal of ASTM Standard Practice E1527-13 is to identify recognized environmental conditions (REC's) in connection with the subject property. A REC is defined as the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment. Conditions that are determined to be de minimis, which do not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies, are not recognized environmental conditions.

The standard further identifies historical REC's and controlled REC's. An historical REC (HREC) is a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls. A controlled REC (CREC) is a REC resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority, with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls.

1.2. SITE DESCRIPTION

The subject property is comprised of a single, 6.44-acre parcel, which has been divided into nine (9) leased subdivisions of various sizes, each having its own individual address. These subdivided areas are currently occupied by a party supply store, a forklift rental company, a scissor lift rental company, a used truck sale company, two steel rolling companies, a machine repair company, a transport company, and a welding fabrication company (Figure 2 and Figure 3). Further property location descriptions, characteristics, improvements, and site vicinity characteristics are discussed below.

1.2.1. Location and Legal Description

Site Address(es)	10801 - 10859 NORWALK BOULEVARD, 10819 - 10858 KOONTZ AVENUE, and 12120 FLORENCE AVENUE
Assessor's Parcel Number(s) APN	8009-023-027
Property Owner	HATHAWAY CO INC
Land Use Type	AUTOMOTIVE USES
Legal Description	M R 32-18*POR OF NE 1/4 OF SE 1/4 OF SEC 6 T 3S R 11W
Size of Property	6.44-acres

The parcel map and owner information were provided by ParcelQuest/CD Data as a representation of current data downloaded monthly from the County Assessor's Office. Copies of the parcel map and the owner information are provided in Appendix B.

1.2.2. Site and Vicinity General Characteristics

The subject property is located within a mixed industrial and residential area in the City of Santa Fe Springs, Los Angeles County, California. Figure 1 shows the setting of the subject property (7.5 Minute United States Geological Survey [USGS] Topographic Series, Whittier, California). Photographs of the subject property are provided in Appendix A.

1.2.3. Current Use of Property

The subject property is currently occupied by various commercial and industrial tenants including the following: a party supply store (Silverio Party Store) at 10801 Norwalk Boulevard, a used truck sale company (West Coast Enterprises) at 10825 Norwalk Boulevard, a forklift rental company (Quality Lift) at 10845 Norwalk Boulevard, a scissor lift rental company (Mako Equipment) at 10859 Norwalk Boulevard, a machine repair company (Rouf's Machines) at 10858 Koontz Avenue, two steel rolling companies LenPar Rolling at 10858 Koontz Avenue and Paramount Rolling at 12120 East Florence Avenue, a welding and fabrication company (La Habra Welding) at 10819 Koontz Avenue, and a transport company (MJB Freight) at 10859 Norwalk Boulevard.

1.2.4. Proposed Use of Property

AGE is unaware of any proposed or planned change of property use.

1.2.5. Property Utilities

Current and known historic utilities serving the subject property are summarized in the following table:

Potable Water Source	Santa Fe Springs Water Utility Authority
Sanitary Sewer Utility	City of Santa Fe Springs
Storm Drain Utility	Undetermined
Electric Utility	Undetermined
Natural Gas Utility	Southern California Gas Company

1.3. DETAILED SCOPE-OF-SERVICES

Except where identified in Section 8.1., the scope of work for this Phase I conforms to ASTM Standard Practice E1527-13 and the USEPA AAI (40 CFR Part 312). Any additional User requested scope of services are discussed in Section 7.0.

1.4. SIGNIFICANT ASSUMPTIONS

Our professional services were performed using that degree of care and skill ordinarily exercised by environmental consultants practicing in this or similar fields. Findings were based mainly upon examination of historical records, maps, aerial photographs and government agency lists, on a site reconnaissance visit, and on information obtained during personal interviews with persons of long-term familiarity with the subject property as specified in ASTM E1527-13 and the USEPA AAI. Hazardous waste site lists presented in this report represents only a search of specific

government records as listed below. AGE is aware additional government records may exist. It should be noted that government agencies often do not list all sites with environmental contamination or that the list could be inaccurate and/or incomplete.

Groundwater flow and depth to groundwater, unless otherwise specified by on-site well data, or well data from adjacent sites, are assumed based on geologic interpretations from available sources. AGE assumes the property has been correctly and accurately identified by the client, designated representative of the client, property contact, property owner, and property owner's representatives.

1.5. LIMITATIONS AND EXCEPTIONS

Property conditions, as well as local, state, tribal and federal regulations can change significantly over time. Therefore, the recommendations and conclusions presented as a result of this study apply strictly to the environmental regulations and property conditions existing at the time the study was performed. Available information has been analyzed using currently accepted assessment techniques and it is believed that the inferences made are reasonably representative of the property. AGE makes no warranty, expressed or implied, except that the services have been performed in accordance with generally accepted environmental property assessment practices applicable at the time and location of the study.

Considerations identified as beyond the scope of an ASTM Phase I that may affect business environmental risks at a property include the following: asbestos-containing materials (ACMs); biological agents; cultural and historic resources; ecological resources; endangered species; health and safety; indoor air quality unrelated to releases of hazardous substances or petroleum products into the environment; industrial hygiene; lead-based paint (LBP); lead in drinking water; mold; radon; regulatory compliance; and wetlands. These environmental issues may warrant assessment based on the type of property or transaction, however, they are considered non-scope issues under ASTM Practice E1527-13. Any addition of non-scope items must be agreed upon between the user and AGE prior to initiation of the Phase I.

The Phase I Environmental Site Assessment is not, and should not be construed as, a warranty or guarantee about the presence or absence of environmental contaminants that may affect the property. Neither is the assessment intended to assure clear title to the property in question. The sole purpose of investigation into property title records is to ascertain a historical basis of prior land use. All findings, conclusions, and recommendations stated in this report are based upon facts, circumstances, and industry-accepted procedures for such services as they existed at the time this report was prepared (i.e., federal, state, and local laws, rules, regulations, market conditions, economic conditions, political climate, and other applicable matters). All findings, conclusions, and recommendations stated in this report are based on the data and information provided, and observations and conditions that existed on the date and time of the property visit.

1.6. SPECIAL TERMS AND CONDITIONS

There were no special terms or conditions, agreed upon by the environmental professional, beyond the initial agreed upon scope of work, used in preparation of this report.

1.7. USER RELIANCE

Conclusions and recommendations in this report are based on findings regarding historical use of the site, and on features noted during the site reconnaissance. The absence of any potential gross contamination sources, historic or present, does not necessarily imply that the site is free of any contamination. This report only represents a 'due diligence' effort as to the current environmental status of the site. No other warranty, expressed or implied, is made as to the professional recommendations contained in this report.

2.0. USER PROVIDED INFORMATION

According to the ASTM Standard E1527-13 and the USEPA AAI, in order to qualify for one of the Landowner Liability Protections (LLPs) to CERCLA liability offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001, the client (user) must provide to the environmental professional the following information (if available) in relation to the subject property:

Title Records	A review of Title Records was not requested by the user.
Environmental Liens or Activity and Use Limitations	An environmental lien or AUL's (activity and usage limitations) search was not requested by the user
Specialized Knowledge	The user provided no commonly known or reasonably ascertainable information available within the local community about the subject property that is material to recognized environmental conditions in connection with the property
Commonly Known or Reasonably Ascertainable Information	The user provided no commonly known or reasonably ascertainable information available within the local community about the subject property that is material to recognized environmental conditions in connection with the property.
Valuation Reduction for Environmental Issues	No property valuation reduction related to environmental issues or concerns was reported by the user.
Owner, Property Manager, and Occupant Information	No written or verbal communication with the property owner, manager and/or occupant revealed any information which suggested that there are currently or historically any recognized environmental conditions associated with the subject property not noted in this assessment.
Reason for Performing Phase I	Potential property transaction

Failure to provide the above information could result in a determination that 'all appropriate inquiries' are not complete. Additional items should be collected, if available, and provided to AGE.

3.0. RECORDS REVIEW

The purpose of obtaining and reviewing subject property and site vicinity historical, physical setting, and regulatory records is to help identify recognized environmental conditions in connection with the subject property.

3.1. HISTORICAL USE INFORMATION

The objective of consulting historical sources for a Phase I is to develop a history of previous uses of the property and surrounding area to help identify the likelihood of past uses having led to recognized environmental conditions with respect to the property. All obvious uses shall be identified from the present to the property's first obvious developed use, or back to 1940, whichever is earlier. Review of standard sources at less than five-year intervals is not required.

3.1.1. Historical Use Information on Subject Property

Subject property history was researched by reviewing historical Sanborn Fire Insurance Maps (no coverage), aerial photographs, topographic maps, telephone directory information, the Building Department name records, and the Los Angeles County Assessor's Office records.

Based on a review of historical documents, the subject property was utilized for agricultural purposes starting in 1928, or possibly sooner, and extending through sometime between 1963 and 1972. Chemicals associated with agricultural activities may have been used on crops during that time period. However, based upon the length of time the subject site has been void of any agricultural use (50+ years), and expected grading of the soils on the site prior to development, it is highly unlikely detectable levels of residual agricultural chemicals are still present on the subject site.

The subject property is located within the boundaries of the Santa Fe Springs Oil Field. Oil wells were installed on the property in 1922 (at what would become 10850 Koontz Avenue) and 1945 (immediately north of 10819 Koontz Avenue). Both wells produced oil. The well at 10850 Koontz Avenue was abandoned in 1974 under the well abandonment standards in place at that time. The well north of 10819 Koontz Avenue was abandoned in the year 2000 under the standards of the time. There is the potential that these wells will be required to be re-abandoned to current State of California well abandonment standards.

Beginning in the late 1960's, or early 1970's, the subject property was developed for industrial use. Former tenants included transportation, steel manufacturing and hydraulic repair companies. A gas station occupied 10801 Norwalk Boulevard until 1997. Based on historical documents reviewed for this Phase I, gasoline and diesel fuel were stored in underground storage tanks at 10801 Norwalk Boulevard and 10845 Koontz Avenue. Limited quantities of hazardous materials, such as motor oil, antifreeze, and hydraulic fluid, have been used at businesses throughout the subject property history. Further detailed descriptions are below.

Representative historical records are provided within Appendix B.

3.1.1.1. Sanborn Fire Insurance Maps

Sanborn Fire Insurance maps were developed in the late 1800s and early 1900s for use as an assessment tool for fire insurance rates in urbanized areas but are now utilized as a valuable source of historical and environmental risk information. EDR owns the largest collection of Sanborn Fire Insurance Maps. AGE requested EDR to provide any Sanborn Fire Insurance Maps that might cover the subject property. Sanborn Fire Insurance Map coverage is not available for the subject property.

3.1.1.2. Aerial Photographs

AGE reviewed aerial photographs of the subject property and surrounding area that were provided by EDR. AGE also reviewed online (Google Earth) for the years 1928, 1938, 1947, 1953, 1963, 1972, 1977, 1981, 1989, 1994, 2002, 2005, 2009, 2012, 2016 and 2019. The following is a summary of our review of the aerial photographs:

A review of historical aerial photographs did not reveal any items of environmental concern in connection with the subject property with the exception of the oil wells located on the southeastern and northwestern areas of the property, the gas station located at 10801 Norwalk Boulevard, and the heavy industrial use observed on the property.

Year(s)	Subject Property	Surrounding Area
1928, 1938	Agricultural activities were present on the site in 1928 and 1938 aerial photographs. A homestead with a house and barn were present on the northeast portion of the site	Norwalk Boulevard was present as a 2-lane improved road extending along the eastern border of the site. Florence Avenue was present as a 2-lane dirt road extending along the northern border of the site. North, East and West of the property showed agricultural and farming use with homesteads. Properties North, beyond the immediate farming, and northeast were utilized for oil pumping and wells. West - Appeared to have been used for oil production exploration activities. Oil wells could not be identified but large support buildings and equipment were located on the property
1947, 1953	Similar to the previous photographs except two oil wells were visible on the property. One well was located on the southeast portion of the property and the other was located in the northwest portion.	Substantial residential developments were present south of the subject property beyond Lakeland Road. In 1947 oil storage tanks were visible approximately 800 feet east of the subject property. The land use in the surrounding areas to the north, northeast south and west were similar to

Year(s)	Subject Property	Surrounding Area
		the 1947 photo. The adjacent land to the east was in the process of improvement for development. Oil wells and above ground storage tanks could be observed to the east and north of the subject property
1963	Agricultural activities were present on site in the 1963 aerial photograph. A homestead consisting of a house and barn were present on the northeast portion of the site. One active oil well was present in the northwest portion, and another in the southeast portion of the property	North - Developed with commercial buildings. East - Developed with commercial buildings. Additional oil storage tanks were visible approximately 1000 feet to the east. South - Single family residential (track housing). West - Large building that appeared to be used for industrial purposes
1972,1977,1981,1998	All structures currently on the subject property were present in the 1972 photograph except for the building at 10859 Norwalk Boulevard and the portable building at 10825 Norwalk Boulevard. The property at 10859 Norwalk Boulevard was vacant in the 1972 photograph. All structures stood as they currently do in the 1977 aerial photo. The property at 10801 Norwalk Boulevard was developed with a single structure and a visible fuel dispenser island. The property at 10825 Norwalk Boulevard had a single building with the remainder of the property used for storage and parking. The property at 10845 Norwalk Boulevard, had a single building visible with the remainder of the parcel for storage and parking. The property at 10859 Norwalk Boulevard was vacant in the 1972 photograph. By 1977, a single structure had been developed on the parcel with the remainder of the parcel used for parking and storage. The property at 10858 Koontz Avenue was developed with a single building and related parking and storage areas. There appeared to be some equipment in the southeast corner of the parcel The property at 10850 Koontz Avenue had two large AST's and no structures. The eastern portion of the property at 12120 Florence Avenue was developed	Surrounding areas appeared similar to the 1963 aerial photograph. The property approximately 1,000 feet east of the subject property was a large tank farm. The land approximately 1000 feet west of the subject property was developed as a golf course. The 1989 photo depicts the adjacent land to the northeast developed with warehouse type buildings.

Year(s)	Subject Property	Surrounding Area
1972,1977,1981,1998	with a single large building and the rest of the parcel was used for storage. The western portion of 12120 Florence Avenue had an oil well, which was surrounded by unpaved land. The property at 10819 Koontz Avenue had a single building with the remainder of the property a paved area. In the 1989 photo the undeveloped portion of the parcel was covered by a canopy. The property at 10859 Koontz Avenue had a small building and a loading dock. The rest of the property is used for truck parking	
1994, 2002, 2005, 2009, 2012, 2016	In the 2002 photo, the oil well in the northwest portion of the property is no longer visible as well as the fuel island at 10801 Norwalk Boulevard. In 2009, the AST's at 10850 Koontz Avenue were no longer present. No other significant changes to the subject property were observed.	The surrounding areas appeared similar to the previous photos. By 2009, some of the tanks had been removed from the tank farm to the east of the subject property.
2019 (Google Earth)	The subject property can be observed as it is presently.	The surrounding areas are similar to the previous photos except the tank farm to the east has been replaced with large warehouse buildings.

3.1.1.3. Historical Topographic Maps

AGE reviewed historical topographic maps of the subject property and surrounding area that were supplied by EDR for the years 1896, 1899, 1902, 1923, 1925, 1942, 1943, 1947, 1949, 1951, 1965, 1972, 1981 and 2012. The following is a summary of our review of the topographic maps:

Year(s)	Subject Property	Surrounding Area
1896, 1899, 1902	The subject property was depicted as being undeveloped. Two residences were depicted on the northeast portion of the site adjacent to Norwalk Boulevard, which forms the eastern border of the site	The surrounding area was depicted as a rural area with scattered residences. Roads bordered the subject property to the north and east and continue in a grid pattern oriented towards and perpendicular to the north. The closest population center was depicted 2,200 feet to the northeast. Southern Pacific Railroad was depicted as 2,850 feet to the west extending in a north-south direction and the Los Angeles Railroad was depicted 3,600 feet east of the subject site. Norwalk Boulevard extended along the eastern boundary of the site and Florence Avenue extended along the northern border of the Site.
1923, 1925	The subject property was still depicted as having two residences on the northeast	The surrounding area was depicted as having a profusion of oil wells. The oil wells were

Year(s)	Subject Property	Surrounding Area
	portion of the site with the addition, in the 1923 map and 1925 map, of a depiction of an oil well on the southeast of the property.	concentrated to the north of the subject property with some wells scattered throughout the area. The 1923 map identified "Fulton Wells" to the northwest of the subject property and bears a generic "oil wells" label to the to the northeast of the subject property. Norwalk Boulevard is labeled "Norwalk and Puente Mills Road" while Florence Avenue is labeled "Little Lake Road". The roads show little change between the 1923 map and older maps. Norwalk Sate Hospital is depicted 2,560 feet to the southeast.
1942, 1943, 1947	There was no change in this depiction of the subject property between the 1947 map and older maps	The surrounding area showed an increase in houses with the densest areas growing 1.5 miles to the south and 1.4 miles to the southeast. Oil wells dominated the landscape to the north and east of the subject property, outnumbering depicted houses and structures. Roads were depicted in the same configuration but were not labeled.
1949, 1951	The subject property was depicted without structures. An oil well was depicted in the northwest portion of the subject property and a second one was depicted in the southeast portion of the property	A building labeled "Absorption Plant" was depicted on the property adjacent to the west of the subject property. An oil refinery was depicted 700 feet to the east of the subject property across Norwalk Boulevard. A gas plant was depicted 1,200 feet to the northeast of the subject property. A housing development was depicted 1,625 feet south of the subject property. Oil wells were still depicted throughout the region, especially to the north and northeast of the subject property. Norwalk Boulevard was labeled "Norwalk Boulevard" while Florence Avenue was still labeled "Little Lake Road".
1965	The subject property showed no change between the 1951 and the 1965 maps.	The area around the subject property was depicted as significantly more developed in the 1965 map compared to older maps. The property adjacent to the subject property to the west was depicted with a cluster of buildings and was labeled Rio Hondo Jr. College. Two buildings were on the property adjacent to the subject property to the south. Norwalk Boulevard was labeled "Norwalk Boulevard" and Florence Avenue was labeled "Florence Avenue". The I-5 freeway was depicted 4,300 feet to the southwest of the subject property running in a northwest -southeast orientation. The area to the north and northeast was still dominated by oil wells with the label "Oil Field" appearing to the northeast.
1972, 1981	The subject property was depicted with six buildings. They included the building at the 10845 Norwalk Boulevard, and the buildings at 10819, both buildings at 10845, and 10858 Koontz Avenue, as well as 12120 Florence	The surrounding property land use showed no change between the 1965 map and the 1981 map.

Year(s)	Subject Property	Surrounding Area
	Avenue. A UST was depicted at 10801 Norwalk Boulevard. One oil well was depicted in the northwest portion of the subject property and another oil well was depicted in the southeast portion of the subject property	
2012	The 2012 topographic map had no buildings or oil well depictions on it.	The surrounding areas depicted in the 2012 map were similar to what it is at the present time.

A review of historical topographic maps did not reveal any items of environmental concern in connection with the subject property with the exception of the oil wells.

3.1.1.4. Street Directories

AGE requested that EDR provide a review of city and street directories to determine the occupancy history of the property at approximately five-year intervals for the years spanning 1920 through 2014.

The subject property addresses were identified in the years 1990, 2006, 2010 and 2014. The following is a summary of the city directory search:

Year(s)	Directory Listing Summary
1920 – 1908	Subject Property addresses: 10801 Norwalk Boulevard, 10825 Norwalk Boulevard, 10859 Norwalk Boulevard, 10819 Koontz Avenue, 10845 Norwalk Boulevard, Koontz Avenue, 10850 Koontz Avenue, 10858 Koontz Avenue, and 12120 E Florence Avenue not listed Adjacent Property addresses: 10747 Norwalk Boulevard, 10810 Norwalk Boulevard, 10820 Norwalk Boulevard, 10826 Norwalk Boulevard, 10840 Norwalk Boulevard, 10850 Norwalk Boulevard, 10858 Norwalk Boulevard, 10915 Norwalk Boulevard, 12046 Florence Avenue, 12078 Florence Avenue, and 12147 Lakeland Road not listed.
1981	Subject Property addresses: 10801 Norwalk Boulevard, 10825 Norwalk Boulevard, 10845 Norwalk Boulevard, 10859 Norwalk Boulevard, 10819 Koontz Avenue, 10845 Koontz Avenue, 10850 Koontz Avenue, 10858 Koontz Avenue, and 12120 E Florence Avenue not listed. Adjacent property address: 10820 Norwalk Blvd - MOON EQUIP CO Adjacent Property addresses: 10747 Norwalk Boulevard, 10810 Norwalk Boulevard, 10826 Norwalk Boulevard, 10840 Norwalk Boulevard, 10850 Norwalk Boulevard,10858 Norwalk Boulevard, 10915 Norwalk Boulevard, 12046 Florence Avenue, 12078 Florence Avenue, and 12147 Lakeland Road not listed.

Year(s)	Directory Listing Summary
1990	Subject Property addresses: 10801 Norwalk Boulevard, 10825 Norwalk Boulevard, 10859 Norwalk Boulevard, 10819 Koontz Avenue, 10845 Koontz Avenue, 10850 Koontz Avenue, 10858 Koontz Avenue, and 12120 E Florence Avenue not listed. Adjacent Property addresses: 10747 Norwalk Boulevard, 10810 Norwalk Boulevard, 10820 Norwalk Boulevard, 10826 Norwalk Boulevard, 10840 Norwalk Boulevard, 10850 Norwalk Boulevard, 10858 Norwalk Boulevard, 10915 Norwalk Boulevard, 12046 Florence Avenue, 12078 Florence Avenue, and 12147 Lakeland Road not listed
2006	Adjacent Property addresses 10820 Norwalk Boulevard, 10840 Norwalk Boulevard, 10915 Norwalk Boulevard, 12046 Florence Avenue, and 12147 Lakeland Road not listed.
2010	Subject property addresses: 10801 Norwalk Blvd - COUSINS CARPET INC., 10801 Norwalk Blvd - GTD INC, 10801 Norwalk Blvd - MULTI CERAMIC, 10859 Norwalk Blvd - MAKO EQUIPMENT LLC, 10845 Koontz Ave - MJB FREIGHT SYSTEMS INC, 10858 Koontz Ave - LENPAR ROLLING CO INC, 10858 Koontz Ave - ROUFS MACHINE CO INC, 12120 Florence Ave - PARAMOUNT ROLL FORMING CO INC, 12120 Florence Ave - SANTA FE ROLL & FORMING, 12120 Florence Ave - PARAMOUNT STEEL SERVICES INC. Subject Property addresses: 10825 Norwalk Boulevard, 10845 Norwalk Boulevard, 10819 Koontz Avenue, and 10850 Koontz Avenue not listed. Adjacent property addresses: 10747 Norwalk Blvd - REVCO INDUSTRIES, 10747 Norwalk Blvd - WESTERN GLOVE MANUFACTURING, 10810 Norwalk Blvd - HUNGRY BOY BURGERS, 10820 Norwalk Blvd - MOON EYES USA INC, 10826 Norwalk Blvd - VALVE-TECH CORPORATION, 10826 Norwalk Blvd - SOUTHWEST CONCRETE TESTING, 10840 Norwalk Blvd - CENTURY REINFORCING INC, 10840 Norwalk Blvd - PACIFIC COAST STEEL, 10840 Norwalk Blvd - CENTURY STEEL HOLDINGS INC, 10850 Norwalk Blvd - RB PAINT & BODY CENTER, 10858 Norwalk Blvd - QUALITY LIFT AND EQUIPMENT, 10910 Norwalk Blvd - FINAL FINISH INC 10915 Norwalk Blvd – HOLIDAY, 12078 Florence Ave - VESTCOM ST LOUIS INC, 12078 Florence Ave - COMPUTER GRAPHICS SOLUTIONS Adjacent Property addresses 12046 Florence Avenue and 12147 Lakeland Road not listed.
2014	Subject Property addresses 10801 Norwalk Blvd - GTD INC., 10845 Norwalk Blvd - ENTERPRISES WESTCST 10859 Norwalk Blvd - MAKO EQUIPMENT LLC

Year(s)	Directory Listing Summary
	10819 Koontz Ave - LA HABRA WELDING INC 10845 Koontz Ave - MJB FREIGHT SYSTEMS INC 10858 Koontz Ave - LENPAR ROLLING CO INC 10858 Koontz Ave - ROUFS MACHINE CO INC 12120 Florence Ave - PARAMOUNT ROLL FORMING CO INC Neighboring Properties: 10747 Norwalk Blvd - REVCO INDUSTRIES 10747 Norwalk Blvd - WESTERN GLOVE MANUFACTURING 10810 Norwalk Blvd - HUNGRY BOY BURGERS 10820 Norwalk Blvd - RADIR WHEELS INC 10820 Norwalk Blvd - MOON EYES USA INC 10826 Norwalk Blvd - ROAD & SKY USA 10840 Norwalk Blvd - GERDAU REINFORCING STEEL 10840 Norwalk Blvd - OIL WELL SERVICE COMPANY 10850 Norwalk Blvd - RB PAINT & BODY CENTER 10910 Norwalk Blvd - FINAL FINISH INC 10915 Norwalk Blvd - HOLIDAY 12078 Florence Ave - VESTCOM ST LOUIS INC Subject Property addresses: 10825 Norwalk Boulevard and 10850 Koontz Avenue not listed. Adjacent Property addresses: 10858 Norwalk Boulevard, 12046 Florence Avenue, and 12147 Lakeland Road not listed

A review of historical telephone directory listings of the subject property addresses, and adjoining property addresses revealed that a former a gas station was located at 10801 Norwalk Boulevard (Currently occupied by Silverio Party Supply). In addition, there was long term heavy industrial uses at the addresses on the subject property. A review of historical telephone directory listings did not reveal any items of environmental concern in connection with adjoining properties.

3.1.1.5. Building Department Records

A review of Santa Fe Springs Building Department records was conducted by AGE for the subject property addresses. Pertinent records are summarized below:

Year(s)	Summary
No Year Listed	10845 Norwalk Boulevard - Permit application to construct a foundation for ASTs by Industrial Fuel 10845 Koontz Avenue – Permit Application for 10,000-gallon Diesel UST with pumps by Roy Miller Freight 10845 Koontz Avenue – Permit Application to install interceptor by Hathaway Oil
1968	Permit for building construction at 10855 Koontz Avenue.
1970	Tank permit application for Shell Station at 10801 Norwalk Blvd.

A review of historical public building records of the subject property addresses revealed several permits for the construction of a gas station and installation and removal of underground storage tanks at 10801 Norwalk Boulevard (current occupant Silverio Party Store) and for an interceptor at 10845 Koontz Avenue (current occupant MJB Freight).

3.1.1.6. Assessor's Records

A review of parcel ownership records at the Los Angeles County Assessor's records indicates the property has been owned by 'Hathaway Co. Inc.' since at least 1968.
The reviewed assessor information did not reveal any environmental concerns with the property.

3.1.1.7. Previous Phase I and II Environmental Site Assessments

No previous Phase I or II Environmental Site Assessments were provided to AGE by the user and/or property owner during the course of this Phase I.

3.1.2. Historical Use Information on Adjoining Properties

Historical uses of immediately adjoining properties are summarized below.

North	Florence Avenue has bordered the subject property since 1896, or earlier, and was previously identified as 'Little Lake Road' through the early 1960's. Extending north of Florence Avenue the land was utilized for agricultural activities until the late 1950's or early 1960's when the land was developed with commercial/industrial properties. Numerous oil wells had also been located in the areas north and northeast of the property.
South	This area has been utilized for agricultural activities from at least the 1920's until the early 1950's when it was developed for residential use.
West	This area was utilized for oil production from the 1930's through at least the 1950's. In addition, there was industrial use from at least the early 1960's through the present.
East	Norwalk Boulevard has bordered the subject property since 1896 or earlier having been named 'Norwalk And Puente Hills Road' until the early 1940's. Beyond Norwalk Boulevard to the east the land had historically been used for agricultural purposes until the 1920's. Commercial and industrial development, including oil refining occurred in the 1930's through the 1960's and 1970's.

Historical uses of adjoining properties for over 50 years have been primarily utilized for industrial and commercial use. These industrial uses, especially prior environmental regulations taking place in the late 1970's and early 1980's, may contribute to both soil and ground water contamination of adjoining properties. Several of which have been documented.

3.2. PHYSICAL SETTING

Geology	The subject property is situated within the Peninsular Range Geomorphic Province of California, which is characterized by northwest-trending topographic and structural features. The Peninsular Range province is bound by the Transverse Range province to the north and the Colorado Desert province to the west. The inland part of the Peninsular Range province consists of numerous mountain ranges that are composed predominantly of igneous and metamorphic rocks of Mesozoic and Paleozoic age. An irregular coastal plain is located on the western edge of the province (including the Los Angeles Coastal Plain) which is composed predominantly of marine and non-marine clastic deposits of Upper Cretaceous, Tertiary and Quaternary age [California Division of Mines (CDM), 1954]. The subject property is located within the structurally-controlled Los Angeles Basin. The Los Angeles Basin trends to the northwest with an axis that extends 50 miles and a width of approximately 20 miles. This basin is bound to the northeast by the Puente Hills, to the east and southeast by the Santa Ana Mountains and San Joaquin Hills and on the southwest by the Palos Verdes Hills and the Pacific Ocean. The Los Angeles Basin was a large marine embayment during the Miocene which extended as far inland as Pasadena and Pomona and merged with the Ventura Basin. By the Pliocene, the embayment was smaller and generally covered an area slightly larger than the present-day lowlands. Subsequent regressions of the coast line, as well as uplift, have exposed the current basin. The sedimentary deposits in the basin since the Miocene are reportedly as thick as 40,000 feet (CDM, 1954). The subject property is located within the Santa Fe Springs Oil Field, a fully operational, extensive oil field that was discovered in the 1920s. According to the Department of Oil Gas and Geothermal Resources (DOGGR), wells have been drilled to the adjacent north, south and west of the subject property, in addition to two abandoned wells on the subject property.
Hydrology	The subject property and surrounding area lie within the Coastal Plain of Los Angeles Groundwater Basin, Central Subbasin (4-11.04). The Central Subbasin occupies a large portion of the southeastern part of the Coastal Plain of Los Angeles Groundwater Basin. This subbasin is bounded on the north by a surface divide called the La Brea high, and on the northeast and east by emergent less permeable Tertiary rocks of the Elysian, Repetto, Merced and Puente Hills. The southeast boundary between Central Basin and Orange County Groundwater Basin roughly follows Coyote Creek, which is a regional drainage province boundary. The southwest boundary is formed by the Newport Inglewood fault system and the associated folded rocks of the Newport Inglewood uplift. The Los Angeles and San Gabriel Rivers drain inland basins and pass across the surface of the Central Basin to the Pacific Ocean. Throughout the Central Basin, groundwater occurs in Holocene and Pleistocene age sediments at relatively shallow depths. Based on information obtained from the State of California's Geotracker database at a site located approximately 500 feet north, and data from wells located adjacent to the property, depth to groundwater is reported at approximately 90 and 110 feet below surface grade (bsg) flowing towards the south-southwest.
Topography	The property is located at an elevation of approximately 132 feet above mean sea level (MSL), in an area of low topographic relief. Regional slope of the area is toward the general southwest
Surface Soils	EDR provides a report listing dominant soil composition in the general area of the subject property as URBAN LAND, a variable texture soil in an unreported hydrogeologic group. Corrosion potential of this soil for uncoated steel is not reported from the United States Department of Agriculture's Soil Conservation Service STATSGO (State Soil Geographic Database) soil maps.
Surface Water Features	There are no surface water features on the subject property. The nearest surface water feature in the vicinity of the subject property is the San Gabriel River, located approximately 1.75 miles to the west of the subject property.

Flood Zone	The EDR database report shows that the subject property is not located within either a 100-year or 500-year Flood Zone. This data, available in select counties across the country, was obtained by EDR from the Federal Emergency Management Agency (FEMA) which has maps depicting FEMA-defined 100-year and 500-year flood zones.
Wetlands	The EDR database report shows that the subject property is not located within the National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR from the U.S. Fish and Wildlife Service.

3.3. STANDARD ENVIRONMENTAL RECORD SOURCES

A computer search of federal, state and regional regulatory agency databases was performed by Environmental Data Resources Inc. (EDR), a data retrieval company, to identify and locate properties in areas of concern that have been reported as sites known or suspected to contain underground storage tanks, or to have been the scene of hazardous materials spills. Additionally, sites permitted to manufacture, utilize, generate, store, treat or dispose of hazardous materials and/or hazardous wastes are identified and located. A list and description of databases investigated, in compliance with ASTM E1527-13 and USEPA AAI, is included in EDR Report provided in Appendix C.

3.3.1. SUBJECT PROPERTY DATABASE SEARCH

Subject property addresses 10801 - 10859 Norwalk Boulevard, 10819 - 10858 Koontz Avenue, and 12120 Florence Avenue, Santa Fe Springs, California was listed on the following governmental databases in the EDR Report:

Site Name:	BROTHERS AUTO (Currently occupied by Silverio's Party Supply, 10801 Norwalk Boulevard)
Databases:	LUST, CERS, LOS ANGELES CO. HMS, RGA LUST, EDR Hist Auto, FINDS, HIST CORTESE, HIST UST, SWEEPS UST, CA FID UST
Comments:	Gasoline leak from an underground storage tank with impact to soil. Case was closed in 1999.

Site Name:	TEXACO GAS AND FOOD STOP (Currently occupied by Silverio's Party Supply, 10801 Norwalk Boulevard)
Databases:	HAZNET
Comments:	Facility had a treatment tank and unspecified aqueous solution on site.

Site Name:	QUALITY LIFT & EQUIPMENT INC (Current occupant, 10845 Norwalk Boulevard)
Databases:	CERS HAZ WASTE, CERS, CHMIRS, RCRA NonGen / NLR, FINDS, ECHO
Comments:	Company has received citations for administrative and housekeeping violations related to the storage of used oil.
Site Name:	PETROLANE GAS SERVICE (Currently occupied by Quality Lift, 10845 Norwalk Boulevard)
Databases:	LOS ANGELES CO. HMS, HAZNET
Comments:	Facility had a treatment tank and unspecified aqueous solution on site.

Site Name:	MAKO EQUIPMENT (Current occupant, 10859 Norwalk Boulevard)
Databases:	FINDS, ECHO, RCRA NonGen / NLR, CERS, CERS HAZ WASTE
Comments:	Facility is not listed as a generator of hazardous waste. Facility has received citation for administrative violations related to the storage of used oil.

Site Name:	1X RALPH HOROWITZ (Currently occupied by Mako Equipment, 10859 Norwalk Boulevard)
Databases:	HAZNET
Comments:	Facility historically disposed of unspecified oil containing waste.

Site Name:	RUPE'S HYDRAULICS (Currently occupied by Mako Equipment, 10859 Norwalk Boulevard)
Databases:	HAZNET
Comments:	The facility has historically generated and disposed of organic solids, aqueous solutions with total organic residues less than 10 percent, and liquids with halogenated organic compounds >= 1,000 mg/L

Site Name:	LENPAR ROLLING INC. (Current occupant, 10858 Koontz Avenue)
Databases:	CERS, FINDS
Comments:	Facility is not listed as a generator of hazardous materials.

Site Name:	ROUFS MACHINE COMPANY INC (Current Occupant, 10858 Koontz Avenue)
Databases:	RCRA NonGen / NLR, FINDS, ECHO, CERS, CERS HAZ WASTE
Comments:	Roufs Machine Company is not listed as a generator of hazardous waste however they do store small quantities of used motor oil. They have received minor citations of administrative violations for improper hazardous materials labeling.

Site Name:	PARAMOUNT ROLL & FORMING INC (Current occupant, 12120 Florence Avenue)
Databases:	RCRA NonGen / NLR, CERS
Comments:	Facility stores but does not generate hazardous waste.

Site Name:	CAL FAB DIV (Currently occupied by Paramount Rolling, 12120 Florence Avenue)
Databases:	CERS HAZ WASTE, NPDES, CERS, CIWQS
Comments:	Facility historically generated unlisted hazardous material.

Site Name:	LA HABRA WELDING INC. (Current occupant and shares space with Paramount Rolling, 10819 Koontz Avenue)
Databases:	FINDS, ECHO, CERS, RCRA NonGen / NLR
Comments:	Facility stores but does not generate hazardous waste.

Site Name:	STARLITE WELDING (Currently occupied by La Habra Welding, 10819 Koontz Avenue)
Databases:	LOS ANGELES CO. HMS
Comments:	Site has a status listed as 'closed.'

Site Name:	MJB FREIGHT SYSTEMS (Current occupant, 10845 Koontz Avenue)
Databases:	CERS
Comments:	Facility stores motor oil. Facility has been cited for an administrative violation regarding the storage of used oil filters.
Site Name:	ROY MILLER FREIGHT LINES INC (Currently occupied by MJB Freight, 10845 Koontz Avenue)
Databases:	HAZNET, LOS ANGELES CO. HMS
Comments:	An in-ground oil-water separator is permitted at this address.

It should be noted that government agency records pertaining to sites may remain on file for years and may not be representative of the current environmental status of the site. In addition, listings of the addresses and current occupants of a site provided by the regulatory agencies may not be accurate.

3.3.2. Site Vicinity Database Search

Sites with recognized environmental conditions surrounding the subject property are typically of concern to the subject property when they are located in an up-gradient direction from the property with respect to the ground water flow direction. Typically, groundwater would represent the migration medium for contaminants over significant distances. Sites located in equi-gradient or down-gradient directions from the subject property are less likely to impact the subject property.

AGE retained EDR to provide current regulatory database information compiled by a variety of federal and state regulatory agencies. A copy of the complete database is included in Appendix C. The following information was obtained:

Type	Regulatory Agency Database	AMSD	Number of Site within the AMSD
Federal	National Priority List Sites: **NPL, Proposed NPL, NPL LIENS**	1mile	1
Federal	Delisted National Priority List Sites: **Delisted NPL**	½ -mile	0
Federal	Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Sites: **FEDERAL FACILITY, SEMS**	½ -mile	2
Federal	CERCLIS No Further Remediation Action Planned (NFRAP) Sites: **SEMS-ARCHIVE**	½ -mile	5
Federal	Resource Conservation and Recovery Act (RCRA) Corrective Action Report Sites: **CORRACTS**	1-mile	1
Federal	RCRA Non-CORRACTS Treatment, Storage, or Disposal (TSD) Sites: **RCRA-TSDF**	½ -mile	2
Federal	RCRA Generator Sites: **RCRA-LQG, RCRA-SQG, RCRA - CESQG**	½ -mile	19
Federal	Institutional Control/Engineering Control Registry Sites: **LUCIS, US ENG CONTROLS, US INST CONTROL**	½ -mile	1
Federal	Environmental Response and Notification System Sites: **ERNS**	<1/8-mile	0
State & Tribal	Equivalent to NPL: **RESPONSE**	1-mile	1
State & Tribal	Equivalent to CERCLIS: **ENVIROSTOR**	1-mile	19
State & Tribal	Solid Waste Disposal Facilities and/or Landfill Sites: **SWF/LF**	½ -mile	2

Type	Regulatory Agency Database	AMSD	Number of Site within the AMSD
State & Tribal	Leaking Storage Tank Sites: **LUST, INDIAN LUST, SLIC**	½ -mile	25
State & Tribal	Registered Storage Tank Sites: **FEMA UST, UST, AST, INDIAN UST**	¼-mile	7
State & Tribal	Voluntary Cleanup Sites **INDIAN VCP, VCP**	½ -mile	1
State, Tribal and Local	Brownfield Sites: **BROWNFIELDS, US BROWNFIELDS**	½ -mile	0
Local	Registered Storage Tank Sites: **SWEEPS UST, HIST UST, CA FID UST**	¼-mile	19
Local	Dry Cleaning Facility Sites: **DRYCLEANERS**	¼-mile	0
Either	Unmappable Database Listings: **orphan sites**	Database dependent	0

AMSD: Appropriate Minimum Search Distance

AGE's review of the referenced databases also considered the potential or likelihood of contamination from adjoining and nearby sites. To evaluate which of the adjoining and nearby sites identified in the regulatory database report present an environmental risk to the subject property, AGE considered the following:

- The type of database on which the site is identified;
- The topographic position of the identified site relative to the subject property;
- The direction and distance of the identified site from the subject property;
- Local soil conditions in the subject property area;
- The known or inferred groundwater flow direction in the subject property area;
- The status of the respective regulatory agency-required investigation(s) of the identified site (if any); and
- Surface and subsurface obstructions and diversions (e.g., buildings, roads, sewer systems, utility service lines, rivers, lakes and ditches located between the identified site and the subject property.

Only those sites that are judged to present a potential environmental risk to the subject property and/or warrant additional clarification are further evaluated. Using the referenced criteria and based on a review of readily available information contained within the regulatory database report, AGE did not identify adjacent or nearby sites (e.g. within ¼-mile radius) listed on the regulatory database report that were judged to present a potential environmental risk to the subject property with the exception of the following:

Site	Distance	Direction	Database(s) & Summary	Environmental Concern
OMEGA CHEMICAL SITE - Regional	Located approximately 3	N/A	NPL – Omega Chemical Corporation is a former	Potential - Based on the location of the PCE

Site	Distance	Direction	Database(s) & Summary	Environmental Concern
Groundwater Plume	miles north of the subject property, with plumes extending under subject property and beyond.		hazardous waste treatment and storage facility. In 1995 the facility was found to be illegally disposing of hazardous materials and is responsible for a large VOC plume in the groundwater in the region.	groundwater plume beneath the property. This site is further discussed in Section 3.4.2.
CITY OF SANTA FE SPRINGS – Little Lake Village Housing Redevelopment site, Fulton Wells Ave./ Florence Ave.	Adjacent	West (Cross gradient	CPS-SLIC - Benzene, PCE, toluene, TCE, and xylene associated with a natural gas processing plant historically located in area has affected the property.	Potential - based on proximity to subject property. This site is further discussed in Section 3.4.2.
CONTINENTAL HEAT TREATING, 10643 Norwalk Blvd.	623 feet	North (up-gradient)	CPS-SLIC – Listed as an open VOC release site affecting groundwater.	Potential – Based on up gradient position to subject property and known impact to groundwater. This site is discussed further in Section 3.4.2.
SUPERIOR OIL TOOL, 12180 Florence Ave.	20 feet	North (Up Gradient)	LUST - Close diesel fuel release site affecting soil.	No indication - Based on regulatory status and media affected.
CHARLES L GODBEY, 10840 Norwalk Blvd.	114 feet	East (Cross gradient	LUST – Closed aviation fuel release site affecting soil.	No indication - Based regulatory status and media affected.
TRANSIT MIXED CONCRETE COMPANY, 12222 Florence Ave.	292 feet	East (Cross gradient	LUST - Closed diesel fuel release site affecting Groundwater.	No indication - based on distance and direction from subject property.

Information provided on the GeoTracker web site (http://geotracker.waterboards.ca.gov/) was utilized to validate information provided in the EDR report reviewed in the above section

3.4. ADDITIONAL ENVIRONMENTAL AGENCY RECORD SOURCES

In addition to the EDR computer search of federal, state and regional regulatory agency databases, AGE contacted appropriate regulatory agencies to review records regarding the property and surrounding sites identified as having recognized environmental conditions that have the potential to impact the subject property based on ground water flow direction, distance from the subject property and nature of the releases causing the environmental condition.

Additional agency searches include the following:

- Los Angeles Regional Water Quality Control Board (Regional Board) maintain records of industrial violations for this area and are the lead agencies for the enforcement of the State Underground Storage Tank and Hazardous Waste Laws for Los Angeles County. AGE requested to review any files that were available.
- The Regional Board also maintains and online computer database, GeoTracker, that provides listings of closed and active sites related to unauthorized releases of hydrocarbons as well as solvents, metals, and other materials. For listed sites, online reports are commonly available. AGE reviewed the GeoTracker database for information that may be available for the subject property or surrounding sites.
- The California Department of Toxic Substances Control (DTSC) is the State of California agency responsible for oversight of hazardous waste regulations, cleanup of existing contamination, pollution prevention and reduction in hazardous waste and toxic materials and identification of potential new pollutants. The DTSC maintains the EnviroStor Data Management System (ENVIROSTOR) which allows for the search for information on investigation, cleanup, permitting and/or corrective actions that are planned, being conducted or have been completed under DTSC oversight. AGE reviewed the ENVIROSTOR database for any information that may be available.
- The United States Environmental Protection Agency (USEPA) provides an online computer database, ENVIROFACTS, providing lists of sites listed on multiple USEPA databases. AGE reviewed the ENVIROFACTS database for any information that may be available.
- South Coast Air Quality Management District (SCAQMD) — The SCAQMD is the air pollution control agency for all of Orange County and the urban portions of Los Angeles, Riverside and San Bernardo counties.
- Santa Fe Springs Fire Department (SFSFD) is the emergency responder for the Santa Fe Springs, and issues hazardous materials permits. The SFSFD was contacted by AGE to determine if they had any permit, inspection and/or violation records for the subject property.
- Division of Oil, Gas and Geothermal Resources (DOGGR) maintains a website, DOGGR Online Mapping (DOM) system, allowing for the search of oil and gas related information. AGE reviewed the DOM system for any oil and gas information in the vicinity of the property.

3.4.1. Additional Subject Property Record Sources

The subject property address was searched on the following record sources:

SOURCE	SUMMARY
Regional Board & GeoTracker Database	Property address of 10801 Norwalk Boulevard was listed on the GeoTracker database as a closed LUST from a gasoline release to the soil. However, no additional files were available for review from the Regional Board.
DTSC & ENVIROSTOR database	Property addresses are not listed on the ENVIROSTOR database and did not have any records on-file with the DTSC.
USEPA ENVIROFACTS	Property address of 12120 Florence Avenue was listed on the ENVIROFACTs database in relation to the Industrial Storm Water Permit, hazardous waste storage, and hazardous waste transport for Paramount Roll and Forming. Also, 10819 Koontz Avenue in relation to the hazardous waste storage and transport by La Habra Welding, and 10845 Norwalk Avenue in relation to the hazardous waste storage and transport by Quality Lift & Equipment.
SCAQMD FIND	Property addresses were not identified as having records on-file with SCAQMD FIND
SFSFD	Property addresses of 10801 Norwalk Boulevard, 10825 Norwalk Boulevard, 10845 Norwalk Boulevard, 10859 Norwalk Boulevard, 10819 Koontz Avenue, 10845 Koontz Avenue, 10858 Koontz Avenue, and 12120 East Florence Avenue were identified as having records on-file with the SFSFD. Records are summarized below.
DOM System	According to the DOM System, two abandoned oil wells are on the subject property: "Jalk" 5, API 037-15483, Sec. 6, T. 3S, R. 11W, S.B. B&M, Santa Fe Springs Field, abandoned in1974; "Jalk" 119, API 037-15492, Section 6, T. 3S, R. 11W, S.B. B&M, Santa Fe Springs Field, abandoned in 2000. Copies of the well records are attached in Appendix C.

SFSFD RECORDS

An Underground Storage Tank Unauthorized Release Contamination Site Report, an underground storage tank permit application, and a Closure Permit Sampling Supplement indicate that a UST was removed and found to have leaked at 10801 Norwalk Boulevard (currently occupied by Silverio Party Supply). Testing of the soil by Cal-Vac Environmental Services in 1998 indicated concentrations of benzene between 0.2 and 11.2 milligrams per killigram (mg/kg), toluene at concentrations between 2 mg/kg and 96 mg/kg, ethylbenzene at concentrations between 0.76 mg/kg and 15 mg/kg, xylenes at concentrations between 8.7 mg/kg and 370 mg/kg, MTBE at concentrations between 7.5 mg/kg and 100mg/kg, and total petroleum hydrocarbons as gasoline (TPH-g) at concentrations between 100 mg/kg and 5,900 mg/kg. These concentrations exceed the current standards, or environmental screening levels (ESLs) of 0.25 mg/kg for benzene, 3.2 mg/kg for toluene, 0.43 mg/kg for ethylbenzene, 2.1 mg/kg for xylenes, 0.028 mg/kg for MTBE, and 100 mg/kg for TPH-g as set out by the San Francisco Bay Regional Water Quality Control Board Tier 1 ESLs. A soil vapor survey prepared by EnviroManagement Managers & Auditors, Inc. in May of 2004 found no methane at detectable levels in the soil vapor at 10801 Norwalk Boulevard (currently occupied by Silverio Party Supply).

Property diagrams and a letter noting the continued presence of two underground storage tanks dated 5/27/1992 indicate the historical presence of UST's at 10845 Koontz Ave (currently occupied by MJB Freight). A report by HVN Environmental Services Co, Inc. dated 2/27/1996 detailed soil sampling that took place during the removal of the two, 10,000-gallon UST's and

recorded that one was used for diesel and one was used for gasoline. The results of the soil sample analysis found no petroleum hydrocarbons or volatile organic compounds at detectable concentrations.

A SFSFD Inspection Notice of Violation notes the presence of an uncapped clarifier at 10845 Koontz Ave (currently occupied by MJB Freight) on 10/2/2002.

Other records pertaining to the subject property are summarized below:

10801 Norwalk Boulevard (Currently occupied by Silverio Party Supply)

- May 1996 - Industrial Waste Disposal Permit
- February 1984 - SFSFD UST Permit June 1998 - UST Permit application
- September 1988 - SFSFD UST Permit
- March 1989 - City of Los Angeles Department of Health Services Hazardous Waste Control Program site inspection
- December 1992 - MSDS sheets for Gasoline and Diesel
- June 1993 - HazMat Emergency Incident Repot regarding a full, unlabeled 55-gallon drum that was found abandoned on the sidewalk
- 1998 - UST Unauthorized Release Contamination Site Report, UST Permit application, Closure Permit Sampling Supplement, and a UST Removal Soil Sampling Report as described above
- March 1999 - UST Unauthorized Release Site Report February 1999 - Notice of receipt of UST Removal Report
- April 2004 - Soil Vapor Survey for Methane Concentrations stating methane was not detected above laboratory detection limits
- November 2005 - Statement of Intended Use stating floor covering material retail
- April 2008 - Notice of Intended Use stating Ceramic and Porcelain Tile Retail
- December 2018 - Certificate of Compliance for propane tanks January 2019 - Notice of violation regarding propane tanks

10825 Norwalk Boulevard (Currently occupied by West Coast Enterprises)

- January 2013 - Statement of Intended Use stating Used Truck Sales with no repairs on site
- August 2016 - SFSFD Inspection Report with violation for expired fire extinguisher tag

10845 Norwalk Boulevard (Currently occupied by Quality Lift)

- January 1967 - Industrial Waste Survey, identifying a 338-gallon gasoline AST April 1969
- October 1993 - Industrial Waste Discharge Permit to discharge wastewater related to shop floor washdown to the public sewer

- January 1998 - Notice of Requirement of upgrades to on-site propane tank
- November 2001 - Notice of violation related to storage of hazardous materials without a permit
- December 2001 - SFSFD Statement of Intended Use form describing business use as Vehicle Maintenance
- April 2005 - Industrial Waste Discharge Permit to discharge wastewater related to shop
- floor washdown to the public sewer
- July 2012 - Certificate of compliance
- December 2012 - Statement of Intended Use describing business as HR consulting July 2014 - SFSFD Inspection Report with violations for improper labeling of hazardous waste and improper storage of lead batteries
- July 2017 - SFSFD Inspection Report with violation noted for waste oil not reported to CERS
- September 2017 - Notice of Failure to Comply with Violation regarding previous citations
- October 2017 - SFSFD Certificate of compliance regarding waste oil pickup

<u>10859 Norwalk Boulevard (Currently occupied by Mako Equipment)</u>

- December 1988 - Inspection Referral for the installation of an industrial waste treatment above ground water tank without a permit
- December 1988 - Industrial Waste Disposal Permit Application June 1994 - Statement of Intended Use stating Hydraulic Repairs
- April 2000 - CUPA Inspection Report Notice of lack of labels on hazardous waste
- July 2000 - Hazardous Waste Generator Form stating that parts are cleaned
- July 2000 - Notice of Violation for improper storage of waste oil
- September 2001 - Permit application for LPG Tanks
- August 2002 - CUPA Inspection Report with notice to show legal disposal of waste oil and come into hazardous waste compliance
- January 2004 - Notice of service cancellation for FD due to business moving
- October 2016 - Notice of Violation regarding hazardous waste generation without a permit
- April 2017 - Certificate of Compliance for CERS Hazardous Waste

<u>10819 Koontz Avenue (Currently occupied by La Habra Welding)</u>

- February 1994 - Notice of Violation for Waste Oil Storage

- September 2003 - CUPA Inspection Report with note that clarifier needs to be removed or permitted
- June 2012 - SFSFD Inspection Report
- September 2012 - SFSFD Inspection Report with violations for open unused clarifier and for business plan needing to be updated
- October 2012 - Certificate of Compliance regarding proper disposal of mud and oil by American Oil Company
- August 2018 - SFSFD Inspection Report
- January 2018 - SFSFD Inspection Report with violation for 20-gallon propane cylinder not disclosed in CERS submission

10845 Koontz Avenue (Currently occupied by MJB Freight)

- October 2002 - Notice of Violation for lack of permits for propane and for an uncapped clarifier not in use
- August 2005 - SFSFD Inspection with violation for waste oil generation and lack of permit
- September 2014 - SFSFD Inspection with violation for oil AST not having a permit

10858 Koontz Avenue (Currently occupied by LenPar Rolling and Rouf's Machines)

- July 2017 - SFSFD Inspection Report with violation for waste oil generation without an EPA ID
- November 2017 - SFSFD Inspection Report

3.4.2. Additional Site Vicinity Record Sources

The SFSFD and Regional Board maintain records for, and are responsible for, enforcement of state UST and hazardous waste laws. AGE commonly reviews files for up-gradient sites under active environmental regulation to ascertain the current site status and its potential to impact the subject property. No sites, under active or past environmental regulation, were identified by the database search within the required search radius of potential concern to the property except for the following:

Continental Heat Treating, 10643 Norwalk Boulevard

This site is listed on the CPS-SLIC database identified as an active, VOC release site, and is mapped 623 feet north (up gradient) of the subject property. The facility has operated in their current location since 1969 processing metal parts. Chemicals of concern used on this property, including tetrachloroethene (PCE) and trichloroethene (TCE), were discovered to have impacted soil and groundwater in 2001. Part of the SLIC investigation includes groundwater monitoring, and groundwater monitoring wells, which are located on the subject property. Cleanup and

monitoring of this site is ongoing. According to the most recent groundwater monitoring reports produced by Fero Engineering for this facility, prepared in July 2019, PCE impact was detected above environmental screening levels in the wells on the subject property. The extent of the PCE impact on the subject property has not been fully assessed.

City of Santa Fe Springs - Little Lake Village Housing Redevelopment

The facility is listed on the CPS-SLIC database identified as an active, VOC release site and is 139 feet east (cross gradient) of the subject property. The facility has ongoing verification monitoring due to the improper disposal of chlorinated solvents, including contaminants of concern such as PCE, TCE, benzene, toluene, and xylenes, that occurred sometime before 1960. Contamination was discovered during the redevelopment in the year 2000. Further environmental assessments as obtained from Regional Water Board records show soil-vapor sampled at the border of the subject property to be contaminated.

Omega Chemical Site Regional Groundwater Plume

The Omega Chemical Site is listed on the NPL database, and it is identified as a regional VOC groundwater plume. The subject property is within plume boundaries, however the subject property has not been identified as a Potential Responsible Party (PRP) for the groundwater impact. Depth to the groundwater at the subject property has been determined to be at least 90 feet bsg, and although the plume is beneath the property, based on the depth to groundwater, it is unlikely the VOC-impacted water is an environmental concern to the subject property.

Transit Mixed Concrete Company, 12222 Florence Avenue

This site is listed on the LUST database and is mapped 292 feet east (cross gradient) of the subject property. A release of diesel fuel release from a UST affected groundwater in 1992. The site received regulatory closure in 1996. Based on the distance from and down-gradient direction to the subject property, and the regulatory status of this site, this site is not considered an environmental concern to the subject property.

3.5. PROVIDED SUBJECT PROPERTY RECORDS

No records were provided to AGE by the user and/or property owner during the course of this Phase I.

3.6. VOLATILE ORGANIC COMPOUND VAPOR ENCROACHMENT

The encroachment of hydrocarbon and volatile organic compound (VOC) vapors into soil pore space occurs when organic chemicals migrate from contaminated groundwater or soil into the airspace between soil particles. Some typical organics involved are petroleum based or chlorinated solvents (e.g., BTEX and dry-cleaning chemicals). They may have leaked into the

groundwater and/or soil from underground storage tanks, or buried waste, or from disposal in septic systems.

In compliance with ASTM Standard E2600-15 (Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions), AGE evaluated the potential for a Vapor Encroachment Condition (VEC) at the subject property. Based on a VEC screening, it was determined that 'a VEC exists' at the property. A copy of the AGE-generated Tier 1 VEC screening form is provided within Appendix D.

4.0. SITE RECONNAISSANCE

A subject property site reconnaissance was conducted by AGE representatives on 15 August 2019. At the time of the site visit the weather was warm and clear. Primary features of the property are shown in a site plan provided in Figures 2 and 3. Photographs of the subject site are included in Appendix A.

4.1. METHODOLOGY AND LIMITING CONDITIONS

The property was fully accessible during the site reconnaissance. No limiting conditions were noted.

4.2. GENERAL SITE SETTING

The subject property is a 6.44-acre parcel. Located on this 6.44-acre parcel are 9 businesses, each with their own address. The following is a description of the primary features of the subject property observed at the time of the site visit:

- 10801 Norwalk Boulevard: This area of the site is located on the northeast corner of the subject property, on the southwest corner of the intersection of Norwalk Boulevard and Florence Avenue. This site is currently occupied by Silverio's Party Rentals, a company that sells and rents party supplies. The site is comprised of 21,000 square feet with a 2,500 square foot single story commercial building occupying the southwest portion of the site. Silverio's utilizes the building and a fenced area in the rear of the building for their equipment and supplies. Other than a few 5-gallon propane tanks, Silverio does not store, use, or generate any hazardous materials. The site was a former gas station once occupied by Brother's Auto. In 1999 UST's were removed and the site was granted regulatory closure in 1999. Patched concrete and asphalt are present on the site where the former UST's and dispensers were located.
- 10825 Norwalk Boulevard: This site is located on the west side of Norwalk Boulevard immediately south of Silverio's Party Rentals. This site is currently occupied by West Coast Enterprises, a company that sells used trucks. The site is comprised of 11,000 square feet. The site has a 580 square foot cinder block building and a 250 square foot portable

structure both occupying the northwest portion of the site. Trucks are stored on the site pending sale. No major repairs are performed on site and the small quantities of oil generated from minor truck maintenance are disposed of offsite. The portion of the site that is not occupied by structures is paved with asphalt that is in good condition. West Coast Enterprises does not store hazardous materials.

- 10845 Norwalk Boulevard: This site is located on the west side of Norwalk Boulevard immediately south of West Coast Enterprises. This site is currently occupied by Quality Lift Equipment, a forklift rental, sale, and repair business. This site is comprised of 22,500 square feet with a 2,900 square foot office building occupying the east portion of the site. The office building was observed during the site visit to have acoustic ceiling in one room, which potentially could contain asbestos. The portion of the site that is not occupied by the building is paved with asphalt. There is an approximately 10 foot by 8-foot section of uncovered dirt in the northeast corner of the site. The asphalt is in poor condition throughout the site and has visible staining ranging from minor to significant. On the northeast portion of the site, approximately 20 feet south of the unpaved area, used oil is stored in 55-gallon drums. At the time of the site visit, six 55-gallon drums on spill pallets with significant staining on the asphalt around them were present. The occupant reports that the number of drums of used oil stored on site varies by need. Forklift and car batteries are stored outdoors in the yard throughout the site.
- 10859 Norwalk Boulevard: This site is located on the west side of Norwalk Boulevard immediately south of Quality Lift Equipment. This site is currently occupied by Mako Equipment, a scissor lift rental company. This site is comprised of 60,000 square feet with a 9,000 square foot tilt up cement building occupying the southern portion of the site. Mako stores and performs minor repairs to scissor lifts on site. The entire site not occupied by a building is paved with asphalt in poor condition with minor staining throughout. In the center of the property there are two 1,000-gallon AST's with one tank containing diesel fuel and the other containing gasoline. The ASTs are in good condition with no stains or leaks observed. Mako has a sump on the western portion of the site. Rinse water from the cleaning of equipment drains into the sump, which in turn is pumped into an above ground clarifier before discharge to the sewer. No significant staining was observed around the sump. Inside the warehouse, the cement is clean and in good repair. Also, inside the warehouse, 55-gallon drums of new oil, waste oil and various lubricants are stored on spill pallets. At the time of the site visit, six 55-gallon drums were observed. No staining was observed around the oil storage.
- 10819 Koontz Avenue: This site is located on the east side of Koontz Avenue, immediately south of the western portion of the dirt lot. This site is currently occupied by La Habra Welding, a welding and steel fabrication business. La Habra Welding shares space with Paramount Roll & Forming. This site is comprised of 20,700 square feet with a 7,000 square foot corrugated metal sided building occupying the northern portion of the site. An unused clarifier is located on the southern end of the site. Ken Moscript, owner of Paramount Roll & Form, reports that the clarifier is filled with dirt. Several 55-gallon drums containing new oil, waste oil, diesel fuel, and used absorbent are stored on spill pallets on the south end of the site. Ken Moscript reports that the number of 55-gallon

drums stored on site varies depending on need. At the time of the site visit eighteen 55-gallon drums were observed on site.

- 10845 Koontz Avenue: This site is located on the southeast end of the Koontz Avenue cul-de-sac, immediately south of La Habra Welding. The site is occupied by MJB Freight, a transport company. The site is comprised of 60,000 square feet. The site contains a 4,600 square foot concrete loading dock and an attached 800 square foot wood construction office occupying the center of the site. There is a separate 1,000 square foot corrugated metal sided maintenance building occupying the northeast portion of the site. The entire site not covered by buildings is paved with asphalt. The asphalt is in poor condition and has minor staining. There is an unused 3-stage clarifier east of the maintenance building on the north portion of the site. At the time of the site inspection the clarifier was unable to be opened for inspection. A 102-gallon AST containing new motor oil is located on the loading dock. The AST is in good condition with no staining observed.
- 10858 Koontz Avenue: This site is located on the southeast side of the Koontz Avenue cul-de-sac, immediately west of Mako Equipment. This site is currently occupied by LenPar Rolling and Rouf's Machines. This site is comprised of 33,500 square feet with a 5,200 corrugated metal sided building occupying the center of the site and a 350 square foot wood building occupying the southwest portion of the site. LenPar Rolling, a steel rolling and fabrication business, occupies the southern half of the yard and the smaller building. Roufs Machines, a machine and hydraulic repair business, occupies the northern half of the yard and the larger building. Areas not covered by buildings are paved in asphalt that is in poor condition with significant staining in the Rouf's Machine portion of the yard. Rouf's Machines stores 55-gallon drums of waste oil and waste hydraulic fluid, as well as at least one 250-gallon tote of hydraulic fluid on spill pallets in the northern portion of the site. At the time of the site visit, five 55-gallon drums and two 250-gallon totes were observed. LenPar rolling stores machines and equipment in the southern portion of the yard with moderate staining noted around the machines. LenPar rolling does not store any hazardous materials.
- 10850 Koontz Avenue: This site is located on the west side of Koontz Avenue, immediately north of Rouf's Machines. This site is comprised of 10,000 square feet with no structures. This site is paved with asphalt that is in poor condition. There are no listed occupants for this site, but Paramount Roll & Forming uses the area for storage.
- 12120 East Florence Avenue: This site is located on both sides of the intersection of Koontz Avenue and Florence Avenue, on the northern area of the subject property. This site is currently occupied by Paramount Roll & Forming, a steel rolling business. This site is comprised of 68,000 square feet divided into an eastern and western portion by Koontz Avenue with a 15,600 square foot corrugated metal sided building on the eastern portion of the site. The western portion of the site is an undeveloped dirt lot used for outdoor equipment storage. The south end of the western portion of the site is the historical location of an oil well that was installed in 1945 and abandoned in the year 2000. Three groundwater monitoring wells are on the Koontz Avenue side sidewalk immediately adjacent to the western portion of this site. The eastern portion of the site is occupied by

a large building and an asphalt paved yard. The northern portion of the building is a small office area. The rest of the building is a warehouse with concrete flooring. Steel bending machinery is kept in the warehouse. Three of the machines have concrete lined maintenance pits of varying depths that extend up to nine feet below the ground surface. The machines use hydraulic fluid that, according to Ken Moscript frequently leaks and is immediately cleaned up. The exterior of the building is used for the storage of new and bent steel. Metal shavings cover the asphalt of the exterior. The asphalt is in poor condition. 55-gallon drums of diesel fuel are stored on spill pallets. Ken Moscript reports that the number 55-gallon drums of diesel fuel stored on site varies according to need, but that two drums is typical. Two 55-gallon drums of diesel were observed during the site visit. Ken Moscript reported finding a 2 inch and, a 3-inch PVC pipe marked oil. These were abandoned on the eastern portion of the property, just under the surface. This occurred an unspecified number of years ago, while excavating for the installation for his equipment. Further investigation found them to be filled with water.

The following is a description of the property improvements:

Structures	10801 Norwalk Boulevard - A single story 2,500 square foot wood construction commercial building 10825 Norwalk Boulevard – A 580 square foot cinder block wall garage and a 250 square foot portable office building. 10845 Norwalk Boulevard - A 2,900 square foot single story wood construction office building 10859 Norwalk Boulevard - A 9,000 square foot concrete tilt-up building 12120 Florence Avenue - A 15,600 square foot corrugated metal sided building with a small office build out 12120 Florence Avenue - A 15,600 square foot corrugated metal sided building with a small office build out 10819 Koontz Avenue - A 7,000 square foot corrugated metal sided building 10845 800 square foot wood construction office building. A separate 1,000 square foot corrugated metal building is on the property 10858 Koontz Avenue - A 5,200 square foot corrugated metal sided building and a separate 250 square foot wood building with corrugated metal roof
Adjoining / Access / Egress Roads	Koontz Avenue runs through the center of the subject property. There are two entrances to the subject property via Florence Avenue and five entrances to the subject property via Norwalk Boulevard.
Surface Types	The majority of surface the subject property is paved with asphalt or covered by a building. The west portion of 12120 Florence Avenue is unpaved dirt. There is an unpaved area of dirt at 10845 Norwalk Boulevard. There are small areas of unpaved dirt throughout the property where the asphalt has degraded to the point of exposing the underlying soil
Additional Features	No additional features observed.
Surface Water	No surface water features were observed.

At the time of the site reconnaissance, current uses of adjacent properties included the following:

North	The property is bound by Florence Avenue to the North. North of Florence Avenue is an established commercial/industrial area extending several miles north. A visual inspection of this area via public access did not reveal any environmental concerns. It is noted that Continental Heat Treating, located approximately 600 feet north of the subject property, is on record for an unauthorized release of chlorinated solvents. Their release has impacted the ground water beneath the subject site.
South	The southeastern portion of the subject property is bordered by a vacant commercial building. The southwestern portion of the subject property is bordered by the Lakeland Villa Mobile Home Park. A visual inspection of this area via public access did not reveal any environmental concerns.
East	The subject property is bound to the east by Norwalk Boulevard. East of Norwalk Boulevard is an established commercial/industrial area extending several miles east. A visual inspection of this area via public access did not reveal any environmental concerns.
West	The subject property is bordered to the west by Angus Shoe Polish, a shoe polish manufacturing and sales company, and Western Allied Corporation, an HVAC contractor. West of these businesses is an established residential area, a community park, and a cemetery. It should be noted that the Little Lake Village Housing Redevelopment project, which includes the land Western Allied Corporation occupies, is on record for an unauthorized release of chlorinated solvents. Their release has impacted soil vapor beneath the subject property. Further discussion of the Little Lake Village Housing Redevelopment project can be found in section 3.3.2 and 3.4.2.

Current uses of the adjoining properties do not appear to be of potential environmental concern to the subject property except for the known soil vapor issue at the property adjacent to the west at the Little Lake Village Housing Redevelopment site and the known chlorinated solvent release site at Continental Heat Treating beyond the adjacent property approximately 600 north.

4.3. EXTERIOR AND INTERIOR OBSERVATIONS

The following was observed at the time of the property reconnaissance:

OBSERVED	CONDITION OBSERVED ON/AT SUBJECT PROPERTY
No	Pits, ponds or lagoons with respect to waste treatment or disposal
Yes	Stained soil or pavement, patched pavement • Stained asphalt of varying severity was observed across the subject property. Significant staining was noted at Quality Lift (10845 Norwalk Boulevard) and Rouf's Machine (10858 Koontz Avenue).
No	Stressed vegetation (from causes other than insufficient water)
No	Fill dirt from unknown source, or contaminated source
No	Solid waste (mounds or depressions suggesting waste disposal)
No	Waste water / storm water discharged into a drain, ditch or stream
Yes	Wells (abandoned, irrigation, domestic, monitoring or oil and gas) • Two abandoned oil well locations were indicated by tenants during the site visit. One was in the unpaved area north of 10819 Koontz Avenue and the other was along the southern border of 10850 Koontz Avenue
No	Dry wells

OBSERVED	CONDITION OBSERVED ON/AT SUBJECT PROPERTY
No	Septic systems or cesspools
No	Movement of hazardous materials to adjacent properties
Yes	Hazardous substances and/or petroleum products • Drums and totes of waste oil were observed throughout the subject property. 55-gallon drums were noted at Quality Lift (10845 Norwalk Boulevard), Mako Equipment (10859 Norwalk Boulevard), Rouf's Machine (10858 Koontz Ave), and La Habra Welding (10819 Koontz Avenue). An oil AST was noted at MJB Freight (10845 Koontz Avenue) and AST's of diesel and gasoline were noted at Mako Equipment (10859 Norwalk Boulevard).
Yes	Above-ground storage tanks (AST's) for storage of petroleum products and/or hazardous substances. • The business at 10845 Koontz Avenue, MJB Freight, had a 102-gallon AST for oil. The business at 10859 Norwalk Boulevard, Mako Equipment, had a 1,000-gallon AST containing diesel fuel and a 1,000-gallon AST containing gasoline. The business at 10845 Norwalk Boulevard, Quality Lift, had two AST's containing propane.
No	Underground storage tanks (UST's) for storage of petroleum products and/or hazardous substances
No	Strong, pungent or noxious odors
No	Pools of liquid (other than water)
Yes	55-gallon drum or large sack storage • Quality Lift (10845 Norwalk Boulevard), Mako Equipment (10859 Norwalk Boulevard), Paramount Rolling (12120 Florence Ave), La Habra Welding (10819 Koontz Avenue), and Roufs Machine (10858 Koontz Avenue) had 55-gallon drums on site. Per the occupants of those sites, the number of drums on-site varies depending on need.
No	Unidentified substance containers
No	Stains and/or corrosion on floors, walls or ceiling (except water)
Yes	Drains and sumps • Mako Equipment (10859 Norwalk Boulevard) has a drain that is manually pumped into an above ground clarifier.
Yes	Oil-water separator/clarifier • La Habra Welding (10819 Koontz Avenue) and MJB Freight (10845 Koontz Avenue) both had unused clarifiers on site.
No	Electrical or hydraulic equipment known to contain PCB's
Yes	Obvious signs of possible ACM's • The office of Quality Lifts (10845 Norwalk Boulevard) had acoustic ceiling tiles. All buildings had suspected asbestos containing materials, but no other asbestos presumed containing materials were observed.
No	Obvious signs of mold
No	Other areas of environmental concern

5.0. MATERIAL STORAGE

The following was observed on the site:

- Six 55-gallon drums of waste oil observed in use at Quality Lift (10845 Norwalk Boulevard)
- Six 55-gallon drums of new oil, used oil, and various lubricants observed in use at Mako Equipment (10859 Norwalk Boulevard)
- Five 55-gallon drums of used oil and hydraulic fluid and two 250-gallon totes of hydraulic fluid observed in use Rouf's Machine (10858 Koontz Avenue)
- Two 55-gallon drums of diesel fuel observed in use at Paramount Rolling (12120 Florence Avenue)
- Eighteen 55-gallon drums of new oil, used oil, and used absorbent observed in use at La Habra Welding (10819 Koontz Avenue)
- One 102-gallon AST of new oil was observed at MJB Freight (10845 Koontz Avenue)
- One 1,000-gallon diesel AST and one 1,000-gallon gasoline AST were observed at Mako Equipment (10859 Norwalk Boulevard)
- Unused clarifiers were observed at La Habra Welding (10819 Koontz Avenue) and MJB Freight (10845 Koontz).

6.0. INTERVIEWS

Interviews performed during the course of this Phase I are described below:

Interviewee	Interview Summary
Property Owner	The property owner was not interviewed during the course of the Phase I Investigation
Site Manager	The site manager was not interviewed during the course of the Phase I Investigation.
Property Occupants	The following property occupants were interviewed verbally during the course of the Phase I site visit: Ken Moscript of Paramount Roll and Forming • Mr. Moscript described a long history of industrial use for the subject property. Mr. Moscript pointed out the location of the abandoned oil well north of 10819 Koontz Avenue. Mr. Moscript disclosed that the machines at Paramount Roll & Forming (12120 Florence Avenue) frequently leak hydraulic fluid and that the same can be expected of all steel rolling machines. Mr. Moscript pointed out the location of the unused clarifier at 10819 Koontz Avenue and stated that it had been filled with dirt at the direction of the fire department. Mr. Moscript stated that he had found PVC pipes marked oil at shallow below ground depths on the east portion of Paramount Roll & Form (12120 Florence Avenue) that were filled with water. Mr. Moscript was aware of no other environmental concerns.

	Ruben Aguilar of West Coast Enterprises -Mr. Aguilar was not aware of any environmental concerns Lenny Rodgers of LenPar Rolling • Mr. Rodgers spoke to the long history of industrial use of the subject property, pointing out that his steel rolling business had operated in that location since the late 1960s. Mr. Rodgers pointed out the location of the abandoned oil well at 10850 Koontz Avenue. Mr. Rodgers was not aware of any other environmental concerns. Dan, terminal manager of MJB Freight -Dan was not aware of any environmental concerns
Local Government Officials	With the exception of file review requests, no local government officials were interviewed during the course of this Phase I.
Others	No other individuals were interviewed during the course of the Phase I Investigation

7.0. BUSINESS ENVIRONMENTAL RISKS - NON-ASTM SERVICES

Additional environmental considerations beyond the scope of the standard ASTM practice that have the potential to pose business environmental risks are discussed below.

7.1. MOLD

Molds are part of the natural environment. Outdoors, molds play a part in nature by breaking down dead organic matter such as fallen leaves and dead trees, but indoors, mold growth should be avoided. Molds reproduce by means of tiny spores; the spores are invisible to the naked eye and float through outdoor and indoor air. Mold may begin growing indoors when mold spores land on surfaces that are wet. There are many types of mold, and none of them will grow without water or moisture.

Molds are usually not a problem indoors, unless mold spores land on a wet or damp spot and begin growing. Molds have the potential to cause health problems. Molds produce allergens (substances that can cause allergic reactions), irritants, and in some cases, potentially toxic substances (mycotoxins).

At the time of the property reconnaissance, no obvious signs of mold/microbiological growth, were observed.

7.2. ASBESTOS CONTAINING BUILDING MATERIALS

Asbestos is a mineral fiber that has been used commonly in a variety of building construction materials for insulation and as a fire-retardant. Because of its fiber strength and heat resistant properties, asbestos has been used for a wide range of manufactured goods, mostly in building materials (roofing shingles, ceiling and floor tiles, paper products, and asbestos cement

products), friction products (automobile clutch, brake, and transmission parts), heat-resistant fabrics, packaging, gaskets, and coatings.

Prior to the late 1970s, building products and insulation materials commonly contained asbestos. In 1989, the USEPA banned all new uses of asbestos; however, uses developed before 1989 are still allowed. When asbestos-containing materials are damaged or disturbed by repair, remodeling or demolition activities, microscopic fibers become airborne and can be inhaled into the lungs, where they can cause significant health problems.

The existing subject property structures were constructed in a varied range of dates, which includes dates before 1980. This combined with the observation of acoustic ceiling in the building at 10845 Norwalk Boulevard indicate the possibility of asbestos containing material on site.

7.3. LEAD-BASED PAINT

Lead is a toxic metal that was used for many years in products found in and around homes. Lead-based paint (LBP) was used extensively in buildings constructed before 1950. In 1978, LBP was banned by the federal government. Lead may cause a range of health defects, from behavioral problems and learning disabilities, to seizures and death.

The existing subject property structures were constructed in a range of dates that include dates before 1980, making the presence of LBP-coated a possibility.

7.4. RADON

Radon is a naturally occurring, colorless, odorless gas that is soluble in water. It is produced through the radioactive decay of uranium and radium, which is naturally present in soil and in minerals in bedrock. Radon is radioactive, which means that it breaks down or decays to form other elements. Radon concentrations generally differ among different rock types and can vary considerably within the same geologic formation. Radon moves from its source in rocks and soils through voids and fractures. It can enter buildings as a gas through foundation cracks or it can dissolve in ground water and be carried to buildings through the use of water-supply wells. Buildings with

basements and concrete slab foundations are more susceptible to elevated levels of indoor radon gas. The inhalation of radon gas can cause damage to lung tissue.

A common unit of radioactivity measurement is picocuries per liter (pCi/L). The USEPA established the recommended safe radon level at 4 pCi/L. According to the USEPA, the subject property county, Los Angeles, is located in a low radon potential area (Zone 3), defined as having a ‘predicted average indoor radon screening level of less than 2 pCi/L'.

7.5. WETLANDS

As reported in Section 3.2., according to the EDR Report (Appendix C) the subject property is not located within a National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR from the U.S. Fish and Wildlife Service.

7.6. REGULATORY COMPLIANCE

AGE searched the subject property address, 10801 - 10859 Norwalk Boulevard, 10819 - 10858 Koontz Avenue, and 12120 Florence Avenue, Santa Fe Springs, California, on local, state and federal databases. No records were found regarding any outstanding regulatory permitting or requirements/directives in connection with the property.

8.0. EVALUATION

Any deviations from the ASTM Standard Practice 1527E-13 and USEPA AAI are presented below, along with the findings, conclusions, and opinions identified during the course of this Phase I.

8.1. DATA GAPS AND LIMITATIONS

A data gap occurs when a lack of or inability to obtain information required by this practice despite good faith efforts by the environmental professional to gather such information. Data gaps may result from incompleteness in any of the activities required by this practice, including, but not limited to site reconnaissance, and interviews. The following data gaps and/or limitations were identified during the course of this Phase I, which may deviate from the ASTM standard practice:

- The largest data gap in research was 21 years, between 1902 and 1923, with the earliest researched information being a Topographic Map dated in 1896. Data gaps generally do not exceed five years between 1923 through the present, except between 1928 and 1938 and between 1953 and 1963.

AGE considered this data gap when making recommendations and it may affect the ability to identify recognized environmental concerns.

8.2. FINDINGS

Based on the standards set by ASTM Practice E1527-13, the following findings are differentiated below as Business Environmental Risk (including the presence of asbestos-containing materials, lead-based paint, mold or moisture conditions, or non-hazardous regulated materials may

constitute a Business Environmental Risk), de minimis conditions unlikely to be subject to government enforcement, HREC's, CREC's and REC's, as defined in Section 1.1. of this report.

8.2.1. Business Environmental Risk

This assessment has revealed no evidence of potential Business Environmental Risks in connection with the subject property, except the following:

- Asbestos containing materials and lead based paint may be present in the buildings on the property based on the age of construction of the buildings (1960's -1970's). In addition, acoustic ceiling tile, a material that is known to contain asbestos, was observed at 10845 Norwalk Boulevard. AGE recommends full asbestos and lead paint surveys be performed by a licensed consultant prior to any remodeling or demolition.
- Two abandoned oil production wells are located on the subject property. The wells are mapped at 10819 Koontz Avenue and 10850 Koontz Avenue. The wells produced crude oil and were abandoned in 1974 and 2000 under regulatory well abandonment standards at the time. There is a potential that these wells will be required by the DOGGR to be re-abandoned to current standards. Any planned development of the property will need to be coordinated with DOGGR and the local land use agency.

8.2.2. De Minimis Conditions

This assessment revealed no evidence of potential or de minimis conditions in connection with the subject property, except poor housekeeping practices, such as the improper labeling of hazardous materials and the improper storage of supplies in the yard at 10845 Norwalk Boulevard and 10858 Koontz Avenue.

8.2.3. Historical Recognized Environmental Conditions

This assessment has revealed no evidence of HREC's in connection with the subject property, except for the following:

- UST's were removed in 1998 from 10801 Norwalk Boulevard (Silverio's Party Store). Although soil samples collected at the time of the UST removal contained elevated concentrations of TPH and VOC's, the Santa Fe Springs Fire Department issued a 'closure' letter in 1999.
- Records indicate the historical presence of a 10,000-gallon diesel UST and a 10,000-gallon gasoline UST at 10845 Koontz Ave (currently occupied by MJB Freight). A report by HVN Environmental Services Co, Inc. in 1996 detailed soil sampling during the removal of the two UST's. No petroleum hydrocarbons or volatile organic compounds were found at detectable concentrations.

8.2.4. Controlled Recognized Environmental Conditions

This assessment has revealed no evidence of CREC's in connection with the subject property.

8.2.5. Recognized Environmental Conditions

This assessment has revealed evidence of REC's in connection with the subject property, as follows:

- Chlorinated solvents (tetrachloroethylene PCE) and trichlorethylene (TCE)) have impacted the groundwater beneath the subject property from a release originating at Continental Heat Treating, located 623 feet north of the site in an up-gradient location. Two sets of groundwater monitoring wells were installed on the subject site as part of their on-going investigation. The PCE and TCE present in the ground water could potentially have a negative impact to both soil and soil-vapor beneath the subject site. The extent of the impact to these mediums on the subject property is unknown at this time.
- A likely vapor intrusion condition from the neighboring property immediately to the west (beyond 10845 Koontz Avenue, MJB Freight) is identified as the City of Santa Fe Springs Little Lake Housing Development site. This site has been impacted with volatile organic compounds in soil, groundwater and soil-vapor. Based upon the close proximity of this site to the subject property, this site poses an environmental concern to the subject property.
- Two in-ground clarifiers were observed, one at the south border of 10819 Koontz Avenue (Paramount Rolling/La Habra Welding), and the other at the northwest border of 10845 Koontz Avenue (MJB Freight). Potential structural issues associated with concrete clarifiers and unknown chemical discharges create the potential of subsurface soil impact.
- Extensive oil staining was observed on deteriorated and porous asphalt at 10845 Norwalk Boulevard (Quality Lift) throughout most of that site. Additionally, significant oil stained asphalt was present at 10858 Koontz Avenue (Rouf's Machine) in the vicinity of a 250-gallon tote storing used hydraulic fluid located on the northwestern portion of the site. In addition, improper storage of forklift batteries were observed on the Quality lift site. Most of the forklift batteries were stored outdoors in uncovered areas of the property without proper containment. Batteries contain a variety of metals, including lead and can easily leak if not handled properly. The porous asphalt surface where many of these batteries are stored at this site provide an easy route for lead to impact the subsurface soils.
- Metal shavings and fine metal dust from long term heavy industrial use, including steel rolling and fabrication, welding, and machine repair at 12120 Florence Avenue (Paramount Rolling), 10819 Koontz Avenue (La Habra Welding), and 10858 Koontz Avenue (LenPar Rolling) present the potential for subsurface metal contamination. Extensive areas with metal dust/shavings were observed in these areas of the property outdoors without containment. The deteriorated and porous asphalt at these locations provides a potential path to subsurface heavy metal contamination.

- Abandoned oil lines were reported to be present at 12120 East Florence Avenue by Ken Moscript, owner of Paramount Roll & Form. No record of any removal or assessment of the oil lines was available for review during the course of this Phase I. Based on the presence of these oil lines and lack of any assessment or records of removal, the oil lines pose an environmental concern to the subject property.

9.0. CONCLUSIONS AND OPINION

Advanced GeoEnvironmental, Inc. has performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E1527-13, US-EPA AAI for the property located at 10801 - 10859 Norwalk Boulevard, 10819 - 10858 Koontz Avenue, and 12120 Florence Avenue, Santa Fe Springs, California. It is the opinion of the environmental professionals that the findings and conclusions presented in this report are reasonable and prudent, given the evidence as presented. AGE identified several REC's on the subject property during the course of the Phase I including the following:

- Chemicals related to the release of chlorinated solvent (PCE and TCE) related to the unauthorized release at Continental Heat Treating to the north have impacted the groundwater of the subject property. Soil and soil-vapor have also likely been impacted.
- Vapor encroachment of VOCs from the contamination related to the City of Santa Fe Springs Little Lake Housing project have likely impacted the subject property.
- In-ground clarifiers were identified at 10819 Koontz Avenue and 10845 Koontz Avenue. Clarifiers have the potential to leak and negatively impact the subsurface.
- The poor storage and handling of various types of oils on site numerous areas of
- Heavy staining was observed throughout the property due to the poor handling and storage of oil related materials, in conjunction with the deteriorated and porous asphalt, create the likely possibility of hydrocarbon contamination impacting the subsurface soils.
- Long term industrial use of the site and the widespread presence of metal shavings and metal dust, in conjunction with cracked and porous asphalt create the likely possibility of subsurface metal contamination.
- The improper storage of batteries outdoors, in conjunction with deteriorated and porous asphalt create the likely possibility of subsurface lead contamination.
- Reports of abandoned oil lines underneath 12120 East Florence Avenue create the possibility of hydrocarbon subsurface contamination.

It the opinion of AGE that a subsurface investigation be performed at the site based on the identified RECs and environmental concerns identified during this investigation. The following scope of work is recommended to further define the environmental integrity of the subject property:

Environmental Concern	Number of Borings	Soil Sample Depth (ft)	Analysis	Number of Soil Vapor Points
SWC of Florence Avenue and Koontz Avenue				
Former Oil Well	1	5,10,15	HC, VOCs	1
Paramount Rolling & Forming (La Habra Welding) - 10819 Koontz Avenue				
Machinery inside building	2	2,5,10	HC, VOCs, Metals	
Waste Storage	1	2,5,10	HC, VOCs, Metals	1
Clarifier	1	5,10,15	HC, VOCs	1
MJB Freight - 10845 Koontz Avenue				
Clarifier	1	5,10,15	HC, VOCs	1
Drain	1	2,5	HC, VOCs	
SW Corner				1
Silverio Party Store - 10801 Norwalk Boulevard				
Former USTs	1	10,15,20	HC, VOCs	
Paramount Roll & Forming - 12120 Florence Avenue				
Machinery with 9' deep pits	2	2,5,10,15	HC, VOCs, Metals	
Storage Area (inside building)	1	2,5,10	HC, VOCs, Metals	1
Storage Area (outside)	1	2,5,10	HC, VOCs, Metals	1
Roufs Machine, LenPar Rolling - 10858 Koontz Avenue				
Storage Area - Roufs	1	2,5,10	HC, VOCs, Metals	1
Lenpar - Pit Machine	1	5,10,15,20	HC, VOCs, Metals	1
West Coast Enterprises - 10825 Norwalk Boulevard				
Maintenance Shed	1	2,5	HC, VOCs	4
Quality Lift - 10845 Norwalk Boulevard				
Yard area - staining	4	2,5	HC, VOCs, Metals	1
Mako Equipment - 10859 Norwalk Boulevard				
Sump/shed	1	5,10,15	HC, VOCs	1
Former Oil Well, southeast corner	1	5,10,15	HC, VOCs	1
TOTALS	**21**		**HC – 66 VOCs – 66 Metals - 44**	**17**

10.0. SIGNATURES OF ENVIRONMENTAL PROFESSIONALS

We declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental professional as defined in §312.10 of 40 CFR § 312 and we have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. We have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Diane Becker
Senior Geologist
California Professional Geologist 7469

Jim Bunck
Senior Environmental Professional

11.0. QUALIFICATIONS OF ENVIRONMENTAL PROFESSIONALS

Qualifications of the environmental professionals involved in the preparation of this Phase I are included in Appendix E.

APPENDIX A

Photographs of Subject Property

Photograph 1: Viewing west at front entrance to Silverio's Party Rentals. Site was a former gas station.

Photograph 2: Viewing the outdoor storage area behind the building of Silverio's of Party Rental Supplies and Equipment. No hazardous materials were observed at this site.

SITE PHOTOS

Photograph 3: Viewing the interior of Silverio's Party Rentals building.

Photograph 4: Viewing the former gas dispenser area of the Silverio's Party Rental site. The UST's were removed and the site received regulatory closure in 1999.

SITE PHOTOS

Photograph 1: Viewing the front entrance to West Coast Enterprises. The business sell used trucks.

Photograph 2: Viewing the maintenance shop and office located on the northwest corner of the site. Overall the site was clean and absent of any significant oil stains in the yard.

SITE PHOTOS

Appendix - A

Photograph 3: Viewing the interior of the maintenance shop. Only oil changes performed at the shop along with other fluids (windshield, trans, coolants etc.).

Photograph 4: Viewing the interior of storage shed located in the northeastern corner of the site. Small quantities of cleaning supplies and paint are located within this shed. Site generates small quantities of waste oil from oil changes from trucks.

SITE PHOTOS

Photograph 1: Viewing the front of the office building of Quality Lift & Equipment

Photograph 2: Viewing west at the storage area located in the western portion of the site. The surface portion of this part of the site is asphalt which is in poor conditions with cracks and exposed soil.

SITE PHOTOS

Photograph 3: Viewing one of the many areas on the site where significant oil stained asphalt was observed.

Photograph 4: Viewing an area located in the northeastern portion of the site not covered by asphalt. Numerous soil stained areas were observed in this area of the site.

SITE PHOTOS

Photograph 5: Viewing drums with used oil located on the north side of the building. Numerous oil stains were observed beneath the drums.

Photograph 6: Viewing forklift batteries located in the southern portion of the site. Other batteries (not pictured) were located on throughout the site. House-keeping as it relates to the storage and use of hazardous materials was poor for this business.

SITE PHOTOS

Appendix - A

Photograph 1: Viewing the front entrance to Mako Equipment. .

Photograph 2: Viewing lifts located in the western part of the site. Small oil stains were observed throughout the site, however, none were significant.

SITE PHOTOS

Photograph 3: Viewing the interior of the warehouse area where equipment is stored. Concrete floor in area was clean and absent of significant cracks.

Photograph 4: Viewing drums of virgin and waste oils and various lubricants located in the warehouse of the building. This area was absent of any significant floor staining. Mako performs minor maintenance on their equipment.

SITE PHOTOS

Photograph 5: Viewing the above ground gasoline and diesel fuel tanks used to fuel equipment. Tanks in good condition and no stains or leaks observed.

Photograph 6: Viewing sump located on the western portion of the site. Cleaning of equipment drains into this sump which in turn is pumped into an above ground clarifier before discharge into sewer. No significant stains on the concrete were observed in this area.

SITE PHOTOS

Photograph 1: Viewing the front entrance and building of Roufs Machine Company. Roufs specializes in repair of hydraulic equipment and parts

Photograph 2: Viewing the interior of Roufs. Various milling machines are located in this area of the building. Roufs utilizes small amounts of cutting fluids in the machines. House keeping was fair to good with no significant floor staining was observed in this area of the building.

SITE PHOTOS

Photograph 3: Viewing the outdoor area north of Roufs building where equipment is stored.

Photograph 4: Viewing the northwestern portion of Roufs site where they store their used cutting fluids and hydraulic oils from machines they take in for repairs. Numerous oil stains on the asphalt were observed in this area in front of the drums and tote pictured above. Housekeeping in this area was poor.

SITE PHOTOS

Photograph 1: Viewing the front entrance to Lenpar Rolling. Lenpar subleases a portion of there site to Roufs Machine pictured on the left.

Photograph 2: Viewing the rolling machines located on the southern portion of the site. The rolling machine pictured in the center is placed above a 9' concrete pit below it. Oil stains on the asphalts next to the machines was observed. Completed steel roll products pictured in background.

SITE PHOTOS

Photograph 1: Viewing the front entrance to MBJ Freight. This is a satellite terminal for MBJ. Terminal pictured on left, former maintenance building on right.

Photograph 2: Viewing 85 gallon tank of virgin oil located on the dock area of MBJ Freight. Oil is used by the truck drivers to top off their tractors. No oil stains were observed under on near this tank.

SITE PHOTOS

Photograph 3: Viewing building located on the northwestern portion of the site. Building used for maintenance by previous tenant. Used as storage now.

Photograph 4: Viewing 3-stage clarifier located near the former maintenance building. Drain to clarifier located on the north side of the building. At the time of our inspection we were unable to pull off the lids to the clarifier for inspection.

SITE PHOTOS

Photograph 1: Viewing the western portion of the Paramount Roll & Forming building. Office pictured on left, manufacturing pictured in middle.

Photograph 2: Viewing Paramount Roll & Forming building located on the west side of Koontz.

SITE PHOTOS

Photograph 3: Viewing the interior production area of Paramount Roll's building located on the east sid of Koontz.

Photograph 4: Viewing one of the many machines at Paramount Roll & Forming used to bend and form steel. Many of these machines extend below the surface of the building up to 9' deep within concrete lined pits.

SITE PHOTOS

Photograph 5: Viewing the outdoor storage area located on the eastern portion of the building.

Photograph 6: Viewing an covered outdoor storage area located on the south-eastern portion of the building. Various parts and equipment are stored in this area.

SITE PHOTOS

Appendix - A

Photograph 7: Viewing the steel rolling machine located in building located on the western side of Koontz.

Photograph 8: Viewing the top of a three stage clarifier located on the south side of the western building. The owner indicated they have never used the clarifier. Due to the pile of metal over this area we were unable to inspect the interior of the clarifier.

SITE PHOTOS

Photograph 9: Viewing drums of virgin hydraulic oil and diesel fuel located on the southern portion of the western building.

Photograph 10: Viewing the waste oil and contaminated solid debris located next to the drums in photograph 9 above. Area was mostly clean with only minor stains on the concrete surface area around the drums.

SITE PHOTOS

Photograph 1: Viewing 3 monitoring wells located on the northeast portion of the vacant site at the corner of Florence and Koontz.

Photograph 2: Viewing spot where former oil well was located on the vacant parcel located on the corner of Florence and Koontz.

SITE PHOTOS

Photograph 3: Viewing 3 monitoring wells located on the west side of Koontz in front of MBJ Freight site.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Advanced GeoEnvironmental,Inc. were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Certified Sanborn Results:

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

Disclaimer - Copyright and Trademark Notice

This Report contains certain information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, Inc. It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. **NO WARRANTY EXPRESSED OR IMPLIED, IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. ENVIRONMENTAL DATA RESOURCES, INC. SPECIFICALLY DISCLAIMS THE MAKING OF ANY SUCH WARRANTIES, INCLUDING WITHOUT LIMITATION, MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE OR PURPOSE. ALL RISK IS ASSUMED BY THE USER. IN NO EVENT SHALL ENVIRONMENTAL DATA RESOURCES, INC. BE LIABLE TO ANYONE, WHETHER ARISING OUT OF ERRORS OR OMISSIONS, NEGLIGENCE, ACCIDENT OR ANY OTHER CAUSE, FOR ANY LOSS OR DAMAGE, INCLUDING, WITHOUT LIMITATION, SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR EXEMPLARY DAMAGES. ANY LIABILITY ON THE PART OF ENVIRONMENTAL DATA RESOURCES, INC. IS STRICTLY LIMITED TO A REFUND OF THE AMOUNT PAID FOR THIS REPORT.** Purchaser accepts this Report "AS IS". Any analyses, estimates, ratings, environmental risk levels or risk codes provided in this Report are provided for illustrative purposes only, and are not intended to provide, nor should they be interpreted as providing any facts regarding, or prediction orforecast of, any environmental risk for any property. Only a Phase I Environmental Site Assessment performed by an environmental professional can provide information regarding the environmental risk for any property. Additionally, the information provided in this Report is not to be construed as legal advice.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1920 through 2014. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

RE: Metal Building
10819 S.Koontz Ave.

Gentlemen:

We wish to advise that we are the owner of the lot adjoining 10819 S. Koontz Avenue on the north and that this lot will not be sold or disposed of as a separate unit from the entire tract. However, in the event such was done a firewall would be constructed at the north end of the metal building which would meet the fire and safety requirements of the City of Santa Fe Springs, California.

Accordingly we request your approval for this building to be constructed adjacent to the north property line in accordance with the revised plot plan. Said plot plan has been approved by the Planning Commission at its January 26, 1970 meeting per Development Plan Approval Case No. 63.

Very truly yours,

HATHAWAY COMPANY

Richard F. Hathaway

BUSINESS NAME LA HABRA WELDING INC SIC # 5482 APPROXIMATE DATE OF OCCUPANCY 10-1-14

SITE ADDRESS 10819 KOONTZ AVE UNIT # _____ TELEPHONE (562) 923-2229

The following information is required before a new business inspection can take place. Inspections are performed by the Fire Department. Deviation from this statement may affect your occupancy classification and could require building and/or fire protection upgrades. You must notify the City's Building and Fire Departments before making any changes in use/occupancy.

CHECK THE APPROPRIATE BOXES BELOW	YES	NO
1. Will you be storing or warehousing a product or commodity in an area exceeding 500 sq. ft.? If so, complete items A & B below.	✓	
A. Rack storage over 12 feet in height?		✓
B. Plastics, rubber goods, tires, flammable liquids, idle pallets over 6 feet in height?		✓
2. Will you be cooking food commercially?		✓
3. Will you have compressed gases?	✓	
4. Will there be any LPG storage outside the building?		✓
5. Will you be using industrial baking or drying ovens?		✓
6. Will you be welding or cutting, using flame producing devices?	✓	
7. Will you be installing any spray booths or is there an existing spray booth in this building?		✓
8. Will you be repairing any vehicles inside the building?		✓
9. Will assemblies in excess of 49 persons take place on your premises (conference rooms, lunchrooms, restaurants, etc.)?		✓
10. Will you be doing any operations that produce explosive or flammable DUST (woodworking, sanding/grinding of any wood material, metal polishing, etc.)?		✓
11. Will you be applying flammable and/or combustible finishes?	✓	
12. Will you be using and/or installing any dip tanks?		✓

CHECK THE APPROPRIATE BOXES BELOW	YES	NO
13. Will there be any LPG stored or used inside the building other than tanks on forklifts?		✓
14. Will you handle, use, or store any hazardous materials in tanks, drums, containers or any closed or open system?	✓	
15. Will you have explosives, blasting agents or radioactives?		✓
16. Are the quantities of hazardous materials handled greater than 499 lbs., 54 gal., 199 cu. ft. or over the Threshold Planning Quantity for materials regulated by CalARP?		✓
17. Are there or will there be any active or inactive, or closed underground storage tanks on the property?		✓
18. Does your site have any visible or below ground contamination from past or present chemical use?		✓
19. Will you generate, store, transport, or treat any hazardous waste (used oil, spent parts cleaner solution, waste anti-freeze, waste ink, waste paint thinner, metal sludge, etc.)?	✓	
20. Will you generate and/or discharge any wastewater (non-domestic) to the sewer system?		✓
21. Does your facility's SIC code fall within the industrial or commercial category for the storm water program? Refer to storm water fact sheet.		✓

Business Description: WELDING FABRICATION & MANUFACTURING. (#14 ~~NO~~ SEE BELOW)

#11 - NO SPRAYING ONLY ROLL ON FINISHES

The above information is correct and true to the best of my knowledge. Failure to provide correct information may result in fines up to $2,000 per day of violation and/or imprisonment. The City of Santa Fe Springs is not responsible for any losses resulting from any permitted process.

FEES DUE: New business/New location Inspection Fees (Check appropriate box below)

☑ Up to 100,000 sq. ft per floor $ 215.00 ; Approximate sq. ft. 3,000. ☐ Over 100,000 sq. ft. per floor $ 420.00 ; Approximate sq. ft. _____.

X Signature of Responsible Party	Print Name	Title	Date
	GERALD F WACHEL	CORP SEC	9-25-14

The use of this business is classified as a Group MIN. occupancy per the Uniform Building Code F-1/S-1 (Initial) Date 9/26.

BUILDING DIVISION COMMENTS:

(#14) SEE BELOW, < MAQ. (#11) NO SPRAYING.

- ☐ Existing establishment (possibly non-conforming), no change in the nature of business, change of name/ownership only.
- ☐ This occupancy group classification was based on the review of the "Amounts of Hazardous Materials" tables provided by the applicant.
- ☐ See the backside of this sheet for conditions of approval (Building Code Requirements).

FIRE DEPARTMENT COMMENTS:

✓ HMBP, HMC (paint related, rolling), CERS info provided. Chemicals < MAQ per CFC

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: Also known as Superfund, the National Priority List database is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund program. The source of this database is the U.S. EPA.

A review of the NPL list, as provided by EDR, and dated 04/11/2019 has revealed that there is 1 NPL site within approximately 1 mile of the target property.

EXECUTIVE SUMMARY

Federal CERCLIS list

SEMS: SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

A review of the SEMS list, as provided by EDR, and dated 04/11/2019 has revealed that there are 2 SEMS sites within approximately 0.5 miles of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 04/11/2019 has revealed that there are 5 SEMS-ARCHIVE sites within approximately 0.5 miles of the target property.

Federal RCRA CORRACTS facilities list

CORRACTS: CORRACTS is a list of handlers with RCRA Corrective Action Activity. This report shows which nationally-defined corrective action core events have occurred for every handler that has had corrective action activity.

A review of the CORRACTS list, as provided by EDR, and dated 03/25/2019 has revealed that there is 1 CORRACTS site within approximately 1 mile of the target property.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

A review of the RCRA-TSDF list, as provided by EDR, and dated 03/25/2019 has revealed that there are 2 RCRA-TSDF sites within approximately 0.5 miles of the target property.

Federal RCRA generators list

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 03/25/2019 has revealed that there are 5 RCRA-LQG sites within approximately 0.25 miles of the target property.

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 03/25/2019 has revealed that there are 14 RCRA-SQG sites within approximately 0.25 miles of the target property.

US INST CONTROL: A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

A review of the US INST CONTROL list, as provided by EDR, and dated 01/31/2019 has revealed that there is 1 US INST CONTROL site within approximately 0.5 miles of the target property.

CA ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the CA ENVIROSTOR list, as provided by EDR, and dated 04/29/2019 has revealed that there are 19 CA ENVIROSTOR sites within approximately 1 mile of the target property.

Local Lists of Registered Storage Tanks

CA SWEEPS UST: Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990's. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list.

A review of the CA SWEEPS UST list, as provided by EDR, and dated 06/01/1994 has revealed that there are 18 CA SWEEPS UST sites within approximately 0.25 miles of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 03/25/2019 has revealed that there are 31 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

EXECUTIVE SUMMARY

CA LOS ANGELES CO LF METHANE: This data was created on April 30, 2012 to represent known disposal sites in Los Angeles County that may produce and emanate methane gas. The shapefile contains disposal sites within Los Angeles County that once accepted degradable refuse material. Information used to create this data was extracted from a landfill survey performed by County Engineers (Major Waste System Map, 1973) as well as historical records from CalRecycle, Regional Water Quality Control Board, and Los Angeles County Department of Public Health

A review of the CA LOS ANGELES CO LF METHANE list, as provided by EDR, and dated 04/30/2012 has revealed that there is 1 CA LOS ANGELES CO LF METHANE site within approximately 0.5 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 4 EDR Hist Auto sites within approximately 0.125 miles of the target property.

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Summary Details:

Conditions at Proposal September 29, 1998): The Omega Chemical Corporation Omega) site is a former ha ardous waste treatment and storage facility that operated from 1976 to 1991 on a 40,000-square foot property in Whittier, Los Angeles County,California. Omega conducted solvent recovery using an on-site fractionation and distillation process and operated as a storage and transfer facility for various ha ardous waste classifications. Ha ardous wastes stored on site contained mainly chlorinated and aromatic solvents. In June 1995, before removal activities, the Omega site consisted of thousands of drums of ha ardous waste, two roll-off bins of hardened resin material, hundreds of empty but contaminated drums, numerous cylinders with capacities ranging from 15 to 20,000 pounds, and various other smaller containers of waste and/or ha ardous waste. Inside the on-site warehouse there were hundreds more 55-gallon drums that Omega claimed to be product and assorted smaller containers of ha ardous material. Since 1991, the California Department of Toxic Substances Control DTSC) and EPA s Ha ardous Waste Management Division have been actively trying to get the owner/operator to remove the wastes and clean up the site.In March 1995, the site owner/operator plead guilty to two felony counts of illegal storage and disposal of ha ardous wastes. On May 9, 1995, EPA issued CERCLA Administrative Order No. 95-15 to the owner of Omega and to generators of ha ardous waste that had shipped major quantities of material to Omega. During 1995, EPA s Superfund Emergency Response Office oversaw Phase I removal activities, during which contractors to a responsible party group removed all ha ardous materials and wastes from the site. Phase II site activities began in November 1995 and included collection and analyses of subsurface soil and ground water at the site. Analytical results indicated that subsurface soil samples were mainly contaminated with tetrachloroethene PCE), with lesser amounts of trichloroethene, dichloroethene and other chlorinated hydrocarbons, Freons and metals. PCE contamination was detected in soil at concentrations ranging from 1.9 milligrams per kilogram mg/kg) to 510 mg/kg. Ground water samples collected at the site contained PCE up to 86,000 micrograms per liter as well as significant concentrations of other chlorinated hydrocarbons and

OMEGA CHEMICAL SITE PRP ORGANIZED GROUP (Continued) **1000232419**

Freons. Phase II activities documented the presence of PCE in shallow ground water ina plume that extends almost 1 mile downgradient of the site. Although the ground water samples were collected in the shallow regional aquifer of the Lakewood Formation and most of the municipal drinking water wells draw water from the San Pedro Formation, California Department of Water Resources hydrogeologic cross-sections of the Lakewood and Upper San Pedro Formations indicate that aquifers are interconnected within 2 miles of the site. Eight water purveyors draw ground water from 35 wells within 4 miles of the site to supply drinking water to approximately 284,270 people. The nearest well to the site is 1.3 miles to the west. This and nearly two-thirds of the wells within 4 miles draw water from the Lakewood and Upper San Pedro formation aquifers. The San Gabriel River is the nearest surface water body at approximately 2.5 miles from the site. The site is located in a mixed industrial and residential community, with residences located across Whittier Boulevard tothe northeast. Status January 1999): EPA is considering various alternatives for the site. The description of the site release) is based on information available at the time the site was scored. The description may change as additional information is gathered on the sources and extent of contamination. See 56 FR 5600, February 11, 1991, or subsequent FR notices.

Hazardous Waste Summary:

. Waste code: D001
. Waste name: IGNITABLE WASTE

. Waste code: D002
. Waste name: CORROSIVE WASTE

. Waste code: D028
. Waste name: 1,2-DICHLOROETHANE

. Waste code: D029
. Waste name: 1,1-DICHLOROETHYLENE

. Waste code: D039
. Waste name: TETRACHLOROETHYLENE

. Waste code: D040
. Waste name: TRICHLORETHYLENE

. Waste code: F002
. Waste name: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2, TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Summary:

. Waste code: D001
. Waste name: IGNITABLE WASTE

. Waste code: D002
. Waste name: CORROSIVE WASTE

. Waste code: D028
. Waste name: 1,2-DICHLOROETHANE

. Waste code: D029
. Waste name: 1,1-DICHLOROETHYLENE

. Waste code: D039
. Waste name: TETRACHLOROETHYLENE

. Waste code: D040
. Waste name: TRICHLORETHYLENE

. Waste code: F002
. Waste name: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2, TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

FINDS:

Registry ID: 110002652013

Environmental Interest/Information System
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Site Name:	Oil Well Service Company
Violation Date:	08-27-2018
Citation:	HSC 6.95 25508.2 - California Health and Safety Code, Chapter 6.95, Section(s) 25508.2
Violation Description:	Failure to annually review and electronically certify that the business plan is complete and accurate on or before the annual due date.
Violation Notes:	Returned to compliance on 09/27/2018. The business failed to electronically submit and certify that the business plan is complete, accurate, and in compliance with EPCRA on or before the annual due date. Electronically submit and certify that the business plan is complete, accurate, and in compliance with EPCRA within 30 days. On an ongoing basis, electronically submit and certify the business plan annually on or before the annual due date.
Violation Division:	Santa Fe Springs Fire-Rescue
Violation Program:	HMRRP
Violation Source:	CERS
Site ID:	358317
Site Name:	Oil Well Service Company
Violation Date:	08-27-2018
Citation:	HSC 6.5 25250.22 - California Health and Safety Code, Chapter 6.5, Section(s) 25250.22
Violation Description:	Failure to properly manage used oil and/or fuel filters in accordance with the requirements.
Violation Notes:	Returned to compliance on 09/27/2018. 1-55 gallon drum oil filters located in the hazardous waste accumulation area was observed WITHOUT WITHOUT A LABEL, and AN ACCUMULATION START DATE. Provide documentation indicating drum of used oil filters has been properly labeled.
Violation Division:	Santa Fe Springs Fire-Rescue
Violation Program:	HW
Violation Source:	CERS
Site ID:	358317
Site Name:	Oil Well Service Company
Violation Date:	08-27-2018
Citation:	40 CFR 1 262.34(d)(5)(iii) - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 262.34(d)(5)(iii)
Violation Description:	Failure to ensure that all employees are thoroughly familiar with proper waste handling and emergency procedures, relevant to their responsibilities during normal facility operations and emergencies.
Violation Notes:	Returned to compliance on 09/27/2018. Employees are not thoroughly familiar with proper waste handling and emergency procedures as demonstrated by the number and/or type of hazardous waste violations

CITY OF SANTA FE SPRINGS - LITTLE LAKE VILLAGE HOUSING REDEV (Continued) **S118504515**

Global Id:	SL0603790818
Lead Agency:	LOS ANGELES RWQCB (REGION 4)
Lead Agency Case Number:	Not reported
Latitude:	33.9346013699316
Longitude:	-118.075003623962
Case Type:	Cleanup Program Site
Case Worker:	EPL
Local Agency:	Not reported
RB Case Number:	1138B
File Location:	Regional Board
Potential Media Affected:	Aquifer used for drinking water supply, Soil
Potential Contaminants of Concern:	Benzene, Tetrachloroethylene (PCE), Toluene, Trichloroethylene (TCE), Xylene
Site History:	A natural gas processing plant was located within the southwest portion of the study area and was demolished around 1960 when the area was commercially redeveloped. Environmental assessment and remediation activities, focusing on the former natural gas processing plant were overseen by the County of Los Angeles initially, then later by the City of Santa Fe Springs (SFS) beginning in 2000. By mutual agreement, the SFS had a lead oversight role for the purpose of soil cleanup and closure while the Regional Water Quality Control Board (Regional Board) oversaw site activities with regard to groundwater protection. Four entities agreed in 2002 to participate in a consortium to address environmental issues in what came to be called the Mini-Regional Study Area in the City of Santa Fe Springs. The entities are: the City of Santa Fe Springs (Little Lake Village senior housing project, Consolidated Graphics, Kimmerle Brothers, Inc., and Bemshaw Group (Western Allied Property). The Study Area is bound to the west by Fulton Wells Road, to the east by Koontz Avenue, to the north by Florence Avenue, and extending 610 to 1,240 feet southward from Florence toward Lakeland Road as shown on the attached Figure. Site assessment Soil borings were advanced in February 1988, after it was determined that elevated levels of hydrocarbons were present (currently this comprised the northern half of LLV) based on a soil vapor survey conducted on the John Alexander & Associates property in December 1987/January 1988. The County of Los Angeles Fire Department and Department of Health Services, oversaw site investigation and remediation activities until 2000. As part of the acquisition of the LLV property, the City of Santa Fe Springs (SFS) retained Alaska Petroleum Environmental Engineering, Inc. (Alaska Petroleum) to perform a Phase I Environmental Site Assessment, Phase II Site Characterization (Phase II), a methane gas survey, and oversee a Human Health Risk Assessment (HHRA), and a hydrocarbon fate-and-transport (FAT) study. The latter two reports were prepared by Enviro-Tox Services, Inc. using Phase II analytical data collected by Alaska Petroleum. The June 2002 HHRA and FAT reports determined that: 1) The installation of subsurface passive venting and/or vapor barriers could result in the reduction of estimated cancer risks to levels below the one-in-a-million cancer health risk, and 2) It will take between 78 and 1,000 years for the petroleum hydrocarbon constituents to reach groundwater, and due to the soil moisture the concentrations, would either most likely fall below current USEPA MCLs and drinking water standards or not reach groundwater at all. The SFS Fire Department reviewed the draft HRA to determine if there would be any requirements pertaining to further investigation, future monitoring or proposed mitigating measures that applied to the City property development. City Fire concluded that no further action was

CITY OF SANTA FE SPRINGS - LITTLE LAKE VILLAGE HOUSING REDEV (Continued) **S118504515**

required at this time other than the installation of a subsurface, passive methane venting system (e.g., a vapor barrier) under all residential buildings. However, City Fire also stated that this does not preclude any other requirements imposed by other regulatory agencies such as the Regional Water Board. SFS had no further requirements for the Little Lake Village housing project but continued assessment was required on three adjacent properties (Consolidated Graphics, Kimmerle Brothers and Western Allied) in order to delineate hydrocarbons in the subsurface. Alaska Petroleum subsequently submitted a Phase II workplan for the Mini-Regional study area in January 2004. Site investigation continued through September 2005. The final Mini-Regional Study report was submitted in May 2006. In 2007, soil vapor surveys were implemented on the three remaining properties, after which Consolidated Graphics and Kimmerle Brothers were granted a NFA (soil only) by the City of Santa Fe Springs. Further assessment has been required the City of Santa Fe Springs for either an Indoor Air Quality Study or HHRA at the Western Allied property. Some of the soil vapor and soil matrix samples contained chemicals of concern in concentrations above some of the guidance screening levels. These samples were a small percentage of the total collected and were delineated with no detectable concentrations. As required by the Regional Board, three groundwater monitoring wells were installed. Quarterly sampling was performed on September 10, 2007 and November 21, 2007. The sampling results indicated the primary chemicals of concern in the overlying soil (ex. benzene, ethylbenzene, toluene, and xylenes) were generally not detected in the groundwater or present in concentrations below MCLs. Chlorinated hydrocarbons (TCE, PCE) detected above MCLs in the groundwater were generally not detected in the overlying soil, above the capillary zone. The highest chlorinated hydrocarbon concentrations were detected in the most upgradient well, along the property boundary. The foregoing information indicates the source of the chlorinated hydrocarbons is off-site. The Regional Board has information regarding several sites in the upgradient direction that have documented chlorinated hydrocarbon impacts to groundwater. Remediation Soil impacted with total petroleum hydrocarbons was removed from the former location of the natural gas processing plant to depths between 10 and 30 feet. A contoured excavation diagram can be used to estimate that approximately 35 tons of soil were removed and treated via bioremediation under the oversight of the County of Los Angeles. Closure Closure is pending for the Consolidated Graphics and Kimmerle Brothers properties

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART)

KIMMERLE BROS INC (Continued) **1000819446**

provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

FINDS:

Registry ID: 110009545199

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

FIRST AUTO SERVICE (Continued) **S113770515**

Violations:

Site ID:	373752
Site Name:	First Auto Service
Violation Date:	02-07-2018
Citation:	22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Description:	Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.
Violation Notes:	Returned to compliance on 03/05/2018. 8-55 gallon drums of used oil located in the rear area of property, were observed without a hazardous waste label. Submit documentation to the CUPA demonstrating that the container listed above has been properly labeled.
Violation Division:	Santa Fe Springs Fire-Rescue
Violation Program:	HW
Violation Source:	CERS

Site ID:	373752
Site Name:	First Auto Service
Violation Date:	02-07-2018
Citation:	HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)
Violation Description:	Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.
Violation Notes:	Returned to compliance on 03/05/2018. Owner/Operator is a small quantity generator and failed to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles), or has failed to comply with the conditions of CCR 66262.34(d) and has stored hazardous waste over 90 days. Dispose of hazardous waste that has been stored over the applicable time limit and provide documentation that the violation has been corrected.

Violation Source: CERS

Site ID: 373752
Site Name: First Auto Service
Violation Date: 02-07-2018
Citation: HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)
Violation Description: Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.
Violation Notes: Returned to compliance on 03/05/2018. Owner/Operator is a small quantity generator and failed to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles), or has failed to comply with the conditions of CCR 66262.34(d) and has stored hazardous waste over 90 days. Dispose of hazardous waste that has been stored over the applicable time limit and provide documentation that the violation has been corrected.

FINDS:

Registry ID: 110002833961

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

FINDS:

Registry ID: 110002860315

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Site ID:	390519
CERS ID:	10506286
CERS Description:	Hazardous Chemical Management

Violations:

Site ID:	390519
Site Name:	Continental Heat Treating
Violation Date:	09-16-2014
Citation:	HSC 6.5 25143.10 - California Health and Safety Code, Chapter 6.5, Section(s) 25143.10
Violation Description:	Failure of any person who recycles more than 100 kilograms per month of recyclable material under a claim that the material qualifies for exclusion or exemption, to provide the following information every two years: 1) The name, site address, mailing address, and telephone number of the owner or operator of any facility that recycles the material. 2) The name and address of the generator of the recyclable material. 3) Documentation that the requirements of any exemptions or exclusions pursuant to HSC 25143.2 are met, including the following: A) Where a person who recycles the material is not the same person who generated the recyclable material, documentation that there is a known market for disposition of the recyclable material and any products manufactured from the recyclable material. B) Where the basis for the exclusion is that the recyclable material is used or reused to make a product or as a safe and effective substitute for a commercial product, a general description of the material and products, identification of the constituents or group of constituents, and their approximate concentrations, that would render the material or product hazardous under the regulations adopted pursuant to HSC 25140 and 25141, if it were a waste, and the means by which the material is beneficially used.
Violation Notes:	Returned to compliance on 09/23/2014.

Violation Date: 09-16-2014
Citation: HSC 6.5 25143.10 - California Health and Safety Code, Chapter 6.5, Section(s) 25143.10
Violation Description: Failure of any person who recycles more than 100 kilograms per month of recyclable material under a claim that the material qualifies for exclusion or exemption, to provide the following information every two years: 1) The name, site address, mailing address, and telephone number of the owner or operator of any facility that recycles the material. 2) The name and address of the generator of the recyclable material. 3) Documentation that the requirements of any exemptions or exclusions pursuant to HSC 25143.2 are met, including the following: A) Where a person who recycles the material is not the same person who generated the recyclable material, documentation that there is a known market for disposition of the recyclable material and any products manufactured from the recyclable material. B) Where the basis for the exclusion is that the recyclable material is used or reused to make a product or as a safe and effective substitute for a commercial product, a general description of the material and products, identification of the constituents or group of constituents, and their approximate concentrations, that would render the material or product hazardous under the regulations adopted pursuant to HSC 25140 and 25141, if it were a waste, and the means by which the material is beneficially used.

Violations:

Site ID:	390519
Site Name:	Continental Heat Treating
Violation Date:	09-16-2014
Citation:	HSC 6.5 25143.10 - California Health and Safety Code, Chapter 6.5, Section(s) 25143.10
Violation Description:	Failure of any person who recycles more than 100 kilograms per month of recyclable material under a claim that the material qualifies for exclusion or exemption, to provide the following information every two years: 1) The name, site address, mailing address, and telephone number of the owner or operator of any facility that recycles the material. 2) The name and address of the generator of the recyclable material. 3) Documentation that the requirements of any exemptions or exclusions pursuant to HSC 25143.2 are met, including the following: A) Where a person who recycles the material is not the same person who generated the recyclable material, documentation that there is a known market for disposition of the recyclable material and any products manufactured from the recyclable material. B) Where the basis for the exclusion is that the recyclable material is used or reused to make a product or as a safe and effective substitute for a commercial product, a general description of the material and products, identification of the constituents or group of constituents, and their approximate concentrations, that would render the material or product hazardous under the regulations adopted pursuant to HSC 25140 and 25141, if it were a waste, and the means by which the material is beneficially used.
Violation Notes:	Returned to compliance on 09/23/2014.
